Publicly-Held Company

**Notice to the Market**

Banco Bradesco S.A. ("Company" or "Bradesco"), hereby reaffirms to its shareholders, investors and the market in general, that the speculations about the news recently published in the media regarding the early Company's Board of Executive Officers' succession are totally unfounded.

The Bylaws establish the rules necessary for exercising the Company's managing positions. The Annual Shareholders' Meetings are traditionally held in March of each year, with the election of the members of the Board of Directors which, in turn, elects the members of the Board of Executive Officers.

Bradesco, therefore, has a defined set of rules for electing its Management and a history of stability in its governing body. There is not any evidence that justifies the adoption of measures that are not in accordance with the normal course of the events.

Pursuant to the applicable law, especially with regards to CVM Instruction No. 358/2002, any material fact associated with the activities or operations carried out by Bradesco will be duly informed to the market.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
