**Report of Independent Registered
Public Accounting Firm**

To the Board of Directors and Shareholders

We have reviewed the accompanying condensed consolidated balance sheet of Petróleo Brasileiro S.A. Petrobras and its subsidiaries as of March 31, 2012, and the related condensed consolidated statements of income, of cash flows, of comprehensive income and of shareholders equity for the three-month period ended March 31, 2012. This interim financial information is the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated interim financial information for it to be in conformity International Financial Reporting Standards as issued by the International Accounting Standards Board.

The financial statements of the Company as of and for the year ended December 31, 2011 and the financial information as of and for the quarter ended March 31, 2011 were audited and reviewed, respectively, by other auditors who issued unqualified opinion and review reports dated February 9, 2012 and May 13, 2011, respectively.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements

(Expressed in millions of Dollars, except when specifically indicated)

1. The Company and its operations

Petróleo Brasileiro S.A. - Petrobras is dedicated, directly or through its subsidiaries (referred to jointly as Petrobras or the Company) to prospecting, drilling, refining, processing, trading and transporting oil originating from wells, shale or other rocks, and oil products, natural gas and other liquid hydrocarbons, in addition to activities connected with energy and it may carry out research, development, production, transport, distribution and trading of all forms of energy, as well as any other correlated or similar activities. The Company s head office is located in Rio de Janeiro RJ.

2. Basis of presentation of interim financial information

The consolidated interim financial statements are being presented in accordance with IAS 34 Interim Financial Reporting issued by the International Accounting Standards Board (IASB) in U. S. dollar.

This interim financial statements are presented without repeating certain notes to the financial statements disclosed previously, but with an indication of the relevant changes occurring in the interim period and, therefore, they should be read together with the Company s annual financial statements for the year ended December 31, 2011.

The Company s Board of Directors authorized the publication of these interim quarterly financial statements in a meeting held on May 15, 2012.

2.1

Accounting estimates

In the preparation of the interim financial statements it is necessary to use estimates for certain assets, liabilities and other transactions. These estimates include: oil and gas reserves, liabilities of pension and health plans, depreciation, depletion and amortization, abandonment costs, provisions for legal processes, market value of financial instruments, income tax and social contribution. Although Management uses assumptions and judgments that are reviewed periodically, the actual results may differ from these estimates.

3. Consolidation basis

The consolidated interim financial statements include the quarterly information of Petrobras and its subsidiaries, jointly controlled subsidiaries and specific purpose entities.

The Company did not present material changes in interests in consolidated companies in the period ended March 31, 2012.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

*(Expressed in millions of Dollars, except when specifically indicated)***4. Accounting practices**

The accounting practices and calculation methods used in the preparation of these consolidated interim financial statements are the same as those adopted in the preparation of the Company's annual financial statements for the year ended December 31, 2011.

5. Cash and cash equivalents

	March 31, 2012	December 31, 2011
Cash and banks	1,721	1,989
Financial investments		
- <i>In Brazil</i>

10. Acquisitions and sales of assets

10.1

Business Combinations

Arembepe Energia S.A.

On January 24, 2012, Petrobras exercised its right to subscribe to the total number of shares issued by the thermoelectric power station Arembepe Energia S.A. for US\$ 35, due to the fact that the partner Nova Cibe Energia S.A. had renounced its subscription right. Additionally, Petrobras exercised its option to purchase the remaining shares owned by its partner for US\$ 36 thousand, as established in the Capital Contribution Agreement, and on March 6, 2012 now holds 100% of the total capital (30% in 2011) of the thermoelectric power station.

The transaction was approved by ANEEL (Agência Nacional de Energia Elétrica) on February 28, 2012.

10.2

Acquisition of interests in jointly-controlled entities and in associates

Energética Camaçari Muricy I S.A.

On January 23, 2012, Petrobras exercised its right to subscribe to the total number of shares issued by the thermoelectric power station Energética Camaçari Muricy I S.A. for US\$ 18, due to the fact that the partner MDC I Fundo de Investimento em Participações had renounced its subscription right. Until March 2012, Petrobras paid in US\$ 5 and now holds 59.91% of the total capital (49% in 2011) of the thermoelectric power station.

The transaction was approved by ANEEL (Agência Nacional de Energia Elétrica) on February 28, 2012.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

At March 31, 2012, the Company's intangible assets include an Onerous Assignment agreement in the amount of US\$ 41,056, entered into in 2010 between the Federal Government (assignor) and the Agência Nacional do Petróleo, Gás Natural e Biocombustíveis - ANP (regulator and inspector), referring to the right to carry out prospection and drilling activities for oil, natural gas and other liquid hydrocarbons located in blocks in the pre-salt area (Franco, Florim, Nordeste de Tupi, Entorno de Iara, Sul de Guará e Sul de Tupi), limited to the production of 5 billion oil equivalent barrels in up to 40 years renewable for more five years upon certain conditions.

The Assignment Agreement provides that at the time of the declaration of the commerciality for a subsequent revision of the volume and the price, based on an independent third party assessment.

If the review determines that the acquired rights reach an amount greater than that initially paid, the Company may pay the difference to the Federal Government, recognizing this difference as an intangible asset, or it may reduce the total volume acquired in the terms of the agreement. If the review determines that the acquired rights result in an amount lower than that initially paid by the Company, the Federal Government will reimburse the difference in legal tender or bonds, subject to the budgetary laws, resulting in a decrease in the intangible assets by the amount of the reimbursement.

When the effects of the abovementioned review become probable and measurable, the Company will make the respective adjustments to the purchase prices.

The agreement also establishes minimum commitments with respect to acquisition of goods and services from Brazilian suppliers in the exploration and development stages of production which will be subject to proof with ANP. In the event of non-compliance, ANP will be able to apply administrative and pecuniary sanctions established in the agreement.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

13.2 Devolution of exploration areas to ANP

During the first quarter of 2012, the rights to the exploration blocks returned to the Agência Nacional do Petróleo, Gás Natural e Biocombustíveis (ANP) totaled US\$ 21 (US\$ 76 in the first quarter of 2011) and are the following:

- **Blocks Exclusive concession of Petrobras:**
Recôncavo Basin: REC T 209.
- **Blocks in partnership (devolved by Petrobras or by its operators):**
Campos Basin: C-M-103, C-M-151. Santos Basin: S-M- 675, S-M-506.

13.3 Oil and natural gas fields operated by Petrobras returned to Agência Nacional do Petróleo, Gás Natural e Biocombustíveis (ANP)

During the first quarter of 2012 there were no devolutions to the Agência Nacional do Petróleo, Gás Natural e Biocombustíveis (ANP) by Petrobras of rights to fields in the production stage.

18.2 Receivables from the electricity sector

The Company has receivables from the electricity sector related to the supplying of fuel to thermoelectric power stations, direct or indirect subsidiaries of Eletrobras, located in the northern region of Brazil. Part of the costs for supplying fuel to these thermoelectric power stations is borne by funds from the Fuel Consumption Account (CCC), managed by Eletrobras.

The Company also supplies fuel to Independent Power Producers (PIE), companies created for the purpose of producing power exclusively for Amazônia Distribuidora de Energia S.A. (ADESA), a direct subsidiary of Eletrobras, whose payments for supplying fuel depend directly on the forwarding of funds from ADESA to these Independent Power Producers.

The balance of these receivables at March 31, 2012 was US\$ 1,666 (US\$ 1,574 at December 31, 2011), of which US\$ 1,408 was overdue (US\$ 1,293 at December 31, 2011).

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

The Company has made systematic collections from the debtors and Eletrobras, itself, and partial payments have been made.

18.3 Petroleum and Alcohol accounts - Receivable from Federal Government

At March 31, 2012, the balance of the account was US\$ 457 (US\$ 444 at December 31, 2011) and this can be settled by the Federal Government by issuing National Treasury Bonds in an amount equal to the final balance for the settling of accounts with the Federal Government, in accordance with what is established in Provisional Measure 2,181, of August 24, 2001, or through offsetting against other amounts that Petrobras may be owing the Federal Government, at the time, including tax related amounts or a combination of the foregoing operations.

Aiming at concluding the settlement of accounts with the Federal Government, Petrobras provided all the information required by of the National Treasury Office (STN) seeking to settle all the remaining differences between the parties.

As the Company considers that the negotiation process between the parties at the administrative level has been exhausted, the Company decided on judicial collection of the aforementioned credit and, accordingly, it filed a lawsuit in July 2011.

18.4 Remuneration of employees and officers

The total remuneration for short-term benefits for the Company s officers during the first quarter of 2012 was US\$ 2.2 referring to eight officers and nine board members (US\$ 1.8 in the first quarter of 2011 referring to seven officers and nine board members).

The fees of the executive board and the board of directors in the first quarter of 2012 in the consolidated totaled US\$ 7.0 (US\$ 6.4 in the first quarter of 2011).

As established in Federal Law 12,353/2010, the Board of Directors of Petrobras is now composed of 10 members, after ratification of the employees representative in the Annual General Meeting of March 19, 2012.

22. Shareholders equity

22.1 Paid-in capital

At March 31, 2012, subscribed and fully paid-in capital in the amount of US\$ 107,362 represented by 7,442,454,142 outstanding common shares and 5,602,042,788 outstanding preferred shares, all with no par value.

Capital increase with reserves in 2012

The Extraordinary General Meeting, held jointly with the Annual General Meeting on March 19, 2012 approved the Company's capital increase from US\$ 107,355 to US\$ 107,362, through capitalization of part of the profit reserve from tax incentives recorded in 2011, in the amount of US\$ 7, in compliance with article 35, paragraph 1, of Ordinance 2,091/07 of the Government Minister for National Integration. This capitalization was made without issuing new shares, pursuant to article 169, paragraph 1, of Law 6,404/76.

Amendment of the Company's By-Laws

The Extraordinary General Meeting, held on February 28, 2012, approved the amendment of the Company's By-Laws as follows:

- a) Changed the wording of the heading of article 20 of the By-Laws, in order to increase the number of members of the Executive Board from one President and six Officers to one President and seven Officers; and
- b) Changed the sole paragraph of article 36 of the By-Laws, in order to provide that in the event of a tie at an Executive Board's deliberation, its President has the deciding vote, replacing the expression "may exercise" by the term "Shall Exercise".

22.2 Dividends

a) Dividends - fiscal year 2011

The Annual General Meeting held on March 19, 2012, approved dividends related to 2011, in the amount US\$ 6,905, corresponding to 38.25% of the basic profit for dividend purposes, and US\$ 0.55 per common and preferred share, without distinction, which comprise the capital.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

These dividends include interest on shareholders equity in the amount of US\$ 6,071 and are being distributed as follows:

Payment	Date of approval by Board of Directors	Date of Shareholder position	Date of Payment	Amount of Payment	Gross amount per share (ON and PN) (US\$)
1st payment of interest on shareholders' equity	04.29.2011	05.11.2011	05.31.2011	1,602	0.12
2nd payment of interest on shareholders' equity	07.22.2011	08.02.2011	08.31.2011	1,671	0.12
3rd payment of interest on shareholders' equity	10.28.2011	11.11.2011	11.30.2011	1,407	0.12
4th payment of interest on shareholders' equity	12.22.2011	01.02.2012	02.29.2012	1,391	0.12
Dividends	02.09.2012	03.19.2012	05.18.2012	834	0.07
				6,905	0.55

The payments of interest on shareholders equity distributed in advance in 2011 were discounted from the dividends approved for this year, and corrected by the benchmark (SELIC) rate from the date of their payment until December 31, 2011. The balances of the dividends are being monetarily restated as from December 31, 2011 until the initial date of payment, in accordance with the variation of the SELIC rate.

b) Interest on shareholders equity fiscal year 2012

The Company's Board of Directors approved on April 27, 2012, the early distribution of remuneration to shareholders in the form of interest on shareholders equity, as established in article 9 of Law 9,249/95 and Decrees 2,673/98 and 3,381/00, in the amount of US\$ 1,432, corresponding to a gross value of US\$ 0.10 per common and preferred shares, to be paid up to June 30, 2012, based on the shareholding position of May 11, 2012.

This interest on shareholders equity should be discounted from the remuneration that will be distributed on the closing of fiscal year 2012. The amount will be monetarily restated in accordance with the variation of the SELIC rate since the date of effective payment until the end of the aforementioned year.

The interest on shareholders equity is subject to 15 % of withholding income tax, except for shareholders that are declared immune or exempt.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

29. Legal proceedings and contingencies

The Company is party to various legal proceedings of a tax, civil, labor and environmental nature, arising from the normal course of its operations. The classification of the lawsuits in accordance with the expectation of loss as probable, possible or remote, as well as their estimated amounts, is prepared based on advice from its legal advisors and management's best judgment.

29.1 Provisions for legal proceedings

The Company recorded provisions in an amount sufficient to cover the losses considered as probable and that could be reasonably estimated. Among which, the main proceedings are related to income tax withheld at source for issuing securities abroad, losses and damages as result of the cancellation of an assignment of an federal VAT (IPI) credits to a third party; and indemnifications for fishermen cruising out of an oil spillage that occurred in Rio de Janeiro in January 2000.

The Federal Public Attorney's Office and the Public Attorney's Office of the State of Paraná filed lawsuits against Petrobras with respect to compensation for pain and suffering, financial damages and environmental recovery due to oil spillages: (i) at Terminal São Francisco do Sul Refinaria Presidente Vargas, on July 16, 2000, where the amount of US\$ 36 was recorded as a provision in 2011, through an estimate; and (ii) in the Araucária Paranaguá polyduct (OLAPA), at the headwaters of Rio do Meio (the Meio river), in the town of Morretes PR, on February 16, 2001: which resulted in a reconciliation agreement signed on April 26, 2012, with a provision in March 2012 in the updated amount of US\$ 58.

The amounts recorded as provisions, net of restricted deposits for legal proceedings, are as follows:

Non-current liabilities	March 31, 2012	December 31, 2011
Labor claims	166	155
Tax claims	395	352
Civil claims (*)	168	159
Other claims	122	60
	851	726

(*) Net of restricted deposits for legal proceedings and guarantees, when applicable.

(Expressed in millions of Dollars, except when specifically indicated)

29.3 Joint Ventures Frade field

In November 2011, there was an oil spillage in the Frade field, located in the Campos basin, which is operated by Chevron Brasil. The federal public prosecutor is conducting an investigation and has initiated a process claiming US\$ 11 billion in damages against Chevron Brazil, Chevron Latin America Marketing LLC and Transocean Brasil Ltda., where the latter was operator of the platform at the time of the spillage.

In April 2012, a new public civil suit was filed by the Federal Public Attorney's Office against Chevron and Transocean, due to droplets of oil identified in underwater images within the Frade field. In this suit the Federal Public Attorney's Office intends to condemn the defendants to a further US\$ 11 billion as compensation for damages to the community.

The assessment by our lawyers is that the amounts claimed are not reasonable and are disproportionately high in relation to the extent of the damages caused. In the second suit, as the oil was not identified on the surface, it is not even possible to conceive of the existence of any actual damage to the community. .

Petrobras holds a 30% interest in the Frade consortium. Although it is not a party to the processes, because of its equity interest Petrobras may be contractually obliged to pay 30% of the total contingencies related to the Frade field. In the event Chevron is held legally responsible, Petrobras may be contractually subject to the payment of up to 30% of the costs referring to the compensations.

29.4 Contingencies assets

29.4.1 Recovery of maintenance costs Barracuda & Caratinga

In 2006, Petrobras, as representant of Barracuda & Caratinga Leasing Company B.V. (BCLC), filed to an arbitration abroad against Kellogg, Brown, Root, LLC (KBR), to obtain indemnifications for maintenance costs incurred on flexible lines of the Barracuda and Caratinga field, during the period covered by a contractual guarantee.

On September 21, 2011, the arbitration Court decided in favor of BCLC, definitively, condemning KBR to indemnify US\$ 186 plus arbitration costs incurred by Petrobras and legal fees. After the final decision, Petrobras recognized the amount of US\$ 186 in non-current assets.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

29.4.2 Recovery of PIS and COFINS

Petrobras and its subsidiaries filed a civil suit against the Federal Government claiming to recover, through offsetting, amounts paid as taxes on financial revenue and exchange gains (PIS) in the period between February 1999 and November 2002 and COFINS between February 1999 and January 2004, taking into consideration that paragraph 1 of article 3 of Law 9,718/98 is unconstitutional.

On November 9, 2005, the Federal Supreme Court considered paragraph 1 of article 3 of Law 9,718/98 is unconstitutional.

On November 18, 2010, the Superior Court of Justice upheld the claim by Petrobras, filed in 2006 to recover the COFINS for the period from January 2003 to January 2004. After the final decision, Petrobras recognized the amount of US\$ 273 as recoverable taxes in non current assets.

On March 31, 2012, the Company had US\$ 1,402 related to these suits that are not yet recognized in the financial statement due to the pending final favorable decision.

29.4.3 Legal proceeding in the United States - P-19 e P-31

In 2002, Brasoil and Petrobras won, in the first instance, before the U.S. Justice, related actions filed by the insurance companies United States Fidelity & Guaranty Company and American Home Assurance Company, where, through a final decision confirmed by the Federal Court of the Southern District of New York, the right was recognized to receipt by Brasoil and Petrobras for losses and damages, plus interest and reimbursement of legal expenses on the date of receipt, referring to the performance bond of platforms P-19 and P-31. The amount of the indemnification is approximately US\$ 290.

On July 21, 2006, the US court handed down an executive decision, conditioning the payment of the amounts owed to Brasoil to the permanent closing of legal proceedings involving identical claims in progress before the Brazilian courts, which the parties proceeded to do.

30. Guarantees for concession agreements for oil exploration

Petrobras gave guarantees to the Agência Nacional do Petróleo, Gás Natural e Biocombustíveis (ANP) in the total amount of US\$ 3,432 for the Minimum Exploration Programs established in the concession agreements for exploration areas, with US\$ 3,108, net of commitments already undertaken, remaining in force. Of this amount, US\$ 1,855 corresponds to a lien on the oil from previously identified fields already in production, and US\$ 1,253 refers to bank guarantees.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

31. Risk management and derivative instruments

The Company is exposed to a series of financial risks arising from its operations. These risks include market risk related to the price of oil and oil products, exchange and interest rates, credit risk and liquidity risk.

31.1 Management of risks

The Petrobras risk management policy aims at contributing towards an appropriate equilibrium between its objectives for growth and return and its risk exposure level, whether inherent to the exercise of its activities or arising from the context within which it operates, so that, through effective allocation of its physical, financial and human resources, the Company may achieve its strategic goals.

The Executive Board, responsible for the management of Petrobras' risks, set up the Financial Integration Committee to periodically assess and establish guidelines for measuring, monitoring, and managing the risks, and to support its decisions. This Committee is permanently composed of all the executive managers of the financial department, and the executive managers of the business departments are convened for discussions of specific themes.

31.2 Market risk

31.2.1 Risk management of prices of oil and oil products

Petrobras maintains, as a preference, exposure to the prices cycle, not using derivatives for hedging the purchases and sales that aim at attending the Company's operational requirements.

Operations with derivatives are limited to hedging the expected results from transactions carried out abroad, which are usually short-term, accompanying the terms of commercial operations.

The main parameters used in risk management, for changes in Petrobras' prices of oil and oil products, in the transactions carried out abroad, are: operating cash flow at risk (CFAR), Value at Risk (VAR) and Stop Loss.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

*(Expressed in millions of Dollars, except when specifically indicated)***b) Sensitivity analysis of derivatives of oil and oil products**

The probable scenario is the fair value at March 31, 2012. The possible and remote scenarios consider a deterioration in the prices in the risk variable of 25% and 50%, respectively, with respect to the same date.

Market derivatives for oil and oil products	Risk	Probable scenario in March 31, 2012	Possible scenario (Δ of 25%)	Remote scenario (Δ of 50%)
Brent	High in Brent Oil	16	(217)	(451)
Gasoline	Low in Gasoline	(3)	(20)	(38)
Fuel Oil	High of Fuel Oil		(122)	(245)
Propane	High of Propane	2	(7)	(16)
WTI	High WTI	(9)	(16)	(34)
Diesel	Low of Diesel		(23)	(65)
Ethanol	Low of Ethanol		(1)	(1)
Jet	Low of Jet		(1)	(1)
Naphtha	High of Naphtha	2	(2)	(6)
LLS	Low of LLS Oil	1	(18)	(37)

c) Embedded derivatives sale of ethanol

The Company entered into a sales agreement of ethanol a price formula set in the time of signing the contract. The selling price is based on the prices of ethanol and of naphtha.

Considering that the quotation for naphtha does not have a strict relationship with the market cost or value of ethanol, the portion referring to the derivative instrument was separated from the main agreement and recognized at fair value (level 3), and classified as financial income. The Company determined the fair value of this agreement based on the difference between the spreads for naphtha and ethanol.

The notional and fair values and the sensitivity analysis of the swap are presented below:

Forward Contract	Notional value (in thousand of m ³)	Fair Value		Risk	Sensitivity analysis		
		March 31, 2012	December 31, 2011		Probable scenario in March 31, 2012	Possible scenario (Δ of 25%)	Remote scenario (Δ of 50%)
Buyer position				Decrease in spread Naphtha x Ethanol			
(maturity in 2015)	715	65	27		65	53	38

59

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

The Company determined the fair value of this contract based on practices used on the market, where the difference between the spreads for naphtha and ethanol is calculated. The selling price of the ethanol in the agreement refers to the Brazilian market (ESALQ). The values of the parameters used in the calculation were obtained from market price quotations for ethanol and naphtha on the CBOT (Chicago Board of Trade) future market on the last working day of the period of the financial statements.

31.2.2 Exchange risk management

Exchange risk is one of the financial risks that the Company is exposed to and it originates from changes in the levels or volatility of the exchange rate that reference asset and liabilities positions.

As regards exchange risk management, Petrobras seeks to identify and handle them in an integrated manner, and treat them or create natural risk mitigation, benefiting from the correlation between its income and expenses. In the specific case of exchange variation inherent to the contracts with the cost and remuneration involved in different currencies, this natural risk mitigation is carried out through allocating the cash investments between the real and the US dollar or another currency.

The management of risks is done for the net exposure. Periodical analyses of the exchange risk are prepared, assisting the decisions of the executive committee. The exchange risk management strategy involves the use of derivative instruments to minimize the exchange exposure of certain Company's obligations.

a) Main transactions and future commitments hedged by derivative operations

Cross Currency Swap

Yen vs. Dollar

The Company contracted a cross currency swap, aimed at fixing in dollars the Company's bonds issued in yens. The Company does not intend to settle these contracts before the end of term.

For this relation between the derivative and the loan, qualified as cash flow hedge, the hedge accounting was adopted.

Changes in fair value, to the extent the hedge is effective, which is tested quarterly, are reported in accumulated other comprehensive income until the results of the hedged item occurs.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

*(Expressed in millions of Dollars, except when specifically indicated)**b) Notional value, fair value, guarantees and sensitivity analysis of the foreign currency derivatives*

Statement of financial position	Notional value (in million)		Fair Value		Risk	Sensitivity analysis

						(10)		(2)

The existing interest rate derivative operations do not require a guarantee margin deposit.

c) Sensitivity analysis of net debt in foreign currency

The probable scenario is the fair value at March 31, 2012, possible and remote scenarios consider the deterioration in the risk variable of 25% and 50%, respectively, for the same date.

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

Financing, net of cash and financial investments	Probable scenario in March 31, 2012	Possible scenario (Δ of 25%)	Remote scenario (Δ of 50%)
Cash and Financial investments	6,387	5,109	4,258
Financing in Dollar	(43,266)	(54,082)	(64,899)
Financing in Real ¹	(13,948)	(17,435)	(20,922)
Financing in Euro	(2,570)	(3,213)	(3,856)
Financing in Yen	(1,312)	(1,640)	(1,968)
Financing in Libra	(1,093)	(1,367)	(1,640)
	(55,802)	(72,628)	(89,027)

¹ Financing in local currency parameterized to the variation of the dollar.

Currency risks arise from the devaluation of the Real against the foreign currencies.

Sensitivity analysis of net debt alone does not represent the Company's net exposure to currency risk. Considering the equilibrium of liabilities, assets, revenues and future commitments in foreign currency, the economic impact of possible foreign exchange fluctuations does not compromise the Company's liquidity since a large portion of its debt is due at the long-term.

31.2.3 Interest rate risk management

Petrobras is subject mainly to fluctuations of the LIBOR, in the financing expressed in foreign currency, and to the long-term interest rate, published by the Central Bank, in the financing expressed in Reais. An increase in the rates negatively impacts Petrobras's financial expenses and financial position.

Petrobras considers that the exposure to interest rate fluctuations will not have a material impact, and so, preferably, it does not use derivative financial instruments to manage this type of risk; except for specific situations presented by companies of the Petrobras' system.

a) Main transactions and future commitments hedged by operations with derivatives

Swap contracts

Floating interest rate (Libor USD) vs. Fixed rate (USD)

The Company contracted an interest rate swap in order to transform financing tied to a floating rate into a fixed rate in order to eliminate the mismatch between the cash flows of assets and liabilities of an investment project. The Company does not intend to settle the operation before its

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

maturity and, therefore, adopted hedge accounting for the relationship between the financing and the derivative.

Other open operations are arranged in the table below:

b) Notional value, fair value, guarantees and sensitivity analysis of the interest rate derivatives

Statement of financial position	Notional value (in million)		Fair Value		Consolidated Risk	Sensitivity analysis		
	March 31, 2012	December 31, 2011	March 31, 2012	December 31, 2011		Probable scenario in March 31, 2012	Possible scenario (Δ of 25%)	Remote scenario (Δ of 50%)

Total recorded in other current assets and liabilities			(33)	(38)				

The existing interest rate derivative operations do not require a guarantee margin deposit.

31.3 Credit risk

Edgar Filing: PETROBRAS - PETROLEO BRASILEIRO SA - Form 6-K/A

Petrobras is exposed to the credit risk of clients and financial institutions, resulting from its commercial operations and its cash management. These risks consist of the possibility of non-receipt of sales made and amounts invested, deposited or guaranteed by financial institutions.

Credit risk management in Petrobras is part of financial risk management, which is performed by the Company's officers, under a policy of corporate risk management. The Credit Commissions are, each, composed of Executive Manager for Finances and the Executive Manager for the commercial department.

The purpose of the Credit Commissions is to analyze questions connected with credit management, not only with respect to granting credit but also with respect to its management; to encourage integration between the units that compose them; and to identify recommendations to be applied in the units involved or to be submitted to the appreciation of higher jurisdictions.

The credit risk management policy is part of the Company's global risk management policy and aims at reconciling the need for minimizing exposure to credit risk and maximizing the result of

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

(Expressed in millions of Dollars, except when specifically indicated)

sales and financial operations, through an efficient credit analysis, concession and management process.

In its management of credit risks, Petrobras uses quantitative and qualitative parameters that are appropriate for each of the market segments in which it operates.

The Company's commercial credit portfolio, is very diversified and the credits granted are divided between clients on the Brazilian domestic market and foreign markets.

Loans to financial institutions are distributed among the major international banks considered by the international risk classifiers as Investment Grade and the most important Brazilian banks.

The maximum exposure to credit risk is represented mainly by the balance of accounts receivable and derivative transactions outstanding.

31.4 Liquidity risk

The Company's liquidity risk is represented by the possibility of a shortage of funds, cash or another financial asset in order to settle its obligations on the established dates.

The policy on liquidity risk management adopted by the Company provides for the continued lengthening of the maturity of its debt, exploring the financing capacity of the domestic market and developing a strong presence in the international capital market by broadening the investor's base in fixed income.

Petrobras finances the working capital through the centralization of the System's cash and assuming short-term debt that are usually related to the flow of trade, as export credit notes and advances on exchange contracts. Investments in non-current assets are financed through long-term debt as issuing bonds in the international market, credit bureaus, financing and pre-payment of exports, development banks in Brazil and abroad, and lines of credit with national and international commercial banks.

Short position	(1,197)	(60)		

Petróleo Brasileiro S.A. - Petrobras and subsidiaries

Consolidated notes to the financial statements (Continued)

*(Expressed in millions of Dollars, except when specifically indicated)***32. Fair value of financial assets and liabilities**

Fair values are determined based on market price quotations, when available, or, in the absence thereof, on the present value of expected cash flows. The fair values of cash and cash equivalents, trade accounts receivable, short term debt and trade accounts payable are the same as their carrying values. The fair values of other long-term assets and liabilities do not differ significantly from their carrying values.

At March 31, 2012, the estimated fair value for the Company's long term debt was US\$ 83,778 and calculated at prevailing market rates, considering natures, terms and risks similar to the recorded contracts, and it may be compared with the carrying value of US\$ 80,089.

The hierarchy of the fair values of the financial assets and liabilities, recorded on a recurring basis, is presented as follows:

	Fair value measured based on			Total Fair value recorded
	Prices quoted on active market (Level 1)	Valuation technique supported by observable prices (Level 2)	Valuation technique without use of observable prices (Level 3)	
Assets				
Marketable securities	13,018			13,018
Foreign currency derivatives	12	98		110
Commodity derivatives	12		65	77
Balance at March 31, 2012	13,042	98	65	13,205
Balance at December 31, 2011	13,421	146	29	13,596
Liabilities				
Interest derivatives	(33)			(33)
Balance at March 31, 2012	(33)			(33)
Balance at December 31, 2011	(64)	(2)		(65)
