Clarification on recoverable volumes in Tupi, Iracema, and Guar

Rio de Janeiro, November 03 2010 Petrleo Brasileiro S.A. - Petrobras, as the operator of Blocks BMS-11 and BMS-9, clarifies that the Statement issued yesterday by the BG Group (BG) concerning the estimated volumes of recoverable oil equivalent in Tupi, Guar, and Iracema, in the Santos Basin pre-salt area, is not a disclosure made by the Consortium responsible for operating the blocks. BG is responsible for this information, which was backed by a report issued by a consultancy firm hired solely by BG.

Petrobras believes that it is relevant to complete the wells that are currently being drilled in the Tupi Evaluation Plan area in order to announce additional information regarding recoverable volumes in Tupi and Iracema. Regarding the Guar area, Petrobras believes it is important to drill new delimitation wells and to carry out an Extended Well Test to revise the estimated volume that has been announced.

Therefore, Petrobras reiterates the previously disclosed estimates ranging from 5 to 8 billion barrels of recoverable oil in Tupi and Iracema (BM-S-11), and 1.1 to 2 billion barrels of recoverable oil in Guar (BM-S-9).

The Company has informed the BG Group of the need to comply with the rules set forth under the Joint Operations Agreement.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
