Management's Report on Internal Control over Financial Reporting

Rio de Janeiro, March 7^{th} , 2014 – Petróleo Brasileiro S.A. – Petrobras announces that its management is responsible for establishing and maintaining effective internal control over financial reporting and for its assessments of the effectiveness of internal control over financial reporting.

Our internal control over financial reporting is a process designed by, or under the supervision of our Audit Committee and ours Chief Executive Officer and Chief Financial Officer, and effected by our board of directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS, as issued by the IASB.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements on a timely basis. Therefore even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of the effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management has assessed the effectiveness of our internal control over financial reporting as of December 31, 2013, based on the criteria established in Internal Control—Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on such assessment and criteria, the Company's management has concluded that Company's internal control over financial reporting was effective as of December 31, 2013.
