SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE A – ORGANIZATION, DESCRIPTION OF COMPANY’S BUSINESS AND BASIS OF PRESENTATION

Surge Components, Inc. (“Surge”) was incorporated in the State of New York and commenced operations on November 24, 1981 as an importer of electronic products, primarily capacitors and discrete semi-conductors selling to customers located principally throughout North America. On June 24, 1988, Surge formed Challenge/Surge Inc. (“Challenge”), a wholly-owned subsidiary to engage in the sale of electronic component products and sounding devices from established brand manufacturers to customers located principally throughout North America.

In May 2002, Surge and an officer of Surge founded and became sole owners of Surge Components, Limited (“Surge Limited”), a Hong Kong corporation. Under current Hong Kong law, Surge Limited is required to have at least two shareholders. Surge owns 999 shares of the outstanding common stock and the officer of Surge owns 1 share of the outstanding common stock. The officer of Surge has assigned his rights regarding his 1 share to Surge. Surge Limited started doing business in July 2002. Surge Limited operations have been consolidated with the Company. Surge Limited is responsible for the sale of Surge’s products to customers located in Asia.

On August 31, 2010, the Company changed its corporate domicile by merging into a newly-formed corporation, Surge Components, Inc. (Nevada), which was formed in the State of Nevada for that purpose. Surge Components Inc. is the surviving entity. The number of common stock shares authorized for issuance was increased to 75,000,000 shares.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(1) Principles of Consolidation:

The consolidated financial statements include the accounts of Surge, Challenge, and Surge Limited (collectively the “Company”). All material intercompany balances and transactions have been eliminated in consolidation.

The accompanying interim consolidated financial statements have been prepared without audit, in accordance with the instructions to Form 10-Q for interim financial reporting pursuant to the rules and regulations of the Securities and Exchange Commission.

The results and trends in these interim consolidated financial statements for the three months ended February 28, 2017 and February 29, 2016 may not be representative of those for the full fiscal year or any future periods.

(2) Accounts Receivable:

Trade accounts receivable are recorded at the net invoice value and are not interest bearing. The Company considers receivables past due based on the payment terms. The Company reviews its exposure to accounts receivable and reserves specific amounts if collectability is no longer reasonably assured. The Company also reserves a percentage of its trade receivable balance based on collection history and current economic trends that might impact the level of future credit losses. The Company re-evaluates such reserves on a regular basis and adjusts its reserves as needed. Based on the Company's operating history and customer base, bad debts to date have not been material.

(3) Revenue Recognition:

Revenue is recognized for products sold by the Company when persuasive evidence of an arrangement exists, delivery has occurred, the price is fixed and determinable, collectability is reasonably assured and title and risk of loss have been transferred to the customer. This occurs when product is shipped from the Company's warehouse.

For direct shipments, revenue is recognized when product is shipped from the Company's supplier. The Company has a long term supply agreement with one of our suppliers. The Company purchases the merchandise from the supplier and has the supplier directly ship the merchandise to the customer through a freight forwarder. Title passes to the customer upon the merchandise being received by a freight forwarder. Direct shipments were approximately \$458,000 and \$771,000 for the three months ended February 28, 2017 and February 29, 2016 respectively.

The Company also acts as a sales agent to certain customers in North America for one of its suppliers. The Company reports these commissions as revenues in the period earned. Commission revenue totaled \$46,774 and \$67,554 for the three months ended February 28, 2017 and February 29, 2016 respectively.

The Company performs ongoing credit evaluations of its customers and maintains reserves for potential credit losses.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(3) Revenue Recognition (continued):

The Company and its subsidiaries currently have agreements with several distributors. There are no provisions for the granting of price concessions in any of the agreements. Revenues under these distribution agreements were approximately \$1,114,000 and \$2,080,000 for the three months ended February 28, 2017 and February 29, 2016 respectively.

(4) Inventories:

Inventories, which consist solely of products held for resale, are stated at the lower of cost (first-in, first-out method) or market. Products are included in inventory when the Company obtains title and risk of loss on the products, primarily when shipped from the supplier. Inventory in transit principally from foreign suppliers at February 28, 2017 was \$1,289,000. The Company, at February 28, 2017, has a reserve against slow moving and obsolete inventory of \$226,874. From time to time the Company's products are subject to legislation from various authorities on environmental matters.

(5) Depreciation and Amortization:

Fixed assets are recorded at cost. Depreciation is generally calculated on a straight line method and amortization of leasehold improvements is provided for on the straight-line method over the estimated useful lives of the various assets as follows:

Furniture, fixtures and equipment 5 - 7 years

| | |
|------------------------|---|
| Computer equipment | 5 years |
| Leasehold Improvements | Estimated useful life or lease term, whichever is shorter |

Maintenance and repairs are expensed as incurred while renewals and betterments are capitalized.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(6) Concentration of Credit Risk:

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of accounts receivables. The Company maintains substantially all of its cash balances in a limited number of financial institutions. At February 28, 2017 and November 30, 2016, the Company's uninsured cash balances totaled \$4,685,114 and \$4,550,807, respectively.

(7) Income Taxes:

The Company's deferred income taxes arise primarily from the differences in the recording of net operating losses, allowances for bad debts, inventory reserves and depreciation expense for financial reporting and income tax purposes. A valuation allowance is provided when it has been determined to be more likely than not that the likelihood of the realization of deferred tax assets will not be realized. See Note I.

The Company follows the provisions of the Accounting Standards Codification topic, ASC 740, "Income Taxes" (ASC 740). There have been no unrecognized tax benefits and, accordingly, there has been no effect on the Company's financial condition or results of operations as a result of ASC 740.

The Company files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The Company is no longer subject to U.S. federal tax examinations for years before fiscal years ending November 30, 2012, and state tax examinations for years before fiscal years ending November 30, 2011. Management does not believe there will be any material changes in our unrecognized tax positions over the next twelve months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income expense. As of the date of adoption of ASC 740, there was no accrued interest or penalties associated with any unrecognized benefits, nor was any interest expense recognized during the three months ended February 28, 2017 and February 29, 2016.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(8) Cash Equivalents:

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

(9) Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(10) Marketing and promotional costs:

Marketing and promotional costs are expensed as incurred and have not been material to date. The Company has contractual arrangements with several of its distributors which provide for cooperative advertising rights to the distributor as a percentage of sales. Cooperative advertising is reflected as a reduction in revenues and has not been material to date.

(11) Fair Value of Financial Instruments:

The carrying amount of cash balances, accounts receivable, accounts payable and accrued expenses approximate their fair value based on the nature of those items. Estimated fair values of financial instruments are determined using available market information and appropriate valuation methodologies. Considerable judgment is required to interpret the market data used to develop the estimates of fair value, and accordingly, the estimates are not necessarily indicative of the amounts that could be realized in a current market exchange.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(12) Shipping Costs

The Company classifies shipping costs as a component of selling expenses. Shipping costs totaled \$1,413 and \$1,037 for the three months ended February 28, 2017 and February 29, 2016 respectively.

(13) Earnings Per Share

Basic earnings (loss) per share includes no dilution and is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding for the period. The difference between reported basic and diluted weighted-average common shares results from the assumption that all dilutive stock options and convertible preferred stock exercised into common stock. Dilutive securities are excluded from diluted weighted shares outstanding at February 28, 2017 since the Company had a net loss in the period and including the securities would be anti-dilutive. Total potentially dilutive shares excluded from diluted weighted shares outstanding at February 28, 2017 and February 29, 2016 totaled 635,438 and 519,213, respectively.

(14) Stock Based Compensation

Stock Based Compensation to Employees

The Company accounts for its stock-based compensation for employees in accordance with Accounting Standards Codification (“ASC”) 718. The Company recognizes in the statement of operations the grant-date fair value of stock options and other equity-based compensation issued to employees and non-employees over the related vesting period.

Stock Based Compensation to Other than Employees

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with ASC 718. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably determinable. The value of equity instruments issued for consideration other than employee services is determined on the earlier of a performance commitment or completion of performance by the provider of goods or services. In the case of equity instruments issued to consultants, the fair value of the equity instrument is recognized over the term of the consulting agreement.

Depreciation and amortization expense for the three months ended February 28, 2017 and February 29, 2016 was \$7,834 and \$7,816, respectively.

NOTE D – LINE OF CREDIT

In February 2017, the Company obtained a line of credit with a bank for up to \$3,000,000 (the “Credit Line”). Borrowings under the Credit Line accrue interest at the greater of the prime rate or the LIBOR rate plus two percent (2.0%). As of February 28, 2017 there were no borrowings under the Credit Line.

NOTE E – ACCRUED EXPENSES

Accrued expenses consist of the following:

| Accrued Professional Fees | 443,091 | 809,960 |
| | \$958,048 | \$ 1,544,882 |

NOTE F – RETIREMENT PLAN

In June 1997, the Company adopted a qualified 401(k) retirement plan for all full-time employees who are twenty-one years of age and have completed twelve months of service. The plan allows total employee contributions of up to fifteen percent (15%) of the eligible employee's salary through salary reduction. The Company makes a matching contribution of twenty percent (20%) of each employee's contribution for each dollar of employee deferral up to five percent (5%) of the employee's salary. Net assets for the plan, as estimated by Union Central, Inc., which maintains the plan's records, were approximately \$1,229,000 at November 30, 2016. Pension expense for the three months ended February 28, 2017 and February 29, 2016 was \$1,289 and \$1,030, respectively.

NOTE G – SHAREHOLDERS’ EQUITY

[1] Preferred Stock:

In February 1996, the Company amended its Certificate of Incorporation to authorize the issuance of 1,000,000 shares of preferred stock in one or more series. In August 2010, the number of preferred shares authorized for issuance was increased to 5,000,000 shares.

In January 2000, the Company authorized 260,000 shares of preferred stock as Non-Voting Redeemable Convertible Series A Preferred Stock (“Series A Preferred Stock”). None of the Series A Preferred Stock is outstanding as of February 28, 2017.

In November 2000, the Company authorized 200,000 shares of preferred stock as Voting Redeemable Convertible Series B Preferred Stock (“Series B Preferred Stock”). None of the Series B Preferred Stock is outstanding as of February 28, 2017.

In November 2000, the Company authorized 100,000 shares of preferred stock as Non-Voting Redeemable Convertible Series C Preferred Stock (“Series C Preferred”). Each share of Series C Preferred is automatically convertible into 10 shares of our common stock upon shareholder approval. If the Series C Preferred were converted into common stock on or before April 15, 2001, these shares were entitled to cumulative dividends at the rate of \$.50 per share per annum commencing April 15, 2001 payable on June 30 and December 31 of each year. In November 2000, 70,000 shares of the Series C Preferred were issued in payment of financial consulting services to its investment banker and a shareholder of the Company. In April 2001, 8,000 shares of the Series C Preferred were repurchased and cancelled.

In April 2002, in connection with a Mutual Release, Settlement, Standstill and Non-Disparagement Agreement among other provisions, certain investors transferred back to the Company 252,000 shares of common stock, 19,300 shares of

Series C preferred stock, and certain warrants, in exchange for \$225,000. These repurchased shares were cancelled.

In February 2006, the Company settled with a shareholder to repurchase 10,000 shares of Series C Preferred plus accrued dividends for \$50,000.

Pursuant to exchange agreements dated as of March 14, 2011, 9,000 shares of Series C Preferred were returned to the Company for cancellation in exchange for 112,500 shares of common stock.

In October 2014, 2,000 shares of Series C Preferred were converted into 20,000 shares of common stock.

In April 2015, the Company entered into a settlement agreement with a shareholder pursuant to which 7,500 shares of Series C Preferred were returned to the Company for cancellation in exchange for 110,000 shares of common stock plus \$65,000 for accrued dividends and legal fees and expenses.

In July 2015, 4,200 shares of Series C Preferred were exchanged for 42,000 shares of common stock and \$29,838 in accrued dividends.

Dividends aggregating \$134,069 have not been paid for the semi-annual periods ended December 31, 2001 through the semi-annual payment due December 31, 2016. The Company has accrued these dividends. At February 28, 2017, there are 10,000 shares of Series C Preferred issued and outstanding.

In October 2016, the Company authorized 75,000 shares of preferred stock as Voting Non-Redeemable Convertible Series D Preferred Stock ("Series D Preferred"). None of the Series D Preferred Stock is outstanding as of February 28, 2017.

[3] 2015 Equity Incentive Plan

In November 2015, the Company adopted and its shareholders ratified, the 2015 Equity Incentive Plan (“2015 Incentive Plan”). The 2015 Incentive Plan provides for the grant of awards to officers, employees, directors or consultants to the Company to purchase up to an aggregate of 1,500,000 shares of common stock.

In May 2016 a total of 99,151 shares were issued to the Company's officers as part of their 2015 bonus compensation under the 2015 Incentive Plan.

Stock Compensation

In April 2016, the Company awarded one employee director 67,901 shares of its common stock and another employee director 31,250 shares of its common stock under the 2015 Incentive Plan as part of their 2015 bonus. The Company recorded a cost of \$74,363 relating to the issuance of these shares.

In October 2016 one employee director exercised options to acquire 50,000 shares of common stock at \$0.82 per share and 62,500 shares of common stock at \$0.80 per share. In October 2016, one employee director exercised options to acquire 25,000 shares of common stock at \$0.82 per share and 45,938 shares of common stock at \$0.80 per share.

The intrinsic value of the exercisable options at February 28, 2017 totaled \$180,960. At February 28, 2017 the weighted average remaining life of the stock options is 1.43 years. At February 28, 2017, there was no unrecognized compensation cost related to the stock options granted under the Company's incentive plans.

[4] Authorized Repurchase:

In November 2015, the Board of Directors authorized the Company to purchase up to \$500,000 of common stock in the open market or in privately negotiated transactions. Pursuant to such authority and pursuant to Rule 10b-18 under the Securities Exchange Act of 1934, as amended (“Exchange Act”), as of February 28, 2017 a total of 57,283 shares were repurchased for approximately \$48,300. In January 2017, the Company terminated its repurchase program.

[5] Compensation of Directors

Compensation for each non-employee director is \$2,500 per month (and \$3,500 per month for a non-employee director that serves as the chairman of more than two committees of the Board of Directors).

NOTE H – SETTLEMENT AGREEMENT

On or about October 31, 2016, Michael D. Tofias and Bradley P. Rexroad (collectively, the “Stockholders”) filed a Complaint and Motion for Preliminary Injunction against the Company in the eighth Judicial District Court, Clark County, Nevada, Case No. A-16-745890-B, seeking relief including, inter alia, immediate inspection of certain books and records and a 60-day postponement of the scheduled annual meeting of stockholders (“Annual Meeting”). On November 16, 2016, after the Company postponed the Annual Meeting and provided certain books and records to the Stockholders, the Stockholders filed an Amended Complaint, which named all members of the Board as defendants and alleged that the directors had breached their fiduciary duty to the Stockholders. On December 1, 2016, following a hearing, the Court denied the request for a preliminary injunction. On December 22, 2016, the Company entered into a settlement agreement (the “Settlement Agreement”) with the Stockholders.

The Settlement Agreement provides that:

the Stockholders irrevocably withdraw their director nominations for the Board and stockholder proposals for the Company's annual meeting of stockholders for fiscal year 2015 (the "Meeting");

the Stockholders will vote all of their shares of common stock of the Company in accordance with the Board's recommendations with respect to the election of the Board's director nominees, the ratification of the Company's independent registered public accounting firm for the fiscal year ending November 30, 2016 (the "2017 Meeting") and the ratification of the Company's rights plan;

the Company will hold the Meeting on January 5, 2017 and will hold its annual meeting of stockholders for fiscal year 2016 by December 29, 2017;

the Board and the Stockholders will identify a mutually acceptable independent director to join the Board as a Class C director by February 28, 2017 and the Board will include that new director among its director nominees for the 2017 Meeting;

the Company will not make any stock or option grants or grant any other non-cash compensation to its current officers and directors until December 23, 2017;

the Company will take all steps to (i) change its state of incorporation from the State of Nevada to the State of Delaware and (ii) declassify the Board on a rolling basis by June 30, 2017, and the Company will convene a special meeting of stockholders of the Company for the purpose of approving such actions, at which meeting the Stockholders and the Insiders will vote all of their shares of common stock of the Company in favor of such actions;

the Company will commence an issuer tender offer to all of its stockholders to repurchase at least 5.0 million shares of its common stock at a price of \$1.43 per share (the "Tender Offer"), which Tender Offer will be completed by March 15, 2017;

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

until the day after the announcement of the completion of the Tender Offer, the Board will be composed of no more than seven individuals;

the Stockholders will tender all of the shares of common stock of the Company that they hold beneficially or of record in the Tender Offer, subject to limited exceptions;

the Company's officers and directors will not participate in the Tender Offer and will not transfer or sell any of their shares until six months after the Tender Offer is completed;

subject to certain conditions, if the Tender Offer is not completed by March 15, 2017, the Company will (i) appoint the Stockholders to the Board as Class A directors with terms expiring at the Company's annual meeting of stockholders for fiscal year 2018 (the "2019 Meeting") and (ii) reduce the size of the Board to six directors, including the Stockholders;

the Stockholders will withdraw with prejudice their lawsuit against the Company and the Insiders pending in the State of Nevada; and

the Stockholders will be subject to customary standstill provisions until the termination of the Settlement Agreement.

Pursuant to the Settlement Agreement, the Company also agreed to reimburse the expenses of the Stockholders associated with their investment in the Company, including their proxy solicitation and litigation costs, in an amount not to exceed \$300,000.

The Settlement Agreement terminates on the date that is 15 business days prior to the deadline for the submission of director nomination and stockholder proposals for the 2019 Meeting.

NOTE I – INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes using the enacted tax rates in effect in the years in which the differences are expected to reverse.

The Company's deferred income taxes are comprised of the following:

| | February 28, 2017 | November 30, 2016 |
|---------------------------|-------------------------|----------------------|
| Deferred Tax Assets | | |
| Net operating loss | \$4,343,920 | \$ 4,208,030 |
| Allowance for bad debts | 49,276 | 49,276 |
| Inventory | 86,742 | 100,446 |
| Deferred Rent | 15,476 | 15,961 |
| Depreciation | 148,943 | 149,172 |
| Total deferred tax assets | 4,644,357 | 4,522,885 |
| Valuation allowance | (3,578,602) | (3,608,225) |
| Total | \$1,065,755 | \$ 914,660 |

The valuation allowance for the deferred tax assets relates principally to the uncertainty of the utilization of deferred tax assets and was calculated in accordance with the provisions of ASC 740, which requires that a valuation allowance be established or maintained when it is "more likely than not" that all or a portion of deferred tax assets will not be realized. The valuation allowance decreased by approximately \$29,600 during the three months ended February 28, 2017. This valuation is based on management estimates of future taxable income. Although the degree of variability inherent in the estimates of future taxable income is significant and subject to change in the near term, management believes, that the estimate is adequate. The estimated valuation allowance is continually reviewed and as adjustments to the allowance become necessary, such adjustments are reflected in the current operations.

NOTE J – RENTAL COMMITMENTS

The Company leases its office and warehouse space through 2020 from a corporation that is controlled by officers/shareholders of the Company (“Related Company”). Annual minimum rental payments to the Related Company approximated \$173,000 for the year ended November 30, 2016, and increase at the rate of three per cent per annum throughout the lease term.

Pursuant to the lease, rent expense charged to operations differs from rent paid because of scheduled rent increases. Accordingly, the Company has recorded deferred rent. Rent expense is calculated by allocating to rental payments, including those attributable to scheduled rent increases, on a straight line basis, over the lease term.

In June 2015, the Company renewed its lease to rent office space and a warehouse in Hong Kong for two years. Annual minimum rental payments for this space are approximately \$58,500.

The Company’s future minimum rental commitments at February 28, 2017 are as follows:

| | |
|--------------------|------------|
| Three Months Ended | |
| February 28, | |
| 2018 | \$ 195,062 |
| 2019 | \$ 184,055 |
| 2020 | \$ 108,608 |
| | \$ 487,725 |

Net rental expense for the three months ended February 28, 2017 and February 29, 2016 were \$77,435 and \$77,435 respectively, of which \$64,034 and \$63,174 respectively, was paid to the Related Company.

NOTE K – EMPLOYMENT AND OTHER AGREEMENTS

In February 2016, the Company entered into revised employment agreements with two officers of the Company. Pursuant to these agreements, the base salary for one officer is \$275,000 and the base salary for the other officer is \$225,000. The agreements continue until terminated by either party.

The Company's compensation committee may award these officers with bonuses and will review the base salary amounts for each of the officers on an annual basis to determine if any changes to the base salary amounts need to be made and may also award these officers with annual bonuses. Pursuant to the employment agreements, the officers are prohibited from engaging in activities which are competitive with those of the Company during their employment with the Company and for one year following termination. If the agreement is terminated other than for cause, the officer would be entitled to any and all base salary earned through the date of termination, accrued but unused vacation, all vested equity, and bonus amounts payable to the officer through the date of termination. The officers would also be entitled to receive paid an additional thirty-six months of annual compensation equal to the average of his base salary and bonus for the three calendar years prior to the date of termination, payable in accordance with the Company's regular payroll practice over a 52-week period.

NOTE L – MAJOR CUSTOMERS

The Company had one customer who accounted for 11% of net sales for the three months ended February 28, 2017 and two customers who accounted for 12% and 13% of net sales for the three months ended February 29, 2016. The Company had no customers who accounted for 10% of accounts receivable at February 28, 2017 and February 29, 2016.

NOTE M – MAJOR SUPPLIERS

During the three months ended February 28, 2017 and February 29, 2016, there was one foreign supplier accounting for 54% and 54% of total inventory purchased.

The Company purchases substantially all of its products overseas. For the three months ended February 28, 2017, the Company purchased 56% of its products from Taiwan, 16% from Hong Kong, 29% from elsewhere in Asia and less than 1% overseas outside of Asia. The Company purchases the balance of its products in the United States.

NOTE N – EXPORT SALES

The Company’s export sales were as follows:

| | Three Months Ended | |
|-----------------------|--------------------|-------------------|
| | February 28, 2017 | February 29, 2016 |
| Canada | 695,555 | 1,099,473 |
| China | 766,068 | 1,176,748 |
| Other Asian Countries | 358,421 | 174,096 |
| South America | 88,527 | 84,059 |
| Europe | 278,109 | 78,250 |

Revenues are attributed to countries based on location of customer.

NOTE O – SUBSEQUENT EVENTS

[1] Tender Offer

In March 2017, the Company completed a tender offer by purchasing for cash 5,000,000 shares of its common stock, at a price of \$1.43 per share, or \$7,150,000.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion contains forward-looking statements. All statements other than statements of historical facts contained herein, including statements regarding our future results of operations and financial position, business strategy and plans and objectives of management for future operations, are forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

In some cases, forward-looking statements can be identified by terms such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “could,” “intends,” “target,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential” or “contingent,” and other similar words. These statements are only predictions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. We discuss many of the risks in greater detail under the heading “Risk Factors” in our Annual Report on Form 10-K. Also, these forward-looking statements represent our estimates and assumptions only as of the date of the filing of this report. Except as required by law, we assume no obligation to update any forward-looking statements for events or circumstances occurring after the date of the filing of this report.

Overview

The Company operates with two sales groups, Surge Components (“Surge”) and Challenge Electronics (“Challenge”). Surge is a supplier of electronic products and components. These products include capacitors, which are electrical energy storage devices, and discrete semiconductor components, such as rectifiers, transistors and diodes, which are single function low power semiconductor products that are packaged alone as compared to integrated circuits such as microprocessors. The products sold by Surge are typically utilized in the electronic circuitry of diverse products, including, but not limited to, automobiles, audio products, temperature control products, lighting products, energy related products, computer related products, various types of consumer products, garage door openers, household appliances, power supplies and security equipment. These products are sold to both original equipment manufacturers, commonly referred to as OEMs, who incorporate them into their products, and to distributors of the lines of products we sell, who resell these products within their customer base. These products are manufactured predominantly in Asia by approximately sixteen independent manufacturers. We act as the master distribution agent utilizing independent sales representative organizations in North America to sell and market the products for one such manufacturer pursuant to a written agreement. When we act as a sales agent, our supplier who sold the product to the customer that we introduced to our supplier pays us a commission. The amount of the commission is determined on a sale by sale basis depending on the profit margin of the product. Commission revenue totaled \$46,774 and \$67,554 for the three months ended February 28, 2017 and February 29, 2016 respectively.

Challenge is engaged in the sale of electronic components. In 1999, Challenge began as a division to sell audible components. We have been able to increase the types of products that we sell because some of our suppliers introduced new products, and we also located other products from new suppliers. Our core products include buzzers, speakers, microphones, resonators, alarms, chimes, filters, and discriminators. We now also work with our suppliers to have our suppliers customize many of the products we sell for many customers through the customers' own designs and those that we work with our suppliers to have our suppliers redesign for them at our suppliers' factories. We have a design engineer on our staff with more than thirty years of experience with these types of products, who works with our suppliers on such redesigns. We are continually looking to expand the line of products that we sell. In 2015, we hired a junior engineer to assist with the introduction of a new micro controller product line. We sell these products through independent representatives that earn a commission on the products we sell. We are also working with local, regional, and national distributors to sell these products to local accounts in every state.

The Company has a Hong Kong office to effectively handle the transfer business from United States customers purchasing and manufacturing in Asia after designing the products in the United States. This office has strengthened the Company's global position, improving our capabilities and service to our customer base.

The electronic components industry continues to change, from one of strong demand to now one of challenged demand. This challenged demand can be attributed to a slowdown in global growth as well as a slowdown in the forecast of retail sales in North America. Management expects 2017 to continue with the challenged demand for components that it experienced in 2016.

The world of business is constantly changing because of "disruptors," which are significant changes in traditional business practices that did not previously exist. For example, customers are moving to centralized purchasing from regional purchasing and are stretching their payment terms. These changes also include customers moving their manufacturing operations from North America to Asia, and the trend of globalization. This trend makes business more complicated and costly for the Company. The Company must have a presence in Asia to service and further develop the business. For these reasons, we established Surge Ltd., our Asia subsidiary. Currency fluctuations also have an effect on doing business outside of North America. As we pay our suppliers in U.S dollars, whenever the currency exchange rate between U.S dollars and other countries' currencies change, a supplier is receiving more or less U.S. dollars for its currency, and therefore may raise the prices it charges us accordingly. Customers have moved to reduce their supply chain, which could adversely affect the Company. In some market segments, demand for electronic components have decreased, and in other segments, the demand is still strong. Some technologies have become obsolete, while customers develop new products using different kinds of components. Management expects 2017 to be a year of change and challenge. These challenges could affect the Company in negative ways, possibly reducing sales and or profitability. In order for the Company to grow, we will depend on, among other things, the continued growth of the electronics and semiconductor industries, our ability to withstand intense price competition, our ability to obtain new customers, our ability to retain and attract sales and other key personnel in order to expand our marketing capabilities, our ability to secure adequate sources of products, which are in demand on commercially reasonable terms, our success in executing and managing growth, including monitoring an expanded level of operations and systems, controlling costs, the availability of adequate financing, and our ability to deal successfully, with new and future disruptors.

Critical Accounting Policies

Accounts Receivable

The allowance for doubtful accounts is based on the Company's assessment of the collectability of specific customer accounts and an assessment of international, political and economic risk as well as the aging of the accounts receivable. If there is a change in actual defaults from the Company's historical experience, the Company's estimates of

recoverability of amounts due could be affected and the Company would adjust the allowance accordingly.

Revenue Recognition

Revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred, the price is fixed and determinable, collectability is reasonably assured and title and risk of loss have been transferred to the customer. This occurs when product is shipped from the Company's warehouse. For direct shipments from our suppliers to our customer, revenue is recognized when product is shipped from the Company's supplier. The Company acts as a sales agent for certain customers buying direct from one of its suppliers. The Company reports these commissions as revenues in the period earned.

The Company performs ongoing credit evaluations of its customers and maintains reserves for potential credit losses.

Inventory Valuation

Inventories are recorded at the lower of cost or market. Write-downs of inventories to market value are based on stock rotation, historical sales requirements and obsolescence as well as in the changes in the backlog. Reserves required for obsolescence were not material in any of the periods in the financial statements presented. If market conditions are less favorable than those projected by management, additional write-downs of inventories could be required. For example, each additional 1% of obsolete inventory would reduce operating income by approximately \$33,000.

The Company does not have price protection agreements with any of its vendors and assumes the risk of changes in the prices of its products. The Company does not believe there is a significant risk with regards to the lack of price protection agreements since many of its inventory items are purchased to fulfill purchase orders received.

Income Taxes

We have made a number of estimates and assumptions relating to the reporting of a deferred income tax asset to prepare our financial statements in accordance with generally accepted accounting principles. These estimates have a significant impact on our valuation allowance relating to deferred income taxes. Our estimates could materially impact the financial statements.

Results of Operations

Consolidated net sales for the three months ended February 28, 2017 decreased by \$650,864 or 10.3%, to \$5,665,147 as compared to net sales of \$6,316,011 for the three months ended February 29, 2016. We attribute the decrease to certain of the Company's customers having excess inventory in the first part of the first quarter of 2017. This resulted in those customers delaying ordering products from us during the three months ended February 28, 2017. We expect sales for those customers to increase starting in the three months ended May 31, 2017. We also attribute the decrease in net sales to a downward trend in market demand for our products due to adverse market conditions in certain areas of the world, reducing these customers' demand for our products. Even though these adverse market conditions exist, certain of our customers are doing well which has resulted in an increase in sales to Europe and other areas of Asia for the three months ended February 28, 2017. The Company expects these market conditions to continue through the first half of 2017. The Company also attributes a portion of the decrease in sales to senior management's attention being diverted due to the recent proxy contest and related settlement.

Our gross profit for the three months ended February 28, 2017 decreased by \$246,659 to \$1,409,353, or 14.9%, as compared to \$1,656,012 for the three months ended February 29, 2016. Gross margin as a percentage of net sales decreased to 24.9% for the three months ended February 28, 2017 compared to 26.2% for the three months ended February 29, 2016. The Company attributed the decrease in gross profit margin and percentage to sales mostly to existing customers with a lower profit margin in the three months ended February 28, 2017. Profit margins in 2016 and 2017 have been impacted as a result of certain of our customers, who are some of the biggest buyers of components, demanding the lowest prices for our products. Some of them further demand periodic price reductions on a quarterly or semi-annual basis, as opposed to annual fixed pricing. We work with electronic manufacturing service subcontractor customers who manufacture products for other customers who do not have their own manufacturing operations. At times we are not able to recover these price reductions from our suppliers. The Company has agreements with these subcontractor customers to provide periodic cost reductions through rebates in the amount of 5%. These reductions only affect future shipments of our products, and does not affect existing orders. These reductions can have a negative impact on our profit margins since it reduces the amount of commissions we can earn. Even though this rebate can impact the Company's gross profit margin, these subcontractor customers represent very significant potential growth for the Company, because they can help the Company become an approved supplier at the customers they manufacture for, and they purchase our components for these customers. It would be very difficult for the Company to achieve business at these customers without the help of these subcontractor customers.

Selling and shipping expenses for the three months ended February 28, 2017 was \$560,776, an increase of \$34,930, or 6.6%, as compared to \$525,846 for the three months ended February 29, 2016. We attribute the increase to hiring additional salespeople to grow the business, as well as increases in selling expenses such as commissions, printing and freight, offset by a decrease in travel and entertainment expenses.

General and administrative expenses for the three months ended February 28, 2017 was \$1,329,063, an increase of \$330,161, or 33.1%, as compared to \$998,902 for the three months ended February 29, 2016. The increase is due

primarily to the costs of approximately \$37,000 that the Company incurred during the proxy contest and related settlement with certain shareholders of the Company and costs of approximately \$218,000 that the Company incurred in connection with the tender offer completed by the Company in March 2017. . Other increases are due to the hiring of additional employees and increased costs for public company expenses, health insurance and consulting expenses as well as increases in temporary help expense, and partially offset by decreases in general insurance, bad debt expenses and promotional expenses.

Depreciation expense for the three months ended February 28, 2017 was \$7,834, an increase of \$18, or less than one percent, as compared to \$7,816 for the three months ended February 29, 2016.

Investment income for the three months ended February 28, 2017 was \$2,968, an increase of \$1,643, or 124% compared to \$1,325 for the three months ended February 29, 2016.

Tax expense for the three months ended February 28, 2017 was \$(135,180), a decrease of \$165,482 or 546% as compared to a tax expense of \$30,302 for the three months ended February 29, 2016. The decrease is a result of our net loss for the 2017 period and management's revised estimate of future taxable income and the related impact on the reported deferred tax. The change in the valuation allowance is based on management estimates of future taxable income. The degree of variability inherent in the estimates of future taxable income is significant and subject to change in the near term. The Company reviews its estimates of future taxable income in each reporting period and adjustments to the valuation allowance are reflected in the current operations.

As a result of the foregoing, net loss for the three months ended February 28, 2017 was \$350,172, compared to net income of \$94,471 for the three months ended February 29, 2016.

Liquidity and Capital Resources

As of February 28, 2017 we had cash of \$7,250,109, and working capital of \$10,348,130. In March 2017, the Company completed a tender offer purchasing for cash 5,000,000 shares of its common stock at a price of \$1.43 per share. In February 2017, the Company obtained a line of credit with a bank for up to \$3,000,000. We believe that our working capital levels and available financing are adequate to meet our operating requirements during the next twelve months.

During the three months ended February 28, 2017, we had net cash flow provided by operating activities of \$142,702, as compared to net cash flow used in operating activities of \$(83,976) for the three months ended February 29, 2016. The increase in cash flow operating activities resulted from a decrease in accounts receivable, as partially offset by the net loss and an increase in cash used by inventory, accounts payable and accrued expenses.

We had net cash flow used in investing activities of \$(13,194) for the three months ended February 28, 2017, as compared to net cash flow used in investing activities of \$(1,520) for the three months ended February 29, 2016. We attribute the change to the Company purchasing new equipment during the three months ended February 28, 2017.

We had net cash flow provided by financing activities totaling \$0 during the three months ended February 28, 2017 as compared to \$0 for the three months ended February 29, 2016.

As a result of the foregoing, the Company had a net increase in cash of \$129,508 for the three months ended February 28, 2017, as compared to a net decrease in cash of \$85,496 for the three months ended February 29, 2016.

In November 2015, the Board of Directors authorized the Company to purchase up to \$500,000 of shares of common stock in the open market or in privately negotiated transactions. The Company repurchased 57,283 shares to date pursuant to such authority. In January 2017, the Board of Directors terminated the repurchase program.

In February 2017, the Company completed a tender offer whereby it purchased for cash 5,000,000 shares of its common stock, at a price of \$1.43 per share, or \$7,150,000. In February 2017, the Company obtained a line of credit of up to \$3.0 million for working capital. As of February 28, 2017 there were no borrowings under the Credit Line. In March 2017, the Company borrowed \$1,000,000 under the line of credit. The Company anticipated the line of credit to be utilized for working capital purposes and to be repaid out of expected cash flows to be generated from operations.
