### **Complementary Pension Plan**

---

(Rio de Janeiro, December 15, 2006). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, announces that its Board of Directors, during a meeting held today, approved the reopening of the subscription process for the new Petros Plan regulation, with an extension term stipulated through 02/28/2007, and with a new minimum adhesion goal set for 2/3 of the Petros Plan participants.

The process had been terminated as there was a mandatory condition for massive individual participant adhesion, seeking the near totality of the employees and assisted parties. Adhesion had been about 53% (46% among retirees and pensioners, and 62% of the active employees) in the process held between July and August this year.

## **FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
