Yes No

Production has been normalized in the Campos Basin

Rio de Janeiro, July 15 2008 PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, announces that:

- Production has been completely normalized in the Campos Basin. The last platform to resume operations, the P-27, went back online last night.
- The Macaé Labor Court did not grant the *habeas corpus* filed by Sindipetro Norte Fluminense (NF) labor union, which hoped to denote an alleged private incarceration on the Campos Basin platforms. Petrobras has been carrying out the embarking and disembarking procedures for its workforce regularly, maintaining the appropriate operating security conditions.
- The Company's board is now waiting for Sindipetro-NF to return to the negotiation table.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
