1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo - Sabesp (the Company or Sabesp) is a mixed-capital company headquartered in São Paulo, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services, and supplies treated water on a bulk basis and provides sewage treatment services for another six municipalities of the Greater São Paulo Metropolitan Area.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The Company has been structuring itself to enhance its operating basis and at the same time start to be an environmental solutions company.

The Company operates water and sewage services in 366 municipalities of the State of São Paulo, having temporarily ceased the operation of two of these municipalities due to judicial orders, still in progress. In the majority of these municipalities, the operations result from concession contracts signed for 30 years. Up to December 31, 2007, 78 concession contracts have expired and until December 31, 2008, 19 concessions will expire, all of them are being negotiated with the municipalities. Between 2009 and 2030, 117 concessions will expire. The remaining concessions are for an undetermined term. Up to June 30, 2008, 122 program contracts have been executed.

Management believes that all concessions terminated and not yet renewed will result in new contracts or extensions, and does not consider the risk of discontinuity in the provision of municipal water and sewage services. As of June 30, 2008, the book value of property, plant and equipment used in the 97 municipalities under negotiation totals R\$1.93 billion and revenue for the same period totals R\$447 million.

In the municipality of Santos, in the Santista **owland**, which has a significant population, the Company operates supported by a public authorization deed, a similar situation in other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that formed it.

On January 5, 2007, Law 11445 was enacted, establishing the basic sanitation regulatory framework, providing for the nationwide guidelines and basic principles for the provision of such services, such as social control, transparency, the integration authority of sanitation infrastructures, water resources management, and the articulation between industry policies and public policies for urban and regional development, housing, suppression of poverty, promotion of health and environmental protection, and other related issues. The regulatory framework also aims at efficiently improving quality of living and economic sustainability, allowing for the adoption of gradual and progressive solutions consistent with users' payment ability.

As benefits for the Company, this law:

Clarifies the conditions for transitional services, by amending Article 42 of the Concession Law to determine that the Concession Grantor has to perform evaluations, surveys and payment of compensation prior to repossession of the concession assets, as a condition for the validity of the subsequent municipal actions;

Page: 10

Significantly reduces the possibility of a favorable outcome in legal actions for immediately repossessing services, without the payment of compensation;

Aims at improving the attainment of public interests related to the environment and supports State planning of services, without disregarding local peculiarities, taking into consideration the need for the Municipalities to present sanitation plans that are compatible with the hydrographic basin plans;

Imposes the creation of a regulatory agency and the issue of regulations that increase transparency and efficiency in services inspections, as well as in the provision of services itself, safeguarding and converging the different interests of consumers and contractors;

Another important change in the regulatory environment in 2007 was the creation of the São Paulo State Sanitation and Power Regulatory Agency (ARSESP).

The Company's shares have been listed on the "Novo Mercado" (New Market) segment of the BOVESPA (São Paulo Stock Exchange) since April 2002, and on the New York Stock Exchange (NYSE) as ADRs since May 2002.

2. PRESENTATION OF FINANCIAL STATEMENTS

The interim financial statements have been prepared in accordance with the standards established by the Brazilian Securities Commission (CVM), applicable to the preparation of interim financial statements, including CVM Instruction No. 469/08.

Amendment to Brazilian Corporate Law, effective January 2008

On December 28, 2007, Law No. 11638 was enacted, altering, revoking and adding new provisions to the Brazilian Corporate Law, especially with respect to chapter XV. This Law is effective for fiscal years beginning on or after January 1, 2008 and was designed primarily to update the Brazilian Corporate Law, so as to enable the convergence of Brazilian accounting practices with international accounting standards (IFRS) and allow the Brazilian Securities Commission (CVM) to issue new accounting standards and procedures, in conformity with such international accounting standards.

The main changes are summarized as follows:

- Replacement of the statement of changes in financial position by the statement of cash flows.
- Requirement for the presentation of a statement of value added.
- Possibility of maintaining separate accounting records for purposes of complying with tax legislation and reflecting necessary adjustments in order to prepare the financial statements in conformity with Brazilian Corporate Law.
- Creation of the account groups Intangible Assets in permanent assets and valuation adjustments in shareholders equity.
- Standardization of the criteria for measurement and classification of financial instruments, including derivatives.

- Requirement that periodic review and analysis of the recoverability of amounts recorded in property, plant and equipment, and intangible assets and deferred.
- Elimination of the possibility to record the premium received on issue of debentures and donations and government investment grants (including tax incentives) directly as capital reserves in shareholders' equity. Tax incentives arising from donations and government investment grants for investments will no longer be classified as capital reserve, becoming part of income for the year. The Company's management may allocate a portion of net income resulting from these incentives to the formation of a profit reserve and it may be deducted from the calculation basis of the mandatory dividend.
- Requirement to record under the caption property, plant and equipment those rights in tangible assets that are maintained or used in the operations of the Company's business, including those rights received as a result of transactions that transfer the benefits, risks and control of such assets to the Company (e.g., capital lease).
- Modification of the definition of those assets to be recorded under the caption deferred charges.
- Adjustments to present value for assets and liabilities arising from long-term transactions, as well as for significant short-term transactions. On June, 2008, in function of the relevance of the amounts, the adjustment to present value related to program contracts have been recorded in the amount of R\$13,490, explanatory Note No. 7 (b)., as provided by Instruction CVM No. 469/08, below.

On May 2, 2008, the Brazilian Securities Commission (CVM) issued the Instruction No. 469/08 that provides for the application of Law No. 11638/07. This Instruction permits companies to immediately apply to 2008 interim financial statements all the provision of the new Law or disclose in notes to the interim financial statements the changes that might have a material impact on the financial statements as of the 2008 yearend, by estimating the possible effects on shareholders' equity and the statement of income.

The Company elected to disclose the effects of the new law in notes to the interim financial statements and effectively record in the interim financial statements as of June 30, and March 31, 2008, those items considered material and mandatory in Instruction No. 469/08. Consequently, the amount of R\$11,727, related to donations received in the first quarter of 2008 (R\$8,627 in the second quarter of 2008) was recorded as deferred income, until it is regulated definitively, in addition to adjustment to present value mentioned above.

The Company elected to maintain recorded the revaluation reserve until its effective realization.

In addition to the issue of CVM Instruction No. 469/08, the Company considers that even though most of the provisions amended by the new Law still depend on regulation to be issued by the CVM, the material issues that might change the presentation of the financial statements are already being adopted or disclosed, and refer to the segregation of the group Intangible assets in permanent assets, the disclosure of the statements of cash flows (as disclosed in Note 19) and value added (as disclosed in Note 20), and measurement at market value of the financial instruments, disclosed comparatively to their carrying amount in Note 15.

(i) Water and sewage services

The Company provides supply services of water and collection of sewage to the Government of the State of Sao Paulo and other companies related to it, under terms and conditions considered by Management as normal in the market, except as to the form of settlement of the credits, that may be realized under the conditions mentioned in items (iii), (iv) and (v).

(ii) Reimbursement of additional retirement and pension benefits paid

Refers to amounts that supplement retirement and pension benefits paid by the Company to former employees from state-owned companies that merged to form the Company. The amounts involved have to be reimbursed to the Company by the São Paulo State Government in its capacity of main debtor pursuant to State Law No. 200/74. As of June 30 and March 31, 2008, 2,613 retired employees received additional retirement benefits and for the quarters ended June 30 and March 31, 2008, the Company paid R\$ 25.270 and R\$24,466, respectively. There were 143 active employees as of June 30 and March 31, 2008 who will be entitled to these benefits on their retirement.

(iii) Gesp Agreement

Entered into on December 11, 2001 between the Company, the São Paulo State Government (through the State Finance Department) and the Water and Electric Energy Department (DAEE), with the intermediation of the Water Resources, Sanitation and Construction Works Department, in which the State acknowledges that, under Law No. 200/74 it is accountable for the benefits arising from additional retirement and pension benefits and recognizes the existence of debts arising from bills related to the provision of water supply and sewage services. The total agreement amounted to R\$678,830, at its historical value, R\$320,623 of which refers to additional retirement and pension benefits in the period between March 1986 and November 2001, and R\$358,207 arising from the provision of water supply and sewage collection services, billed and due between 1985 and December 1, 2001.

In view of the strategic importance of the Taiapuêba, Jundiá, Biritiba, Paraitinga and Ponte Nova reservoirs for guaranteeing and maintaining the Upper Tietê water volume, the Water and Electric Energy Department (DAEE) intends to transfer these assets to the Company as partial amortization, by assigning a receivable in the amount owed by the State. The appraisal of the reservoirs was approved by the Company's Board of Directors and indicates the amount of R\$300,880 (base date - June 2002), as mentioned in the related report. However, there is a civil class action in the São Paulo State Appeals Court involving the transfer of these reservoirs. The Company's legal counsel evaluate the risk of loss from this lawsuit as probable, which would hinder the transfer of the related reservoirs as a partial amortization of the balance receivable.

The balances of water supply and sewage collection services were included in the First and Second amendments as described below (iv) and (v). The balances related to the reimbursement of additional retirement and pension benefits were included in the Commitment Agreement between the São Paulo State and Sabesp, as described below (vi).

(iv) First Amendment to the Gesp Agreement

On March 22, 2004, the Company and the State Government amended the terms of the original Gesp Agreement, (1) consolidating and recognizing the amounts due by the State Government for water supply and sewage collection services provided, monetarily adjusted until February 2004; (2) formally authorizing the offset of amounts due by the State Government with interest on capital declared by the Company and any other debit existing with the State Government as of December 31, 2003, monetarily adjusted until February 2004; and (3) defining the payment conditions of the remaining liabilities of the State Government for the receipt of the water supply and sewage collection services.

Pursuant to the Amendment, the State Government recognized the amounts due to the Company for water supply and sewage collection services provided until February 2004 in the amount of R\$581,779, including monetary adjustment based on the TR at the end of each year until February 2004. The Company recognized amounts payable to the State Government related to interest on capital in the amount of R\$518,732, including (1) amounts declared related to years prior to 2003 (R\$126,967), (2) monetary adjustment of these amounts based on the annual variation of the Consumer Price Index (IPC/Fipe) until February 2004 (R\$31,098); and (3) amounts declared and due related to 2003 (R\$360,667).

The Company and the State Government agreed on the mutual offset of R\$404,889 (monetarily adjusted until February 2004). As of November 30, 2007, the remaining balance of this agreement was R\$133,709, which was subject to the Second Amendment to the Gesp Agreement (v).

The Amendment to the Gesp Agreement does not provide for amounts due by the State Government related to the additional retirement and pension plan benefits paid on behalf of the State Government by the Company, which are subject to the Commitment Agreement described below (vi).

(v) Second Amendment to the Gesp Agreement

On December 28, 2007, the Company and the State Government, through the Finance Department, signed the second amendment to the terms of the original Gesp Agreement, (1) agreeing upon the payment in installments of the remaining balance of the First Amendment, amounting to R\$133,709, to be paid in 60 monthly and consecutive installments of the same amount, the first of which falling due on January 2, 2008. The amount of the installments will be monetarily adjusted in accordance with the variation of the IPCA -IBGE, plus interest of 0.5% per month. The balance of this agreement, the installments of which have been paid monthly, includes the amount of R\$46,244, which the State does not recognize as due. SABESP's understanding differs from that of the State regarding this amount and does admit the review of these previously agreed-upon amounts without the supported and unequivocal demonstration of the lack of relation between the amounts presented by SABESP and the services effectively provided. For this reason the Company understands that the recognition of an allowance for losses regarding these amounts is not necessary (pursuant to item VII, of the Recitals, of the Second Amendment to the Recognition Instrument, Payment Commitment and Other Covenants between the State of São Paulo and SABESP) (2) with respect to the accounts past due and unpaid in the period between March 2004 and October 2007, arising from the provision of water supply and sewage collection services in the amount of R\$256,608, R\$235,797 was received, R\$8,783 had a change in the debtor's registry and R\$12,028 is pending confirmation and receipt. These amounts are being jointly analyzed by SABESP and the representatives of the many State departments. To date, differences regarding the debtor but not the amount of the debt have been identified. In the event of the reclassification of the entity responsible for paying the account, SABESP will transfer the charge to the respective Entity. The Company did not recognize an allowance for losses on this amount as it understands that the differences are substantially related to the identification of the debtor. (3) The interest on capital due by SABESP to the State, related to the period between March 2004 and December 2006, in the amount of R\$400,823, adjusted from June 2007 to November 2007, based on the Selic (Central Bank overnight rate), was paid in the period between January and March 2008. (4) The State and SABESP agreed to resume immediately the compliance with their mutual obligations under new assumptions: (a) implementation of an electronic

account management system to facilitate and speed up the monitoring of payment processes and management budget procedures; (b) structuring of the Rational Water Use Program (PURA) to rationalize the consumption of water and the amount of the water and sewage bills under the responsibility of the State; (c) establishment, by the State, of criteria for budgeting so as to avoid the reallocation of amounts to a specific water and sewage accounts as from 2008; (d) possibility of registering state bodies and entities in a delinquency system or reference file; (e) possibility of interrupting water supply to state bodies and entities in the case of nonpayment of water and sewage bills.

Out of the revenues of the months from November, 2007 to June, 2008, approximately 80% of the bills have been paid by the State Government. The remaining balance is under analysis and will be received as soon as the validations by State entities are completed.

Management understands that all amounts due by the State Government are receivable and does not expect to incur any losses on such accounts receivable.

(vi) Commitment Agreement entered into by the State of São Paulo and Sabesp

On March 26, 2008, the State of São Paulo, through the Finance Department and the Sanitation and Energy Department, and Sabesp entered into a Commitment Agreement for the settlement of outstanding debts related to the reimbursement of pension benefits.

Even though the State acknowledges its debts related to the pension benefits, the State disagrees with the criteria adopted by SABESP to grant and pay the benefits, based on the legal opinions issued by the State Attorney General, which restrict State actions and prevent the voluntary reimbursement of all amounts paid by Sabesp.

From Sabesp's standpoint, the criteria adopted in the past to grant and pay pension benefits were correct, as they were based on specific State authorizations or then effective legal opinions.

The prolongation of the disputes between the State and SABESP is the main reason why the parties did not manage until now to fully implement the provisions of the São Paulo State Government Agreement signed in 2001, described in Note 4 (iii).

Based on preliminary information gathered, under the calculation and eligibility criteria agreed by the State, Sabesp estimated, up to the second quarter of 2008, a Indisputable Reimbursement of approximately R\$992.5 million, which comprises monetary adjustment based on the IPCA (Extended Consumer Price Index) (R\$660.9 million in notional amounts). The amount paid by SABESP up to de June 2008 was R\$1,562.7 million, adjusted based on the IPCA (R\$963.3 million in notional amounts).

The parties agree that this discrepancy should not represent an obstacle to the implementation of the commitments made in the São Paulo State Government Agreement - Note 4 (iii) regarding the Indisputable Reimbursement.

Fipecafi concluded the calculation of the Undisputed Reimbursement and the Disputed Amounts which were expecting the conclusive manifest from the parties, as provided for in the 5th clause of the commitment term. The two expert companies completed the evaluation of the Reservoirs which may be transferred to Sabesp as amortization of the reimbursement due by the State. The Amount of the Undisputed Amount shall incorporate the monthly variation of the IPCA occurred since the month of each disbursement by Sabesp until the month of the conclusion of the calculation works.

Once the amount of the Indisputable Reimbursement is determined and validated by the parties, and the new evaluation of the reservoirs is concluded, the State will initiate the 30-day period for payment of the Indisputable Reimbursement, as provided for by the São Paulo State Government Agreement, in 114 monthly, consecutive installments, including the annual IPCA variation, plus interest of 6% per year.

The State confirms it is willing to assume the responsibility for the processing and direct payment of the benefits if Sabesp succeeds in reversing the court decision that requires the Company to keep paying the pension benefits, under the current terms and conditions. While the current court decision is not overruled, the State will transfer to Sabesp the cash required to pay the indisputable amount of the benefits due monthly.

Sabesp will not waive the receivables from the State to which the Company considers itself to be legally entitled. Accordingly, it will take all possible actions to resolve the issue at all technical and court levels. Should this dispute persist, the Company will take all the necessary actions to protect the Company's interests.

Based on preliminary calculations, considering the reimbursement of the Undisputed Amount by Gesp, approximately estimated in R\$992,5 million, considering, among other aspects, the need to record an actuarial obligation to reflect the right to benefits which will be paid in the future, the estimated amount of the obligation to be recorded by the Company would approximately be R\$541 million on June 30, 2008 (approximately R\$ 526 million on March 31, 2008).

No amounts were accrued for loss or the benefits that will be paid in the future as the likelihood of receiving the outstanding amounts and resolving the existing dispute favorably for the Company is highly probable. This expectation is based, in addition to an internal analysis by the Company's staff, on an outside legal opinion, which concludes, after carefully analyzing the matter, that the likelihood of a favorable outcome in a possible recourse action filed by the Company is highly probable. According to this opinion, the circumstances under which the payment of the benefits was made imposes on the São Paulo State Government the duty of reimbursing the Company, since the Company, as the employer, was merely a co-obligator. The analysis of the main disputes permits to conclude that the criteria adopted by the Company in the past to grant and pay the benefits are reasonable, as they were built based on specific guidance of the São Paulo State Government.

(b) Cash and cash equivalents

The Company's cash and temporary cash investments with financial institutions controlled by the State Government amounted to R\$304,863 and R\$334,718 as of June 30 and March 31, 2008 respectively. The financial income arising from these temporary cash investments totaled R\$22,697 and R\$ 28,376 in the periods ended June 30, 2008 and 2007, respectively. The Company must, pursuant to a State Decree, invest its surplus resources with financial institutions controlled by the State Government.

(c) Agreement for the use of reservoirs

In its operations, the Company uses the Guarapiranga and Billings reservoirs and part of some reservoirs of the Upper Alto, which are owned by the Water and Electric Energy Department (DAEE); should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. The Company does not pay any fee for the use of these reservoirs but it is responsible for their maintenance and operating costs.

(d) Agreements with lower tariffs with State and Municipal Government Entities that joined the Rational Water Use Program (PURA).

The Company has signed agreements with government entities related to the State Government and municipalities where it operates involving approximately 6,850 real estates that are benefited from a reduction of 25% in the tariff of water supply and sewage collection services. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in the consumption of water.

(e) Guarantees

The State Government grants guarantees for some loans and financing of the Company and does not charge any fees with respect to such guarantees.

(f) Related-party transactions

Management is making efforts to maintain the State's payments with respect to transactions with related parties in non-default on a permanent basis.

5. INDEMNITIES RECEIVABLE

Indemnities receivable are a non-current asset that represents amounts receivable from the Municipalities of Diadema and Mauá as an indemnity for their unilateral termination of the concessions for water supply and sewage collection services of the Company in 1995. As of June 30, 2008, this asset amounted to R\$148,794 (nominal amounts).

Due to these concession agreements, the Company invested in the construction of water and sewage systems in those municipalities in order to meet its concession service commitments. For the unilateral termination of the Diadema and Mauá concessions, the municipalities assumed the responsibility of supplying water and sewage services in those regions. At that time, the Company reclassified the balances of property, plant and equipment related to the assets used in those municipalities to non-current assets (indemnities receivable).

The residual value of fixed asset items related to the municipality of Diadema, reclassified on December, 1996, was R\$75,231, and the balance of the indemnifications receivable from the municipality was R\$62,876.

The residual value of fixed asset items related to the municipality of Maua, reclassified on December, 1999, was R\$103,763, and the balance of the indemnifications receivable from the municipality was R\$85,918.

The Company's rights to recover these amounts are being challenged by the municipalities and no amount has been received to date.

Sabesp filed lawsuits to collect the amounts due by the municipalities. With respect to Diadema, the decision of the lower court judge was unfavorable to Sabesp, which filed an appeal in November 2000. On December 1, 2005, Sabesp's appeal to have the agreement entered into with the municipality of Diadema declared valid was partially accepted. On October 11, 2006, the municipality administration office filed special and extraordinary appeals and on November 21, 2006 the decision that allowed the Company to present its reply to said appeals was published. Sabesp presented its reply on December 6, 2006. The appeals were rejected by the Chief Justice on March 27, 2007 and the municipal administration office filed new interlocutory appeals against this decision. The interlocutory appeal filed in the Federal Supreme Court (STF) was accepted but only for the purposes of determining the sentence for the extraordinary appeal that had been rejected. On December 26, 2007, the decision that accepted the execution of the Companhia de Saneamento the Diadema - Saned was rendered, ordering this company to be summoned to pay the full amount of the debt within 15 days under the penalty of fine. Saned filed an interlocutory appeal against this decision, but the appeal was rejected by the Court of Justice on June 19, 2008. Currently, it is expected to be realized the

With regards to Maua, a first level decision was pronounced demanding that the Municipality pays the amount of R\$153.2 million as a compensation for damages caused and for loss of profits. This decision was appealed by Mauá on April 15, 2005 and is pending a new decision by the Court. On July 4, 2006, the decision was converted in diligence consisting of an expert clarification on the amount of the indemnity for loss of profits. The clarification was provided on December 18, 2007 and the expert confirmed the amount of the loss of profits determined by the lower court. After the declarations by the parties, the court records were sent for conclusion to the Reporting Justice, who will set a date for the judgment of the appeal.

Both cases are under judicial discussion (Maua and Diadema) and are considered, by the legal counsel in charge of conducting the proceedings, that they will probably be favorable to the Company.

Property, plant and equipment in use represents the assets involved in the provision of water supply and sewage collection services. Under the assets arising from contracts negotiated based on economic and financial reports and program contracts, SABESP is both the owner and the manager.

Page: 22

(a) Depreciation

Depreciation is calculated based on the following annual rates:

Buildings - 4%, interceptors and networks - 2%, machinery and equipment - 10%, water meters - 10%, vehicles - 20%, computer equipment - 20%, building connectors - 5%, office furniture - 10% and other items - 10%.

(b) Write-offs of property, plant and equipment

The Company wrote-off, in the second quarter of 2008 and first quarter of 2008, items of fixed assets in the amount of R\$3,455 and R\$6,691, respectively (in the second quarter of 2007 and first semester of 2007 - R\$2,431 and R\$4,391, respectively) related to the group of assets in operation, caused by obsolescence, theft and disposal.

(c) Capitalization of interest and financial charges

The Company has capitalized interest and monetary variation, including foreign exchange variation, in fixed assets in the amount of R\$(21,159) in the second quarter of 2008 (in the second quarter of 2007 - R\$(7,918)), during the period when the assets were presented as work in progress.

(d) Construction in progress

The estimated disbursements beginning in the third quarter of 2008 until 2013, related to already contracted investments, total approximately R\$ 2,046 million.

(e) Expropriations

As a result of the construction of priority projects related to water and sewage systems, the Company was required to expropriate or establish rights of way in third-parties properties according to prevailing legislation. The owners of these properties will be compensated either amicably or through the courts. The estimated disbursements to be made beginning the third quarter of 2008, without an estimated date, is approximately R\$473 million. The assets to be received as a result of these negotiations will be recorded as property, plant and equipment after the transaction is completed. In the second quarter of 2008, the amount related to expropriations was R\$4,918 (in the second quarter of 2007 - R\$2,138).

(f) Assets offered as guarantee

As of June 30, 2008, the Company had assets in the amount of R\$249,034 offered as a guarantee for the request for the PAES (tax debt refinancing program) (Note 10).

(g) Non-operating assets

The Company had, as of June 30 and March 31, 2008, free lease assets in the amount of R\$26,478 mainly related to land located near operating areas.

(h) Revaluation

Property, plant and equipment items were revalued in 1990 and 1991 and are depreciated at annual rates that correspond to their remaining useful lives determined in the related reports, which, as a general rule, fall into the classification of the rates presented above.

As allowed by CVM Instruction No. 197/93, the Company failed to recognize a provision for the deferred tax effect on the appreciation arising from the revaluation of property, plant and equipment in 1990 and 1991. Should income and social contribution taxes be recognized on the revaluation reserve, the unrealized amount as of June 30, 2008 would total R\$385,859 (R\$415,567 through June 30, 2007).

In the period from January to June, 2008 the revaluation reserve in the amount of R\$43,408 (January to June, 2007 - R\$43,589) was realized.

(i) Fully depreciated assets

As of June 30 and March 31, 2008, the gross book value of the fully depreciated assets that are still in use is R\$864,710 and R\$ 763,182, respectively.

a) Concessions

In the period between 1999 and 2006, the negotiations for new concessions were conducted on the basis of the economic and financial results of the transaction, determined in an appraisal report issued by independent experts.

The amount determined in the respective contract, after the transaction is closed with the municipal authorities, with payment through Company shares (through December 2000) or in cash, is recorded in this account and amortized over the period of the related concession (mostly 30 years). As of June 30 and March 31, 2008 there were no amounts pending related to these payments to the municipalities.

The net amount shown relates to concessions with the following municipalities:

		Jun 2008		Mar 2008

Total	631,176	(131,300)	499,876	504,365

The amortization of intangible assets is performed during the effective period of the concession agreements of the related municipalities.

In the second quarter of 2008 and 2007, amortization expenses related to concession intangible rights were R\$5,944 and R\$4,868, respectively.

b) Program contracts

In the renewal of some program contracts, the Company assumed commitments to financially participate in actions of social environmental sewage. These commitments were recorded as an offset to intangible assets in the amount of R\$72,608, deducted from the adjustment to present value of R\$13,490. These assets are being amortized over the duration of the program contracts (in their majority, 30 years). The amounts committed are related to the following municipalities:

Total	72,608	(1,605)	71,003	57,709

In the second quarter of 2008, amortization expenses related to the program contracts total R\$607.

The amounts not yet disbursed related to program contracts are recorded under the caption program contract commitments in current liabilities, R\$22,813, and non-current liabilities, R\$6,842.

c) License for Use (Software)

The net amount of the amortizations of the license for the use of Software in June, 2008 was R\$7,262 (R\$9,079 in March, 2008).

10. TAX DEBT REFINANCING PROGRAM (PAES)

The Company applied for enrollment in PAES on July 15, 2003, in accordance with Law No. 10684 of May 30, 2003, and included in its application the debts related to COFINS and PASEP which were involved in a legal action challenging application of Law 9718/98, and the outstanding balance under the Tax Recovery Program (REFIS). The total amount included in PAES was R\$316,953.

The debt is being paid in 120 months and the amount paid in the 2nd quarter of 2008 was R\$ 7,952 (R\$9,993 in the 1st quarter of 2008) and R\$2,314 was accrued in the 2nd quarter of 2008 and R\$4,907 in the 1st semester of 2008 (R\$3,177 in the 2nd quarter of 2007 and R\$6,482 in the 1st semester of 2007).

The assets offered as guarantee for REFIS, in the amount of R\$249,034, are still guaranteeing the amounts in the PAES program.

11. SOCIAL SECURITY LIABILITIES

The Company sponsors Fundação Sabesp de Seguridade Social - Sabesprev, an entity established in August 1990 with the main purpose of managing the pension plan and the welfare program for Sabesp's employees.

(a) Pension plan benefits:

The monthly contributions to the pension fund - defined benefit correspond to 2.1% by the Company and 2.30% by the participants.

Participants' contributions above refer to the average contributions, as the discount amount ranges from 1% to 8.5% depending on the salary bracket.

In order to meet the provisions of CVM Resolution No. 371 of December 13, 2000, the amounts of the pension and retirement benefits granted or to be granted, to which employees are entitled after retirement, are presented below.

As of December 31, 2007, based on the report of the independent actuary, Sabesp had a net actuarial liability of R\$365,234 representing the difference between the present value of the Company's obligations to the participating employees, retired employees, and pensioners, and the value of the related assets.

The actuarial liability as of June 30, 2008, in the amount of R\$392,250 (Mar/2008 - R\$378,630), is accounted for in non-current liabilities.

The estimated expense for 2008 is R\$67,129, of which the amount of R\$13,620 was recognized in the period from April to June 2008, as shown below:

	2 nd Qtr/08	1 st Sem/08	2 nd Qtr/07	1 st Sem/07

Total recorded	17,658	35,172	14,999	29,594

(b) Welfare plan

The assistance program, which is made up by optional health plans, freely chosen, is also maintained by contributions of the sponsor (to the plan of active employees) and of the participants, which, in the period, were the following:

Company: 7.30%, on average, of payroll;

Participating employees: 3.21% of base salary and premiums, equivalent to 2.30% of gross payroll, on average.

12. PROFIT SHARING

In the quarter ended June 30, 2008 R\$14,129 was accrued, which is recorded under payroll and related charges, in current liabilities, related to the period from January to December 2008, based on the attainment of goals set during negotiations between the Company and entities representing the employees.

13. PROVISIONS FOR CONTINGENCIES

Management, based on a joint analysis with its legal counsel, made a provision whose amount was considered sufficient to cover probable losses on lawsuits. The amounts related to lawsuits in the sentence execution stage, recorded in current liabilities, under the caption Provisions, of R\$324,207 (Mar 2008 - R\$247,816), is net of escrow deposits in the amount of R\$29,641 (Mar 2008 - R\$28,131), and the amounts recorded in non-current liabilities, under the caption Provisions, of R\$657,818 (Mar 2008 - R\$700,709, is net of escrow deposits in the amount of R\$5,914).

(i) Customers - Approximately 1,150 lawsuits were filed by commercial customers, which claim that their tariffs should be equal to the tariffs of another consumer category, and therefore claim the refund of the amounts collected by Sabesp. The Company was granted both favorable and unfavorable final decisions at several courts, and recognized provisions when the likelihood of loss is considered probable.

(ii) Suppliers - Suppliers' claims include lawsuits filed by some building companies alleging an underpayment of monetary adjustments, withholding of amounts related to the understatement of official inflation rates after the Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the likelihood of loss is considered probable.

(iii) Other civil lawsuits - refer mainly to indemnity claims for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, duly accrued when classified as probable losses.

(iv) Tax lawsuits - the provision for tax contingencies refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's legal counsel, duly accrued when classified as probable losses.

(v) Labor lawsuits - the Company is a party to labor lawsuits, involving issues such as overtime, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as a probable loss and accordingly a provision was recognized.

(vi) Environmental lawsuits - refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental - Cetesb and the São Paulo State Public Prosecution Office for the imposition of fines for environmental damages allegedly caused by the Company. The amounts recognized in provision do not always represent the final amount to be disbursed as indemnity of alleged damages, in view of the current stage in which such lawsuits are and Management's impossibility to reasonably estimate the amounts of future disbursements.

Lawsuits with possible likelihood of loss

The Company is a party to lawsuits and administrative proceedings related to environmental, tax, civil and labor lawsuits, which are considered by its legal counsel as possible losses, and are not recorded in the books. The amount attributed to these lawsuits and proceedings is approximately R\$2,167,000 as of June 30, 2008 (Mar 2008 - R\$1,997,800).

14. SHAREHOLDERS EQUITY

(a) Authorized capital

The Company is authorized to increase capital up to R\$7,000,000, based on a Board of Directors' resolution, after submission to the Supervisory Board's.

(b) Subscribed and paid-up capital

Subscribed and paid-up capital is represented by 227,836,623 registered common shares, with no par value, held as follows:

<i>Shareholders</i>	Jun 2008		Mar 2008	
	Number of shares	%	Number of shares	%

(*) Each ADR is equal to 2 shares

(c) Payment to shareholders

Shareholders are entitled to a minimum mandatory dividend of 25% of the adjusted net income, calculated according to Brazilian Corporate Law.

Interest on shareholders' equity declared in 2007, in the amount of R\$300,744, was paid on June 27, 2008, net of withholding income tax.

On July 31, 2008, the Board of Directors approved the proposal of interests on shareholders' equity related to the period from January to June, 2008, in the amount of R\$200,496, which will be paid up to 60 days after the General Shareholders' Meeting of 2009, net of withholding income tax.

(d) Capital reserve

Capital reserve includes tax incentives and donations recorded through December 31, 2007 received from government entities and private institutions.

(e) Revaluation reserve

As provided for by CVM Instruction No. 197/93, the Company decided not to record income and social contribution taxes on the revaluation reserve of property, plant and equipment items recognized in 1991.

The reserve is being realized as a contra entry to the caption 'retained earnings', on the same proportion as the depreciation and write-off of the respective assets.

The balances of the revaluation reserve will be maintained until their effective realization.

(f) Changes in the caption 'retained earnings'

Current balance	506,656	325,410

(g) Reserve for investments

The reserve for investments is specifically made up of the portion corresponding to the Company's own resources that will be used for the expansion of the water supply and sewage sanitation systems.

The General Shareholders' Meeting held on April 29, 2008 approved the capitalization of part of the profit reserve in the amount of R\$2,800,000 as it exceeded the amount of the capital stock, which was increased to R\$6,203,688.

15. FINANCIAL INSTRUMENTS

Considering the terms of CVM No. 235/95, the Company performed an evaluation of its accounting assets and liabilities with regards to market values, by means of information available and proper evaluation methodologies. However, both the interpretation of the market data as to the selection of evaluation methods requires considerable judgment and reasonable estimates to produce the most appropriate realization amount. As a consequence, the estimates presented do not necessarily indicate the amounts that may be realized in the current market. The use of different market assumptions and/or methodologies for the estimates may have a significant effect on the estimated

The carrying amounts and the market values of the Company's financial instruments as of June 30, 2008 are as follows:

	Carrying amount	Market value	Unrealized gains (losses)
Temporary cash investments (i)	286,450	286,450	-
Loans and financing: (ii)	(5,801,426)	(5,821,149)	(19,723)

	(5,514,976)	(5,534,699)	(19,723)

(a) Valuation of financial instruments

As of June 30, 2008, the main financial instruments, as well as their valuation criteria, are described below:

(i) Temporary cash investments - The market value of these assets approximates the amounts stated in the Company's balance sheets.

(ii) Loans and financing - Liability financial instruments are divided into two groups:

a. Market debts - Debts incurred to obtain funds in the market to cover possible cash requirements of the Company. The financial instruments composing this group are debentures, bonds and FIDC (Receivable Investment Funds), placed in the financial market through book building or similar procedures, in which yield rates demanded by investors are defined at the time of negotiation.

The market value measurement criteria adopted by the Company for these financial instruments was the UP (unit price) average-deviation method used in the last negotiations, in 2008, carried out in the secondary market in relation to the average UP in the curve.

The information necessary for this measurement was taken from the following sources: SND - Sistema Nacional de Debêntures (National Debenture System), BovespaFix and Bloomberg.

b. Institutional debts - Debts incurred for the purpose of financing a project related to Sabesp's corporate purpose: water supply and sewage works.

This financing has long-term features, at specific interest rates defined by development agencies (Caixa Econômica Federal, National Bank for Economic and Social Development, Fehidro), and multilateral agencies (IADB, IBRD, JBIC), which prevents the measuring of this financing at market value.

(b) Exchange rate risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the liability balances of foreign currency-denominated loans and financing obtained in the market and the related financial expenses. The Company does not have hedge or swap contracts to hedge against this risk, in view of the amounts, costs involved and opportunities. However, when possible, it makes advance purchases of foreign currencies and obtains funding in local currency, as a way to protect against exchange rate fluctuations.

A significant portion of the Company's financial debt was linked to the US dollar and to the Yen, in the total amount of R\$1,391,244 (Note 8). The table below summarizes the Company's exposure to exchange rates at June 30, 2008.

	In thousands	
	US\$	Japanese Yen
Loans and financing	813,623	5,562,318

(c) Interest rate risk

This risk arises from the possibility that the Company may incur losses due to interest rate fluctuations and indices that increase their interest expenses on loans and financing. The Company has not entered into any derivative contract to hedge against this risk; however, it continually monitors market interest rates, in order to evaluate the possible need to replace its debt. As of June 30, 2008, the Company had R\$974,880 in loans and financing which were obtained at variable interest rates (CDI and TJLP).

Another risk faced by the Company is the lack of correlation between the monetary adjustment indices of its debt and those of its receivables. Water supply and sewage treatment tariffs do not necessarily follow the increases in the interest rates affecting the Company's debt.

(d) Credit risk

Credit risk is mitigated by selling to a geographically dispersed customer base.

18. AGREEMENT WITH THE MUNICIPALITY OF SÃO PAULO

On November 14, 2007, the Company and the Municipality of Paulo (the Parties) entered into an Agreement to establish the conditions that ensure the stability in the providing of water supply and sewage, and environmental utility services in the city of São Paulo, the main provisions of which are as follows:

1. the Parties made the commitment to take basic sanitation and environmental actions, complementary to the actions of the Municipality of São Paulo, by investing in the deployment and continuity of programs such as: "Programa Córrego Limpo" (Clean River Program) and "Programa de Uso Racional da Água - PURA" (Rational Water Use

Program), the purpose of which is to ensure a decrease in water consumption by City government units, ensuring water supply to and the quality of living of the population;

2. starting November 14, 2007, Agreement date, all the amounts paid by the Municipality of São Paulo to SABESP, referring to consumption by City departments, agencies, and foundations, net of taxes, will be used in basic sanitation and environmental actions in the Municipality;

3. the Municipality made the commitment to resume the payment of consumption bills issued by SABESP, starting November 14, 2007, the date of this Agreement's execution;
4. the Parties will complete, within 90 days, the projects required to determine the outstanding amounts and prepare the drafts of the Bill to obtain the approval of the City Council for the Cooperation Agreement and Metropolitan Program Contract, to ensure the stable provision by SABESP of water supply and sewage services in the Municipality, through associated management of the assumed utility services, jointly by the Municipality and the State of São Paulo, pursuant to the general basic sanitation service principles laid down in State Law 11445/2007 and related State legislation;
5. the Parties and the State shall conclude, within 90 days after the execution of the Agreement, the terms and conditions of the Cooperation Agreement and Metropolitan Program Contract, to ensure the stable provision by SABESP of the water supply and sewage services to the municipality;
6. the approval of Municipal Authorization Law is an essential condition both for signing the Cooperation Agreement, to be signed by the Municipality and the State of São Paulo, and the Metropolitan Program Contract, to be signed by the Municipality and SABESP;
7. after forwarding the Project of Law to the Town Council, the Parties will execute the instrument of equation their pending financial issues, when it will then be granted a discount in the amount of R\$120 million on the Municipality's debts, in a negotiation character. These debts will be paid free of financial charges arising from interest, fines and monetary adjustment, and part of the debts will be paid by December 2008 and the rest under Municipal Interdepartmental Administrative Rule 01/2005, in seven annual installments;
8. the Parties will require the termination of the collection lawsuits filed by Sabesp, where Sabesp will pay the court fees, and each Party will pay the lawyers' fees, in an estimated amount of R\$1.9 million.

The First Amendment to the Agreement with the Municipality of São Paulo was entered into on February 11, 2008. The Parties decided to extend the agreement for a period equal to the original period, so that the Parties may conclude the required understandings to settle the outstanding debts and prepare the drafts of the Cooperation Agreement, the Metropolitan Contract Program, and the Authorization Bill.

The stages already in progress are the conclusion of the drafts of said instruments, sending the Bill to the City Council, concluding the required understandings to settle the outstanding debts, and jointly defining the sanitation and environmental actions to be taken.

On May 9, 2008 the Second Amendment to the Agreement was signed, extending the term for equal period and providing for automatic renewals, for equal periods, in case of no communication of the parties.

21. PUBLIC-PRIVATE PARTNERSHIP (PPP)

On June, 2008, SABESP executed a public-private partnership (PPP) contract with Cab Spat, a special-purpose entity, which has as its main shareholders Cab Ambiental and Galvão Engenharia.

Cab Spat will be responsible for (i) the expansion of the capacity of the Taiapuêba's water treatment station, from 10 cubic meters per second to 15 cubic meters per second, (ii) the construction of 17.7 kilometers of water network, (iii) the construction of 4 water storage tanks with a total capacity of 70,000 cubic meters, (iv) installation of boosters, and (v) construction of elevation stations. The total value of expenditures with these investments will be approximately R\$300 million.

Cab Spat shall also provide services of maintenance and operations, such as: (i) maintenance of dams, (ii) mud treatment and discharge, (iii) electro-mechanic maintenance, (iv) supplemental services of water distribution.

SABESP expects to spend approximately R\$1 billion in payments for this public private partnership contract, including the provision of services and investments.

Currently, the water treatment station of Taiapuêba is responsible for the supply of water for 3.1 million people. Its expansion will enable SABESP to expand its supply to 1.5 million people. This PPP is crucial to ensure the supply of water in São Paulo's metropolitan region.

22. SUBSEQUENT EVENTS

(i) The Companhia de Saneamento Básico do Estado de São Paulo - Sabesp (SABESP) informs that its 2nd Securities Distribution Program (2nd Distribution Program) is in process of structuring, in the amount of up to R\$3,000,000,000.00 (three billion reais) and the 9th issue of Single Debentures (9th Issue) in the amount of up to R\$500,000,000.00 (five hundred million reais), the first issue in the scope of the 2nd Distribution Program, and the amounts and conditions of the 9th Issue to be defined during the structuring process.

The 2nd Distribution Program and the 9th Issue will be the object of, respectively, filing and registration with the CVM under the terms of CVM's Instruction No. 400 of December 29, 2003, the characteristics of the 9th Issue subject to market conditions.

1. Net operating revenue

In the 2Q08, the net operating revenue totaled R\$1.5 billion, a 4.5% growth in relation to the 2Q07. Costs and expenses, amounting to R\$1,032.2 million increased 10.4% in comparison to the 2Q07. EBITDA decreased 5.3% to R\$636.0 million in the 2Q08 from R\$671.3 million in the 2Q07.

EBIT presented 6.1% decrease, from R\$512.5 million in the 2Q07 to R\$481.1 million in the 2Q08.

2. Gross operating revenue

In the 2Q08, gross operating revenue presented an increase of R\$63.6 million, or 4.1%, from R\$1,563.7 million in 2Q07 to R\$1,627.3 million in the 2Q08. The main factors, responsible for such growth were:

4.1% tariff adjustment as of September, 2007; and

Growth in the volume invoiced of water and sewage, being 1.4% in retail and 6.0% in the wholesale, totaling 1.9% .

The factors that have influenced this situation were:

Lower temperatures than those observed in the 2Q08 versus the 2Q07

The migration of consumption of lower pricing ranges, in function of: (i) the intensification of hydrometer replacements, which educates the customer to reduce consumption and ii) the result of the campaigns for the rational use of water.

The loss of major consumers on the coast line and the discontinuity of invoicing to 3 municipalities in the interior.

3. Volume invoiced

In the charts below, the volumes invoiced of water and sewage are demonstrated, according to the category of use and region, in the 2Q07, 2Q08, 1S07 and 1S08.

4.1 Salaries and payroll charges

In the 2Q08 there occurred an increase of R\$22.8 million or 7.1% in salaries and payroll charges, from R\$320.8 million to R\$343.6 million, as a result of the following factors:

Salary readjustment of 3.37% (IPC-FIPE) from May 2007 and 5.03% from May 2008;

Increase of R\$2.3 million in the provision for social security obligations due to the reduction of the discount rate used in the actuarial rate of 8% in 2007, to 6.59% in 2008.

4.2. General Supplies

In the 2Q08, there was an increase of R\$0.6 million or 1.7%, from R\$34.9 million to R\$35.5 million, mainly related to the loss reduction program.

4.3. Treatment Materials

The expenditures with chemical products in the 2Q08 were lower than in the 2Q07 by R\$1.6 million or 5.4%, from R\$29.5 million in 2Q07 to R\$27.9 million in 2Q08, resulting from the improvement in the quality of the water obtained and use of substitute chemical products.

4.4 Third Parties Services

In the 2Q08, this item presented an increase of R\$17.3 million, or 12.8%, from R\$135.2 million to R\$152.5 million. The main factors that negatively contributed to this were:

Preventive and corrective maintenance in the water and sewage treatment systems of R\$12.4 million.

Professional technical services, in the amount of R\$4.8 million to follow-up projects and works and also quality management of the maintenance services.

Expenditures with Surfacing and replacement of sidewalks in the amount of R\$2.3 million.

Hydrometer readings and delivery of bills in the amount of R\$2.2 million, as a result of the enhancement of the scope of the TACE (external commercial service technician) contracts, including the performance of residential inspections.

Expenditures with risk contracts for credit recovery, in the amount of R\$1.6 million.

Increase of R\$1.2 million in security in function of the enhancement of the electronically monitored areas.

Expenditures with fraud combat in the amount of R\$1.0 million.

Expenditures with prevention, detection and combat of fire, in the amount of R\$0.8 million.

The factors that favorably contributed to R\$10.5 million in 2Q08 in relation to 2Q07 were:

The accounting effect of the appropriation of expenditures related to the license of use of software in the amount of R\$7.7 million.

Lower expenditures with advertising campaigns in the amount of R\$2.8 million.

4.5. Electric Power

Presented a decrease of R\$9.0 million, or 7.2%, from R\$124.5 million to R\$115.5 million.

This result is associated to the 12.0% reduction in the tariff of the captive market, which represents 77.0% of the expenditures with electric power.

			(6.9)

4.6. General Expenses

In the 2Q08, there was an increase of R\$10.7 million or 21.1%, from R\$50.7 million to R\$61.4 million, due to:

Provision for contingencies with an increase of R\$7.6 million, mainly for the filing of new legal actions.

Payment for the use of hydrous resources of the Hydrographic Basins of the Rivers Piracicaba, Capivari, Jundiá, Jaguarí, Atibaia and Paraíba do Sul, with an increase of R\$1.9 million. This increase occurred in function of the collection by the State since July, 2007.

4.7. Depreciation and Amortization

Presented a decrease of R\$3.9 million, or 2.5%, from R\$158.8 million to R\$154.9 million. This variation is due to the lower transfer of work to fixed assets in operation in this quarter, when compared with the same quarter of 2007.

4.8. Credit Write -Offs

The write-offs presented, in the 2Q08, an increase of R\$61.3 million, or 84.0%, varying from R\$73.0 million to R\$134.3 million, due to the need to supplement the provision for past due accounts of:

Municipalities for which the Company supplies water wholesale. It is a timing difference between the invoiced amounts and those effectively received. These amounts were being accrued for after 360 days of the maturity date and started to be recorded in the provision at the moment that the debit appeared. The amount charged to the result of this 2nd quarter was R\$38 million. After the 360-day cycle is completed, the amount recorded to the result of each quarter will only represent the debits of the period, except in the case of reception.

Private Consumers. There has been observed an increase in the amounts past due for more than 360 days as compared to the amount provided. In function of this difference, there was the need to supplement the provision by R\$23 million in this quarter. Although many outsourced collecting contracts were already in force, their effects could not be measured in this period.

4.9. Tax Expenses

In the 2Q08 there was a decrease of R\$1.3 million, or 16.5%, resulting from the reduction of R\$6.9 million due to the end of the collection of CPMF, on December 31, 2007.

This result was partially offset by:

The beginning of the payment of the IPTU [Property Tax] in the municipality of Sao Paulo, due to the revocation of the exemption in the amount of R\$2.9 million.

Payment of IOF (tax on financial transactions) resulting from the AB LOAN funding transaction in June, 2008, in the amount of R\$1.6 million; and

IOF on financial remittance resulting from the settlement of the Eurobonds 2008, in the amount of R\$0.6 million.

5. Financial Income and Expenses

5.1. Financial expenses

	R\$ million			
	2Q07	2Q08	Variation	%
Financial expenses				
Interest and charges on domestic loans and financing	114.6	103.5	(11.1)	(9.7)
Interest and charges on foreign loans and financing	16.5	13.3	(3.2)	(19.4)
Income tax on remittances overseas.	1.7	1.4	(0.3)	(17.6)
Interest on court -ordered indemnities, net of provisions	5.8	56.5	50.7	874.1
Other financial expenses	5.9	(60.7)	(66.6)	(1,128.8)
Total financial expenses	144.5	114.0	(30.5)	(21.1)
Financial income	29.8	27.4	(2.4)	(8.1)
Financial expenses, net of income	114.7	86.6	(28.1)	(24.5)

In the 2Q08 there occurred a decrease of R\$30.5 million, or 21.1%, described as follows:

With regards to internal financings, there was a decrease of R\$11.1 million in interest on internal financings due to the settlement of the 1st series of the 6th issue of debentures and amortization of other financings.

As to the external financings, there was a reduction of interest in the amount of R\$3.2 million, due to the amortization and appreciation of the real versus the US dollar;

With regards to interest on indemnifications related to legal proceedings, there was an increase in the amount of R\$50.7 million.

Other financial expenses presented a decrease of R\$66.6 million, for the adjustment of the interest calculation referring to the special installment plan (PAES).

5.2. Financial income

The financial income presented a decrease of R\$2.4 million due to the lower volume of financial investment in the period.

6. Monetary variation income and expenses

6.1. Monetary variation expenses

	R\$ million			
	2Q07	2Q08	Variation	%
Monetary variation on loans and financing	12.6	46.7	34.1	270.6
Exchange variation on loans and financing	(74.3)	(104.3)	(30.0)	40.4
Other monetary variations	3.8	7.7	3.9	102.6
Monetary variation losses	(57.9)	(49.9)	8.0	(13.8)

The net positive effect of the monetary variations was R\$8.0 million lower in the 2Q08, when compared to 2Q07. This variation is due to:

Increase of R\$34.1 million in the monetary variation on debentures, resulting from the higher variation of the IGPM, 5.11% in the 2Q08 versus 0.68% in the previous period, partially offset by the lower variation of the TR, 0.32% in the 2Q08 versus 0.58% in the previous period, as well as for the reduction of the outstanding balance of the loans.

Higher appreciation of the real (9.0%) in the 2Q08, in comparison to the appreciation occurred in the 2Q07 (6.1%) and a reduction in the value of the currency basket of (2.0%) in the 2Q08, compared with (0.9%) in the 2Q07, generating a total impact of R\$30.0 million.

Other monetary variations on indemnifications on judicial proceedings with an increase of R\$3.9 million.

6.2. Monetary variation income

The monetary variation income presented an increase of R\$9.8 million, due mainly to the agreement to parcel customer debts.

7. Non -operating Result

Presented a decrease of R\$1.0 million or 83.3%, from R\$1.2 million in the 2Q07 to R\$0.2 million in the 2Q08 resulting from the factors mentioned below:

Non-operating revenues presented an increase of R\$3.5 million, from R\$2.7 million to R\$6.2 million in the 2Q08, due mainly to the sale of excess electric power and the sale of scrap.

Presented an increase of R\$1.4 million or 41.2% referring to the write-off of discontinued works and obsolete projects.

8. Operating Indicators (*)

The following chart shows the continuous improvement of the services provided by the Company.

17.01 - SPECIAL REVIEW REPORT

Report on the limited review of the independent auditors

To the Board of Directors and Shareholders
Companhia de Saneamento Básico do Estado de São Paulo - SABESP
São Paulo - SP

1. We have reviewed the accounting information included in the Quarterly Information (ITR) of Companhia de Saneamento Básico do Estado de São Paulo - SABESP for the quarter ended June 30, 2008, comprising the balance sheet, the statements of operations, of cash flows and of added value, the performance report and explanatory notes. This Quarterly Information is the responsibility of the Company's management.

2. Except for the matter mentioned in the following paragraph, our review was carried out in accordance with specific standards established by the Institute of Independent Auditors of Brazil (IBRACON), in conjunction with the Federal Accounting Council (CFC), and mainly comprised: (a) inquiries of and discussions with management responsible for the accounting, financial and operating areas of the Company with regard to the main criteria adopted for the preparation of the Quarterly Information and (b) a review of the significant information and of the subsequent events which have, or could have, significant effects on the financial position and operations of the Company.

3. As mentioned in Note 4, the reimbursement of the post-retirement and pension amounts paid by the Company is in a negotiation phase with the Government of the State of São Paulo. Consequently, it was not practicable for us to conclude on the eventual effects related to the amount of R\$963,277 thousand receivable on June 30, 2008 from the Government of the State of São Paulo.

4. Based on our review, except for the eventual effects of the matter mentioned in paragraph 3 above, we are not aware of any material modifications that should be made to the accounting information included in the Quarterly Information referred to above in order that it be stated in accordance with the standards issued by the Brazilian Securities Commission (CVM) applicable to the preparation of Quarterly Information, including CVM Instruction 469/08.

5. As mentioned in Note 18, on November 14, 2007, an agreement was signed between São Paulo's City Hall and the Company seeking the stability in the provision of services, the establishment of sanitation actions and the equation of the existing debts. In view of the current stage of the negotiations between the Company and the Municipality of São Paulo, no adjustment was recorded in the financial statements.

6. As mentioned in Note 2, Law 11638 was enacted on December 28, 2007 and is effective as from January 1, 2008. This law amended, revoked and introduced new provisions to Law 6404 (Brazilian Corporation Law) and changed the accounting practices adopted in Brazil. Although this law is already effective, some of the changes introduced by it depend on regulations to be issued by the regulatory agencies for them to be implemented by the companies. Accordingly, during this phase of transition, the CVM, through its Instruction 469/08, did not require the implementation of all the provisions of Law 11638 in the preparation of Quarterly Information. As a result, the accounting information included in the Quarterly Information for the quarter ended June 30, 2008 was prepared in accordance with specific CVM instructions and does not contemplate all the changes in accounting practices introduced by Law 11638.

7. The Quarterly Information - ITR mentioned in the first paragraph also include accounting information referring to the result of the quarter ended on June 30, 2007, obtained from the corresponding quarterly information - ITR of that quarter and to the balance sheet on March 31, 2008 obtained from the quarterly information - ITR of that quarter. The limited review of this information - ITR was carried out under the responsibility of other independent auditors, who issued unqualified reports, dated August 9, 2007 and May 14, 2008, respectively. Those auditors included emphasis paragraphs in their reports related to the reimbursement of supplemental amounts of post-retirement and pensions paid by the Company and to the agreement signed between São Paulo s City Hall and the Company.
