Yes No

Authorization to drill new well in the pre-salt region

Rio de Janeiro, December 2 2009. PETRÓLEO BRASILEIRO S/A - PETROBRAS, announces that it was granted authorization by the National Petroleum Agency (ANP), yesterday, to drill a well in the northern area of the Santos Basin's pre-salt, contiguous to the Iara discovery, outside of the boundaries of the blocks that have already been bid for. The region is eligible to compose the areas that will be the object of the Transfer of Rights with Compensation, once the Bill No. 5941/09 has been approved.

The purpose of the operation is to gather information about the region, which has yet to be assessed. Drilling is expected to reach a depth of 6,425 meters. The collected data will be delivered to the ANP at the end of the drilling.

The SS-53 drilling rig will be directed to the region and the kick-off of the activities is expected to the middle of December. The Company will be in charge of the operation and will incur the costs of the drilling, since the intention is to get stratigraphic information to create a better geologic knowledge of the area and the basis to the future development of the area.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
