Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

1. The Company and its operations

Petróleo Brasileiro S.A. - Petrobras is dedicated, directly or through its subsidiaries (referred to jointly as “Petrobras” or “the Company”) to prospecting, drilling, refining, processing, trading and transporting crude oil from producing onshore and offshore oil fields and from shale or other rocks, as well as oil products, natural gas and other liquid hydrocarbons. In addition, Petrobras carries out energy related activities, such as research, development, production, transport, distribution and trading of all forms of energy, as well as any other correlated or similar activities. The Company’s head office is located in Rio de Janeiro – RJ, Brazil.

2. Basis of preparation of interim financial information

The consolidated interim financial information has been prepared and is being presented in accordance with IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) and also in accordance with accounting practices adopted in Brazil for interim statements (CPC 21 - R1).

The individual interim accounting information is being presented in accordance with accounting practices adopted in Brazil for interim statements (CPC 21 - R1) and does not present differences in relation to the consolidated information, except for the maintenance of deferred charges, as established in CPC 43 (R1) - Initial Adoption of Technical Pronouncements. The reconciliations of the parent company's shareholders' equity and results with the consolidated are presented in Note 3.1.

This interim financial information presents the significant changes which occurred in the period, avoiding repetition of certain notes to the financial statements previously reported, and consider the consolidated information, considering that management understands that consolidated information provides more comprehensive measure of the Company’s financial position and the performance of its operations, complemented by some individual information of the parent company. Hence it should be read together with the Company’s annual financial statements for the year ended December 31, 2012, which include the full set of notes.

The Company's Board of Directors authorized the publication of this interim financial information in a meeting held on August 9, 2013.

2.1. Accounting estimates

The preparation of the interim financial information requires the use of estimates and assumptions for certain assets, liabilities and other transactions. These estimates include: oil

and gas reserves, pension and medical benefits liabilities, depreciation, depletion and amortization, decommissioning costs, provisions for legal proceedings, fair value of financial instruments, present value adjustments of trade receivables and payables from relevant transactions, and income tax and social contribution on net income (CSLL). Notwithstanding Management uses assumptions and judgments that are reviewed periodically, the actual results could differ from these estimates.

2.2. New and amended standards adopted by the Company

New and amended standards issued by the IASB were effective for annual periods beginning on or after January 1, 2013 and were adopted by the Company, with the corresponding standards and amendments issued by the CPC and approved by the CVM, as set out in note 4.17 (New standards and interpretations) of the Company's consolidated financial statements for the year ended December 31, 2012.

The amended version of IAS 19 – Employee benefits (CPC 33 – R1) eliminated the option to defer actuarial gains and losses (corridor approach) and requires net interest to be calculated by applying the discount rate used for measuring the obligation to the net benefit asset or liability.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

The impact of the adoption of the amended standard on the Company's consolidated financial statements for the year ended December 31, 2012 is an increase in net actuarial liability of R\$ 21,098 (R\$ 11,477 at January 1, 2012), an increase in deferred tax assets of R\$ 6,147 (R\$ 3,070 at January 1, 2012) and a decrease of R\$ 14,951 in the shareholders' equity (R\$ 8,407 at January 1, 2012), as set out below:

(*) As presented for the period ended December 31, 2012.

The adoption of the remaining new and amended standards had no material impact on the financial statements of the Company.

3. Basis of Consolidation

The consolidated interim financial information includes the quarterly information of Petrobras, its subsidiaries, joint operations and special purpose entities.

There were no significant changes in the Company's consolidated entities in the first half of 2013.

The main acquisitions and disposal of assets are presented in note 9.

3.1. Reconciliation between shareholders' equity and net income for the parent company and consolidated

	Shareholders' equity		Net income	
	06.30.2013	12.31.2012	Jan-Jun 2013	Jan-Jun 2012

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

9. Acquisitions and disposal of assets

Acquisition of Araucária Nitrogenados S.A.

On June 1, 2013, Petrobras started to control Araucária Nitrogenados S.A. (FAFEN-PR), under an agreement to acquire all shares of the company executed with Vale S.A. on December 18, 2012. The transaction was approved by the Brazilian Antitrust Regulator (CADE) on May 15, 2013.

The transaction price consideration was US\$ 234 million which will be settled through Petrobras' leasing income from mineral rights for properties operated by Vale in Sergipe. The assessment of the fair value of assets and liabilities is ongoing and will be completed within 12 months from the date control of the company was granted.

Brasil PCH

On June 14, 2013, Petrobras entered into an agreement with Cemig Geração e Transmissão S.A. for the disposal of its entire equity interest in Brasil PCH S.A., equivalent to 49% of the voting stock, for a total of R\$ 650.

The completion of the transaction is subject to the approval of Conselho Administrativo de Defesa Econômica - CADE and consent of Agência Nacional de Energia Elétrica - ANEEL.

Due to the approval of the transaction by the Board of Directors of the Company on June 30, 2013 the carrying amount of Petrobras' interest in Brasil PCH of R\$ 65 was reclassified to asset held for sale under current assets.

Formation of joint venture to operate in Exploration and Production (E&P) in Africa

On June 14, 2013, the Board of Directors of Petrobras approved the agreement between Petrobras International Braspetro B.V. (PIBBV), a subsidiary of Petrobras, and BTG Pactual E&P B.V, a subsidiary of Banco BTG Pactual S.A., to form a joint venture to operate in the exploration and production of oil and gas in Africa, comprised of assets in Angola, Benin, Gabon, Namibia, Nigeria and Tanzania.

BTG Pactual E&P B.V. acquired 50% of the joint venture shares of Petrobras Oil & Gas B.V. (PO&G), previously held by PIBBV, for the total amount of R\$ 3,364. The transaction was concluded on June 28, 2013, and the Company recognized earnings of R\$ 1,906, as set out below:

Consolidado

Gain on disposal of assets	1,554
Fair value measurement of remaining assets	1,554
Loss on carrying amount of investments in Angola and Tanzania	(1,202)
	1,906
Effects on Profit or Loss:	
Other operating income (expenses), net	1,554
Share of profit of equity-accounted investments	352

As the transaction is subject to the approval by the governments of Angola and Tanzania, relatively to the assets located in those countries, the balance at June 30, 2013 of R\$ 78 was reclassified to asset held for sale, under current assets.

The partnership's investment in PO&G was classified as a joint venture, therefore unconsolidated, reflecting the corporate structure and the terms of the shareholders' agreement, signed on June 28, 2013.

12.2. Concession for exploration of oil and natural gas - Onerous Assignment Agreement (“Cessão Onerosa”)

At June 30, 2013, the Company's intangible assets include R\$74,808 related to the Onerous Assignment agreement, entered into in 2010 by Petrobras, the Federal Government (assignor) and the Agência Nacional de Petróleo, Gás Natural e Biocombustíveis - ANP (regulator and inspector), granting the Company the right to carry out prospection and drilling activities for oil, natural gas and other liquid hydrocarbons located in blocks in the pre-salt area (Franco, Florim, Nordeste de Tupi, Entorno de Iara, Sul de Guará and Sul de Tupi), limited to the production of five billion barrels of oil equivalent in up to 40 years and renewable for a further five years upon certain conditions having been met.

The agreement establishes that at the time of the declaration of commerciality for the areas there will be a review of volumes and prices, based on independent technical appraisal reports.

If the review determines that the value of acquired rights are greater than initially paid, the Company may be required to pay the difference to the Federal Government, or may proportionally reduce the total volume of barrels acquired in the terms of the agreement. If the review determines that the value of the acquired rights are lower than initially paid by the Company, the Federal Government will reimburse the Company for the difference by delivering cash or bonds, subject to budgetary regulations.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

Once the effects of the aforementioned review become probable and can be reliably measured, the Company will make the respective adjustments to the purchase prices of the rights.

The agreement also establishes a compulsory exploration program for each one of the blocks and minimum commitments related to the acquisition of goods and services from Brazilian suppliers in the exploration and development stages, which will be subject to certification by the ANP. In the event of non-compliance, the ANP may apply administrative sanctions pursuant to the terms in the agreement.

Based on drilling results obtained so far, expectations regarding the production potential of the areas are being confirmed and the Company will continue to develop its investment program and activities as established in the agreement.

13. Exploration for and evaluation of oil and gas reserves

The exploration and evaluation activities include the search for oil and gas from obtaining the legal rights to explore a specific area until the declaration of the technical and commercial viability of the reserves.

Movements on capitalized costs directly associated with exploratory wells pending determination of proved reserves and the balance of amounts paid for obtaining rights and concessions for exploration of oil and natural gas (capitalized acquisition costs) are set out in the table below:

	Consolidated	
Exploratory costs recognized in Assets (*)	06.30.2013	12.31.2012
Property, plant and equipment		
Opening balance	21,760	18,983
Additions	5,510	12,982

Transfers (***)	(3,827)	(5,137)
Cumulative translation adjustment	(4)	371
Closing balance	22,644	21,760
Intangible Assets (**)	76,433	77,588
Total Exploratory Costs Capitalized	99,077	99,348

(*) Amounts capitalized and subsequently expensed in the same period have been excluded from the table above.

(**) The balance of intangible assets comprises mainly the amounts related to the Onerous Assignment Agreement (note 12.2).

(***) Includes R\$ 1,523 relative to PO&G, which has been unconsolidated, as set out in note 9.

Exploration costs recognized in profit or loss and cash used in oil and gas exploration and evaluation activities are set out in the table below:

	Consolidated	
Exploration costs recognized in profit or loss	Jan-Jun 2013	Jan-Jun 2012
Geological and geophysical expenses	1,121	1,071

The sensitivity analysis for financial instruments subject to foreign exchange variation and the fair value of the long-term debt are disclosed in notes 30 and 31, respectively.

15.4. Weighted average capitalization rate for borrowing costs

The weighted average interest rate, of the costs applicable to borrowings that are outstanding, applied over the balance of assets under construction for capitalization of borrowing costs was 4.1% p.a. in the first half of 2013 (4.6% p.a. in the first half of 2012).

15.5. Funding

Funding requirements are related to the development of oil and gas production projects, building of vessels and pipelines, and expansion of industrial plants, among other uses.

Petróleo Brasileiro S.A. – Petrobras

Non-Current	10,144	66,950	9,932	61,727

17.6. Receivables from the electricity sector

At June 30, 2013, the Company had R\$ 4,180 (R\$ 3,958 at December, 31, 2012) of receivables from the Brazilian electricity sector, of which R\$2,942 were classified to non-current assets following negotiations occurred in 2013.

The Company supplies fuel to thermoelectric power plants located in the northern region of Brazil, which are direct or indirect subsidiaries of Eletrobras, the Federal Government electric energy company. Part of the costs for supplying fuel to these thermoelectric power stations is borne by the Fuel Consumption Account (Conta de Consumo de Combustível - CCC), managed by Eletrobras.

Collections of amounts related to fuel supply to Independent Power Producers (Produtores Independentes de Energia - PIE), which are companies created for the purpose of generating power exclusively for Amazonas Distribuidora de Energia S.A. - AME, a direct subsidiary of Eletrobras rely directly on AME, which transfers funds to the Independent Power Producers.

In March 2013 a private instrument of debt confession was signed with AME, with Eletrobras as guarantor, in the amount of R \$ 850, to be paid in 60 successive monthly installments of R\$ 14, indexed to the SELIC interest rate.

The Company continuous to vigorously pursue an agreement to recover these receivables in full and partial payments have been made. The balance of these receivables at June 30, 2013, was R\$3,777 (R\$ 3,520 at December 31, 2012), of which R\$2,180 was past due (R\$ 2,966 at December 31, 2012).

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

The Company also has electricity supply contracts with AME signed in 2005 by its subsidiary Breitener Energética S.A., which, pursuant to the terms of the agreements, are considered a finance lease of the two thermoelectric power plants, since the contracts determine that the power plants should be returned to AME at the end of the agreement period with no residual value (20-year term), among other contractual provisions. The balance of these receivables was R\$403 (R\$ 438 at December, 31, 2012), none of which was overdue.

17.7. Petroleum and Alcohol accounts - Receivables from Federal Government STN

At June 30, 2013, the balance of receivables related to the Petroleum and Alcohol accounts was R\$ 835 (R\$ 835 at December 31, 2012). Pursuant to Provisional Measure 2,181 of August 24, 2001, the Federal Government may settle this balance by using National Treasury Notes in an amount equal to the outstanding balance, or allow the Company to offset the outstanding balance against amounts payable to the Federal Government, including taxes payable, or both options.

The Company has provided all the information required by the National Treasury Secretariat (Secretaria do Tesouro Nacional - STN) in order to resolve disputes between the parties and conclude the settlement with the Federal Government.

Following several negotiation attempts at the administrative level, the Company filed a lawsuit in July 2011 to collect the receivables.

17.8. Compensation of employees and officers

Petrobras' key management short-term compensation (which comprises salaries and other short-term benefits) during the first half of 2013 was R\$6.4 referring to seven officers and ten board members (R\$ 6.4 in the first half of 2012, referring to eight officers and ten board members).

In the first half of 2013 the compensation of board members and officers for the consolidated Petrobras group amounted to R\$29.5 (R\$ 25.2 in the first half of 2012).

At June 30, 2013, the Company had the carrying amount of R\$ 6,324 related to crude oil and oil products pledged as security for the Terms of Financial Commitment (TFC), signed by Petrobras and Petros in 2008.

In the first half of 2013, the Company's contribution to the defined contribution portion of the Petros Plan 2 was R\$314.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(In millions of reais, except when indicate otherwise)***21. Shareholders' equity****21.1. Share capital**

At June 30, 2013, subscribed and fully paid share capital was R\$205,411, represented by 7,442,454,142 outstanding common shares and 5,602,042,788 outstanding preferred shares, all of which are registered, book-entry shares with no par value.

Capital increase with reserves in 2013

The Extraordinary General Meeting, held jointly with the Annual General Meeting, on April 29, 2013, approved an increase of capital through capitalization of a portion of the profit reserve for tax incentives established in 2012, of R\$ 19. Share capital increased from R\$ 205,392 to R\$ 205,411.

21.2. Dividends**Dividends for 2012**

The Annual General Meeting held on April 29, 2013 approved the dividends for 2012 of R\$ 8,876 (R\$ 0.47 per common share and US\$ 0.96 per preferred share), which represent 44.73% of the adjusted net income in Brazilian Reais (adjusted in accordance with Brazilian Corporation Law). Dividends in the form of interest on capital are to be distributed as set out below:

Payment	Date of approval by Board of Directors	Ex-date	Date of payment	Common share		Preferred share		Total amount of payment
				Amount of payment	Gross amount per share (Common and Preferred) (R\$)	Amount of payment	Gross amount per share (Common and Preferred) (R\$)	
1 st payment	04.27.2012	05.11.2012	05.31.2012 05.29.2013	1,489	0.20	1,120	0.20	2,609
2 rd and 3 rd payments	02.04.2013	04.29.2013	08.30.2013	2,009 3,498	0.27 0.47	4,258 5,378	0.76 0.96	6,267 8,876

Interim distributions of interest on capital in 2012 has been deducted from the distribution approved at the close of fiscal year 2012 and indexed based on the SELIC rate from the date of payment to December 31, 2012. The remaining amount of interest on capital is being indexed based on the SELIC rate from December 31, 2012 to the date of payment.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(In millions of reais, except when indicate otherwise)***28. Provisions for legal proceedings, contingent liabilities and contingent assets**

The Company is a defendant in numerous legal proceedings involving tax, civil, labor, corporate and environmental issues, as a result of its normal course business. The classification of the lawsuits in accordance with the expectation of loss as probable, possible or remote, as well as their estimated amounts, is prepared based on advice from its legal advisors and management's best estimates.

28.1. Provisions for legal proceedings

The Company has recognized a provision for proceedings in an amount sufficient to cover the losses considered as probable and that could be reasonably estimated. The main proceedings are related to labor claims, withholding of income taxes for securities issued outside Brazil, losses and damages resulting from the cancellation of an assignment of excise tax (IPI) credits to a third party; as well as fishermen seeking indemnification from the Company for a January 2000 oil spill in the State of Rio de Janeiro.

The Company has provisions for legal proceedings in the amounts set out below:

Non-current liabilities	Consolidated 06.30.2013	12.31.2012
Labor claims	1,024	687
Tax claims	886	696
Civil claims	1,243	1,050
Environmental claims	125	128
Other claims	22	24
	3,300	2,585

	Consolidated 06.30.2013	12.31.2012
Opening balance	2,585	2,041
Addition of provision	855	1,256
Amounts used during the year (payment)	(228)	(859)
Accretion expense	81	199
Others	7	(52)

Closing balance	3,300	2,585
-----------------	-------	-------

28.2. Judicial deposits

Judicial deposits made in connection with legal proceedings and guarantees are set out in the table below according to the nature of the corresponding lawsuits:

Non-current asset	Consolidated	
	06.30.2013	12.31.2012
Labor	1,788	1,775
Tax	2,652	2,283
Civil	1,273	1,302
Environmental	178	142
Others	14	8
	5,905	5,510

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(In millions of reais, except when indicate otherwise)***28.3. Consolidated contingent liabilities for legal proceedings (not provided for)**

Nature	Estimate
Tax	59,789
Civil - General	4,600
Labor	4,204
Civil - Environmental	1,450
Others	13
	70,056

A brief description of the nature of the main contingent liabilities (tax and civil), for which the expectation of loss is considered as possible are set out in the tables below:

a) Tax Proceedings

Description of tax proceedings	Estimate
Plaintiff: Secretariat of the Federal Revenue of Brazil	
1) Deduction of expenses from the renegotiation of the Petros Plan from the calculation basis of income tax (IRPJ) and social contribution (CSLL) and penalty charged. Current status: Awaiting the hearing of an appeal at the administrative level.	4,454
2) Profits of subsidiaries and associates domiciled abroad in the years of 2005, 2006, 2007 and 2008 not included in the calculation basis of IRPJ and CSLL. Current status: Awaiting the hearing of an appeal at the administrative level.	3,529
3) Deduction from the calculation basis of IRPJ and CSLL of expenses incurred in 2007 related to employee benefits and Petros. Current status: This claim is being disputed at the administrative level.	1,786
4) Non-payment of withhold income tax (IRRF) and Contribution of Intervention in the Economic Domain (CIDE) over remittances for payment of platforms' affreightment. Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.	9,262
5) Non payment of CIDE on imports of naphtha. Current status: This claim is being discussed at the administrative level.	3,540
6) Non-payment of CIDE in the period from March 2002 until October 2003 in transactions with distributors and service stations that were holders of judicial injunctions that determined the sale of gas without the gross-up of such tax.	

Current status: Awaiting the hearing of a special appeal in the Higher Chamber of Tax Appeals (CSRF).	1,481
7) Non-payment of tax on financial operations (IOF) on intercompany loans.	
Current situation: Awaiting a hearing of an appeal at the administrative instance.	3,687
8) Non-payment of withhold income tax (IRRF) over remittances abroad for payment of petroleum imports.	
Current status: Awaiting the hearing of an appeal at the administrative level.	3,916
9) PIS and COFINS - Tax credits recovery denied due to failure to comply with an accessory obligation in the years of 2004, 2005 and 2006.	
Current status: Awaiting the hearing of an appeal at the administrative level.	1,789
Plaintiff: State Finance Department of AM, BA, DF, ES, PA, PE and RJ	
10) Non-payment of ICMS due to differences in measuring starting and ending inventory.	
Current status: This claim involves processes in different administrative, in which the Company is taking legal actions to ensure its rights.	3,665
Plaintiff: State Finance Department of Rio de Janeiro	
11) ICMS on exit operations of liquid natural gas (LNG) without issuance of tax document by the main establishment.	
Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.	3,599
12) Dispute over ICMS tax levy in operations of sale of aviation jet fuel, as Decree 36,454/2004 was declared as unconstitutional.	
Current status: This claim is being disputed at the administrative level and the company has presented its defense.	1,766

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(In millions of reais, except when indicate otherwise)***Plaintiff: State Finance Department of São Paulo**

13) Dispute over ICMS tax levy on the importing of a drilling rig – temporary admission in São Paulo and clearance in Rio de Janeiro and a fine for breach of accessory obligations.

Current status: One of the legal proceedings is in its administrative stage and the other one was submitted to judicial dispute, awaiting judgment on appeal by the State Finance.

4,384

Plaintiff: Municipal governments of Anchieta, Aracruz, Guarapari, Itapemirim, Marataízes, Linhares, Vila Velha, Vitória and Maragogipe.

14) Failure to withhold and collect tax on services provided offshore (ISSQN) in some municipalities located in the State of Espírito Santo, despite Petrobras having made the withholding and payment of these taxes to the municipalities where the respective service providers are established, in accordance with Complementary Law No. 116/03.

Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.

2,029

Plaintiff: State Finance Departments of Rio de Janeiro and Sergipe

15) Use of ICMS tax credits on the purchase of drilling bits and chemical products used in formulating drilling fluid.

Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.

1,115

16) Other tax proceedings

9,787

Total for tax proceedings

59,789

b) Civil Proceedings – General**Description of civil proceedings****Estimate**

Plaintiff: Agência Nacional de Petróleo, Gás Natural e Biocombustíveis - ANP

1) Dispute on differences in the payment of special participation charge in fields of the Campos Basin. In addition, the plaintiff is claiming fines for alleged non-compliance with minimum exploratory programs. Administrative proceedings are in course in connection with alleged irregularities in the platforms' measurement system.

Current status: This claim involves processes in different administrative and/or judicial stages, in which the Company is taking legal actions to ensure its rights.

	1,833
2) Other civil proceedings	2,767
Total for civil proceedings	4,600

28.4. Joint Ventures - Frade field

In November 2011, an oil spillage occurred in the Frade field located in the Campos basin which was operated by Chevron Brasil, located in the Campos basin. Chevron Brasil, Chevron Latin America Marketing LLC and Transocean Brasil Ltda are defending a lawsuit claiming R\$ 20 billion in environmental damages by the federal public attorney's office. Transocean Brasil Ltda. operated the rig at Frade at the time of this spillage.

In April 2012, a new lawsuit was filed by the Federal Public Attorney's Office against Chevron and Transocean, following new seabed leaks in the Frade field. In this suit the Federal Public Attorney's Office claimed a further R\$ 20 billion as compensation for damages.

The assessment by the Company's lawyers is that the amounts claimed are not reasonable and are disproportionately high in relation to the extent of the damages caused. In the second lawsuit, as the oil was not identified on the surface, the existence of any actual damage to the community is inconceivable.

Although the Company is not being sued, due to its 30% ownership interest in the Frade consortium, Petrobras may be contractually obliged to pay 30% of the total contingencies related to the incidents that occurred in the Frade field. In the event Chevron is held legally responsible, Petrobras may be contractually subject to the payment of up to 30% of the costs of the damages.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

28.5. Contingent assets

28.5.1. Legal proceeding in the United States - P-19 and P-31

In 2002, Braspetro Oil Service Company (Brasoil) and Petrobras obtained a favorable decision in related lawsuits filed before U.S. courts by the insurance companies United States Fidelity & Guaranty Company and American Home Assurance Company in which they were seeking to obtain (since 1997 and regarding Brasoil) a judicial order exempting them from their payment obligations under the performance bond related to platforms P- 19 and P-31, and seeking reimbursement from Petrobras for any amounts for which they could ultimately be held liable in the context of the execution proceedings of such performance bond.

On July 21, 2006, the U.S. courts issued an executive decision, conditioning the payment of the amounts owed to Brasoil to a definitive dismissal of the legal proceedings involving identical claims that are currently in course before Brazilian courts.

Brasoil, Petrobras and the insurance companies already pleaded the dismissal of the Brazilian legal proceedings but their definitive dismissal is awaiting the hearing of an appeal filed by the platforms' shipbuilding company before the Superior Court for Non-Constitutional Matters (STJ).

In 2012 the Company intensified actions taken, in an attempt to settle this lawsuit. The amount of damages claimed is approximately US\$ 245 million.

29. Guarantees for concession agreements for petroleum exploration

The Company has guarantees for the Minimum Exploration Programs established in the concession agreements for exploration of areas by the Agência Nacional de Petróleo, Gás Natural e Biocombustíveis ("ANP") in the total amount of R\$ 5,872, of which R\$ 5,112 are still in force, net of commitments that have been undertaken. The guarantees comprise crude oil from previously identified producing fields, pledged as security, with a value of R\$ 3,211 and bank guarantees in the amount of R\$ 1,901.

30. Risk management and derivative instruments

The Company is exposed to a variety of risks arising from its operations: market risk including (price risk related to crude oil and oil products), foreign exchange risk and interest rate risk, credit risk and liquidity risk.

30.1. Risk management

The objective of the overall risk management policy of the Company is to achieve an appropriate balance between growth, increased return on investments and risk exposure level, which can arise from its normal activities or from the context within which the Company operates, so that, through effective allocation of its physical, financial and human resources it may achieve its strategic goals.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(In millions of reais, except when indicate otherwise)***30.2. Market risk****30.2.1. Risk management of price risk (related to crude oil and oil products)**

Petrobras does not use derivative instruments to hedge exposures to commodity price cycles related to products purchased and sold to fulfill operational needs.

Derivatives are used as hedging instruments to manage the price risk of certain transactions carried out abroad, which are usually short-term transactions similar to commercial transactions.

The main risk management techniques used by the Company to manage price risk of crude oil and oil products, in the transactions carried out abroad, are: operating Cash Flow at Risk (CFAR), Value at Risk (VAR) and Stop Loss.

a) Notional amount, fair value and guarantees of crude oil and oil products derivatives

Consolidated	Consolidated Notional value		Fair Value **		Maturity
	(in thousands of bbl)*				
	06.30.2013	12.31.2012	06.30.2013	12.31.2012

c) Embedded derivatives - Sale of ethanol

On March 8, 2013 the Company entered into an agreement to amend the ethanol sale contract, modifying prices and quantities. The selling price of each future ethanol shipment will be based on the price of ethanol in the Brazilian market (ESALQ) plus a spread. The amended agreement therefore no longer has a derivative instrument measured as an embedded derivative.

The notional value, fair value and the sensitivity analysis of the swap are presented below:

Forward contracts	Notional value (in thousand of m³)	Fair value		Sensitivity analysis at 06.30.2013

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

30.2.2. Foreign exchange risk management

The Company is exposed to foreign exchange risk from recognized assets and liabilities, arising from the volatility of currency markets.

Petrobras seeks to identify and manage foreign exchange risk in an integrated manner, by recognizing and creating “natural hedges”, benefiting from the correlation between income and expenses. To mitigate short-term exchange risk exposure arising from transactions involving income and expenses in different currencies, the Company uses natural hedges by choosing the currency in which to hold cash, such as the Brazilian Real, US dollar or other currency.

Foreign exchange risk is managed based on the net exposure and reviewed periodically to support the Executive Board. The Company can use derivative instruments to hedge certain liabilities, minimizing foreign exchange exposure.

a) Hedge Accounting

i) Cash Flow Hedge involving the Company’s future exports

Effective mid-May 2013, the Company formally documented and designated cash flow hedging relationships to hedge a portion of its highly probable future monthly export revenues in U.S. dollars using a portion of its obligations denominated in U.S. dollars for foreign currency risks, related to changes in foreign currency spot rates.

Principal amounts of long-term debt (non-derivative financial instruments) and notional values of foreign currency forward contracts were designated as hedging instruments. The derivative financial instruments expired during the second quarter and were replaced by long-term debt principal amounts in the hedging relationships on which they had been designated. Both debt and derivative financial instruments are exposed to Brazilian Real vs. U.S. dollar foreign currency risks related to the spot rate. Monthly export revenues of US\$ 43,859 of monthly export revenues to occur between July 1st, 2013 and May 31st, 2020 were designated as hedged transactions.

The Company has prepared formal documentation in order to support the designation above, including an explanation of how the designation of the hedging relationship is aligned with the Company’s Risk Management Policy objective and strategy, identification of the hedging instrument, the hedged transactions, the nature of the risk being hedged and an analysis which demonstrates that the hedge is expected to be highly effective. The Company will reassess the prospective and retrospective effectiveness of the hedge on an ongoing basis comparing the foreign currency component of the carrying amount of the hedging instruments and of the highly probable future exports (spot-rate method).

Cash Flow Hedge accounting permits that gains and losses arising from the effect of changes in the foreign currency exchange rate on derivative and non-derivative hedging instruments not be immediately recognized in profit or loss, but be reclassified from equity to profit or loss in the same periods during which the future exports occur, thus allowing for a more appropriate presentation of the results for the period, reflecting the strategy in Company's Risk Management Policy.

The principal amounts and the carrying amount of the hedging instruments at June 30, 2013, along with foreign currency losses recognized in other comprehensive income (equity) are set out below:

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

Hedging Instrument	Hedged Transactions	Nature of the risk	Maturity Date	Principal Amount (US\$ million)	Carrying amount of the Hedging Instruments on 06.30.2013
Non-Derivative Financial Instruments	A portion of Highly Probable – Real vs U.S. Future Monthly Export Revenues	Foreign Currency Dollar Spot Rate	July 2013 to May 2020	43,859	97,175

Shareholders' equity	Consolidated Jan-Jun/2013	Jan-Jun/2012
Gain / (Loss) recognized in other comprehensive Income - shareholders' equity	(7,982)	–

ii) Cash flow hedge involving swap contracts - Yen vs. Dollar

In September 2006, the Company entered into a cross currency swap to fix in U.S. dollars the payments related to bonds denominated in Japanese yen. The Company does not intend to settle these contracts before the maturity. The relationship between the derivative and the loan qualify as cash flow hedge and hedge accounting is applied.

The effective portion of changes in fair value, assessed on a quarterly basis, are recognized in “other comprehensive income”, in the shareholders’ equity and reclassified to profit or loss in the periods when the hedged transaction affects profit or loss.

b) Notional value, fair value and guarantees of derivative financial instruments

Statement of Financial Position	Consolidated Notional value (in millions)		Fair value	
	06.30.2013	12.31.2012	06.30.2013	12.31.2012

Long position (JPY) - 2.15% p.a.	JPY 35,000	JPY 35,000	831	887
Short position (US\$) - 5.69% p.a.	USD 298	USD 298	(769)	(731)
U.S. dollar forward			(20)	1
U.S. dollar forward (long position)	USD 41		1	
U.S. dollar forward (short position)	USD 221	USD 1,077	(21)	1
Total recognized in other current assets and liabilities			42	157

Finance income and shareholders' equity	Consolidated Jan-Jun 2013	Jan-Jun 2012
Gain / (Loss) recognized in profit or loss for the period	(52)	(2)
Gain / (Loss) recognized in other comprehensive Income - shareholders' equity	8	15

Margin is not required for the operations the Company has entered into, related to foreign currency derivatives.

c) Sensitivity analysis for foreign exchange risk on financial instruments

The Company has assets and liabilities subject to foreign exchange risk. The main exposure involves the Brazilian Real, relative to the U.S. dollar. Foreign exchange risk arises on financial instruments that are denominated in a currency other than the Brazilian Real. Assets and liabilities of foreign subsidiaries, denominated in a currency other than the Brazilian Real are not included in the sensitivity analysis set out below when transacted in a currency equivalent to their respective functional currencies which translating effects are recognized in "Cumulative Translation Adjustment", directly in the shareholders' equity and transferred to profit or loss when realized.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

The probable scenario, computed based on external data, as well as the stressed scenarios (a 25% and a 50% change in the foreign exchange rates) are set out below:

Financial Instruments	Exposure at 06.30.2013	Risk	Consolidated		
			Probable Scenario (*)	Possible Scenario (Δ of 25%)	Remote Scenario (Δ of 50%)
Assets	5,808		(146)	1,452	2,904
Liabilities	(121,463)	Dollar	3,048	(30,366)	(60,731)
Hedge Accounting: Exports x Debt	97,175		(2,439)	24,294	48,587
Forward Derivative (net Short Position)	(399) (18,879)		10 473	(100) (4,720)	(199) (9,439)
Financial Instruments (Assets)	—		—	—	—
Financial Instruments (Liabilities)	(2,125)	Yen	83	(531)	(1,063)
Cross-currency Swap	782 (1,343)		(46) 37	323 (208)	831 (232)
Financial Instruments (Assets)	7,317		(118)	1,829	3,658
Financial Instruments (Liabilities)	(19,765) (12,448)	Euro	319 201	(4,941) (3,112)	(9,882) (6,224)
Financial Instruments (Assets)	1,851	Pound	(14)	463	925
Financial Instruments (Liabilities)	(5,570) (3,719)	Sterling	41 27	(1,393) (930)	(2,785) (1,860)
Financial Instruments (Assets)	634		(18)	158	317
Financial Instruments (Liabilities)	(2,657) (2,023) (38,412)	Peso	77 59 797	(664) (506) (9,476)	(1,329) (1,012) (18,767)

(*) The probable scenario was computed based on the following changes for June, 30, 2013: Real x Dollar – a 2.51% appreciation of the Dollar relative to the Real / Dollar x Yen – a 3.89% depreciation of the Yen / Dollar x Euro: a 1.61% depreciation of the Euro / Dollar x Pound Sterling: a 0.74% depreciation of the Pound Sterling / Dollar x Peso: a 2.97% depreciation of the Peso. The data were obtained from the Focus Report of the Central Bank of Brazil and from Bloomberg.

The impact of foreign exchange depreciation / appreciation does not jeopardize the liquidity of the Company in the short term due to the balance between liabilities, assets, revenues and future commitments in foreign currency, since most of its debt mature in the long term.

30.2.3. Interest rate risk management

The Company is mainly exposed to interest rate risk related to changes in the LIBOR rate, arising from debt issued in foreign currency and to changes in the Brazilian long-term interest rate (TJLP), arising from debt issued in Brazilian Real. An increase in interest rates causes a negative impact in the Company's finance expense and its financial position.

The Company considers that exposure to interest rate risk does not cause a significant impact and therefore, preferably does not use derivative financial instruments to manage interest rate risk, except for specific situations encountered by certain companies of the Petrobras group.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(In millions of reais, except when indicate otherwise)***a) Main transactions and future commitments hedged by interest rate derivatives****Swap contracts****Floating-to-fixed swap (Libor USD) vs. Fixed rate (USD)**

In November 2010, the Company entered into an interest rate swap, in order to exchange a floating interest rate for a fixed rate, aiming at eliminating the mismatch between the cash flows of assets and liabilities from investment projects. The Company does not intend to settle the operation before the maturity date, and therefore, adopted hedge accounting for the relationship between the finance debt and the derivative.

Other positions held are set out in the table below.

b) Notional value, fair value, guarantees and sensitivity analysis for interest rate derivatives

Statement of Financial Position	Consolidated Notional value (in millions)		Fair value

(*) The probable scenario was computed based on LIBOR futures.

Margin is not required for the operations the Company has entered into, related to interest rate derivatives.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

30.3. Credit risk

Petrobras is exposed to the credit risk arising from commercial transactions and from cash management, related to financial institutions and to credit exposure to customers. Credit risk is the risk that a customer or financial institution will fail to pay amounts due, relating to outstanding receivables or to financial investments, guarantees or deposits with financial institutions.

Credit risk management in Petrobras is a portion of its financial risk management, which is performed by the Company's officers, under a corporate policy of risk management. The Credit Commissions are, each, composed of executive Managers for Risk Management, Finance and Commercial Department.

The purpose of the Credit Commissions is to analyze credit management issues, relating to granting and managing credit; to encourage integration between the units that compose the Credit Commissions; and to identify recommendations to be applied in the units involved or to be submitted to the appreciation of higher jurisdictions.

The credit risk management policy is part of the Company's global risk management policy and aims at reconciling the need for minimizing exposure to credit risk and maximizing the result of commercial and financial transactions, through an efficient credit analysis process and efficient credit granting and management processes.

The Company manages credit risk by applying quantitative and qualitative parameters that are appropriate for each of the market segments in which it operates.

The Company's commercial credit portfolio is much diversified and the credits granted are divided between clients from the domestic market and from foreign markets.

Credit granted to financial institutions is spread among the major international banks rated by the international rating agencies as Investment Grade and highly-rated Brazilian banks.

The maximum exposure to credit risk is represented mainly by the balance of accounts receivable and derivative financial instruments outstanding.

30.4. Liquidity risk

The Company's liquidity risk is represented by the possibility of a shortage of funds, cash or another financial asset in order to settle its obligations on the established dates.

The liquidity risk management policy adopted by the Company provides that the maturity of its debt continues to be lengthened, exploring the funding opportunities available in the domestic market and being significantly active in the international capital markets by broadening the investor's base in fixed income.

Petrobras finances its working capital through a centralized cash management for the group and by assuming short-term debt, which is usually related to commercial transactions, such as export credit notes and advances on foreign exchange contracts. Investments in non-current assets are financed through long-term debt, such as bonds issued in the international market, funding from credit bureaus, financing and pre-payment of exports, development banks in Brazil and abroad, and lines of credit with national and international commercial banks.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

A maturity analysis of the long-term debt, including face value and interest payments is set out in the table below:

Maturity	Consolidated
2013	18,848
2014	18,596
2015	27,173
2016	34,445
2017	29,094
2018	41,580
2019 and thereafter	173,170
At June 30, 2013	342,906
At December 31, 2012	278,056

30.5. Financial investments (derivative financial instruments)

Operations with derivatives are, both in the domestic and foreign markets, earmarked exclusively for the exchange of indices of the assets that comprise the portfolios, and their purpose is to provide flexibility to the managers in their quest for efficiency in the management of short-term financial assets.

The market values of the derivatives held in the exclusive investment funds at June 30, 2013 are set out below:

Contract	Quantity (in thousand)	Notional value	Fair value	Maturity
Future DI (Interbank Deposit)			15	2013; 2014; 2015; 2016
Long position	24,804	2,179	(4)	
Short position	(152,702)	(13,351)	19	
U.S. dollar forward			3	2013
Long position	1,205	135	3	
Short position	–	–	–	

31. Fair value of financial assets and liabilities

Fair values are determined based on market prices, when available, or, in the absence thereof, on the present value of expected future cash flows. The fair values of cash and cash equivalents, trade accounts receivable, short term debt and trade accounts payable are the same as their carrying values. The fair values of other long-term assets and liabilities do not differ significantly from their carrying amounts.

At June 30, 2013, the estimated fair value for the Company's long term debt was R\$ 234,662 and was computed based on the prevailing market rates for operations that have similar nature, maturity and risk to the contracts recognized and it may be compared to the carrying amount of R\$ 230,649.

The hierarchy of the fair values of the financial assets and liabilities, recorded on a recurring basis, is set out below:

Petróleo Brasileiro S.A. – Petrobras

32. Subsequent Events**a) Acquisition of blocks in the 11th bid round from Agência Nacional do Petróleo, Gás Natural e Biocombustíveis (ANP)**

On May 15, 2013, Petrobras acquired 34 exploratory blocks available in the 11th bid round from ANP. Signature bonuses amounted to R\$ 1,461, R\$ 538 of which were paid by Petrobras and R\$ 923 by its partners. The Company will operate 12 of the 34 blocks acquired, 5 of which are involved in partnerships and 7 are exclusive for Petrobras. The remaining 22 blocks will be operated by partners. The signature bonus was paid in July 2013 and the concession

agreements were signed in August 2013.

b) Financing Contracts

JBIC

On July 16, 2013, Petrobras signed two financing programs with Japan Bank for International Cooperation (JBIC) amounting up to US\$ 1.5 billion. Mizuho Bank Ltd. will be the agent for the programs. The credit lines will be 60% financed by JBIC and 40% by private Japanese financial institutions.

BNP Paribas

On July 31, 2013, Petrobras Global Trading BV (PGT BV) contracted with BNP Paribas a line of credit in the amount of US\$ 1 billion.

Report on Review of Quarterly Information

To the Board of Directors and Shareholders

Petróleo Brasileiro S.A. - Petrobras

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Petróleo Brasileiro S.A - Petrobras, included in the Quarterly Information Form for the quarter ended June 30, 2013, comprising the balance sheet as at that date and the statements of income, comprehensive income, changes in equity and cash flows for the quarter then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 (R1), Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 (R1) and International Accounting Standard IAS 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information. Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent

company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated

interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the parent company and consolidated statements of value added for the six-month period ended June 30, 2013. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a

whole.

Emphasis

Restatement of corresponding figures

As mentioned in Note 2.2, the individual and consolidated balance sheets for the year ended December 31, 2012, presented for comparative purposes, were adjusted and are being restated following the adoption of the new accounting requirements of CPC 33 (R1) - Employee Benefits and IAS 19 (revised) - Employee Benefits and as required by CPC 23 - Accounting Policies, changes in Accounting Estimates and Errors and CPC 26 (R1) - Presentation of Financial accounting. Our opinion has not been qualified as a result of this matter.

Prior period financial statements

audited by another audit firm

The Quarterly Information mentioned in the first paragraph includes accounting information presented in the individual and consolidated balance sheet as of December 31, 2011 which were obtained from previously issued financial statements originally prepared prior to the adjustments described in Note 2.2., which were made as a result of the adoption of CPC 33 (R1) - Employee Benefits and IAS 19 (revised) - Employee Benefits. The examination of the financial statements for the year ended December 31, 2011, as originally prepared, was conducted by another independent firm who issued an unqualified audit report dated February 9, 2012. As part of our review of the financial information for the quarter ended June 30, 2013, we reviewed the adjustments made in the balance sheet at December 31, 2011, as presented in the opening balance for January 1, 2012. Based on this review, nothing came to our attention that such adjustments are not appropriate or were not properly recorded in all material respects. We were not engaged to audit, review or apply any other procedures on the balance sheet as of December 31, 2011 and, therefore, express no opinion or any form of assurance on these prior year financial statements.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
