Report of Independent Registered Public Accounting Firm

(A free translation of the original in Portuguese)

Report on review of quarterly information

To the Board of Directors and Shareholders

Petróleo Brasileiro S.A. - Petrobras

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Petróleo Brasileiro S.A - Petrobras, included in the Quarterly Information Form for the quarter ended March 31, 2014, comprising the balance sheet as at that date and the statements of income, comprehensive income, changes in equity and cash flows for the quarter then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 (R1), Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 (R1) and International Accounting Standard IAS 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information. Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A

review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the parent company and consolidated statements of value added for the three-month period ended March 31, 2014. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(In millions of reais, except when indicate otherwise)

1. The Company and its operations

Petróleo Brasileiro S.A. - Petrobras is dedicated, directly or through its subsidiaries (referred to jointly as “Petrobras” or “the Company”) to prospecting, drilling, refining, processing, trading and transporting crude oil from producing onshore and offshore oil fields and from shale or other rocks, as well as oil products, natural gas and other liquid hydrocarbons. In addition, Petrobras carries out energy related activities, such as research, development, production, transport, distribution and trading of all forms of energy, as well as any other correlated or similar activities. The Company’s head office is located in Rio de Janeiro – RJ, Brazil.

2. Basis of preparation of interim financial information

The consolidated interim financial information is being presented in accordance with IAS 34 - Interim Financial Reporting, as issued by the International Accounting Standards Board (IASB) and also in accordance with the accounting practices adopted in Brazil for interim financial reporting (CPC 21 - R1).

The individual interim financial information is being presented in accordance with the accounting practices adopted in Brazil for interim financial reporting (CPC 21 - R1) and does not differ from the consolidated information, except for the maintenance of the noncurrent deferred charges account, as established in CPC 43 (R1) – *First-time adoption of Brazilian Accounting Pronouncements*. The reconciliation between the parent company’s and the consolidated shareholders’ equity and net income is presented in Note 3.1.

This interim financial information presents the significant changes which occurred in the period, avoiding repetition of certain notes to the financial statements previously reported, and presents the consolidated information, considering Management’s understanding that the consolidated information provides a more comprehensive view of the Company’s financial position and operational performance, along with some individual information of the parent company. Hence it should be read together with the Company’s annual financial statements for the year ended December 31, 2013, which include the full set of notes.

This interim financial information was authorized for issue by the Company’s Board of Directors in a meeting held on May 9, 2014.

2.1. Accounting estimates

The preparation of the interim financial information requires the use of estimates and assumptions for certain assets, liabilities and other transactions. These estimates include: oil and gas reserves, pension and medical benefits liabilities, depreciation, depletion and amortization, decommissioning costs, provisions for legal proceedings, fair value of financial

instruments, present value adjustments of trade receivables and payables from relevant transactions, and income tax and social contribution on net income (CSLL). Even though our management uses assumptions and judgments that are periodically reviewed, the actual results could differ from these estimates.

3. Basis of consolidation

The consolidated interim financial information includes the quarterly information of Petrobras and the entities it controls (its subsidiaries, joint operations and consolidated structured entities).

There were no significant changes in the consolidated entities in the three-month period ended March 31, 2014.

The main disposal of assets and legal mergers are set out in note 9.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(*) Liquid Natural Gas

Consolidated inventories are presented net of an R\$ 80 allowance reducing inventories to net realizable value (R\$ 205 as of December 31, 2013), mainly due to the volatility of international prices of crude oil and oil products. The amounts recognized in profit or loss, as other operating expenses are set out in note 23.

A portion of the crude oil and/or oil products inventories have been pledged as security for the Terms of Financial Commitment (TFC) signed by Petrobras and Petros in the amount of R\$ 7,420 (R\$ 6,972 as of December 31, 2013), as set out in note 20.

9. Disposal of assets and legal mergers**9.1. Disposal of assets****Brasil PCH**

On June 14, 2013, Petrobras entered into an agreement with Cemig Geração e Transmissão S.A. (which further assigned the sale and purchase contract to Chipley SP Participações) for the disposal of its entire equity interest in Brasil PCH S.A., equivalent to 49% of the voting stock, for a consideration of R\$ 650, excluding contractual price adjustments.

On February 14, 2014, the remaining conditions precedent for this transaction were met and the disposal was concluded for a total amount of R\$ 711, including contractual price adjustments. A gain of R\$ 646 before taxes was recognized as other operating income (expenses).

Innova S.A.

On August 16, 2013, the Board of Directors of Petrobras approved the disposal of 100% of the share capital of Innova S.A. to Videolar S.A. and its controlling shareholder, at a consideration of R\$ 870, subject to price adjustment before the transaction is concluded.

The transaction was approved in a Shareholders' Extraordinary General Meeting held on September 30, 2013 and its conclusion is subject to certain conditions, including the approval by Conselho Administrativo de Defesa Econômica – CADE.

Due to the pending conditions precedent for conclusion of this transaction, the assets and associated liabilities involved in this transaction were classified as held for sale.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

Petrobras Colombia Limited (PEC)

On September 13, 2013, the Board of Directors of Petrobras approved the disposal of 100% of the share capital of Petrobras Colombia Limited (PEC), a subsidiary of Petrobras International Braspetro B.V. (PIB BV), to Perenco Colombia Limited, for a consideration of US\$ 380 million, subject to price adjustment before the closing of the transaction.

On April 30, 2014 the transaction was concluded and assets and liabilities were transferred to Perenco. Gains or losses on the transaction will be determined based on book values as of this date and other contractual adjustments.

Due to the pending conditions precedent for conclusion of this transaction as of March 31, 2014, the assets and associated liabilities involved in the transaction were classified as held for sale.

Petrobras Energia Peru. S.A.

On November 13, 2013, the Board of Directors of Petrobras approved the disposal of 100% of Petrobras Energia Peru S.A. by Petrobras de Valores Internacional de España S.L. – PVIE and Petrobras International Braspetro B.V. – PIB BV, to China National Petroleum Corporation (CNPC), for US\$ 2,647 million, subject to price adjustment before the transaction is concluded.

The transaction is subject to certain conditions precedent, including approval by the Chinese and Peruvian governments, as well as compliance with the procedures under their "Joint Operating Agreement (JOA)", where applicable.

Due to the pending conditions precedent for the conclusion of this transaction, the assets and corresponding liabilities were classified as held for sale.

9.2. Assets classified as held for sale

Assets classified as held for sale and associated liabilities, classified under the Company's current assets and current liabilities are comprised of the following items and business segments:

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(Expressed in millions of reais, unless otherwise indicated)***9.3. Legal mergers**

On April 2, 2014, the Shareholders' Extraordinary General Meeting of Petrobras approved the following mergers of subsidiaries into Petrobras, which did not increase share capital or additional paid in capital:

- Termoçu S.A.;
- Termoceará Ltda.;
- Companhia Locadora de Equipamentos Petrolíferos – CLEP.

The objective of these mergers is to simplify the corporate structure of the Company, reduce costs and capture synergies. These mergers did not affect the consolidated financial statements.

The market value of these shares does not necessarily reflect the realizable value of a large block of shares.

Braskem S.A. - Investment in publicly traded associate:

Braskem's shares are publicly traded on stock exchanges in Brazil and abroad. The quoted market value as of March 31, 2014, was R\$ 4,318, based on the quoted values of both Petrobras' share in common stock (47% of the outstanding shares), and preferred stock (22% of the outstanding shares). However, there is extremely limited trading of the common shares, since non-signatories of the shareholders' agreement hold only approximately 3% of the common shares.

In addition, given the operational relationship between Petrobras and Braskem, the recoverable amount of the investment, for impairment testing purposes, was determined based on value in use, considering the Company's share of the future cash flows projected for Braskem. As the recoverable amount was higher than the carrying amount, no impairment losses were recognized for this investment.

The main assumptions on which cash flow projections to determine the value in use of Braskem were based are set out in note 14 to our audited consolidated financial statements for the year ended December 31, 2013.

12.2. Concession for exploration of oil and natural gas - Onerous Assignment Agreement (“Cessão Onerosa”)

As of March 31, 2014, the Company’s intangible assets include R\$ 24,419 (R\$ 24,419 at December 31, 2013) related to the Assignment Agreement, net of amounts paid as signature bonuses for Franco (now Campo de Búzios) and Sul de Tupi (now Campo de Sul de Lula) which have been transferred to property, plant and equipment, as set out in note 13.1 to the Company’s financial statements for the period ended December 31, 2013.

Petrobras, the Federal Government (assignor) and the Agência Nacional de Petróleo, Gás Natural e Biocombustíveis - ANP (regulator and inspector) entered into the Assignment Agreement in 2010, which grants the Company the right to carry out prospection and drilling activities for oil, natural gas and other liquid hydrocarbons located in blocks in the pre-salt area (Franco, Florim, Nordeste de Tupi, Entorno de Iara, Sul de Guará and Sul de Tupi), limited to the production of five billion barrels of oil equivalent in up to 40 (forty) years and renewable for a further 5 (five) years upon certain conditions having been met.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

The agreement establishes that, immediately after the declaration of commerciality for each area, the review procedures, which must be based on independent technical appraisal reports, will commence. The review of the Assignment Agreement will be concluded after the date of the last declaration of commerciality.

If the review determines that the value of acquired rights is greater than initially paid, the Company may be required to pay the difference to the Federal Government, or may proportionally reduce the total volume of barrels acquired in the terms of the agreement. If the review determines that the value of the acquired rights is lower than initially paid by the Company, the Federal Government will reimburse the Company for the difference by delivering cash or bonds, subject to budgetary regulations.

Once the effects of the aforementioned review become probable and can be reliably measured, the Company will make the respective adjustments to the purchase prices of the rights.

The agreement also establishes a compulsory exploration program for each one of the blocks and minimum commitments related to the acquisition of goods and services from Brazilian suppliers in the exploration and development stages, which will be subject to certification by the ANP. In the event of non-compliance, the ANP may apply administrative sanctions pursuant to the terms in the agreement.

Based on drilling results obtained so far, expectations regarding the production potential of the areas are being confirmed and the Company will continue to develop its investment program and activities as established in the agreement.

13. Exploration for and evaluation of oil and gas reserves

The exploration and evaluation activities include the search for oil and gas from obtaining the legal rights to explore a specific area until the declaration of the technical and commercial viability of the reserves.

Changes in the balances of capitalized costs directly associated with exploratory wells pending determination of proved reserves and the balance of amounts paid for rights and concessions for exploration of oil and natural gas (capitalized acquisition costs), are set out in the table below:

	7,338	38,217	76,754	6,885	29,115	74,112

17.6. Receivables from the electricity sector

As of March 31, 2014, the Company had R\$ 6,110 of receivables from the Brazilian electricity sector, (R\$ 5,050 as of December, 31, 2013) of which R\$ 4,867 were classified to non-current assets.

The Company supplies fuel to thermoelectric power plants located in the northern region of Brazil, which are direct or indirect subsidiaries of Eletrobras, the Federal Government electric energy company. Part of the costs for supplying fuel to these thermoelectric power stations is borne by the Fuel Consumption Account (Conta de Consumo de Combustível - CCC), managed by Eletrobras.

In March 2013 a private instrument of debt acknowledgement was signed by AME, with Eletrobras as a guarantor in the amount of R\$ 850, which will be paid in 60 successive monthly installments of R\$ 14, indexed to the SELIC interest rate.

17.7. Petroleum and Alcohol accounts - Receivables from Federal Government

As of March 31, 2014, the balance of receivables related to the Petroleum and Alcohol accounts was R\$ 838 (R\$ 836 as of December 31, 2013). Pursuant to Provisional Measure 2,181 of August 24, 2001, the Federal Government may settle this balance by using National Treasury Notes in an amount equal to the outstanding balance, or allow the Company to offset the outstanding balance against amounts payable to the Federal Government, including taxes payable, or both options.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

The Company has provided all the information required by the National Treasury Secretariat (Secretaria do Tesouro Nacional - STN) in order to resolve disputes between the parties and conclude the settlement with the Federal Government.

Following several negotiation attempts at the administrative level, the Company filed a lawsuit in July 2011 to collect the receivables.

17.8. Compensation of employees and officers

Petrobras' key management compensation is set out following:

03.31.2014

03.31.2013

Officers	Board	Total	Officers	Board	Total
-----------------	--------------	--------------	-----------------	--------------	--------------

Short-term compensation	3.5	0.2	3.7	3.1	0.3	3.4
-------------------------	-----	-----	-----	-----	-----	-----

At March 31, 2014, the Company had crude oil and oil products of R\$ 7,420 pledged as security for the Terms of Financial Commitment (TFC), signed by Petrobras and Petros in 2008.

In the first quarter of 2014, the Company's contribution to the defined contribution portion of the Petros Plan 2 was R\$ 196.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

20.1. Profit sharing

Profit sharing benefit complies with Brazilian legal requirements and those of the Brazilian Department of Coordination and Governance of State Owned Enterprises (DEST), of the Ministry of Planning, Budget and Management, and of the Ministry of Mines and Energy, and is computed based on the consolidated net income attributable to the shareholders of Petrobras.

In March, 2014, the Company and the labor unions reached an agreement to a new profit sharing regulation, concluding negotiations started during the 2013/2014 Collective Bargaining Agreement.

Pursuant to the amended rules, profit sharing benefits will be computed based on the results of six corporate indicators, for which annual goals are defined by Management.

The results of the six individual goals are factored into a consolidated result that will determine the percentage of the profit to be distributed as profit sharing benefit to employees.

The amended rules were applied to determine profit sharing benefit for the year ended December 31, 2013, which was paid on May 2, 2014, resulting in an additional profit sharing expense of R\$ 388, recognized in other operating expenses, as set out following:

	2013
Consolidated net income attributable to shareholders of Petrobras	23,570
Percentage of overall achievement of goals = 100.85% (*)	6.25%
Profit sharing - New methodology	1,473
Portion recognized in 2013 (**)	1,085
Additional Portion recognized in March 2014	388

(**) Does not include R\$ 17 of profit sharing from companies abroad

The profit sharing benefit accrued for the first quarter of 2014 is set out following:

	2014
Consolidated net income attributable to shareholders of Petrobras	5,393

Percentage of overall achievement of goals = 99.43% (*)	6.1875%
Profit sharing - Subsidiaries in Brazil	334
Profit sharing - Companies abroad and others	2
	336

(*) Corporate indicators: limit levels to crude oil and oil products spill, lifting cost excluding production taxes in Brazil, crude oil and NGL production in Brazil, feedstock processed (excluding NGL) in Brazil, vessel operating efficiency, percentage of compliance with natural gas delivery schedule.

20.2. Voluntary Separation Incentive Plan

In January 2014, the Company started a Voluntary Separation Incentive Plan (PIDV), which was developed within the context of its Productivity Optimization Plan (POP) to contribute to the achievement of the goals set out in the Business and Management Plan.

A total of 8,298 employees enrolled during the enrollment period, which finished on March 31, 2014. Those employees were divided into five categories, which determine when their separation will take place, between 2014 and 2017 based on a knowledge management plan or a management succession plan related to the business processes and activities that such employees were engaged.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

Employees who enrolled in the PIDV were aged 55 or over and had to be retired by the Brazilian Institute of Social Security (INSS) before the end of the enrollment period (March 31, 2014) and may withdraw any time before separation, in which case will not be entitled to the separation incentives.

The plan determines two types of separation incentives: fixed additional payments of ten month-wages, limited to a cap of R\$ 600 thousand and a floor of R\$ 180 thousand; variable additional payments between 15% and 25% of a month-wage for every month worked after the seventh working month, to the date of separation.

On March 31, 2014 the Company recognized as other operating expenses in profit or loss a provision for the expected payments in the amount of R\$ 2,396, with a current liability of R\$ 1,301 and a noncurrent liability of R\$ 1,095 recognized in the statement of financial position.

The amounts are subject to changes resulting from withdrawal of employees, Collective Bargaining Agreements, which might increase wages before separation, inflation-indexation of the floor and the cap based on the Brazilian Consumer Price Index (IPCA), as well variable additional incentives earned by employees.

21. Shareholders' equity

21.1. Share capital

At March 31, 2014, subscribed and fully paid share capital was R\$ 205,411, represented by 7,442,454,142 outstanding common shares and 5,602,042,788 outstanding preferred shares, all of which are registered, book-entry shares with no par value.

Capital increase with reserves in 2014

The Shareholders' Extraordinary General Meeting, held jointly with the Annual General Meeting on April 2, 2014 approved an increase in the Company's share capital from R\$ 205,411 to R\$ 205,432, through capitalization of a portion of the profit reserve relating to tax incentives, established in 2013, in the amount of R\$ 21.

21.2. Dividends

Dividends – 2013

The Annual General Meeting on April 2, 2014 approved a dividend distribution in the form of interest on capital of R\$ 9,301, which corresponds to R\$ 0.5217 per common shares and R\$ 0.9672 per preferred share. These dividends were paid on April 25, 2014 and the record date

was April 2, 2014. Amounts paid were restated and indexed based on the SELIC rate from December 31, 2013 to the date of payment.

21.3. Earnings per share

	Consolidated		Parent Company

Notes to the financial statements

*(Expressed in millions of reais, unless otherwise indicated)***28. Provisions for legal proceedings, contingent liabilities and contingent assets**

Provisions for legal proceedings, contingent liabilities and judicial deposits are set out following.

28.1. Provisions for legal proceedings

The Company has recognized provisions for the best estimate of the costs of proceedings for which it is probable that an outflow of resources embodying economic benefits will be required and that can be reasonably estimated. These proceedings are mainly comprised of labor claims, losses and damages resulting from the cancellation of an assignment of excise tax (IPI) credits to a third party and fishermen seeking indemnification from the Company for a January 2000 oil spill in the State of Rio de Janeiro.

The Company has provisions for legal proceedings in the amounts set out below:

Non-current liabilities	Consolidated 03.31.2014	12.31.2013
Labor claims	1,372	1,332
Tax claims	232	221
Civil claims	1,365	1,276
Environmental claims	92	62
Other claims	22	27
	3,083	2,918

	Consolidated 03.31.2014	12.31.2013
Opening balance	2,918	2,585
Additions, net (*)	388	841
Payments made	(247)	(542)
Accruals and charges	26	166
Others	(2)	(132)
Closing balance	3,083	2,918

28.2. Judicial deposits

Judicial deposits are set out in the table below according to the nature of the corresponding lawsuits:

Non-current assets	Consolidated 03.31.2014	12.31.2013
Labor	2,127	2,067
Tax	2,425	2,348
Civil	1,339	1,240
Environmental	199	195
Others	18	16
	6,108	5,866

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

28.3. Consolidated contingent liabilities for legal proceedings (not provided for)

Nature	Estimate
Tax	76,374
Civil - General	6,907
Labor	8,068
Civil - Environmental	3,399
Others	6
	94,754

A brief description of the nature of the main contingent liabilities (tax, civil, environmental and labor), for which the expectation of loss is considered as possible is set out following.

a) Tax Proceedings

Description of tax proceedings	Estimate
---------------------------------------	-----------------

Plaintiff: Secretariat of the Federal Revenue of Brazil

1) Deduction of expenses from the renegotiation of the Petros Plan from the calculation basis of income tax (IRPJ) and social contribution (CSLL) and penalty charged.

Current status: Awaiting the hearing of an appeal at the administrative level. 4,677

2) Profits of subsidiaries and associates domiciled abroad in the years of 2005, 2006, 2007, 2008 and 2009 not included in Petrobras' calculation basis of IRPJ and CSLL.

Current status: Awaiting the hearing of an appeal at the administrative level. 4,806

3) Deduction from the calculation basis of IRPJ and CSLL of expenses incurred in 2007 and 2008 related to employee benefits and Petros.

Current status: This claim is being disputed at the administrative level, involving three administrative proceedings.

1,874

4) Non-payment of withhold income tax (IRRF) and Contribution of Intervention in the Economic Domain (CIDE) over remittances for payment of platforms' affreightment.

Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights. 13,698

5) Non-payment of CIDE on imports of naphtha.

Current status: This claim is being discussed at the administrative level. 3,664

6) Non-payment of CIDE in the period from March 2002 until October 2003 in transactions with distributors and service stations that were holders of judicial injunctions that determined the sale of fuel without the gross-up of such tax.

Current status: This claim is in judicial stage, in which the 1,642
Company is taking legal actions to ensure its rights.

7) Non-payment of tax on financial operations (IOF) over intercompany loans with PifCo, Brasoil and BOC, in 2007, 2008 and 2009.

Current status: Awaiting the hearing of an appeal at the administrative level. 5,816

8) Non-payment of withhold income tax (IRRF) over remittances abroad for payment of crude oil imports.

Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights. 4,101

9) Tax credits recovery denied due to failure to comply with an accessory obligation.

Current status: Awaiting the hearing of an appeal at the administrative level. 3,600

**Plaintiff: State Finance Department of AM, BA, DF,
ES, PA, PE and RJ**

10) Non-payment of ICMS on crude oil and natural gas sales due to differences in measuring beginning and ending inventory.

Current status: This claim involves lawsuits in different administrative levels, in which the Company is taking legal actions to ensure its rights. 3,735

Plaintiff: State Finance Department of Rio de Janeiro

11) ICMS on exit operations of liquid natural gas (LNG) without issuance of tax document by the main establishment.

Current status: This claim involves lawsuits in 3,452
administrative stages, in which the Company is taking legal
actions to ensure its rights.

12) Dispute over ICMS tax levy in operations of sale of jet fuel, as Decree 36,454/2004 was declared as unconstitutional.

Current status: This claim involves lawsuits in 1,921
administrative and judicial stages, in which the Company is
taking legal actions to ensure its rights.

Plaintiff: State Finance Department of São Paulo

13) Dispute over ICMS tax levy on the importing of a drilling rig – temporary admission in São Paulo and clearance in Rio de Janeiro and a fine for breach of accessory obligations.

Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights. 4,582

**Plaintiff: Municipal governments of Anchieta,
Aracruz, Guarapari, Itapemirim, Marataízes,
Linhares, Vila Velha, Vitória and Maragogipe.**

14) Failure to withhold and collect tax on services provided offshore (ISSQN) in some municipalities located in the State of Espírito Santo, despite Petrobras having made the withholding and payment of these taxes to the municipalities where the respective service providers are established, in accordance with Complementary Law No. 116/03.

Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights. 2,424

Plaintiff: State Finance Departments of Rio de Janeiro and Sergipe

15) Use of ICMS tax credits on the purchase of drilling rig bits and chemical products used in formulating drilling fluid.

Current status: This claim involves lawsuits in different judicial stages, in which the Company is taking legal actions to ensure its rights. 997

Plaintiff: Federal Revenue of Brazil

16) Non-payment of social security contributions on payment of allowances and contingent bonus.

Current status: This claim involves lawsuits in 2,342
administrative stages, in which the Company is taking legal
actions to ensure its rights.

Plaintiff : State Finance Department of SP, RS and SC

17) Three states challenge the payment of VAT (ICMS) on imports of natural gas.

Current status: This claim involves lawsuits in different administrative and judicial stages, as well as three civil lawsuits in the Supreme Court. 2,064

18) Other tax proceedings

10,979

*(Expressed in millions of reais, unless otherwise indicated)***c) Environmental Proceedings – General**

Description of environmental proceedings	Estimate
Plaintiff: Ministério Público Federal, Ministério Público Estadual do Paraná, AMAR - Associação de Defesa do Meio Ambiente de Araucária e IAP - Instituto Ambiental do Paraná	
1) Legal proceeding related to specific performance obligations, indemnification and compensation for damages related to an environmental accident that occurred in the State of Paraná on July 16, 2000. Current status: The court partially ruled for the plaintiff, however both parties (the plaintiff and the Company) filed an appeal.	1,821
2) Other environmental proceedings	1,578
Total for environmental proceedings	3,399

d) Labor Proceedings – General

Description of labor proceedings	Estimate
Plaintiff : Sindipetro do Norte Fluminense and Sindipetro da Bahia	
1) Class Actions regarding wage underpayments to certain of our employees due to alleged changes in the methodology in which overtime is factored into the calculation of paid weekly rest, allegedly computed based on ratios that are higher than those established by Law No. 605/49. Current status: The proceedings were partially judged by the ordinary instances of the Labor Court. The Company has appealed this decision and awaits judgment by the Superior Labor Court.	1,077
2) Other labor proceedings	6,991
Total for labor proceedings	8,068

28.4. Contingent assets

28.4.1. Legal proceeding in the United States - P-19 and P-31

In 2002, Brasoil and Petrobras obtained a favorable decision in related lawsuits filed before U.S. courts by the insurance companies United States Fidelity & Guaranty Company and American Home Assurance Company in which they were seeking to obtain (since 1997 and regarding Brasoil) a judicial order exempting them from their payment obligations under the performance bond related to platforms P- 19 and P-31, and seeking reimbursement from Petrobras for any amounts for which they could ultimately be held liable in the context of the execution proceedings of such performance bond.

On July 21, 2006, the U.S. courts issued an executive decision, conditioning the payment of the amounts owed to Brasoil on a definitive dismissal of the legal proceedings involving identical claims that are currently in course before Brazilian courts.

Brasoil, Petrobras and the insurance companies already pleaded the dismissal of the Brazilian legal proceedings but their definitive dismissal is awaiting the hearing of an appeal filed by the platforms' shipbuilding company before the Superior Court for Non-Constitutional Matters (STJ).

The Company is intensifying actions taken, in an attempt to settle this lawsuit. The amount of damages claimed is approximately US\$ 245 million.

29. Collateral in connection with concession agreements for petroleum exploration

The Company has granted collateral to the Agência Nacional de Petróleo, Gás Natural e Biocombustíveis (ANP) in connection with the performance of the Minimum Exploration Programs established in the concession agreements for petroleum exploration areas in the total amount of R\$ 6,608, of which R\$ 5,852 are still in force, net of commitments that have been undertaken. The collateral comprises crude oil from previously identified producing fields, pledged as security, amounting to R\$ 4,544 and bank guarantees in the amount of R\$ 1,308.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(Expressed in millions of reais, unless otherwise indicated)***30. Risk management**

The Company is exposed to a variety of risks arising from its operations, such as: price risk (related to crude oil and oil products prices), foreign exchange rates risk, interest rates risk, credit risk and liquidity risk and manages risk through a corporate policy established by its officers.

The objective of the overall risk management policy of the company is to support the achievement of its strategic goals through an adequate resource allocation and an appropriate balance between growth, return on investments and risk exposure level, which can arise from its normal activities or from the context within which the Company operates.

A summary of the positions held by the Company and recognized in other current assets and liabilities as of March 31, 2014, as well as the amounts recognized in profit or loss and other comprehensive income and the guarantees given is set out following:

	Statement of Financial Position				Maturity
			Fair Value		
	Notional value		Asset Position (Liability)

30.1. Risk management of price risk (related to crude oil and oil products prices)

Petrobras does not use derivative instruments to hedge exposures to commodity price cycles related to products purchased and sold to fulfill operational needs. Derivatives are used as hedging instruments to manage the price risk of certain transactions carried out abroad, which are usually short-term transactions similar to commercial transactions.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

A sensitivity analysis of crude oil and oil products derivatives including the fair value as of March 31, 2014 and two stressed scenarios, considering price changes of 25% and 50% on the risk variable, respectively, comparatively to March 31, 2014 is set out following:

Commodities and freight (consolidated) Risk		Probable Scenario		Stressed Scenario		Stressed Scenario	
		as of 03.31.2014		(Δ of 25%)		(Δ of 50%)	
	Risk	Assets	Derivative	Assets	Derivative	Assets	Derivative
Crude oil (WTI)	Derivative (price decrease) vs. Inventory (price increase)	40	(5)	(241)	244	(522)	493
Distillate products	Derivative (price decrease) vs. Inventory (price increase)	3	–	(106)	102	(214)	204
Fuel oil	Derivative (price increase) vs. Inventory (price decrease)	(12)	4	(151)	139	(289)	274
Freight	Derivative (price increase) vs. Inventory (price decrease)	–	1	(1)	1	(2)	2
Ethanol	Derivative (price increase) vs. Inventory (price decrease)	–	(1)	(1)	1	(2)	2

30.2. Foreign exchange risk management

Petrobras seeks to identify and manage foreign exchange rate risks based on an integrated analysis of natural hedges, to benefit from the correlation between income and expenses. Short-term risk management involves choosing the currency in which to hold cash, such as the Brazilian Real, U.S. dollar or other currency. The risk management strategy involves the use of derivative instruments to hedge certain liabilities, minimizing foreign exchange rate risk exposure.

a) Cash Flow Hedge involving the Company's highly probable future exports

Effective mid-May 2013, the Company designated hedging relationships to account for the effects of the existing natural hedge between a portion of its long term debt obligations denominated in U.S. dollars and a portion of its future export revenues in U.S. dollars, relative to foreign currency rates risk (spot rates).

Individual hedging relationships were designated in a one-to-one proportion, meaning that a portion of the total monthly exports will be the hedged transaction of an individual hedging relationship, hedged by a portion of the company's long-term debt (which has an average maturity of approximately 6.5 years).

The principal amounts, fair value as of March 31, 2014, and a schedule of the expected reclassification to profit or loss of the balance of losses recognized in other comprehensive income (shareholders' equity) are set out below:

Hedging Instrument	Hedged Transactions	Nature of the risk	Maturity Date	Principal Amount (US\$ million)	Carrying amount of the Hedging Instruments on 03.31.2014
Non-Derivative Financial Instruments	Portion of Highly Probable – Real vs U.S. Future Monthly Export Revenues	Foreign Currency Dollar Spot Rate	April 2014 to august 2021	46,913	106,164

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

Changes in the Principal Amount	US\$ million
Amounts designated in May 2013	43,859
New hedging instruments designated	11,962
Exports affecting profit or loss	(4,335)
Principal repayments / amortization	(4,574)
Amounts designated as of March 31, 2014	46,913

									Consolidated
									03.31.2014
	2014	2015	2016	2017	2018	2019	2020	2021	Total
Expected reclassification	(947)	(1,363)	(1,664)	(1,762)	(1,421)	(1,285)	(138)	250	(8,330)

b) Cash flow hedges involving swap contracts - Yen x Dollar

The Company has a cross currency swap to fix in U.S. dollars the payments related to bonds denominated in Japanese yen and does not intend to settle these contracts before the maturity. The relationship between the derivative and the bonds was designated for cash flow hedge accounting.

c) Sensitivity analysis for foreign exchange risk on financial instruments

A sensitivity analysis is set out following, for which the probable scenario, computed based on external data, as well as the stressed scenarios (a 25% and a 50% change in the foreign exchange rates), except for assets and liabilities of foreign subsidiaries, when transacted in a currency equivalent to their respective functional currencies.

Financial Instruments	Exposure at Risk 03.31.2014	Consolidated		
		Probable Scenario (*)	Stressed Scenario	Stressed Scenario

				(Δ of 25%)	(Δ of 50%)
Assets	6,561		397	1,640	3,280
Liabilities	(133,407)	Dollar	(8,076)	(33,352)	(66,703)
Cash flow hedge on exports	106,164		6,427	26,541	53,082
Forward Derivative (net Short Position)	249		15	62	125
	(20,433)		(1,237)	(5,109)	(10,216)
Liabilities	(1,941)	Yen	38	(485)	(971)
Cross-currency Swap	769		(44)	269	806
	(1,172)		(6)	(216)	(165)
Assets	17,381		(348)	4,345	8,691
Liabilities	(40,969)	Euro	821	(10,242)	(20,485)
	(23,588)		473	(5,897)	(11,794)
Assets	4,323	Pound	(45)	1,081	2,162
Liabilities	(10,757)	Sterling	112	(2,689)	(5,378)
	(6,434)		67	(1,608)	(3,216)
Assets	855		(58)	214	427
Liabilities	(1,702)	Peso	116	(426)	(851)
	(847)		58	(212)	(424)
	(52,474)		(645)	(13,042)	(25,815)

(*) The probable scenario was computed based on the following risks: Real x Dollar – a 1.60% depreciation of the Real relative the Dollar / Yen x Dollar – a 0.91% appreciation of the Yen / Dollar x Euro: a 3.43% depreciation of the Euro / Dollar x Pound Sterling: a 2.61% depreciation of the Pound Sterling / Dollar x Peso: a 3.83% depreciation of the Peso. The data were obtained from the Focus Report of the Central Bank of Brazil and from Bloomberg.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

The impact of foreign exchange depreciation / appreciation does not jeopardize the liquidity of the Company in the short term due to the balance between liabilities, assets, revenues and future commitments in foreign currency, since most of its debt mature in the long term.

30.3. Interest rate risk management

The Company considers that exposure to interest rate risk does not cause a significant impact and therefore, preferably does not use derivative financial instruments to manage interest rate risk, except for specific situations encountered by certain companies of the Petrobras group, such as interest rate swaps, in order to exchange a floating interest rate for a fixed rate, aiming at eliminating the mismatch between the cash flows of assets and liabilities from investment projects.

The Company does not intend to settle the transaction before the maturity date, and therefore, adopted hedge accounting for the relationship between the finance debt and the derivative, for which a sensitivity analysis is set out following:

		Consolidated		
		Probable Scenario (*)	Stressed Scenario (Δ de 25%)	Stressed Scenario (Δ de 50%)
Interest rate derivatives	Risk			
Hedge (Derivative - Swap)	LIBOR decline	4	(5)	(8)
Debt	LIBOR increase	(4)	5	8

(*) The probable scenario was obtained based on LIBOR futures.

30.4. Credit risk

Petrobras is exposed to the credit risk arising from commercial transactions and from cash management, related to financial institutions and to credit exposure to customers. Credit risk is the risk that a customer or financial institution will fail to pay amounts due, relating to outstanding receivables or to financial investments, guarantees or deposits with financial institutions.

Credit risk management in Petrobras aims at reconciling the need for minimizing risk and maximizing the result of commercial and financial transactions, through efficient credit analysis, granting and management based on quantitative and qualitative parameters that are appropriate for each of the market segments in which it operates.

The commercial credit portfolio is much diversified between clients from the domestic market and from foreign markets and credit granted to financial institutions is spread among "Investment Grade" international banks rated by the international rating agencies and highly-rated Brazilian banks.

30.5. Liquidity risk

Liquidity risk is represented by the possibility of a shortage of cash or another financial assets in order to settle its obligations on the established dates and is managed by the Company based on policies such as: Centralized cash management, in order to optimize the level of cash and cash equivalents held and reduce working capital needed; a robust minimum cash level to ensure that the need of cash for investments and short-term obligations is met even in adverse market conditions; increasing the number of investors in the domestic and international markets through funding opportunities, developing a strong presence in the international capital markets and searching for new funding sources, including new markets and financial products.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of reais, unless otherwise indicated)

A maturity analysis of the long-term debt, including face value and interest payments is set out following:

Maturity	Consolidated						2020 and		
	2014	2015	2016	2017	2018	2019	thereafter	03.31.2014	12.31.2013
	27,994	28,826	43,168	39,989	46,218	57,032	185,593	428,820	363,513

31. Fair value of financial assets and liabilities

The hierarchy of recurring fair value measurements of financial assets and liabilities recognized is set out below:

	Fair value measured based on			Total fair value recorded
	Level I	Level II	Level III	
Assets				
Marketable securities	10,041	–	–	10,041
Commodity derivatives	31	–	–	31
Foreign currency derivatives	–	51	–	51
Balance at March 31, 2014	10,072	51	–	10,123
Balance at December 31, 2013	9,124	24	–	9,148
Liabilities				
Commodity derivatives	–	–	–	–
Interest derivatives	–	(41)	–	(41)
Balance at March 31, 2014	–	(41)	–	(41)
Balance at December 31, 2013	(48)	(48)	–	(96)

The estimated fair value for the Company's long term debt as of March 31, 2014, computed based on the prevailing market rates for operations that have similar nature, maturity and risk to the contracts recognized, is set out in note 15.

32. Subsequent events

Disposal of interest in UTE Norte Fluminense

On April 11, 2014 Petrobras entered into an agreement with Électricité de France (EDF) group to dispose of its 10% interest in Usina Termelétrica Norte Fluminense (NTF).

This transaction is part of a restructuring program for the Gas & Power segment portfolio, in accordance with the 2014-2018 Business and Management Plan.
