New oil discovery in pre-salt of Santos Basin

Rio de Janeiro, March 20, 2012 – Petróleo Brasileiro S.A. – Petrobras announces the discovery of a new high quality oil accumulation in block BM-S-8, in ultra deep waters in the pre-salt of Santos Basin.

The discovery was found during drilling of well 4-SPS-86B (4-BRSA-971-SPS), unofficially known as Carcará, 232 km off the coast of São Paulo State. Sampling confirmed the presence of oil of approximately 31° API in reservoirs 5,750 meters deep.

The well continues to be drilled with the aim of determining the lower limit of the reservoirs and to identify other possible zones of interest.

Carcará is the third well drilled in the area of the Discovery Evaluation Plan of 1-BRSA-532A-SPS (Bem-te-vi prospect), and is 20 km from the discovery well, at a water depth of 2,027 meters.

The Consortium will proceed with the activities and investments necessary for the evaluation of the area, according to the Evaluation Plan approved by the Oil, Natural Gas and Biofuels National Agency (ANP).

Petrobras is the operator of the consortium (66%) in partnership with Petrogal Brasil (14%), Barra Energia do Brasil Petróleo e Gás Ltda. (10%) and Queiroz Galvão Exploração e Produção S.A. (10%).

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
