ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following should be read in conjunction with our audited financial statements and related notes included elsewhere in this Form 10-KSB. The following discussion contains forward-looking statements. Please see the Introductory Statement in Part I for further information relating to such forward looking statements.

Overview

Our operations for 2005 were primarily affected through our wholly and/or minority owned subsidiaries, including RoboServer Systems Corp., Self-Serve Technologies, Inc., Net2Auction, Inc., Net2Auction Corporation, AuctionWagon, Inc., Auction Boulevard, Inc., and West Texas Real Estate Resources., and VoIPCOM USA, Inc.

We generate shareholder value by buying, selling and managing companies. The Company is consistently receiving offers to buy new entities and sell our existing subsidiaries. We entertain all serious offers and all of our assets are available for sale if we receive an attractive enough offer. The Company's 2005 acquisitions of AWI, VCMU, and AB's assets represent the type of growth opportunities we are looking for in future transactions. The Company continues to search for other viable business entities that have operations with revenues and net profits that are in niche industries that would compliment the Company's existing operations.

Management is encouraged by the prospects of its market expansion opportunities with NAI drop-off sites which have increased from 23 in 2004 to 47 locations with an additional 25 affiliate locations that were part of the AWI acquisition. The Company has also managed to pick-up approximately 9 new commercial business accounts whereby the Company is providing wholesale liquidation services with these companies. Management expects the number of locations to increase over the course of 2006.

Management has observed favorable market trends for RoboServer's self-serve kiosk application with installations of its self-serve kiosk application in Angelo's Fast-Food in Encinitas, CA, and a Dairy Queen in Oceanside, CA. With more industries seeking out self-serve technologies to provide more efficient service for the customers, management believes an ever changing and expanding market is developing for the Self-Serve Kiosk technologies.

The Company can sustain its cash requirements without raising additional funds for the next six months. While the Company is not currently undertaking fundraising activities, both RBSY and NAI are currently engaged in fundraising activities. Further, the Company is attempting to settle as much debt from the balance sheet as possible. As such, the Company entered a settlement agreement with Mr. Delmar Janovec whereby common stock was issued to Janovec in exchange for the retirements of the \$1,217,773 debt the Company owed Janovec as of December 31, 2004.

The Company does not expect any significant changes in the number of employees.

Results of Operation

Revenues for the fiscal year ended December 31, 2005 increased to \$149,321 from \$101,912 in revenues for 2004. The operating loss increased to \$2,674,694 for 2005, as compared to \$2,518,536 in 2004, as a result in a increase of General and Administrative expenses from \$66,759 2004 to \$490,446

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

for 2005, and an increase in consulting expenses from \$511,439 for 2004 to \$1,273,475 in 2005. The operating loss is also attributable to an increase in legal and professional expenses of \$361,147 for 2005 as compared to \$94,136 for 2004 as a result of increased acquisition activity by the Company.

10

The Company's net loss decreased to \$1,987,576 in 2005 as compared to a net loss of \$2,518,536 in 2004. The decrease in net loss resulted from the one-time extraordinary write-down expense in fixed assets by the Company in 2004 when its oil lease expired.

Expenses	2005	2004
General and Administrative	490,446	66,759
Consulting	1,273,475	511,439
Employee Salaries and Bonuses	100,000	100,000
Interest Expense	(120,637)	(109,114)
Legal and Professional	361,147	94,136

Liquidity and capital resources

The Company's current assets as of December 31, 2005 are \$168,765. This amount is in cash, inventory, and a note receivable. Other assets and fixed assets are \$363,319, and \$147,828, net depreciation.

For the year ended December 31, 2005, the Company's account payable were \$68,330. The Company had notes payable to other parties in the amount of \$759,513 and accrued interest totaling \$120,637

The Company plans to increase its liabilities by acquiring additional income producing assets in exchange for its securities, and attempting to settle additional payables with equity. The Company hopes to continue to improve shareholder equity by acquiring income-producing assets which are generating profits.

Going Concern

The Company has relied upon its chief executive officer, Delmar Janovec, for its capital requirements and liquidity. The Company will continue to seek alternate sources of financing to allow the Company to acquire other operating entities which may improve the Company's weak liquidity and capital resources. Additionally, the Company may continue to use its equity and resources of its chief executive officer to finance operations. However, no assurances can be provided that the Company will be successful in acquiring assets, whether revenue-producing or otherwise, or that Mr. Janovec will continue to assist in financing the Company's operations.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of Ameriresource Technologies, Inc. as of December 31, 2005, and the results of its operations and cash flows for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 9 to the financial statements, the Company has suffered losses from operations and current liabilities exceed current assets, all of which raise substantial doubt about its ability to continue as a going concern. Management's plans in regards to these matters are also described in Note 9. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of business and business combinations

AmeriResource Technologies, Inc., a Delaware corporation, was incorporated March 3, 1989 for the purpose of providing diversified civil engineering services throughout the United States, to be accomplished through acquisitions of small to mid-size engineering firms. On July 16, 1996, the Company changed its name to AmeriResource Technologies, Inc. In February 2002, the Company agreed to a 100 to 1 reverse split of the common stock. On October 27, 2004 a majority of the shareholders of the Company voted to effectuate a 40 to 1 reverse split of the common stock that became effective on December 17, 2004. These financial statements retroactively reflect the reverse split in the financial statement and these notes.

On July 19, 2000 the Company acquired all of the outstanding stock in West Texas Real Estate and Resources', Inc. (West Texas) for a convertible note payable in the amount of \$1,700,000. West Texas owned the rights to certain leased oil rights that had a value exceeding \$10,000,000 which had been reflected in a certified audit report issued to West Texas for the leased oil rights. The lease that had been entered into in October of 1999 by the Company was for a period of five years which expired on October 4, 2004, pursuant to the terms of the lease. Therefore, the Company wrote off the lease in the amount of \$1,700,000 as of October 4, 2004.

On September 30, 2001, the Company acquired all the outstanding stock of Jim Butler Performance, Inc. (Jim Butler) in exchange for 100,000,000 shares of common stock valued at \$450,000. Jim Butler manufactures custom automobile motors. This agreement was rescinded effective December 31, 2003 therefore; the Company reflected this adjustment in the statements as of December 31, 2003.

A Stock Exchange Agreement was executed on September 17, 2003 and made effective on January 27, 2004 whereby the Company acquired a 40% interest in 449 Corporation ("449") and WDHQ Corporation ("WDHQ") for 10,000,000 shares of the Company's common stock and \$60,000 cash. The Company paid \$30,000 with the signing of the revised Stock Exchange Agreement with the balance to be paid on or before July 31, 2004. 449 and WDHQ operate a business that has four franchises located in San Diego and Palm Springs, California, St. Louis, Missouri, and Miami, Florida, as EagleRider. EagleRider provides rental of Harley Davidson motorcycles and recreational equipment. This investment was being accounted for as a non-marketable equity investment by the Company. On April 22, 2005, the Company entered into a Stock Purchase Agreement with Don and Charlene Swedo whereby the Company sold its 40% interest in both 449 and WDHQ for a total purchase price \$55,000.

A Purchase Agreement was executed on May 18, 2004 whereby the Company

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

acquired the rights to the POS software and hardware, and a self-serve application for 25,000,000 shares of R-144 common stock from Curtis Chambers, the developer and soft-ware engineer. The software is used in the restaurant and fast-food industry to allow customers to place their own orders whereby reducing labor expense for the business and offers a

variety of improved management reports for the business owners. The POS Self-Serve product has been installed in two different Fast-Food chains and will begin marketing the product to other potential customers.

On August 26, 2004, the Company entered into an agreement whereby it sold all of its 100% interest in its subsidiary Self-Serve Technologies, Inc. to RoboServer Systems Corp. In exchange, RoboServer Systems Corp. transferred to the Company 25,000,000 shares of RoboServer Systems Corp. Common Stock and 6,500,000 shares of RoboServer Systems Corp. Super Voting Preferred Stock. The Super Voting Preferred stock was subsequently issued to an officer and director of the Company, and a consultant for services rendered in connection with the transaction. Following the transaction, the Company owns less than 50% of all of the voting rights in RoboServer Systems Corp. Accordingly, the Company accounts for the stock ownership as a marketable security. RoboServer Systems Corp. is a developer of self-serve and point-of-sale technologies such as self-serve kiosks and order stations for use by restaurants and the fast-food industry. The purchase price was determined arbitrarily; however, the marketable securities are currently trading, and will be accounted for as marketable securities available for sale in the future.

On December 2, 2004, the Company entered into an agreement whereby, it sold all of its 100% interest in its subsidiary, Net2Auction Corporation, to Net2Auction, Inc. In exchange, Net2Auction, Inc. transferred to the Company 25,000,000 shares of Net2Auction, Inc. Common Stock and 6,500,000 shares of Net2Auction, Inc. SuperVoting Preferred Stock. Following the transaction, the Company owns approximately 99% of all of the voting rights in Net2Auction, Inc. Net2Auction, Inc. is a licensed and authorized reseller to eBay where it operates online auction drop-off locations with strategic partnerships that allow customers to make money by selling their surplus possessions while saving them time with no hassles.

On September 30, 2005, the Company's subsidiary, NAI, executed a Stock Exchange Agreement with AWI's shareholders, whereby the AWI shareholders transferred to NAI 100% of the outstanding common stock of AWI to NAI in exchange for 1,825,000 shares of NAI's common stock. AWI is engaged in the business of providing software design and product development for businesses that are in the business of selling on eBay.

NAI provided the AWI shareholders a Price Protection on the Net2Auction shares in the event the share price is below the share price of its common stock at the close of trading on October 6, 2007, Net2Auction will issue within thirty days following the October 6, 2007 date, an additional one million ninety-five thousand (1,095,000) shares of NAI common stock to be distributed to the AWI Shareholders pro rata.

On September 14, 2005, the Company's subsidiary, NAI, executed an Asset Purchase Agreement with Netelectronics.com and Jake Ptasznik, the sole shareholder of the

Netelectronics.com, for the assets of Netelectronics.com and trade name, Auction Boulevard, Inc. AB, like NAI, conducts sales on eBay for customers who drop off items at AB's place of business. The Agreement called for a payment of \$45,000 in cash, with an additional issuance of 17,177 shares of NAI common stock valued at \$0.49 per share, to Jake Ptasznik.

On April 15, 2005, the Company acquired twenty-three million (23,000,000) shares (the "Shares"), or approximately 97% of the outstanding voting common stock, of VoIPCOM USA, Inc. Although VCMU currently has no operations, its capital structure and broad base of shareholders position makes the entity a good candidate for the acquisition of assets.

The acquisition was made pursuant to a certain Share Purchase Agreement, dated April 15, 2005, between the Company and BBG, Inc. The purchase price for the Shares was eighty thousand dollars (\$80,000.00), with the purchase being treated as an investment in subsidiaries. The Company has not decided what course of action it will undertake with VCMU, and is exploring its options for VCMU as to the consideration of reselling the Shares or placing assets into VCMU.

On April 12, 2005, the Company executed a Convertible Promissory Note (the "Note") to CIDA Asset Management for \$80,000. The Note was executed to obtain funds to finance the purchase of the VCMU shares in relation to the Stock Purchase Agreement. The Note accrues interest at the rate of prime plus three percent, with all unpaid principle and interest due on or before November 12, 2005. The Note was amended and extended on or about November 4, 2005 to November 4, 2006 whereby the note was transferred back to VoIPCOM USA, Inc. with the conversion of stock into VoIPCOM USA, Inc. The note is guaranteed by the Parent, AmeriResource.

Basis of presentation

The accompanying financial statements have been prepared in conformity with principles of accounting applicable to a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company has incurred continuing losses and has not yet generated sufficient working capital to support its operations. The Company's ability to continue as a going concern is dependent, among other things, on its ability to reduce certain costs, and its obtaining additional financing and eventually attaining a profitable level of operations.

It is management's opinion that the going concern basis of reporting its financial condition and results of operations is appropriate at this time. The Company plans to increase cash flows and to take steps towards achieving profitable operations through the merger with or acquisition of profitable operations.

Principles of consolidation

The consolidated financial statements include the combined accounts of AmeriResource Technologies, Inc., West Texas Real Estate & Resources, Inc., Net2Auction, Inc.,

Net2Auction Corporation, AuctionWagon, Inc., AuctionSoft Pro, Inc., and RoboServer Systems Corp., Self-Serve Technologies, Inc., and VoIPCOM USA, Inc. All material intercompany transactions and accounts have been eliminated in consolidation.

Cash and cash equivalents

For the purpose of the statement of cash flows, the Company considers currency on hand, demand deposits with banks or other financial institutions, money market funds, and other investments with original maturities of three months or less to be cash equivalents.

Property, Plant and Equipment

The Company's fixed assets are presented at cost. Certain Subsidiaries use tax depreciation methods which approximates straight-line. Related depreciation and amortization expense for the years ended December 31, 2005, and 2004, was \$ 21,313 and \$281, respectively.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. In these financial statements assets and liabilities involve extensive reliance on management's estimates. Actual results could differ from those estimates.

Revenue Recognition

The Company recognized revenue on the accrual basis, records income as earned, and recognizes expenses as incurred.

Income tax

For the years ended December 31, 2005 and 2004, the Company elected to file a consolidated tax return and the income tax provision is on a consolidated basis. Prior to 1992, the Subsidiaries filed separate corporate returns.

Effective January 1, 1993, the Financial Accounting Standards Board (FASB) issued FASB No. 109, "Accounting for Income Taxes". FASB No. 109 requires that the current or deferred tax consequences of all events recognized in the financial statements be measured by applying the provisions of enacted tax laws to determine the amount of taxes payable or refundable currently or in future years. There was no impact on from the adoption of this standard.

Deferred income taxes are provided for temporary differences in reporting income for financial statement and tax purposes arising from differences in the methods of accounting for construction contracts and depreciation.

Construction contracts are reported for tax purposes and for financial statement purposes on the percentage-of-completion method. Accelerated depreciation is used for tax reporting, and straight-line depreciation is used for financial statement reporting.

Loss per common share

Loss per common share is based on the weighted average number of common shares outstanding during the period. Options, warrants and convertible debt outstanding are not included in the computation because the effect would be anti-dilutive.

Recent Accounting Pronouncements

In November 2004, the FASB issued SFAS No. 151, Inventory Costs. SFAS No. 151 is an amendment of Accounting Research Bulletin ("ARB") No. 43, chapter 4, paragraph 5 that deals with inventory pricing. SFAS No. 151 clarifies the accounting for abnormal amounts of idle facility expenses, freight, handling costs and spoilage. Under previous guidance, paragraph 5 of ARB NO. 43, chapter 4, items such as idle facility expense, excessive spoilage, double freight, and rehandling costs might be considered to be so abnormal, under certain circumstances, as to require treatment as current period charges. This Statement eliminates the criterion of "so abnormal" and requires that those items be recognized as current period charges. Also, SFAS No. 151 requires that allocation of fixed production overheads to the cost of conversion be based on the normal capacity of the production facilities. SFAS No. 151 is effective for fiscal years beginning after June 15, 2005. The Company is analyzing the requirements of SFAS No. 151 and believes that its adoption will not have any significant impact on the Company's financial position, results of operations or cash flows.

In December 2004, the FASB issued SFAS No. 123R, Share-Based Payment. SFAS No. 123R is a revision of SFAS No. 123, Accounting for Stock-Based Compensation, and supersedes APB 25. Among other items, SFAS No. 123R eliminates the use of APB 25 and the intrinsic value method of accounting and requires companies to recognize the cost of employee services received in exchange for awards of equity instruments, based on the grant date fair value of those awards in the financial statements.

The effective date of SFAS No. 123R is the first reporting period beginning after June 15, 2005, and the Company expects to adopt SFAS No. 123R effective July 1, 2005. SFAS No. 123R permits companies to adopt its requirements using either a "modified prospective" method, or a "modified retrospective" method. Under the "modified prospective" method, compensation cost is recognized in the financial statements beginning with the effective date, based on the requirements of SFAS No. 123R for all share-based payments granted after that date and based on the requirements of SFAS No. 123 for all unvested awards granted prior to the effective date of SFAS No. 123R. Under the "modified retrospective" method, the requirements are the same as under the "modified prospective" method, but also permits entities to restate financial statements of

Recent Accounting Pronouncements

previous periods based on proforma disclosures made in accordance with

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

SFAS No. 123. The Company is currently evaluating the appropriate transition method. Through December 31, 2005, the Company had not had any stock-based compensation awards. Statement of Financial Accounting Standards SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities", SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", were recently issued. SFAS No, 149, and 150 have no current applicability to the Company or their effect on the financial statements would not have been significant.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections" ("SFAS 154"). SFAS 154 replaces Accounting Principles Board Opinion No. 20 "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements—An Amendment of APB Opinion No. 28." SFAS 154 provides guidance on the accounting for and reporting of accounting changes and error corrections. SFAS 154 requires "retrospective application" of the direct effect of a voluntary change in accounting principle to prior periods' financial statements where it is practicable to do so. SFAS 154 also redefines the term "restatement" to mean the correction of an error by revising previously issued financial statements. SFAS 154 is effective for accounting changes and error corrections made in fiscal years beginning after December 15, 2005 unless adopted early. We do not expect the adoption of SFAS 154 to have a material impact on its consolidated financial position, results of operations or cash flows, except to the extent that the statement subsequently requires retrospective application of a future item.

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155, Accounting for Certain Hybrid Financial Instruments ("SFAS No. 155"), which amends Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities ("SFAS No. 133") and Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities ("SFAS No. 140"). SFAS No. 155 permits fair value measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or hybrid financial instruments containing embedded derivatives. We expect the adoption of SFAS 155 to have a material impact on its consolidated financial position, results of operations or cash flows.

Recent Accounting Pronouncements

In March 2006, the FASB issued Statement of Financial Accounting Standards No. 156, Accounting for Servicing of Financial Assets ("SFAS No. 156"), which amends FASB Statement No. 140 ("SFAS No. 140"). SFAS 156 may be adopted as early as January 1, 2006, for calendar year-end entities, provided that no interim financial statements have been issued. Those not choosing to early adopt are required to apply the provisions as of the beginning of the first fiscal year that begins after September 15, 2006 (e.g., January 1, 2007, for calendar year-end entities). The intention of the new statement is to simplify accounting for separately recognized servicing assets and liabilities, such as those common with mortgage securitization activities, as well as to simplify efforts to obtain hedge-like accounting. Specifically, the FASB said FAS No. 156 permits a servicer using derivative financial

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

instruments to report both the derivative financial instrument and related servicing asset or liability by using a consistent measurement attribute, or fair value. We do not expect the adoption of SFAS 155 to have a material impact on its consolidated financial, results of operations or cash flows.

2. RELATED PARTY TRANSACTIONS

At December 31, 2005 and 2004, the Company had notes payable to officers, a former officer and other stockholders. These notes were retired and stock was issued in satisfaction of the notes payable. In addition, there was related interest expense incurred and accrued interest that the Company paid by issuing stock.

The Company also issued Super Voting Preferred Stock in RoboServer Systems Corp. to an officer for services rendered.

An officer of the Company loaned \$3,067.03 to the Company during the year ended December 31, 2005, and is owed an additional \$50,000 for his salary that had been accrued during 2005. The note is payable on demand, and is non-interest bearing.

In Decemebr 2005, the Company's subsidiary, Net2Auction, issued 189,000 shares of Common stock in Net2Auction to an officer of the subsidiary to purchase two vans valued at \$35,000.

5. STOCKHOLDERS' EQUITY (CONTINUED)

On February 22, 2002, the Company filed a "Certificate of Designation" with the Secretary of State with the State of Delaware to designate

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

750,000 shares of its Preferred Stock as "Series D Preferred Stock". Each share of the Series D Stock shall be convertible into one share of common stock of the Company. Each share of the outstanding Series D Preferred shall be redeemable by the Corporation at any time at the redemption price. The redemption price shall equal \$.001 per share with interest of 8% per annum. The holders of the Series D shall be entitled to receive \$.001 per share before the holders of common stock or any junior securities receive any amount as a result of liquidation.

During the fourth quarter of 2004, the Company amended a note payable that included the issuance of a new class E preferred at the rate of one share of Series E Stock for each four shares of ARET Common Stock held by the note holder. The Series E Stock can be redeemed by the Company at the rate of .50 (fifty cents) per share. The Series E Stock can be converted into Common Stock at the rate of \$.50 (fifty cents) divided by the 50% of the average closing price of the Common Stock on the five business immediately preceding the delivery of notice of exercising the right of conversion.

Both Series A and B preferred stock bear a cumulative \$.125 per share per annum dividend, payable quarterly. The shareholders have a liquidation preference of \$1.25 per share, and in addition, all unpaid accumulated dividends are to be paid before any distributions are made to common shareholders. These shares are subject to redemption by the Company, at any time after the second anniversary of the issue dates (ranging from August 1990 through December 1995) of such shares and at a price of \$1.25 plus all unpaid accumulated dividends. Each preferred share is convertible, at any time prior to a notified redemption date, to one common share. The preferred shares have equal voting rights with common shares and no shares were converted in 2005.

Dividends

Dividends are not payable until declared by the Company. At December 31, 2001, the amount of dividends in arrears on the preferred stock was \$1.6 million. The majority of the interest (approx 90%) owed on the dividends in the arrears were owed to Delmar Janovec, the President and majority stockholder.

Delmar Janovec exchanged the dividends owed in the approx. amount of \$1.6 million for the 1,000,000 shares of Class C Preferred Stock that was established in February 2002. There would be nothing owed to DAJ as of the date of conversion. However, there would be some owed to the other Holders of A & B Classes, and to DAJ subsequent to the exchange.

6. INCOME TAX

No current or deferred tax provision resulted as there was both an accounting and a tax loss for each of the periods presented. The primary permanent differences between tax and accounting losses are non-tax deductible penalties, losses from closure of subsidiaries and amortization of certain goodwill.

The Company has available for income tax purposes, a net operating loss carry-forward of approximately \$17,000,000 expiring from 2005 to 2024, including \$970,000 subject to certain recognition limitations. A valuation allowance for the full amount of the related deferred tax

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

asset of approximately \$1,380,000 has not been recorded, since there is more than a 50 percent chance this will expire unused.

The significant temporary differences are associated with bad debts, deferred compensation and accrued vacation.

All of the net operating losses carryforward of approximately \$14,000,000 is subject to significant recognition limitations due to the merger with Tomahawk.

7. OTHER COMMITMENTS AND CONTINGENCIES

The Company's subsidiaries are typically subject to various claims arising in the ordinary course of business which usually relate to claims of professional negligence or contract breaches.

The Company is currently covered adequately for business insurance, auto and workmen's compensation insurance meeting the standard limits that are customary in the industry. The Company carries general liability, workmen's compensation, auto insurance, and an excess umbrella liability policy meeting the standard requirements for the Company's current operations. The Company did not carry general liability insurance for the year 2004 as the operations did not require coverage for this specific insurance.

JBP was acquired by the Company on September 26, 2001 from Wasatch Business Investors, Inc. ("WBI") and Covah, LLC ("Covah"). The Company recently learned of a promissory note in the amount of between \$350,000 and \$550,000 that was apparently executed by interim management of JBP in the few days between WBI's purchase of JBP from Jim Butler, and WBI's sale of JBP to the Company. This apparently has resulted in a lien being placed on JBP's assets. As the agreement between WBI, Covah, and the Company required that the Company acquire JBP from WBI and Covah free and clear of any encumbrances. The Company was unable to resolve this material misrepresentation therefore, notified WBI and Covah, LLC on March 19, 2004 they were in breach of the contract, and the contract was being rescinded pursuant, to the terms of the agreement.

American Factors Group, LLC filed suits against the Company and certain subsidiaries for breach of contract and fraud in the extension of credit in a factoring agreement. An arbitrator was appointed and a hearing was held in July of 1998. As a result of this arbitration proceeding, the Company executed a settlement and release agreement whereby, it agreed to pay \$422,066 in exchange for dismissal of all claims against it and certain of its subsidiaries.

7. OTHER COMMITMENTS AND CONTINGENCIES (CONTINUED)

The amount is to be paid by the Company in weekly payments of not less than \$2,500 which has been modified both orally and in writing several times since August 10, 2000. The Company has modified the terms of the original agreement on or about February 28, 2005 which states that the note payable at December 31, 2004 is \$422,932 plus accrued interest of \$109,114 and bears interest at 18% and is payable in one year.

The IRS notified Rod Clawson, a Director of the Company and former President of the engineering subsidiaries, the IRS was filing a lien against him personally, for the payment of taxes created by the

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

Subsequently, several meetings were held and an agreement was reached on or about March 22, 2001, with the IRS whereby, Mr. Clawson will pay \$50,000 per month until the amount of approximately \$282,000 constituting principal and interest, is paid in its entirety. Mr. Clawson was not able to meet the payment terms and has made payments in the amount of approximately, \$118,000. Mr. Clawson was in the process of finalizing an Offer and Compromise with the IRS however, the IRS has placed the file on an inactive status.

On March 28, 2006, the Company received notice that a complaint had been filed in Superior Court of California, San Diego County, Case No. 862855, against the Company, Delmar A. Janovec, individually, Woltjen Law Firm, Kevin Woltjen, individually, and Justin Keener, individually, by the Plaintiff, Dave Stark, a former consultant to the Company, for breach of contract, fraud, promise made without intent to perform, conspiracy, and breach of implied covenant of good faith and fair dealing, misrepresentation, negligent misrepresentation of fact relating to compensation earned by Stark under a consulting agreement entered into between Stark and the Company. The Company and its counsel have been in discussions with the plaintiff regarding a settlement as well as preparing its case to defend the Company should the complaint proceed through the Courts.

- 1.1 AFG, AMRE, and Janovec hereby agree that the Debt will be reduced to \$350,000 and repaid in accordance with this Section 1.1,

CODE OF BUSINESS CONDUCT & ETHICS
OF
AMERIRESOURCE TECHNOLOGIES, INC.

Statement by Chief Executive Officer:

Ethics are important to AmeriResource Technologies, Inc. ("AMRE") and each of its officers, directors and employees. AMRE is committed to the highest ethical standards and to conducting its business with the highest level of integrity. An uncompromising adherence to ethical excellence is integral to creating and sustaining a successful business. It provides the necessary strong foundation on which AMRE is built and on which it can grow and prosper.

Each officer, director and employee of AMRE is responsible for the consequences of his or her actions. We must each be the guardian of AMRE's ethics. Leaders in AMRE have the extra responsibility of setting an example by their personal performance and an attitude that conveys our ethical values. That example leads us to treat everyone with honesty and respect.

If you are unsure of the appropriate action, take advantage of our open door, informal environment and raise your concerns with management or, if you are still uncomfortable, follow the processes outlined in this Code of Business Conduct & Ethics ("Code").

/s/ Delmar Janovec

Delmar Janovec, Chief Executive Officer

25

CODE OF BUSINESS CONDUCT & ETHICS
OF
AMERIRESOURCE TECHNOLOGIES, INC.

The principles of this Code are expressed in broad statements to guide ethical decision making. These statements provide a framework but they cannot and do not dictate conduct to cover particular situations.

This Code applies to all officers, directors and employees of AMRE.

Ethics

AMRE and each of its officers, directors and employees must conduct their affairs with uncompromising honesty and integrity. Business ethics are no different than personal ethics. The same high standard applies to both. As an AMRE associate you are required to adhere to the highest standard regardless at all times.

Officers, directors and employees are expected to be honest, fair, respectful and ethical in dealing with each other, with shareholders, clients, customers, vendors and all other third parties. Doing the right thing means doing it right every time.

You must also respect the rights of your fellow officers, directors and employees, as well as third parties. Your actions must be free from discrimination, libel, slander or harassment. Each person must be accorded equal opportunity, regardless of age, race, sex, sexual preference, color, creed,

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

religion, national origin, marital status, veteran's status, handicap or disability.

Misconduct cannot be excused because it was directed or requested by another. In this regard, you are expected to alert management whenever an illegal, dishonest or unethical act is discovered or suspected. You will never be penalized for reporting your discoveries or suspicions.

AMRE conducts its affairs consistent with the applicable laws and regulations of the states and countries where it does business. Business practices, customs and laws differ from country to country. When conflicts arise between AMRE's ethical practices, and the practices, customs, and the laws of a country, AMRE seeks to resolve them consistent with its ethical beliefs. If the conflict cannot be resolved consistent with its ethical beliefs, AMRE will not proceed with the proposed action giving rise to the conflict. These ethical standards reflect who we are and are the standards by which we choose to be judged.

A violation of the standards contained in this Code of Business Conduct & Ethics will result in corrective action, including possible dismissal.

Loyalty

All officers, directors and employees shall exhibit loyalty in all matters pertaining to the affairs of AMRE or to whomever they may be rendering a service. However, no officer, director or employee shall knowingly be a party to any illegal or improper activity.

26

Conflicts of Interest

You must avoid any personal activity, investment or association which could appear to interfere with good judgment concerning AMRE's best interests. You may not exploit your position or relationship with AMRE for personal gain. You should avoid even the appearance of such a conflict. For example, there is a likely conflict of interest if you:

- cause AMRE to engage in business transactions with relatives or friends; use nonpublic AMRE, shareholder, client, customer or vendor information for personal gain by you, relatives or friends (including securities transactions based on such information);

- have more than a modest financial interest in AMRE's shareholders, vendors, customers, clients or competitors; or receive a loan, or guarantee of obligations, from AMRE or a third party as a result of your position at AMRE; or

- compete, or prepare to compete, with AMRE while still employed by AMRE.

There are other situations in which a conflict of interest may arise. If you have concerns about any situation, follow the steps outlined in the Section on "Reporting Ethical Violations."

Gifts, Bribes and Kickbacks

Other than for modest gifts given or received in the normal course of business (including travel or entertainment), neither you nor your relatives may give gifts to, or receive gifts from, AMRE's shareholders, clients, customers and vendors. Other gifts may be given or accepted only with prior approval of your senior management. In no event should you put AMRE or yourself in a position that would be embarrassing if the gift was made public.

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

Dealing with government employees is often different than dealing with private persons. Many governmental bodies strictly prohibit the receipt of any gratuities by their employees, including meals and entertainment. You must be aware of and strictly follow these prohibitions.

Any associate who pays or receives bribes or kickbacks will be immediately terminated and reported, as warranted, to the appropriate authorities. A kickback or bribe includes any item intended to improperly obtain favorable treatment.

27

Illegal Acts

Every officer, director and employee will obey the laws of the applicable jurisdictions, will not counsel nor assist any person to act in any way contrary to these laws, and will inform the appropriate individuals and authorities if they become aware of illegal actions.

Loans

AMRE is prohibited by the Sarbanes-Oxley Act of 2002 from directly or indirectly extending credit to its officers and directors.

Improper Influence on Audits

Officers and directors of AMRE are prohibited from improperly influencing AMRE's auditors in the performance of an audit for the purpose of rendering financial statements materially misleading.

If AMRE is required to restate its financial statements due to material noncompliance with any financial reporting requirement that is the result of misconduct, each of AMRE's chief executive officers and chief financial officers must reimburse the Company for (1) any bonus, other incentive-based compensation or equity-based compensation received by that individual from AMRE during the 12-month period following the first use or filing of the flawed document, and (2) any profits realized from the sale of securities of AMRE during that same 12-month period.

Improper Use or Theft of AMRE Property

Every officer, director and employee must safeguard AMRE property from loss or theft, and may not take such property for personal use. AMRE property includes confidential information, software, computers, office equipment, and supplies. You must appropriately secure all AMRE property within your control to prevent its unauthorized use. Using AMRE computers or communications systems to access or distribute personal/ "non-business related" information, data or graphics is strictly prohibited.

Covering Up Mistakes; Falsifying Records

Mistakes should never be covered up, but should be immediately fully disclosed and corrected. Falsification of any AMRE, client, customer, shareholder or third party record is strictly prohibited.

28

Abuse of AMRE, Shareholder, Client, Customer or Vendor Information

You may not use or reveal AMRE, shareholder, client, customer or vendor confidential or proprietary information to others. This includes business

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

methods, pricing and marketing data, strategy, computer code, screens, forms, experimental research, and information about AMRE's current, former and prospective shareholders, customers, clients and associates.

Gathering Competitive Information

You may not accept, use or disclose the confidential information of our competitors. When obtaining competitive information, you must not violate our competitors' rights. Particular care must be taken when dealing with competitors' clients, ex-clients and ex-employees. Never ask for confidential or proprietary information. Never ask a person to violate a non-compete or non-disclosure agreement. If you are uncertain, the Corporate Legal Department can assist you.

Defamation and Misrepresentation

Aggressive marketing and selling should not include misstatements, innuendo or rumors about our competition, their services, financial condition or officers and directors. Do not make unsupportable promises concerning AMRE's services or financial condition. Additionally, intentional misstatements regarding AMRE, our officers, directors or shareholders is strictly prohibited and will be remedied with the appropriate legal recourse.

Use of AMRE and Third Party Software

AMRE and third party software may be distributed and disclosed only to officers, directors and employees authorized to use it.

AMRE and third party software may not be copied without specific authorization and may only be used to perform assigned responsibilities.

All third party software must be properly licensed. The license agreements for such third party software may place various restrictions on the disclosure, use and copying of software.

Fair Dealing

No AMRE officer, director or employee should take unfair advantage of anyone through manipulation, concealment, abuse of privileged information, misrepresentation of material facts, or any other unfair dealing practice.

Fair Competition and Antitrust Laws

AMRE must comply with all applicable fair competition and antitrust laws. These laws attempt to ensure that businesses compete fairly and honestly and prohibit conduct seeking to reduce or restrain competition. If you are uncertain whether a contemplated action raises unfair competition or antitrust issues, the Corporate Legal Department can assist you.

29

Securities Trading

It is usually illegal to buy or sell securities using material information not available to the public. Persons who give such undisclosed "inside" information to others may be as liable as persons who trade securities while possessing such information. Securities laws may be violated if you, or any relatives or friends trade in securities of AMRE, or any of its shareholders, clients, customers, or vendors, while possessing "inside" information. If you are uncertain, the Corporate Legal Department can assist you.

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

Officers and directors of AMRE are prohibited from trading during so-called retirement fund "blackout" periods, which are those blackout periods that are imposed on tax-qualified defined contribution plans, such as 401(k) plans. Profits received from transactions in violation of this provision are subject to recapture for the benefit of the Company.

Political Contributions

No company funds may be given directly to political candidates. You may, however, engage in political activity with your own resources on your own time.

Waivers

The Code of Business Conduct & Ethics applies to all AMRE officers, directors and employees. There shall be no waiver of any part of the Code, except by a vote of the Board of Directors or a designated committee, which will ascertain whether a waiver is appropriate and ensure that the waiver is accompanied by appropriate controls designed to protect AMRE.

In the event that any waiver is granted, the waiver will be posted on the AMRE website, thereby allowing the AMRE shareholders to evaluate the merits of the particular waiver.

Enforcement Procedures

The Code must be supported with clear, orderly, and reasonable enforcement procedures if AMRE is to discipline persons who violate the Code. Enforcement procedures must be equitable to all parties. They must ensure no actions are taken in an arbitrary or malicious manner.

Reporting Ethical Violations

Your conduct can reinforce an ethical atmosphere and positively influence the conduct of fellow officers, directors and employees. If you are powerless to stop suspected misconduct or discover it after it has occurred, you should report it to the appropriate level of management. If you are still concerned after speaking with management or feel uncomfortable speaking with them (for whatever reason), you may send a complaint evidencing the violation to the chief executive officer of AMRE at 3440 East Russell Road, Suite 217, Las Vegas, NV 89120. Your complaint will be dealt with confidentially and you have AMRE's commitment that you will be protected from retaliation.

30

The complaint must:

be against a single individual; and

be in writing; and

cite the specific clause of the Code that is alleged to have been violated; and

describe the specific action in question; and

describe in general terms, the substantial negative effect of that action upon AMRE, the public, or an individual; and o contain a statement that the specific action of the accused in question is not already or imminently (to the best knowledge of the complainant(s)) the subject of legal proceedings; and

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

contain a signed statement that the facts are true to the best knowledge of the complainant(s).

The chief executive officer, or his representative, will review the complaint to determine if it meets the above criteria. If it does not, it will be returned to the complainant(s) for possible change and re-submission. If the specific action of the accused is the subject of legal proceedings, no further action will be taken until those proceedings are concluded. If the complaint is not rejected then, subject to legal advice, the accused person will be notified (by registered mail to last known address), provided with a copy of the complaint, and allowed thirty (30) days to prepare a written rebuttal of the complaint if so desired. The rebuttal should address the same points as the complaint, and must also include a statement that the facts contained in the rebuttal are true to the best knowledge of the accused. The chief executive officer, or his representative, shall review the complaint and, if available, the rebuttal, to determine if there is sufficient evidence to hold a full hearing. If it is determined that a full hearing is warranted, the full information will be forwarded to a three-member Hearing Committee appointed within thirty (30) days of the receipt of the rebuttal or at the last date allowed for receipt of the rebuttal.

The Hearing Process

The Hearing Committee will attempt to interview, at the expense of AMRE, the complainant(s), and the accused, plus any other parties with relevant information. The number of people interviewed, and the extent of the effort to secure interviews, is a matter of judgment by the Hearing Committee. The Hearing Committee will decide if the accused may be present during the interviews. If the accused is not allowed to be present during the interviews, the accused shall be provided with notes documenting the substance of the interviews. The accused will be afforded the opportunity for a full hearing, with the complainant(s) present if desired by the accused. The Hearing Committee should have the services of legal counsel available as required. The accused, and the complainant(s), may obtain counsel at their own expense, if either or both desire. The Hearing Committee, after full and complete deliberation, will rule in writing as to the individual case. Additional rules and procedures shall be established by the Hearing Committee as required in their judgment. The ruling of the Hearing Committee may be:

1. a clearing of charges; or
2. a warning statement to the accused; or
3. termination of the accused's position; or
4. such other ruling as the Hearing Committee in its discretion sees fit.

31

The Hearing Committee will prepare an opinion on the particular case that will cover the facts of the case, the action taken, and the reason for that action. This will be reviewed by the Board of Directors of AMRE and by legal counsel at the discretion of the Board of Directors. When approved this opinion will be sent to the accused, who may consider exercising the Appeal Process. Due diligence should be used to provide this opinion to the accused within 120 days of the receipt of the complaint by the Hearing Committee. If this is not possible, a letter should be sent to the chief executive officer of AMRE, with copies to the accused and complainant(s), requesting an extension of this limit, and stating the reason for this request.

The Appeal Process

If not satisfied with the ruling of the Hearing Committee, the accused may appeal to the chief executive officer of AMRE within 30 days of issuance of

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

the Hearing Committee opinion. If appealed, the following procedure will be used:

1. The Board of Directors, at its next scheduled meeting, or at a special meeting, shall review the opinion, and any other information available, and shall determine if:

a substantive procedural error has been committed by the Hearing Committee, or substantial new evidence has been produced.

The accused and the complainant are permitted legal counsel at the Board of Directors appeal session. The Board of Directors shall determine if, in its sole judgment, one of the two above noted criteria have been established, in which case the council shall refer the matter back to the previous or a new Hearing Committee for further proceedings.

The decision of the Board of Directors shall be final and there shall be no further appeal.

Publication and Record Retention

After the Appeal Process and any further proceedings have been exhausted, or after completion of the time allowed to initiate an Appeal Process, the opinion will be published on AMRE's website, if the ruling was the termination of the accused, and will be published at the request of the accused, if the ruling was a clearing of charges or issue of warning statement.

The record of the Hearing Committee and all appropriate supporting documentation will be retained by AMRE for two years. Response to queries may include statistical information that does not reveal detail about a specific complaint, such as the number of complaints processed, provided the approval of the Board of Directors is obtained, or responses may include copies of information previously published. Any other information may be released only with the written permission of the Board of Directors, the accused, and the accuser(s).

Conclusion

In the final analysis you are the guardian of AMRE's ethics. While there are no universal rules, when in doubt ask yourself:

32

Will my actions be ethical in every respect and fully comply with the law and with AMRE policies? o Will my actions have the appearance of impropriety?

Will my actions be questioned by my supervisors, associates, clients, family and the general public? o Am I trying to fool anyone, including myself, as to the propriety of my actions?

If you are uncomfortable with your answer to any of the above, you should not take the contemplated actions without first discussing them with management. If you are still uncomfortable, please follow the steps outlined above in the Section on "Reporting Ethical Violations."

Any associate who ignores or violates any of AMRE's ethical standards, and any member of management who penalizes a subordinate for trying to follow these ethical standards, will be subject to corrective action, including immediate dismissal. However, it is not the threat of discipline that should govern your actions. We hope you share our belief that a dedicated commitment to

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10KSB

ethical behavior is the right thing to do, is good business, and is the surest way for AMRE to become and remain a respected and successful company.
