**STAR BULK CARRIERS CORP. REPORTS FINANCIAL RESULTS
FOR THE FIRST QUARTER 2008**

ATHENS, GREECE, June 04, 2008 Star Bulk Carriers Corp. (the Company or Star Bulk) (NASDAQ: SBLK), a global shipping company focusing on transportation of dry bulk cargoes, today announced the unaudited financial and operating results for the quarter ended March 31, 2008.

Financial Highlights:

•

The Company reported net income of \$17.84 million for the quarter ending March 31, 2008 compared to net income of \$0.28 million for the first quarter of 2007.

•

Voyage and time charter revenues were \$42.49 million for the first quarter of 2008. This figure includes revenues of \$18.01 million attributable to the amortization of the fair value of below/above market acquired time charters.

•

Earnings per share, basic and diluted for the three months ended March 31, 2008 were \$0.40 and \$0.36, respectively. These figures are based on a weighted average of 44,748,517 shares outstanding, basic and on a weighted average of 49,385,952 shares outstanding, diluted in the first quarter of 2008.

We commenced operations during the fourth quarter of 2007 (December 3, 2007). Included in this release are our Unaudited Interim consolidated condensed financial statements which include comparisons between the first quarter of 2008 and 2007. During the period from the Company's inception (May 13, 2005) to the date it commenced operations (December 3, 2007), the Company was a development stage enterprise.

The Unaudited Interim consolidated condensed Income Statements, Balance Sheets, and Cash Flow Statements presented herein, include the accounts of Star Bulk Carriers Corp. and its wholly owned subsidiaries and of its predecessor Star Maritime Acquisition Corp. (Star Maritime).

Star Maritime was organized under the laws of the State of Delaware on May 13, 2005 as a blank check company formed to acquire, through a merger, capital stock exchange, asset acquisition or similar business combination, one or more assets or target businesses in the shipping industry. Star Maritime's common stock and warrants started trading on the American Stock Exchange under the symbols, SEA and SEA.WS, respectively, on December 21, 2005.

On November 27, 2007, the Company obtained shareholder approval for the acquisition of the initial fleet of eight

drybulk carriers and for effecting the Redomiciliation Merger whereby Star Maritime merged with and into Star Bulk with Star Bulk as the surviving entity. The Redomiciliation Merger was completed on November 30, 2007 as a result of which each outstanding share of Star Maritime common stock was converted into the right to receive one share of Star Bulk common stock and each outstanding warrant of Star Maritime was assumed by Star Bulk with the same terms and restrictions except that each became exercisable for common stock of Star Bulk. Star Bulk's common stock and warrants are listed on the Nasdaq Global Market under the symbols "SBLK" and "SBLKW" respectively.

Akis Tsirigakis, President and CEO of Star Bulk commented: I am very pleased to report Star Bulk's first full operating quarter financial results. We have taken delivery of all eight vessels of the initial fleet within a few months since the commencement of operations in December 3, 2007 and we were able to grow our fleet to thirteen vessels, or by 63%. Through these acquisitions, we reduced the average age of the fleet to approximately 10 years and exceeded the 1 million deadweight tonnage mark. Other significant milestones for the company include the exercise and/or re-purchase of approximately 68% of the warrants that were outstanding as well as having paid our first full operating quarter dividend of \$0.35 per share. We believe we are well-positioned to create further value for our shareholders with the aid of our strong balance sheet and moderate debt level.

Fleet Employment Profile (As of June 04, 2008)

Star Ypsilon is expected to be delivered to Star Bulk in August / September 2008.

(4)

Star Cosmo is expected to be delivered to Star Bulk in June / July 2008.

(5)

Star Iota is expected to be delivered to its buyers in June / July 2008.

First Quarter 2008 Results

We commenced operations during the fourth quarter of 2007 (December 3, 2007) and therefore we are unable to present a meaningful comparison of our first quarter of 2008 and 2007 results.

For the quarter ended March 31, 2008, Voyage Revenues amounted to \$42.49 million and Operating Income amounted to \$18.81 million. Net Income for the first quarter of 2008 was \$17.84 million representing \$0.40 earnings per share calculated on 44,748,517 weighted average number of shares, basic and \$0.36 earnings per share calculated on 49,385,952 weighted average number of shares, diluted.

The above Net Income figure includes vessel impairment loss of \$3.14 million in connection with the sale of the vessel Star Iota and amortization of fair value of below/above market acquired time charters of \$18.01 million.

Adjusted EBITDA for the first quarter of 2008 was \$9.61 million. Please see later in this release for a reconciliation of adjusted EBITDA to net cash provided by cash flows from operating activities.

An average of 8.1 vessels were owned and operated during the first quarter of 2008, earning an average Time Charter Equivalent, or TCE, rate of \$63,594 per day. Please see later in this release for further information regarding our calculation of TCE rate.

Dry-docking related expenses

During the first quarter of 2008, we elected to change our method of accounting for dry-docking costs from the deferral method, under which costs associated with dry-docking a ship are deferred and charged to expense over the period until a ship's next scheduled dry-docking, to the direct expense method, under which we will expense all dry-docking costs as incurred. We view this as a preferable method since it eliminates the subjectivity and significant amount of time that is needed to determine which costs related to dry-docking activities should be deferred and amortized over a future period.

During the first quarter of 2008 our total costs for all vessels dry-docked amounted to \$2.79 million. If we had not elected to change our policy and defer dry-docking costs, Net Income for the first quarter of 2008 would have amounted to \$20.63 million representing \$0.46 earnings per share calculated on 44,748,517 weighted average number of shares, basic and \$0.42 earnings per share calculated on 49,385,952 weighted average number of shares, diluted.

Fleet Developments

Vessels deliveries

The following table shows the vessels that were delivered to the Company in the first quarter of 2008 and the respective dates that such deliveries took place:

Vessel	Date of Delivery
Star Zeta (ex I Duckling)	January 02, 2008

Star Delta (ex F Duckling)	January 02, 2008
Star Gamma (ex C Duckling)	January 04, 2008
Star Alpha (ex A Duckling)	January 09, 2008
Star Iota (ex Mommy Duckling)	March 07, 2008

Vessel acquisitions

On January 22, 2008 the Company concluded a Memorandum of Agreement for the acquisition of the Capesize dry bulk carrier vessel Sinfonia (to be renamed Star Sigma), for an aggregate purchase price of \$83.74 million. The vessel was delivered to us on April 15, 2008.

On March 11, 2008, the Company concluded a Memorandum of Agreement for the acquisition of the Supramax dry bulk carrier vessel Star Omicron (ex Nord Wave) for an aggregate purchase price of \$72 million. The vessel was delivered to us on April 18, 2008.

On May 22, 2008, the Company concluded a Memorandum of Agreement for the acquisition of the Supramax dry bulk carrier vessel Victoria (to be renamed Star Cosmo) for an aggregate purchase price of \$68.80 million. The vessel is scheduled to be delivered to us within June/ July 2008.

On June 3, 2008, the Company entered in a definitive agreement to acquire the Capesize dry bulk carrier vessel Falcon Cape (to be renamed Star Ypsilon) for an aggregate purchase price of \$87.20 million. The vessel is scheduled to be delivered to us within August/ September 2008.

Sale of vessel

On April 24, 2008 the Company concluded a Memorandum of Agreement for the disposal of the vessel Star Iota to unaffiliated third parties for a gross sale price of \$18.35 million with expected delivery during the second or third quarter of 2008. On March 31, 2008 the vessel was classified as asset held for sale and recorded at the lower of its carrying amount or fair value less cost to sell. The resulting impairment loss of \$3.14 million was recorded in the quarter ended March 31, 2008.

Financing activities

On December 27, 2007 the Company concluded a loan agreement of up to \$ 120 million in order to partly finance the acquisition cost of the second hand vessels Star Gamma (ex. C Duckling), Star Delta (ex. F Duckling), Star Epsilon (ex. G Duckling), Star Zeta (ex. I Duckling), and Star Theta (ex. J. Duckling) During January 2008 the Company had drawn down the full amount of this loan. The loan bears interest at LIBOR plus a margin and is repayable in twenty-eight quarterly installments through December 2016.

On April 14, 2008 (amended on April 17, 2008) the Company entered into a loan agreement of up to \$170 million with Piraeus Bank in order to partly finance the acquisition cost of vessels Star Omicron and Star Sigma and also to provide additional liquidity to the Company. Vessels Star Alpha, Star Beta, and Star Sigma were collateralized to secure this loan. The loan bears interest at LIBOR plus a margin basis and is repayable in twenty-four quarterly installments through April 2016. As of June 04, 2008 the Company has drawn down the amount of \$93.50 million.

Summary of Selected Data*(TCE rate in Dollars in thousands)***Three Months Ended****March 31, 2008**

Average number of vessels(1)	8.1
Number of vessels	9
Average age of operational fleet (in years) (2)	10.2
Ownership days (3)	737
Available days (4)	662
Voyage days for fleet (5)	647
Fleet Utilization (6)	88%
Time charter equivalent rate(7)	63,594

(1) Average number of vessels is the number of vessels that constituted our fleet for the relevant period, as measured by the sum of the number of days each vessel was a part of our fleet during the period divided by the number of calendar days in that period.

(2) Average age of operational fleet is calculated as at March 31, 2008.

(3) Ownership days are the total calendar days each vessel in the fleet was owned by Star Bulk for the relevant period.

(4) Available days for the fleet are the total calendar days the vessels were in possession for the relevant period after subtracting for off-hire days with major repairs dry-docking or special or intermediate surveys or transfer of ownership.

(5) Voyage days are the total days the vessels were in our possession for the relevant period after subtracting all off-hire days incurred for any reason (including off-hire for dry-docking, major repairs, special or intermediate surveys).

(6) Fleet utilization is calculated by dividing voyage days by ownership days for the relevant period and takes into account the dry-docking periods.

(7) Time charter equivalent rate, or TCE rate, is a measure of the average daily revenue performance of a vessel on a per voyage basis. Our method of calculating TCE rate is determined by dividing voyage revenues (net of voyage expenses) or time charter equivalent revenue or TCE revenue by voyage days for the relevant time period. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions. TCE rate is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods.

During the three months ended March 31, 2008, our fleet utilization was significantly affected by the scheduled dry-docking of the two vessels, Star Beta and Star Iota, which resulted in 75 off-hire days. If days associated with

these dry-dockings were excluded from the above table, fleet utilization would amount to approximately 98%.

TCE Rate

Star Bulk Carriers Corp. included TCE revenues, a non-GAAP measure, as it provides additional meaningful information in conjunction with voyage revenues, the most directly comparable GAAP measure, because it assists Company management in making decisions regarding the deployment and use of its vessels and in evaluating their financial performance. TCE rate is also included herein because it is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods and because the Company believes that it presents useful information to investors.

The following table reflects the calculation of our TCE rates and reconciliation of TCE revenue as reflected in the unaudited interim consolidated condensed income statement for the three month period ended March 31, 2008:

<i>(Dollars in thousands)</i>	Three Months Ended March 31, 2008
Voyage revenues	42,492
Voyage expenses	(1,347)
Time Charter equivalent revenues	41,145
Total voyage days for fleet	647
Time charter equivalent (TCE) rate	63,594

Included in Voyage revenues is the amortization of fair value of below and above market acquired time charters in the amount of \$18.01 million.

Dividend Payments

On February 14 and April 16, 2008, the Company declared dividends of \$0.10 per share (amounting to \$4.60 million, paid on or about February 29, 2008 to the stockholders of record as of February 25, 2007) and \$0.35 per share (amounting to \$18.84 million per share, paid on or about May 26, 2008 to the stockholders of record as of May 16, 2008), respectively.

Adjusted EBITDA Reconciliation

Star Bulk Carriers Corp. considers adjusted EBITDA to represent net income before interest, taxes, depreciation and amortization (including amortization of fair value of above and below market charters), Adjusted EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by United States generally accepted accounting principles, or U.S. GAAP, and our calculation of adjusted EBITDA may not be comparable to that reported by other companies. Adjusted EBITDA is included herein because it is a basis upon which the Company assesses its liquidity position; it is used by our lenders as a measure of our compliance with certain loan covenants; and because the Company believes that it presents useful information to investors regarding the Company's ability to service and/or incur indebtedness.

The following table reconciles net cash provided by operating activities to adjusted EBITDA:

About Star Bulk

Star Bulk is a global shipping company providing worldwide seaborne transportation solutions in the dry bulk sector. Star Bulk's vessels transport major bulks, which include iron ore, coal and grain and minor bulks such as bauxite, fertilizers and steel products. Star Bulk was incorporated in the Marshall Islands on December 13, 2006 and is headquartered in Athens, Greece. Its common stock and warrants trade on the NASDAQ Global Market under the symbols "SBLK" and "SBLKW" respectively. Currently, Star Bulk has an operating fleet of eleven dry bulk carriers,

plus definitive agreements to acquire one Supramax and one Capesize dry bulk carrier and sell its Panamax dry bulk carrier. The total fleet consists of four Capesize, one Panamax and eight Supramax dry bulk vessels with an average age of approximately 10 years and a combined cargo carrying capacity of 1,184,835 deadweight tons.

Forward-Looking Statements

The information in this press release may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements regarding: (1) the delivery and operation of assets of Star Bulk; (2) Star Bulk's future operating or financial results; (3) future, pending or recent acquisitions, business strategy, areas of possible expansion, and expected capital spending or operating expenses; (4) drybulk market trends, including charter rates and factors affecting vessel supply and demand; and (5) other statements identified by words such as "anticipate," "believe," "plan," "estimate," "expect," "intend," "should," "may," or words of similar meaning.

Such forward-looking statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, Star Bulk's examination of historical operating trends, data contained in their records and other data available from third parties. Although Star Bulk believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond its control, Star Bulk cannot assure you that Star Bulk will achieve or accomplish these expectations, beliefs or projections. Important factors that could cause actual results to differ materially from those discussed in the forward-looking statements include the failure of a seller to deliver one or more vessels, the strength of world economies and currencies, general market conditions, including changes in charterhire rates and vessel values, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled drydocking, changes in Star Bulk's operating expenses, including bunker prices, dry-docking and insurance costs, or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists. Additional factors that could cause Star Bulk's results to differ materially from those described in the forward-looking statements can be found in Star Bulk's Registration Statement on Form F-1/F-4 and reports on Form 6-K filed with the Securities and Exchange Commission (the "SEC") and available at the SEC's Internet site (<http://www.sec.gov>). The information set forth herein speaks only as of the date hereof, and Star Bulk disclaims any intention or obligation to update any forward-looking statements as a result of developments occurring after the date of this communication.
