**Item 1.01. Entry into a Definitive Material Agreement.**

On September 14, 2010, Net 1 UEPS Technologies, Inc. (the Company ) entered into a share purchase agreement (the Purchase Agreement ) with the owners of 98.73% of the outstanding share capital (the Sellers ) of KSNET, Inc., a corporation organized under the laws of the Republic of Korea ( Korea ) to acquire all of the Sellers shares of KSNET. KSNET is a leading payment processor in Korea. Subject to the satisfaction or waiver of the conditions set forth in the Purchase Agreement, the Company will acquire all of such shares of KSNET capital stock for aggregate consideration of KRW 270 billion in cash (approximately \$233 million, based on an exchange rate on September 15, 2010 of US\$1 = KRW1,160), subject to a post-closing working capital adjustment. The Company will fund the transaction utilizing a combination of cash reserves and new debt facilities.

The completion of the acquisition is subject to the satisfaction of customary closing conditions, including the approval of the Fair Trade Commission of Korea. The Company expects that the transaction will close during the second quarter of fiscal 2011.

The Purchase Agreement includes customary representations, warranties and covenants by the parties and requires each of the Sellers to indemnify the Company for, among other things, breaches of the Sellers representations, warranties and covenants, subject to certain deductibles and limitations. The Sellers will deposit three percent (3%) of the aggregate purchase price into escrow to secure their indemnification obligations. The Purchase Agreement also provides for non-competition and non-solicitation covenants of the Sellers.

The foregoing summary of the Purchase Agreement is qualified in its entirety by the terms and conditions of the Purchase Agreement, which is filed as Exhibit 2.1 to this report, and is incorporated herein by reference. The Purchase Agreement, which has been included to provide investors with information regarding its terms, contains representations and warranties of each of the Company and the Sellers. The Purchase Agreement is not intended to provide any other factual information about the Company, either of the Sellers or KSNET. The assertions embodied in those representations and warranties were made for purposes of the Purchase Agreement and are subject to qualifications and limitations agreed to by the respective parties in connection with negotiating the terms of the Purchase Agreement. In addition, such representations and warranties may be subject to a contractual standard of materiality different from what might be viewed as material to shareholders, or may have been used for purposes of allocating risk between the respective parties rather than establishing matters as facts. Accordingly, you should not rely on the representations and warranties in the Purchase Agreement as characterizations of the actual state of any facts. Investors should read the Purchase Agreement with the other information concerning the Company and KSNET that the Company publicly files in reports and statements with the Securities and Exchange Commission.
