Rua Eteno, 1561, Polo Petroquimico de Camacari
Camacari, Bahia - CEP 42810-000 Brazil
(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K
in paper as permitted by Regulation S-T Rule 101(b)(1).

Indicate by check mark if the registrant is submitting the Form 6-K
in paper as permitted by Regulation S-T Rule 101(b)(7).

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to
the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82- _____.

Braskem S.A.
Quarterly Financial Information
Quarter Ended March 31, 2009

(A free translation of the original report in Portuguese
as published in Brazil containing Interim Financial Information
prepared in accordance with rules issued by the Brazilian Securities Exchange
Commission (CVM), applicable to the preparation of the Quarterly Financial
Information)

Braskem S.A.

ITR Quarterly Financial Information Base Date 3/31/2009

Independent Auditors Report on the Special Review

To
The Shareholders and Management
Braskem S.A.
Camaçari - BA

1. We have conducted a special review of the Quarterly Financial Information of Braskem S.A. and of the Company and its subsidiaries (consolidated information) for the quarter ended March 31, 2009, which comprises the balance sheets, the statements of income, of changes in shareholders equity, of cash flows, the performance report and the notes, which are the responsibility of its management. The Quarterly Financial Information of the subsidiary, iQ Soluções & Química S.A. as of March 31, 2009 were reviewed by other independent auditors, and our review, with respect to the amount of investment (R\$ 97,526 thousand) and income (R\$ 1,802 thousand) deriving from this subsidiary, is based exclusively on the comfort letter issued by these other auditors.
2. Our review was performed in accordance with specific rules established by IBRACON (Brazilian Institute of Independent Auditors) and the Federal Accounting Council (CFC), and consisted mainly of: (a) enquiries and discussions with management responsible for the accounting, financial and operational departments of the Company and its subsidiaries, with respect to the main criteria adopted in preparing the Quarterly Financial Information; and (b) a review of the information and subsequent events that had or could have had significant effects on the financial position and operations of the Company and its subsidiaries.
3. Based on our special review and the comfort letter issued by other independent auditors, we are not aware of any material changes that should be made to the aforementioned Quarterly Financial Information for it to be in accordance with accounting practices adopted in Brazil and consistent with the rules issued by the Brazilian Securities and Exchange Commission, specifically applicable to the preparation of the Quarterly Financial Information.
4. As per Note 9(a), the Company has retained ICMS credits from previous years, arising mainly from the differences between the rates of inflow and outflow of inputs and raw materials, domestic outflow which received incentive through the deferral of taxes, and sales destined to the foreign market in the amount of 1,185,497 thousand (R\$ 1,195,463 thousand Consolidated). The realization of these tax credits depends on the successful implementation of the management's plans as described in this note to the accompanying Quarterly Financial Information. The Quarterly Financial Information as of March 31, 2009 does not include any adjustments related to the recovery of these tax credits due to this uncertainty.

5. As per Note 19(c), the Company, in a proceeding that also involves the merged companies OPP Química, Trikem and Polialden, due to the discussion with respect to the constitutionality of Law 7689/88, is litigating the nonpayment of the Social Contribution on Net Income (CSSL) in the cases in which a final and unappealable decision has already been reached at the Federal Supreme Court (STF), and the Union has filed a rescissory action. The Company, based on the opinion of its legal advisors, who assessed the chances of a successful outcome as possible, believes that it should be successful in its pleading for the maintenance of the nonpayment and that in the event of loss in the rescissory action the decision would not have a retroactive effect as from the year the law came into effect. Consequently, for preparation purposes of the Quarterly Financial Information aforementioned in paragraph 1, no provision was made for possible unfavorable decisions regarding the years considered in the notice of tax assessments, or for the years not yet inspected by the Federal Revenue Department.

6. As per Note 9 (c), OPP Química S.A., merged by the Company in 2003, based on a decision taken by the Federal Supreme Court, recognized in its accounting records, Excise Tax (IPI) credits in the amount of R\$ 1,030,125 thousand (R\$ 2,754,619 thousand restated up to March 31, 2009 - R\$ 2,682,176 thousand as of December 31, 2008), which were offset with IPI and other federal taxes. Although this decision was the object of a regulatory appeal by the National Treasury, in which what is being questioned is not the right to the credit, but the inaccuracies with respect to the aspects related to the case of the non-taxed inputs, the monetary correction and the rate to be used for calculation purposes of the credits, despite the assessments drafted against the Company. The Company, based on the opinion of its legal advisors, considers the chances of a successful outcome as possible. Consequently, no provision was recorded in the Quarterly Financial Information for the quarter ended March 31, 2009.

7. As per Note 2, due to the modifications in the accounting practices adopted in Brazil during 2008, the statements of income and cash flows related to the quarter ended March 31, 2008, presented for comparison purposes, were restated in accordance with NPC 12 - Accounting Practices, Changes in the Accounting Estimates and Error Correction.

ALL AMOUNTS STATED IN THOUSANDS OF REAIS

1 Operations

(a) Braskem S.A. (Braskem or Company), with 18 production units located in the States of Alagoas, Bahia, São Paulo and Rio Grande do Sul, manufactures basic petrochemicals such as ethylene, propane and benzene, in addition to gasoline and LPG (cooking gas). Within the segment of thermoplastic resins, they manufacture polyethylene, polypropylene and PVC. In addition to those, the business purpose of Braskem is to import and export chemical, petrochemical, fuel products and to manufacture and supply inputs consumed by the companies of the Petrochemical Complexes of Camaçari State of Bahia and Triunfo State of Rio Grande do Sul, such as: steam, water, compressed air, electric energy, as well as to provide several services to these companies and to hold interest in other companies, as a partner or shareholder. The principal place of business of Braskem is located in Camaçari Bahia and its holding company is Odebrecht S.A., which holds, directly and indirectly, 62.3% of the voting capital.

In December 2008, the Company announced the business withdrawal of PET in view of the fact that the studies initiated in 2007 indicated the unfeasibility of retaking the production of that resin on competitive bases.

(b) Corporate Restructuring

Since its inception on August 16, 2002, the Company and its subsidiaries have undergone a major corporate restructuring process, disclosed to the market through material event notices. The main developments in 2008 can be summarized as follows:

b.1 In January 2008, the Company paid R\$ 247,503 as the last installment for the acquisition of Politeno shares that took place in April 2006. The share price was determined based on the average performance of that company over the 18 months subsequent to the signature of the purchase and sale agreement, as a result of the difference between polyethylene and ethylene prices in the Brazilian domestic market. Such acquisition gave rise to goodwill of R\$ 162,174, justified by future profitability.

b.2 In March 2008, as all precedent conditions set forth in the agreement among Braskem, UNIPAR União de Indústrias Petroquímicas S.A. (UNIPAR) and other minority shareholders of Petroflex Indústria e Comércio S.A. (Petroflex) and Lanxess Deutschland GmbH (Lanxess) for the sale of 100% of shares in that jointly-controlled entity had been complied with, a R\$ 130,502 (Note 26) gain was recorded on the transaction. The financial settlement of the transaction took place on April 1, 2008. As required by CVM Instruction 247/96, the Company determined equity in income of this investee until March 2008.

b.3 - On May 30, 2008, the merger of shares at book value issued by Grust Holdings S.A. (Grust), then a wholly-owned subsidiary of Petroquisa, was approved. At that date, Grust directly or indirectly held the following petrochemical assets: (i) 36.47% of the voting capital of Copesul, (ii) 40% of the voting capital of IPQ, (iii) 40% of the voting capital of IQ, and (iv) 40% of the voting capital of Petroquímica Paulínia. After the merger, Braskem directly and indirectly holds 99.17% of the voting capital of Copesul and 100% of the voting capital of IPQ, IQ, and Petroquímica Paulínia. The latter was a jointly-controlled entity with Petroquisa.

Under the merger of shares, Petroquisa received 46,903,320 new common and 43,144,662 new class A preferred shares issued by Braskem, in accordance with the following replacement ratio determined based on the economic values of Grust and Braskem, as stated in reports of specialized firms: 0.067419126039 common and 0.062016407480 class A preferred shares issued by Braskem for each one (1) common share issued by Grust. Braskem, in turn, received 695,697,538 common shares in Grust held by Petroquisa. As a result of the merger of shares, Braskem's capital was increased by R\$ 720,709, equal to the book value of Grust's shareholders' equity as of March 31, 2008.

b.4 - The Extraordinary Shareholders' Meeting of subsidiary Grust held on July 10, 2008 approved a capital increase from R\$ 695,698 to R\$ 797,815, without the issue of new shares, through the capitalization of current earnings determined as of June 30, 2008, in the amount of R\$ 102,117.

b.5 - The Extraordinary Shareholders' Meeting of subsidiary IPQ held on July 16, 2008 approved a capital increase through the contribution by Grust of its interest in Copesul, in the amount of R\$ 302,630. Accordingly, IPQ's capital increased from R\$ 349,507 to R\$ 652,137, through the issue of 11,938,022,669 common shares.

b.6 - The Extraordinary Shareholders' Meeting of subsidiary Grust, held on July 28, 2008, approved a capital reduction by R\$797,815, to ten *Reais* (R\$ 10,00), with the ensuing cancellation of 695,697,528 common shares. As a result, the following assets, at book value as of June 30, 2008, were returned to Braskem:

- (i) 174,429,784,996 common shares in IQ, in the amount of R\$ 398,455;
- (ii) 11,938,022,669 common shares in IPQ, in the amount of R\$ 302,631, and
- (iii) 112,000 common shares in Petroquímica Paulínia, in the amount of R\$ 96,729.

Following the transfer, Braskem directly held 100% of the voting capital of IQ and Petroquímica Paulínia, 25.98% of the voting capital of IPQ, and 59.97% of the voting capital of Copesul.

b.7 - The Extraordinary Shareholders' Meetings held on September 11, 2008 approved the merger of Copesul into IPQ. As a result of such merger, the capital of IPQ increased by R\$585,267, from R\$ 652,137 to R\$ 1,237,404, through the issue of 23,695,195,295 preferred shares. The increase was based on Copesul's shareholders' equity at net book value as of July 31, 2008 (the transaction base date), under the terms and conditions set out in the Protocol and Justification dated August 22, 2008, which established the exchange ratio in accordance with the economic values of IPQ and Copesul, whereby each one (1) Copesul share was exchanged for 524 IPQ preferred shares. Equity variations in Copesul between the base date and the merger date were fully reflected in IPQ, under the equity in the results of subsidiary and associated companies' line.

b.8 - The Extraordinary Shareholders' Meetings of Braskem and IQ held on September 30, 2008 approved the partial spin-off of IQ, where the spun-off assets, relating to interests in IPQ and ISATEC - Pesquisa, Desenvolvimento e Análises Químicas Ltda. (ISATEC) were transferred to the Company.

On the same date, Extraordinary Shareholders' Meetings approved the mergers, into Braskem, of IPQ and Petroquímica Paulínia were approved, under the terms and conditions set out in the merger protocol and justification, dated September 12, 2008. Additionally, the Company capital was increased by R\$ 14,146, from R\$ 5,361,656 to R\$ 5,375,802, through the issue of 1,506,061 class

A preferred shares, which were appropriated to remaining shareholders of IPQ, who are now Braskem shareholders.

(c) Administrative Council for Economic Defense CADE

In July 2008, CADE approved the transaction for the acquisition by Braskem and Petrobras of the Ipiranga Group's petrochemical assets. CADE made only one recommendation, namely the adjustment of the provision on non competition, so that the sellers compete only in the markets where they carried business activities prior to the acquisition.

In the same decision, CADE also approved the investment agreement whereby Petrobras contributed to Braskem its minority interest in Copesul, IPQ, IQ and Petroquímica Paulínia.

With this decision, no more restrictions subsist with respect to the management and merger of the assets acquired.

2 Presentation of the quarterly financial information

The Company Quarterly Financial Information (individual and consolidated) were prepared according to the accounting practices adopted in Brazil, which are derived from the Brazilian Corporation Law, pronouncements, guidelines and interpretations of the Accounting Pronouncements Committee (CPC), and the rules of the Brazilian Securities Commission (CVM) and Federal Accounting Council (CFC).

In the preparation of the Quarterly Financial Information for 2009 and 2008, the Company adopted the amendments to the corporate legislation introduced by Law 11638/07 (Law 11638/07), of December 28, 2007, with the respective amendments introduced by Provisional Measure 449/08 (MP 449/08), of December 3, 2008. Law 11638/07 and MP 449/08 amend Law 6404/76 (Brazilian Corporation Law) as regards aspects related to the preparation and disclosure of the financial statements and their main purpose was to update the Brazilian corporation Law in order to harmonize the accounting practices adopted in Brazil with those provided in the International Financial Reporting Standards, issued by the International Accounting Standards Board IASB.

The CPC is an entity the purpose of which is the study and disclosure of accounting and audit principles, rules and standards. The adoption of the pronouncements and technical directions issued by the CPC depends upon approval by the CVM, the Brazilian Central Bank or other regulatory agencies.

Transition Tax Regime (RTT)

The amounts presented in the Quarterly Financial Information as of March 31, 2009 considered the adoption of the Transition Tax Regime (RTT) by the Company and its subsidiaries with head offices in Brazil, the purpose of which is to maintain the tax neutrality of the amendments to the Brazilian corporate legislation, introduced by Law 11638/07 and MP 449/08. The permanent option for the RTT will be stated only on the occasion of the delivery of the Statement of Corporate Economical and Tax Information - DIPJ. The Transition tax effects, whenever applicable, generated as a result of the

adhesion to the RTT, are ascertained and presented in the deferred Income tax and Social contribution.

3 Significant Accounting Practices (a) Use of estimates

In the preparation of the Quarterly Financial Information, it is necessary to use estimates for certain assets, liabilities and other transactions. Therefore, the Quarterly Financial Information of the Company and its subsidiaries include several estimates related to the selection of useful lives of property, plant and equipment, intangible assets and market value of financial instruments, provisions for contingencies, income tax provisions and other similar amounts.

(b) Foreign currency and functional currency

The Company's Management has established that its functional currency is the *Real* according to the rules described in CPC 02, approved by CVM Deliberation 534/08.

Transactions in foreign currency, i.e., all those transactions that are not carried out in functional currency, are converted at the exchange rate of the dates of each transaction. Monetary assets and liabilities in foreign currency are converted into functional currency at the exchange rate of the closing date. Gains and losses of variations of exchange rates on monetary assets and liabilities are recognized in the statement of income. Non-monetary assets and liabilities acquired or hired in foreign currency are converted based on the exchange rates of the dates of the transactions or on the dates of the fair value evaluation whenever fair value is used.

(c) Statement of income

Income and expenses are recognized on the accrual basis.

Revenue from the sale of goods is recognized in the statement of income when the significant risks and rewards of ownership have been transferred to the buyer. Transfer of ownership occurs when the good is delivered to the client or to its shipper, depending upon the sale scheme.

The provision for income tax and ICMS expenses are recorded for including the tax incentive and the amount corresponding to the exemption and reduction of the income tax and ICMS are credited in the income account for the year.

Considering the provisions of CVM Deliberation 273/98, of August 20, 1998, and CVM Instruction 371/02, of June 27, 2002, the deferred income tax is stated at its probable value of realization, expected to occur as described in Note 19 (b, ii).

Monetary and exchange variations on assets and liabilities are classified in the Financial incomes and Financial expenses lines, respectively.

The Company recognizes in the income of the period/year the market value of the derivative contracts that contra entry the realization of cash flows and indexed liabilities in foreign currency or in international interest rates, except those accounted for as hedge transactions. (Notes 23 (f.3) (i.b)).

The net profit per share is calculated based upon the number of shares existing on the year-closing date.

(d) Current and noncurrent assets

(d.1) Cash and cash equivalents

Cash and cash equivalents include cash, banking deposits and high liquidity investments.

(d.2) Financial instruments

Classification and measurement

The Company classifies its financial instruments in the following categories: (i) for trading (ii) loans and receivables, (iii) held to maturity and (iv) available for sale. The classification depends upon the purpose for which the financial instruments have been acquired. Management determines the classification of its financial instruments at the initial recognition.

(i) Financial assets maintained for trading

Financial assets maintained for trading are measured at fair value by the result with the purpose of being negotiated actively and frequently, including derivatives, unless they have been designated as hedge instruments (protection). The assets of this category are classified as current assets. Gains or losses resulting from variations of the fair value of financial assets maintained for negotiation are recognized at the income for the year.

(ii) Loans and receivables

Granted loans and receivables that are non-derivative financial assets with fixed or determinable payments, not quoted in an active market, are included in this category as current assets, except those with maturity date that exceeds 12 months subsequently to the date of issue of the balance sheet (these are classified as noncurrent assets). The Company's loans and receivables consist of the balances of loan agreements and of current account with related companies, accounts receivable from customers, other accounts receivable and cash and cash equivalents, except short-term investments. Loans and receivables are accounted for by the amortized cost, using the actual interest rate method.

(iii) Assets held to maturity

Assets held to maturity are basically the financial assets that may not be classified as loans and receivables for being quoted in an active market. In that event, these financial assets are acquired with the purpose and financial capacity for its maintenance in portfolio up to maturity. They are appraised by the cost of acquisition, plus earnings received as a contra entry to the income for the year.

(iv) Financial assets available for sale

Financial assets available for sale are non-derivatives that are designated in that category or that have not been classified in any other category. They are included in the noncurrent assets, unless the management intends to dispose the investment in up to 12 months subsequently to the date of the balance sheet. The financial assets available for sale are accounted for at fair value. Interest rates of securities available for sale, calculated using the actual interest rate method, are recognized in the statement of income as financial incomes. The installment corresponding to the variation at fair value is recorded against the shareholders' equity, net from taxes, in the equity valuation adjustment account, being realized against income on the occasion of its liquidation or loss considered permanent (impairment).

Fair value

The fair values of the investments with public quotation are based upon the current purchase price. As regards the financial assets with no active market or public quotation, the Company establishes the fair value by means of evaluation techniques. These techniques include the use of recent transactions carried out with third parties, the reference to other instruments that are substantially similar, the analysis of discounted cash flows and the standard models of price fixing of options that use information generated by the market as much as possible and count as little as possible on information generated by Company's management.

The Company evaluates, on the date of the balance sheet, whether there is objective evidence that a financial asset or a group of financial assets is registered at a value that exceeds its recoverable value (impairment). In the event of any evidence for the financial assets available for sale, the cumulative loss measured as the difference between the cost of acquisition and the current fair value, minus any loss by impairment of this financial asset previously recognized in the income is removed from equity and recognized in the statement of income.

Derivative financial instruments and hedge activities

The Company has derivative financial instruments to protect risks related to foreign currencies and of interest rate.

Derivatives are initially recognized by their fair value and the respective costs of transaction are recognized in the income when incurred. Subsequently to the initial recognition, the derivatives are stated by the fair value and changes are recorded for in the income, except in the event described below for the accounting of hedge transactions:

Cash flow hedges

Changes in the fair value of derivative protection instruments designated as cash flow hedges are recognized directly in the shareholders' equity for the amount that is considered effective. In the event that the hedge is considered ineffective, the changes in the fair value are recognized in the income.

If the hedge instrument ceases to comply with the criteria for the hedge accounting, expires or is sold, terminated or exercised, hedge accounting is discontinued prospectively. Accrued gain or loss previously recognized in the shareholders' equity must be immediately transferred to the income for the quarter.

The Company recognized liabilities related to the hedge transaction accounting the characteristics of which satisfy the requirements provided by CPC 14, approved by CVM Deliberation 566/08.

(d.3) Trade accounts receivable

The trade accounts receivable are registered at the invoiced value, adjusted to present value, whenever applicable, less the allowance for doubtful accounts. The allowance for doubtful accounts consists of amount considered sufficient to cover the losses estimated in its realization, in view of the history of the Company's losses.

The methodology used by the Company to record the allowance for doubtful accounts encompasses 100% of amounts more than 180 days overdue, 50% of amounts more than 90 days overdue, and 100% of the amounts of bills under judicial collection process. The bills receivable of associated companies has not been taken into account in the calculation of this allowance.

(d.4) Inventories

Inventories are stated at average cost of purchases or production, lower than the replacement cost or than the realization value. Finished products include from freight up to the point of sale. Imports in progress are stated at the accumulated cost of each import. Inventories of maintenance materials are classified in the current assets or in the non current assets, considering the consumption's history.

(d.5) Deferred income tax

The deferred income tax is calculated over the tax losses and over the accounting expenses temporarily non-deductible for the calculation of the current income tax. Its recognition occurs in the extent in which it is probable that the future taxable profit is available to be used to offset the temporary differences, based upon the projections of future incomes prepared and grounded on internal premises and in future economic scenarios that may, therefore, undergo changes. Periodically, the amounts recorded are reviewed in accordance with CVM Deliberation 273/98, of August 20, 1998, and CVM Instruction 371/02.

(d.6) Other assets

Other assets are stated by the value of realization, including, whenever applicable, the earnings and the monetary variations received or, in the event of expenses of the following period, at cost.

(d.7) Shareholdings in subsidiaries, jointly-controlled entities and associated companies:

Investments in subsidiaries, jointly-controlled entities and associated companies when the Company has an interest in the voting capital of more than 20% or where it has significant influence on the related management are recorded on the equity method of accounting, as well as other companies belonging to the same group or under common control.

Investments stated for on the equity method include any goodwill (negative goodwill) balances to be amortized. In order to be maintained in the investment account, goodwill must be associated to the appreciation of property, plant and equipment of the investee. Even when stated in the investment account, such goodwill is amortized over the same term as the assets which gave rise to it.

Other investments are stated at acquisition cost, less the provision for adjustment to market value, when applicable.

(d.8) Property, plant and equipment

Property, plant and equipment is stated at acquisition or construction cost. As from 1997, property, plant and equipment includes capitalized interest on loans from third parties during the construction period, pursuant to CVM Deliberation 193/96. Capitalized interest is added to assets and depreciated / amortized as from the date that they become operational. (Note 16 (g)).

As from January 2006, in accordance with IBRACON Technical Interpretation 01/2006, the Company records all programmed maintenance shutdown expenses in property, plant and equipment, as Machinery, equipment and facilities . Such stoppages occur at scheduled periods at intervals from two to six years and the related expenses are amortized until the beginning of the next maintenance shutdown (Note 13).

Depreciation of property, plant and equipment are calculated on a straight-line basis at the rates mentioned in Note 13, which consider the estimated useful lives of the assets.

(d.9) Intangible assets

Intangible assets comprise of the assets acquired from third parties, including those acquired through a business combination, and those generated internally by the Company. The following criteria are applied:

Acquired from third parties through a business combination: goodwill per expectation of future profitability, arising from acquisitions involving business combinations, is not amortized as from 2009 and has its recoverable value tested.

Intangible assets acquired from third parties: intangible assets with defined useful life are measured by the total cost of acquisition less amortization expenses. Amortization is calculated based on the straight-line basis, at the rates mentioned in Note 14, which consider the estimated useful lives of the assets. Intangible assets with undefined useful life will not be amortized as from 2009 and have their recoverable value tested.

The Company records research expenses in the income.

(d.10) Deferred charges

The Company elected to maintain in deferred charges only those expenses incurred during the period of construction of industrial plans (pre-operating expenses). Such expenses are amortized over 10 years from the beginning of operations of the respective industrial plans.

(d.11) Impairment

Property, plant and equipment assets, intangible assets with a defined useful life and deferred charges have their recoverable values tested, at least, annually, in the event that there are indicators of value loss. Goodwill per expectation of future profitability and intangible assets with undefined useful life have the recovery of their value tested annually, regardless of indicators of value loss.

(e) Current and noncurrent liabilities

Current and noncurrent liabilities are recorded at known or calculable values plus, whenever applicable, corresponding charges, monetary and/or exchange variations incurred up to the date of the balance sheet date. Whenever applicable, the current and noncurrent liabilities are stated at present value, on a transaction by transaction basis, based upon interest rates that reflect the term, currency and risk of each transaction. The contra entry to the present value adjustments is recorded against the income accounts that resulted in the said liabilities. The difference between the present value of a transaction and the liabilities face value is appropriated to the income over the term of effectiveness of the agreement based on the amortized cost method and on the actual interest rate method.

(e.1) Adjustment to present value

In accordance with CPC 12, approved by CVM Deliberation 564/08, the Company segregates the financial charges on purchases of naphtha made abroad for payment over 180 days. During the first quarter of 2009 and 2008, the Company imported R\$ 305,671 and R\$ 305,363 of naphtha, respectively, with a maturity date for payment exceeding 180 days. Average financial charges on such purchases are 5.08% and 5.07%, respectively.

The naphtha imported by Braskem is a commodity priced at the ARA (Antwerp, Rotterdam and Amsterdam) quotation of the European market, plus freights and financial charges in the event of purchases on credit.

Financial charges related to these purchases are distinguished on the occasion of the registration of the tax invoices and are appropriated to the income as financial expenses over the term of the contracts. Changes in these consolidated financial charges during the first quarters of 2009 and 2008 are as follows:

	Mar/09	Mar/08
Charges to be appropriated at the beginning of the period	75,999	32,816
Charges included in the period purchases	12,321	17,534
Charges appropriated to income for the period	(32,439)	(20,427)
Charges to be appropriated in subsequent periods	55,881	29,923

The balance of the financial charges to be appropriated is classified as reducer of the suppliers account.

The other purchase and sale transactions carried out by the Company are within the maturity date of their operational flow. For those transactions, the Company understands that the bills receivable and payable are measured at the respective fair values.

(e.2) Loans

Borrowings are initially recognized at fair value, net of any expenses incurred to structure the transaction (transaction costs). Subsequently borrowings are stated including charges and interest that are proportional to the time elapsed.

Non-convertible debentures are recognized in the same way as borrowings.

(e.3) Contingent liabilities

Contingent liabilities are stated net of the related deposits in court, pursuant to CVM Deliberation 489/05.

(e.4) Provisions for losses on investments

Provisions for losses on investments in subsidiaries are accrued on the negative shareholders' equity (negative equity) of those companies and classified in the noncurrent liabilities, as a contra entry to the income from interest in subsidiaries and associated companies.

(e.5) Pension plan

Liabilities related to pension plans with defined benefit is the present value of the benefit obligation defined on the date of the balance sheet less the market value of the plan assets, adjusted for gain or actuarial losses and costs of past services. The defined benefit obligation is annually calculated by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by the estimate of future cash outflow, using the public securities interest rates, the maturity dates of which are close to the maturity dates of the related liabilities.

Actuarial gains and losses arising from changes of actuarial assumptions and amendments to pension plans are appropriated or credited to the income for the average time of remaining service of the related employees.

As regards defined contribution plans, the company pays contributions to private administration pension plans on compulsory, contractual or voluntary bases. As soon as contributions have been made, the Company has no obligations in relation to additional payments. Regular contributions consist of net periodical costs for the period in which they are due and, thus, are included in the personnel costs.

(e.6) Other provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation, based on a reliable estimate of its amount.

(f) Consolidated Quarterly Financial Information

The consolidated Quarterly Financial Information was prepared in accordance with the consolidation principles set forth in the Brazilian Corporation Law and supplementary provisions of CVM, and include the financial information of the Company and its subsidiaries, jointly-controlled entities and special purpose entities in which the Company has direct or indirect share control or direct or indirect control over their activities, as shown below:

		Direct and indirect interest in total capital - %			
		Head office (country)	Mar/09	Dec/08	Mar/08
Subsidiaries					
Braskem Finance Limited (Braskem Finance)	(i)	Cayman Islands	100.00	100.00	
Braskem Incorporated (Braskem Inc) subsidiary		Cayman Islands	100.00	100.00	100.00
Braskem Distribuidora Ltda. and subsidiary		Brazil	100.00	100.00	100.00
Braskem Participações S.A. (Braskem Participações) and subsidiary		Brazil	100.00	100.00	100.00
Braskem Argentina S.R.L (Braskem Argentina)		Argentina	100.00	100.00	100.00

- (i) Company organized in April 2008;
- (ii) Subsidiaries directly controlled by Braskem as from the merger of IPQ and spin-off of IQ (Note 1 (b.8));
- (iii) Company acquired in May 2008 (Note 1(b.3));
- (iv) Investment proportionately consolidated as per CVM Instruction 247/96;
- (v) Jointly-controlled entity as a result of shareholders agreement provision;
- (vi) Consolidated fund in compliance with CVM Instruction 408/04;
- (vii) Subsidiary as from January 2009;
- (viii) Subsidiary merged into IPQ in September 2008 (Note 1(b.7));
- (ix) Subsidiary merged into Braskem in September 2008

In the consolidated Quarterly Financial Information, investments among entities and equity in income have been eliminated, as well as the assets and liabilities balances, revenues and expenses and unrealized profits arising from transactions among the consolidated companies.

Goodwill grounded on the appreciation of property, plant and equipment was reclassified to the account of the specific underlying asset, in accordance with CVM Instruction 247/96. Negative goodwill is reclassified to line Other accounts payable in noncurrent liabilities.

Edgar Filing: BRASKEM SA - Form 6-K

As provided in paragraph one of article 23 of CVM Normative Instruction 247/96, the Company has not proportionately consolidated the financial statements of jointly-controlled subsidiaries Companhia de Desenvolvimento Rio Verde CODEVERDE and Refinaria de Petróleo Rio-Grandense S.A. (RPR). Information for these subsidiaries have not significantly changed nor does it give rise to misstatements in the Company consolidated financial statements.

The reconciliation of the shareholders equity and the income for the year between the parent company and consolidated is as follows:

	Shareholders equity		Net income for the period	
	Mar/09	Dec/08	Mar/09	Mar/08
Parent company	3,694,714	3,691,881	9,735	80,039
Exclusion of gain on the sale of investment among related parties	(38,476)	(38,476)		
Reversal of amortization of goodwill on the sale of investments among related parties	26,452	26,452		1,030
Exclusion of gain on assignment of right of use among associated companies				(1,588)
Exclusion of gain arising from capital contribution to subsidiary				133
Effect of CPC 12 adjustment (adjustment to present value)				694
Consolidated	3,682,690	3,679,857	9,735	80,308

(g) Reconciliation of net income with the effects of Law 11638/07 and MP 449/08

	Mar/08	
	Parent company	Consolidated
Net income before the effects of Law 11638/07 and MP 449/08	83,176	82,751
CPC-08 Transaction costs and premium on the issuance of securities	449	449
CPC12 Adjustment to present value	(3,586)	(2,892)
Adjusted net income for the period	80,039	80,308

4 Cash and Cash Equivalents

	Parent company		Consolidated	
	Mar/09	Dec/08	Mar/09	Dec/08
Cash and banks	173,954	137,758	295,950	145,915
Financial investments:				
Domestic	1,768,756	1,818,758	1,789,130	1,836,011
Abroad	651,160	631,657	547,768	629,674
	2,593,870	2,588,173	2,632,848	2,611,600

The domestic financial investments in Brazil are mainly represented by quotas in Braskem exclusive fund (FIQ Sol) which, in turn, holds quotas in local investment funds, such as fixed-income, multimarket, credit rights funds, as well as other fixed-income instruments and time deposits. The financial investments abroad mainly consist of sovereign fixed income instruments or instruments

issued by first-tier financial institutions with high marketability. The financial investments have been classified as held for trading and are stated at fair value, the variations of which are taken to income.

5 Marketable Securities

	Parent company		Consolidated	
	Mar/09	Dec/08	Mar/09	Dec/08
Current assets				
Public securities issued abroad	327,348	331,452	327,348	331,452
Other		5,563		5,563
Total	327,348	337,015	327,348	337,015
Long-term receivables				
Investment fund	8,311	9,717	8,311	11,550
Other			1,870	
	8,311	9,717	10,181	11,550
Total	335,659	346,732	337,529	348,565

Public securities issued abroad are represented by U.S. Treasury bonds and were classified by the Company as available for sale. The portion corresponding to the variation in fair value was recorded in the Adjustments of equity valuation account in shareholders' equity, in the amount of R\$ 6,538 (Dec/08 R\$ 7,998), net of taxes.

6 Trade Accounts Receivable

	Parent company		Consolidated	
	Mar/09	Dec/08	Mar/09	Dec/08
Trade accounts receivable				
Domestic market sales	1,259,001	1,444,547	1,309,480	1,484,491
Foreign market sales	720,281	895,328	787,079	897,250
Discounted trade bills	(187,851)	(551,266)	(187,851)	(551,266)
Advances on bills of exchange delivered	(277,824)	(587,705)	(277,824)	(588,418)
Allowance for doubtful accounts	(197,948)	(198,978)	(215,425)	(198,741)
	1,315,659	1,001,926	1,415,459	1,043,316
Noncurrent assets	(42,508)	(46,666)	(42,971)	(47,129)
Current assets	1,273,151	955,260	1,372,488	996,187

The Company adopts an additional policy for realizing domestic trade accounts, by selling its receivables to investment funds with credit rights.

The Company carried out a trade bill discount transaction with a financial institution, undertaking to reimburse it in the event of default of the customers.

Changes in the allowance for doubtful accounts in the first quarters of 2009 and 2008 are shown in the table below:

	Parent company		Consolidated	
	Mar/09	Mar/08	Mar/09	Mar/08
At the beginning of the period	194,402	160,217	209,414	186,488
Exchange variation			(86)	(4)
Additions classified as selling expenses	3,898	1,336	6,439	10,383
Recovery of provided credits	(352)	(541)	(352)	(1,128)
Write-off of uncollectible bills				(217)
At the end of the period	197,948	161,012	215,425	195,522

7 Inventories

	Parent company		Consolidated	
	Mar/09	Dec/08	Mar/09	Dec/08
Finished goods and work in process	1,170,548	1,562,984	1,289,165	1,655,201
Raw materials, production inputs and packaging	504,359	631,101	520,027	631,111
Maintenance materials (i)	372,227	370,971	375,195	374,437
Advances to suppliers	22,273	167,891	79,606	167,891
Imports in progress and other	4,190	131,270	18,458	140,093
Total	2,073,597	2,864,217	2,282,451	2,968,733
Non-current assets (i)	(20,637)	(20,637)	(20,637)	(20,637)
Current assets	2,052,960	2,843,580	2,261,814	2,948,096

(i) Based on the consumption history, part of the inventories of maintenance materials was classified in long-term receivables.

Advances to suppliers and expenditures for imports in transit primarily relate to the acquisition of petrochemical naphtha, which is the main raw material of the Company.

Noncurrent assets	1,453,382	1,199,922	1,460,708	1,201,816

(a) ICMS

The Company has accrued ICMS tax credits during the latest fiscal years on account of taxation rate differences between incoming and outgoing inputs and products; domestic outgoing products under incentive (subject to deferred taxation); and export sales.

Management has given priority to a number of actions aimed at optimal use of such credits and, currently, no losses are expected from realization of those credits. Actions taken by the Management comprise, among others:

Executing a settlement agreement with the Rio Grande do Sul State authorities, capping the use of ICMS tax credits at R\$ 8,250 monthly to offset with monthly ICMS tax debts owed by units located in said state, and upholding full deferral of ICMS tax on naphtha imports. Additional negotiations with the Rio Grande do Sul State are underway for further use of ICMS tax credits at R\$ 40,000, approximately, in future investments.

Obtaining from the Bahia State authorities a greater reduction (from 40% to 65.88%) in the tax base of ICMS levied on imported petrochemical naphtha, as per article 347, paragraphs 9 and 10 of the Bahia State ICMS Regulations (Decree 11059 of May 19, 2008), and a reduction in the rate of ICMS tax on domestic naphtha (from 17% to 11.75%) .

Starting feedstock imports under specific customs prerogatives, thus ensuring a lower generation of ICMS credits.

Expanding the ICMS tax base on fuel sales to industrial refiner (from 40% to 100%), as provided for in article 347 of the Bahia State ICMS Regulations.

Replacing co-product exports with domestic transactions.

Considering the Company's management projections over the term for realization of those credits, at March 31, 2009, the amount of R\$ 921,825 (parent company and consolidation) was recorded as noncurrent assets (Dec/08 - parent company/consolidated - R\$ 904,302).

(b) ILL

Absorbed company Copesul applied to the Federal Revenue Office for refund of Tax on Net Income (ILL) paid from 1989 through 1991 by using such ILL credit in settlement of other federal taxes, as ILL was considered unconstitutional under Federal Senate Resolution 82 of November 22, 1996.

In December 2002, Copesul posted such tax credits on its accounting statements, as the outside counsel held that likelihood of a favorable outcome is probable, given the existence of the aforesaid Federal Senate Resolution. The Higher Tax Appeals Chamber has already acknowledged Copesul's entitlement to restitution of unduly paid ILL. The National Treasury lodged an extraordinary for reversal of the above decision so that the term for restitution claims does not start running as from publication of such Senate Resolution, but rather as from the triggering event. According to the opinion of the Company's legal advisors, the Braskem management believes that the Full Board of the Taxpayers Council will uphold the aforementioned decision.

(c) IPI credits

IPI zero rate

On December 19, 2002, the Federal Supreme Court (STF) based on its full-bench precedents on this matter entertained an extraordinary appeal lodged by the National Treasury and affirmed the erstwhile decision rendered by the Regional Federal Court (TRF), 4th Circuit, thus recognizing entitlement to the IPI tax credits from acquisition of raw materials taxed at a zero rate, when related to transactions involving the establishments of merged company OPP Química S.A. (OPP Química) located in the State of Rio Grande do Sul. This STF determination confirmed such entitlement to IPI credits on said acquisitions, covering the ten-year period prior to the filing date and accruing the SELIC benchmark rate until the date of actual use of such credits. This lawsuit was filed by OPP Química in July 2000 for full adoption of the non-cumulative tax principle to said establishments.

The STF determination was challenged by the National Treasury via special appeal known as *agravo regimental*. In this special appeal, the National Treasury is no longer challenging the company's entitlement to the IPI tax credit from acquisition of raw materials taxed at a zero rate, but rather alleging some inaccuracies in the court determination as to non-taxed inputs and raw materials, the restatement of tax credits, and the respective calculation rate. According to the opinion of the Company's legal advisors, all these aspects have already been settled in the STF and TRF court decisions favorably to OPP Química, or even in the STF full-bench precedents. For this reason, the special appeal referred to above poses only a remote risk of changes in the OPP Química-friendly decision, although the STF itself has revisited this matter on the merits in a similar lawsuit lodged by another taxpayer.

In the light of those aspects referring to the extent of the *agravo regimental*, OPP Química posted these tax credits at R\$ 1,030,125 in December 2002, which was offset by the Company with IPI itself and other federal tax debts. Such credits were used up in the first quarter of 2005.

The tax credits used up by the Company (updated at the SELIC benchmark rate until March 2009) come to R\$ 2,754,619. Out of these credits, the various collection proceedings referred to below have reached R\$ 2,468,031, plus fines in the overall amount of R\$ 790,858. The Company's outside legal advisors believe that such fines are undue by any means.

In a judgment session held on December 11, 2007, the STF First Panel granted the *agravo regimental* on the argument that the extraordinary appeal should be entertained by said Panel again, thus voiding the erstwhile STF ruling. Such STF determination, published on March 27, 2009, does not clearly state the subject matters to be revisited, but the opinions rendered by most justices who make up the STF First Panel could suggest that the only matters to be entertained by STF will be those raised in the *agravo regimental*; in this case, Braskem's entitlement to use IPI tax credits would not be revisited by the STF.

Braskem file a motion for clarification of such obscurity in the STF finding, and believes (in reliance on the opinion of its legal advisors) that the STF First Panel will grant this appeal and make it clear that the new judgment on the extraordinary appeal will only revolve around the subject matters raised in the *agravo regimental*, thus ruling out any new determination on entitlement to IPI tax credits themselves, as discussions over such specific matter are precluded in this case).

All things considered, and in view of its belief that the new STF determination should be limited to procedural aspects only, Braskem (in reliance on the opinion of its legal advisors) still defends the final and conclusive nature of said decision allowing it to use IPI tax credits deriving from acquisition of raw materials that are either tax-exempt or else taxed at a zero rate. In addition, Braskem believes that the new STF judgment on the extraordinary appeal should focus only on the subject matter of the *agravo regimental* (which means that the STF should not longer deliberate on entitlement to IPI tax credits themselves, as discussions over such specific matter are precluded in this case).

During 2006 and 2007, the Federal Revenue Office issued several infraction notices (*autos de infração*) against the Company solely to avoid forfeiture of the tax authorities' right to dispute the use of tax credits until ten years before the filing of a lawsuit by the Company, also demanding the tax payments offset by the Company with the tax credits posted as from July 2000. Further, the Federal Revenue Office rejected approximately 200 applications for offsetting of these credits with federal taxes payable by the Company.

In October 2008, the administrative appellate tribunal (Taxpayers Council) rejected the appeals lodged by the Company with regard to some of the aforementioned administrative proceedings. The outcome of such dispute revolving around these credits used up by the Company is essentially conditioned to the STF finding on the court litigation described abroad, and the matter under discussion at administrative level refers to validity of the fines imposed on the Company for having used up IPI credits ascertained after July 2000.

Filing of administrative appeals by the Company is pending publication of the respective decisions rendered by the Taxpayers Council. If the administrative fines are upheld, Braskem will take this issue to court, and the likelihood of a favorable outcome for these disputes over the imposition of fines by the tax authorities is viewed as probable by the Company's outside legal advisors.

Similar lawsuits have also been filed by the Company's branches located in the States of São Paulo, Bahia and Alagoas (Note 18(ii)).

10 Prepaid Expenses

Prepaid expenses refer to expenditures whose benefits or the provision of services to the Company will take place over subsequent fiscal years. They are represented substantially by insurance premiums (Note 27). They will not be realized in cash, but rather by appropriation to the results.

(i) At December 31, 2008, these subsidiaries were included in the parent company statements.

(ii) On March 18, 2009, the Company paid up the shares in this jointly-controlled entity which, at that time, recorded negative equity negativo. For this reason, the capital payment amount was considered as goodwill with no justification and, as such, as fully written-off to income.

On-going projects mainly represent projects for expanding the capacity of the industrial units, operational improvements to increase the working life of machines and equipment, excellence projects in the maintenance and production areas, in addition to programs in the areas of health and technology.

In the Braskem structure, the activities involving the production and sales of PET and Caprolactam comprise a Business Unit. In December 2008, Braskem advised the market about the definitive stoppage of the PET production unit. Also in December, equipment was identified that could be put to use by other business units of the Company. The remaining machines, equipment and installations are likely to be disassembled and sold as scrap. Furthermore, in December 2008, in compliance with the provisions of CPCs 01 and 13, the Company evaluated the recoverable value of the Caprolactam plant. This evaluation led to the recognition of an expense representing the difference between the current value of the cash flows obtained from production and sale of that product and the net book value of the respective industrial unit. In order to prepare this cash flow, the following were taken into account: (i) the discount rate of 11.14% p.a.; (ii) cash flow in perpetuity, bearing in mind that Caprolactam, like all other chemical and petrochemical products, shows constant and well-defined cycles of high and low selling prices and of the main inputs.

	3,675,168	(1,281,596)	2,393,572	2,378,707	

(i) Goodwill grounded on future profitability was amortized up to December 31, 2008, taking into account the maximum period of 10 years. As from 2009, this type of goodwill will no longer be systematically amortized, being subject to the annual impairment test, pursuant to the provisions of CPC 13 and 01, respectively. On a consolidated basis, the balance reduction in March/2009 from December/2008 is attributable to goodwill on the investment in Cetrel, justified by the appreciation of property, plant and equipment, and that was reclassified to the Machinery, equipment and facilities line (Note 13).

(a) Eurobonds

In June 2008, subsidiary Braskem Finance concluded fundraising of US\$ 500 million in Eurobonds, with a 7.25% p.a. coupon, maturing in 2018, priced at 99.127% of face value, with a return to the investor of 7.375% p.a. This amount was used to amortize an installment of the bridge loan taken out for the acquisition of the petrochemical assets of the Ipiranga Group.

Composition of transactions:

Issue date	Issue amount US\$ 000	Maturity	Interest (% p.a.)	Parent company / Consolidated	
				Mar/09	Dec/08
Jul/1997	250,000	Jun/2015 No maturity date	9.38	358,102	353,265
Jun/2005	150,000	Jun/2015 No maturity date	9.75	348,677	351,960

				3,009,460	3,023,099

(b) Export prepayments

In October 2008, the subsidiary Braskem Inc. completed a 5-year export prepayment transaction in the amount of US\$ 725 million, bearing interest at Libor + 1.75% p.a., with a 3-year grace period. The transaction was intended for the partial repayment of the bridge loan taken out for the acquisition of the petrochemical assets of the Ipiranga Group and going private of merged company Copesul. Subsequently, management carried out a swap transaction that locked the Libor quotation for the period of the transaction at 3.85% p.a. consequently, the export prepayment transaction cost will be changed from Libor + 1.75% p.a. to 5.6% p.a..

Composition of transactions:

Date	Initial transaction amount US\$ '000	Settlement term	Charges (% p.a)	Consolidated

Oct/08	725,000	Oct/13	US\$ exchange variation + financial charges of 5.60	1,678,520	1,720,120
Total				3,567,782	4,000,282

(c) Project financing

In March and September 2005, the Company obtained loans in Japanese currency from Nippon Export and Investment Insurance ("NEXI"), in the amount of YEN 5,256,500 thousand - R\$ 136,496, and YEN 6,628,200 thousand - R\$ 141,529, respectively. The principal has being paid in 11 installments as from March 2007, with final maturity in June 2012.

As described in (Note 23(f.3)), the Company entered into swap contracts for the total amount of this debt, in such a manner that the annual financial liability of the tranche drawn down in March of 2005 is 101.59% of the CDI, while the tranches drawn down in September 2005 will pay 104.29% and 103.98% of the CDI. The swap contracts were signed with a leading foreign bank and their maturities, currencies, rates and amounts are perfectly matched to the financing contracts. The effect of this swap contract is recorded in financial results (Note 24).

(d) Working capital financing

In March 2009, Braskem completed a transaction to raise R\$ 600 million from Caixa Econômica Federal. The financing term is 4 years, with a 1-year grace period for repayment of principal. The total cost of the debt is 117.5% of CDI, with interest paid on a quarterly basis up to the end of the grade period, and on a monthly basis thereafter. The financing may be prepaid at any time, with no additional cost for Braskem.

(e) Repayment schedule

Long-term loans mature as follows:

	Consolidated	
	Mar/2009	Dec/2008
2010	544,111	639,184
2011	1,058,357	868,219
2012	1,448,729	1,258,640
2013	1,443,725	1,401,705
2014 and thereafter	4,830,445	4,872,073
	9,325,367	9,039,821

(f) Guarantees

The Company has provided securities as stated below:

Parent company

	Maturity	Guaranteed Total	Financing amount	Guarantees
BNB	Jun/16	239,982	239,982	Mortgage (plants) / Pledge of machinery and equipment

Total	5,002,990	7,768,736
--------------	------------------	------------------

(g) Capitalized interest

The Company adopts the accounting practice of capitalizing interest on financing during the period of asset construction. The Company policy is to apply the average weighted financial surcharge rate on the debt, including exchange and monetary variation to the balance of projects in progress.

The average rate used in the period was -0.39% p.a. (Mar/08: -4.32% p.a.), including exchange variation. Amounts capitalized per year are shown below:

	Expenses (income)			
	Parent company		Consolidated	
	Mar/09	Mar/08	Mar/09	Mar/08
Gross financial charges	129,844	86,701	111,207	75,218
(-) Financial charges capitalized in the year	(4,482)	17,827	(4,482)	24,565
Net financial charges	125,362	104,528	106,725	99,783

(h) Loan covenants

Certain loan agreements entered into by the Company establish limits for certain ratios involving the ability to incur debts and pay interest.

The first ratio imposes limits on the Company's indebtedness on account of our ability to generate EBITDA. This is calculated by dividing the Company's consolidated net debt by its consolidated EBITDA for the last twelve months. This ratio is calculated in Reais or dollars, depending on contract terms. If calculated in dollars, the closing PTAX is used for assessing the net debt and the average dollar for the last four quarters for calculating the EBITDA.

The second ratio to be found in the Company's contracts is the division of the consolidated EBITDA by net interest, which represents the difference between interest paid and received. This ratio is verified on a quarterly basis and is only calculated in dollars.

Below is a summary of the outstanding transactions and their limiting factors:

Transaction	Indicator/Limit	Currency
Debentures 13th and 14th	Net debt/EBITDA(*) < 4.5	R\$
NEXI financing	Net debt/EBITDA(**) < 4.5 EBITDA (**)/Net interest > 1.5	US\$
Medium]Term Notes	Net debt/EBITDA (*) < 4.5	R\$
Export prepayments	Net debt/EBITDA (**) < 4.5 EBITDA (**)/Net interest > 2,0	US\$

(*) EBITDA - operating result before financial results and equity interests, plus depreciation and amortization

(**) EBITDA - operating result before financial results and equity interests, plus depreciation and amortization, dividends and equity interest received from non-consolidated companies

The penalty for non-compliance with these is the possibility of accelerated debt maturity, except for the Debenture and Medium-term Notes transactions.

All commitments assumed are fulfilled.

(i) Transaction costs

Costs incurred to structure certain financing transactions were considered as part of the transaction costs, pursuant to CPC 08. Changes in such costs are as follows:

	Mar/2009				Dec/2008		
	Export prepayments	Eurobonds	Working capital	Total	Export prepayments	Eurobonds	Total
Opening balance	30,043	15,763		45,806			
Incurred costs	-	-	12,759	12,759	31,301	16,593	47,894
Amortizations	(1,839)	(411)	(418)	(2,668)	(1,258)	(830)	(2,088)
Exchange variation	(245)	(147)	-	(392)			
Balance to appropriate	27,959	15,205	12,341	55,505	30,043	15,763	45,806

The amount to be appropriated to the income is composed as follows:

	Mar/2009				Dec/2008		
	Export prepayments	Eurobonds	Working capital	Total	Export prepayment	Eurobonds	Total
2009	5,552	1,233	3,765	10,550	7,452	1,659	9,111
2010	7,387	1,644	4,497	13,528	7,448	1,659	9,107
2011	7,140	1,644	2,859	11,643	7,198	1,659	8,857
2012	5,417	1,644	1,185	8,246	5,462	1,659	7,121
2013	2,463	1,644	35	4,142	2,483	1,659	4,142
2014 and thereafter	-	7,396	-	7,396	-	7,468	7,468
	27,959	15,205	12,341	55,505	30,043	15,763	45,806

17 Debentures (Public issue, non-convertible into shares)

Issue	Unit value	Maturity	Remuneration	Remuneration payment	Parent company/ consolidated	
					Mar/09	Dec/08
13th	R\$ 10	Jun/2010	104.1% of CDI	Biannually as from Dec/05	312,615	303,481
14th	R\$ 10	Sep/2011	103.5% of CDI	Biannually as from Mar/07	504,756	522,795
					817,371	826,276

Changes in debentures are as follows:

	Parent company / consolidated	
	Mar/09	Dec/08
At the beginning of the year/period	826,276	911,632
Financial charges	24,462	99,468
Merger of subsidiary		(91,158)
Amortization	(33,367)	(93,666)
At the end of the year/period	817,371	826,276
Current liabilities	(17.371)	(26.276)
Noncurrent liabilities	800.000	800.000

18 Taxes and Contributions Payable Noncurrent Liabilities

		1,237,613	1,221,668	1,246,994	1,231,236

The Company is disputing in court some changes in tax laws, and the updated sums have been provisioned for. No contingent assets are posted in this regard.

(i) IPI Tax Credit on Exports (*Crédito-prêmio*)

The Company by itself and through absorbed companies challenges the term of effectiveness of the IPI tax credit (*crédito-prêmio*) introduced by Decree-law 491 of 1969 as an incentive to manufactured product exports. Lower courts have granted most lawsuits to that end, but such favorable decisions may still be appealed.

In hearing the appeal lodged by another taxpayer seeking court recognition of its entitlement to use such tax benefit until present, the Superior Court of Justice (STJ) upheld its rejection to such prospective use and affirmed that the aforementioned tax benefit expired in 1990. As constitutional issues are at dispute, the STF is to make a final determination over this matter and its general implications. Also, the STF will eventually revisit the right to use those tax credits after 1990, based on application of Temporary Constitutional Provisions Act (ADCT) 41.

According to its legal advisors, the Company stands reasonably possible chances of success in these suits.

(ii) IPI Zero rate

Merged companies OPP Química, Trikem and Polialden have filed lawsuits claiming IPI tax credits from the acquisition of raw materials and inputs that are exempt, non-taxed or taxed at a zero rate. Lower courts have granted most lawsuits to that end.

In a decision rendered in February 2007 on a case unrelated to the Company, the STF found against the right to offset zero-rate IPI credits by a tight majority (6 to 5). In June 2007, the STF Full Bench ruled, by majority opinion, that prospective-only effects could not be given to an STF decision that later reversed an erstwhile taxpayer-friendly determination made by the STF Full Bench itself. This ruling had a negative bearing on judgment of the cases involving merged companies OPP Química and Trikem in Bahia, leading to payments in the amount of R\$ 127,317 (August 2007). By the same token, a portion of the amount underlying the lawsuit involving merged company Polialden (R\$ 99,641) was settled in October 2007. The outstanding value relating to Polialden will be challenged in court.

The Company still enjoys a favorable court decision on the lawsuit lodged by its merged company Trikem in Alagoas, allowing the Company to use these tax credits. The Company will have to pay out the offset sums when the court decision on this case is reversed. It should be stressed that all of these amounts have been provisioned for, which will avoid an adverse impact on the Company's results.

(iii) PIS/COFINS - Law 9718 of 1998

The sums posted by the Company as long-term liabilities primarily refer to the lawsuits filed by the Company and by the absorbed companies to challenge the constitutionality of the COFINS tax rate escalation from 2% to 3% as per Law 9718 of 1998. Despite the STF Full Bench finding in November 2005 favorably to the lawfulness of said escalation, the STF itself is revisiting this matter in terms of the general implications from such unconstitutionality. The Company filed another lawsuit in late 2008, with a new approach in light of new arguments deriving from the current state of affairs.

(iv) Special Installment Program - PAES - Law 10684/03

In July and August 2003, absorbed companies IPQ and Trikem qualified for more favorable payment conditions by adhering to the PAES program instituted by Federal Law 10684 of 2003.

IPQ adhered to this installment payment scheme, after cancellation of supporting certificates (DCC s) originated from acquisition and offsetting of third-party credits. For its part, Trikem opted for such scheme after filing for voluntary termination of the lawsuit challenging the COFINS tax rate escalation from 2% to 3% (instituted by Law 9718 of 1998).

Even though the Company had met all legal requirements and payments were being made as and when due, the National Treasury Attorney's Office (PFN) disqualified Trikem for PAES on two different occasions, and the Company obtained a court relief reinstating it to PAES in these two events. In reliance on the opinion of its legal advisors, Management believes that the Company's eligibility for these installment payments will be upheld as originally requested.

The outstanding debt is R\$ 34,798 as of March 31, 2009, being R\$ 7,543 in current liabilities and R\$ 27,255 in noncurrent liabilities (December 2008 R\$ 36,700, being R\$ 8,034 in current liabilities and R\$ 28,665 in noncurrent liabilities).

19 Income and Social Contribution Taxes**(a) Current income tax**

	Parent company	
	Mar/09	Mar/08
Income before income tax and social contribution and minority interest	32.137	84.068
Benefit (expense) of income tax and social contribution at the rate of 34%	(10,926)	(28.583)
Income tax on equity in income of subsidiaries	(7,954)	19,059
Tax effects of non submission to Social Contribution on Net Income (Note 19(c))	2,892	7,566
Effects of Law 11638/07 RTT Transition Tax Regime RTT	25,514	(963)
Other permanent differences	(941)	(800)
Amortization of goodwill	10,212	7,305
Taxes challenged in court	(214)	(31)
Tax losses	(37,948)	4,798
Provisions and other temporary differences	(19,365)	(19,510)
Other	(1,255)	
Income and social contribution tax expenses	(1,255)	(11,159)

As tax losses were incurred in 2009, there was no income tax exemption/abatement benefits in the period. In 2008, income tax expense did not include the exemption/abatement.

(b) Deferred income tax**(i) Composition**

In accordance with the provisions of CVM Deliberation 273/98, which approved the Institute of Independent Auditors of Brazil (IBRACON) standards on the accounting of income tax, supplemented by CVM Instruction 371/02, the Company has the following accounting balances of deferred income tax:

Composition of calculated deferred income tax:	Parent company		Consolidated	
	Mar/09	Dec/08	Mar/09	Dec/08
Tax loss carryforward	3,740,555	3,627,614	3,749,914	3,644,611
Amortized goodwill on investment in merged companies	623,623	668,623	623,623	668,622
Temporarily non-deductible expenses	376,468	406,059	444,368	419,391
Adjustment to Law 11638/07 and MP 449/08	80,636	91,341	80,636	91,341
Potential calculation basis of deferred income tax	4,821,282	4,793,637	4,898,541	4,823,965
Potential deferred income tax (25%)	1,205,321	1,198,409	1,224,635	1,205,991
Unrecorded portion of deferred income tax:				
Tax losses	(530,636)	(502,024)	(530,635)	(502,024)
Deferred income tax assets	674,685	696,385	694,000	703,967
Current assets	(55,972)	(56,018)	(59,917)	(59,555)
Noncurrent assets	618,713	640,367	634,083	644,412
Changes:				
Opening balance for the period	696,385	426,040	703,967	476,631
Merged balance of subsidiaries		39,998		(15,370)
Consolidated Ipiranga balance				
Adjustment to Law 11638/07 and MP 449/08	(405)		9,453	
Amortization of reorganization and structured transaction expenses	(2,676)		(2,676)	
Recording of deferred income tax on tax losses		258,437		256,159
Recording of income tax on amortized goodwill of merged companies		54,755		54,755

Edgar Filing: BRASKEM SA - Form 6-K

Deferred income tax realized on amortized goodwill of merged companies	(11,250)	(38,455)	(11,250)	(38,455)
Deferred income tax on temporary provisions	(7,369)	(44,390)	(5,494)	(29,753)
Closing balance	674,685	696,385	694,000	703,967
Deferred income tax liabilities on accelerated depreciation with incentives:				
At the beginning of the period	(9,975)	(7,503)	(21,393)	(62,817)
Adjustment to Law 11638/07 and MP 449/08	487	(2,509)	6,148	(2,509)
Merged balance of subsidiary		(552)		(5,587)
Realization (recording) of deferred income tax	147	589	147	49,520
At the end of the period	(9,341)	(9,975)	(15,098)	(21,393)
Deferred income tax in statement of income	(21,147)	230,936	(19,272)	292,226

(ii) Deferred social contribution

The consolidated statements include the following portions of deferred social contribution arising from subsidiaries IQ and Braskem Distribuidora:

	Mar/09	Dec/08
Assets	2,394	10,051
Liabilities	2,072	2,156
Result: Revenues (expenses)
