Repurchase of common stock included in accrued liabilities	67	-
Purchase of property and equipment with accounts payable	74	-
Acquisition of company with stock	117	-
Contingent consideration related to acquisition	479	-

During 2010, iMergent, Inc. entered into an asset purchase agreement with CastleWave, LLC to purchase their assets for total consideration of \$846,000. The total consideration included a contingent consideration of approximately \$479,000 based upon revenue generated through CastleWave's sales channels, restricted stock of \$117,000, and cash of \$250,000. The purchase price was preliminarily allocated to a non-compete agreement for \$60,000, technical know-how for \$60,000, customer list for \$98,000, other assets for \$12,000 and goodwill for \$616,000. See summary below (in thousands):

Fair value of assets acquired (including goodwill of \$616,000)	\$ 846
Cash paid	(250)
Stock issued	(117)
Estimated value of contingent consideration	(479)
Liabilities assumed	None

See accompanying notes.

iMERGENT, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(unaudited)

(1) Description of Business, Basis of Presentation and Summary of Significant Accounting Policies

Description of Business - iMergent, Inc. is incorporated in the state of Delaware. When we refer in this Form 10-Q to “iMergent,” the “Company,” “we,” “our,” and “us,” we mean iMergent, Inc., together with its wholly-owned subsidiaries. We are an eServices company that provides eCommerce technology, training and a variety of web-based technologies and resources to entrepreneurs and small, medium, and large enterprises. Our services are designed to help decrease the risks associated with eCommerce implementation by providing low-cost, scalable solutions and providing support and information regarding industry developments.

Basis of Presentation – These unaudited condensed consolidated financial statements include the financial statements of iMergent, Inc. and its wholly owned subsidiaries. We have eliminated all intercompany balances and transactions in consolidation. In February 2010 we acquired the assets of Castlewave LLC for total consideration of approximately \$846,000. Accordingly, we have included the results of operations for Castlewave as of the date of acquisition (Note 6). We have included all adjustments, consisting only of normal recurring items, which we considered necessary for a fair presentation of our financial results for interim periods presented. These unaudited condensed consolidated financial statements and accompanying notes should be read together with the audited consolidated financial statements included in our Annual Report on Form 10-KT for the period ended December 31, 2009. Results of the three months ended March 31, 2010 do not necessarily indicate the results we expect for the period ending December 31, 2010 or any other future period. In view of our revenue recognition policies and the rapidly evolving nature of our business and the markets it serves, we believe period-to-period comparisons of our operating results, including operating expenses as a percentage of revenue and cash flows, are not necessarily meaningful and should not be relied upon as an indication of future performance.

Seasonality - Our revenue is subject to seasonal fluctuations. Responses to our marketing for Preview Training Sessions and Internet Training Workshops are historically lower during the period from June through Labor Day, and during the holiday season from Thanksgiving Day through the middle of January.

Significant Accounting Policies – We describe our significant accounting policies in Note 1 to the financial statements in Item 8 of our Annual Report on Form 10-KT for the period ended December 31, 2009. In January 2010 we changed the contract associated with the sale of our Avail 24/7 subscription. Effective March 31, 2010 any customer that has not activated their Avail 24/7 subscription will be assessed an additional activation fee of \$34.95. Prior to this change in contract, this activation fee was included in a bundle of items sold at the workshop and there was no time limit on activation. All existing customers were notified of the change in contract in January and were given 60 days to activate Avail 24/7 without paying the additional activation fee. As a result of this change in contract, we recognized approximately \$1,000,000 in revenue upon expiration of the 60 day notice in March 2010 for Avail 24/7 activation fees described above as we no longer had an obligation to provide the activation. Concurrent with this change, all new contracts include provisions such that customers will have 60 days to activate their Avail 24/7 subscription. Any customer activating after the 60 day period will be required to pay the additional \$34.95 activation fee.

Recently Adopted Accounting Pronouncements – On January 1, 2010, the Company adopted new accounting guidance on Fair Value Measurements and Disclosures. This guidance requires the Company to disclose the amount of significant transfers between Level 1 and Level 2 of the fair value hierarchy and the reasons for these transfers and the reasons for any transfers in or out of Level 3 of the fair value hierarchy. In addition, the guidance clarifies certain existing disclosure requirements. This standard did not have a material impact on the Company’s disclosures in its unaudited condensed consolidated financial statements at March 31, 2010.

On January 1, 2010, the Company adopted new accounting guidance on the consolidation of variable interest entities. This guidance requires revised evaluations of whether entities represent variable interest entities, ongoing assessments of control over such entities, and additional disclosures for variable interests. This standard will not have an impact on the Company's financial condition and results of operations at March 31, 2010.

Recent Accounting Pronouncements Not Yet Adopted - In October 2009, the FASB issued authoritative guidance on revenue recognition that will become effective for us beginning January 1, 2011, with earlier adoption permitted. Under the new guidance on arrangements that include software elements, tangible products that have software components that are essential to the functionality of the tangible product will no longer be within the scope of the software revenue recognition guidance, and software-enabled products will now be subject to other relevant revenue recognition guidance. Additionally, the FASB issued authoritative guidance on revenue arrangements with multiple deliverables that are outside the scope of the software revenue recognition guidance. Under the new guidance, when vendor specific objective evidence or third party evidence for deliverables in an arrangement cannot be determined, a best estimate of the selling price is required to separate deliverables and allocate arrangement consideration using the relative selling price method. The new guidance includes new disclosure requirements on how the application of the relative selling price method affects the timing and amount of revenue recognition. We believe adoption of this new guidance will not have a material impact on our financial statements.

iMERGENT, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(unaudited)

Other Comprehensive Income - There are no components of other comprehensive income other than net income for the three months ending March 31, 2010 and 2009.

Significant Customers – No customer accounted for 10% or more of total net revenue or total accounts receivable in the three months ended March 31, 2010 or 2009.

(2) Dividends

During the three months ended March 31, 2010 and 2009, the Company's board of directors declared the following cash dividends:

Declaration Date	Per Share Dividend	Record Date	Total Amount	Payment Date
March 29, 2010	\$ 0.02	April 5, 2010	\$ 229,000	April 12, 2010
March 25, 2009	\$ 0.02	April 6, 2009	\$ 228,000	April 20, 2009

(3) Computation of Net Income Per Common Share

We compute basic net income or loss per share using the weighted average number of common shares outstanding during the period. We compute diluted net income per share using the weighted average number of common shares and dilutive potential common shares outstanding during the period. Dilutive common shares include shares issuable upon the exercise of stock options and restricted shares.

We include stock options and restricted shares with combined exercise prices, unrecognized compensation expense and tax benefits that are less than the average market price for our common stock in the calculation of diluted net income per share. We exclude stock options with combined exercise prices, unrecognized compensation expense and tax benefits that are greater than the average market price for our common stock from the calculation of diluted net income per share because their effect is anti-dilutive.

In loss periods, basic net loss per share and diluted net loss per share are identical since the effect of potential common shares is anti-dilutive and therefore excluded.

The following table presents the composition of shares used in the computation of basic and diluted net income per share for the periods indicated:
