

ASPEN GROUP, INC.
Form 424B3
April 12, 2013

Filed Pursuant to Rule 424(b)(3)
Registration No. 333-187798

ASPEN GROUP, INC.

PROSPECTUS

2,421,429 Shares of Common Stock

This prospectus relates to the sale of up to 2,421,429 shares of Aspen Group, Inc. common stock which may be offered by the selling shareholders identified in this prospectus.

We will not receive any proceeds from the sales of shares of our common stock by the selling shareholders named on page 60.

Our common stock trades on the Over-the-Counter Bulletin Board under the symbol "ASPU". As of the last trading day before the date of this prospectus, the closing price of our common stock was \$0.49 per share.

The common stock offered in this prospectus involves a high degree of risk. See "Risk Factors" beginning on page 5 of this prospectus to read about factors you should consider before buying shares of our common stock.

The selling shareholders are offering these shares of common stock. The selling shareholders may sell all or a portion of these shares from time to time in market transactions through any market on which our common stock is then traded, in negotiated transactions or otherwise, and at prices and on terms that will be determined by the then prevailing market price or at negotiated prices directly or through a broker or brokers, who may act as agent or as principal or by a combination of such methods of sale. The selling shareholders will receive all proceeds from the sale of the common stock. For additional information on the methods of sale, you should refer to the section entitled "Plan of Distribution."

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined whether this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is April 12, 2013

You should rely only on information contained in this prospectus. We have not authorized anyone to provide you with information that is different from that contained in this prospectus. The selling shareholders are not offering to sell or seeking offers to buy shares of common stock in jurisdictions where offers and sales are not permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or of any sale of our common stock.

PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus. You should read the entire prospectus carefully including the section entitled “Risk Factors” before making an investment decision. In March 2012, Aspen Group, Inc., or Aspen Group, and Aspen University Inc., a privately held Delaware corporation, or Aspen, entered into a merger agreement whereby Aspen became a wholly-owned subsidiary of Aspen Group. We refer to the merger as the “Reverse Merger.” All references to “we,” “our” and “us” refer to Aspen Group and its subsidiaries (including Aspen) unless the context otherwise indicates. In referring to academic matters, these words refer solely to Aspen University Inc.

Our Company

Aspen is an online postsecondary education company. Founded in 1987, Aspen’s mission is to become an institution of choice for adult learners by offering cost-effective, comprehensive, and relevant online education. We are dedicated to helping our students exceed their personal and professional objectives in a socially conscious and economically sensible way. Aspen’s mission in fact is to help students achieve their long-term goals of upward mobility and long-term economic success through providing superior education, exerting financial prudence, and supporting our students’ career advancement goals. Aspen is dedicated to providing the highest quality education experiences taught by top-tier professors - 67% of our adjunct professors hold doctorate degrees.

Corporate Information

Our corporate headquarters are located at 720 South Colorado Boulevard, Suite 1150N, Denver, Colorado 80246 and our phone number is (303) 333-4224. Our corporate website can be found at www.aspen.edu/investor-relations. The information on our website is not incorporated in this prospectus.

Risks Affecting Us

Our business is subject to numerous risks as discussed more fully in the section entitled “Risk Factors” immediately following this Prospectus Summary. In particular, our business would be adversely affected if:

we are unable to comply with the extensive regulatory requirements to which our business is subject, including Title IV of the Higher Education Act, or Title IV, and the regulations under that act, state laws and regulations, accrediting agency requirements, and our inability to comply with these regulations could result in our ceasing operations altogether;

we are unable to raise enough money or generate sufficient revenue to meet our future working capital needs;

our marketing and advertising efforts are not effective;

we are unable to develop new programs and expand our existing programs in a timely and cost-effective manner;

we are unable to retain students as a result of our increased tuition plan;

we are unable to attract and retain key personnel needed to sustain and grow our business; or

our reputation is damaged by regulatory actions or negative publicity affecting us or other companies in the for-profit higher education sector.

For a discussion of these and other risks you should consider before making an investment in our common stock, see the section entitled “Risk Factors” beginning on page 5 of this prospectus.

THE OFFERING

Common stock outstanding prior to the offering:	56,168,005 shares
Common stock offered by the selling shareholders:	1,614,286 shares of common stock, all of which are outstanding as of the date this prospectus
Common stock offered by the selling shareholders upon exercise of warrants:	807,143 shares
Common stock outstanding immediately following the offering:	56,975,148 shares
Use of proceeds:	Except for the proceeds we receive upon the exercise of warrants, we will not receive any proceeds from the sale of shares by the selling shareholders. See "Use of Proceeds" on page 20.
Stock symbol:	OTCBB: ASPU

The number of shares of common stock to be outstanding prior to and after this offering excludes:

- a total of 7,438,667 shares of common stock issuable upon the exercise of outstanding stock options;
- a total of 561,333 shares of common stock reserved for future issuance under our 2012 Equity Incentive Plan;
- a total of 8,112,696 shares of common stock issuable upon the exercise of warrants; and
- a total of 1,357,143 shares of common stock issuable upon the conversion of notes.

SUMMARY FINANCIAL DATA

The following summary of our financial data should be read in conjunction with, and is qualified in its entirety by reference to “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements appearing elsewhere in this prospectus. The data for the years ended December 31, 2012 and December 31, 2011 has been taken from our audited financial statements.

Statements of Operations Data

	Year Ended December 31, 2012	Year Ended December 31, 2011
Revenue	\$ 5,017,213	\$ 4,477,931
Operating Loss	\$ (5,656,316)	\$ (2,095,503)
Net loss	\$ (6,010,734)	\$ (2,135,573)
Net loss per common share – basic and diluted	\$ (0.17)	\$ (0.14)
Weighted average common shares outstanding (basic and diluted)	35,316,681	15,377,413

Balance Sheet Data

	December 31, 2012	December 31, 2011
Cash and cash equivalents	\$ 644,988	\$ 766,602
Working capital	\$ 106,222	\$ 532,182
Total assets	\$ 3,497,198	\$ 4,013,606
Total current liabilities	\$ 1,630,426	\$ 2,107,925
Accumulated deficit	\$ (11,337,104)	\$ (5,326,370)
Total shareholders' equity (deficiency)	\$ 801,755	\$ (2,027,561)

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the following Risk Factors before deciding whether to invest in Aspen Group. Additional risks and uncertainties not presently known to us, or that we currently deem immaterial, may also impair our business operations or our financial condition. If any of the events discussed in the Risk Factors below occur, our business, consolidated financial condition, results of operations or prospects could be materially and adversely affected. In such case, the value and marketability of the common stock could decline.

Risks Relating to Our Business

Our ability to continue as a going concern is in doubt absent obtaining adequate new debt or equity financing.

We incurred a net loss of approximately \$6 million in 2012 and \$2.1 million in 2011. We anticipate losses will continue until we are able to increase our enrollment under our new tuition plan and these new students paying higher rates have taken at least two courses. Additionally, our audited financial statements contain a going concern opinion. Beginning in September 2012, we closed equity financings totaling net proceeds of \$3,590,236, which has provided working capital necessary because of these losses. We cannot assure you that we will meet our future working capital needs. In such event, we may not be able to remain in business. Furthermore, this going concern opinion may affect our ability to obtain Department of Education, or DOE, permanent certification for Title IV purposes.

Because our management team has been in place for less than two years, it may be difficult to evaluate our future prospects and the risk of success or failure of our business.

Our management team began the process of taking control of Aspen from its then Chairman in May 2011 and embarked upon changes in Aspen's business model including adopting a new tuition plan effective upon receiving regulatory approval, revamping Aspen's marketing approach, substantially increasing marketing expenditures, and upgrading Aspen's technology infrastructure. While the results to date are very encouraging, the limited time period makes it difficult to project whether we will be successful.

Our business may be adversely affected by a further economic slowdown in the U.S. or abroad or by an economic recovery in the U.S.

The U.S. and much of the world economy are experiencing difficult economic circumstances. We believe the recent economic downturn in the U.S., particularly the continuing high unemployment rate, has contributed to a portion of our recent enrollment growth as an increased number of working students seek to advance their education to improve job security or reemployment prospects. This effect cannot be quantified. However, to the extent that the economic downturn and the associated unemployment have increased demand for our programs, an improving economy and increased employment may eliminate this effect and reduce such demand as fewer potential students seek to advance their education. We do not know whether the gradually reduced unemployment rate will reduce future demand for our services, which would have a material adverse effect on our business, financial condition, results of operations and cash flows. Conversely, a worsening of economic and employment conditions could adversely affect the ability or willingness of prospective students to pay our tuition and our former students to repay student loans, which could increase our bad debt expense, impair our ability to offer students loans under Title IV, and require increased time, attention and resources to manage defaults.

If we cannot manage our growth, our results of operations may suffer and could adversely affect our ability to comply with federal regulations.

The growth that we have experienced after our new management began in May 2011, as well as any future growth that we experience, may place a significant strain on our resources and increase demands on our management information and reporting systems and financial management controls. If growth negatively impacts our ability to manage our business, the learning experience for our students could be adversely affected, resulting in a higher rate of student attrition and fewer student referrals. Future growth will also require continued improvement of our internal controls and systems, particularly those related to complying with federal regulations under the Higher Education Act, as administered by the DOE, including as a result of our participation in federal student financial aid programs under Title IV. If we are unable to manage our growth, we may also experience operating inefficiencies that could increase our costs and adversely affect our profitability and results of operations.

Because there is strong competition in the postsecondary education market, especially in the online education market, our cost of acquiring students may increase and our results of operations may be harmed.

Postsecondary education is highly fragmented and competitive. We compete with traditional public and private two-year and four-year brick and mortar colleges as well as other for-profit schools, particularly those that offer online learning programs. Public and private colleges and universities, as well as other for-profit schools, offer programs similar to those we offer. Public institutions receive substantial government subsidies, and public and private institutions have access to government and foundation grants, tax-deductible contributions that create large endowments and other financial resources generally not available to for-profit schools. Accordingly, public and private institutions may have instructional and support resources that are superior to those in the for-profit sector. In addition, some of our competitors, including both traditional colleges and universities and online for-profit schools, have substantially greater name recognition and financial and other resources than we have, which may enable them to compete more effectively for potential students. We also expect to face increased competition as a result of new entrants to the online education market, including established colleges and universities that have not previously offered online education programs.

We may not be able to compete successfully against current or future competitors and may face competitive pressures including price pressures that could adversely affect our business or results of operations and reduce our operating margins. We may also face increased competition if our competitors pursue relationships with the military and government educational programs with which we already have relationships. These competitive factors could cause our enrollments, revenues and profitability to decrease significantly.

In the event that we are unable to update and expand the content of existing programs and develop new programs and specializations on a timely basis and in a cost-effective manner, our results of operations may be harmed.

The updates and expansions of our existing programs and the development of new programs and specializations may not be accepted by existing or prospective students or employers. If we cannot respond to changes in market requirements, our business may be adversely affected. Even if we are able to develop acceptable new programs, we may not be able to introduce these new programs as quickly as students require or as quickly as our competitors introduce competing programs. To offer a new academic program, we may be required to obtain appropriate federal, state and accrediting agency approvals, which may be conditioned or delayed in a manner that could significantly affect our growth plans. In addition, a new academic program that must prepare students for gainful employment must be approved by the DOE for Title IV purposes if the institution is provisionally certified, which we are through September 30, 2013. If we are unable to respond adequately to changes in market requirements due to financial constraints, regulatory limitations or other factors, our ability to attract and retain students could be impaired and our financial results could suffer.

Establishing new academic programs or modifying existing programs may require us to make investments in management and faculty, incur marketing expenses and reallocate other resources. If we are unable to increase the number of students, or offer new programs in a cost-effective manner, or are otherwise unable to manage effectively the operations of newly established academic programs, our results of operations and financial condition could be adversely affected.

Because our future growth and profitability will depend in large part upon the effectiveness of our marketing and advertising efforts, if those efforts are unsuccessful we may not be profitable in the future.

Our future growth and profitability will depend in large part upon our media performance, including our ability to:

- Create greater awareness of our school and our programs;
- Identify the most effective and efficient level of spending in each market and specific media vehicle;
- Determine the appropriate creative message and media mix for advertising, marketing and promotional expenditures; and
- Effectively manage marketing costs (including creative and media).

Our marketing expenditures may not result in increased revenue or generate sufficient levels of brand name and program awareness. If our media performance is not effective, our future results of operations and financial condition will be adversely affected.

Although our management is spearheading a new marketing and advertising program, it may not be successful.

Mr. Michael Mathews, our Chief Executive Officer, has developed a new marketing campaign designed to substantially increase our student enrollment. While initial results have been as anticipated, there are no assurances that this marketing campaign will continue to be successful. Among the risks are the following:

- Our ability to compete with existing online colleges which have substantially greater financial resources, deeper management and academic resources, and enhanced public reputations;
- the emergence of more successful competitors;
- factors related to our marketing, including the costs of Internet advertising and broad-based branding campaigns;
- limits on our ability to attract and retain effective employees because of the new incentive payment rule;
- performance problems with our online systems;
- failure to maintain accreditation;
- student dissatisfaction with our services and programs;
- adverse publicity regarding us, our competitors or online or for-profit education generally;
- a decline in the acceptance of online education;
- a decrease in the perceived or actual economic benefits that students derive from our programs;
- potential students may not be able to afford the monthly payments; and
- potential students may not react favorably to our marketing and advertising campaigns.

If our new marketing campaign is not favorably received, our revenues may not increase.

If student enrollment decreases as a result of our increased tuition plan, our results of operations may be adversely affected.

In July 2011, we launched a new tuition plan which provided for a material increase in our tuition prices. The prior business model and pricing structure implemented by our prior management was flawed and could not be sustained. Although changes in our marketing strategy and upgraded technology infrastructure have increased our enrollment, we cannot assure that our student enrollment will not suffer in the future as a result of the increased tuition. If we are unable to enroll students in a cost-effective manner, our results of operations will suffer and you may lose your investment.

If we incur system disruptions to our online computer networks, it could impact our ability to generate revenue and damage our reputation, limiting our ability to attract and retain students.

In 2011 and 2012, we spent approximately \$1.4 million to update our computer network primarily to permit accelerated student enrollment and enhance our students' learning experience. We expect to spend \$250,000 in capital expenditures over the next 12 months. The performance and reliability of our technology infrastructure is critical to our reputation and ability to attract and retain students. Any system error or failure, or a sudden and significant increase in bandwidth usage, could result in the unavailability of our online classroom, damaging our reputation and could cause a loss in enrollment. Our technology infrastructure could be vulnerable to interruption or malfunction due to events beyond our control, including natural disasters, terrorist activities and telecommunications failures.

Although one of our directors has pledged shares of common stock to secure payment of a receivable, it is possible that the future market price of our common stock will decline in which case we will incur an adverse impact to its future operating results and financial condition.

In March 2012, one of our directors pledged a total of 117,943 shares of personally owned Aspen common stock (now shares of Aspen Group). The shares were pledged (in addition to shares pledged by Aspen's former Chairman and his company) to secure payment of a \$772,793 accounts receivable. The Stock Pledge Agreement provides that the shares will be cancelled at the rate of \$1.00 per share in the event that we are unable to collect this receivable which is due in 2014. Because of sales of common stock below \$1.00 per share, the receivable in total was reduced to \$270,478 as of December 31, 2012. If we are unable to collect on this receivable, we will suffer a number of consequences, including a failure to collect a material amount of cash and if our stock price is below \$0.35, we will sustain a non cash loss.

If we experience any interruption to our technology infrastructure, it could prevent students from accessing their courses, could have a material adverse effect on our ability to attract and retain students and could require us to incur additional expenses to correct or mitigate the interruption.

Our computer networks may also be vulnerable to unauthorized access, computer hackers, computer viruses and other security problems. A user who circumvents security measures could misappropriate proprietary information, personal information about our students or cause interruptions or malfunctions in operations. As a result, we may be required to expend significant resources to protect against the threat of these security breaches or to alleviate problems caused by these breaches.

Because we rely on third parties to provide services in running our operations, if any of these parties fail to provide the agreed services at an acceptable level, it could limit our ability to provide services and/or cause student dissatisfaction, either of which could adversely affect our business.

We rely on third parties to provide us with services in order for us to efficiently and securely operate our business including our computer network and the courses we offer to students. Any interruption in our ability to obtain the services of these or other third parties or deterioration in their performance could impair the quality of our educational product and overall business. Generally, there are multiple sources for the services we purchase. Our business could be disrupted if we were required to replace any of these third parties, especially if the replacement became necessary on short notice, which could adversely affect our business and results of operations.

If we or our service providers are unable to update the technology that we rely upon to offer online education, our future growth may be impaired.

We believe that continued growth will require our service providers to increase the capacity and capabilities of their technology infrastructure. Increasing the capacity and capabilities of the technology infrastructure will require these

third parties to invest capital, time and resources, and there is no assurance that even with sufficient investment their systems will be scalable to accommodate future growth. Our service providers may also need to invest capital, time and resources to update their technology in response to competitive pressures in the marketplace. If they are unwilling or unable to increase the capacity of their resources or update their resources appropriately and we cannot change over to other service providers efficiently, our ability to handle growth, our ability to attract or retain students, and our financial condition and results of operations could be adversely affected.

Because we rely on third party administration and hosting of open source software for our online classroom, if that third party were to cease to do business or alter its business practices and services, it could have an adverse impact on our ability to operate.

Our online classroom employs the Moodle learning management system which is an open source learning platform and is supported by the open source community. The system is a web-based portal that stores and delivers course content, provides interactive communication between students and faculty, and supplies online evaluation tools. While Moodle is an open source learning platform, we rely on third parties to host and help with the administration of it. We further rely on third parties, the Moodlerooms, Inc. agreement and the open source community as well as our internal staff for ongoing support and customization and integration of the system with the rest of our technology infrastructure. If Moodlerooms or the open source community that supports it were unable or unwilling to continue to provide us with service, we may have difficulty maintaining the software required for our online classroom or updating it for future technological changes. Any failure to maintain our online classroom would have an adverse impact on our operations, damage our reputation and limit our ability to attract and retain students.

Because the personal information that we or our vendors collect may be vulnerable to breach, theft or loss, any of these factors could adversely affect our reputation and operations.

Possession and use of personal information in our operations subjects us to risks and costs that could harm our business. Aspen uses a third party to collect and retain large amounts of personal information regarding our students and their families, including social security numbers, tax return information, personal and family financial data and credit card numbers. We also collect and maintain personal information of our employees in the ordinary course of our business. Some of this personal information is held and managed by certain of our vendors. Errors in the storage, use or transmission of personal information could result in a breach of student or employee privacy. Possession and use of personal information in our operations also subjects us to legislative and regulatory burdens that could require notification of data breaches, restrict our use of personal information, and cause us to lose our certification to participate in the Title IV programs. We cannot guarantee that there will not be a breach, loss or theft of personal information that we store or our third parties store. A breach, theft or loss of personal information regarding our students and their families or our employees that is held by us or our vendors could have a material adverse effect on our reputation and results of operations and result in liability under state and federal privacy statutes and legal or administrative actions by state attorneys general, private litigants, and federal regulators any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Because the CAN-SPAM Act imposes certain obligations on the senders of commercial emails, it could adversely impact our ability to market Aspen's educational services, and otherwise increase the costs of our business.

The Controlling the Assault of Non-Solicited Pornography and Marketing Act of 2003, or CAN-SPAM Act, establishes requirements for commercial email and specifies penalties for commercial email that violates the CAN-SPAM Act. In addition, the CAN-SPAM Act gives consumers the right to require third parties to stop sending them commercial email.

The CAN-SPAM Act covers email sent for the primary purpose of advertising or promoting a commercial product, service, or Internet website. The Federal Trade Commission, a federal consumer protection agency, is primarily responsible for enforcing the CAN-SPAM Act, and the Department of Justice, other federal agencies, State Attorneys General, and Internet service providers also have authority to enforce certain of its provisions.

The CAN-SPAM Act's main provisions include:

Prohibiting false or misleading email header information;

- Prohibiting the use of deceptive subject lines;
- Ensuring that recipients may, for at least 30 days after an email is sent, opt out of receiving future commercial email messages from the sender;
- Requiring that commercial email be identified as a solicitation or advertisement unless the recipient affirmatively permitted the message; and
- Requiring that the sender include a valid postal address in the email message.

The CAN-SPAM Act also prohibits unlawful acquisition of email addresses, such as through directory harvesting and transmission of commercial emails by unauthorized means, such as through relaying messages with the intent to deceive recipients as to the origin of such messages.

Violations of the CAN-SPAM Act's provisions can result in criminal and civil penalties, including statutory penalties that can be based in part upon the number of emails sent, with enhanced penalties for commercial email companies who harvest email addresses, use dictionary attack patterns to generate email addresses, and/or relay emails through a network without permission.

The CAN-SPAM Act acknowledges that the Internet offers unique opportunities for the development and growth of frictionless commerce, and the CAN-SPAM Act was passed, in part, to enhance the likelihood that wanted commercial email messages would be received.

The CAN-SPAM Act preempts, or blocks, most state restrictions specific to email, except for rules against falsity or deception in commercial email, fraud and computer crime. The scope of these exceptions, however, is not settled, and some states have adopted email regulations that, if upheld, could impose liabilities and compliance burdens in addition to those imposed by the CAN-SPAM Act.

Moreover, some foreign countries, including the countries of the European Union, have regulated the distribution of commercial email and the online collection and disclosure of personal information. Foreign governments may attempt to apply their laws extraterritorially or through treaties or other arrangements with U.S. governmental entities.

Because we use email marketing, our requirement to comply with the CAN-SPAM Act could adversely affect Aspen's marketing activities and increase its costs.

If we lose the services of key personnel, it could adversely affect our business.

Our future success depends, in part, on our ability to attract and retain key personnel. Our future also depends on the continued services of Mr. Michael Mathews, our Chief Executive Officer, and Dr. Gerald Williams, our President, who are critical to the management of our business and operations and the development of our strategic direction and would also be difficult to replace. The loss of the services of Mr. Mathews and/or Dr. Williams and other key individuals and the process to replace these individuals would involve significant time and expense and may significantly delay or prevent the achievement of our business objectives.

If we are unable to attract and retain our faculty, administrators, management and skilled personnel, we may not be able to support our growth strategy.

To execute our growth strategy, we must attract and retain highly qualified faculty, administrators, management and skilled personnel. Competition for hiring these individuals is intense, especially with regard to faculty in specialized areas. If we fail to attract new skilled personnel or faculty or fail to retain and motivate our existing faculty, administrators, management and skilled personnel, our business and growth prospects could be severely harmed. The DOE's revised incentive payment rule, which took effect July 1, 2011, may affect the manner in which we attract, retain, and motivate new and existing employees.

If we are unable to protect our intellectual property, our business could be harmed.

In the ordinary course of our business, we develop intellectual property of many kinds that is or will be the subject of copyright, trademark, service mark, trade secret or other protections. This intellectual property includes but is not limited to courseware materials, business know-how and internal processes and procedures developed to respond to the requirements of operating and various education regulatory agencies. We rely on a combination of copyrights, trademarks, service marks, trade secrets, domain names, agreements and registrations to protect our intellectual property. We rely on service mark and trademark protection in the U.S. to protect our rights to the mark "ASPEN UNIVERSITY" as well as distinctive logos and other marks associated with our services. We rely on agreements

under which we obtain rights to use course content developed by faculty members and other third party content experts. We cannot assure you that the measures that we take will be adequate or that we have secured, or will be able to secure, appropriate protections for all of our proprietary rights in the U.S. or select foreign jurisdictions, or that third parties will not infringe upon or violate our proprietary rights. Despite our efforts to protect these rights, unauthorized third parties may attempt to duplicate or copy the proprietary aspects of our curricula, online resource material and other content, and offer competing programs to ours.

In particular, third parties may attempt to develop competing programs or duplicate or copy aspects of our curriculum, online resource material, quality management and other proprietary content. Any such attempt, if successful, could adversely affect our business. Protecting these types of intellectual property rights can be difficult, particularly as it relates to the development by our competitors of competing courses and programs.

We may encounter disputes from time to time over rights and obligations concerning intellectual property, and we may not prevail in these disputes. Third parties may raise a claim against us alleging an infringement or violation of the intellectual property of that third party.

If we are subject to intellectual property infringement claims, it could cause us to incur significant expenses and pay substantial damages.

Third parties may claim that we are infringing or violating their intellectual property rights. Any such claims could cause us to incur significant expenses and, if successfully asserted against us, could require that we pay substantial damages and prevent us from using our intellectual property that may be fundamental to our business. Even if we were to prevail, any litigation regarding the intellectual property could be costly and time-consuming and divert the attention of our management and key personnel from our business operations.

If we incur liability for the unauthorized duplication or distribution of class materials posted online during our class discussions, it may affect our future operating results and financial condition.

In some instances, our faculty members or our students may post various articles or other third party content on class discussion boards. We may incur liability for the unauthorized duplication or distribution of this material posted online for class discussions. Third parties may raise claims against us for the unauthorized duplication of this material. Any such claims could subject us to costly litigation and impose a significant strain on our financial resources and management personnel regardless of whether the claims have merit. As a result we may be required to alter the content of our courses or pay monetary damages.

Because we are an exclusively online provider of education, we are entirely dependent on continued growth and acceptance of exclusively online education and, if the recognition by students and employers of the value of online education does not continue to grow, our ability to grow our business could be adversely impacted.

We believe that continued growth in online education will be largely dependent on additional students and employers recognizing the value of degrees and courses from online institutions. If students and employers are not convinced that online schools are an acceptable alternative to traditional schools or that an online education provides value, or if growth in the market penetration of exclusively online education slows, growth in the industry and our business could be adversely affected. Because our business model is based on online education, if the acceptance of online education does not grow, our ability to continue to grow our business and our financial condition and results of operations could be materially adversely affected.

As Internet commerce develops, federal and state governments may draft and propose new laws to regulate Internet commerce, which may negatively affect our business.

The increasing popularity and use of the Internet and other online services have led and may lead to the adoption of new laws and regulatory practices in the U.S. and to new interpretations of existing laws and regulations. These new laws and interpretations may relate to issues such as online privacy, copyrights, trademarks and service marks, sales taxes, fair business practices and the requirement that online education institutions qualify to do business as foreign corporations or be licensed in one or more jurisdictions where they have no physical location or other presence. New laws, regulations or interpretations related to doing business over the Internet could increase our costs and materially and adversely affect our enrollments, revenues and results of operations.

If there is new tax treatment of companies engaged in Internet commerce, this may adversely affect the commercial use of our marketing services and our financial results.

Due to the growing budgetary problems facing state and local governments, it is possible that governments might attempt to tax our activities. New or revised tax regulations may subject us to additional sales, income and other taxes. We cannot predict the effect of current attempts to impose taxes on commerce over the Internet. New or revised taxes and, in particular, sales or use taxes, would likely increase the cost of doing business online which could

have an adverse effect on our business and results of operations.

Risks Related to the Regulation of Our Industry

If we fail to comply with the extensive regulatory requirements for our business, we could face penalties and significant restrictions on our operations, including loss of access to Title IV loans.

We are subject to extensive regulation by (1) the federal government through the DOE and under the Higher Education Act, (2) state regulatory bodies and (3) accrediting agencies recognized by the DOE, including the Distance Education and Training Council, or DETC, a “national accrediting agency” recognized by the DOE. The U.S. Department of Defense and the U.S. Department of Veterans Affairs regulate our participation in the military’s tuition assistance program and the VA’s veterans’ education benefits program, respectively. The regulations, standards and policies of these agencies cover the vast majority of our operations, including our educational programs, facilities, instructional and administrative staff, administrative procedures, marketing, recruiting, financial operations and financial condition. These regulatory requirements can also affect our ability to add new or expand existing educational programs and to change our corporate structure and ownership.

Institutions of higher education that grant degrees, diplomas, or certificates must be authorized by an appropriate state education agency or agencies. In addition, in certain states as a condition of continued authorization to grant degrees and in order to participate in various federal programs, including tuition assistance programs of the United States Armed Forces, a school must be accredited by an accrediting agency recognized by the U.S. Secretary of Education. Accreditation is a non-governmental process through which an institution submits to qualitative review by an organization of peer institutions, based on the standards of the accrediting agency and the stated aims and purposes of the institution. The Higher Education Act requires accrediting agencies recognized by the DOE to review and monitor many aspects of an institution's operations and to take appropriate action when the institution fails to comply with the accrediting agency's standards.

Our operations are also subject to regulation due to our participation in Title IV programs. Title IV programs, which are administered by the DOE, include loans made directly to students by the DOE. Title IV programs also include several grant programs for students with economic need as determined in accordance with the Higher Education Act and DOE regulations. To participate in Title IV programs, a school must receive and maintain authorization by the appropriate state education agencies, be accredited by an accrediting agency recognized by the U.S. Secretary of Education, and be certified as an eligible institution by the DOE. Our growth strategy is partly dependent on enrolling more students who are attracted to us because of our continued participation in the Title IV programs.

The regulations, standards, and policies of the DOE, state education agencies, and our accrediting agencies change frequently. Recent and impending changes in, or new interpretations of, applicable laws, regulations, standards, or policies, or our noncompliance with any applicable laws, regulations, standards, or policies, could have a material adverse effect on our accreditation, authorization to operate in various states, activities, receipt of funds under tuition assistance programs of the United States Armed Forces, our ability to participate in Title IV programs, receipt of veterans education benefits funds, or costs of doing business. Findings of noncompliance with these regulations, standards and policies also could result in our being required to pay monetary damages, or being subjected to fines, penalties, injunctions, limitations on our operations, termination of our ability to grant degrees, revocation of our accreditation, restrictions on our access to Title IV program funds or other censure that could have a material adverse effect on our business.

If we do not maintain authorization in Colorado, our operations would be curtailed, and we may not grant degrees.

Aspen is headquartered in Colorado and is authorized by the Colorado Commission on Higher Education to grant degrees, diplomas or certificates. If we were to lose our authorization from the Colorado Commission on Higher Education, we would be unable to provide educational services in Colorado and we would lose our eligibility to participate in the Title IV programs.

Our failure to comply with regulations of various states could have a material adverse effect on our enrollments, revenues, and results of operations.

Various states impose regulatory requirements on education institutions operating within their boundaries. Several states assert jurisdiction over online education institutions that have no physical location or other presence in the state but offer education services to students who reside in the state or advertise to or recruit prospective students in the state. State regulatory requirements for online education are inconsistent among states and not well developed in many jurisdictions. As such, these requirements change frequently and, in some instances, are not clear or are left to the discretion of state regulators.

State laws typically establish standards for instruction, qualifications of faculty, administrative procedures, marketing, recruiting, financial operations, and other operational matters. To the extent that we have obtained, or obtain in the future, additional authorizations or licensure, changes in state laws and regulations and the interpretation of those laws

and regulations by the applicable regulators may limit our ability to offer education programs and award degrees. Some states may also prescribe financial regulations that are different from those of the DOE. If we fail to comply with state licensing or authorization requirements, we may be subject to the loss of state licensure or authorization. If we fail to comply with state requirements to obtain licensure or authorization, we may be the subject of injunctive actions or penalties. Loss of licensure or authorization or the failure to obtain required licensures or authorizations could prohibit us from recruiting or enrolling students in particular states, reduce significantly our enrollments and revenues and have a material adverse effect on our results of operations. We enroll students in all 50 states, as well as the District of Columbia and Puerto Rico. We have sought and received confirmation that our operations do not require state licensure or authorization, or we have been notified that we are exempt from licensure or authorization requirements, in three states. We, through our legal counsel, are researching the licensure requirements and exemption possibilities in the remaining 47 states. It is anticipated that Aspen will be in compliance with all state licensure requirements by June 2014. Because we enroll students in all 50 states, as well as the District of Columbia and Puerto Rico, we may have to seek licensure or authorization in additional states in the future.

Under DOE regulations, if an institution offers postsecondary education through distance education to students in a state in which the institution is not physically located or in which it is otherwise subject to state jurisdiction as determined by that state, the institution must have met any state requirements for it to be legally offering postsecondary distance education in that state. A federal court has vacated such requirement, and an appellate court affirmed that ruling on June 5, 2012, though further guidance is expected. See page 39 of this prospectus. Should the requirement be upheld or otherwise enforced, however, and if we fail to obtain required state authorization to provide postsecondary distance education in a specific state, we could lose our ability to award Title IV aid to students within that state.

The DOE's new requirement could lead some states to adopt new laws and regulatory practices affecting the delivery of distance education to students located in those states. In the event we are found not to be in compliance with a state's new or existing requirements for offering distance education within that state, the state could seek to restrict one or more of our business activities within its boundaries, we may not be able to recruit students from that state, and we may have to cease providing service to students in that state. In addition, under the DOE's regulation regarding state authorization and distance education, if and when the regulation is enforced or re-promulgated, we could lose eligibility to offer Title IV aid to students located in that state.

If we fail to maintain our institutional accreditation, we would lose our ability to participate in the tuition assistance programs of the U.S. Armed Forces and also to participate in Title IV programs.

Aspen is accredited by the DETC, which is a national accrediting agency recognized by the Secretary of Education for Title IV purposes. Accreditation by an accrediting agency that is recognized by the Secretary of Education is required for an institution to become and remain eligible to participate in Title IV programs as well as in the tuition assistance programs of the United States Armed Forces. DETC may impose restrictions on our accreditation or may terminate our accreditation. To remain accredited we must continuously meet certain criteria and standards relating to, among other things, performance, governance, institutional integrity, educational quality, faculty, administrative capability, resources and financial stability. Failure to meet any of these criteria or standards could result in the loss of accreditation at the discretion of the accrediting agency. The loss of accreditation would, among other things, render our students and us ineligible to participate in the tuition assistance programs of the U.S. Armed Forces or Title IV programs and have a material adverse effect on our enrollments, revenues and results of operations.

Because we have only recently begun to participate in Title IV programs, our failure to comply with the complex regulations associated with Title IV programs would have a significant adverse effect on our operations and prospects for growth.

We have only recently begun to participate in Title IV programs. In 2012 and 2011, approximately 18% and approximately 7%, respectively, of our total cash-basis revenues are from students utilizing Title IV programs. However, compliance with the requirements of the Higher Education Act and Title IV programs is highly complex and imposes significant additional regulatory requirements on our operations, which require additional staff, contractual arrangements, systems and regulatory costs. We have a limited demonstrated history of compliance with these additional regulatory requirements. If we fail to comply with any of these additional regulatory requirements, the DOE could, among other things, impose monetary penalties, place limitations on our operations, and/or condition or terminate our eligibility to receive Title IV program funds, which would limit our potential for growth and adversely affect our enrollment, revenues and results of operations.

Because we are only provisionally certified by the DOE, we must reestablish our eligibility and certification to participate in the Title IV programs, and there are no assurances that DOE will recertify us to participate in the Title IV programs.

An institution generally must seek recertification from the DOE at least every six years and possibly more frequently depending on various factors. In certain circumstances, the DOE provisionally certifies an institution to participate in Title IV programs, such as when it is an initial participant in Title IV programs or has undergone a change in ownership and control. On September 28, 2012, the DOE notified us that following our application for change of control, it extended our provisional certification until September 30, 2013. Pending this approval, we delivered a \$264,665 letter of credit to the DOE. Furthermore, DOE may impose additional or different terms and conditions in any final program participation agreement that it may issue, including growth restrictions or limitation on the number of students who may receive Title IV aid. The DOE could also decline to finally certify Aspen, otherwise limit its participation in the Title IV programs, or continue provisional certification.

If the DOE does not ultimately approve our permanent certification to participate in Title IV programs, our students would no longer be able to receive Title IV program funds, which would have a material adverse effect on our enrollments, revenues and results of operations. In addition, regulatory restraints related to the addition of new programs could impair our ability to attract and retain students and could negatively affect our financial results.

Because the DOE may conduct compliance reviews of us, we may be subject to adverse review and future litigation which could affect our ability to offer Title IV student loans.

Because we operate in a highly regulated industry, we are subject to compliance reviews and claims of non-compliance and lawsuits by government agencies, regulatory agencies, and third parties, including claims brought by third parties on behalf of the federal government. If the results of compliance reviews or other proceedings are unfavorable to us, or if we are unable to defend successfully against lawsuits or claims, we may be required to pay monetary damages or be subject to fines, limitations, loss of Title IV funding, injunctions or other penalties, including the requirement to make refunds. Even if we adequately address issues raised by an agency review or successfully defend a lawsuit or claim, we may have to divert significant financial and management resources from our ongoing business operations to address issues raised by those reviews or to defend against those lawsuits or claims. Claims and lawsuits brought against us may damage our reputation, even if such claims and lawsuits are without merit.

If our competitors are subject to further regulatory claims and adverse publicity, it may affect our industry and reduce our future enrollment.

We are one of a number of for-profit institutions serving the postsecondary education market. In recent years, regulatory investigations and civil litigation have been commenced against several companies that own for-profit educational institutions. These investigations and lawsuits have alleged, among other things, deceptive trade practices and non-compliance with DOE regulations. These allegations have attracted adverse media coverage and have been the subject of federal and state legislative hearings. Although the media, regulatory and legislative focus has been primarily on the allegations made against specific companies, broader allegations against the overall for-profit school sector may negatively affect public perceptions of other for-profit educational institutions, including Aspen. In addition, in recent years, reports on student lending practices of various lending institutions and schools, including for-profit schools, and investigations by a number of state attorneys general, Congress and governmental agencies have led to adverse media coverage of postsecondary education. Adverse media coverage regarding other companies in the for-profit school sector or regarding us directly could damage our reputation, could result in lower enrollments, revenues and operating profit, and could have a negative impact on our stock price. Such allegations could also result in increased scrutiny and regulation by the DOE, Congress, accrediting bodies, state legislatures or other governmental authorities with respect to all for-profit institutions, including us.

Due to new regulations or congressional action or reduction in funding for Title IV programs, our future enrollment may be reduced and costs of compliance increased.

The Higher Education Act comes up for reauthorization by Congress approximately every five to six years. When Congress does not act on complete reauthorization, there are typically amendments and extensions of authorization. Additionally, Congress reviews and determines appropriations for Title IV programs on an annual basis through the budget and appropriations process. There is no assurance that Congress will not in the future enact changes that decrease Title IV program funds available to students, including students who attend our institution. Any action by Congress that significantly reduces funding for Title IV programs or the ability of our school or students to participate in these programs would require us to arrange for other sources of financial aid and would materially decrease our enrollment. Such a decrease in enrollment would have a material adverse effect on our revenues and results of operations. Congressional action may also require us to modify our practices in ways that could result in increased administrative and regulatory costs and decreased profit margin.

We are not in position to predict with certainty whether any legislation will be passed by Congress or signed into law in the future. The reallocation of funding among Title IV programs, material changes in the requirements for participation in such programs, or the substitution of materially different Title IV programs could reduce the ability of students to finance their education at our institution and adversely affect our revenues and results of operations.

If our efforts to comply with DOE regulations are inconsistent with how the DOE interprets those provisions, either due to insufficient time to implement the necessary changes, uncertainty about the meaning of the rules, or otherwise, we may be found to be in noncompliance with such provisions and the DOE could impose monetary penalties, place limitations on our operations, and/or condition or terminate our eligibility to receive Title IV program funds. We cannot predict with certainty the effect the new and impending regulatory provisions will have on our business.

Investigations by state attorneys general, Congress and governmental agencies regarding relationships between loan providers and educational institutions and their financial aid officers may result in increased regulatory burdens and costs.

In the past few years, the student lending practices of postsecondary educational institutions, financial aid officers and student loan providers were subject to several investigations being conducted by state attorneys general, Congress and governmental agencies. These investigations concern, among other things, possible deceptive practices in the marketing of private student loans and loans provided by lenders pursuant to Title IV programs. Higher Education Opportunity Act, or HEOA, contains new requirements pertinent to relationships between lenders and institutions. In particular, HEOA requires institutions to have a code of conduct, with certain specified provisions, pertinent to interactions with lenders of student loans, prohibits certain activities by lenders and guaranty agencies with respect to institutions, and establishes substantive and disclosure requirements for lists of recommended or suggested lenders of private student loans. In addition, HEOA imposes substantive and disclosure obligations on institutions that make available a list of recommended lenders for potential borrowers. State legislators have also passed or may be considering legislation related to relationships between lenders and institutions. Because of the evolving nature of these legislative efforts and various inquiries and developments, we can neither know nor predict with certainty their outcome, or the potential remedial actions that might result from these or other potential inquiries. Governmental action may impose increased administrative and regulatory costs and decreased profit margins.

Because we are subject to sanctions if we fail to calculate correctly and return timely Title IV program funds for students who stop participating before completing their educational program, our future operating results may be adversely affected.

A school participating in Title IV programs must correctly calculate the amount of unearned Title IV program funds that have been disbursed to students who withdraw from their educational programs before completion and must return those unearned funds in a timely manner, generally within 45 days after the date the school determines that the student has withdrawn. Under recently effective DOE regulations, institutions that use the last day of attendance at an academically-related activity must determine the relevant date based on accurate institutional records (not a student's certificate of attendance). For online classes, "academic attendance" means engaging in an academically-related activity, such as participating in class through an online discussion or initiating contact with a faculty member to ask a question; simply logging into an online class does not constitute "academic attendance" for purposes of the return of funds requirements. Because we only recently began to participate in Title IV programs, we have limited experience complying with these Title IV regulations. Under DOE regulations, late return of Title IV program funds for 5% or more of students sampled in connection with the institution's annual compliance audit constitutes material non-compliance. If unearned funds are not properly calculated and timely returned, we may have to repay Title IV funds, post a letter of credit in favor of the DOE or otherwise be sanctioned by the DOE, which could increase our cost of regulatory compliance and adversely affect our results of operations. This may have an impact on our systems, our future operations and cash flows.

Because our consolidated financial statements are not unqualified, Aspen may lose its eligibility to participate in Title IV programs or be required to post a letter of credit in order to maintain eligibility to participate in Title IV programs.

To participate in Title IV programs, an eligible institution must satisfy specific measures of financial responsibility prescribed by the DOE, or post a letter of credit in favor of the DOE and possibly accept other conditions, such as additional reporting requirements or regulatory oversight, on its participation in Title IV programs. Our financial statements are qualified on our ability to continue as a going concern, which means the DOE may determine that we are not financially responsible under DOE regulations. The DOE may also apply its measures of financial responsibility to the operating company and ownership entities of an eligible institution and, if such measures are not satisfied by the operating company or ownership entities, require the institution to meet the alternative standards described under "Regulation" on page 40 of this prospectus. Any of these alternative standards would increase our costs of regulatory compliance. If we were unable to meet these alternative standards, we would lose our eligibility to participate in Title IV programs. If we fail to demonstrate financial responsibility and thus lose our eligibility to participate in Title IV programs, our students would lose access to Title IV program funds for use in our institution, which would limit our potential for growth and adversely affect our enrollment, revenues and results of operations.

If we fail to demonstrate "administrative capability," we may lose eligibility to participate in Title IV programs.

DOE regulations specify extensive criteria an institution must satisfy to establish that it has the requisite "administrative capability" to participate in Title IV programs. If an institution fails to satisfy any of these criteria or comply with any other DOE regulations, the DOE may require the repayment of Title IV funds, transfer the institution from the "advance" system of payment of Title IV funds to cash monitoring status or to the "reimbursement" system of payment, place the institution on provisional certification status, or commence a proceeding to impose a fine or to limit, suspend or terminate the participation of the institution in Title IV programs. If we are found not to have satisfied the DOE's "administrative capability" requirements we could be limited in our access to, or lose, Title IV program funding, which would limit our potential for growth and adversely affect our enrollment, revenues and results of operations.

Because we rely on a third party to administer our participation in Title IV programs, its failure to comply with applicable regulations could cause us to lose our eligibility to participate in Title IV programs.

We have been eligible to participate in Title IV programs for a relatively short time, and we have not developed the internal capacity to handle without third-party assistance the complex administration of participation in Title IV programs. A third party assists us with administration of our participation in Title IV programs, and if it does not comply with applicable regulations, we may be liable for its actions and we could lose our eligibility to participate in Title IV programs. In addition, if it is no longer able to provide the services to us, we may not be able to replace it in a timely or cost-efficient manner, or at all, and we could lose our ability to comply with the requirements of Title IV programs, which would limit our potential for growth and adversely affect our enrollment, revenues and results of operation.

If we pay impermissible commissions, bonuses or other incentive payments to individuals involved in recruiting, admissions or financial aid activities, we will be subject to sanctions.

A school participating in Title IV programs may not provide any commission, bonus or other incentive payment based, directly or indirectly, on success in enrolling students or securing financial aid to any person involved in student recruiting or admission activities or in making decisions regarding the awarding of Title IV program funds. If we pay a bonus, commission, or other incentive payment in violation of applicable DOE rules, we could be subject to sanctions, which could have a material adverse effect on our business. Effective July 1, 2011, the DOE abolished 12 safe harbors that described permissible arrangements under the incentive payment regulation. Abolition of the safe harbors and other aspects of the new regulation may create uncertainty about what constitutes impermissible incentive payments. The modified incentive payment rule and related uncertainty as to how it will be interpreted also may influence our approach, or limit our alternatives, with respect to employment policies and practices and consequently may affect negatively our ability to recruit and retain employees, and as a result our business could be materially and adversely affected.

In addition, the General Accounting Office, or the GAO, has issued a report critical of the DOE's enforcement of the incentive payment rule, and the DOE has undertaken to increase its enforcement efforts. If the DOE determines that an institution violated the incentive payment rule, it may require the institution to modify its payment arrangements to the DOE's satisfaction. The DOE may also fine the institution or initiate action to limit, suspend, or terminate the institution's participation in the Title IV programs. The DOE may also seek to recover Title IV funds disbursed in connection with the prohibited incentive payments. In addition, third parties may file "qui tam" or "whistleblower" suits on behalf of the DOE alleging violation of the incentive payment provision. Such suits may prompt DOE investigations. Particularly in light of the uncertainty surrounding the new incentive payment rule, the existence of, the costs of responding to, and the outcome of, qui tam or whistleblower suits or DOE investigations could have a material adverse effect on our reputation causing our enrollments to decline and could cause us to incur costs that are material to our business, among other things. As a result, our business could be materially and adversely affected.

If our student loan default rates are too high, we may lose eligibility to participate in Title IV programs.

DOE regulations provide that an institution's participation in Title IV programs ends when historical default rates reach a certain level in a single year or for a number of years. Because of our limited experience enrolling students who are participating in these programs, we have no historical default rates. Relatively few students are expected to enter the repayment phase in the near term, which could result in defaults by a few students having a relatively large impact on our default rate. If Aspen loses its eligibility to participate in Title IV programs because of high student loan default rates, our students would no longer be eligible to use Title IV program funds in our institution, which would significantly reduce our enrollments and revenues and have a material adverse effect on our results of operations.

Increased scrutiny of accrediting agencies by the Secretary of Education and the U.S. Congress may result in increased scrutiny of institutions, we may lose our ability to participate in Title IV programs.

Increased regulatory scrutiny of accrediting agencies and their accreditation of universities is likely to continue. While Aspen is accredited by the DETC, a DOE-recognized accrediting body, if the DOE were to limit, suspend, or terminate the DETC's recognition, we could lose our ability to participate in the Title IV programs. While the DOE has provisionally certified Aspen through September 30, 2013, there are no assurances that we will remain certified following that date. If we were unable to rely on DETC accreditation in such circumstances, among other things, our students and our institution would be ineligible to participate in the Title IV programs, and such consequence would have a material adverse effect on enrollments, revenues and results of operations. In addition, increased scrutiny of accrediting agencies by the Secretary of Education in connection with the DOE's recognition process may result in increased scrutiny of institutions by accrediting agencies.

Furthermore, because the for-profit education sector is growing at such a rapid pace, it is possible that accrediting bodies will respond to that growth by adopting additional criteria, standards and policies that are intended to monitor, regulate or limit the growth of for-profit institutions like us. Actions by, or relating to, an accredited institution, including any change in the legal status, form of control, or ownership/management of the institution, any significant changes in the institution's financial position, or any significant growth or decline in enrollment and/or programs, could open up an accredited institution to additional reviews by the DETC.

If Aspen fails to meet standards regarding “gainful employment,” it may result in the loss of eligibility to participate in Title IV programs.

The DOE’s regulations on gainful employment programs became effective July 1, 2012. Should a program fail the gainful employment metrics three times within a four year period, the DOE would terminate the program’s eligibility for federal student aid (i.e., students in the program would immediately lose eligibility to participate in Title IV programs), and the institution would not be able to reestablish the program’s eligibility for at least three years, though the program could continue to operate without Title IV funding. The earliest a program could lose eligibility under the gainful employment rule will be 2015, based on its 2012, 2013, and 2014 performance under the metrics. Because the DOE’s gainful employment rules will be implemented over several years and are based at least in part on data that is unavailable to us, it is not possible at this time to determine with any degree of certainty whether these new regulations will cause any of our programs to become ineligible to participate in the Title IV programs. However, under this new regulation, the continuing eligibility of our educational programs for Title IV funding is at risk due to factors beyond our control, such as changes in the actual or deemed income level of our graduates, changes in student borrowing levels, increases in interest rates, changes in the federal poverty income level relevant for calculating discretionary income, changes in the percentage of our former students who are current in repayment of their student loans, and other factors. In addition, even though deficiencies in the metrics may be correctible on a timely basis, the disclosure requirements to students following a failure to meet the standards may adversely impact enrollment in that program and may adversely impact the reputation of our educational institutions.

Our failure to obtain DOE approval, where required, for new programs that prepare students for gainful employment in a recognized occupation could materially and adversely affect our business.

Under the DOE regulations, an institution must notify the DOE at least 90 days before the first day of class when it intends to add a program that prepares students for gainful employment in a recognized occupation. The institution may proceed to offer the program, unless the DOE advises the institution that the DOE must approve the program for Title IV purposes. In addition, if the institution does not provide timely notice to the DOE regarding the additional program, the institution must obtain approval of the program for Title IV purposes. If the DOE denies approval, the institution may not award Title IV funds in connection with the program. Were the DOE to deny approval to one or more of our new programs, our business could be materially and adversely affected. Furthermore, compliance with these new procedures could cause delay in our ability to offer new programs and put our business at a competitive disadvantage. Compliance could also adversely affect our ability to timely offer programs of interest to our students and potential students and adversely affect our ability to increase our revenues. As a result, our business could be materially and adversely affected.

Our failure to comply with the DOE’s substantial misrepresentation rules could result in sanctions.

The DOE may take action against an institution in the event of substantial misrepresentation by the institution concerning the nature of its educational programs, its financial charges or the employability of its graduates. Under new regulations, the DOE has expanded the activities that constitute a substantial misrepresentation. Under the DOE regulations, an institution engages in substantial misrepresentation when the institution itself, one of its representatives, or an organization or person with which the institution has an agreement to provide educational programs, marketing, advertising, or admissions services, makes a substantial misrepresentation directly or indirectly to a student, prospective student or any member of the public, or to an accrediting agency, a state agency, or to the Secretary of Education. The final regulations define misrepresentation as any false, erroneous or misleading statement, and they define a misleading statement as any statement that has the likelihood or tendency to deceive or confuse. The final regulations define substantial misrepresentation as any misrepresentation on which the person to whom it was made could reasonably be expected to rely, or has reasonably relied, to the person’s detriment. If the DOE determines

that an institution has engaged in substantial misrepresentation, the DOE may revoke an institution's program participation agreement, impose limitations on an institution's participation in the Title IV programs, deny participation applications made on behalf of the institution, or initiate a proceeding against the institution to fine the institution or to limit, suspend or termination the institution's participation in the Title IV programs. We expect that there could be an increase in our industry of administrative actions and litigation claiming substantial misrepresentation, which at a minimum would increase legal costs associated with defending such actions, and as a result our business could be materially and adversely affected.

Failure to comply with the DOE's credit hour requirements could result in sanctions.

The DOE has defined "credit" hour for Title IV purposes. The credit hour is used for Title IV purposes to define an eligible program and an academic year and to determine enrollment status and the amount of Title IV aid that an institution may disburse in a payment period. The final regulations define credit hour as an institutionally established equivalency that reasonably approximates certain specified time in class and out of class and an equivalent amount of work for other academic activities. The final regulations also require institutional accreditors to review an institution's policies, procedures, and administration of policies and procedures for assignment of credit hours. An accreditor must take appropriate actions to address an institution's credit hour deficiencies and to notify the DOE if it finds systemic noncompliance or significant noncompliance in one or more programs. The DOE has indicated that if it finds an institution to be out of compliance with the credit hour definition for Title IV purposes, it may require the institution to repay the amount of Title IV awarded under the incorrect assignment of credit hours and, if it finds significant overstatement of credit hours, it may fine the institution or limit, suspend, or terminate its participation in Title IV programs, as a result of which our business could be materially and adversely affected.

The U.S. Congress recently conducted an examination of the for-profit postsecondary education sector that could result in legislation or additional DOE rulemaking that may limit or condition Title IV program participation of proprietary schools in a manner that may materially and adversely affect our business.

In recent years, the U.S. Congress has increased its focus on for-profit education institutions, including with respect to their participation in the Title IV programs, and has held hearings regarding such matters. In addition, the GAO released a series of reports following undercover investigations critical of for-profit institutions. We cannot predict the extent to which, or whether, these hearings and reports will result in legislation, further rulemaking affecting our participation in Title IV programs, or more vigorous enforcement of Title IV requirements. To the extent that any laws or regulations are adopted that limit or condition Title IV program participation of proprietary schools or the amount of federal student financial aid for which proprietary school students are eligible, our business could be materially and adversely affected.

Other Risks

Because our common stock is temporarily subject to the "penny stock" rules, brokers cannot generally solicit the purchase of our common stock which adversely affects its liquidity and market price.

The SEC has adopted regulations which generally define "penny stock" to be an equity security that has a market price of less than \$5.00 per share, subject to specific exemptions. We expect that the market price of our common stock on the Over-The-Counter Bulletin Board, or the Bulletin Board, will be substantially less than \$5.00 per share and therefore we will be considered a "penny stock" according to SEC rules. This designation requires any broker-dealer selling these securities to disclose certain information concerning the transaction, obtain a written agreement from the purchaser and determine that the purchaser is reasonably suitable to purchase the securities. These rules limit the ability of broker-dealers to solicit purchases of our common stock and therefore reduce the liquidity of the public market for our shares.

Moreover, as a result of apparent regulatory pressure from the SEC and the Financial Industry Regulatory Authority, a growing number of broker-dealers decline to permit investors to purchase and sell or otherwise make it difficult to sell shares of penny stocks like Aspen. This may have a depressive effect upon our common stock price.

Our management will be able to exert control over us to the detriment of minority shareholders.

Our executive officers and directors own approximately 16% of our outstanding common stock. These shareholders, if they act together, may be able to control our management and affairs and all matters requiring shareholder approval, including significant corporate transactions. This concentration of ownership may have the effect of delaying or preventing our change in control and might affect the market price of our common stock. For more information, see the section titled “Principal Shareholders” below.

If our common stock becomes subject to a “chill” imposed by the Depository Trust Company, or DTC, your ability to sell your shares may be limited.

The DTC acts as a depository or nominee for street name shares that investors deposit with their brokers. Until the fourth quarter of 2012, our stock was not eligible to be electronically transferred among DTC participants (broker-dealers) and required delivery of paper certificates as a result of a “chill” imposed by DTC. As a result of becoming “DTC-Eligible”, our common stock is no longer subject to a chill. However, DTC in the last several years has increasingly imposed a chill or freeze on the deposit, withdrawal and transfer of common stock of issuers whose common stock trades on the Bulletin Board. Depending on the type of restriction, a chill or freeze can prevent shareholders from buying or selling shares and prevent companies from raising money. A chill or freeze may remain imposed on a security for a few days or an extended period of time (in at least one instance a number of years). While we have no reason to believe a chill or freeze will be imposed against our common stock again in the future, if it were your ability to sell your shares would be limited. In such event, your investment will be adversely affected.

Due to factors beyond our control, our stock price may be volatile.

Any of the following factors could affect the market price of our common stock:

- Our failure to generate increasing material revenues;
- Our failure to become profitable;
- Our failure to raise working capital;
- Our public disclosure of the terms of any financing which we consummate in the future;
- Actual or anticipated variations in our quarterly results of operations;
- Announcements by us or our competitors of significant contracts, new services, acquisitions, commercial relationships, joint ventures or capital commitments;
- The loss of Title IV funding or other regulatory actions;
- Our failure to meet financial analysts' performance expectations;
- Changes in earnings estimates and recommendations by financial analysts;
- Short selling activities; or
- Changes in market valuations of similar companies.

In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been instituted. A securities class action suit against us could result in substantial costs and divert our management's time and attention, which would otherwise be used to benefit our business.

We may issue preferred stock without the approval of our shareholders and have other anti-takeover defenses, which could make it more difficult for a third party to acquire us and could depress our stock price.

Our Board may issue, without a vote of our shareholders, one or more additional series of preferred stock that have more than one vote per share. This could permit our Board to issue preferred stock to investors who support us and our management and give effective control of our business to our management. Additionally, issuance of preferred stock could block an acquisition resulting in both a drop in our stock price and a decline in interest of our common stock. This could make it more difficult for shareholders to sell their common stock. This could also cause the market price of our common stock shares to drop significantly, even if our business is performing well.

An investment in Aspen Group may be diluted in the future as a result of the issuance of additional securities.

If we need to raise additional capital to meet our working capital needs, we expect to issue additional shares of common stock or securities convertible, exchangeable or exercisable into common stock from time to time, which could result in substantial dilution to investors. Investors should anticipate being substantially diluted based upon the current condition of the capital and credit markets and their impact on small companies.

Because we may not be able to attract the attention of major brokerage firms, it could have a material impact upon the price of our common stock.

It is not likely that securities analysts of major brokerage firms will provide research coverage for our common stock since the firm itself cannot recommend the purchase of our common stock under the penny stock rules referenced in an earlier risk factor. The absence of such coverage limits the likelihood that an active market will develop for our common stock. It may also make it more difficult for us to attract new investors at times when we acquire additional capital.

Since we intend to retain any earnings for development of our business for the foreseeable future, you will likely not receive any dividends for the foreseeable future.

We have not and do not intend to pay any dividends in the foreseeable future, as we intend to retain any earnings for development and expansion of our business operations. As a result, you will not receive any dividends on your investment for an indefinite period of time.

If we do not successfully defend the pending litigation brought by our former chairman and large shareholder, we may incur material damages.

In February 2013, our former Chairman and a company he controls sued us, certain senior management members and our directors in state court in New York seeking damages arising from losses and other matters incurred in the operation of Aspen's business since May 2011, our filings with the SEC and the DOE where we stated that he and his company borrowed \$2.2 million without board authority and our failure to use our best efforts to purchase certain shares of common stock from him following the April Agreement. See "Related Person Transactions." While we have been advised by our counsel that the lawsuit is baseless, we cannot assure you that we will be successful. Defending the litigation will be expensive and divert our management from Aspen's business. If we are unsuccessful, the damages we pay may be material.

FORWARD-LOOKING STATEMENTS

This prospectus includes forward-looking statements including statements regarding liquidity, anticipated marketing spending, capital expenditures and planned financings. All statements other than statements of historical facts contained in this prospectus, including statements regarding our future financial position, liquidity, business strategy and plans and objectives of management for future operations, are forward-looking statements. The words “believe,” “may,” “estimate,” “continue,” “anticipate,” “intend,” “should,” “plan,” “could,” “target,” “potential,” “is likely,” “will,” “expect,” and similar expressions, as they relate to us, are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements are subject to a number of risks, uncertainties and assumptions described in “Risk Factors” elsewhere in this prospectus. Other sections of this prospectus may include additional factors which could adversely affect our business and financial performance. New risk factors emerge from time to time and it is not possible for us to predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any risk factor, or combination of risk factors, may cause actual results to differ materially from those contained in any forward-looking statements. Except as otherwise required by applicable laws, we undertake no obligation to publicly update or revise any forward-looking statements or the risk factors described in this prospectus, whether as a result of new information, future events, changed circumstances or any other reason after the date of this prospectus.

DILUTION

Except for the shares underlying the warrants, the shares of common stock to be sold by the selling shareholders are issued and outstanding. Accordingly, there will be no dilution to our existing shareholders except to the extent warrants are exercised.

PRIVATE PLACEMENTS

From March to July 2012, we sold approximately \$1.7 million of secured convertible notes, or Notes, and approximately 1.3 million warrants to purchase our common stock from which we received approximately \$1.4 million in net proceeds. The Notes converted into Aspen Group's common stock at \$0.3325 per share, which we refer to as the “Conversion Price”. The warrants are exercisable over a five-year period and are exercisable at the Conversion Price. Additionally, 202,334 shares and 50,591 warrants were issued in connection with accumulated interest accruing as of the conversion date.

In late September 2012, we sold \$2,757,000 of units. The units contained 7,877,144 shares of common stock and 3,938,570 five-year warrants exercisable at \$0.50 per share.

From September 2012 through March 2013, we sold units at \$0.35 per unit, each unit consisting of one share of common stock and one-half of a warrant exercisable at \$0.50 per share.

In December 2012, we sold \$715,000 of units. The units contained 2,042,857 shares of common stock and 1,021,432 five-year warrants exercisable at \$0.50 per share.

In February 2013, we sold \$315,000 of units. The units contained 900,000 shares of common stock and 450,000 five-year warrants exercisable at \$0.50 per share.

In March 2013, we sold \$250,000 of units. The units contained 714,286 shares of common stock and 357,143 five-year warrants exercisable at \$0.50 per share.

This prospectus covers the offer and sale of the common stock (including the shares underlying the warrants) issued in the 2013 offerings. It does not cover the shares of common stock contained in the units sold in 2012.

We used the proceeds from the private placements to support our growth and for general corporate purposes, including working capital.

USE OF PROCEEDS

We will not receive any proceeds upon the sale of shares by the selling shareholders. We will however receive proceeds from the exercise of the warrants. We plan on using these proceeds received from shareholders who exercise their warrants to support our growth and for general corporate purposes, including working capital.

CAPITALIZATION

The following table sets forth our capitalization as of December 31, 2012. The table should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this prospectus:

	As of December 31, 2012
Cash and cash equivalents	\$644,988
Debt:	
Convertible notes	800,000
Shareholders' equity:	
Common stock	55,244
Treasury stock	(70,000)
Additional paid-in capital	12,153,615
Accumulated deficit	(11,337,104)
Total shareholders' equity	\$801,755

MARKET FOR COMMON STOCK

Our stock trades on the Bulletin Board, under the symbol "ASPU." Since March 31, 2011, Aspen Group's common stock has been quoted on the Bulletin Board. The last reported sale price of our common stock as reported by the Bulletin Board on April 5, 2013 was \$0.50. As of April 5, 2013, we had 237 record holders. The following table provides the high and low bid price information for our common stock for the periods our stock was quoted on the Bulletin Board. For the period our stock was quoted on the Bulletin Board, the prices reflect inter-dealer prices, without retail mark-up, mark-down or commission and does not necessarily represent actual transactions. Our common stock does not trade on a regular basis.

Year	Quarter Ended	Prices (1)(2)	
		High	Low
2012	December 31	\$ 2.85	\$ 0.70
	September 30	\$ 3.75	\$ 2.91
	June 30	\$ 3.75	\$ 3.75
	March 31	\$ 6.50	\$ 3.28
2011	December 31	\$ 6.50	\$ 6.50
	September 30	\$ 6.50	\$ 6.50
	June 30	\$ 6.50	\$ 6.25
	March 31	\$ 0.0208	\$ 0.0208

(1) All prices give effect to a 12-for-1 forward stock split effected in June 2011.

(2) All prices give effect to a 1-for-2.5 reverse stock split effected in February 2012.

Dividend Policy

We have not paid cash dividends on our common stock and do not plan to pay such dividends in the foreseeable future. Our Board will determine our future dividend policy on the basis of many factors, including results of

operations, capital requirements, and general business conditions.

21

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion should be read in conjunction with the other sections contained herein, including the risk factors and the consolidated financial statements and the related exhibits contained herein. The various sections of this discussion contain a number of forward-looking statements, all of which are based on our current expectations and could be affected by the uncertainties and risk factors described throughout this prospectus as well as other matters over which we have no control. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including but not limited to those set forth in this prospectus. See "Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements."

Company Overview

Founded in 1987, Aspen's mission is to become an institution of choice for adult learners by offering cost-effective, comprehensive, and relevant online education. One of the key differences between Aspen and other publicly-traded, exclusively online, for-profit universities is that 87% of our full-time degree-seeking students (as of December 31, 2012) are enrolled in a graduate degree program (master or doctorate degree program). According to publicly available information, Aspen enrolls a larger percentage of its full-time degree-seeking students in graduate degree programs than its publicly-traded competitors. As of December 31, 2012, 1,681 students were enrolled as full-time degree seeking students with 1,467 of those students or 87% in a master or doctoral graduate degree program. In addition, a further 872 students are engaged in part time programs, such as continuing education courses and certificate level programs. Therefore, Aspen's student body totaled 2,553 as of December 31, 2012.

Among online, for-profit universities, Aspen ranks among the leaders relative to the closely analyzed industry metrics such as high student graduation rates, high student course completion rates and low revenue exposure to DOE federal student financial aid Title IV programs. During 2012, Aspen had a student graduation rate of 58%, and a student course completion rate of 90% (calculated in accordance with DETC guidelines which is the average completion rate of students in our top 10 most popular courses), a federal student financial aid Title IV program participation rate of only 18% of revenues (this rate was calculated in accordance with the DOE regulations with revenues calculated on a cash basis). While most publicly-traded for-profit universities are near the 90/10 Title IV ratio limit, Aspen's ratio is only 18%.

Enrollments

Degree-seeking student enrollments increased by 37% during 2012, from 1,477 to 2,024 students. Among Aspen's degree seeking programs, the Master of Nursing program grew 273% in 2012, from 71 students to 265 students. Part-time students enrolled as of March 31, 2012 were 529 students, an increase of 7% from 496 part-time students at year-end 2011.

Results of Operations

Year Ended December 31, 2012 Compared with Year Ended December 31, 2011

Revenue

Revenue for the year ended December 31, 2012 increased to \$5,017,213 from \$4,477,931 for the year ended December 31, 2011, an increase of 12%. The increase is primarily attributable to the growth in Aspen student enrollments as revenues from full-time degree-seeking students increased to \$2,684,930 from \$2,395,440, an increase of 12%. Of particular note, revenues from Aspen's Nursing degree program, which is included in the revenue amount discussed in the preceding sentence, increased to \$409,938 from \$124,113, an increase of 230%. Meanwhile, the revenue Aspen derives from its third-party sourced corporate-sponsored employee certificate programs and part-time degree programs rose to \$2,332,283 from \$2,082,491, an increase of 12%.

Our 2012 and 2011 revenues were impacted by the 2010 (and previous years) pre-payment tuition plan, or the Legacy Tuition Plan, which was discontinued on July 15, 2011. The Legacy Tuition Plan had students paying full-rate tuition for a degree program's first four courses (\$675/course) and a steeply discounted tuition rate for the program's eight course balance (\$112.50/course). Specifically, the Plan produced immediate cash flow, but unsustainably low gross profit margins over the length of the degree program. As of December 31, 2012, 44% of our full-time degree-seeking students are still enrolled under the Legacy Tuition Plan. However, as the table below demonstrates, the contribution from Legacy Tuition Plan students to overall Aspen revenue and profits diminished steadily over the course of 2012 as the population of full-time degree-seeking students paying regular tuition rates increased by 188% and the population of Legacy Tuition Plan students fell by 36%. Accordingly, much as 2012 was affected negatively by the lingering impact of the Legacy Tuition Plan, 2013 revenue should demonstrate a dramatically diminished effect from the Legacy Tuition Plan and a much greater contribution from the growing number of regular rate students. In fact, Aspen Group expects Legacy Tuition Plan students' contribution to financial results to be immaterial for the full year 2013, and on a quarterly basis to be immaterial no later than the second quarter of 2013.

The following table represents certain metrics regarding Aspen's full-time degree seeking students. The revenue numbers are for tuition only and do not include fees.

Full-Time Degree Seeking Student Metrics (unaudited)

	1Q12	2Q12	3Q12	4Q12
Regular Rate Students	437	551	724	949
Legacy Tuition Plan Students:				
- Legacy Tuition Plan Students	1,051	951	861	732
- % Legacy Tuition Plan Class Starts	67%	56%	45%	36%
- % Legacy Tuition Plan Tuition Revenue	41%	28%	17%	10%
- % Legacy Tuition Plan Tuition Gross Profit	35%	23%	12%	6%
Average Tuition Per Course	\$ 463	\$ 512	\$ 537	\$ 653
Total Full-Time Degree Students	1,488	1,502	1,585	1,681

Separately, Aspen's largest corporate customer was Verizon, predominantly in the tri-state region (NY, NJ, CT), representing 29% of our revenues in 2012 and 45% in 2011. Because of the payments we make to our third-party business development partner in connection with the referrals of corporate customers, our gross margins from corporate customer revenues are substantially less. Deducting these payments, Verizon accounted for only 6% and 11% of our net revenues for 2012 and 2011, respectively.

In 2012, Aspen's Verizon revenues were significantly affected in the second half of the year by the impact of Hurricane Sandy as Verizon employees were wholly focused on reconstruction efforts to return damaged infrastructure to operation. Verizon's net revenue contribution in the second half of 2012 fell to 3% as revenues contracted at a 70% year/year rate versus a year/year growth rate of 9% during the first half of 2012 when the net revenue contribution was 11%. Management expects Verizon's net revenue contribution to be immaterial in 2013. This is a planned, long-term strategic shift in which Aspen has decided to phase-out third-party-sourced corporate employee certificate programs in favor of launching its own internal marketing efforts for such programs in 2013. The first certificate program planned to be launched in early-April through Aspen's internal marketing department is the Certificate in Project Management.

Costs and Expenses

Instructional Costs and Services

Instructional costs and services for the year ended December 31, 2012 rose to \$ 2,926,837 from \$ 2,200,034 for the year ended December 31, 2011, an increase of 33%. The increase is primarily attributable to higher charges associated with non-capitalizable courseware costs and payments to faculty due to the increase in class completions. As student enrollment levels increase, instructional costs and services should rise commensurately. However, as Aspen increases its full-time degree-seeking student enrollments, the higher gross margins associated with such students should lead to the growth rate in instructional costs and services to lag that of overall revenues.

Revenues less instructional costs and services, a measure of the gross profit of Aspen operations, for the year ended December 31, 2012 declined to \$2,090,376 from \$2,277,897 for the year ended December 31, 2011, a decrease of 8%. Gross profit from Aspen's full-time degree-seeking students declined to \$1,785,030 for the year ended December 31, 2011 from \$1,946,899 for the year ended December 31, 2011, a decrease of 8%. The timing impact of the Legacy Tuition Plan was experienced in the second half of 2012 as Aspen's gross profit from full-time degree-seeking students fell at a year/year rate of 14% versus a 1% decline during the first half of 2012. This is because the second half of 2011 was affected by a large number of Legacy Tuition Plan students completing their initial four courses which contributed gross profits in contrast to later periods with a lower number of initial four courses taken by Legacy Tuition Plan students. After the initial four courses, gross profit from the Legacy Tuition Plan is immaterial. Gross profit growth is expected in 2013 as new full-time degree-seeking student enrollments increase and Legacy Tuition Plan students represent a shrinking portion of the total full-time degree-seeking student population. Gross profit from Aspen's third-party corporate employee certificate programs and part-time degree programs declined to \$305,346 for the year ended December 31, 2012 from \$330,998 for the year ended December 31, 2011, a decrease of 8%. The timing impact of Hurricane Sandy was experienced in the second half of 2012 as Aspen's gross profit from third-party corporate employee certificate programs and part-time degree programs fell at a year/year rate of 44% versus a year/year growth rate of 35% during the first half of 2012. Gross profit growth in 2013 should benefit from the growing number of regular rate students, the de-emphasis of low-margin third-party-sourced corporate employee certificate programs and the ramp-up of Aspen's own certificate programs.

Marketing and Promotional

Marketing and promotional costs for the year ended December 31, 2012 increased to \$1,442,128 from \$515,362 for the year ended December 31, 2011, an increase of 180%. The increase is primarily attributable to expenses related to the launch and operation of Aspen's new marketing and student enrollment program. With Aspen's strategy of proprietary lead generation driving higher marketing and promotional spending levels, it is highly likely that these expenditures will increase in 2013 over 2012 levels. Factors serving to mitigate the expected increase include possible economies realized in cost per lead as well as the yield realized in terms of higher enrollments per unit of marketing and promotional spending. While such economies were realized in 2012, we cannot assure you that we will realize further economies of scale in 2013.

General and Administrative

General and administrative costs for the year ended December 31, 2012 increased to \$5,404,325 from \$3,593,956 for the year ended December 31, 2011, an increase of 50%. The most significant factor is the higher employment level as Aspen increased staffing to support its growth objectives. To that end, payroll costs for the period rose to \$2,716,302 from the prior year period's \$1,596,711, an increase of 70%. Separately, professional fees for the period rose to \$920,086 from \$583,416, an increase of 58%. Within professional fees, accounting fees for the period rose to \$509,711 from \$58,707, a 768% increase, while legal fees for the period declined to \$395,375 from \$523,233, a 24% decrease. Activities supported by the increased level of professional fees were reverse merger regulatory filings with the DOE and the DETC, post-reverse merger regulatory filings with the DOE, the filing of the Super 8-K and Form 10-Qs with the SEC, along with our capital raising and other transactional activities. Relative to the professional fees incurred a total of \$702,093 is non-recurring (accounting, \$340,778; legal, \$361,315). We expect professional fees to decline in 2013, particularly as Aspen Group's auditors have agreed to a flat-fee arrangement. Apart from payroll costs and professional fees, bad debt expense for the period rose to \$302,952 from \$21,200, an increase of 1,329%, as the payment performance of Aspen's third-party corporate employee certificate programs and part-time degree programs has suffered and management took steps to ensure the conservative presentation of our consolidated financial statements. Separately, general and administrative costs in 2012 reflected non-cash stock-based compensation expense of \$347,657 as Aspen Group's board of directors approved an option program on March 13, 2012. Based on grants made to date, non-cash stock-based compensation expense should be \$374,091 in 2013. We expect to recognize an additional \$606,807 of non-cash stock-based compensation through December 31, 2016. Excluding payroll, professional fees, bad debt expense and non-cash stock-based compensation expense, general and administrative costs for the year ended December 31, 2012 declined to \$1,117,328 from \$1,392,631, a decrease of 20%.

Overall general and administrative costs are expected to experience moderate growth in 2013 from 2012 as the cost associated with state regulatory compliance and DOE reporting requirements on topics such as gainful employment standards will increase in 2013. It is not feasible to quantify these future costs.

Receivable Collateral Valuation Reserve

Due to a change in the estimated value of the collateral supporting the Account Receivable, secured – related party from \$1.00/share to \$0.35/share based on the financing by Aspen Group that closed September 28, 2012, a non-cash valuation reserve expense of \$502,315 was recorded for the year ended December 31, 2012.

Depreciation and Amortization

Depreciation and amortization costs for the year ended December 31, 2012 rose to \$397,923 from \$264,082 for the year ended December 31, 2011, an increase of 51%. The increase is primarily attributable to higher levels of capitalized technology costs as Aspen continues the infrastructure build-out initiated in 2011.

Other Income (Expense)

Other income (expense) for the year ended December 31, 2012 declined to an expense of (\$354,418) from an expense of (\$40,070), a decrease of \$314,348. The decrease is primarily attributable to interest expense related to the issuance of \$2,006,000 in convertible notes payable during the period along with the amortization of debt issue costs. On the closing of the financing on September 28, 2012, the convertible notes were converted into common shares at a per share price of \$0.3325.

Income Taxes

Income taxes expense (benefit) for the year ended December 31, 2012 and the year ended December 31, 2011 were \$0 as Aspen Group experienced operating losses in both periods. As management made a full valuation allowance against the deferred tax assets stemming from these losses, there was no tax benefit recorded in the statement of operations in both periods.

Net Loss

Net loss allocable to common stockholders for the year ended December 31, 2012 widened to (\$6,048,113) from (\$2,222,899) for the year ended December 31, 2011, an increase of 172%. The increase is primarily attributable to depressed returns as Aspen transitions through the impact of the Legacy Tuition Plan, incurs the budgeted employee, infrastructure and marketing costs associated with Aspen's new programs to sustain future growth and experienced the non-recurring impact of Aspen Group's costs related to becoming a public-traded entity.

Non-GAAP – Financial Measure

The following discussion and analysis includes both financial measures in accordance with Generally Accepted Accounting Principles, or GAAP, as well as a non-GAAP financial measure. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position or cash flows that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. Non-GAAP financial measures should be viewed as supplemental to, and should not be considered as alternatives to net income, operating income, and cash flow from operating activities, liquidity or any other financial measures. They may not be indicative of the historical operating results of Aspen Group nor are they intended to be predictive of potential future results. Investors should not consider non-GAAP financial measures in isolation or as substitutes for performance measures calculated in accordance with GAAP.

Our management uses and relies on Adjusted EBITDA, a non-GAAP financial measure. We believe that both management and shareholders benefit from referring to the following non-GAAP financial measure in planning, forecasting and analyzing future periods. Our management uses this non-GAAP financial measure in evaluating its financial and operational decision making and as a means to evaluate period-to-period comparison.

Aspen Group defines Adjusted EBITDA as earnings (or loss) from continuing operations before preferred dividends, interest expense, income taxes, collateral valuation adjustment, bad debt expense, depreciation and amortization, and amortization of stock-based compensation. Aspen Group excludes the changes from collateral valuation adjustment, bad debt expense and stock based compensation because they are non cash in nature. The preferred dividends were derived from Aspen; upon the closing of the Reverse Merger in 2012, Aspen preferred stock was exchanged for Aspen Group common stock. Adjusted EBITDA is an important measure of our operating performance because it allows management, investors and analysts to evaluate and assess our core operating results from period-to-period after removing the impact of items of a non-operational nature that affect comparability. Our management recognizes that Adjusted EBITDA has inherent limitations because of the excluded items.

We have included a reconciliation of our non-GAAP financial measure to the most comparable financial measure calculated in accordance with GAAP. We believe that providing the non-GAAP financial measure, together with the reconciliation to GAAP, helps investors make comparisons between Aspen Group and other companies. In making any comparisons to other companies, investors need to be aware that companies use different non-GAAP measure to evaluate their financial performance. Investors should pay close attention to the specific definition being used and to the reconciliation between such measure and the corresponding GAAP measure provided by each company under applicable SEC rules.

The following table presents a reconciliation of Adjusted EBITDA to Net Income (loss) allocable to common stockholders, a GAAP financial measure:

	1Q12	2Q12	3Q12	4Q12	2012
	\$ (1,827,046)	\$ (1,664,733)	\$ (1,721,976)	\$ (834,358)	\$ (6,048,113)

Net income/(loss) allocable to common stockholders					
Accretion of preferred dividends	37,379	0	0	0	37,379
Interest Expense, net	2,289	127,702	229,084	1,222	360,297
Collateral Valuation Adjustment	0	309,116	193,198	0	502,315
Bad Debt Expense	32,955	51,521	113,476	105,000	302,952
Depreciation & Amortization	89,749	96,188	103,738	108,248	397,923
Stock-based compensation expense	66,104	47,020	63,547	170,986	347,657
Adjusted EBITDA (Loss)	\$ (1,598,570)	\$ (1,033,186)	\$ (1,018,933)	\$ (448,902)	\$ (4,099,590)

Over the course of 2012, Aspen Group narrowed the Adjusted EBITDA loss as a result of the 188% increase in the number of full-rate tuition students and the 36% decrease in the number of Legacy Tuition Plan students, a shift that lifted average realized per-course tuition from \$463 in the first quarter of 2012 to \$653 in the fourth quarter of 2012 - a 41% increase.

The impact of the collateral valuation adjustment will be confined to 2012 if the market price of Aspen Group shares remains at or above the current \$0.35/share valuation level. In 2013, the amount of interest expense is not expected to increase over 2012 levels. As Aspen Group phases out third-party sourced certificate programs, the level of bad debt expense is likely to be reduced.

Capital Resources and Liquidity

Net cash used in operating activities during the year ended December 31, 2012 totaled (\$4,403,361) and resulted primarily from a net loss of (\$6,010,734) offset by non-cash items of \$1,965,955 and a net change in operating assets and liabilities of (\$358,582). Net cash from operating activities include non-recurring expenses of \$702,093 which comprised of professional fees.

Net cash used in investing activities during the year ended December 31, 2012 totaled (\$619,801) and resulted primarily from capitalized technology expenditures of (\$505,146) and a net increase of restricted cash of (\$264,992), offset by officer loan repayments received of \$150,000.

Net cash provided by financing activities during the year ended December 31, 2012 totaled \$4,901,548 which resulted primarily from proceeds from the net issuance of debt and equity securities and warrants of \$5,370,021 offset by issuance costs of (\$266,473) and the repurchase of treasury shares of (\$202,000).

In May 2011, Aspen had approximately \$200,000 in cash when its new management team joined it in connection with the merger of Aspen with Education Growth Corporation, or the EGC merger. From June 2010 through the time of the EGC merger, Aspen had received \$1,390,500 from the Legacy Tuition Plan which was designed to increase immediate cash flow at the expense of future cash flow. To sustain its operations, Aspen raised \$328,000 from the sale of convertible notes and \$3,469,985 from the sale of convertible preferred stock at prices ranging from approximately \$0.95 to \$1.00 per share. Funds were used to repurchase \$740,000 of common stock pursuant to a prior obligation, to repay \$165,000 to investors who purchased Aspen common stock in prior years resulting from violation of state securities laws registration provisions, to repurchase \$21,200 of common stock to investors requesting a return of their investments, and \$2,871,785 for general corporate purposes including working capital.

We do not anticipate generating positive cash flow from operations until approximately the third quarter of 2013. As of April 4, 2013, we had \$850,670 in available cash, which does not include \$475,520 held in escrow from investors in our private placement offering which Aspen Group anticipates closing in the near future. As discussed above, we anticipate our marketing and regulatory costs will increase.

To ensure we have enough cash to support our working capital needs, we plan to raise additional working capital. As of the date of this prospectus, we have raised \$565,000 in 2013. In March 2013, we entered into an engagement agreement with Laidlaw & Company (UK) Ltd., which agreed to use its best efforts to raise up to \$770,000 of Units, consisting of shares of common stock and warrants. The Units are identical to those sold by the selling shareholders. As discussed above, we have \$175,970 sitting in escrow from investors in this offering. As of April 5, 2013, Aspen Group had borrowed \$250,000 under its line of credit. See Note 10 to our consolidated financial statements contained herein.

We expect to spend \$250,000 in capital expenditures over the next 12 months. These capital expenditures will be allocated across growth initiatives including expansion of Aspen's call center activities, academic courseware development and further improvements in Aspen's technology infrastructure. Depending on management's efforts to realize efficiencies in technology development and the amount of capital raised, our capital expenditures may be less than anticipated.

Critical Accounting Policies and Estimates

In response to financial reporting release FR-60, Cautionary Advice Regarding Disclosure About Critical Accounting Policies, from the SEC, we have selected our more subjective accounting estimation processes for purposes of explaining the methodology used in calculating the estimate, in addition to the inherent uncertainties pertaining to the estimate and the possible effects on the our financial condition. The accounting estimates are discussed below and

involve certain assumptions that, if incorrect, could have a material adverse impact on our results of operations and financial condition.

Revenue Recognition and Deferred Revenue

Revenues consist primarily of tuition and fees derived from courses taught by Aspen online as well as from related educational resources that Aspen provides to its students, such as access to our online materials and learning management system. Tuition revenue is recognized pro-rata over the applicable period of instruction. Aspen maintains an institutional tuition refund policy, which provides for all or a portion of tuition to be refunded if a student withdraws during stated refund periods. Certain states in which students reside impose separate, mandatory refund policies, which override Aspen's policy to the extent in conflict. If a student withdraws at a time when a portion or none of the tuition is refundable, then in accordance with its revenue recognition policy, Aspen recognizes as revenue the tuition that was not refunded. Since Aspen recognizes revenue pro-rata over the term of the course and because, under its institutional refund policy, the amount subject to refund is never greater than the amount of the revenue that has been deferred, under Aspen's accounting policies revenue is not recognized with respect to amounts that could potentially be refunded. Aspen's educational programs have starting and ending dates that differ from its fiscal quarters. Therefore, at the end of each fiscal quarter, a portion of revenue from these programs is not yet earned and is therefore deferred. Aspen also charges students annual fees for library, technology and other services, which are recognized over the related service period. Deferred revenue represents the amount of tuition, fees, and other student payments received in excess of the portion recognized as revenue and it is included in current liabilities in the accompanying consolidated balance sheets. Other revenues may be recognized as sales occur or services are performed.

Aspen enters into certain revenue sharing arrangements with consultants whereby the consultants will develop course content primarily for technology related courses, recommend, but not select, faculty, lease equipment on behalf of Aspen for instructional purposes for the on-site laboratory portion of distance learning courses and make introductions to corporate and government sponsoring organizations who provide students for the courses. Aspen has evaluated ASC 605-45 "Principal Agent Considerations" and determined that there are more indicators than not that Aspen is the primary obligor in the arrangements since Aspen establishes the tuition, interfaces with the student or sponsoring organization, selects the faculty, is responsible for delivering the course, is responsible for issuing any degrees or certificates, and is responsible for collecting the tuition and fees. The gross tuition and fees are included in revenues while the revenue sharing payments are included in instructional costs and services, an operating expense.

Accounts Receivable and Allowance for Doubtful Accounts Receivable

All students are required to select both a primary and secondary payment option with respect to amounts due to Aspen for tuition, fees and other expenses. The most common payment option for Aspen's students is personal funds or payment made on their behalf by an employer. In instances where a student selects financial aid as the primary payment option, he or she often selects personal cash as the secondary option. If a student who has selected financial aid as his or her primary payment option withdraws prior to the end of a course but after the date that Aspen's institutional refund period has expired, the student will have incurred the obligation to pay the full cost of the course. If the withdrawal occurs before the date at which the student has earned 100% of his or her financial aid, Aspen will have to return all or a portion of the Title IV funds to the DOE and the student will owe Aspen all amounts incurred that are in excess of the amount of financial aid that the student earned and that Aspen is entitled to retain. In this case, Aspen must collect the receivable using the student's second payment option.

For accounts receivable from students, Aspen records an allowance for doubtful accounts for estimated losses resulting from the inability, failure or refusal of its students to make required payments, which includes the recovery of financial aid funds advanced to a student for amounts in excess of the student's cost of tuition and related fees. Aspen determines the adequacy of its allowance for doubtful accounts using a general reserve method based on an analysis of its historical bad debt experience, current economic trends, and the aging of the accounts receivable and student status. Aspen applies reserves to its receivables based upon an estimate of the risk presented by the age of the receivables and student status. Aspen writes off accounts receivable balances at the time the balances are deemed uncollectible. Aspen continues to reflect accounts receivable with an offsetting allowance as long as management believes there is a reasonable possibility of collection.

For accounts receivable from primary payors other than students, Aspen estimates its allowance for doubtful accounts by evaluating specific accounts where information indicates the customers may have an inability to meet financial obligations, such as bankruptcy proceedings and receivable amounts outstanding for an extended period beyond contractual terms. In these cases, Aspen uses assumptions and judgment, based on the best available facts and circumstances, to record a specific allowance for those customers against amounts due to reduce the receivable to the amount expected to be collected. These specific allowances are re-evaluated and adjusted as additional information is received. The amounts calculated are analyzed to determine the total amount of the allowance. Aspen may also record a general allowance as necessary.

Direct write-offs are taken in the period when Aspen has exhausted its efforts to collect overdue and unpaid receivables or otherwise evaluate other circumstances that indicate that Aspen should abandon such efforts.

Related Party Transactions

At December 31, 2012, we included as a long term asset an account receivable of \$270,478 net of an allowance of \$502,315 from our former Chairman. Although it is secured by stock pledges, there is a risk that we may not collect all or any of this sum.

In March 2012, we issued a \$300,000 convertible note to Mr. Michael Mathews, our Chief Executive Officer, in consideration for a \$300,000 loan. The note was originally due March 31, 2013, but was amended to extend the due date to August 31, 2013. The note bears interest at 0.19% per annum and is convertible at \$1.00 per share. In August 2012, we issued a \$300,000 convertible note to Mr. Mathews in consideration for an additional \$300,000 loan. The note was originally a demand note, but was amended to extend the due date to August 31, 2014. The note bears interest at 5% per annum and is convertible at \$0.35 per share.

See Note 15 to our consolidated financial statements included herein for additional description of related party transactions that had a material effect on our consolidated financial statements.

New Accounting Pronouncements

See Note 2 to our consolidated financial statements included herein for discussion of recent accounting pronouncements.

BUSINESS

On March 13, 2012, Aspen Group and Aspen closed a Merger Agreement whereby Aspen became a wholly-owned subsidiary of Aspen Group. We refer to the merger as the “Reverse Merger.” All references to “we,” “our” and “us” refer to Aspen Group, unless the context otherwise indicates. In referring to academic matters, these words refer solely to Aspen University Inc.

Description of Business

Aspen’s mission is to become an institution of choice for adult learners by offering cost-effective, comprehensive, and relevant online education. We are dedicated to helping our students exceed their personal and professional objectives in a socially conscious and economically sensible way. Aspen’s mission in fact is to help students achieve their long-term goals of upward mobility and long-term economic success through providing superior education, exerting financial prudence, and supporting our students’ career advancement goals. Aspen is dedicated to providing the highest quality education experiences taught by top-tier professors - 67% of our adjunct professors hold doctorate degrees.

Because we believe higher education should be a catalyst to our students’ long-term economic success, we exert financial prudence by offering affordable tuition that is one of the greatest values in online education. We have expanded our degree offerings broadly but the vision remains the same: to provide students with the best value in high quality education and to help them achieve their academic and career goals.

One of the key differences between Aspen and other publicly-traded, exclusively online, for-profit universities is an emphasis on post-graduate degree programs (master or doctorate). As of December 31, 2012, 1,681 students were enrolled as full-time degree seeking students with 1,467 of those students or 87% in a master or doctoral graduate degree program. In addition, 872 students are engaged in part time programs, such as continuing education courses and certificate level programs (includes 343 part-time undergraduate military students). Aspen is committed to maintaining its focus on being a predominantly graduate school for the foreseeable future.

Today, Aspen offers certificate programs and associate, bachelor, master and doctoral degree programs in a broad range of areas, including business and organization management, education, nursing, information technology, and general studies. In terms of enrollments, our most popular schools are our school of business and our school of nursing. Specifically, our Master of Business Administration, or MBA, and Master of Science in Nursing represent the two largest degree programs among our full-time, degree-seeking student body as of December 31, 2012. Aspen’s School of Nursing is our fastest growing program, having grown from 5% of our full-time, degree seeking student body at year-end 2011, to 16% of our full-time, degree seeking student body at year-end 2012.

We are accredited by the DETC. Aspen first received DETC accreditation in 1993 and most recently received re-accreditation in January 2009. Aspen is scheduled for re-accreditation review in November 2013.

Aspen is provisionally certified by the DOE through September 30, 2013. Under such certification, Aspen is restricted to a limit of 1,200 student recipients for Title IV funding for the period ending June 30, 2013. As of December 31, 2012, Aspen had 442 students that were currently participating in the Title IV programs. Since inception of Aspen's provisional certification status, it has had 543 total Title IV student participants. In the future when it considers whether to extend the provisional certification or make the certification permanent, the DOE may impose additional or different terms and conditions, including growth restrictions or limitation on the number of students who may receive Title IV aid. In terms of future deadlines with the DOE, Aspen is required to re-apply by June 30, 2013 to continue its participation in the Title IV Higher Education Act, or HEA, programs. At that time, a determination will be made whether we meet the requirements for full certification.

In 2008, Aspen received accreditation of its Master of Science in Nursing Program with the Commission on Collegiate Nursing Education, or the Nursing Commission. Officially recognized by the DOE, the Nursing Commission is a nongovernmental accrediting agency, which ensures the quality and integrity of education programs in preparing effective nurses. Aspen's Master of Science in Nursing program most recently underwent accreditation review by the Nursing Commission in March 2011. At that time, the program's accreditation was reaffirmed, with the accreditation term to expire December 30, 2021. We currently offer a variety of nursing degrees including: Masters of Science in Nursing, Master of Science in Nursing - Nursing Education, Masters of Science in Nursing – Nursing Administration and Management and Bachelor of Science in Nursing.

Aspen is a Global Charter Education Provider for the Project Management Institute, or PMI, and a Registered Education Provider (R.E.P.) of the PMI. The PMI recognizes select Aspen Project Management Courses as Professional Development Units. These courses help prepare individuals to sit for the Project Management Professional, or PMP, certification examination. PMP certification is the project management profession's most recognized and respected certification credential. Project management professionals may take the PMI approved Aspen courses to fulfill continuing education requirements for maintaining their PMP certification.

In connection with our Bachelor and Master degrees in Psychology of Addiction and Counseling, the National Association of Alcoholism and Drug Abuse Counselors, or NAADAC, has approved Aspen as an "academic education provider." NAADAC-approved education providers offer training and education for those who are seeking to become certified, and those who want to maintain their certification, as alcohol and drug counselors. In connection with the approval process, NAADAC reviews all educational training programs for content applicability to state and national certification standards.

Competitive Strengths - We believe that we have the following competitive strengths:

Exclusively Online Education - We have designed our courses and programs specifically for online delivery, and we recruit and train faculty exclusively for online instruction. We provide students the flexibility to study and interact at times that suit their schedules. We design our online sessions and materials to be interactive, dynamic and user friendly.

Debt Minimization - We are committed to offering among the lowest tuition rates in the sector, which to date has alleviated the need for a significant majority of our students to borrow money to fund Aspen's tuition requirements. In July 2011, we raised our course-by-course tuition rates to \$300/credit hour for all degree-seeking programs. However, we believe based on our competitors' public information that our tuition rates remain significantly lower than our competitors. For example, University of Phoenix, Capella University and Grand Canyon University charge \$740, \$699, and \$483, respectively, per credit hour for their MBA program versus Aspen's \$350 per credit hour.

Commitment to Academic Excellence - We are committed to continuously improving our academic programs and services, as evidenced by the level of attention and resources we apply to instruction and educational support. We are committed to achieving high course completion and graduation rates compared to competitive distance learning, for-profit schools. 67% of our adjunct faculty members hold a doctorate degree. One-on-one contact with our highly experienced faculty brings knowledge and great perspective to the learning experience. Faculty members are available by telephone and email to answer questions, discuss assignments and provide help and encouragement to our students.

Highly Scalable and Profitable Business Model - We believe our exclusively online education model, our relatively low student acquisition costs, and our variable faculty cost model will enable us to expand our operating margins. If we increase student enrollments we will be able to scale on a variable basis the number of adjunct faculty members after we reach certain enrollment metrics (not before). A single adjunct faculty member can work with as little as two students or as many as 25 over the course of an enrollment period.

"One Student at a Time" personal care - We are committed to providing our students with fast and personal individualized support. Every student is assigned an academic advisor who becomes an advocate for the student's success. Our one-on-one approach assures contact with faculty members when a student needs it and monitoring to keep them on course. Our administrative staff is readily available to answer any questions and works with a student from initial interest through the application process and enrollment, and most importantly while the student is pursuing a degree or studies. Based on Aspen's 2011 DETC Annual Report of student satisfaction survey results, calculated in accordance with applicable DETC policy, 95% of students on average expressed satisfaction with their recently completed course.

Admissions

In considering candidates for acceptance into any of our certificate or degree programs, we look for those who are serious about pursuing – or advancing in – a professional career, and who want to be both prepared and academically challenged in the process. We strive to maintain the highest standards of academic excellence, while maintaining a friendly learning environment designed for educational, personal and professional success. A desire to meet those standards is a prerequisite. Because our programs are designed for self-directed learners who know how to manage their time, successful students have a basic understanding of management principles and practices, as well as good writing and research skills. Admission to Aspen is based on thorough assessment of each applicant's potential to complete successfully the program. Additionally, we require students to complete an essay as part of their admission process – as we are looking for students not only with the potential to succeed but also with the motivation to succeed.

Industry Overview

The U.S. market for postsecondary education is a large, growing market. According to a 2012 publication by the National Center for Education Statistics, or NCES, the number of postsecondary learners enrolled as of Fall 2010 in U.S. institutions that participate in Title IV programs was approximately 21 million (including both undergraduate and graduate students), up from 18.2 million in the Fall of 2007. We believe the growth in postsecondary enrollment is a result of a number of factors, including the significant and measurable personal income premium that is attributable to postsecondary education, and an increase in demand by employers for professional and skilled workers, partially offset in the near term by current economic conditions. According to the NCES, in 2010, the median earnings of young adults with a bachelor's degree was \$45,000 compared to \$37,000 for those with an associate's degree and \$21,000 for those with a high school diploma.

Eduventures, Inc., an education consulting and research firm, estimates that 20% of all postsecondary students will be in fully-online programs by 2014, with perhaps another 20% taking courses online. The estimated increase in students online increased 18% in 2010. We believe that the higher growth in demand for fully-online education is largely attributable to the flexibility and convenience of this instructional format, as well as the growing recognition of its educational efficacy.

Competition

There are more than 4,200 U.S. colleges and universities serving traditional college age students and adult students. Any reference to universities herein also includes colleges. Competition is highly fragmented and varies by geography, program offerings, delivery method, ownership, quality level, and selectivity of admissions. No one institution has a significant share of the total postsecondary market. While we compete in a sense with traditional "brick and mortar" universities, our primary competitors are with online universities. Our online university competitors that are publicly traded include: Apollo Group, Inc. (Nasdaq: APOL), American Public Education, Inc. (Nasdaq: APEI), DeVry Inc. (NYSE: DV), Grand Canyon Education, Inc. (Nasdaq: LOPE), ITT Educational Services, Inc. (NYSE: ESI), Capella Education Company (Nasdaq: CPLA), Career Education Corporation (Nasdaq: CECO) and Bridgepoint Education, Inc. (NYSE: BPI). American Public Education, Inc. and Capella Education Company are wholly online while the others are not. Based upon public information, Apollo Group, which includes University of Phoenix, is the market leader with University of Phoenix having degree enrollments exceeding 356,900 students (based upon APOL's Form 10-K filed on October 22, 2012). As of December 31, 2012, Aspen had 2,553 students enrolled. These competitors have substantially more financial and other resources.

The primary mission of most accredited four-year universities is to serve generally full-time students and conduct research. Aspen acknowledges the differences in the educational needs between working and full-time students at "brick and mortar" schools and provides programs and services that allow our students to earn their degrees without major disruption to their personal and professional lives.

We also compete with public and private degree-granting regionally and nationally accredited universities. An increasing number of universities enroll working students in addition to the traditional 18 to 24 year-old students, and we expect that these universities will continue to modify their existing programs to serve working learners more effectively, including by offering more distance learning programs. We believe that the primary factors on which we compete are the following:

- active and relevant curriculum development that considers the needs of employers;
- the ability to provide flexible and convenient access to programs and classes;
- high-quality courses and services;
- comprehensive student support services;

breadth of programs offered;
the time necessary to earn a degree;
qualified and experienced faculty;
reputation of the institution and its programs;
the variety of geographic locations of campuses;
regulatory approvals;
cost of the program;
name recognition; and
convenience.

Independent online classes start on the 1st and the 16th of every month and students may enroll in up to a maximum of three courses at a time. Online interactive courses are offered five times a year.

Sales and Marketing

Prior to Mr. Michael Mathews becoming Aspen's Chief Executive Officer in May 2011, Aspen had conducted minimal efforts and spent immaterial sums on sales and marketing. During the second half of 2011, Mr. Mathews and his team made significant changes to our sales and marketing program and spent a significant amount of time, money and resources on our marketing program.

What is unique about Aspen's marketing program is that we have no plans in the near future to utilize third-party online lead generation companies to attract prospective students. To our knowledge, most if not all for-profit online universities utilize multiple third-party online lead generation companies to obtain a meaningful percentage of their prospective student leads. Aspen's executive officers have many years of expertise in the online lead generation and Internet advertising industry, which for the foreseeable future will allow Aspen to cost-effectively drive all prospective student leads internally. This is a competitive advantage for Aspen because third-party leads are typically unbranded and non-exclusive (lead generation firms typically sell prospective student leads to multiple universities), therefore the conversion rate for those leads tends to be appreciably lower than internally generated, Aspen branded, proprietary leads.

In May 2011, Aspen expanded on its current search engine marketing initiatives related to Google. Aspen expanded the use of Aspen keyword search terms and keywords related to its MBA program and nursing program. Aspen also refined its testing of keywords, marketing messages and the establishment of program specific informational pages that have been matched to those keywords. Landing pages and keywords have been further optimized in order to facilitate streamlined communication of Aspen's programs, degrees and courses offered in order to ensure that prospective students are provided with information necessary to make an informed decision regarding Aspen and to begin a dialogue with an Aspen advisor. The search engine marketing program was expanded in July 2011, to include the Microsoft and Yahoo search engines for general university terms, MBA and nursing programs, utilizing the same paradigm of directing prospective students to an informational page about their desired interest within those programs.

In October 2011, Aspen began to advertise directly on publisher websites, reaching prospective students who would benefit from the programs we offer within nursing and business programs. When working directly with publisher websites, Aspen employs a number of sophisticated targeting techniques to most efficiently generate branded, proprietary student leads. In fact, the majority of our advertising spend and leads we generate today is through this direct publisher channel, rather than search.

Aspen's marketing plan for 2013 is consistent with the changes made in 2012 and 2011. In January 2012, Aspen hired an Executive Vice President of Marketing, who supervises a new call center in the Phoenix-metro area which opened in August 2012. This executive has prior experience in marketing with multiple online university competitors and, more recently, an online lead generation company. Since opening, the call center has expanded to meet the increasing number of inquiries.

This change in marketing coincided with our new tuition plan which we launched effective July 15, 2011. Our new plan features increased tuition rates on a per course basis; i.e. \$350/credit hour for master or doctorate program.

From 2005 through July 2011 Aspen initiated a number of pre-payment/low per course tuition plans. The last plan that ran from June 2010 through July 2011 charged students tuition of only \$3,600 for the entire 12-course Master or Doctorate program (the pre-payment option offered the student the ability to pre-pay \$2,700 for the first four courses or 12 credit hours, followed by \$112.50 per course or \$37.50/credit hour for the remaining eight courses). This program was terminated as of July 15, 2011. At December 31, 2012, 43% of our degree-seeking students were on the old pre-paid tuition program. However, those students only represented approximately 11% of Aspen's full-time degree-seeking revenues for the quarter ended December 31, 2012, and 6% of Aspen's gross profit from full-time

degree seeking students for the quarter ended December 31, 2012. The quarter ended December 31, 2012 represented the first quarter in which the old-prepay students were not a majority of our degree seeking students. We expect that by the end of 2013, the number of old-prepay students will cease to be material.

Anticipating significant growth from our new marketing efforts, we spent approximately \$1,000,000 upgrading our information technology in 2011 and approximately \$400,000 in 2012.

Employees

As of April 5, 2013, we had 38 full-time employees, and 91 adjunct professors. None of our employees are parties to any collective bargaining arrangement. We believe our relationships with our employees are good.

Corporate History

Aspen Group was incorporated on February 23, 2010 in Florida as a home improvement company intending to develop products and sell them on a wholesale basis to home improvement retailers. Aspen Group was unable to execute its business plan. In June 2011, Aspen Group changed its name to Elite Nutritional Brands, Inc. and terminated all operations. In February 2012, Aspen Group reincorporated in Delaware under the name Aspen Group, Inc.

Aspen was incorporated on September 30, 2004 in Delaware. Its predecessor was a Delaware limited liability company organized in Delaware in 1999. In May 2011, Aspen merged with EGC. Aspen survived the EGC Merger. EGC was a start-up company controlled by Mr. Michael Mathews. Mr. Mathews became Aspen's Chief Executive Officer upon closing the EGC Merger. On March 13, 2012, Aspen Group acquired Aspen in the Reverse Merger.

Regulation

Students attending Aspen finance their education through a combination of individual resources, corporate reimbursement programs and federal financial aid programs. The discussion which follows outlines the extensive regulations that affect our business. Complying with these regulations entails significant effort from our executives and other employees. Our President has two unique roles: overseeing our accreditation and regulatory compliance and seeking to improve our academic performance. Accreditation and regulatory compliance is also expensive. Beyond the internal costs, we began using education regulatory counsel in the summer of 2011, as our current Chief Executive Officer focused his attention on compliance. Aspen participates in the federal student financial aid programs authorized under Title IV. For the year ended December 31, 2012, approximately 18% of our cash-basis revenues for eligible tuition and fees were derived from Title IV programs. In connection with a student's receipt of Title IV aid, we are subject to extensive regulation by the DOE, state education agencies and the DETC. In particular, the Title IV programs, and the regulations issued thereunder by the DOE, subject us to significant regulatory scrutiny in the form of numerous standards that we must satisfy. To participate in Title IV programs, a school must, among other things, be:

authorized to offer its programs of instruction by the applicable state education agencies in the states in which it is physically located (in our case, Colorado);

accredited by an accrediting agency recognized by the Secretary of the DOE; and

certified as an eligible institution by the DOE.

The DOE enacted regulations relating to the Title IV programs which became effective July 1, 2011. Under these new regulations, an institution, like ours, that offers postsecondary education through distance education to students in a state in which the institution is not physically located or in which it is otherwise subject to state jurisdiction as determined by that state, must meet any state requirements to offer legally postsecondary education to students in that state. The institution must be able to document state approval for distance education if requested by the DOE.

This new regulation has been recognized as a significant departure from the state authorization procedures followed by most, if not all, institutions before its enactment. Although these new rules became effective July 1, 2011, the DOE indicated in an April 20, 2011 guidance letter that it would not initiate any action to establish repayment liabilities or limit student eligibility for distance education activities undertaken before July 1, 2014, provided the institution was making a good faith effort to identify and obtain necessary state authorization before that date. However, on July 12, 2011, a federal judge for the U.S. District Court for the District of Columbia vacated the portion of the DOE's state authorization regulation that requires online education providers to obtain any required authorization from all states in which their students reside, finding that the DOE had failed to provide sufficient notice and opportunity to comment on the requirement. An appellate court affirmed that ruling on June 5, 2012 and therefore this new regulation is currently invalid. However, further guidance is expected.

Should the requirements be enforced at a later date, and if we fail to obtain required state authorization to provide postsecondary distance education in a specific state, we could lose our ability to award Title IV aid to students within that state. In addition, a state may impose penalties on an institution for failure to comply with state requirements related to an institution's activities in a state, including the delivery of distance education to persons in that state.

Therefore, we are taking steps to ensure compliance in time for the earlier-effective July 1, 2014 enforcement date as recommended for all schools facing this new (but currently invalid) regulation. We enroll students in all 50 states, as well as the District of Columbia and Puerto Rico. We have sought and received confirmation that our operations do not require state licensure or authorization, or we have been notified that we are exempt from licensure or authorization requirements, in three states. We, through our legal counsel, are researching the licensure requirements and exemption possibilities in the remaining 47 states. It is anticipated that Aspen will be in compliance with all state licensure requirements by June of 2014, in time for the earlier-effective compliance date set by the DOE. Because we enroll students in all 50 states, as well as the District of Columbia and Puerto Rico, we may have to seek licensure or authorization in additional states in the future.

We are subject to extensive regulations by the states in which we become authorized or licensed to operate. State laws typically establish standards for instruction, qualifications of faculty, administrative procedures, marketing, recruiting, financial operations and other operational matters. State laws and regulations may limit our ability to offer educational programs and to award degrees. Some states may also prescribe financial regulations that are different from those of the DOE. If we fail to comply with state licensing requirements, we may lose our state licensure or authorizations. Failure to comply with state requirements could result in Aspen losing its authorization from the Colorado Commission on Higher Education, a department of the Colorado Department of Higher Education, or CDHE, its eligibility to participate in Title IV programs, or its ability to offer certain programs, any of which may force us to cease operations.

Additionally, Aspen is a Delaware corporation. Delaware law requires an institution to obtain approval from the Delaware Department of Education, or Delaware DOE, before it may incorporate with the power to confer degrees. In July 2012, Aspen received notice from the Delaware DOE that it is granted provisional approval status effective until June 30, 2015.

Accreditation

Aspen is accredited by the DETC, an accrediting agency recognized by the DOE. Accreditation is a non-governmental system for recognizing educational institutions and their programs for student performance, governance, integrity, educational quality, faculty, physical resources, administrative capability and resources, and financial stability. In the U.S., this recognition comes primarily through private voluntary associations that accredit institutions and programs. To be recognized by the DOE, accrediting agencies must adopt specific standards for their review of educational institutions. Accrediting agencies establish criteria for accreditation, conduct peer-review evaluations of institutions

and programs for accreditation, and publicly designate those institutions or programs that meet their criteria. Accredited institutions are subject to periodic review by accrediting agencies to determine whether such institutions maintain the performance, integrity and quality required for accreditation.

Accreditation by the DETC is important. Accreditation is a reliable indicator of an institution's quality and is an expression of peer institution confidence. Universities depend, in part, on accreditation in evaluating transfers of credit and applications to graduate schools. Accreditation also provides external recognition and status. Employers rely on the accredited status of institutions when evaluating an employment candidate's credentials. Corporate and government sponsors under tuition reimbursement programs look to accreditation for assurance that an institution maintains quality educational standards. Moreover, institutional accreditation awarded from an accrediting agency recognized by the DOE is necessary for eligibility to participate in Title IV programs. From time to time, DETC adopts or makes changes to its policies, procedures and standards. If we fail to comply with any of DETC's requirements, our accreditation status and, therefore, our eligibility to participate in Title IV programs could be at risk. The National Advisory Committee on Institutional Quality and Integrity (the panel charged with advising DOE on whether to recognize accrediting agencies for federal purposes, including Title IV program purposes) was scheduled to review DETC for recognition purposes in the Spring of 2012, at which point the committee voted to recommend that DETC recognition be continued pending its efforts to reach compliance with certain requirements. Aspen is next scheduled for accreditation review by DETC in November 2013.

Nature of Federal, State and Private Financial Support for Postsecondary Education

An institution that applies to participate in Title IV programs for the first time, if approved, will be provisionally certified for no more than one complete award year. Furthermore, an institution that undergoes a change in ownership resulting in a change of control must apply to the DOE in order to reestablish its eligibility to participate in Title IV programs. If the DOE determines to approve the application, it issues a provisional certification, which extends for a period expiring not later than the end of the third complete award year following the date of the provisional certification. Aspen is provisionally certified through September 30, 2013. A provisionally certified institution must apply for and receive DOE approval of substantial changes and must comply with any additional conditions included in its program participation agreement. If the DOE determines that a provisionally certified institution is unable to meet its responsibilities under its program participation agreement, the DOE may seek to revoke the institution's certification to participate in Title IV programs with fewer due process protections for the institution than if it were fully certified.

The federal government provides a substantial part of its support for postsecondary education through the Title IV programs, in the form of grants and loans to students. Students can use those funds at any institution that has been certified by the DOE to participate in the Title IV programs. Aid under Title IV programs is primarily awarded on the basis of financial need, generally defined as the difference between the cost of attending the institution and the amount a student can reasonably contribute to that cost. All recipients of Title IV program funds must maintain satisfactory academic progress and must progress in a timely manner toward completion of their program of study. In addition, each school must ensure that Title IV program funds are properly accounted for and disbursed in the correct amounts to eligible students.

Our students receive loans and grants to fund their education under the following Title IV programs: (1) the Federal Direct Loan program, or Direct Loan and (2) the Federal Pell Grant program, or Pell.

Currently, the majority of Aspen students self-finance all or a portion of their education. Additionally, students may receive full or partial tuition reimbursement from their employers. Eligible students can also access private loans through a number of different lenders for funding at current market interest rates.

Under the Direct Loan program, the DOE makes loans directly to students. The Direct Loan Program includes the Direct Subsidized Loan, the Direct Unsubsidized Loan, the Direct PLUS Loan (including loans to graduate and professional students), and the Direct Consolidation Loan. The Budget Control Act of 2011 signed into law in August 2011, eliminated Direct Subsidized Loans for graduate and professional students, as of July 1, 2012. The terms and conditions of subsidized loans originated prior to July 1, 2012 are unaffected by the law. In 2012, Direct Subsidized Loans were 6% of Aspen's cash revenues as calculated in accordance with the DOE's 90/10 rule. Cash revenues are not revenues reported on our consolidated financial statements contained herein.

For Pell grants, the DOE makes grants to undergraduate students who demonstrate financial need. To date, few Aspen students have received Pell Grants. Accordingly, the Pell Grant program currently is not material to Aspen given the fact that Pell Grant's represented less than 1% of Aspen's cash revenues as calculated in accordance with the DOE's 90/10 rule.

Regulation of Federal Student Financial Aid Programs

The substantial amount of federal funds disbursed through Title IV programs, the large number of students and institutions participating in these programs, and allegations of fraud and abuse by certain for-profit institutions have prompted the DOE to exercise considerable regulatory oversight over for-profit institutions of higher learning. Accrediting agencies and state education agencies also have responsibilities for overseeing compliance of institutions in connection with Title IV program requirements. As a result, our institution is subject to extensive oversight and review. Because the DOE periodically revises its regulations and changes its interpretations of existing laws and regulations, we cannot predict with certainty how the Title IV program requirements will be applied in all circumstances. See the "Risk Factors" contained herein which disclose comprehensive regulatory risks.

In addition to the state authorization requirements and other regulatory requirements described herein, other significant factors relating to Title IV programs that could adversely affect us include the following legislative action and regulatory changes:

Congress reauthorizes the Higher Education Act approximately every five to eight years. Congress most recently reauthorized the Higher Education Act in August 2008. We cannot predict with certainty whether or when Congress might act to amend further the Higher Education Act. The elimination of additional Title IV programs, material changes in the requirements for participation in such programs, or the substitution of materially different programs could increase our costs of compliance and could reduce the ability of certain students to finance their education at our

institution.

On December 23, 2011, President Obama signed into law the Consolidated Appropriations Act of 2012, or the Act. The law includes a number of provisions that significantly affect the Title IV programs. For example, it reduces the income threshold at which students are assigned “an automatic zero expected family contribution” for purposes of awarding financial aid for the 2012-2013 award year. Under the Act, students who do not have a high school diploma or a recognized equivalent (e.g., GED) or do not meet an applicable home school requirement and who first enroll in a program of study on or after July 1, 2012 will not be eligible to receive Title IV aid. The Act also makes certain changes to the Pell Grant Program and temporarily eliminates the interest subsidy that is provided for Direct Subsidized Loans during the six-month grace period immediately following termination of enrollment.

37

Over the last several years, Congressional committees have held hearings related to for-profit postsecondary education institutions. Additionally, the chairmen of the House and Senate education committees, along with other members of Congress, asked the GAO, to review various aspects of the for-profit education sector, including recruitment practices, educational quality, student outcomes, the sufficiency of integrity safeguards against waste, fraud and abuse in Title IV programs, and the degree to which for-profit schools' revenue is comprised of Title IV and other federal funding sources. In 2010, the GAO released a report based on a three-month undercover investigation of recruiting practices at for-profit schools. The report concluded that employees at a non-random sample of 15 for-profit schools (which did not include Aspen) made deceptive statements to students about accreditation, graduation rates, job placement, program costs, or financial aid. On October 31, 2011, the GAO released a second report following an additional undercover investigation related to enrollment, cost, financial aid, course structure, substandard student performance, withdrawal, and exit counseling. The report concluded that while some of the 15 unidentified for-profit schools investigated appeared to follow existing policies, others did not. Although the report identified a number of deficiencies in specific instances, it made no recommendations. On December 7, 2011, the GAO released a report that attempted to compare the quality of education provided by for-profit, nonprofit, and public institutions based upon multiple outcome measures including graduation rates, pass rates on licensing exams, employment outcomes, and student loan default rates. The report found that students at for-profit institutions had higher graduation rates for certificate programs, similar graduation rates for associate's degree programs, and lower graduation rates for bachelor's degree programs than students at nonprofit and public institutions. It also found that a higher proportion of bachelor's degree recipients from for-profit institutions took out loans than did degree recipients from other institutions and that some evidence exists that students at for-profit institutions default on their student loans at higher rates. On nine of the ten licensing exams reviewed, graduates of for-profit institutions had lower pass rates than students from nonprofit and public institutions.

As described above, certain DOE regulations have been challenged and the lawsuit is currently before a federal appeals court. The same plaintiff in that lawsuit also filed a lawsuit in the U.S. District Court for the District of Columbia challenging the DOE's final regulations on gainful employment, which are discussed below. The lawsuit is currently pending.

The DOE currently is in the process of developing proposed regulations to amend regulations pertinent to the Title IV loan programs and teacher education. We are unable to predict the timing or the proposed or final form of any regulations that the DOE ultimately may adopt and the impact of such regulations on our business.

Administrative Capability. DOE regulations specify extensive criteria by which an institution must establish that it has the requisite "administrative capability" to participate in Title IV programs. Failure to satisfy any of the standards may lead the DOE to find the institution ineligible to participate in Title IV programs or to place the institution on provisional certification as a condition of its participation. To meet the administrative capability standards, an institution must, among other things:

- comply with all applicable Title IV program regulations;
- have capable and sufficient personnel to administer the federal student financial aid programs;
- have acceptable methods of defining and measuring the satisfactory academic progress of its students;
- have cohort default rates above specified levels;
- have various procedures in place for safeguarding federal funds;

not be, and not have any principal or affiliate who is, debarred or suspended from federal contracting or engaging in activity that is cause for debarment or suspension;

provide financial aid counseling to its students;

refer to the DOE's Office of Inspector General any credible information indicating that any applicant, student, employee, or agent of the institution, has been engaged in any fraud or other illegal conduct involving Title IV programs;

report annually to the Secretary of Education on any reasonable reimbursements paid or provided by a private education lender or group of lenders to any employee who is employed in the institution's financial aid office or who otherwise has responsibilities with respect to education loans;

develop and apply an adequate system to identify and resolve conflicting information with respect to a student's application for Title IV aid;

submit in a timely manner all reports and financial statements required by the regulations; and

not otherwise appear to lack administrative capability.

Among other things, DOE regulations require that an institution must evaluate satisfactory academic progress (1) at the end of each payment period if the length of the educational program is one academic year or less or (2) for all other educational programs, at the end of each payment period or at least annually to correspond to the end of a payment period. Second, the DOE regulations add an administrative capability standard related to the existing requirement that students must have a high school diploma or its recognized equivalent in order to be eligible for Title IV aid. Under the administrative capability standard, institutions must develop and follow procedures for evaluating the validity of a student's high school diploma if the institution or the Secretary of Education has reason to believe that the student's diploma is not valid.

If an institution fails to satisfy any of these criteria or any other DOE regulation, the DOE may:

require the repayment of Title IV funds;

transfer the institution from the "advance" system of payment of Title IV funds to cash monitoring status or to the "reimbursement" system of payment;

place the institution on provisional certification status; or

commence a proceeding to impose a fine or to limit, suspend or terminate the participation of the institution in Title IV programs.

If we are found not to have satisfied the DOE's "administrative capability" requirements, we could lose, or be limited in our access to, Title IV program funding.

Distance Education. We offer all of our existing degree and certificate programs via Internet-based telecommunications from our headquarters in Colorado. Under the Higher Education Opportunity Act, or HEOA, an accreditor that evaluates institutions offering distance education must require such institutions to have processes through which the institution establishes that a student who registers for a distance education program is the same

student who participates in and receives credit for the program. Under DOE regulations, if an institution offers postsecondary education through distance education to students in a state in which the institution is not physically located or in which it is otherwise subject to state jurisdiction as determined by the state, the institution must meet any state requirements for it to offer legally postsecondary distance education in that state. The institution must be able to document state approval for distance education if requested by the DOE. In addition, states must have a process to review and take appropriate action on complaints concerning postsecondary institutions. As previously discussed in this prospectus, these regulations have been vacated by a federal court.

Financial Responsibility. The Higher Education Act and DOE regulations establish extensive standards of financial responsibility that institutions such as Aspen must satisfy to participate in Title IV programs. These standards generally require that an institution provide the resources necessary to comply with Title IV program requirements and meet all of its financial obligations, including required refunds and any repayments to the DOE for liabilities incurred in programs administered by the DOE.

The DOE evaluates institutions on an annual basis for compliance with specified financial responsibility standards that include a complex formula that uses line items from the institution's audited financial statements. In addition, the financial responsibility standards require an institution to receive an unqualified opinion from its accountants on its audited financial statements, maintain sufficient cash reserves to satisfy refund requirements, meet all of its financial obligations, and remain current on its debt payments. The formula focuses on three financial ratios: (1) equity ratio (which measures the institution's capital resources, financial viability, and ability to borrow); (2) primary reserve ratio (which measures the institution's viability and liquidity); and (3) net income ratio (which measures the institution's profitability or ability to operate within its means). An institution's financial ratios must yield a composite score of at least 1.5 for the institution to be deemed financially responsible without the need for further federal oversight. The DOE may also apply such measures of financial responsibility to the operating company and ownership entities of an eligible institution. We have applied the composite score analysis to Aspen's financial statements as of and for the year ended December 31, 2011, and calculated a composite score of 1.75 out of a maximum score of 3.0. We therefore believe that we meet the DOE's composite score standards. However, our audited financial statements for the year ended December 31, 2011 and 2012 contain a going concern opinion.

Under DOE regulations, even if an institution meets all of the other financial responsibility requirements, it is not considered to be financially responsible if the relevant financial statement audits contain a going concern opinion. If the DOE were to determine that we do not meet its financial responsibility standards, we may be able to establish financial responsibility on an alternative basis. Alternative bases include, for example:

posting a letter of credit in an amount equal to at least 50% of the total Title IV program funds received by us during our most recently completed fiscal year;

posting a letter of credit in an amount equal to at least 10% of such prior year's Title IV program funds received by us, accepting provisional certification, complying with additional DOE monitoring requirements and agreeing to receive Title IV program funds under an arrangement other than the DOE's standard advance payment arrangement such as the "reimbursement" system of payment or cash monitoring; or

complying with additional DOE monitoring requirements and agreeing to receive Title IV program funds under an arrangement other than the DOE's standard advance payment arrangement such as the "reimbursement" system of payment or cash monitoring.

Failure to meet the DOE's "financial responsibility" requirements, either because we do not meet the DOE's financial responsibility standards or are unable to establish financial responsibility on an alternative basis, would cause us to lose access to Title IV program funding.

Consistent with the Higher Education Act, Aspen's certification to participate in Title IV programs terminated after closing of the Reverse Merger. The DOE received Aspen's application and extended the provisional certification through September 30, 2013. In the future, the DOE may impose additional or different terms and conditions in any final or provisional program participation agreement that it may issue. In terms of future deadlines with the DOE, Aspen is required to re-apply by June 30, 2013 to continue its participation in the Title IV HEA programs. At that time, a determination will be made whether we meet the requirements for full certification.

Third-Party Servicers. DOE regulations permit an institution to enter into a written contract with a third-party servicer for the administration of any aspect of the institution's participation in Title IV programs. The third-party servicer must, among other obligations, comply with Title IV requirements and be jointly and severally liable with the institution to the Secretary of Education for any violation by the servicer of any Title IV provision. An institution must report to the DOE new contracts with or any significant modifications to contracts with third-party servicers as well as other matters related to third-party servicers. We contract with a third-party servicer which performs certain activities related to our participation in Title IV programs. If our third-party servicer does not comply with applicable statutes and regulations including the Higher Education Act, we may be liable for its actions, and we could lose our eligibility to participate in Title IV programs.

Title IV Return of Funds. Under the DOE's return of funds regulations, when a student withdraws, an institution must return unearned funds to the DOE in a timely manner. An institution must first determine the amount of Title IV program funds that a student "earned." If the student withdraws during the first 60% of any period of enrollment or payment period, the amount of Title IV program funds that the student earned is equal to a pro rata portion of the funds for which the student would otherwise be eligible. If the student withdraws after the 60% threshold, then the student has earned 100% of the Title IV program funds. The institution must return to the appropriate Title IV programs, in a specified order, the lesser of (i) the unearned Title IV program funds and (ii) the institutional charges incurred by the student for the period multiplied by the percentage of unearned Title IV program funds. An institution must return the funds no later than 45 days after the date of the institution's determination that a student withdrew. If such payments are not timely made, an institution may be subject to adverse action, including being required to submit a letter of credit equal to 25% of the refunds the institution should have made in its most recently completed year. Under DOE regulations, late returns of Title IV program funds for 5% or more of students sampled in the institution's annual compliance audit constitutes material non-compliance. Aspen's academic calendar structure is a non-standard term with rolling start dates with defined length of term (16 week term).

The "90/10 Rule." A requirement of the Higher Education Act commonly referred to as the "90/10 Rule," applies only to "proprietary institutions of higher education," which includes Aspen. An institution is subject to loss of eligibility to participate in the Title IV programs if it derives more than 90% of its revenues (calculated on a cash basis and in accordance with a DOE formula) from Title IV programs for two consecutive fiscal years. An institution whose rate exceeds 90% for any single fiscal year will be placed on provisional certification for at least two fiscal years and may be subject to other conditions specified by the Secretary of the DOE. For the year ended December 31, 2012, we derived approximately 18% of our revenues (calculated on a cash basis and in accordance with a DOE formula) from Title IV program funds.

Student Loan Defaults. Under the Higher Education Act, an education institution may lose its eligibility to participate in some or all of the Title IV programs if defaults on the repayment of Direct Loan Program loans by its students exceed certain levels. For each federal fiscal year, a rate of student defaults (known as a "cohort default rate") is calculated for each institution with 30 or more borrowers entering repayment in a given federal fiscal year by determining the rate at which borrowers who become subject to their repayment obligation in that federal fiscal year default by the end of the following federal fiscal year. For such institutions, the DOE calculates a single cohort default rate for each federal fiscal year that includes in the cohort all current or former student borrowers at the institution who entered repayment on any Direct Loan Program loans during that year.

If the DOE notifies an institution that its cohort default rates for each of the three most recent federal fiscal years are 25% or greater, the institution's participation in the Direct Loan Program and the Federal Pell Grant Program ends 30 days after the notification, unless the institution appeals in a timely manner that determination on specified grounds and according to specified procedures. In addition, an institution's participation in Title IV ends 30 days after notification that its most recent fiscal year cohort default rate is greater than 40%, unless the institution timely appeals that determination on specified grounds and according to specified procedures. An institution whose participation ends

under these provisions may not participate in the relevant programs for the remainder of the fiscal year in which the institution receives the notification, as well as for the next two fiscal years.

If an institution's cohort default rate equals or exceeds 25% in any single year, the institution may be placed on provisional certification status. Provisional certification does not limit an institution's access to Title IV program funds; however, an institution with provisional status is subject to closer review by the DOE and may be subject to summary adverse action if it violates Title IV program requirements. If an institution's default rate exceeds 40%, the institution may lose eligibility to participate in some or all Title IV programs. Since Aspen has only recently begun to participate in Title IV programs and our certification limits the number of Aspen students who may receive Title IV aid, we do not yet have reporting data on our cohort default rates for the three most recent federal fiscal years for which cohort default rates have been officially calculated, namely 2007, 2008 and 2009. The primary reason is that we have not yet had students who have begun to repay their Title IV loans.

HEOA extended by one year the period for measuring the cohort default rate, effective with cohort default rates for federal fiscal year 2009. Currently, institutions that have two-year cohort default rates of 25% or more for each of their three most recent years, or of 40% in any one year, will lose eligibility for Title IV student aid programs; beginning in 2014, institutions that have three-year cohort default rates of 30% or higher for three consecutive years, or of more than 40% in any given year, will lose eligibility for those programs.

Incentive Compensation Rules. As a part of an institution's program participation agreement with the DOE and in accordance with the Higher Education Act, an institution may not provide any commission, bonus or other incentive payment to any person or entity engaged in any student recruitment, admissions or financial aid awarding activity based directly or indirectly on success in securing enrollments or financial aid. Failure to comply with the incentive payment rule could result in termination of participation in Title IV programs, limitation on participation in Title IV programs, or financial penalties. Aspen believes it is in compliance with the incentive payment rule.

In recent years, other postsecondary educational institutions have been named as defendants to whistleblower lawsuits, known as "qui tam" cases, brought by current or former employees pursuant to the Federal False Claims Act, alleging that their institution's compensation practices did not comply with the incentive compensation rule. A qui tam case is a civil lawsuit brought by one or more individuals, referred to as a relator, on behalf of the federal government for an alleged submission to the government of a false claim for payment. The relator, often a current or former employee, is entitled to a share of the government's recovery in the case, including the possibility of treble damages. A qui tam action is always filed under seal and remains under seal until the government decides whether to intervene in the case. If the government intervenes, it takes over primary control of the litigation. If the government declines to intervene in the case, the relator may nonetheless elect to continue to pursue the litigation at his or her own expense on behalf of the government. Any such litigation could be costly and could divert management's time and attention away from the business, regardless of whether a claim has merit.

The GAO released a report finding that the DOE has inadequately enforced the current ban on incentive payments. In response, the DOE has undertaken to increase its enforcement efforts by, among other approaches, strengthening procedures provided to auditors reviewing institutions for compliance with the incentive payments ban and updating its internal compliance guidance in light of the GAO findings and the recently amended DOE incentive payment rule.

Code of Conduct Related to Student Loans. As part of an institution's program participation agreement with the DOE, HEOA requires that institutions that participate in Title IV programs adopt a code of conduct pertinent to student loans. For financial aid office or other employees who have responsibility related to education loans, the code must forbid, with limited exceptions, gifts, consulting arrangements with lenders, and advisory board compensation other than reasonable expense reimbursement. The code also must ban revenue-sharing arrangements, "opportunity pools" that lenders offer in exchange for certain promises, and staffing assistance from lenders. The institution must post the code prominently on its website and ensure that its officers, employees, and agents who have financial aid responsibilities are informed annually of the code's provisions. Aspen has adopted a code of conduct under the HEOA which is posted on its website. In addition to the code of conduct requirements that apply to institutions, HEOA contains provisions that apply to private lenders, prohibiting such lenders from engaging in certain activities as they interact with institutions. Failure to comply with the code of conduct provision could result in termination of our participation in Title IV programs, limitations on participation in Title IV programs, or financial penalties.

Misrepresentation. The Higher Education Act and current regulations authorize the DOE to take action against an institution that participates in Title IV programs for any "substantial misrepresentation" made by that institution regarding the nature of its educational program, its financial charges, or the employability of its graduates. Effective July 1, 2011, DOE regulations expanded the definition of "substantial misrepresentation" to cover additional representatives of the institution and additional substantive areas and expands the parties to whom a substantial misrepresentation cannot be made. The regulations also augment the actions the DOE may take if it determines that an institution has engaged in substantial misrepresentation. Under the final regulations, the DOE may revoke an institution's program participation agreement, impose limitations on an institution's participation in Title IV programs, or initiate proceedings to impose a fine or to limit, suspend, or terminate the institution's participation in Title IV programs.

Credit Hours. The Higher Education Act and current regulations use the term “credit hour” to define an eligible program and an academic year and to determine enrollment status and the amount of Title IV aid an institution may disburse during a payment period. Recently, both Congress and the DOE have increased their focus on institutions’ policies for awarding credit hours. Recent DOE regulations define the previously undefined term “credit hour” in terms of a certain amount of time in class and outside class, or an equivalent amount of work. The regulations also require accrediting agencies to review the reliability and accuracy of an institution’s credit hour assignments. If an accreditor identifies systematic or significant noncompliance in one or more of an institution’s programs, the accreditor must notify the Secretary of Education. If the DOE determines that an institution is out of compliance with the credit hour definition, the DOE could require the institution to repay the incorrectly awarded amounts of Title IV aid. In addition, if the DOE determines that an institution has significantly overstated the amount of credit hours assigned to a program, the DOE may fine the institution, or limit, suspend, or terminate its participation in the Title IV programs.

Compliance Reviews. We are subject to announced and unannounced compliance reviews and audits by various external agencies, including the DOE, its Office of Inspector General, state licensing agencies, and accrediting agencies. As part of the DOE's ongoing monitoring of institutions' administration of Title IV programs, the Higher Education Act and DOE regulations require institutions to submit annually a compliance audit conducted by an independent certified public accountant in accordance with Government Auditing Standards and applicable audit standards of the DOE. These auditing standards differ from those followed in the audit of our financial statements contained in this prospectus. In addition, to enable the DOE to make a determination of financial responsibility, institutions must annually submit audited financial statements prepared in accordance with DOE regulations. Furthermore, the DOE regularly conducts program reviews of education institutions that are participating in the Title IV programs, and the Office of Inspector General of the DOE regularly conducts audits and investigations of such institutions. In August 2010, the Secretary of Education announced in a letter to several members of Congress that, in part in response to recent allegations against proprietary institutions of deceptive trade practices and noncompliance with DOE regulations, the DOE planned to strengthen its oversight of Title IV programs through, among other approaches, increasing the number of program reviews by 50%, from 200 conducted in 2010 to up to 300 reviews in 2011. The DOE has apparently not yet reported on the number of reviews conducted in 2012. Pending legislation including the "Students First Act" introduced in the United States Senate on February 28, 2013, would – if passed – increased the number of program reviews for various institutions deemed at-risk of violating DOE requirements.

Potential Effect of Regulatory Violations. If we fail to comply with the regulatory standards governing Title IV programs, the DOE could impose one or more sanctions, including transferring Aspen to the reimbursement or cash monitoring system of payment, seeking to require repayment of certain Title IV program funds, requiring Aspen to post a letter of credit in favor of the DOE as a condition for continued Title IV certification, taking emergency action against us, referring the matter for criminal prosecution or initiating proceedings to impose a fine or to limit, condition, suspend or terminate our participation in Title IV programs.

We also may be subject, from time to time, to complaints and lawsuits relating to regulatory compliance brought not only by our regulatory agencies, but also by other government agencies and third parties, such as present or former students or employees and other members of the public.

Restrictions on Adding Educational Programs. State requirements and accrediting agency standards may, in certain instances, limit our ability to establish additional programs. Many states require approval before institutions can add new programs under specified conditions. The Colorado Commission on Higher Education, and other state educational regulatory agencies that license or authorize us and our programs, may require institutions to notify them in advance of implementing new programs, and upon notification may undertake a review of the institution's licensure or authorization.

In addition, we were advised by the DOE that because we were provisionally certified due to being a new Title IV program participant, we could not add new degree or non-degree programs for Title IV program purposes, except under limited circumstances and only if the DOE approved such new program, until the DOE reviewed a compliance audit that covered one complete fiscal year of Title IV program participation. That fiscal year ended on December 31, 2010, and we timely submitted our compliance audit and financial statements to the DOE. In addition, in June 2011, Aspen timely applied for recertification to participate in Title IV programs. The DOE extended Aspen's provisional certification until September 30, 2013. Aspen is required to re-apply by June 30, 2013 to continue its participation in the Title IV HEA programs. At that time, a determination will be made whether we meet the requirements for full certification.

Recent DOE regulations establish a new process under which an institution must apply for approval to offer a program that, under the Higher Education Act, must prepare students for "gainful employment in a recognized occupation" in

order to be eligible for Title IV funds. An institution must notify the DOE at least 90 days before the first day of classes when it intends to add a program that prepares students for gainful employment. The DOE may, as a condition of certification to participate in Title IV programs, require prior approval of programs or otherwise restrict the number of programs an institution may add.

DETC requires pre-approval of new courses, programs, and degrees that are characterized as a “substantive change.” An institution must obtain written notice approving such change before it may be included in the institution’s grant of accreditation. An institution is further prohibited from advertising or posting on its website information about the course or program before it has received approval. The process for obtaining approval generally requires submission of a report and course materials and may require a follow-up on-site visit by an examining committee.

Gainful Employment. Under the Higher Education Act, proprietary schools are eligible to participate in Title IV programs only in respect of education programs that lead to gainful employment in a recognized occupation. Under the DOE rules, with respect to each gainful employment program, a proprietary institution of higher education must disclose to prospective students with the identities of the occupations that the program prepares students to enter, total program cost, on-time completion rate, job placement rate (if applicable), and median loan debt of students who complete the program. Under the new program requirements, institutions are required to notify the DOE at least 90 days before the commencement of new gainful employment programs which must include information on the demand for the program, a wage analysis, an institutional program review and approval process, and a demonstration of accreditation. While the DOE had issued various additional reporting regulations, requiring institutions to annually submit information to the DOE regarding each enrolled student, including the amount of debt incurred, those reporting regulations were vacated in the June 2011 court decision discussed earlier herein, which was affirmed on appeal; new reporting regulations are expected to issue at some point. Institutions need not disclose or report gainful employment information on programs that are not eligible to participate in Title IV programs.

Expected gainful employment reporting requirements will likely substantially increase our administrative burdens, particularly during the implementation phase. These reporting and the other procedural changes in the new rules could affect student enrollment, persistence and retention in ways that we cannot now predict. For example, if our reported program information compares unfavorably with other reporting education institutions, it could adversely affect demand for our programs.

Although the rules regarding gainful employment metrics provide opportunities to address program deficiencies before the loss of Title IV eligibility, the continuing eligibility of our educational programs for Title IV funding is at risk under pending gainful employment rules due to factors beyond our control, such as changes in the actual or deemed income level of our graduates, changes in student borrowing levels, increases in interest rates, changes in the federal poverty income level relevant for calculating discretionary income, changes in the percentage of our former students who are current in repayment of their student loans, and other factors. In addition, even though deficiencies in the metrics may be correctible on a timely basis, the disclosure requirements to students following a failure to meet the standards may adversely impact enrollment in that program and may adversely impact the reputation of our education institution. The exposure to these external factors may reduce our ability to offer or continue confidently certain types of programs for which there is market demand, thus affecting our ability to maintain or grow our business.

Eligibility and Certification Procedures. Each institution must periodically apply to the DOE for continued certification to participate in Title IV programs. Such recertification is required every six years, but may be required earlier, including when an institution undergoes a change of control. An institution may come under the DOE's review when it expands its activities in certain ways, such as opening an additional location, adding a new program, or, in certain cases, when it modifies academic credentials that it offers.

The DOE may place an institution on provisional certification status if it finds that the institution does not fully satisfy all of the eligibility and certification standards and in certain other circumstances, such as when it undergoes a change in ownership and control. The DOE may more closely review an institution that is provisionally certified if it applies for approval to open a new location, add an educational program, acquire another school or make any other significant change.

In addition, during the period of provisional certification, the institution must comply with any additional conditions included in its program participation agreement. If the DOE determines that a provisionally certified institution is unable to meet its responsibilities under its program participation agreement, it may seek to revoke the institution's certification to participate in Title IV programs with fewer due process protections for the institution than if it were fully certified. Students attending provisionally certified institutions, like Aspen, remain eligible to receive Title IV program funds.

Change in Ownership Resulting in a Change of Control. In addition to school acquisitions, other types of transactions can also cause a change of control. The DOE, most state education agencies, and DETC all have standards pertaining to the change of control of schools, but those standards are not uniform. DOE regulations describe some transactions that constitute a change of control, including the transfer of a controlling interest in the voting stock of an institution or the institution's parent corporation. DOE regulations provide that a change of control of a publicly-traded corporation occurs in one of two ways: (i) if there is an event that would obligate the corporation to file a Current Report on Form 8-K with the Securities and Exchange Commission, or the SEC, disclosing a change of control or (ii) if the corporation has a shareholder that owns at least 25% of the total outstanding voting stock of the corporation and is the largest shareholder of the corporation, and that shareholder ceases to own at least 25% of such stock or ceases to be the largest shareholder. A significant purchase or disposition of our voting stock could be determined by the DOE to be a change of control under this standard. Many states include the sale of a controlling interest of common stock in the definition of a change of control requiring approval. A change of control under the definition of one of these agencies would require us to seek approval of the change in ownership and control to maintain our accreditation, state authorization or licensure. The requirements to obtain such approval from the states and DETC vary widely. In some cases, approval of the change of ownership and control cannot be obtained until after the transaction has occurred. In December 2011, we provided details regarding the Reverse Merger to the CDHE. The CDHE indicated that under current regulations, as long as we maintain accreditation by DETC following the Reverse Merger, Aspen will remain in good standing with the CDHE. As described below, DETC approved the change of ownership, with several customary conditions.

DETC recently revised its policy pertinent to changes in legal status, control, ownership, or management. The policy revisions add definitions of the situations under which DETC considers a change in legal status, control, ownership, or management to occur, describe the procedures that an institution must follow to obtain approval, and clarify the options available to DETC. Among other revisions, DETC defines a change of ownership and control as a change in the ability to direct or cause the direction of the actions of an institution, including, for example, the sale of a controlling interest in an institution's corporate parent. Failure to obtain prior approval of a change of ownership and control will result in withdrawal of accreditation under the new ownership. The policy also requires institutions to undergo a post-change examination within six months of a change of ownership. The revisions clarify that after such examination, DETC will make a final decision whether to continue the institution's accreditation. In addition, if an institution is acquired by an entity that owns or operates other distance education institutions, the amendments clarify that any such institutions must obtain DETC approval within two years of the change of ownership or accreditation may be withdrawn. The policy revisions define a change of management as the replacement of the senior level executive of the institution, for example the President or Chief Executive Officer. In addition, the revisions clarify that before undertaking such a change, an institution must seek DETC's prior approval by explaining when the change will occur, the rationale for the change, the executive's job description, the new executive's qualifications, and how the change will affect the institution's ability to comply with all DETC accreditation standards. DETC may take any action it deems appropriate in response to a change of management request. The Reverse Merger was considered a change of control event under DETC's policy. In February 2012, DETC informed Aspen that it had approved the change of ownership, with several conditions that are consistent with DETC's change of ownership procedures and requirements. These conditions included: (1) that Aspen agree to undergo an examination visit by a committee; (2) that an updated Self-Evaluation Report be submitted four to six weeks prior to the on-site visit; (3) that Aspen submit a new Teach-Out Resolution form as soon as the Reverse Merger had closed; and (4) that Aspen provide written confirmation to DETC by February 20, 2012 that it agreed to and would comply with the stated conditions. We provided the requested information to DETC. The examination visit occurred in August 2012. Aspen is scheduled for re-accreditation review in November 2013. On September 28, 2012, the DOE approved Aspen's change of control and extended its provisional certification until September 30, 2013.

When a change of ownership resulting in a change of control occurs at a for-profit institution, the DOE applies a different set of financial tests to determine the financial responsibility of the institution in conjunction with its review and approval of the change of ownership. The institution generally is required to submit a same-day audited balance sheet reflecting the financial condition of the institution immediately following the change in ownership. The institution's same-day balance sheet must demonstrate an acid test ratio of at least 1:1, which is calculated by adding cash and cash equivalents to current accounts receivable and dividing the sum by total current liabilities (and excluding all unsecured or uncollateralized related party receivables). The same-day balance sheet must demonstrate positive tangible net worth. If the institution does not satisfy these requirements, the DOE may condition its approval of the change of ownership on the institution's agreeing to post a letter of credit, provisional certification, and/or additional monitoring requirements, as described in the above section on Financial Responsibility. The time required for the DOE to act on a post-change in ownership and control application may vary substantially. As a result of the change of ownership, Aspen delivered a \$264,665 letter of credit to the DOE in accordance with the standards identified above.

A change of control also could occur as a result of future transactions in which Aspen is involved. Some corporate reorganizations and some changes in the Board are examples of such transactions. Moreover, the potential adverse effects of a change of control could influence future decisions by us and our shareholders regarding the sale, purchase, transfer, issuance or redemption of our stock. In addition, the regulatory burdens and risks associated with a change of control also could discourage bids for your shares of common stock and could have an adverse effect on the market price of your shares.

Possible Acquisitions. In addition to the planned expansion through Aspen's new marketing program, we may expand through acquisition of related or synergistic businesses. Our internal growth is subject to monitoring and ultimately

approval by the DETC. If the DETC finds that the growth may adversely affect our academic quality, the DETC can request us to slow the growth and potentially withdraw accreditation and require us to re-apply for accreditation. The DOE may also impose growth restrictions on an institution, including in connection with a change in ownership and control. While acquisitions of online universities would be subject to approval by the DETC, approval of businesses which supply services to online universities or which provide educational services and/or products may not be subject to regulatory approval or extensive regulation.

Property

Our corporate headquarters are located in a facility in Denver, Colorado, consisting of approximately 3,900 square feet of office space under a lease that expires in September 2015. This facility accommodates our academic operations. Our executive offices are in New York City where we lease 2,000 square feet under a month-to-month sublease. We operate a call center in Scottsdale, Arizona where we lease 2,629 square feet under a three-year term. We believe that our existing facilities are suitable and adequate and that we have sufficient capacity to meet our current anticipated needs.

Legal Proceedings

On February 11, 2013, the former chairman of Aspen, Mr. Patrick Spada and a corporation he controls, filed suit against Aspen Group, Aspen, our Board of Directors, our Chief Executive and Financial Officers and an unrelated party in the New York Supreme Court located in Manhattan.

The gravamen of Mr. Spada's claims are that the officers and directors breached their fiduciary duty and defamed Mr. Spada by (a) including false and defamatory statements to the effect that Mr. Spada owes approximately \$2 million to Aspen Group in various of Aspen Group's SEC and DOE filings, (b) imprudently managed Aspen Group's assets by spending too much money on certain marketing and promotional efforts and by using Aspen Group's funds for expenses which were not intended to benefit Aspen Group. Mr. Spada also claims that Aspen Group breached two separate agreements with Mr. Spada and his company, one of which involved Aspen Group agreeing to purchase certain shares of Aspen Group stock under certain conditions, and one consulting agreement. As discussed below, Aspen Group believes that none of these claims have any merit in either fact or law.

Aspen Group and the other defendants firmly believe that the suit is baseless and was filed primarily because Aspen Group refused to purchase additional shares of the Plaintiffs' common stock of Aspen Group on unacceptable terms.

The Plaintiffs' allegations that false or defamatory statements were including in Aspen Group's filings are based on the following disclosures in multiple SEC and DOE filings: "...Aspen discovered in November 2011 that HEMG had borrowed \$2,195,084 from it from 2005 to 2012 without Board of Directors authority. Aspen has been unable to reach any agreement with Mr. Spada concerning repayment and is considering its options." In the same filings, Aspen Group disclosed that "There is no agreement with the former chairman that this sum is due and in fact he has denied liability and even claimed that Aspen owes him money." Aside from these disclosures being factually accurate, Aspen Group believes they cannot, as a matter of law, form the basis of a breach of fiduciary duty or defamation claim.

The Plaintiffs' allegations concerning imprudent management of its funds are categorically false. Aspen Group has also been advised that claims of this type can only be brought in what is called a shareholders' derivative action where, assuming liability, the ultimate beneficiary is Aspen Group and not the Plaintiffs. Counsel has further advised the management of Aspen Group's affairs and how its funds are expended are protected from a disgruntled stockholder's opinion of how funds should have been spent by the business judgment rule and the provision in Aspen Group's charter eliminating liability for such claims. The remaining breach of fiduciary duty claim falsely alleges that travel expenses and work was performed by Aspen Group on behalf of another corporation for which Aspen Group's Chief Executive Officer then served as Chairman of the Board. Such claims are categorically false, but even if true, like the remaining breach of fiduciary claims, the ultimate beneficiary is Aspen Group and not the Plaintiffs.

The breach of contract claims consist of two distinct claims: first, Aspen entered into a two-year Consulting Agreement in September 2011 with Mr. Spada. Aspen Group terminated the Consulting Agreement after it learned of the former Chairman's \$2.2 million unauthorized borrowing without board approval alleging that the Consulting Agreement was induced by fraud.

The second claim arises from the April Agreement (described on page 64 below). Under the April Agreement, an individual defendant who has never been an officer or director of Aspen Group agreed to purchase from Spada's corporation 400,000 shares of Aspen Group's common stock at \$0.50 per share. The complaint acknowledges that this purchase occurred. Under the April Agreement, Aspen Group also agreed (i) that it would purchase an additional 600,000 shares from Mr. Spada's company at \$0.50 per share within 90 days from the date of the April Agreement, and (ii) that Aspen Group would use its best efforts to locate a purchaser to buy another 1,400,000 shares at \$0.50 per share from Mr. Spada's company, and once that purchaser was located, to buy the shares and resell them to the new investor. Aspen Group in fact did purchase the additional 600,000 shares and Mr. Spada's company was paid the proceeds. Aspen Group did use its best efforts to locate a new investor for the final 1,400,000 shares, however given the fact that Aspen Group during that same timeframe was selling its own common stock at \$0.35 per share, it was not able to find any buyers who would pay \$0.50 per share. Also, Aspen Group's obligation to locate a new purchaser expired under the terms of the April Agreement after 180 days, which have long passed. Under the terms of the April Agreement, the Plaintiffs agreed not to file suit against Aspen Group, Aspen and their officers and directors, unless sued by Aspen Group or Aspen. Aspen Group and Aspen have never sued the Plaintiffs. Accordingly, Aspen Group believes that both breach of contract claims are entirely baseless.

MANAGEMENT

The following executive officers and directors were appointed to their current positions with Aspen Group listed in the table in connection with the Reverse Merger. Except for Sanford Rich, who was appointed a director effective with the closing of the Reverse Merger, each person listed in the table had identical positions with Aspen.

Name	Age	Position
Michael Mathews	51	Chief Executive Officer and Chairman of the Board
Gerald Williams	59	President
David Garrity	52	Chief Financial Officer
Angela Siegel	33	Executive Vice President of Marketing
Michael D'Anton	55	Director
C. James Jensen	72	Director
David Pasi	52	Director
Sanford Rich	55	Director
John Scheibelhoffer	51	Director
Paul Schneier	62	Director

Michael Mathews has served as Aspen's Chief Executive Officer and a director since May 2011. He served as Chief Executive Officer of interclick, inc. (Nasdaq: ICLK) from August 28, 2007 until January 31, 2011. From June 2007 until it was acquired by Yahoo, Inc. (NASDAQ: YHOO) in December 2011, Mr. Mathews also served as a director of interclick. From May 15, 2008 until June 30, 2008, Mr. Mathews served as the interim Chief Financial Officer of interclick. From 2004 to 2007, Mr. Mathews served as the senior vice-president of marketing and publisher services for World Avenue U.S.A., LLC, an Internet promotional marketing company. From March 2011 until October 2012, Mr. Mathews served as the Chairman and a consultant (and from December 1, 2011 through March 19, 2012 as Executive Chairman) for Wizard World, Inc. (Other OTC: WIZD). Mr. Mathews was selected to serve as a director due to his track record of success in managing early stage and growing businesses, his extensive knowledge of the Internet marketing industry and his knowledge of running and serving on the boards of public companies.

Gerald Williams has served as Aspen's President since March 2011. Dr. Williams functions as Aspen's chief academic officer and has responsibility for all educational matters. Since January 15, 2012, Dr. Williams has also served as the Dean of our School of Technology. Prior to January 1, 2012, Dr. Williams was a consultant beginning in March 2011 under a Consulting Agreement. From 2005 until 2010, Mr. Williams was an adjunct professor at the University of Missouri – Kansas City.

David Garrity has served as Aspen's Chief Financial Officer since June 2011. He served as Chief Financial Officer of interclick from June 30, 2008 until August 14, 2009 and as a member of interclick's board of directors from June 9, 2008 until June 5, 2009. Through GVA Research LLC, a company he controls, Mr. Garrity provides consulting services to organizations such as the World Bank Group and offers expert commentary on technology sector developments to CNBC, Bloomberg TV and other media networks. Mr. Garrity holds Series 7, 24, 63, 79, 86 & 87 securities licenses and is affiliated with Whitmarsh Capital Advisors, LLC, a Financial Industry Regulatory Authority, Inc., or FINRA, member firm. From 2006 to 2008, Mr. Garrity served as Managing Director and Director of Research for Dinosaur Securities, LLC. In 2006, Mr. Garrity was fined \$10,000 and suspended for 45 days from associating with a FINRA member firm for certain inadvertent violations of FINRA's rules unrelated to fraud or any customer complaints. Mr. Garrity consented to the sanctions without admitting or denying FINRA's findings. Since 1993 Mr. Garrity has been a Chartered Financial Analyst (CFA) charter holder.

Angela Siegel has served as Aspen's Executive Vice President of Marketing since January 1, 2012. Ms. Siegel has responsibility for the online lead generation and the Office of Enrollment. From July 2010 until December 2011, Ms. Siegel was the Director of Compliance and Enrollment Analytics at Ward Media, Inc., or Ward, a lead generation marketing agency. From January 2010 until July 2010, Ms. Siegel was the Chief Marketing Officer at the Jack Welch Management Institute at Chancellor University. From October 2008 until January 2010, Ms. Siegel was the Director of Enrollment Marketing at Ward. From July 2004 until October 2008, Ms. Siegel was the Online Marketing Manager at Grand Canyon Education, Inc. (NASDAQ: LOPE), a regionally accredited provider of post-secondary education including online as well as traditional ground programs.

Michael D'Anton has served as a director of Aspen for approximately six years. Since 1988, Dr. D'Anton has been an ENT physician and surgeon at ENT Allergy Associates. Dr. D'Anton was selected as a director for his experience in growing and running a successful surgery center and his knowledge of Aspen from serving as a director prior to the Reverse Merger.

C. James Jensen has served as a director of Aspen since May 2011. Since 1983, Mr. Jensen has been the managing partner of Mara Gateway Associates, L.P., a privately owned real estate investment company he co-founded. Since 2006, Mr. Jensen has been the co-managing partner of Stronghurst, LLC, which provides advisory and financial services to emerging growth companies. Since April 2011, Mr. Jensen has served as a director of Sugarmade, Inc. (OTC BB: SGMD). From April 2006 until March 2008, Mr. Jensen served as a director of Health Benefits Direct Corp. (OTC BB: HBDT). Mr. Jensen was selected a director as a designee of Mr. Mathews in connection with the EGC Merger due to his previous service on a public company board and his experience with entrepreneurial companies.

David Pasi has served as a director of Aspen since May 2011. Since December 2010, Mr. Pasi has been a registered investment advisor under Delta Financial Group. From August 2008 until August 2010, Mr. Pasi was a risk manager at Credit Suisse. From January 2004 until June 2008, Mr. Pasi was the risk manager at Citigroup, Inc. Mr. Pasi was selected as a designee of Mr. Spada in connection with the EGC Merger. Because of his finance background, Mr. Pasi was selected as a director.

Sanford Rich has served as a director since March 13, 2012. In November 2012, Mr. Rich began serving as the Chief of Negotiations and Restructuring for the Pension Benefit Guaranty Corporation. From October 2011 to September 2012, Mr. Rich served as Chief Executive Officer of In The Car LLC. Mr. Rich served as a director of interclick from August 28, 2007 until June 5, 2009. Since January 2008, Mr. Rich has served as Managing Director of Whitmarsh Capital Advisors, a broker-dealer. From May 2008 to February 2009, Mr. Rich was a Managing Director with Matrix USA LLC, a broker-dealer. From 1995 until January 2008, Mr. Rich was the Senior Vice President of Investments, a Portfolio Manager and a Specialist Manager of High Yield and Convertible Securities Portfolios for institutions at GEM Capital Management, Inc. Since April 2006, Mr. Rich has served as a director and Audit Committee Chairman for InsPro Technologies (OTC BB: ITCC). Mr. Rich was selected as a director for his 32 years of experience in the financial sector and because he is independent and has experience serving on the audit committees of public companies.

John Scheibelhoffer has served as a director of Aspen for approximately six years. Since 1996, Dr. Scheibelhoffer has been a physician and surgeon employed by ENT Allergy Associates. Dr. Scheibelhoffer was selected to serve as a director for his experience in running a successful surgery center and his knowledge of Aspen from serving as a director member prior to the EGC Merger.

Paul Schneier has served as a director of Aspen for approximately five years. Since April 2007, Mr. Schneier has been a Division President at PulteGroup, Inc. (NYSE: PHM), a homebuilding company. Prior to that, Mr. Schneier was a Division President at Beazer Homes USA, Inc. (NYSE: BZEH), a homebuilding company. Mr. Schneier was selected to serve as a director because of his management background.

Brad Powers served as our Chief Marketing Officer until March 1, 2013.

Except for Dr. D'Anton and Mr. Pasi, who are brother-in-laws, there are no family relationships among our directors and/or executive officers.

Board Committees and Charters

The Board and its committees meet throughout the year and act by written consent from time to time as appropriate. The Board delegates various responsibilities and authority to its Board committees. Committees regularly report on their activities and actions to the Board. The Board currently has, and appoints the members of the Audit Committee and the Compensation Committee. The following table identifies the independent and non-independent current Board and committee members:

Name	Independent	Audit	Compensation
Michael Mathews			
Michael D'Anton	ü		
C. James Jensen	ü	ü	Chairman
David Pasi	ü	ü	
Sanford Rich	ü	Chairman	
John Scheibelhoffer	ü		ü
Paul Schneier	ü		ü

Director Independence

We currently have seven directors serving on our Board. We are not a listed issuer and, as such, are not subject to any director independence standards. Using the definition of independence set forth in the rules of the NYSE MKT, all of our directors except Mr. Mathews are independent.

Board Committees and Charters

The members of the Audit Committee are Sanford Rich, Chairman, David Pasi and C. James Jensen. Our Board has determined that each of the members are independent in accordance with the independence standards for audit committees under the NYSE MKT listing rules. The Board has also determined that Mr. Rich is an “Audit Committee Financial Expert.” The Audit Committee has a written charter approved by the Board.

The members of the Compensation Committee are Mr. Jensen, Chairman, Paul Schneier and John Scheibelhoffer, MD.

Our Board is expected to appoint a Nominating Committee, and to adopt charters relative to the Compensation Committee and the Nominating Committee, in the future. We intend to appoint such persons to the Nominating Committee of the Board as are expected to be required to meet the corporate governance requirements imposed by a national securities exchange, although we are not required to comply with such requirements until we elect to seek listing on a national securities exchange, and we are under no obligation to do so.

Code of Ethics

Our Board has adopted a Code of Ethics that applies to all of our employees, including our Chief Executive Officer and Chief Financial Officer. Although not required, the Code of Ethics also applies to our directors. The Code of Ethics provides written standards that we believe are reasonably designed to deter wrongdoing and promote honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships, full, fair, accurate, timely and understandable disclosure and compliance with laws, rules and regulations, including insider trading, corporate opportunities and whistle-blowing or the prompt reporting of illegal or unethical behavior. We will provide a copy, without charge, to anyone that requests one in writing to Aspen Group, Inc. 224 West 30th Street, Suite 604, New York, New York 10001, Attention: Corporate Secretary.

Shareholder Communications

Although we do not have a formal policy regarding communications with the Board, shareholders may communicate with the Board by writing to us at Aspen Group, Inc., 224 West 30th Street, Suite 604, New York, New York 10001, Attention: Corporate Secretary. Shareholders who would like their submission directed to a member of the Board may so specify, and the communication will be forwarded, as appropriate.

Board Structure

We have chosen to combine the Chief Executive Officer and Board Chairman positions. We believe that this Board leadership structure is the most appropriate for Aspen. Because we are a small company, it is more efficient to have the leadership of the Board in the same hands as the Chief Executive Officer. The challenges faced by us at this stage – obtaining financing and implementing our business and marketing plan – are most efficiently dealt with by one person who is familiar with both the operational aspects as well as the strategic aspects of our business.

Board Assessment of Risk

Our risk management function is overseen by our Board. Our management keeps its Board apprised of material risks and provides its directors access to all information necessary for them to understand and evaluate how these risks interrelate, how they affect us, and how management addresses those risks. Mr. Michael Mathews, as our Chief Executive Officer and Chairman of the Board, works closely together with the Board once material risks are identified on how to best address such risks. If the identified risk poses an actual or potential conflict with management, our

independent directors may conduct the assessment. Presently, the primary risks affecting us are our ability to grow our business with our current cash balance and manage our expected growth consistent with regulatory oversight.

Risk Assessment Regarding Compensation Policies and Practices as they Relate to Risk Management

Our compensation program for employees does not create incentives for excessive risk taking by our employees or involve risks that are reasonably likely to have a material adverse effect on us. Our compensation has the following risk-limiting characteristics:

Our base pay programs consist of competitive salary rates that represent a reasonable portion of total compensation and provide a reliable level of income on a regular basis, which decreases incentive on the part of our executives to take unnecessary or imprudent risks;

A portion of executive incentive compensation opportunity is tied to long-term incentive compensation that emphasizes sustained performance over time. This reduces any incentive to take risks that might increase short-term compensation at the expense of longer term company results.

Awards are not tied to formulas that could focus executives on specific short-term outcomes;

Equity awards may be recovered by us should a restatement of earnings occur upon which incentive compensation awards were based, or in the event of other wrongdoing by the recipient; and

Equity awards, generally, have multi-year vesting which aligns the long-term interests of our executives with those of our shareholders and, again, discourages the taking of short-term risk at the expense of long-term performance.

EXECUTIVE COMPENSTION

The following information is related to the compensation paid, distributed or accrued by us to our Chief Executive Officer (principal executive officer) and the two other most highly compensated executive officers serving at the end of the last fiscal year whose total compensation exceeded \$100,000. We refer to these persons as the “Named Executive Officers.”

2012 Summary Compensation Table

Name and Principal Position (a)	Year (b)	Salary (\$)(c)	Option Awards \$(f) (1)	Total \$(j)
Michael Mathews (2) Chief Executive Officer	2012	265,702	1,286,880	1,552,582
	2011	125,000	0	125,000
David Garrity (3) Chief Financial Officer	2012	264,269	70,000	334,269
Brad Powers (4) Former Chief Marketing Officer	2012	264,520	70,000	334,520

(1) These amounts do not reflect the actual economic value realized by the Named Executive Officers. In accordance with SEC rules, this column represents the grant date fair value of awards, in accordance with applicable accounting guidance related to stock-based compensation. Pursuant to SEC rules, the amounts shown disregard the impact of estimated forfeitures related to service-based vesting conditions.

(2) Salary for 2011 includes \$62,500 of deferred base salary which as of December 31, 2012 remained unpaid. Includes 455,577 options accepted in lieu of \$159,452 of cash salary.

(3) Salary includes 302,674 options accepted in lieu of \$105,936 of cash salary.

(4) Salary includes 422,439 options accepted in lieu of \$147,854 of cash salary.

Executive Employment Agreements

Each of the Employment Agreements described below was entered into by Aspen prior to the Reverse Merger. Aspen Group assumed each agreement effective with the closing of the Reverse Merger, and all option grants and common stock issued as performance bonuses will be of Aspen Group. Each person’s title with Aspen is identical with Aspen Group. See the discussion below concerning amendments to all Employment Agreements except Ms. Siegel.

Michael Mathews. Effective on July 5, 2011, Aspen entered into a four-year Employment Agreement with Michael Mathews to serve as its Chief Executive Officer. The Employment Agreement provides that Mr. Mathews will receive a base salary of \$250,000 per year, which will be increased by at least 10% annually. In addition to a base salary, Mr. Mathews is eligible to receive an annual performance bonus based upon the achievement of pre-established performance milestones of which at least half would be paid in cash and the remaining in common stock. If performance milestones are met, Mr. Mathews’ bonus will be 100% of his base salary for the year the milestone was met. If Mr. Mathews and a majority of the Board are unable to mutually agree on performance milestones, Mr. Mathews will receive a guaranteed bonus for that fiscal year of no less than 15% of his base salary. In 2012, no

performance milestones were set and Mr. Mathews waived his right to a guaranteed annual performance bonus. Additionally, in March 2012, Mr. Mathews was granted 300,000 five-year options to purchase shares of Aspen Group common stock exercisable at \$1.00 per share vesting over a three-year period. In December 2012, the options were re-priced to \$0.35 per share.

David Garrity. Effective on June 9, 2011, Aspen entered into a four-year Employment Agreement with David Garrity to serve as its Chief Financial Officer. In accordance with the Employment Agreement, from June 9, 2011 through July 4, 2011, Mr. Garrity was paid a fee in lieu of salary at a rate of \$10,000 per month pursuant to a separate Consulting Agreement with Mr. Garrity. From July 4 until September 30, 2011, Aspen paid Mr. Garrity \$10,000 per month (a rate of \$125,000 per annum). Under his Employment Agreement, from October 1, 2011, Mr. Garrity was to be paid at the rate of \$250,000 per year, which will be increased by at least 10% annually. In addition to a base salary, Mr. Garrity is eligible to receive an annual performance bonus based upon the achievement of pre-established performance milestones of which at least half would be paid in cash and the remaining in Aspen common stock. If performance milestones are met, Mr. Garrity's bonus will be 100% of his base salary for the year the milestone was met. If Mr. Garrity and a majority of the Board are unable to mutually agree on performance milestones, Mr. Garrity will receive a guaranteed bonus for that fiscal year of no less than 15% of his base salary. In 2012, no performance milestones were set and Mr. Garrity waived his right to a guaranteed annual performance bonus. Additionally, in March 2012, Mr. Garrity was granted 200,000 five-year options to purchase shares of Aspen Group common stock exercisable at \$1.00 per share vesting over a three-year period. In December 2012, the options were re-priced to \$0.35 per share.

Brad Powers. Effective on July 5, 2011, Aspen entered into a four-year Employment Agreement with Brad Powers to serve as its Chief Marketing Officer. In accordance with the Employment Agreement, Mr. Powers was to be paid a base salary of \$250,000 per year. In March 2012, Mr. Powers was granted 200,000 five-year options to purchase shares of Aspen Group common stock exercisable at \$1.00 per share vesting over a three-year period. In December 2012, the options were re-priced to \$0.35 per share.

Effective March 1, 2013, Brad Powers resigned as Chief Marketing Officer and as an employee of Aspen Group in order to pursue other business ventures. Mr. Powers has agreed to provide consulting services to Aspen Group for a two-year period. Under a Consulting Agreement, Mr. Powers will receive a fee of \$100,000 per year and his outstanding stock options will continue to vest as originally in accordance with their terms provided that Mr. Powers is providing consulting services. Mr. Powers' Employment Agreement described above has been terminated.

Gerald Williams. Effective January 1, 2012, Aspen entered into a five-year Employment Agreement with Dr. Gerald Williams to serve as its President. In accordance with the Employment Agreement, Dr. Williams was to be paid a base salary of \$150,000 per year. In addition to base salary, Dr. Williams is eligible to receive an annual performance bonus in an amount equal to 50% of his then-current base salary, based upon the achievement of pre-established performance milestones mutually agreed upon by him and the Chief Executive Officer. One-half of the annual bonus is to be paid in cash and the remaining is to be paid in common stock. In 2012, no performance milestones were set and Dr. Williams waived his right to an annual performance bonus. Additionally, in March 2012, Dr. Williams was granted 200,000 five-year options to purchase shares of Aspen Group common stock at \$1.00 per share vesting over a three-year period. In December 2012, the options were re-priced to \$0.35 per share.

Angela Siegel. Effective January 1, 2012, Aspen entered into a five-year Employment Agreement with Angela Siegel to serve as its Executive Vice President, Marketing. In accordance with the Employment Agreement, Ms. Siegel is paid a base salary of \$150,000 per year. In addition to base salary, Ms. Siegel is eligible to receive an annual performance bonus in an amount equal to 50% of her then-current base salary, based upon the achievement of pre-established performance milestones mutually agreed upon by her and the Chief Executive Officer. In 2012, no performance milestones were set and Ms. Siegel waived her right to an annual performance bonus. Additionally, in March 2012, Ms. Siegel was granted 150,000 five-year options to purchase shares of Aspen Group common stock exercisable at \$1.00 per share and vesting over a three-year period. In December 2012, the options were re-priced to \$0.35 per share.

Amendments to Employment Agreements

On December 31, 2011, Messrs. Michael Mathews and Brad Powers, our Chief Executive Officer and then Chief Marketing Officer, respectively, entered into amendments to their Employment Agreements waiving 50% of their salaries that would have otherwise accrued (\$62,500 each). Additionally, effective January 1, 2012, they agreed to defer 50% of their base salaries until such time as Mr. Mathews or our Board determine that we have sufficient cash flow to pay the previously agreed upon amount. As of August 31, 2012, these executives and our Board agreed to continue deferring their salaries until December 31, 2012. Separately, Mr. David Garrity, our Chief Financial Officer, effective April 1, 2012 deferred 40% of his base salary. At the same date, Mr. Michael Mathews deferred 60% of his base salary. In consideration for deferring their salaries, Messrs. Mathews, Powers and Garrity were granted 288,911, 255,773 and 136,008 fully-vested five-year stock options, respectively, exercisable at \$0.35 per share to settle deferred salaries.

As of August 31, 2012, Messrs. Michael Mathews, Brad Powers, David Garrity, and Gerald Williams, our Academic President, agreed to reduce their base salaries to \$100,000 per year for the remainder of 2012. In consideration for reducing their salaries, Messrs. Mathews, Powers and Garrity were each granted 166,666 stock options and Dr. Williams was granted 47,620 stock options. These stock options are exercisable at \$0.35 per share and vested in four equal installments at the end of each month of 2012, beginning on September 30, 2012.

Our Board approved the option grants in the two above paragraphs on October 23, 2012. The Board also granted Dr. Williams a \$45,000 bonus on October 23, 2012. On September 4, 2012, our Board granted Mr. Mathews up to 2,900,000 five-year options exercisable at \$0.35 per share and vesting in equal annual increments over four years with the first vesting date being September 4, 2013.

In April 2013, Mr. Mathews agreed to waive \$43,750 of accrued but unpaid salary due to him from employment during the first quarter of 2013. Additionally, on that same date, as compensation for reduced salaries for the first quarter of 2013, Mr. Garrity and Dr. Williams were granted 125,000 and 35,714 fully-vested five-year stock options, respectively, exercisable at \$0.35 per share.

Termination Provisions

The table below describes the severance payments that our executive officers are entitled to in connection with a termination of their employment upon death, disability, dismissal without cause, for Good Reason, a change of control and the non-renewal of their employment at the discretion of Aspen Group. All of the termination provisions are intended to comply with Section 409A of the Internal Revenue Code of 1986 and the Regulations thereunder.

	Michael Mathews	Gerald Williams	David Garrity	Angela Siegel
Death or Total Disability	Six months base salary	Three months base salary	Six months base salary	Six months base salary
Dismissal Without Cause or Resignation for Good Reason (1)	12 months base salary (2)	The greater of three months base salary or the remainder of the base salary due under the employment agreement	The greater of 12 months base salary or the remainder of the base salary due under the employment agreement (2)	The greater of six months base salary or the remainder of the base salary due under the employment agreement
Change of Control (3)	None	The greater of three months base salary or the remainder of the base salary due under the employment agreement (3)	The greater of 12 months base salary or the remainder of the base salary due under the employment agreement (2)	The greater of six months base salary or the remainder of the base salary due under the employment agreement.
Expiration of Initial Term and Aspen does not renew	12 months base salary (2)	Three months base salary	12 months base salary (2)	Six months base salary

(1) Generally, Good Reason in the above Agreements include the material diminution of the executives' duties, any material reduction in base salary without consent, the relocation of the geographical location where the executive performs services or any other action that constitutes a material breach by Aspen Group under the Employment Agreements.

(2) Any restricted stock or stock options held by the executive immediately vest upon occurrence of this event.

(3) Our standard form option agreement provides that all options shall vest in the event of a Change of Control event. Change of Control generally means a shareholder acquires over 50% of Aspen Group's total voting power, the sale of substantially all of Aspen Group's assets, or a merger which results in Aspen Group's current shareholders owning less than 50% of the surviving entity.

Outstanding Equity Awards At 2012 Year-End

Listed below is information with respect to unexercised options for each Named Executive Officer as of December 31, 2012.

Name (a)	Number of Securities		Outstanding Equity Awards At 2012 Year-End Equity Incentive Plan Awards:		
	Underlying Unexercised Options (#) Exercisable (b)	Number of Securities Underlying Unexercised Options (#) Unexercisable (c)	Number of Securities Underlying Unexercised Unearned Options (#) (d)	Option Exercise Price (\$)(e)	Option Expiration Date (f)
Michael Mathews	0	300,000(1)	0	0.35	March 15, 2017
	0	2,876,800(2)	23,200(2)	0.35	September 4, 2017
	0	500,000(3)	0	0.35	March 22, 2017
	288,911	0	0	0.35	October 23, 2017
	166,666	0	0	0.35	October 23, 2017
David Garrity	0	200,000(1)	0	0.35	March 15, 2017
	136,008	0	0	0.35	October 23, 2017
	166,666	0	0	0.35	October 23, 2017
Brad Powers	0	200,000(1)	0	0.35	March 15, 2017
	255,773	0	0	0.35	October 23, 2017
	166,666	0	0	0.35	October 23, 2017

(1) The options vest in three equal increments on March 14, 2013, 2014 and 2015.

(2) The options were subject to Aspen Group raising \$3.5 million in its private placement offerings. As of December 31, 2012, Aspen Group raised a total of \$3,472,000 and therefore 2,876,800 options were earned by Mr. Mathews as of that date. Subsequent to December 31, 2012, Aspen Group raised an additional \$565,000, and all 2,900,000 options have been earned. The options vest in equal increments on September 4, 2013, 2014, 2015 and 2016.

(3) The options vest in three equal increments on March 20, 2013, 2014 and 2015.

Equity Compensation Plan

Immediately following the closing of the Reverse Merger, our Board adopted the 2012 Equity Incentive Plan, or the Plan, which provided for 2,500,000 shares to be granted under the Plan. As of September 28, 2012, our Board increased the Plan to 5,600,000 shares and on January 16, 2013, the Board further increased the Plan to 8,000,000 shares.

The exercise price of options or stock appreciation rights granted under the Plan shall not be less than the fair market value of the underlying common stock at the time of grant. In the case of incentive stock options, the exercise price may not be less than 110% of the fair market value in the case of 10% shareholders. Options and stock appreciation rights granted under the Plan shall expire no later than 10 years after the date of grant. The total number of shares with respect to which options or stock awards may be granted under the Plan the purchase price per share, if applicable, shall be adjusted for any increase or decrease in the number of issued shares resulting from a recapitalization, reorganization, merger, consolidation, exchange of shares, stock dividend, stock split, reverse stock split, or other subdivision or consolidation of shares.

Our Board may from time to time may alter, amend, suspend, or discontinue the Plan with respect to any shares as to which awards of stock rights have not been granted. However no rights granted with respect to any awards under the Plan before the amendment or alteration shall be impaired by any such amendment, except with the written consent of the grantee.

Under the terms of the Plan, our Board may also grant awards which will be subject to vesting under certain conditions. The vesting may be time-based or based upon meeting performance standards, or both. Recipients of restricted stock awards will realize ordinary income at the time of vesting equal to the fair market value of the shares. We will realize a corresponding compensation deduction. Upon the exercise of stock options or stock appreciation rights, the holder will have a basis in the shares acquired equal to any amount paid on exercise plus the amount of any ordinary income recognized by the holder. Upon sale of the shares, the holder will have a capital gain or loss equal to the sale proceeds minus his or her basis in the shares.

The Plan and our standard Stock Option Agreement provide for “clawback” provisions, which enable our Board to cancel options and recover past profits if the person is dismissed for cause or commits certain acts which harm us.

Equity Compensation Plan Information

The following chart reflects the number of securities granted and the weighted average exercise price for our compensation plans as of December 31, 2012.

Name Of Plan	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a) (1)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders			
Equity compensation plans not approved by security holders			
2012 Equity Incentive Plan (1)	5,600,000	\$ 0.35	0
Non-Plan Options (2)	1,291,167	\$ 0.35	N/A
Total	6,891,167		

(1) Represents options issued under the Plan. Includes 5,176,800 options granted to directors and executive officers.

(2) Represents options issued outside of the Plan. All of these options were granted to directors and executive officers. In January 2013, the non-plan options were converted into Plan options.

Director Compensation

We do not pay cash compensation to our directors for service on our Board and our employees do not receive compensation for serving as members of our Board. Directors are reimbursed for reasonable expenses incurred in attending meetings and carrying out duties as board and committee members. Under the Plan, our non-employee directors receive grants of stock options as compensation for their services on our Board, as described above. Because we do not pay compensation to employee directors, Mr. Michael Mathews was not compensated for his service as a director and is omitted from the following table.

Director Compensation for 2012

Name	Option Awards (\$) ⁽¹⁾	Total (\$)
Michael D'Anton (2)	35,000	35,000
James Jensen (2)	35,000	35,000
David Pasi (2)	35,000	35,000
Sanford Rich (3)	35,000	35,000
John Scheibelhoffer (2)	35,000	35,000
Paul Schneier (2)	35,000	35,000

(1) The amounts in this column represent the fair value of the award as of the grant date as computed in accordance with FASB ASC Topic 718 and the recently revised SEC disclosure rules. These amounts represent awards that are paid in options to purchase shares of our common stock and do not reflect the actual amounts that may be realized by the directors. All of the options in this table are exercisable at \$0.35 per share.

(2) Of these options, one-third vested immediately and the remaining vest in equal increments on May 20, 2013 and 2014, subject to continued service as a director on each applicable vesting date.

(3) These options vest in equal increments on March 15, 2013, 2014 and 2015, subject to continued service as a director on each applicable vesting date.

PRINCIPAL SHAREHOLDERS

The following table sets forth the number of shares of Aspen Group's common stock beneficially owned as of April 8, 2013 by (i) those persons known by Aspen Group to be owners of more than 5% of its common stock, (ii) each director (iii) the Named Executive Officers (as disclosed in the Summary Compensation Table), and (iv) Aspen Group's executive officers and directors as a group. Unless otherwise specified in the notes to this table, the address for each person is: c/o Aspen Group, Inc. 224 West 30th Street, Suite 604 New York, New York 10001.

Title of Class	Beneficial Owner	Amount of Beneficial Ownership (1)	Percent Beneficially Owned (1)
Named Executive Officers:			
Common Stock	Michael Mathews (2)	4,497,837	7.7%
Common Stock	David Garrity (3)	675,609	1.2%
Common Stock	Brad Powers (4)	989,106	1.7 %
Directors:			
Common Stock	Michael D'Anton (5)	2,246,899	4.0%
Common Stock	James Jensen (6)	738,643	1.3%
Common Stock	David Pasi (7)	383,861	*
Common Stock	Sanford Rich (8)	59,583	*
Common Stock	John Scheibelhoffer (9)	2,198,805	3.9%
Common Stock	Paul Schneier (10)	951,667	1.7%
Common Stock	All directors and executive officers as a group (10 persons) (11)	12,032,750	20.2%
