SUMMARY

This summary highlights some of the information contained elsewhere in or incorporated by reference in this prospectus supplement. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under Risk Factors and the other information included or incorporated by reference in this prospectus supplement and the base prospectus. Except where the context indicates otherwise, the terms we, us, our, the Company and Terex refer only to Terex Corporation and not to its subsidiaries.

Our Company

Terex is a diversified global equipment manufacturer of a variety of capital goods machinery products. We are focused on delivering reliable, customer-driven solutions for a wide range of commercial applications, including the construction, infrastructure, quarrying, mining, manufacturing, shipping, transportation, refining, energy and utility industries. Our mission is to provide solutions to our machinery and industrial product customers that yield superior productivity and return on investment.

We have realized significant growth since our incorporation in 1986, achieving net sales of \$6.5 billion in 2011. Pro forma results for 2011, reflecting our acquisition of Demag Cranes AG (as if the transaction had closed at the beginning of the year), would have been net sales of \$7.4 billion, income from operations of \$136.8 million and Adjusted EBITDA of \$389.9 million. For a reconciliation of pro forma income from operations to Pro Forma Adjusted EBITDA, see Unaudited Pro Forma Condensed Combined Financial Information and Other Data and the footnotes contained therein. Much of our growth has been accomplished through acquisitions and we have demonstrated our ability to successfully integrate acquired businesses.

As we have expanded our operations, our business has become increasingly international in scope, with our products manufactured in North and South America, Europe, Australia and Asia and sold worldwide. We continue to focus on expanding our business globally, with an increased emphasis on developing markets such as China, India, Brazil, Russia and the Middle East. Approximately 30% of our net sales were to developing markets in 2011.

We report in five business segments: (i) Aerial Work Platforms; (ii) Construction; (iii) Cranes; (iv) Material Handling & Port Solutions; and (v) Materials Processing.

Other

On August 16, 2011, we acquired a majority interest in the shares of Demag Cranes AG. The results of Demag Cranes AG and its consolidated subsidiaries (Demag Cranes AG) comprise the MHPS segment and are included in our financial information contained and incorporated by reference herein since the date of acquisition. Effective July 1, 2011, our bridge inspection equipment, which was formerly included in the Construction segment, is now included in the AWP segment.

Competitive Strengths

We believe the following key competitive strengths, together with our business strategy have contributed to our success and provide us with the flexibility and capability to achieve our goals:

Diversified and Balanced Revenue Base

Our business is highly diversified by business segment, geography and product. For the year ended December 31, 2011, our net sales break down as follows:

By business segment

By geography

S-2

By product

In addition, we have broad exposure to global end markets including non-residential construction, infrastructure, roadbuilding, port solutions, material handling, general manufacturing, as well as other end markets.

Leading Positions in Markets Across Business Platforms

We maintain leading market positions in many of our product segments. Over 75% of net sales in 2011 were generated in product segments where Terex is a leader. Our product markets are often characterized by high fragmentation with fewer well-capitalized competitors, thereby enabling us to differentiate ourselves through our scale, diverse product offering and breadth of services. Additionally, in many markets we compete with smaller niche participants or with industrial conglomerates in certain product lines that are not the primary focus of such conglomerates, resulting in less direct competition with larger global equipment competitors.

Global Scale with Exposure to Developing Markets

Given our global scale, we benefit from growth in markets outside of the United States and Canada, with sales in these markets accounting for approximately 67% of our net sales in 2011. Developing markets such as China, India, Brazil, Russia and the Middle East have become an increased focus for us as we look to benefit from favorable trends in those geographies. In 2011, we generated approximately 30% of our net sales from developing markets. While no market is immune to the effects of global financial and economic turmoil, we believe that these developing markets will offer growth opportunities in the infrastructure and non-residential construction spending, increasing demand for our products.

Favorably Positioned for Recovery

Several of Terex's end markets are showing signs of market recovery, led most noticeably by the North American equipment rental channel and its impact on our AWP segment. Our customers' fleet utilization levels have continued to increase, which, coupled with record high fleet ages, are likely to result in significant equipment capital expenditures. The AWP segment represented 27% of our net sales in 2011. Additionally, infrastructure, transportation and energy markets are expected to rebound from the recent economic turmoil and are expected to drive demand for Terex's products.

Drive for Operational Excellence

Driving operating excellence across the entire value chain is vital to our delivering high quality, reliable products on time and at a low cost to our customers. Our operational principles are based on the Terex Business System (TBS). TBS is the framework around which we are building our capabilities as a superb operating company to achieve our long-term goals. Founded on lean concepts, TBS is a set of guiding principles and business processes that collectively define who we are and how we do what we do. TBS is our playbook to deliver our customer, team member and financial goals. It aligns us globally with repeatable, teachable processes that harness the full potential of our team members. TBS is not the business strategy; it supports the business strategy. We anticipate that TBS will provide us a competitive advantage through the use of customer-centric tools that continually enhance customer responsiveness and eliminate waste.

S-3

Proven Ability to Identify and Integrate Acquisitions

We have a history of successfully identifying and integrating acquisitions and continue to selectively consider acquisitions that meet our criteria, while maintaining our highly selective approach to acquisition opportunities. Over the last ten years, we have identified and successfully integrated over 25 acquisitions. We believe our scale, diversification and integration expertise allow us to consummate acquisitions resulting in synergies, solid returns on invested capital and free cash flow generation.

The Demag Acquisition

On August 16, 2011, we acquired approximately 81% of the shares of Demag Cranes AG at a price of €45.50 per share, for total cash consideration of approximately \$1.1 billion, bringing our ownership to 82%. Demag Cranes AG is active in the development, planning, production, distribution, and marketing of industrial cranes and hoists and port technology, as well as the provision of services in these areas.

In January 2012, we entered into a Domination and Profit and Loss Transfer Agreement (the DPLA) with Demag Cranes AG that will become effective following the necessary shareholder approval and subsequent registration of the DPLA in the commercial register of Demag Cranes AG. Upon effectiveness of the DPLA and upon demand from outside shareholders of Demag Cranes AG, Terex Industrial Holdings AG, the parent of Demag Cranes AG, will acquire their shares in return for €45.52 per share, or up to approximately €174 million in the aggregate. The DPLA is expected to become effective in 2012. We expect annual dividends to minority shareholders of Demag Cranes AG to be approximately €11.6 million.

Demag Cranes AG has a bank credit agreement (the “Demag Cranes Credit Agreement”) which matures on November 18, 2015 to provide liquidity for their operations. As of December 31, 2011, there was \$173.7 million outstanding under the Demag Cranes Credit Agreement. Upon effectiveness of the DPLA, the lenders under the Demag Cranes Credit Agreement have the option to terminate the Demag Cranes Credit Agreement. If these lenders exercise their option to terminate the Demag Cranes Credit Agreement, we expect that the proceeds of the notes offered hereby will provide us with an additional source of liquidity to assist Demag Cranes AG with the repayment or refinancing of the Demag Cranes Credit Agreement (the Potential Demag Cranes Refinancing).

For more information, please refer to Note I Acquisitions to the audited consolidated financial statements contained in Terex’s Annual Report on Form 10-K for the year ended December 31, 2011 as filed with the SEC on February 29, 2012 and incorporated by reference in this prospectus supplement.

Covenants

The indenture governing the notes will contain covenants that, among other things, limit our ability and the ability of certain of our subsidiaries to:

.

incur or guarantee additional indebtedness;

.

pay dividends or make other restricted payments;

.

make certain investments;

.

permit payment or dividend restrictions on certain of our subsidiaries;

.

In addition, we will be obligated to offer to repurchase the notes at a price of 100% of their principal amount plus accrued interest to the date of repurchase in the event of certain asset sales.

These restrictions and prohibitions are subject to a number of important qualifications and exceptions. See [Description of the Notes](#) [Certain Covenants](#).

Subject to certain exceptions, the limitation on our ability to make certain dividends and distributions is based on a calculation of our net income, equity issuances and other items since March 31, 1998 (as defined under the indenture governing the notes offered hereby), rather than since the date of this offering. As of December 31, 2011, we would have had the capacity to make certain payments, including dividends, in excess of \$990 million (which is available only upon achievement of a minimum cash flow coverage test and which we currently meet) under the indenture that governs the notes offered hereby. See [Description of the Notes](#) [Certain Covenants](#).

Adjusted EBITDA (2)(3)	335.1	85.2	

(1) EBITDA represents income (loss) from operations before depreciation and amortization. EBITDA is a non-U.S. generally accepted accounting principle (GAAP) measure. We present EBITDA because it is used by management to evaluate operating performance. We consider EBITDA an important supplemental measure of our performance because the calculation adjusts for items that we believe are not indicative of our core operating performance. Our management uses EBITDA to evaluate the operating performance of our business, to aid in period-to-period comparability, for planning and forecasting purposes and to measure results against forecasts. We believe EBITDA is also useful to investors because it is a measure frequently used by securities analysts, investors and others in the evaluation of companies.

S-8

EBITDA has limitations as an analytical tool, and it does not represent, and should not be considered an alternative to income (loss) from operations as defined by U.S. GAAP. Some of these limitations are:

EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures;

EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; and

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements.

We compensate for these limitations by relying primarily on our U.S. GAAP results and using EBITDA only supplementally. See the consolidated statements of income included in the audited consolidated financial statements of Terex incorporated by reference in this prospectus supplement. Please see footnote (3) below for a reconciliation of income (loss) from operations to EBITDA.

(2) We present Adjusted EBITDA as a further supplemental measure of our performance. We use Adjusted EBITDA to compare our operating performance over various reporting periods because we believe it provides the most meaningful view of our ongoing operations since it removes from our operating results the impact of items that do not reflect our core operating performance. We believe Adjusted EBITDA is helpful to investors and other interested parties because it provides such persons with the same information that our management uses internally for purposes of assessing our operating performance.

We prepare Adjusted EBITDA by adjusting EBITDA to eliminate the impact of a number of items. We explain how each adjustment is derived in the subsequent footnote. Potential investors are encouraged to evaluate each adjustment for supplemental analysis. As an analytical tool, Adjusted EBITDA is subject to all the same limitations applicable to EBITDA. In addition, other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure. In evaluating Adjusted EBITDA, you should also be aware that in the future we may incur expenses similar to the adjustments in this presentation. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or extraordinary items. Please see footnote (3) below for a reconciliation of income (loss) from operations to EBITDA and Adjusted EBITDA.

(3) The following table provides an unaudited reconciliation of income (loss) from operations to EBITDA and Adjusted EBITDA:

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION AND OTHER DATA

On August 16, 2011, we acquired approximately 81% of the capital stock of Demag Cranes AG at a price of €45.50 per share, for total cash consideration of approximately \$1.1 billion, bringing our ownership to 82%.

In January 2012, we entered into a Domination and Profit and Loss Transfer Agreement (the “DPLA”) with Demag Cranes AG that will become effective following the necessary shareholder approval and subsequent registration of the DPLA in the commercial register of Demag Cranes AG. Upon effectiveness of the DPLA and upon demand from outside shareholders of Demag Cranes AG, we will acquire their shares. Any outside shareholders of Demag Cranes AG that choose not to sell their shares to us will receive an annual guaranteed dividend.

The Unaudited Pro Forma Condensed Combined Statement of Income for the twelve months ended December 31, 2011 illustrates the effect of the acquisition of Demag Cranes AG had it occurred on January 1, 2011. The Unaudited Pro Forma Condensed Combined Statement of Income was derived from the unaudited historical Consolidated Statement of Income of Demag Cranes AG for the seven and a half months ended August 15, 2011, which was prepared by management of Demag Cranes AG, and adjustments to conform Demag Cranes AG’s financial statements presented in accordance with International Financial Reporting Standards (IFRS) with accounting principles generally accepted in the United States of America (U.S. GAAP) and our accounting policies, combined with our Consolidated Statement of Income for the fiscal year ended December 31, 2011, with acquisition-related adjustments reflected in the period presented.

The preliminary allocation of the purchase price for the acquisition of Demag Cranes AG used in the Unaudited Pro Forma Condensed Combined Statement of Income set forth below is based upon preliminary estimates and assumptions by management. The estimated fair values of assets acquired and liabilities assumed are provisional and are based on the information that was available as of the date of this prospectus supplement to estimate the fair value of assets acquired and liabilities assumed. We believe that such information provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed, but we are waiting for additional information necessary to finalize those fair values. Specifically, certain tax positions require further analysis and are not yet final. Thus, the provisional measurements of fair value reflected are subject to change and such changes could be significant. We expect to finalize the valuation and complete the purchase price adjustments as soon as practicable but no later than one-year from the acquisition date.

The Unaudited Pro Forma Condensed Combined Statement of Income, including the notes thereto, do not reflect any potential cost savings or other synergies that could result from the combined operations of Terex and Demag Cranes AG. The Unaudited Pro Forma Condensed Combined Statement of Income is presented for illustrative purposes only and does not purport to be indicative of the combined results of operations for future periods or the results that would have been achieved if Demag Cranes AG had been acquired on January 1, 2011.

The Unaudited Pro Forma Condensed Combined Statement of Income should be read in conjunction with our audited consolidated financial statements and notes thereto and our other financial information pertaining to the Company contained in our Annual Report on Form 10-K for the year ended December 31, 2011 filed with the SEC on February 29, 2012 and incorporated by reference in this prospectus supplement.

Total assets acquired:	\$	2,577.5

- (a) Adjustment of \$12.9 million to conform to our revenue recognition principles associated with guarantees for the period January 1, 2011 through August 15, 2011.
- (b) Decrease to cost of goods sold of \$10.9 million to conform to our expense recognition principles associated with guarantees and the recognition of \$3.7 million of pension expense reclassified from interest income (expense) - net for the period January 1, 2011 through August 15, 2011.
- (c) Recognition of research and development costs of \$3.6 million and pension expense reclassified from interest income (expense) - net of \$1.5 million for the period January 1, 2011 through August 15, 2011.
- (d) Adjustment to reclassify pension expense to cost of goods sold and selling, general and administrative expenses of \$5.2 million for the period January 1, 2011 through August 15, 2011.
- (e) Income tax benefit of \$1.7 million from items included in the incremental loss associated with U.S. GAAP adjustments for the period January 1, 2011 through August 15, 2011. These adjustments are based on the estimated statutory rate in effect for the period.
- (f) Allocation of \$0.7 million of loss associated with U.S. GAAP adjustments for the period January 1, 2011 through August 31, 2011, attributable to 18% noncontrolling interest holders of Demag Cranes AG.
- (g) Depreciation expense of \$4.8 for the period January 1, 2011 through August 15, 2011 recorded in cost of goods sold. Depreciation expense of \$3.0 million for the period January 1, 2011 through August 15, 2011 recorded in selling, general and administrative costs. These expenses are a result of the fair value increases to the carrying value of property, plant and equipment. The weighted-average useful lives are 13.2 years and are depreciated on a straight-line basis.

S-11

- (h) Acquisition-related costs of \$29.5 million recorded by Demag Cranes AG during the period January 1, 2011 through August 15, 2011 were removed as the charge is non-recurring and directly related to the acquisition.
 - (i) Incremental amortization expense of \$17.0 million for the period January 1, 2011 through August 15, 2011 recorded in cost of goods sold. These expenses are a result of the recognition and measurement of identified intangible assets. The customer relationship intangible assets are being amortized over a weighted-average period of 16 years, in-process research and development intangible assets are amortized over 5 years and technology intangible assets are amortized over 6 years.
 - (j) Adjustment of \$41.4 million to remove amortization of inventory step-up as the charge is non-recurring and directly related to the acquisition.
 - (k) Interest expense of \$26.9 million for the period January 1, 2011 through August 15, 2011, related to \$733.9 million of long-term debt incurred for the acquisition. The interest rate used for this calculation was 5.7%, which represented Terex's current borrowing rate on debt issued to fund the acquisition. If this interest rate increased or decreased by 0.125%, interest expense would have increased or decreased by approximately \$0.6 million for the period January 1, 2011 through August 15, 2011.
 - (l) Accretion of debt fair value adjustment of \$0.8 million recorded by Terex during the period August 16, 2011 through December 31, 2011 were removed as the charge is non-recurring and directly related to the acquisition.
 - (m) Amortization of debt issuance costs of \$2.0 million for the period January 1, 2011 through August 15, 2011 related to the debt incurred for the acquisition.
 - (n) Acquisition-related costs of \$15.8 million recorded by Terex in 2011 were removed as the charge is non-recurring and directly related to the acquisition.
 - (o) Income tax benefit of \$18.2 million principally relates to the elimination of income tax expense for the write-off of German net operating loss (NOL) deferred tax assets in anticipation of the acquisition reported in the Demag Cranes AG historical results and the tax impact of the other pro forma adjustments for the period January 1, 2011 through December 31, 2011. If the acquisition were to have occurred on January 1, 2011, the write off of the NOL deferred tax asset would have occurred in purchase accounting and so the expense has been excluded in the pro forma adjustment. These adjustments are based on the estimated statutory tax rates applied for the period.
 - (p) Allocation of \$7.4 million of income associated with Pro Forma adjustments and Demag Cranes AG historical results for the period January 1, 2011 through December 31, 2011, attributable to 18% noncontrolling interest holders of Demag Cranes.

- (i) Pro Forma EBITDA represents pro forma income (loss) from operations before depreciation and amortization. EBITDA is a non-U.S. GAAP measure. We present Pro Forma EBITDA because we believe it is useful to investors because it is a measure frequently used by securities analysts, investors and others in the evaluation of companies that make significant acquisitions during the previous fiscal year and the presentation provides investors with additional criteria used by management to evaluate the performance of the combined company.

Pro Forma EBITDA has limitations as an analytical tool, and it does not represent, and should not be considered an alternative to income (loss) from operations as defined by U.S. GAAP. Some of these limitations are:

Pro Forma EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures;

Pro Forma EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Pro Forma EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; and

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Pro Forma EBITDA does not reflect any cash requirements for such replacements.

We compensate for these limitations by relying primarily on our U.S. GAAP results and using Pro Forma EBITDA only supplementally. See the unaudited pro forma condensed combined statement of income, cash flows and balance sheet contained in this section and the audited consolidated financial statements of Terex incorporated by reference in this prospectus supplement. Please see footnote (iii) below for a reconciliation of pro forma income (loss) from operations to Pro Forma EBITDA.

- (ii) We present Pro Forma Adjusted EBITDA as a further supplemental measure of the performance of the combined company. We believe Pro Forma Adjusted EBITDA is helpful to investors and other interested parties because we believe it provides the most meaningful view of the combined operations since it removes from the operating results the impact of items that do not reflect the combined company's core operating performance.

(iii) The following table provides an unaudited reconciliation of pro forma income (loss) from operations to Pro Forma EBITDA and Pro Forma Adjusted EBITDA:

(amounts in millions) (unaudited)	Year ended December 31, 2011

Other Adjustment (c)	7.1
Pro Forma Adjusted EBITDA (unaudited)	\$ 389.9

a)

Restructuring and related items included costs for severance, employee benefits, facility costs, asset impairment and other charges related to facility closures or realignment.

b)

Stock-based compensation reflects non-cash expenses recorded for the Company's various share-based compensation plans.

c)

Other adjustments primarily relate to charges recorded for supplier quality issues.

RISK FACTORS

*You should carefully consider the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2011, as well as the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus, and the risk factors set forth below before deciding to invest in the notes. Such risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. The occurrence of any of the events or actions described in these risk factors may have a material adverse effect on our business or financial performance. This prospectus supplement and the accompanying prospectus contain or incorporate statements that constitute forward-looking statements regarding, among other matters, our intent, belief or current expectations about our business. These forward-looking statements are subject to risks, uncertainties and assumptions. See *Forward-Looking Statements* on page S-ii of this prospectus supplement.*

Risks Related to This Offering

Our level of indebtedness could impair our financial flexibility, competitive position, financial condition and could prevent us from fulfilling our obligations under the notes offered hereby.

On an adjusted basis, after giving effect to this offering, we would have had approximately \$2.6 billion of indebtedness outstanding as of December 31, 2011. We would also have had \$438.2 million of availability for borrowing under our revolving credit facility at December 31, 2011. Undrawn availability under the Demag Cranes Credit Agreement was \$57.9 million as of December 31, 2011, although upon effectiveness of the DPLA, the lenders under the Demag Cranes Credit Agreement may elect to terminate the Demag Cranes Credit Agreement. See *Summary The Demag Acquisition, Use of Proceeds and Capitalization*. We are permitted by the terms of the notes offered hereby and our other indebtedness to incur substantial additional indebtedness, subject to certain restrictions. See *Description of the Notes* and *Description of Certain Indebtedness*. Our inability to generate sufficient cash flow to satisfy our debt obligations, or to refinance our obligations on commercially reasonable terms, could have a material adverse effect on our business, financial condition and results of operations.

Our substantial indebtedness could have important consequences for you. For example, it could:

·
make it more difficult for us to satisfy our obligations under our indebtedness, including the notes offered hereby;

·
limit our ability to borrow money or to sell or transfer assets in order to fund future working capital, capital expenditures, any future acquisitions, debt service requirements and other general business requirements;

·
require us to dedicate a substantial portion of our cash flow to payments on our indebtedness, which would reduce the amount of cash flow available to fund working capital, capital expenditures, product development and other corporate requirements;

increase our vulnerability to general adverse economic and industry conditions;

.

limit our ability to respond to business opportunities; and

.

subject us to financial and other restrictive covenants, which, if we fail to comply with these covenants and our failure is not waived or cured, could result in an event of default under our indebtedness.

Any of the above listed factors could materially adversely affect our business, financial condition and results of operations.

The terms of our bank credit facility and the indentures governing our Existing Notes and the notes offered hereby may restrict our current and future operations, particularly our ability to respond to changes in our business or to take certain actions.

Our bank credit facility and the indentures governing our 4% Convertible Senior Subordinated Notes due 2015 (the 2015 Notes), our 10-7/8% Senior Notes due 2016 (the 2016 Notes) and our 8% Senior Subordinated Notes due 2017 (the 2017 Notes, and together with the 2015 Notes and 2016 Notes, the Existing Notes) and the notes offered hereby contain, and any future indebtedness of ours would likely contain, a number of restrictive covenants that will impose significant operating and financial restrictions on us, including restrictions on our ability to, among other things:

.

incur or guarantee additional debt;

.

pay dividends and make other restricted payments;

.

create or incur certain liens;

·
make certain investments and capital expenditures;

·
acquire new businesses;

·
engage in sales of assets and subsidiary stock;

·
enter into transactions with affiliates; and

·
transfer all or substantially all of our assets or enter into merger or consolidation transactions.

We have debt outstanding and must comply with restrictive covenants in our debt agreements.

These covenants also require us to meet certain financial tests. Specifically, these financial tests are a consolidated leverage ratio test and a consolidated fixed charge coverage ratio test, as such tests are defined in our debt agreements. While we are currently in compliance with the financial covenants, increases in our debt or decreases in our earnings could cause us to fail to comply with these financial covenants. A failure to comply with our debt covenants could result in an event of default that, if not cured or waived, could have a material adverse effect on our business, financial condition and results of operations.

If we default on our bank credit facility or the indentures governing the Existing Notes or our other indebtedness, the lenders thereunder:

·
will not be required to lend any additional amounts to us; and

·
could in certain circumstances elect to declare all borrowings outstanding, together with accrued and unpaid interest and fees, to be due and payable,

either of which could result in an event of default under the indenture governing the notes offered hereby. In addition, changes in economic or business conditions, results of operations or other factors could cause us to default under our

debt agreements. A default, if not waived by our lenders, could result in acceleration of our debt and possibly bankruptcy.

Servicing our debt will require a significant amount of cash. Our ability to generate sufficient cash depends on numerous factors beyond our control, and we may be unable to generate sufficient cash flow to service our debt obligations, including making payments on the notes.

Our business may not generate sufficient cash flow from operating activities. Our ability to make payments on and to refinance our debt, including the notes offered hereby, and to fund planned capital expenditures will depend on our ability to generate cash in the future. To some extent, this is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. Lower revenues, or uncollectible receivables, generally will reduce our cash flow.

We cannot assure you that our business will generate sufficient cash flow from operations, or that future borrowings will be available to us under our bank credit facility or otherwise, in an amount sufficient to fund our liquidity needs, including the payment of principal and interest on the notes offered hereby. We cannot guarantee you that we will be able to obtain enough capital to service our debt and fund our planned capital expenditures and business plan.

If our cash flows and capital resources are insufficient to service our indebtedness, we may be forced to reduce or delay capital expenditures, sell assets, seek additional capital or restructure or refinance our indebtedness, including the notes offered hereby. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. In addition, the terms of existing or future debt agreements, including our bank credit facility and the indentures governing the Existing Notes and the notes offered hereby, may restrict us from adopting some of these alternatives. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. We may not be able to consummate these dispositions for fair market value or at all. Furthermore, any proceeds that we could realize from any dispositions may not be adequate to meet our debt service obligations then due.

Our ratio of earnings to fixed charges was 1.5x for the year ended December 31, 2011. On an adjusted basis after giving effect to the offering and the acquisition of Demag Cranes AG, our ratio of earnings to fixed charges would have been 1.3x during such period.

We will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.

Our management will use their discretion to direct the net proceeds from this offering. We intend to use the net proceeds of this offering for general corporate purposes. General corporate purposes may include sales and marketing activities, research and development, capital expenditures, future acquisitions, working capital and repayment of debt. Our management's judgments may not result in positive returns on your investment and you will not have an opportunity to evaluate the economic, financial or other information upon which our management bases its decisions. Because the number and variability of factors that determine our use of the proceeds from this offering, our actual uses of the proceeds of this offering may vary substantially from our current planned uses. Our failure to apply the proceeds effectively could have a material adverse effect on our business.

Upon effectiveness of the DPLA, the lenders under the Demag Cranes Credit Agreement have the option to terminate the Demag Cranes Credit Agreement. If these lenders exercise their option to terminate the Demag Cranes Credit Agreement, we expect that the proceeds of the notes offered hereby will provide us with an additional source of liquidity to assist Demag Cranes AG with the Potential Demag Cranes Refinancing. See Summary The Demag Acquisition, Use of Proceeds and Capitalization.

We depend upon the operations of our subsidiaries.

Our ability to make interest and principal payments when due to holders of the notes depends upon the receipt of sufficient funds from our subsidiaries. Substantially all of our consolidated assets are held by our subsidiaries and substantially all of our cash flow and net income are generated by our subsidiaries. See Note S Consolidating Financial Statements to our Annual Report on Form 10-K for the year ended December 31, 2011, which provides information relating to our guarantor and non-guarantor subsidiaries.

The notes will be structurally subordinated to all liabilities of our non-guarantor subsidiaries, including senior subordinated obligations of such subsidiaries.

The notes are structurally subordinated to indebtedness and other liabilities of our non-guarantor subsidiaries, including our non-guarantor foreign subsidiaries. In the event of a bankruptcy, liquidation or reorganization of any of our subsidiaries, these subsidiaries would pay the holders of their debts, preferred equity interests and their trade creditors before they would be able to distribute any of their assets to us. As of December 31, 2011, our non-guarantor subsidiaries, excluding unrestricted subsidiaries, had \$546.8 million of debt outstanding, \$173.7 million of which is represented by debt incurred by Demag Cranes AG under the Demag Cranes Credit Agreement. Upon effectiveness of the DPLA, the lenders under the Demag Cranes Credit Agreement have the option to terminate the Demag Cranes Credit Agreement. If these lenders exercise their option to terminate the Demag Cranes Credit Agreement, we expect that the proceeds of the notes offered hereby will provide the Company with an additional source of liquidity to assist Demag Cranes AG with the Potential Demag Cranes Refinancing. See Summary The Demag Acquisition, Use of Proceeds and Capitalization.

Our non-guarantor subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due pursuant to the notes, or to make any funds available therefor, whether by dividends, loans, distributions or other payments. Any right that we have to receive any assets of any of the non-guarantor subsidiaries upon the liquidation or reorganization of those subsidiaries, and the consequent rights of holders of notes to realize proceeds from the sale of any of those subsidiaries' assets, will be subordinated to the claims of those subsidiaries' creditors, including trade creditors and holders of preferred equity interests of those subsidiaries.

Your right to receive payments on the notes offered hereby is junior to our existing and future secured debt.

The notes and the guarantees will be general unsecured senior obligations ranking effectively junior to all our existing and future secured debt and that of any subsidiary guarantor, including obligations under our revolving credit facility, to the extent of the value of the assets securing the debt. Our obligations under our bank credit facility are secured by a security interest in substantially all of our property, including inventory, equipment, receivables and intangible assets such as licenses, trademarks and customer lists. At December 31, 2011, we had approximately \$710.8 million of outstanding secured indebtedness, in U.S. dollar and Euro denominated term loans under the Credit Agreement. In addition, we are permitted, subject to certain limitations, to incur additional indebtedness under the indenture relating to the notes, which may be secured. See “Capitalization” and Description of the Notes Certain Covenants Limitation on Liens. If we become insolvent or are liquidated, or if payment under our bank credit facility or future secured debt is accelerated, lenders under the bank credit facility and holders of the future secured debt would be entitled to exercise the remedies available to a secured lender.

S-16

Holders of the notes will participate ratably in our remaining assets with all holders of our unsecured indebtedness that does not rank junior to the notes, including all of our other general creditors, based upon the respective amounts owed to each holder or creditor. In any of the foregoing events, there may not be sufficient assets to pay amounts due on the notes. As a result, holders of the notes would likely receive less, ratably, than holders of secured indebtedness. We cannot assure you that the liquidation value of our assets would be sufficient to repay in full the indebtedness under the bank credit facility and our other indebtedness, including the notes offered hereby.

If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the notes offered hereby.

Any default under the agreements governing our indebtedness could prohibit us from making payments of principal, premium, if any, or interest on the notes and could substantially decrease the market value of the notes offered hereby. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, or interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating covenants, in the instruments governing our indebtedness, we could be in default under the terms of the agreements governing such indebtedness. In the event of such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest. More specifically, the lenders under our revolving credit facility could elect to terminate their commitments, cease making further loans and institute foreclosure proceedings against our assets, and we could be forced into bankruptcy or litigation.

Despite our current levels of debt, we may still incur substantially more debt and increase the risks associated with our proposed leverage.

The provisions contained or to be contained in the agreements relating to our indebtedness limit but do not prohibit our ability to incur additional indebtedness and the amount of indebtedness that we could incur could be substantial. Accordingly, we or our subsidiaries could incur significant additional indebtedness in the future, much of which could constitute secured indebtedness. If we incur any additional debt that ranks equally with the notes offered hereby, the holders of that debt will be entitled to share ratably with the holders of these notes in any proceeds distributed in connection with any bankruptcy, liquidation, reorganization or similar proceedings. If new debt is added to our current debt levels, the related risks that we now face could intensify. See Description of the Notes Certain Covenants Limitation on Indebtedness.

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of certain specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of repurchase. A change of control under the indenture governing the notes offered hereby would also constitute a change of control under the indentures governing the Existing Notes and the credit agreement governing the bank credit facility. We may not have sufficient financial resources to repurchase all of the notes and/or the Existing Notes that are tendered upon a change of control or prepay loans under our bank credit facility. A failure to repurchase the notes and/or the Existing Notes when required would result in a default under the indenture governing the notes offered hereby and the Existing Notes as well as the credit agreement governing the bank credit facility. See Description of the Notes Change of Control.

In addition, you should note that recent case law suggests that, in the event that incumbent directors are replaced as a result of a contested election, issuers may nevertheless avoid triggering a change of control under a clause similar to clause (3) of the definition of Change of Control under the caption Description of Notes Certain Definitions, if the outgoing directors were to approve the new directors for the purpose of such change of control clause.

Federal and state statutes allow courts, under specific circumstances, to cancel the guarantees of the notes under fraudulent transfer law.

The notes will be fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by all of our existing and future wholly owned domestic subsidiaries, with certain exceptions. Under federal bankruptcy law and comparable provisions of state fraudulent transfer laws, in certain circumstances a court could cancel a guarantee and order the return of any payments made thereunder to the subsidiary or to a fund for the benefit of its creditors.

A court might take these actions if it found, among other things, that when the guarantor incurred the debt evidenced by its guarantee (i) it received less than reasonably equivalent value or fair consideration for the incurrence of the debt and (ii) any one of the following conditions was satisfied:

.

the guarantor was insolvent or rendered insolvent by reason of the incurrence;

.

the guarantor was engaged in a business or transaction for which its remaining assets constituted unreasonably small capital; or

the guarantor intended to incur, or believed (or reasonably should have believed) that it would incur, debts beyond its ability to pay as those debts matured.

In applying the above factors, a court would likely find that a guarantor did not receive fair consideration or reasonably equivalent value for its guarantee, except to the extent that it benefited directly or indirectly from the notes issuance. The determination of whether a guarantor was or was not rendered insolvent when it entered into its guarantee will vary depending on the law of the jurisdiction being applied. Generally, an entity would be considered insolvent if the sum of its debts (including contingent or unliquidated debts) is greater than all of its assets at a fair valuation or if the present fair salable value of its assets is less than the amount that will be required to pay its probable liability on its existing debts, including contingent or unliquidated debts, as they mature.

If a court canceled a guarantor's guarantee, you would no longer have a claim against that guarantor or its assets. Our assets and the assets of the remaining guarantors may not be sufficient to pay the amount then due under the notes.

Under the indenture that governs the notes offered hereby, we would have had the capacity to make certain payments, including dividends, in excess of \$990 million as of December 31, 2011.

The indenture that governs the notes offered hereby limits our ability to make certain payments, including dividends, loans or investments or the redemption or retirement of any equity interests and indebtedness subordinated to the notes. However, subject to certain exceptions, these limitations are based on a calculation of our net income, equity issuances and other items since March 31, 1998 (as defined under the indenture that governs the notes offered hereby), rather than since the date of this offering. Accordingly, as of December 31, 2011, we would have had the capacity to make certain payments, including dividends, in excess of \$990 million (which is available only upon achievement of a minimum cash flow coverage test, which we currently meet) under the indenture that governs the notes offered hereby. See Description of the Notes Certain Covenants.

Adverse changes in our credit ratings could negatively affect our financing ability.

Our credit ratings may affect the amount of capital we can access, as well as the terms and pricing of any debt we may incur. There can be no assurance that we will be able to maintain our current credit ratings. In the event that our current credit ratings are downgraded or removed, we would most likely incur higher borrowing costs and experience greater difficulty in obtaining additional financing, which would in turn have a material adverse impact on our financial condition, results of operations, and liquidity.

There may be no active trading market for the notes offered hereby, and if one develops, it may not be liquid.

The notes are new issues of securities for which there currently are no trading markets. We do not intend to apply for a listing of the notes on any securities exchange or to arrange for quotation on any automated dealer quotation system. As a result, we cannot assure you that a market will develop for the notes or that you will be able to sell your notes. If any of the notes are traded after their initial issuance, they may trade at a discount from their initial offering price. Future trading prices of the notes will depend on many factors, including prevailing interest rates, the market for similar securities, the price of our underlying common stock, general economic conditions and our financial condition, performance and prospects. The underwriters have advised us that they intend to make markets in the notes, but they are not obligated to do so. The underwriters may terminate their market making activities at any time, in their sole discretion, which could negatively impact your ability to sell the notes or the prevailing market price at the time you

choose to sell.

S-18

USE OF PROCEEDS

The net proceeds from the issuance and sale of the notes will be approximately \$295 million, after deducting the underwriting discount and our estimated expenses for the offering. We intend to use the net proceeds of this offering for general corporate purposes. Upon effectiveness of the DPLA, the lenders under the Demag Cranes Credit Agreement have the option to terminate the Demag Cranes Credit Agreement. If these lenders exercise their option to terminate the Demag Cranes Credit Agreement, we expect that the proceeds of the notes offered hereby will provide us with an additional source of liquidity to assist Demag Cranes AG with the Potential Demag Cranes Refinancing. As of December 31, 2011, there was \$173.7 million outstanding under the Demag Cranes Credit Agreement, which matures in November 2015, at a weighted average interest rate of 3.14%. In addition, upon effectiveness of the DPLA, Terex Industrial Holdings AG, the parent of Demag Cranes AG, is required to offer to purchase the shares of any outside shareholders of Demag Cranes AG for €45.52 per share, or up to approximately €174 million in the aggregate. To the extent that any outside shareholders of Demag Cranes AG determine to tender their shares of Demag Cranes AG, a portion of the proceeds from the sale of the notes offered hereby will also provide us with an additional source of liquidity to assist Terex Industrial Holdings AG in acquiring the shares.

DESCRIPTION OF CERTAIN INDEBTEDNESS

Credit Agreement

General

Terex entered into an amended and restated credit agreement (the *Credit Agreement*) on August 5, 2011, with the lenders party thereto and Credit Suisse AG, as administrative agent and collateral agent, replacing Terex's previous credit agreement dated as of July 14, 2006 which was terminated as of August 11, 2011.

The Credit Agreement provided Terex with a \$460.1 million term loan and a €200.0 million term loan. The proceeds of the term loans were used, along with other cash, to pay for the shares of Demag Cranes AG and related fees and expenses.

In addition, the Credit Agreement provides Terex with a revolving line of credit of up to \$500 million. The revolving line of credit consists of \$250 million of available domestic revolving loans and \$250 million of available multicurrency revolving loans.

The Credit Agreement has incremental commitments of up to \$250 million remaining, which may be extended at the option of the lenders and can be in the form of revolving credit commitments, term loan commitments, or a combination of both, provided that no more than \$100 million of the incremental amount may be used for incremental term loan commitments.

As of December 31, 2011, Terex had \$710.8 million in U.S. dollar and Euro denominated term loans outstanding under the Credit Agreement. Terex had no revolving credit amounts outstanding as of December 31, 2011.

The Credit Agreement incorporates facilities for issuance of letters of credit up to \$250 million. Letters of credit issued under the letter of credit facility decrease availability under the \$500 million revolving line of credit. As of December 31, 2011, Terex had letters of credit issued under the Credit Agreement that totaled \$61.8 million. The Credit Agreement also permits Terex to have additional letter of credit facilities up to \$100 million, and letters of credit issued under such additional facilities do not decrease availability under the revolving line of credit. As of December 31, 2011, Terex had letters of credit issued under the additional letter of credit facilities of the Credit Agreement that totaled \$1.0 million.

Maturity

The term loans are scheduled to mature on April 28, 2017, subject to earlier maturity on March 1, 2016 if Terex's existing 10-7/8% Notes have not been satisfied in full prior to that time. The revolving lines of credit are scheduled to mature on April 29, 2016, subject to earlier maturity on March 1, 2016 if the 10-7/8% Notes have not been satisfied in full prior to that time.

Guarantee and Collateral

Terex and certain of its subsidiaries agreed to take certain actions to secure borrowings under the Credit Agreement. As a result, Terex and certain of its wholly-owned domestic subsidiaries entered into a Guarantee and Collateral Agreement with Credit Suisse AG, as collateral agent for the lenders, granting security to the lenders for amounts borrowed under the Credit Agreement. Terex is required to (a) pledge as collateral the capital stock of Terex's material domestic subsidiaries and 65% of the capital stock of certain of Terex's material foreign subsidiaries, and (b) provide a first priority security interest in, and mortgages on, substantially all of Terex's domestic assets.

Covenants

The Credit Agreement requires Terex to comply with a number of covenants. These covenants require Terex to meet certain financial tests.

The minimum required levels of the interest coverage ratio, as defined in the Credit Agreement, are set forth below:

<u>Period</u>	<u>Ratio</u>
October 1, 2011 through and including December 31, 2011	1.60 to 1.00
January 1, 2012 through and including March 31, 2012	2.00 to 1.00
Thereafter	2.50 to 1.00

S-22

The maximum permitted levels of the senior secured leverage ratio, as defined in the Credit Agreement, are set forth below:

<u>Period</u>	<u>Ratio</u>
October 1, 2011 through and including December 31, 2011	3.50 to 1.00
January 1, 2012 through and including March 31, 2012	3.00 to 1.00
April 1, 2012 through and including June 30, 2012	2.50 to 1.00
Thereafter	2.25 to 1.00

The covenants also limit, in certain circumstances, Terex's ability to take a variety of actions, including: incur indebtedness; create or maintain liens on its property or assets; make investments, loans and advances; repurchase shares of its Common Stock; engage in acquisitions, mergers, consolidations and asset sales; redeem debt; and pay dividends and distributions. The Credit Agreement also contains customary events of default. Terex's future compliance with its financial covenants under the Credit Agreement will depend on its ability to generate earnings and manage its assets effectively. The Credit Agreement also has various non-financial covenants, both requiring Terex to refrain from taking certain future actions (as described above) and requiring Terex to take certain actions, such as keeping in good standing its corporate existence, maintaining insurance, and providing its bank lending group with financial information on a timely basis.

Demag Cranes Credit Agreement

General

Demag Cranes AG has a bank credit agreement (the "Demag Cranes Credit Agreement") which matures on November 18, 2015 to provide liquidity for Demag Cranes AG's operations. The Demag Cranes Credit Agreement provides multicurrency revolving lines of credit of €200.0 million, which can be used for loans or letters of credit to a sub-limit of €40.0 million. Demag Cranes AG and its material subsidiaries are jointly and severally liable under this facility.

As of December 31, 2011, there was \$173.7 million outstanding in loans under this facility at an interest rate of 3.14%. Letters of credit issued under this facility at December 31, 2011 were \$26.3 million. Undrawn availability under the Demag Cranes Credit Agreement was \$57.9 million at December 31, 2011.

The Demag Cranes Credit Agreement also has a €150.0 million multicurrency letter of guarantee facility that does not reduce availability under the revolving lines of credit. The amounts drawn on these lines as of December 31, 2011 were \$32.6 million. Demag Cranes AG and its subsidiaries have bilateral arrangements to issue letters of guarantee with various other financial institutions. These additional letters of credit do not reduce Demag Cranes AG's availability under the Demag Cranes Credit Agreement. Demag Cranes AG had letters of credit issued under these additional arrangements of \$53.0 million as of December 31, 2011. In total, as of December 31, 2011, the Company had letters of credit outstanding of \$289.3 million.

Upon effectiveness of the DPLA, the lenders under the Demag Cranes Credit Agreement may elect to terminate the Demag Cranes Credit Agreement. See "Summary of the Demag Acquisition," "Use of Proceeds" and "Capitalization."

Covenants

Demag Cranes AG is required to comply with two financial covenants: (i) maintain consolidated net debt to consolidated operating earnings before interest, income taxes, depreciation and amortization (EBITDA) as defined in the agreement, less than 2.75 times and (ii) maintain consolidated operating EBITDA to consolidated net interest payable greater than 4.0 times. In addition to customary covenants and a restriction on payment of dividends, the Demag Cranes Credit Agreement contains certain restrictions on transactions with the Company and its subsidiaries. In particular, Demag Cranes AG is to refrain from giving guarantees, indemnities or collateral in favor of the Company and its subsidiaries, granting loans to and entering into cash-pooling arrangements with the Company and its subsidiaries, and from taking shareholdings in or entering into reorganization transactions involving the Company and its subsidiaries. Also restricted are purchases and sales of any assets from or to the Company and its subsidiaries except at arm's length in the ordinary course of business. No joint ventures may be entered into with the Company and its subsidiaries. Other contracts and transactions in general with the Company and its subsidiaries are only permitted at arm's length in the ordinary course of business.

4% Convertible Senior Subordinated Notes due 2015

On June 3, 2009, we sold and issued \$172.5 million aggregate principal amount of 4% Convertible Notes. In certain circumstances and during certain periods, the 4% Convertible Notes will be convertible at an initial conversion rate of 61.5385 shares of Common Stock per \$1,000 principal amount of convertible notes, equivalent to an initial conversion price of approximately \$16.25 per share of Common Stock, subject to adjustment in some events. Upon conversion, Terex will deliver cash up to the aggregate principal amount of the 4% Convertible Notes to be converted and shares of Common Stock with respect to the remainder, if any, of Terex's convertible obligation in excess of the aggregate principal amount of the 4% Convertible Notes being converted. As a result of our redemption of the 7-3/8% Senior Subordinated Notes due 2014 (7-3/8% Notes), as of February 7, 2011, the 4% Convertible Notes are fully and unconditionally guaranteed, jointly and severally, by certain of the Company's wholly-owned domestic subsidiaries.

We, as issuer of the 4% Convertible Notes, must separately account for the liability and equity components of the 4% Convertible Notes in a manner that reflects our nonconvertible debt borrowing rate at the date of issuance when interest cost is recognized in subsequent periods. We allocated \$54.3 million of the \$172.5 million principal amount of the 4% Convertible Notes to the equity component, which represents a discount to the debt and will be amortized into interest expense using the effective interest method through June 2015. We recorded a related deferred tax liability of \$19.4 million on the equity component. The balance of the 4% Convertible Notes was \$137.3 million at December 31, 2011. We recognized interest expense of \$14.9 million on the 4% Convertible Notes for the year ended December 31, 2011. The interest expense recognized for the 4% Convertible Notes will increase as the discount is amortized using the effective interest method, which accretes the debt balance over its term to \$172.5 million at maturity. Interest expense on the 4% Convertible Notes throughout its term includes 4% annually of cash interest on the maturity balance of \$172.5 million plus non-cash interest expense accreted to the debt balance as described.

10-7/8% Senior Notes due 2016

We also may be required to repurchase a holder's notes with the proceeds of certain assets at a purchase price in cash of 100% of the principal amount thereof plus accrued and unpaid interest, if any, to date of purchase.

As a result of our redemption of the 7-3/8% Notes, as of February 7, 2011, the 2017 Notes are fully and unconditionally guaranteed, jointly and severally, by certain of our wholly-owned domestic subsidiaries. The 2017 Notes will rank equally with the notes offered hereby.

Covenants

The indenture governing the 2017 Notes contains covenants that, among others, limit our ability and the ability of our subsidiaries to: (1) incur additional indebtedness; (2) create or incur certain liens; (3) pay dividends and make other restricted payments; (4) create restrictions on dividend and other payments to us from certain of our subsidiaries; (5) sell assets and subsidiary stock; (6) engage in transactions with affiliates; (7) sell or issue capital stock of certain of

In this section, entitled Description of the Notes, references to Terex, the Company, we, our or us, are to Terex Corporation and not its subsidiaries. Certain terms used in this description are defined under the subheading Certain Definitions.

General

Principal of, premium, if any, and interest on the notes will be payable, and the notes may be exchanged or transferred, at the office or agency of Terex in the Borough of Manhattan, the City of New York (which initially shall be the corporate trust office of the Trustee, at 452 Fifth Avenue, New York, New York 10018, Attention: Corporate Trust & Loan Agency), except that, at the option of Terex, payment of interest may be made by check mailed to the address of the holders as such address appears in the note register.

The notes will be issued only in fully registered form, without coupons, in denominations of \$2,000 and any integral multiple of \$1,000. See Book Entry, Delivery and Form. No service charge shall be made for any registration or exchange of notes, but Terex may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

Brief Description of the Terms of the Notes

The notes:

.

will be unsecured senior obligations of Terex;

.

will be *pari passu* in right of payment with all existing and future Senior Indebtedness of Terex, but will be effectively junior to all secured Indebtedness to the extent of the collateral securing such Indebtedness;

.

will initially be fully and unconditionally guaranteed on a senior unsecured basis by the Subsidiary Guarantors;

.

may be guaranteed in the future on a senior basis by certain of our domestic Restricted Subsidiaries as described under Certain Covenants Future Subsidiary Guarantors;

.

will be structurally subordinated to all existing and future Indebtedness, claims of holders of Preferred Stock and other liabilities of Subsidiaries of Terex except those Subsidiaries that Guarantee the notes; and

.

are senior in right of payment to all Subordinated Obligations of Terex.

Subject to compliance with the covenant described under Certain Covenants Limitation on Indebtedness and Preferred Stock, we may issue additional notes from time to time after this offering under the Indenture (the additional notes). The notes and the additional notes, if any, will be treated as a single class for all purposes of the Indenture, including waivers, amendments, redemptions and offers to purchase. Unless the context requires otherwise, for all purposes of this Description of the Notes, references to the notes include any additional notes actually issued. The notes will be subordinate in right of payment to certain of our other debt obligations as described below.

Subsidiary Guarantees

The Subsidiary Guarantors, as primary obligors and not merely as sureties, will initially jointly and severally, fully and unconditionally guarantee, on an unsecured senior basis, the performance and full and punctual payment when due, whether at maturity, by acceleration or otherwise, of all obligations, of Terex under the Indenture and the Notes, whether for payment of principal of, any premium or interest on or Additional Interest in respect of the Notes, expenses, indemnification or otherwise, on the terms set forth in the Indenture by executing the Indenture.

The Subsidiary Guarantors will initially guarantee the Notes. None of our Foreign Subsidiaries will guarantee the Notes. Each of the Guarantees of the Notes will be a general unsecured obligation of each Subsidiary Guarantor, will be *pari passu* in right of payment with all existing and future Senior Indebtedness of each such Subsidiary Guarantor and will be effectively subordinated to all secured Indebtedness of each such Subsidiary Guarantor to the extent of the collateral securing such Indebtedness, and will be senior in right of payment to all existing and future Subordinated Obligations (including guarantees of the Existing Subordinated Notes) of each such entity. The Notes will be structurally subordinated to Indebtedness, claims of holders of Preferred Stock and other liabilities of Subsidiaries of the Issuers that do not Guarantee the Notes.

Not all of Terex's Subsidiaries will Guarantee the Notes. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor Subsidiaries, the non-guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to Terex. For the year ended December 31, 2011, before intercompany eliminations, our Subsidiaries that are not Subsidiary Guarantors accounted for approximately 63% of Terex's net sales, and approximately 6% of Terex's net (loss) income attributable to Terex Corporation, and as of December 31, 2011, before intercompany eliminations, our Subsidiaries that are not Subsidiary Guarantors accounted for approximately 68% of the total assets, and approximately 80% of Terex's current liabilities. See Note S Consolidated Financial Statements to Terex's Annual Report on Form 10-K for the year ended December 31, 2011, which provides information relating to our guarantor and non-guarantor subsidiaries.

The obligations of each Subsidiary Guarantor under its Guarantee will be limited as necessary to prevent the Guarantee from constituting a fraudulent conveyance under applicable law.

Any entity that makes a payment under its Guarantee will be entitled upon payment in full of all guaranteed obligations under the Indenture to a contribution from each other Subsidiary Guarantor in an amount equal to such other Subsidiary Guarantor's pro rata portion of such payment based on the respective net assets of all the Subsidiary Guarantors at the time of such payment determined in accordance with GAAP.

If a Guarantee were rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the Subsidiary Guarantor, and, depending on the amount of such indebtedness, a Subsidiary Guarantor's liability on its Guarantee could be reduced to zero. See Risk Factors Risks Related to the Notes Federal and state fraudulent transfer laws may permit a court to void the notes and the guarantees, and, if that occurs, you may not receive any payments on the notes.

A Guarantee by a Subsidiary Guarantor shall provide by its terms that it shall be automatically and unconditionally released and discharged upon:

(1)

any sale, exchange or transfer (by merger or otherwise) of the Capital Stock of such Subsidiary Guarantor (including any sale, exchange or transfer, after which the applicable Subsidiary Guarantor is no longer a Restricted Subsidiary) if such sale, exchange or transfer is made in compliance with the applicable provisions of the Indenture;

(2)

the release or discharge of the guarantee by such Subsidiary Guarantor of the Credit Facility, the Existing Notes and any guarantee which resulted in the creation of such Guarantee, except a discharge or release by or as a result of payment under such guarantee;

(3)

the proper designation of any Restricted Subsidiary that is a Subsidiary Guarantor as an Unrestricted Subsidiary in accordance with the provisions set forth under Certain Covenants Limitation on Restricted Payments and the definition of Unrestricted Subsidiary;

(4)

the Issuers exercising their legal defeasance option or covenant defeasance option as described under Legal Defeasance and Covenant Defeasance or the Issuers obligations under the Notes being discharged in accordance with the terms of the Indenture;

(5)

during a Suspension Period; and

(6)

such Subsidiary Guarantor delivering to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that all conditions precedent provided for in the Indenture relating to such transaction have been complied with.

Principal, Maturity and Interest

We will issue an aggregate principal amount of \$300 million of notes. The notes will mature on April 1, 2020. Interest on the notes will accrue at a rate of 6.50% per annum. Interest on the notes will be payable semiannually to holders of record at the close of business on the March 15 or September 15 immediately preceding the interest payment date on April 1 and October 1 of each year, commencing October 1, 2012. We will pay interest on overdue principal at 1% per annum in excess of such rate, and will pay interest on overdue installments of interest at such higher rate to the extent lawful. Interest on the notes will be computed on the basis of a 360-day year of twelve 30-day months.

Optional Redemption

Except as set forth below, we will not be entitled to redeem the notes at our option.

At any time prior to April 1, 2016, we may redeem all or a portion of the notes, in whole or in part, at any time or from time to time, upon notice as described under *Selection and Notice*, at a redemption price equal to 100% of the principal amount of the notes redeemed plus the Applicable Premium as of, plus accrued and unpaid interest, if any, to the date of redemption (the *Redemption Date*), subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date.

On and after April 1, 2016, we will be entitled at our option to redeem all or a portion of the notes, in whole or in part, at any time or from time to time, upon not less than 30 nor more than 60 days prior notice mailed by first-class mail to each holder's registered address and otherwise as described under *Selection and Notice*, at the following redemption prices (expressed in percentages of principal amount), plus accrued interest to the *Redemption Date* (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the 12-month period commencing on April 1 of the years set forth below:

<u>Redemption Period</u>	<u>Price</u>
2016	103.250%
2017	101.625
2018 and thereafter	100.000

In addition, before April 1, 2015, we may at our option on one or more occasions redeem in the aggregate up to 35.0% of the original principal amount of the notes (including the original principal amount of any additional notes that are notes) with the proceeds of one or more Equity Offerings, at a redemption price (expressed as a percentage of principal amount) of 106.50% plus accrued interest to the *Redemption Date* (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided, however*, that at least 65% of the aggregate principal amount of the notes originally outstanding remains outstanding (including the original principal amount of any additional notes that are notes) after each such redemption.

Selection and Notice

In the case of any partial redemption, we will select the notes for redemption in accordance with the requirements of the principal national securities exchange, if any, on which the notes are listed or, if the notes are not listed on a securities exchange, the trustee will select the notes on a pro rata basis to the extent practicable, although no note in original principal amount of \$2,000 or less shall be redeemed in part. If any new note is to be redeemed in part only, the notice of redemption relating to such note shall state the portion of the principal amount thereof to be redeemed.

A new note in principal amount equal to the unredeemed portion thereof will be issued in the name of the holder thereof upon cancellation of the original note. Notes called for redemption become due on the date fixed for

redemption. On and after the redemption date, interest ceases to accrue on notes or portions of them called for redemption.

Notices of redemption shall be mailed by first-class mail, postage prepaid, at least 30 days but not more than 60 days before the Redemption Date to each holder at such holder's registered address, except that notices of redemption may be mailed more than 60 days prior to a Redemption Date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the Indenture. If any note is to be redeemed in part only, any notice of redemption that relates to such note shall state the portion of the principal amount thereof to be redeemed.

Any notice of redemption upon any Equity Offering or in connection with a transaction (or series or related transactions) that constitute a Change of Control, may, at Terex's discretion, be given prior to the completion thereof and be subject to the completion of the related Equity Offering or Change of Control.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

We are not required to make any mandatory redemption or sinking fund payments with respect to the notes. However, under certain circumstances, we may be required to offer to purchase notes as described under **Change of Control** and **Certain Covenants** **Limitation on Sales of Assets and Subsidiary Stock**. We may at any time and from time to time purchase notes in the open market or otherwise.

Ranking

The Indebtedness evidenced by the notes will be our senior obligations. The payment of the principal of, premium (if any), and interest on the notes is *pari passu* with all of our Senior Indebtedness, including the obligations of Terex under the Credit Facility.

The notes will rank *pari passu* in right of payment with all of our other existing and future Senior Indebtedness and will be effectively subordinated to all of our secured Indebtedness to the extent of the collateral securing such Indebtedness. Furthermore, the notes will rank senior in right of payment to all of our Subordinated Obligations. See **Risk Factors** **Risks Related to this Offering** The notes will be structurally subordinated to all liabilities of certain of our subsidiaries, including senior subordinated obligations of such subsidiaries.

As of December 31, 2011, on an as adjusted basis, after giving effect to this offering, (i) the Senior Indebtedness of Terex, with which the notes are *pari passu*, would have been \$1,306.3 million, consisting of \$710.8 million of Indebtedness Incurred under the Credit Facility, \$295.5 million of the 2016 Notes and \$300.0 million from the notes offered hereby and (ii) there would have been \$937.3 million of Subordinated Obligations ranking junior to the notes. As of December 31, 2011, the non-guarantor subsidiaries, excluding unrestricted subsidiaries, had \$546.8 million of debt outstanding, \$173.7 million of which is represented by debt incurred by Demag Cranes AG under the Demag Cranes Credit Agreement.

Although the Indenture contains limitations on the amount of additional Indebtedness that Terex and its subsidiaries may incur, under certain circumstances the amount of such Indebtedness could be substantial. See **Certain Covenants** **Limitation on Indebtedness and Preferred Stock**.

In addition, claims of creditors of our non-guarantor Subsidiaries, including trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by such subsidiaries, and claims of preferred stockholders (if any) of such subsidiaries, generally will have priority with respect to the assets and earnings of such subsidiaries over the claims of our creditors, including the holders of the notes, even if such obligations do not constitute Senior Indebtedness. The notes therefore will be effectively subordinated to existing and future liabilities of our non-guarantor Subsidiaries.

Although the Indenture limits the incurrence of Indebtedness and preferred stock by certain of our subsidiaries, such limitation is subject to a number of significant qualifications. Moreover, the Indenture does not impose any limitation on the incurrence by such subsidiaries of liabilities that are not considered Indebtedness under the Indenture. See

Certain Covenants **Limitation on Indebtedness and Preferred Stock** and **Risk Factors** **Risks Related to this Offering** The notes will be structurally subordinated to all liabilities of our non-guarantor Subsidiaries.

Change of Control

If we undergo a Change of Control, each holder shall have the right to require us to repurchase all or any part of such holder's notes at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Not later than 15 Business Days following any Change of Control, we will mail a notice to the trustee and to each holder stating, among other things:

(1)

that a Change of Control has occurred and that such holder has the right to require us to purchase such holder's notes at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of holders of record on the relevant record date to receive interest on the relevant interest payment date);

(2)

the circumstances and relevant facts regarding such Change of Control (including information with respect to pro forma historical income, cash flow and capitalization after giving effect to such Change of Control);

(3)

the repurchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed); and

(4)

the instructions determined by us, consistent with the covenant described hereunder, that a holder must follow in order to have its notes purchased.

We will comply in all material respects to the extent applicable with the requirements of Section 14(e) of the Securities Exchange Act of 1934, as amended, and any other securities laws or regulations in connection with the repurchase of notes as a result of a Change in Control. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the covenant described hereunder, we will comply with the applicable securities laws and regulations and shall not be deemed to have breached our obligations under the Indenture by virtue of our compliance with such securities laws or regulations.

Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise materially affect our capital structure or credit ratings. Restrictions on our ability to Incur additional Indebtedness are contained in the covenant described under Certain Covenants Limitation on Indebtedness and Preferred Stock. However, the covenants are subject to significant exceptions. Such restrictions can only be waived with the consent of the holders of a majority in principal amount of the notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford holders protection in the event of a highly leveraged transaction.

Holders may not be entitled to require us to purchase their notes in certain circumstances involving a significant change in the composition of our Board of Directors, including in connection with a proxy contest where our Board of Directors does not approve a dissident slate of directors but approves them as continuing directors, even if our Board of Directors initially opposed the directors.

The definition of Change of Control includes a disposition of all or substantially all of the assets of Terex to any Person. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of all or substantially all of the assets of Terex. As a result, it may be unclear as to whether a Change of Control has occurred and whether a holder of notes may require Terex to make an offer to repurchase the notes as described above.

If a Change of Control offer is made, we cannot assure the holders that we will have available funds sufficient to pay the purchase price for all of the notes that might be delivered by holders seeking to accept the Change of Control offer. Our failure to make or consummate the Change of Control offer or pay the purchase price when due will give the trustee and the holders the rights described under Defaults.

The existence of a holder's right to require us to offer to repurchase such holder's notes upon a Change of Control may deter a third party from acquiring Terex in a transaction that constitutes a Change of Control.

The Credit Facility, under certain circumstances, prohibits us from purchasing any notes prior to its expiration, and will also provide that the occurrence of certain change of control events with respect to Terex would constitute a default thereunder. In the event a Change of Control occurs at a time when we are prohibited from purchasing notes, we may (but are not required to) seek the consent of our lenders to the purchase of notes or may (but are not required to) attempt to refinance the borrowings that contain such prohibition.

Future Indebtedness that we may Incur may contain prohibitions on the occurrence of certain events that would constitute a Change of Control or require such Indebtedness to be repaid or repurchased upon a Change of Control. Moreover, the exercise by the holders of their right to require us to repurchase the notes could cause a default under such Indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on us. Finally, our ability to pay cash to the holders following the occurrence of a Change of Control may be limited by our then existing financial resources. We cannot assure the holders that sufficient funds will be available when necessary

to make any required repurchases.

The provisions under the Indenture relating to our obligation to make an offer to repurchase the notes after the occurrence a Change of Control may be waived or modified with the written consent of each holder of notes then outstanding. Prior to the occurrence of a Change of Control, the provisions under the Indenture relative to our obligation to make an offer to repurchase the notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the notes.

S-30

We will not be required to make a Change of Control offer following a Change of Control if a third party makes the Change of Control offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control offer made by us and purchases all notes validly tendered and not withdrawn under such Change of Control offer.

A Change of Control offer may be made in advance of the Change of Control, and conditioned upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of the making of the Change of Control offer.

Certain Covenants

Set forth below are summaries of certain covenants contained in the Indenture. During any period of time that (i) the notes have Investment Grade Ratings from both Rating Agencies, and (ii) no Default has occurred and is continuing under the Indenture (the occurrence of the events described in the foregoing clauses (i) and (ii) being collectively referred to as a Covenant Suspension Event) then, the covenants specifically listed under the following captions in this Description of the Notes section of this offering circular will not be applicable to the notes (collectively, the Suspended Covenants):

(1)

Limitation on Indebtedness and Preferred Stock;

(2)

Limitation on Sale/Leaseback Transactions;

(3)

Limitation on Restricted Payments;

(4)

Limitation on Restrictions on Distributions from Restricted Subsidiaries;

(5)

Limitation on Sales of Assets and Subsidiary Stock;

(6)

Limitation on Affiliate Transactions;

(7)

clause (3) of the first and second paragraphs under Merger and Consolidation;

(8)

Future Subsidiary Guarantors; and

(9)

Limitation on Designations of Unrestricted Subsidiaries.

If and while Terex and its Restricted Subsidiaries are not subject to the Suspended Covenants, the notes will be entitled to substantially less covenant protection. In the event that Terex and its Restricted Subsidiaries are not subject to the Suspended Covenants under the Indenture for any period of time as a result of the foregoing, and on any subsequent date (the Reversion Date) one or both of the Rating Agencies withdraw their Investment Grade Rating or downgrade the rating assigned to the notes below an Investment Grade Rating, then Terex and its Restricted Subsidiaries will thereafter again be subject to the Suspended Covenants under the Indenture with respect to future events. The period of time between the Suspension Date and the Reversion Date is referred to in this description as the Suspension Period. Any Subsidiary Guarantees granted by the Subsidiary Guarantors prior to any Suspension Period will be suspended during the Suspension Period. Additionally, upon the occurrence of a Covenant Suspension Event, the amount of Excess Proceeds from Net Proceeds shall be reset to zero.

Notwithstanding the foregoing, in the event of any such reinstatement, no action taken or omitted to be taken by Terex or any of its Restricted Subsidiaries prior to the Reversion Date will give rise to a Default or Event of Default under the Indenture with respect to the notes; *provided* that (1) with respect to Restricted Payments made after such Reversion Date, the amount of Restricted Payments made will be calculated as though the covenant described above under the caption Limitation on Restricted Payments had been in effect prior to and during the Suspension Period, (2) all Indebtedness incurred or issued, or Disqualified Stock issued, during the Suspension Period will be classified to have been incurred or issued pursuant to clause (5) of the second paragraph of Limitation on Indebtedness and Preferred Stock, (3) to the extent any Indebtedness is incurred or issued during the Suspension Period that would have required the Restricted Subsidiaries to become Subsidiary Guarantors and such Indebtedness is outstanding on the Reversion Date, such requirement will become effective on the Reversion Date, (4) to the extent any Liens are incurred during the Suspension Period such Liens will be classified to have been incurred pursuant to clause (11) of Certain Definitions Permitted Liens and (5) the applicable Subsidiary Guarantees will be reinstated to the extent required by the covenant Future Subsidiary Guarantors.

There can be no assurance that the notes will ever achieve or maintain an Investment Grade Rating.

The Indenture contains covenants including, among others, the following:

Limitation on Indebtedness and Preferred Stock

(a)

Terex will not, and will not permit any Restricted Subsidiary to, directly or indirectly, Incur any Indebtedness (including Acquired Indebtedness); *provided* that Terex may Incur Indebtedness (including Acquired Indebtedness), and any Restricted Subsidiary may incur Indebtedness (including Acquired Indebtedness) and issue Preferred Stock if, on the date of such Incurrence, and after giving pro forma effect thereto, (i) no Default or Event of Default shall have occurred and be continuing or would occur and (ii) the Consolidated Cash Flow Coverage Ratio for the most recently ended four full fiscal quarters for which financial information is publicly available immediately preceding the date on which such additional Indebtedness is Incurred would have exceeded 2.0 to 1.0 determined on a pro forma basis (including a pro forma application of the net proceeds therefrom), as if the additional Indebtedness had been incurred, and the application of the proceeds therefrom had occurred at the beginning of such four-quarter period.

(b)

(2)

Indebtedness of Terex owed to and held by a Restricted Subsidiary or Indebtedness or Preferred Stock of a Restricted Subsidiary issued to and held by Terex or a Restricted Subsidiary; *provided*, however, that (A) any subsequent issuance or transfer of any Capital Stock that results in any such Subsidiary ceasing to be a Restricted Subsidiary, or (B) any subsequent transfer of such Indebtedness or Preferred Stock (other than to Terex or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Indebtedness or Preferred Stock by the issuer thereof;

(3)

the notes (other than additional notes);

(4)

Acquired Indebtedness of any Restricted Subsidiary or any Indebtedness incurred to finance acquisitions; *provided, however*, that after giving effect to the Incurrence of such Acquired Indebtedness, either Terex could incur \$1.00 of Indebtedness pursuant to paragraph (a) above or the Consolidated Cash Flow Coverage Ratio of Terex would be greater than immediately prior to such merger, consolidation or acquisition of assets giving rise to the Incurrence of such Indebtedness.

(5)

(6)

any Refinancing Indebtedness in respect of Indebtedness or, in the case of a Restricted Subsidiary, Preferred Stock Incurred pursuant to paragraph (a) or referred to in clause (3), (4) or (5) or this clause (6) of this paragraph (b); *provided, however*, that to the extent such Refinancing Indebtedness Refinances Acquired Indebtedness or Preferred Stock of a Restricted Subsidiary that is not a Wholly Owned Subsidiary, such Refinancing Indebtedness shall be Incurred only by such Restricted Subsidiary;

(7)

Obligations of Terex or a Restricted Subsidiary pursuant to (A) Interest Rate Protection Agreements in respect of Indebtedness of Terex or the Restricted Subsidiary that is permitted by the terms of the Indenture to be outstanding to the extent the notional principal amount of such obligation does not exceed the aggregate principal amount of the Indebtedness to which such Interest Rate Protection Agreements relate, (B) Currency Agreement Obligations in respect of foreign exchange exposures of Terex or such Restricted Subsidiary and (C) commodity agreements of Terex or such Restricted Subsidiary to the extent designed to protect Terex or such Restricted Subsidiary from fluctuations in the prices of raw materials used in its business;

(8)

Indebtedness of Terex or any Restricted Subsidiary consisting of Obligations in respect of purchase price adjustments in connection with the acquisition or disposition of assets by Terex or any Restricted Subsidiary permitted under the Indenture;

(9)

Capital Lease Obligations, Purchase Money Indebtedness and Acquired Indebtedness in an aggregate principal amount at any one time outstanding that does not exceed the greater of (i) \$200 million and (ii) 4.0% of Consolidated Tangible Assets at the time of Incurrence;

(10)

(15)

Indebtedness of a Foreign Subsidiary of Terex Incurred to finance working capital or for other operational purposes of such Foreign Subsidiary, including capital expenditures and acquisitions;

(16)

Indebtedness Incurred by a Receivables Subsidiary in a Qualified Receivables Financing that is not with recourse to Terex or any Restricted Subsidiary other than a Receivables Subsidiary (except for Standard Securitization Undertakings);

(17)

Indebtedness consisting of (A) financing of insurance premiums or (B) take-or-pay obligations contained in supply arrangements, in each case, in the ordinary course of business; and

(18)

the Guarantee by Terex or any Restricted Subsidiary of Indebtedness of Terex or any other Restricted Subsidiary that was permitted to be Incurred by another provision of this covenant; *provided, however*, that if the Indebtedness being guaranteed is subordinated to or *pari passu* with the Notes, then the Guarantee thereof Incurred pursuant to this clause (18) shall be subordinated or *pari passu*, as applicable, to the same extent as the Indebtedness being Guaranteed;

(19)

Indebtedness Incurred by Terex or any Restricted Subsidiary constituting reimbursement obligations with respect to letters of credit issued in the ordinary course of business, including letters of credit in respect of workers compensation claims, leases, litigation and appeals thereof, health, disability or other employee benefits or property, casualty or liability insurance or self-insurance, or other Indebtedness with respect to reimbursement type obligations regarding workers compensation claims, environmental and other permits or licenses from governmental authorities and other letters of credit in connection with transactions in the ordinary course of business; *provided, however*, that upon the drawing of such letters of credit, such obligations are reimbursed within 30 days following such drawing;

(20)

(c)

Except to the extent that such Indebtedness is permitted to be Incurred pursuant to paragraph (a) above, Terex will not Incur any Indebtedness if the proceeds thereof are used, directly or indirectly, to repay, prepay, redeem, defease, retire, refund or refinance any Subordinated Obligations unless such Indebtedness shall be subordinated to the notes to at least the same extent as such Subordinated Obligations.

(d)

For purposes of determining compliance with the covenant entitled Limitation on Indebtedness and Preferred Stock, in the event that an item of Indebtedness meets the criteria of more than one of the types of permitted Indebtedness described in clauses (1) through (20) of paragraph (b) above or is entitled to be Incurred pursuant to paragraph (a) above, Terex, in its sole discretion, will classify or reclassify, or later divide, classify or reclassify, such item of Indebtedness in any manner that complies with this covenant; *provided, however*, that all Indebtedness under the Credit Agreement outstanding on the Issue Date shall be deemed to have been Incurred pursuant to clause (b)(1) above and Terex shall not be permitted to reclassify all or any portion of such Indebtedness under the Credit Agreement outstanding on the Issue Date. Terex shall only be required to include the amount and type of any Indebtedness in one of the above clauses. To the extent any item of Indebtedness that is Guaranteed or secured by a Lien is reclassified, each of the Incurrence of the Indebtedness upon reclassification, the Incurrence of the Guarantee of such Indebtedness upon reclassification and the Incurrence of the Lien upon reclassification must be permitted under the Indenture in order for Terex to make such reclassification.

(d)

For purposes of determining amounts of Indebtedness under the covenant entitled Limitation on Indebtedness and Preferred Stock, Indebtedness resulting from security interests granted with respect to Indebtedness otherwise included in the determination of Indebtedness, and Guarantees (and security interests with respect thereof) of, or obligations with respect to letters of credit supporting, Indebtedness otherwise included in the determination of Indebtedness shall not be included in the determination of Indebtedness.

(e)

Indebtedness of any Person which is outstanding at the time such Person becomes a Restricted Subsidiary of Terex (including upon designation of any subsidiary or other person as a Restricted Subsidiary) or is merged with or into or consolidated with Terex or a Restricted Subsidiary of Terex shall be deemed to have been Incurred at the time such Person becomes such a Restricted Subsidiary of Terex or merged with or into or consolidated with Terex or a Restricted Subsidiary of Terex, as applicable.

(f)

For purposes of determining compliance with the covenant entitled Limitation on Indebtedness and Preferred Stock, the Incurrence of Indebtedness with respect to keepwell or other comfort letter arrangements or agreements given by Terex for the benefit of Unrestricted Subsidiaries shall be deemed to be an Incurrence of Indebtedness at such time as the amount of the obligation of Terex thereunder is quantifiable.

(g)

For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency will be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term debt, or first committed or incurred (whichever yields the lowest U.S. dollar-equivalent), in the case of revolving credit debt; *provided* that if such Indebtedness is incurred to extend, replace, refund, refinance, renew or defease other Indebtedness denominated in a foreign currency, and such extension, replacement, refunding, refinancing, renewal or defeasance would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such extension, replacement, refunding, refinancing, renewal or defeasance, such U.S. dollar-denominated restriction shall be deemed not to have been

exceeded so long as the principal amount of such refinancing Indebtedness does not exceed the principal amount of such Indebtedness being extended, replaced, refunded, refinanced, renewed or defeased. The principal amount of any Indebtedness incurred to extend, replace, refund, refinance, renew or defease other Indebtedness, if incurred in a different currency from the Indebtedness being extended, replaced, refunded, refinanced, renewed or defeased, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such extension, replacement, refunding, refinancing, renewal or defeasance.

Limitation on Liens

Terex will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or Incur any Lien (the Initial Lien), other than Permitted Liens, upon any of its property or assets (including Capital Stock of Restricted Subsidiaries), whether owned on the Issue Date or acquired after that date, which Lien secures any Indebtedness, unless contemporaneously with the Incurrence of such Lien effective provision is made to secure the Indebtedness due with respect to the notes or, with respect to Liens on any Restricted Subsidiary s property or assets, any Subsidiary Guarantee of such Restricted Subsidiary, equally and ratably with (or prior to in the case of Liens with respect to Subordinated Obligations) the Indebtedness secured by such Lien for so long as such Indebtedness is so secured. Any Lien created for the benefit of the Holders of the notes pursuant to the preceding sentence shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged (a) upon the release and discharge of the Initial Lien, (b) upon the sale or other disposition of the assets subject to such Initial Lien (or the sale or other disposition of the Person that owns such assets) in

compliance with the terms of the Indenture, (c) upon the designation of a Restricted Subsidiary whose property or assets secure such Initial Lien as an Unrestricted Subsidiary in accordance with the terms of the Indenture or (d) upon the effectiveness of any defeasance or satisfaction and discharge of the notes as specified in the Indenture.

Limitation on Sale/Leaseback Transactions

Terex will not, and will not permit any Restricted Subsidiary, to, enter into any Sale/Leaseback Transaction with respect to any property unless: (1) Terex or such Restricted Subsidiary would be entitled to (A) Incur Indebtedness in an amount equal to the Attributable Indebtedness with respect to such Sale/Leaseback Transaction pursuant to the covenant described under *Limitation on Indebtedness and Preferred Stock* and (B) create a Lien on such property securing such Attributable Indebtedness without equally and ratably securing the notes pursuant to the covenant described under *Limitation on Liens*, *provided, however*, that whether or not Terex could create such a Lien as described in this clause (1)(B), and in addition to any Permitted Liens, Terex shall be entitled to create Liens to secure Attributable Indebtedness in respect of Sale/Leaseback Transactions in an aggregate principal amount at any one given time outstanding that does not exceed 2.0% of Consolidated Tangible Assets at the time of Incurrence without equally and ratably securing the notes; (2) the gross proceeds received by Terex or any Restricted Subsidiary in connection with such Sale/Leaseback Transaction are at least equal to the fair market value of such property; and (3) to the extent that such Sale/Leaseback Transaction involves an Asset Disposition, Terex applies the proceeds of such transaction in compliance with the covenant described under *Limitation on Sales of Assets and Subsidiary Stock*.

(3)

the aggregate amount of such Restricted Payment and all other Restricted Payments since March 31, 1998 would exceed the sum of:

(A)

In determining whether any Restricted Payment is permitted by this covenant, Terex and its Restricted Subsidiaries may allocate all or any portion of such Restricted Payment among the categories described in clauses (1) through (15) of the immediately preceding paragraph or among such categories and the types of Restricted Payments described in the first paragraph of this covenant (including categorization in whole or in part as a Permitted Investment); provided that, at the time of such allocation, all such Restricted Payments, or allocated portions thereof, would be permitted under the various provisions of this covenant and provided further that Terex and its Restricted Subsidiaries may, consistent with the terms of this covenant, reclassify all or a portion of such Restricted Payment or Permitted Investment in any manner that complies with this covenant (based on circumstances existing at the time of such reclassification), and following such reclassification such Restricted Payment or Permitted Investment shall be treated as having been made pursuant to only the clause or clauses of this covenant to which such Restricted Payment or Permitted Investment has been reclassified.

S-37

For purposes of determining when a Restricted Payment is made in respect of a keepwell or other comfort letter arrangement or agreement by Terex or any Restricted Subsidiary for the benefit of an Unrestricted Subsidiary, such Restricted Payment shall be deemed made at such time as the amount of the obligation of Terex or such Restricted Subsidiary is quantifiable.

Limitation on Restrictions on Distributions from Restricted Subsidiaries

Terex will not, and will not permit any Restricted Subsidiary to, directly or indirectly, create or become effective any encumbrance or restriction on the ability of any Restricted Subsidiary to (a) pay dividends or make any other distributions on its Capital Stock or with respect to any other interest or participation in, or measured by, its profits to Terex or a Restricted Subsidiary or pay any Indebtedness or other obligation owed to Terex or a Restricted Subsidiary, (b) make any loans or advances to Terex or any other Restricted Subsidiary or (c) transfer any of its property or assets to Terex or any other Restricted Subsidiary, except for such encumbrances or restrictions existing under or by reason of:

(1)

the Credit Facility or any other agreement or instrument as in effect on the Issue Date, and any amendments, restatements, renewals, replacements or refinancings thereof; *provided, however*, that such amendments, restatements, renewals, replacements or refinancings are no more materially restrictive with respect to such dividend and other payment restrictions than those contained in the Credit Facility or such agreement (or, if more restrictive, than those contained in the Indenture) immediately prior to any such amendment, restatement, renewal, replacement or refinancing,

(2)

applicable law or any applicable rule, regulation or order,

(3)

any instrument governing Indebtedness or Capital Stock of an Acquired Person acquired by Terex or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Indebtedness was incurred in connection with or in contemplation of such acquisition); *provided, however*, that such restriction is not applicable to any Person, or the properties or assets of any Person, other than the Acquired Person,

(4)

by reason of customary non-assignment provisions in leases or other agreements entered into the ordinary course of business and consistent with past practices,

(5)

Capital Lease Obligations and Purchase Money Indebtedness that only impose restrictions on the property so acquired,

(6)

an agreement for the sale or disposition of the Capital Stock or assets of such Restricted Subsidiary; *provided, however*, that such restriction is only applicable to such Restricted Subsidiary or assets, as applicable, and such sale or disposition otherwise is permitted under **Limitation on Sales of Assets and Subsidiary Stock** below,

(7)

Refinancing Indebtedness permitted under the Indenture; *provided, however*, that the restrictions contained in the agreements governing such Refinancing Indebtedness are no more materially restrictive in the aggregate than those contained in the agreements governing the Indebtedness being refinanced immediately prior to such refinancing,

(8)

provisions in joint venture agreements, sale-leaseback agreements, partnership agreements, limited liability company operating agreements and other similar agreements, in each case entered into in the ordinary course of business,

(9)

any encumbrance or restriction of (A) a Receivables Subsidiary effected in connection with a Qualified Receivables Financing; *provided, however*, that such restrictions apply only to such Receivables Subsidiary or (B) an Equipment Subsidiary effected in connection with a Qualified Equipment Financing; *provided, however*, that such restrictions apply only to such Equipment Subsidiary,

(10)

any Restricted Payment not prohibited by the covenant described under Limitation on Restricted Payments and any Permitted Investment,

(11)

Indebtedness secured by a Lien otherwise permitted to be Incurred pursuant to the covenants described under

Limitation on Indebtedness and Preferred Stock, and Limitation on Liens that limit the right of the debtor to dispose of the assets securing such Indebtedness,

(12)

any agreement or instrument relating to any Indebtedness permitted to be Incurred subsequent to the Issue Date by the covenant described under Limitation on Indebtedness and Preferred Stock (A) if the encumbrance and restrictions contained in any such agreement or instrument taken as a whole are not materially less favorable to the holders of the notes than the encumbrances and restrictions contained in the Credit Facility in effect as of the Issue Date (as determined in good faith by Terex) or (B) if such encumbrance or restriction is not materially more disadvantageous to the holders of the notes than is customary in comparable financings (as determined in good faith by Terex) and either (x) Terex determines that such encumbrance or restriction will not materially affect Terex's ability to make principal and interest payments on the notes as and when they become due or (y) such encumbrance or restriction applies only if a default occurs in respect of a payment or a financial covenant relating to such Indebtedness; or

(13)

any encumbrances or restrictions of the type referred to in clauses (a), (b) and (c) above imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (1) through (12) above; *provided, however*, that such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith judgment of Terex, no more materially restrictive with respect to such dividend and other payment restrictions than those contained in the dividend or other payment restrictions prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing.

Notwithstanding the foregoing, neither (a) customary provisions restricting subletting or assignment of any lease entered into in the ordinary course of business, consistent with past practice, nor (b) Liens permitted under the Indenture, shall in and of themselves be considered a restriction on the ability of the applicable Restricted Subsidiary to transfer such agreements or assets, as the case may be.

Limitation on Sales of Assets and Subsidiary Stock

(a)

Terex will not, and will not permit any Restricted Subsidiary to, make any Asset Disposition unless:

(1)

Terex or such Restricted Subsidiary receives consideration at the time of such Asset Disposition at least equal to the fair market value, as determined in good faith by Terex (including as to the value of all non-cash consideration), of the shares and assets subject to such Asset Disposition and at least 75% of the consideration thereof received by Terex or such Restricted Subsidiary, as the case may be, is in the form of cash or Cash Equivalents; *provided, however*, that

(A) any promissory notes or other obligations received by Terex or any such Restricted Subsidiary from such transferee that are converted by Terex or such Restricted Subsidiary into cash within 360 days of the receipt thereof (to the extent of the cash received) shall be deemed to be cash solely for purposes of this clause (1), and

(B) any Designated Non-cash Consideration received by Terex or any of its Restricted Subsidiaries in such Asset Disposition having an aggregate Fair Market Value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (1)(B) that is at that time outstanding, not to exceed the greater of (x) \$150.0 million and (y) 3.0% of Consolidated Tangible Assets at the time of receipt of such Designated Non-cash Consideration (with the Fair Market Value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value) shall be deemed to be cash solely for purposes of this clause (1);

S-39

(2)

an amount equal to 100% of the Net Available Cash from such Asset Disposition is applied by Terex (or such Restricted Subsidiary, as the case may be):

(A) first, (x) to the extent Terex elects (or is required by the terms of any Senior Indebtedness or any Indebtedness of any non-Guarantor Subsidiary), to prepay, repay or purchase Senior Indebtedness or Indebtedness of any non-Guarantor Subsidiary of Terex within 365 days of such Asset Disposition, (y) at Terex's election to the investment by Terex or such Restricted Subsidiary in assets to replace the assets that were the subject of such Asset Disposition or assets that (as determined in good faith by Terex) are directly related to the business of Terex and the Restricted Subsidiaries existing on the Issue Date, in each case within 365 days from the date of such Asset Disposition, or (z) a combination of the foregoing purposes within such 365-day period;

(B) second, to the extent of the balance of such Net Available Cash after application in accordance with clause (A), to make a pro rata offer to purchase notes at par (and, to the extent required by the instrument governing such Indebtedness, any other Senior Indebtedness or Indebtedness of a non-Guarantor Subsidiary designated by Terex, at a price no greater than par) plus accrued and unpaid interest, which offer can be made during the 365-day period described in clause (A) above or within 10 Business Days after such period, and

(C) third, to the extent of the balance of such Net Available Cash after application in accordance with clauses (A) and (B), for general corporate purposes otherwise permitted under the Indenture; *provided, however*, that in connection with any prepayment, repayment or purchase of Indebtedness pursuant to clause (A) or (B) above, Terex or such Subsidiary shall retire such Indebtedness and cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid or purchased.

Notwithstanding the foregoing provisions of this covenant, Terex and its Restricted Subsidiaries shall not be required to apply any Net Available Cash in accordance with this covenant except to the extent that the aggregate Net Available Cash from all Asset Dispositions (including any Asset Dispositions made since the Issue Date) which are not applied in accordance with this covenant exceeds \$50.0 million.

For the purposes of this covenant, the following is deemed to be cash or Cash Equivalents: the express assumption of Indebtedness (other than any Indebtedness that is by its terms subordinated to the notes or to any Subordinated Obligation) of Terex or any Restricted Subsidiary, but only to the extent that such assumption is effected on a basis under which there is no further recourse to Terex or any of the Restricted Subsidiaries with respect to such liabilities.

(b)

In the event of an Asset Disposition that requires the purchase of the notes (and other Senior Indebtedness or Indebtedness of any non-Guarantor Subsidiary) pursuant to clause (a)(2)(B) above, Terex or such Restricted Subsidiary will purchase notes tendered pursuant to an offer by Terex for the notes (and, to the extent required, other Senior Indebtedness or any non-Guarantor Subsidiary) at a purchase price of 100% of their principal amount (without premium) plus accrued but unpaid interest (or, in respect of such other Senior Indebtedness or Indebtedness of any non-Guarantor Subsidiary, such lesser price, if any, as may be provided for by the terms of such Senior Indebtedness or Indebtedness of any non-Guarantor Subsidiary, as applicable) in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indenture which will include, among other things, that the offer shall remain open for 20 Business Days following its commencement. If the aggregate purchase price of notes (and, to the extent required, any other Senior Indebtedness or Indebtedness of any non-Guarantor Subsidiary) tendered pursuant to such offer is less than the Net Available Cash allotted to the purchase thereof, Terex will be required to apply the remaining Net Available Cash in accordance with clause (a)(2)(C) above. Terex will not be required to make

such an offer to purchase notes (and other Senior Indebtedness or Indebtedness of any non-Guarantor Subsidiary) pursuant to this covenant if the Net Available Cash available therefor is less than \$50.0 million (which lesser amount shall be carried forward for purposes of determining whether such an offer is required with respect to any subsequent Asset Disposition).

(c)

Terex will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, Terex will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations under this clause by virtue thereof.

S-40

Limitation on Affiliate Transactions

(a)

Terex will not, and will not permit any Restricted Subsidiary to, directly or indirectly, conduct any business or enter into any transaction or series of similar transactions involving an amount in excess of \$5.0 million (including the purchase, sale, lease or exchange of any asset or property or the rendering of any service) with any Affiliate of Terex (other than any employee stock ownership plan for the benefit of Terex or a Restricted Subsidiary's employees) unless the terms of such business, transaction or series of transactions are:

(1)

as favorable to Terex or such Restricted Subsidiary as terms that would be obtainable at the time for a comparable transaction or series of similar transactions in arms-length dealings with an unrelated third Person; and

(2)

if such business, transaction or series of similar transactions involves an amount in excess of \$15.0 million, the terms of such business, transaction or series of similar transactions shall be in writing and a majority of the disinterested members of the Board of Directors shall have, by resolution, determined in good faith that such business or transaction or series of transactions meets the criteria set forth in (1) above;

provided, however, that if such transaction involves an amount in excess of \$50.0 million, Terex or such Restricted Subsidiary shall also obtain from a nationally recognized independent investment banking firm, accounting firm or appraisal firm with experience in evaluating the terms and conditions of such type of business or transactions an opinion that such transaction is fair from a financial point of view to Terex or such Restricted Subsidiary, as the case may be; *provided further, however*, that the provisions of this covenant shall not apply with respect to any such business, transaction or series of transactions between Terex or any of its Restricted Subsidiaries, on the one hand, and any of its Restricted Subsidiaries, on the other hand.

(b)

The provisions of the foregoing paragraph (a) shall not apply to:

(1)

any Restricted Payment permitted to be made pursuant to the covenant described under Limitation on Restricted Payments, any payment or transaction specifically excepted from the definition of Restricted Payment or any Permitted Investment;

(2)

any issuance of securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, employment arrangements, stock options and stock ownership plans entered into in the ordinary course of business and approved by a majority of the entire Board of Directors or by a majority of the disinterested members of the Board of Directors or a majority of the entire board of directors or a majority of the disinterested members of the board of directors of the relevant Restricted Subsidiary;

(3)

the grant of stock options or similar rights to employees and directors pursuant to plans approved by a majority of the entire Board of Directors or by a majority of the disinterested members of the Board of Directors or a majority of the entire board of directors or a majority of the disinterested members of the board of directors of the relevant Restricted Subsidiary;

(4)

loans or advances to officers, directors or employees in the ordinary course of business;

(5)

the payment of reasonable fees to directors of Terex and its Restricted Subsidiaries who are not employees of Terex or its Restricted Subsidiaries;

(6)

any business transaction or series of transactions between Terex and one or more Restricted Subsidiaries or between Restricted Subsidiaries;

(7)

indemnification or insurance provided to officers or directors of Terex or any Subsidiary approved in good faith by the Board of Directors (or a committee thereof);

(8)

payment of compensation and benefits to directors, officers and employees of Terex and its Subsidiaries approved in good faith by the Board of Directors (or a committee thereof);

(9)

the purchase of or the payment of Indebtedness of or monies owed by Terex or any of its Restricted Subsidiaries for goods or materials purchased, or services received, in the ordinary course of business;

(10)

the existence of, or the performance by Terex or any of its Restricted Subsidiaries under the terms of, any agreement or instrument as in effect on the Issue Date or any amendment thereto (so long as any such agreement or instrument together with all amendments thereto, taken as a whole, is not more disadvantageous to the holders of the notes in any material respect than the original agreement or instrument as in effect on the Issue Date) or any transaction contemplated thereby;

(11)

any transactions, arrangements or agreements effected as part of a Qualified Receivables Financing or a Qualified Equipment Financing;

(12)

intercompany transactions, arrangements or agreements in effect on the Issue Date;

(13)

transactions with joint ventures, Unrestricted Subsidiaries or other Affiliates entered into in the ordinary course of business or where the Affiliate relationship arises by virtue of its equity ownership interest; and

(14)

the payment of premiums, receipt of proceeds and other finance-related transactions in each case on terms customary for such transactions between Terex or any Restricted Subsidiary of Terex and any Affiliate of Terex that is a captive finance entity whose primary business is providing financing to customers of Terex or any Restricted Subsidiary.

Merger and Consolidation

Terex will not, in a single transaction or a series of related transactions, consolidate with or merge with or into, or convey, transfer or lease all or substantially all its assets (computed on a consolidated basis) to, any Person or group of affiliated Persons, unless:

(1)

the resulting, surviving or transferee Person shall be Terex or, if not Terex, shall be a corporation, partnership or limited liability company organized and existing under the laws of the United States of America, any State thereof or the District of Columbia (the Successor Company), and such Successor Company shall expressly assume, by an indenture supplemental to the Indenture, executed and delivered to the trustee, all the obligations of Terex under the notes and this Indenture (and the Subsidiary Guarantees, if applicable, shall be confirmed as applying to such Person's obligations);

(2)

at the time of and immediately after giving effect to such transaction or transactions on a pro forma basis (and treating any Indebtedness which becomes an obligation of the resulting, surviving or transferee Person or any Subsidiary as a result of such transaction as having been Incurred by such Person or such Subsidiary at the time of such transaction), no Default or Event of Default shall have occurred and be continuing;

(3)

immediately after giving effect to such transaction, the resulting, surviving or transferee Person would be able to Incur at least \$1.00 of Indebtedness pursuant to paragraph (a) of the Limitation on Indebtedness and Preferred Stock or the Consolidated Cash Flow Coverage Ratio of the resulting, surviving or transferee Person would be greater than immediately prior to such transaction; and

(4)

Terex shall have delivered to the trustee an Officers Certificate and if a supplemental indenture is required, an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture.

The Successor Company will be the successor to Terex and shall succeed to, and be substituted for, and may exercise every right and power of, Terex under the Indenture, and the predecessor company, in the case of a conveyance, transfer or lease, shall be released from its obligations under the notes.

For purposes of the foregoing, the transfer (by lease, assignment, sale or otherwise) of all or substantially all of the properties and assets of one or more Subsidiaries, Terex's interest in which constitutes all or substantially all of the properties and assets of Terex will be deemed to be the transfer of all or substantially all of the properties and assets of Terex.

S-42

Terex will not permit any Subsidiary Guarantor to consolidate with or merge with or into, or convey, transfer or lease, in one transaction or a series of transactions, all or substantially all of its assets to, any Person unless:

(1)

the resulting, surviving or transferee Person shall be Terex or a Subsidiary Guarantor or, if not Terex or such a Subsidiary Guarantor, shall be an entity organized and existing under the laws of the jurisdiction under which such Subsidiary was organized or under the laws of the United States of America, or any State thereof or the District of Columbia, and such Person shall expressly assume, by executing a Subsidiary Guarantee, all the obligations of such Subsidiary, if any, under its Subsidiary Guarantee;

(2)

immediately after giving effect to such transaction or transactions on a pro forma basis (and treating any Indebtedness which becomes an obligation of the resulting, surviving or transferee Person as a result of such transaction as having been issued by such Person at the time of such transaction), no Default or Event of Default shall have occurred and be continuing; and

(3)

Terex delivers to the trustee an Officers Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such Subsidiary Guarantee, if any, complies with the Indenture.

The provisions of clauses (1), (2) and (3) above shall not apply to any one or more transactions which constitute (a) an Asset Disposition subject to the applicable provisions of the covenant described under Limitation on Sales of Assets and Subsidiary Stock above or (b) the grant of any Lien on the assets of a Restricted Subsidiary, which Lien is otherwise permitted by the terms of the Indenture, or any conveyance or transfer of such assets resulting from an exercise of remedies in respect of any such Lien.

Notwithstanding the foregoing, (x) Terex may merge with or into, or convey, transfer or lease all or substantially all of its assets to, any Subsidiary Guarantor, (y) a Subsidiary Guarantor may merge with or into, or convey, transfer or lease all or substantially all of its assets to, Terex or any other Subsidiary Guarantor and (z) a Subsidiary Guarantor may convey, transfer or otherwise dispose of receivables and related assets of the type specified in the definition of Receivables Financing in connection with a Qualified Receivables Financing or assets of the type specified in the definition of Equipment Securitization Transaction in connection with a Qualified Equipment Financing.

The phrase all or substantially all of the assets of Terex or a Subsidiary Guarantor will likely be interpreted under applicable state law and will be dependent upon particular facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of all or substantially all of the assets of Terex or a Subsidiary Guarantor has occurred.

Under certain circumstances, an assumption of Terex's obligations under the notes and this Indenture by such Successor Company or an assumption of a Subsidiary Guarantor's obligations under its Subsidiary Guarantee by such a Person might be deemed for U.S. federal income tax purposes to be an exchange of the notes for new notes by the beneficial owners thereof, resulting in recognition of gain or loss for such purposes and possibly other adverse tax consequences to such beneficial owners. Beneficial owners of the notes are encouraged to consult their own tax advisors regarding the tax consequences of any such assumptions.

Future Subsidiary Guarantors

The Indenture will provide that Terex will not permit any Restricted Subsidiary that is not a Subsidiary Guarantor (other than an Excluded Subsidiary) to Guarantee any other Indebtedness of Terex or any Restricted Subsidiary unless such Restricted Subsidiary executes a supplemental indenture to the Indenture providing for the Guarantee of the payment of the notes by such Restricted Subsidiary within 30 days of such Guarantee of other Indebtedness. Any Subsidiary Guarantee may be released under certain circumstances. See Subsidiary Guarantees.

S-43

Limitation on Designations of Unrestricted Subsidiaries

The Indenture provides that Terex may designate any Subsidiary of Terex as an Unrestricted Subsidiary under the Indenture (a Designation) only if:

(1)

no Default shall have occurred and be continuing at the time of or after giving effect to such Designation; and

(2)

either (x) Terex's Investment in such Subsidiary does not exceed \$1,000 or (y) Terex would be permitted under the Indenture to make an Investment at the time of Designation (assuming the effectiveness of such Designation) in an amount (the Designation Amount) equal to the fair market value of Terex's Investment in such Subsidiary on such date.

In the event of any such Designation, Terex shall be deemed to have made an Investment constituting a Restricted Payment pursuant to the covenant described under Limitation on Restricted Payments for all purposes of the Indenture in the Designation Amount. The Indenture will further provide that Terex will not, and will not permit any Restricted Subsidiary to, at any time:

(1)

provide credit support for, or a guarantee of, any Indebtedness of any Unrestricted Subsidiary (including any undertaking, agreement or instrument evidencing such Indebtedness);

(2)

be directly or indirectly liable for any Indebtedness of any Unrestricted Subsidiary; or

(3)

be directly or indirectly liable for any Indebtedness which provides that the holder thereof may (upon notice, lapse of time or both) declare a default thereon or cause the payment thereof to be accelerated or payable prior to its final scheduled maturity upon the occurrence of a default with respect to any Indebtedness of any Unrestricted Subsidiary (including any right to take enforcement action against such Unrestricted Subsidiary),

except, in the case of clauses (1), (2) and (3), to the extent permitted under the covenant described under Limitation on Restricted Payments, and Limitation on Indebtedness and Preferred Stock; *provided, however*, that with respect to entering into keepwell or other comfort letter arrangements, such arrangements and agreements shall be deemed to be an Incurrence of Indebtedness or a Restricted Payment at such time as the amount of the obligation of Terex or such Restricted Subsidiary with respect thereto is quantifiable. The Indenture will provide that Standard Securitization Undertakings with respect to (x) a Qualified Receivables Financing of a Receivables Subsidiary are not prohibited by clauses (1), (2) and (3) above and (y) a Qualified Equipment Financing of an Equipment Subsidiary are not prohibited by clauses (1), (2) and (3) above.

The Indenture will further provide that Terex may revoke any Designation of a Subsidiary as an Unrestricted Subsidiary (a Revocation) if:

(1)

no Default shall have occurred and be continuing at the time of and after giving effect to such Revocation; and

(2)

all Liens and Indebtedness of such Unrestricted Subsidiary outstanding immediately following such Revocation would, if Incurred at such time, have been permitted to be Incurred for all purposes of the Indenture and for all purposes of the Indenture shall be deemed to have been Incurred at such time.

All Designations and Revocations must be evidenced by an Officers Certificate delivered to the trustee attaching a certified copy of the resolutions of the Board of Directors giving effect to such Designation or Revocation, as applicable, and certifying compliance with the foregoing provisions.

SEC Reports

Notwithstanding that Terex may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, Terex will file to the extent permitted with the SEC and provide within 15 days to the trustee and noteholders such annual reports and such information, documents and other reports as are specified in Sections 13 and 15(d) of the Exchange Act and applicable to a U.S. corporation subject to such Sections, such information, documents and other reports to be so filed and provided at the times specified for the filing of such information, documents and reports under such Sections. If the SEC will not accept such filings for any reason, Terex will post the specified reports on its public website within the time periods that would apply if Terex were required to file those reports with the SEC.

Defaults

An Event of Default is defined in the Indenture as the following:

(1)

a default in the payment of interest on the notes when due, continued for 30 days;

(2)

a default in the payment of principal of any Note when due at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration or otherwise;

(3)

the failure by Terex to comply with its obligations under Certain Covenants Merger and Consolidation above;

(4)

the failure by Terex to comply for 60 days after notice with any of its obligations in the covenants described above under Change of Control (other than a failure to purchase notes) or under Certain Covenants Limitation on Indebtedness and Preferred Stock, Limitation on Liens, Limitation on Sale/Leaseback Transactions, Limitation on Restricted Payments, Limitation on Restrictions on Distributions from Restricted Subsidiaries, Limitation on Sales of Assets and Subsidiary Stock (other than a failure to purchase the notes), Limitation on Affiliate Transactions, Future Subsidiary Guarantors, Limitation on Designations of Unrestricted Subsidiaries, or SEC Reports;

(5)

the failure by Terex to comply for 60 days after notice with its other covenants, obligations, warranties or agreements contained in the Indenture;

(6)

Indebtedness of Terex or any Significant Subsidiary is not paid within any applicable grace period after final maturity or is accelerated by the holders thereof because of a default and the total amount of such Indebtedness unpaid or accelerated exceeds \$50.0 million (the cross acceleration provision);

(7)

certain events of bankruptcy, insolvency or reorganization of Terex or any Significant Subsidiary (the bankruptcy provisions);

(8)

any judgment or decree for the payment of money, the portion of which is not covered by insurance is in excess of \$50.0 million, which is rendered against Terex or any Significant Subsidiary and is not discharged and either (A) an enforcement proceeding has been commenced by any creditor upon such judgment or decree or (B) there is a period of 60 days following such judgment during which such judgment or decree is not discharged, waived or the execution thereof stayed (including pending appeal); or

(9)

any Subsidiary Guarantee by a Significant Subsidiary ceases to be in full force and effect or becomes unenforceable or invalid or is declared null and void (other than in accordance with the terms of the Subsidiary Guarantee or the Indenture) or any Subsidiary Guarantor that is a Significant Subsidiary denies or disaffirms its obligations under its Subsidiary Guarantee.

However, a default under clause (4), (5) or (8) will not constitute an Event of Default until the trustee or the holders of 25% in principal amount of the outstanding notes notify Terex of the default and Terex does not cure such default within the time specified after receipt of such notice.

If an Event of Default (other than the bankruptcy provisions relating to Terex) occurs and is continuing, the trustee or the holders of at least 25% in principal amount of the outstanding notes may declare the principal of and accrued but unpaid interest on all the notes to be due and payable. Upon such a declaration, such principal and interest shall be due and payable immediately. If an Event of Default relating to the bankruptcy provisions relating to Terex occurs and is continuing, the principal of and interest on all the notes will ipso facto become and be immediately due and payable without any declaration or other act on the part of the trustee or any holders. Under certain circumstances, the holders of a majority in principal amount of the outstanding notes may rescind any such acceleration with respect to the notes and its consequences.

Subject to the provisions of the Indenture relating to the duties of the trustee, in case an Event of Default occurs and is continuing, the trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the holders unless such holders have offered to the trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no holder of a Note may pursue any remedy with respect to the Indenture or the notes unless:

(1)

such holder has previously given the trustee notice that an Event of Default is continuing;

(2)

holders of at least 25% in principal amount of the outstanding notes have requested the trustee to pursue the remedy;

(3)

such holders have offered the trustee reasonable security or indemnity against any loss, liability or expense;

(4)

the trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and

(5)

the holders of a majority in principal amount of the outstanding notes have not given the trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the holders of a majority in principal amount of the outstanding notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the trustee reasonably determines is unduly prejudicial to the rights of any other holder or that would involve the trustee in personal liability.

The Indenture provides that if a Default occurs and is continuing and is known to the trustee, the trustee must mail to each holder notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal of or interest on any Note, the trustee may withhold notice if and so long as the Board of Directors, the executive committee or a committee of its trust officers reasonably determines that withholding notice is in the best interest of the holders. In addition, Terex is required to deliver to the trustee, within 120 days after the end of each fiscal year, a certificate regarding knowledge of Terex's compliance with all covenants and conditions under the Indenture. Terex also is required to deliver to the trustee, within 30 days after the knowledge of the occurrence thereof, written notice of any event which would constitute certain Defaults, their status and what action Terex is taking or proposes to take in respect thereof.

Amendments and Waivers

Subject to certain exceptions, the Indenture may be amended with the consent of the holders of a majority in principal amount of the notes then outstanding voting as a single class (which consents may be obtained in connection with a tender offer or exchange for the notes) and, subject to certain exceptions, any past default or compliance with any provisions may also be waived with the consent of the holders of a majority in principal amount of the notes then outstanding voting as a single class (which consents may be obtained in connection with a tender offer or exchange for the notes).

Notwithstanding the foregoing, without the consent of each holder of an outstanding Note affected thereby, no amendment may:

(1)

reduce the amount of notes whose holders must consent to an amendment or waiver;

(2)

reduce the rate of or extend the time for payment of interest on any Note;

(3)

reduce the principal of or extend the Stated Maturity of any Note;

(4)

reduce the premium payable upon the redemption of any Note or change the time at which any Note may be redeemed as described under Optional Redemption above or, after the occurrence of a Change of Control, alter the provisions (including definitions) set forth under Change of Control above in a manner adverse to the holders;

(5)

make any Note payable in money or payable in a place other than that stated in the Note;

(6)

impair the right of any holder to receive payment of principal of and interest on such holder's notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such holder's notes;

(7)

make any change in the amendment provisions which require each holder's consent or in the waiver provisions;

(8)

make any change in the ranking of the notes as Senior Indebtedness that would adversely affect the holders in any material respect; or

(9)

make any change in any Subsidiary Guarantee that would adversely affect the holders in any material respect.

Notwithstanding the preceding, without the consent of any holder, Terex, the Subsidiary Guarantors and the Trustee may amend or supplement the Indenture:

(1)

to cure any ambiguity, omission, defect or inconsistency or to effect any provision of the Indenture (including the release of any Subsidiary Guarantor in accordance with the terms of the Indenture);

(2)

to provide for the assumption by a successor corporation of the obligations of Terex under the Indenture;

(3)

to provide for uncertificated notes in addition to or in place of certificated notes (provided that the uncertificated notes are issued in registered form for purposes of Section 163(f) of the Code, or in a manner such that the uncertificated notes are described in Section 163(f)(2)(B) of the Code);

(4)

to add guarantees with respect to the notes or to secure the notes;

(5)

to add to the covenants of Terex for the benefit of the holders or to surrender any right or power conferred upon Terex;

(6)

to make any change that does not adversely affect the rights of any holder in any material respect;

(7)

to comply with any requirement of the SEC in connection with the qualification of the Indenture under the Trust Indenture Act;

(8)

to conform any non-conforming language or defined terms in the text of the Indenture or any notes to any provision of this Description of the Notes so that such provision reflects a verbatim recitation of a provision of this Description of the Notes;

(9)

to supplement any of the provisions of the Indenture to such extent as shall be necessary to permit or facilitate the defeasance and discharge of the notes; *provided, however*, that any such action shall not adversely affect the interests of the Holders of notes and any related coupons in any material respect; or

(10)

to evidence and provide for the acceptance of appointment hereunder of a Trustee other than HSBC Bank USA, National Association, as Trustee and to add to or change any of the provisions of the Indenture as shall be necessary to provide for or facilitate the administration of the trusts under the Indenture by more than one Trustee, pursuant to the requirements thereunder.

The consent of the holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

After an amendment under the Indenture becomes effective, Terex is required to mail to holders a notice briefly describing such amendment. However, the failure to give such notice to all holders, or any defect therein, will not impair or affect the validity of the amendment.

Transfer

The registered holder of a Note will be treated as the owner of it for all purposes. The notes will be issued in registered form and will be transferable only upon the surrender of the notes being transferred for registration of transfer. Terex may require payment of a sum sufficient to cover any tax, assessment or other governmental charge payable in connection with certain transfers and exchanges.

S-47

Satisfaction and Discharge

When we (1) deliver to the Trustee all outstanding notes for cancellation or (2) all outstanding notes (A) have become due and payable whether at maturity or on a Redemption Date by reasons of the making of a notice of redemption or otherwise, (B) will become due and payable at their stated maturity within one year or (C) if redeemable at the option of Terex, are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of Terex, and, in the case of this clause (2), Terex has irrevocably deposited with the Trustee funds sufficient to pay at maturity or upon redemption all outstanding notes, including interest thereon to maturity or such Redemption Date, premium, if any, and if in either case we pay all other sums payable under the Indenture by us, then the Indenture shall, subject to certain exceptions be discharged with respect to the notes and will cease to be of further effect as to all notes under the Indenture. Terex shall have delivered to the Trustee an Officers Certificate and an Opinion of Counsel stating that all conditions precedent under the Indenture relating to the satisfaction and discharge of the Indenture have been complied with.

Defeasance

Terex at its option at any time may terminate all of its obligations under the notes and the Indenture (legal defeasance), except for certain obligations, including, but not limited to, those respecting the defeasance trust and obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes and to maintain a registrar and paying agent in respect of the notes.

In addition, Terex at its option at any time may terminate its obligations under Change of Control and under the covenants described under Certain Covenants (other than with respect to Terex as described under Certain Covenants Merger and Consolidation) (and any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to the notes), and the limitations contained in clause (3) of the first paragraph under Certain Covenants Merger and Consolidation above (covenant defeasance). In the event that a covenant defeasance occurs, certain events (not including non-payment, bankruptcy and insolvency events) described under Defaults will no longer constitute Events of Default with respect to the notes.

Terex may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If Terex exercises its legal defeasance option, payment of the notes may not be accelerated because of an Event of Default with respect thereto.

In order to exercise either defeasance option, Terex must irrevocably deposit in trust (the defeasance trust) with the trustee money or U.S. Government Obligations in such amounts as will be sufficient, in the report of a nationally recognized firm of independent public accountants or a nationally recognized investment banking firm, to pay and discharge the principal of, premium, if any, and interest on the outstanding notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the trustee of an Opinion of Counsel to the effect that holders and beneficial owners of the notes will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and defeasance and will be subject to Federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel must be based on a ruling of the Internal Revenue Service or other change in applicable Federal income tax law).

If the funds deposited with the trustee to effect legal defeasance or covenant defeasance are insufficient to pay the principal of, premium, if any, and interest on the notes when due, then the obligations of Terex under the Indenture will be revived and no such defeasance will be deemed to have occurred.

Concerning the Trustee

HSBC Bank USA, National Association, is the trustee under the Indenture and has been appointed by Terex as Registrar and Paying Agent with regard to the notes. Such bank may also act as a depository of funds for, or make loans to and perform other services for, Terex or its Affiliates in the ordinary course of business in the future. HSBC Bank USA, National Association, is the trustee under the Indentures for the Existing Notes. In the event of a conflict, HSBC Bank USA, National Association, would have to resign as trustee with respect to the notes.

The holders of a majority in principal amount of the outstanding notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee, subject to certain exceptions. The Indenture provides that if an Event of Default occurs (and is not cured), the trustee will be required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of his own affairs. Subject to such provisions, the trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any holder of notes, unless such holder shall have offered to the trustee security and indemnity satisfactory to it against any loss, liability or

expense and then only to the extent required by the terms of the Indenture. The trustee may resign at any time or may be removed by Terex. If the trustee resigns, is removed or becomes incapable of acting as trustee or if a vacancy occurs in the office of the trustee for any cause, a successor trustee shall be appointed in accordance with the provisions of the Indenture.

If the trustee has or shall acquire a conflicting interest within the meaning of the Trust Indenture Act, the trustee shall either eliminate such interest or resign, to the extent and in the manner provided by, and subject to the provisions of, the Trust Indenture Act and the Indenture. The Indenture also contains certain limitations on the right of the trustee, as a creditor of Terex, to obtain payment of claims in certain cases, or to realize on certain property received by it in respect of any such claims, as security or otherwise.

a Restricted Subsidiary all the Capital Stock of which (other than directors qualifying shares and shares held by other Persons to the extent such Shares are required by applicable law to be held by a Person other than Terex or a Restricted Subsidiary) is owned by Terex or one or more Wholly Owned Subsidiaries; and

(2)

each of Terex Cranes, Inc., PPM Cranes, Inc., P.P.M. S.A., and any future wholly owned subsidiaries of any of the foregoing, in each case so long as Terex or one or more Wholly Owned Subsidiaries maintains a percentage ownership interest in such entity equal to or greater than such ownership interest (on a fully diluted basis) on the later of (A) the Issue Date or (B) the date such entity is incorporated or acquired by Terex or one or more Wholly Owned Subsidiaries.

Book-Entry, Delivery and Form

General

The notes initially will be issued in the form of one or more fully registered notes in global form (the **Global Notes**). The Global Notes will be deposited upon issuance with the Trustee as custodian for DTC and registered in the name of DTC or its nominee, in each case for credit to the accounts of institutions that have accounts with DTC or its nominee (the **DTC participants**) and to the accounts of institutions that have accounts with Euroclear Bank S.A./N.V., as operator of the Euroclear System, or its nominee participants (the **Euroclear participants**) or Clearstream Banking, S.A. (the **Clearstream participants**) and, collectively with the DTC participants and the Euroclear participants, the

participants). Each of DTC, Euroclear and Clearstream is referred to herein as a Book Entry Facility. Ownership of beneficial interests in the Global Notes will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interest in the Global Notes will be shown on, and the transfer of that ownership will be effected only through, records maintained by a Book Entry Facility or its nominee (with respect to participants interests) for such Global Notes or by participants or persons that hold interests through participants (with respect to beneficial interests of persons other than participants). The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and laws may impair the ability to transfer or pledge beneficial interests in the Global Notes.

So long as DTC, or its nominee, is the registered holder of the Global Notes, DTC or such nominee, as the case may be, will be considered the sole legal owner and holder of such notes represented by such Global Notes for all purposes under the Indenture and the notes. Except as set forth below, owners of beneficial interests in the Global Notes will not be entitled to have such Global Notes or any notes represented thereby registered in their names, will not receive or be entitled to receive physical delivery or certificated notes in exchange therefor and will not be considered to be the owners or holders of such Global Notes or any notes represented thereby for any purpose under the notes or the Indenture. We understand that under existing industry practice, in the event an owner of a beneficial interest in a Global Note desires to take any action that DTC, as the holder of such Global Notes, is entitled to take, DTC would authorize the participants to take such action, and that the participants would authorize beneficial owners owning through such participants to take such action or would otherwise act upon the instructions of beneficial owners owning through them.

Any payment of principal or interest due on the notes on any interest payment date or at maturity will be made available by us to the trustee by such date. As soon as possible thereafter, the trustee will make such payments to DTC or its nominee, as the case may be, as the registered owner of the Global Notes representing such notes in accordance with existing arrangements between the trustee and the depository.

We expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of the Global Notes will credit immediately the accounts of the related participants with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Global Notes as shown on the records of DTC. We also expect that payments by participants to owners of beneficial interests in the Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of such participants.

None of us, the trustee or any payment agent for the Global Notes will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests or for other aspects of the relationship between the depository and its participants or the relationship between such participants and the owners of beneficial interests in the Global Notes owning through such participants.

Because of time zone differences, the securities account of a Euroclear participant or a Clearstream participant purchasing an interest in a Global Note from a DTC participant will be credited, and any such crediting will be reported to the relevant Euroclear participant or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear or Clearstream, as applicable) immediately following the DTC settlement date. Cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear participant or Clearstream participant, as applicable, to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account only as of the business day following settlement in DTC.

As long as the notes are represented by a Global Note, DTC's nominee will be the holder of such notes and therefore will be the only entity that can exercise a right to repayment or repurchase of such notes. See Change of Control and Certain Covenants Limitation on Sales of Assets and Subsidiary Stock.

Notice by participants or by owners of beneficial interests in the Global Notes held through such participants of the exercise of the option to elect repayment of beneficial interests in notes represented by the Global Note must be transmitted to the relevant Book Entry Facility in accordance with its procedures on a form required by the relevant Book Entry Facility and provided to participants. In order to ensure that DTC's nominee will timely exercise a right to repayment with respect to a particular Note, the beneficial owner of such note must instruct the broker or other participant to exercise a right to repayment. Different firms have cut-off times for accepting instructions from their customers and, accordingly, each beneficial owner should consult the broker or other participant through which it holds an interest in a note in order to ascertain the cut-off time by which such an instruction must be given in order for timely notice to be delivered to DTC. We will not be liable for any delay in delivery of notices of the exercise of the option to elect repayment.

Unless and until exchanged in whole or in part for notes in definitive form in accordance with the terms of the notes, the Global Notes may not be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or by DTC or any such nominee to a successor of DTC or a nominee of each successor.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants of a Book Entry Facility, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of us or the trustee will have any

responsibility for the performance by a Book Entry Facility or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations. We and the trustee may conclusively rely on, and shall be protected in relying on, instructions from a Book Entry Facility for all purposes.

Certificated notes

The Global Notes shall be exchangeable for corresponding notes in certificated fully registered form (certificated notes) registered in the name of persons other than DTC or its nominee only if (A) DTC (i) notifies Terex that it is unwilling or unable to continue as depository for the Global Notes or (ii) at any time ceases to be a clearing agency registered under the Exchange Act, (B) there shall have occurred and be continuing an Event of Default (as defined in the Indenture) with respect to the applicable notes or (C) Terex executes and delivers to the trustee an order that the Global Notes shall be so exchangeable. Any certificated notes will be issued only in fully registered form, and shall be issued without coupons in denominations of \$2,000 and integral multiples thereof. Any certificated notes so issued will be registered in such names and in such denominations as DTC shall request.

The Clearing System

DTC has advised us as follows: DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of section 17A of the Exchange Act. DTC was created to hold securities of institutions that have accounts with its participants and to facilitate the clearance and settlement of securities transactions among its participants in such securities through electronic book-entry changes in accounts of participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's book-entry system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, whether directly or indirectly.

Clearstream advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for the Clearstream participants and facilitates the clearance and settlement of securities transactions between Clearstream participants through electronic book-entry changes in accounts of Clearstream participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to Clearstream participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream participant, either directly or indirectly.

Distributions with respect to interests in the notes held beneficially through Clearstream will be credited to cash accounts of Clearstream participants in accordance with its rules and procedures, to the extent received by the United States depository for Clearstream.

The Euroclear System advises that it was created in 1968 to hold securities for Euroclear participants and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. The Euroclear System includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. The Euroclear System is operated by Euroclear. All operations are conducted by Euroclear, and all Euroclear securities clearance accounts and Euroclear System cash accounts are accounts with Euroclear. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to the Euroclear System is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

Securities clearance accounts and cash accounts with Euroclear are governed by the terms and conditions governing use of Euroclear and the related operating procedures of the Euroclear System, and applicable Belgian law (collectively, the terms and conditions). The terms and conditions govern transfers of securities and cash within the Euroclear System, withdrawals of securities and cash from the Euroclear System, and receipts of payments with respect to securities in the Euroclear System. All securities in the Euroclear System are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. Euroclear acts under the terms and conditions only on behalf of Euroclear participants, and has no records of or relationship with persons holding through Euroclear participants.

Distributions with respect to notes held beneficially through the Euroclear System will be credited to the cash accounts of Euroclear participants in accordance with the terms and conditions, to the extent received by the United States depositary for the Euroclear System.

UNITED STATES FEDERAL TAX CONSIDERATIONS

The following summary describes the material United States federal income tax consequences and, in the case of a non-U.S. holder (as defined below), the material United States federal estate tax consequences, of purchasing, owning and disposing of the notes. This summary applies to you only if you are a beneficial owner of a note and you acquire the note in this offering for a price equal to the issue price of the notes. The issue price of the notes is the first price at which a substantial amount of the notes is sold other than to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers.

This summary deals only with notes held as capital assets (generally, investment property) and does not deal with special tax situations such as:

.

dealers in securities or currencies;

.

traders in securities;

.

United States holders (as defined below) whose functional currency is not the United States dollar;

.

persons holding notes as part of a conversion, constructive sale, wash sale or other integrated transaction or a hedge, straddle or synthetic security;

.

persons subject to the alternative minimum tax;

.

certain United States expatriates;

.

financial institutions;

.

insurance companies;

.

controlled foreign corporations, passive foreign investment companies and regulated investment companies and shareholders of such corporations;

entities that are tax-exempt for United States federal income tax purposes and retirement plans, individual retirement accounts and tax-deferred accounts;

partnerships, including entities and arrangements classified as partnerships for United States federal tax purposes, and beneficial owners of partnerships; and

persons that acquire the notes for a price other than their issue price.

In the case of a partnership (including an entity or arrangement classified as a partnership for United States federal income tax purposes) that holds notes, the United States federal income tax treatment of a partner in the partnership generally will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. If you are a partnership holding notes, or a partner in such a partnership, you are encouraged to consult your own tax advisor regarding the United States federal income and estate tax consequences of purchasing, owning and disposing of the notes.

This summary does not discuss all of the aspects of United States federal income and estate taxation that may be relevant to you in light of your particular investment or other circumstances. In addition, this summary does not discuss any United States state or local income or non-U.S. income or other tax consequences (including the newly enacted Medicare tax on investment income). This summary is based on United States federal income and estate tax law, including the provisions of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code), Treasury regulations, administrative rulings and judicial authority, all as in effect or in existence as of the date of this prospectus supplement. Subsequent developments in United States federal income and estate tax law, including changes in law or differing interpretations, which may be applied retroactively, could have a material effect on the United States federal income and estate tax consequences of purchasing, owning and disposing of notes as set forth in this summary. You are encouraged to consult your own tax advisor, before you purchase notes, regarding the particular United States federal, state and local and foreign income and other tax consequences of acquiring, owning and disposing of the notes that may be applicable to you.

United States Holders

The following summary applies to you only if you are a United States holder (as defined below).

Definition of a United States Holder

A United States holder is a beneficial owner of a note or notes that, for United States federal income tax purposes, is:

an individual citizen or resident of the United States;

a corporation (or other entity classified as a corporation for these purposes) created or organized in or under the laws of the United States, any State thereof or the District of Columbia;

S-71

an estate, the income of which is subject to United States federal income taxation regardless of the source of that income; or

a trust, if (1) a United States court is able to exercise primary supervision over the trust's administration and one or more United States persons (within the meaning of the Internal Revenue Code) has the authority to control all of the trust's substantial decisions, or (2) the trust has a valid election in effect under applicable Treasury regulations to be treated as a United States person.

Interest on Notes

Stated interest on your notes will be taxed as ordinary interest income. In addition:

if you use the cash method of accounting for United States federal income tax purposes, you will have to include the stated interest on your notes in your gross income at the time you receive the stated interest; and

if you use the accrual method of accounting for United States federal income tax purposes, you will have to include the stated interest on your notes in your gross income at the time the stated interest accrues.

Sale or Other Disposition of Notes

Upon the sale, redemption, exchange or other taxable disposition of the notes, you generally will recognize taxable gain or loss equal to the difference, if any, between:

the amount realized on the disposition (less any amount attributable to accrued interest, which will be taxable as ordinary interest income to the extent not previously included in gross income, in the manner described under "United States Holders' Interest on Notes"); and

your adjusted tax basis in the notes.

Your adjusted tax basis in the notes generally will equal your cost in acquiring your notes reduced by any payments on your notes other than payments of stated interest. Your gain or loss generally will be capital gain or loss. This capital gain or loss will be long-term capital gain or loss if at the time of the disposition you have held the notes for more than one year. Subject to limited exceptions, your capital losses cannot be used to offset your ordinary income. If you are a non-corporate United States holder, your long-term capital gain generally will be subject to a preferential rate of United States federal income tax.

Information Reporting and Backup Withholding

Under the tax rules concerning information reporting to the Internal Revenue Service:

assuming you hold your notes through a broker or other securities intermediary, the intermediary must provide information to the Internal Revenue Service and to you on Internal Revenue Service Form 1099 concerning interest and retirement proceeds on your notes, unless an exemption applies; and

similarly, unless an exemption applies, you must provide the intermediary with your taxpayer identification number for its use in reporting information to the Internal Revenue Service; if you are an individual, this is your social security number. You are also required to comply with other Internal Revenue Service requirements concerning information reporting.

In general, backup withholding (currently at a maximum rate 28%) may apply to payments made to you of principal of and interest on your note and the proceeds of a sale or other disposition of your note, if you are a non-corporate United States holder and you fail to provide a correct taxpayer identification number or otherwise comply with applicable requirements of the backup withholding rules.

The backup withholding tax is not an additional tax and may be refunded to you or credited against your United States federal income tax liability, provided that correct information is timely provided to the Internal Revenue Service.

Non-U.S. Holders

The following summary applies to you if you are a non-U.S. holder. A non-U.S. holder is a beneficial owner of a note that is not, for United States federal income tax purposes, a United States holder (as defined above) or a partnership (or an entity or arrangement classified as a partnership for United States federal income tax purposes).

United States Federal Withholding Tax

Under current United States federal income tax laws, and subject to the discussion below, United States federal withholding tax generally will not apply to payments by us or our paying agent (in its capacity as such) of principal of and interest on your notes under the portfolio interest exception of the Internal Revenue Code, provided that in the case of interest:

.
you do not, directly or indirectly, actually or constructively, own ten percent or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of section 871(h)(3) of the Internal Revenue Code and the Treasury regulations thereunder;

.
you are not a controlled foreign corporation for United States federal income tax purposes that is related, directly or indirectly, to us through sufficient stock ownership (as provided in the Internal Revenue Code);

.
you are not a bank receiving interest described in section 881(c)(3)(A) of the Internal Revenue Code;

.
such interest is not effectively connected with your conduct of a United States trade or business; and

.
you provide a signed written statement, on an Internal Revenue Service Form W-8BEN (or other applicable form) which can reliably be related to you, certifying under penalties of perjury that you are not a United States person within the meaning of the Internal Revenue Code and providing your name and address to:

.
us or our paying agent; or

.
a securities clearing organization, bank or other financial institution that holds customers securities in the ordinary course of its trade or business and holds your notes on your behalf and that certifies to us or our paying agent under penalties of perjury that it, or the bank or financial institution between it and you, has received from you your signed, written statement and provides us or our paying agent with a copy of this statement.

The applicable Treasury regulations provide alternative methods for satisfying the certification requirement described in this section. In addition, under these Treasury regulations, special rules apply to pass-through entities and this certification requirement may also apply to beneficial owners of pass-through entities.

If you cannot satisfy the requirements of the portfolio interest exception described above, payments of interest made to you will be subject to 30% United States federal withholding tax unless you provide us or our paying agent with a properly executed (1) Internal Revenue Service Form W-8ECI (or other applicable form) stating that interest paid on your notes is not subject to withholding tax because it is effectively connected with your conduct of a trade or business in the United States, or (2) Internal Revenue Service Form W-8BEN (or other applicable form) claiming an exemption from or reduction in this withholding tax under an applicable income tax treaty.

United States Federal Income Tax

Except for the possible application of United States federal withholding tax (see United States Federal Tax Considerations Non-U.S. Holders United States Federal Withholding Tax above) and backup withholding tax (see United States Federal Tax Considerations Non-U.S. Holders-Backup Withholding and Information Reporting below), you generally will not be subject to United States federal income tax on payments of principal of and interest on your notes, or on any gain realized from (or accrued interest treated as received in connection with) the sale, redemption, retirement at maturity or other disposition of your notes unless:

.
in the case of interest payments or disposition proceeds representing accrued interest, you cannot satisfy the requirements of the portfolio interest exception described above (and your United States federal income tax liability has not otherwise been fully satisfied through the United States federal withholding tax described above);

.
in the case of gain, you are an individual who is present in the United States for more than 182 days during the taxable year of the sale or other disposition of your notes and specific other conditions are met (in which case, except as otherwise provided by an applicable income tax treaty, the gain, which may be offset by United States source capital losses, generally will be subject to a flat 30% United States federal income tax, even though you are not considered a resident alien under the Internal Revenue Code); or

.
the interest or gain is effectively connected with your conduct of a United States trade or business and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment maintained by you.

If you are engaged in a trade or business in the United States and interest or gain in respect of your notes is effectively connected with the conduct of your trade or business (and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment maintained by you), the interest or gain generally will be subject to United States federal income tax on a net basis at the regular graduated rates and in the manner applicable to a United States holder (although the interest will be exempt from the withholding tax discussed in the preceding paragraphs if you provide a properly executed Internal Revenue Service Form W-8ECI (or other applicable form) on or before any payment date to claim the exemption). In addition, a branch profits tax may be imposed at a 30% rate, or a lower rate under an applicable income tax treaty, on a non-U.S. corporation that has earnings and profits (attributable to interest or otherwise) that are effectively connected with the conduct of a trade or business in the United States.

United States Federal Estate Tax

If you are an individual and are not a United States citizen or a resident of the United States (as specially defined for United States federal estate tax purposes) at the time of your death, your notes generally will not be subject to the United States federal estate tax, unless, at the time of your death:

you directly or indirectly, actually or constructively, own ten percent or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of section 871(h)(3) of the Internal Revenue Code and the Treasury regulations thereunder; or

your interest on the notes is effectively connected with your conduct of a United States trade or business.

Information Reporting and Backup Withholding

Under current Treasury regulations, information reporting and backup withholding will not apply to payments made by us or our paying agent (in its capacity as such) to you if you have provided the required certification that you are a non-U.S. holder as described in *United States Tax Considerations Non-U.S. Holders United States Federal Withholding Tax* above, and provided that neither we nor our paying agent has actual knowledge or reason to know that you are a United States holder (as described in *United States Tax Considerations United States Holders* above). However, we or our paying agent may be required to report to the Internal Revenue Service and you payments of interest on the notes and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in the country in which you reside under the provisions of a treaty or agreement.

The gross proceeds from the disposition of your notes may be subject to information reporting and backup withholding tax (currently at a maximum rate of 28%). If you sell your notes outside the United States through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to you outside the United States, then the U.S. information reporting and backup withholding requirements generally will not apply to that payment. However, U.S. information reporting, but not backup withholding, will apply to a payment of sales proceeds, even if that payment is made outside the United States, if you sell your notes through a non-U.S. office of a broker that is a United States person (as defined in the Internal Revenue Code) or has certain enumerated connections with the United States, unless the broker has documentary evidence in its files that you are a non-U.S. person and certain other conditions are met or

you otherwise establish an exemption. If you receive payments of the proceeds of a sale of your notes to or through a U.S. office of a broker, the payment is subject to both U.S. information reporting and backup withholding unless you provide a Form W-8BEN certifying that you are a non-U.S. person or you otherwise establish an exemption, provided that the broker does not have actual knowledge or reason to know that you are not a U.S. person or the conditions of any other exemption are not, in fact, satisfied.

You are encouraged to consult your own tax advisor regarding application of backup withholding in your particular circumstance and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury regulations. Any amounts withheld under the backup withholding rules from a payment to you will be allowed as a refund or credit against your United States federal income tax liability, provided the required information is timely furnished to the Internal Revenue Service.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated March 22, 2012, we have agreed to sell to the underwriters named below, for whom Credit Suisse Securities (USA) LLC, Goldman, Sachs & Co., RBS Securities Inc. and UBS Securities LLC are acting as representatives, the following principal amounts of the notes:

Underwriter	Principal Amount of Notes
Credit Suisse Securities (USA) LLC	\$ 78,000,000
Goldman, Sachs & Co.	42,000,000
RBS Securities Inc.	42,000,000
UBS Securities LLC	42,000,000
Commerz Markets LLC	42,000,000
Barclays Capital Inc.	18,000,000
Credit Agricole Securities (USA) Inc.	18,000,000
Merrill Lynch, Pierce, Fenner & Smith	
Incorporated	18,000,000
Total	\$ 300,000,000

The underwriting agreement provides that the underwriters are obligated to purchase all the notes in the offering if any are purchased. The underwriting agreement also provides that if an underwriter defaults the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject orders in whole or in part.

The following table summarizes the compensation we will pay:

	Per Note	Total
Underwriting discounts and commissions paid by us	1.50%	\$ 4,500,000

We estimate that our out of pocket expenses for this offering, including registration filing, printing fees and legal and accounting expenses, but excluding the underwriting discounts and commissions, will be approximately \$500,000.

We have agreed to indemnify the several underwriters against liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities.

Certain of the underwriters and their respective affiliates have from time to time performed, and may in the future perform, various financial advisory, commercial banking and investment banking services for us and for our affiliates in the ordinary course of business for which they have received and would receive customary compensation. In particular, each of the representatives (or an affiliate) is a co-lead arranger and joint bookrunner, an affiliate of Credit Suisse Securities (USA) LLC is the administrative agent and collateral agent and an affiliate of each of the underwriters is a lender under our bank credit facility.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer. If the underwriters or their respective affiliates have a lending relationship with us, they routinely hedge their exposure to us consistent with their customary risk management policies. Typically, the underwriters and their respective affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

S-75

The notes are a new issue of securities with no established trading market. One or more of the underwriters intend to make a secondary market for the notes. However, they are not obligated to do so and may discontinue making a secondary market for the notes at any time without notice. No assurance can be given as to how liquid the trading market for the notes will be.

In connection with the offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Securities Exchange Act of 1934 (the Exchange Act).

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriters of notes in excess of the principal amount of the notes the underwriters are obligated to purchase, which creates a syndicate short position.

Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the notes originally sold by the syndicate member are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result, the price of the notes may be higher than the price that might otherwise exist in the open market. These transactions if commenced, may be discontinued at any time.

The notes are offered for sale in those jurisdictions where it is lawful to make such offers.

Each of the underwriters has represented and agreed that it has not offered, sold or delivered and will not offer, sell or deliver any of the notes directly or indirectly, or distribute this prospectus supplement or the accompanying prospectus or any other offering material relating to the notes, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof and that will not impose any obligations on us except as set forth in the underwriting agreement.

A prospectus supplement in electronic format may be made available on the web sites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters

participating in this offering may distribute prospectus supplements electronically. The representatives may agree to allocate a principal amount of notes to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State it has not made and will not make an offer of notes to the public in that Relevant Member State, except that it may, with effect from and including such date, make an offer of notes to the public in that Relevant Member State:

.

at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;

.

at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive, subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the issuer for any such offer; or

.

at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of notes shall require the issuer or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

DESCRIPTION OF THE SECURITIES WE MAY ISSUE

Overview

This prospectus describes the securities we may issue from time to time. The remainder of this section provides some background information about the manner in which the securities may be held. The three sections following this section of the prospectus describe the terms of the basic categories of securities that we may issue pursuant to this prospectus:

.

our debt securities, which may be senior or subordinated, and the guarantees of the debt securities by one or more of our subsidiaries;

.

warrants to purchase our debt securities, preferred stock, depositary shares and common stock; and

.

our common stock, preferred stock and depositary shares representing fractional shares of our preferred stock.

Prospectus Supplements

This prospectus provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add to or change information contained in this prospectus. If so, the prospectus supplement should be read as superseding this prospectus. You should read both this prospectus and any applicable prospectus supplement together with additional information described under the heading "Where You Can Find Additional Information."

Any applicable prospectus supplement to be attached to the front of this prospectus will describe the terms of any securities that we offer, as well as the other specific terms related to that offering. For more details on the terms of the securities, you should read the exhibits filed with our registration statement, of which this prospectus is a part, including any future filings we will make with the SEC that are incorporated by reference into the registration statement by filing a Form 8-K or otherwise.

Legal Ownership of Securities

Holder of Securities

Book-Entry Holders. We will issue debt securities under this prospectus in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. We may, but are not obligated to, issue shares of common stock, shares of preferred stock and securities warrants under this prospectus in book-entry form. If securities are issued in book-entry form, this means the securities will be represented by one or more global securities registered in the name of a financial institution that holds them as depositary on behalf of other financial institutions that participate in the depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the securities on behalf of themselves or their customers.

We will only recognize the person in whose name a security is registered as the holder of that security. Consequently, for securities issued in global form, we will recognize only the depositary as the holder of the securities, and all payments on the securities will be made to the depositary. The depositary passes along the payments it receives to its participants, which in turn pass the payments along to their customers, who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers. They are not obligated to do so under the terms of the securities.

As a result, investors of securities in book-entry form will not own these securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant. As long as the securities are issued in global

form, investors will be indirect holders, and not holders, of the securities. For more information about securities issued in global form, see "- Global Securities" below.

Street Name Holders. Alternatively, we may initially issue securities under this prospectus in non-global form. We may also terminate a global security at any time after it is issued. In these cases, investors may choose to hold their securities in their own names or in "street name." Securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses. In that event, the investor would hold only a beneficial interest in those securities through an account that the investor maintains at that institution.

For securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the securities are registered as the holders of those securities and all payments on those securities will be made to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold securities in street name will be indirect holders, not holders, of those securities.

Legal Holders. We, and any third parties employed by us or acting on your behalf, including trustees, depositories and transfer agents, generally are obligated only to the legal holders of the securities. In a number of respects, we do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a security or has no choice because we are issuing the securities only in global form.

For example, once we make a payment or give a notice to the legal holder, we have no further responsibility for the payment or notice even if that legal holder is required, under agreements with depository participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, if we want to obtain the approval of the holders to amend

an indenture, to relieve ourselves of the consequences of a default or of our obligation to comply with a particular provision of the indenture or for any other purpose, we would seek the approval only from the legal holders, and not the indirect holders, of the securities. Whether and how the legal holders contact the indirect holders is determined by the legal holders.

When we refer to you, we mean those who invest in the securities being offered by this prospectus, whether they are the legal holders or only indirect holders of those securities. When we refer to your securities, we mean the securities in which you hold a direct or indirect interest.

Special Considerations for Indirect Holders. If you hold securities through a bank, broker or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

.

how it handles securities payments and notices;

.

whether it imposes fees or charges;

.

how it would handle a request for the holders' consent, if ever required;

.

whether and how you can instruct it to send you securities registered in your own name so you can be a legal holder, if that is permitted in the future;

.

how it would exercise rights under the securities if there were a default or other event triggering the need for holders to act to protect their interests; and

.

if the securities are in book-entry form, how the depository's rules and procedures will affect these matters.

Global Securities

What is a Global Security? A global security represents one or any other number of individual securities. Generally, all securities represented by the same global securities will have the same terms. We may, however, issue a global security that represents multiple securities that have different terms and are issued at different times. We call this kind of global security a master global security.

Each security issued in book-entry form will be represented by a global security that we deposit with and register in the name of a financial institution that we select or its nominee. The financial institution that is selected for this purpose is called the depository. Unless we specify otherwise in the applicable prospectus supplement, The Depository Trust Company, New York, New York, known as DTC, will be the depository for all securities issued in book-entry form. Beneficial interests in global securities will be shown on, and transfers of global securities will be reflected through, records maintained by DTC and its participants.

A global security may not be transferred to or registered in the name of anyone other than the depository or its nominee, unless special termination situations arise or as otherwise described in the applicable prospectus supplement. We describe those situations under "- Special Situations When a Global Security Will Be Terminated" below. As a result of these arrangements, the depository, or its nominee, will be the sole registered owner and holder of all securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depository or with another institution that does. Thus, an investor whose security is represented by a global security will not be a holder of the security, but only an indirect holder of a beneficial interest in the global security.

Special Considerations for Global Securities. As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depository, as well as general laws relating to securities transfers. We do not recognize this type of investor as a holder of securities and instead will deal only with the depository that holds the global security.

If securities are issued only in the form of a global security, an investor should be aware of the following:

.
an investor cannot cause the securities to be registered in the name of the investor, and cannot obtain physical certificates for the investor's interest in the securities, except in the special situations we describe below;

.
an investor will be an indirect holder and must look to the investor's own broker, bank or other financial institution for payments on the securities and protection of the investor's legal rights relating to the securities, as we describe under "- Legal Ownership of Securities - Holders of Securities" above;

an investor may not be able to sell interests in the securities to some insurance companies and to other institutions that are required by law to own their securities in non-book-entry form;

an investor may not be able to pledge the investor's interest in a global security in circumstances where certificates representing the securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

the depositary's policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor's interest in a global security. Neither we nor any third parties employed by us or acting on your behalf, including trustees and transfer agents, have any responsibility for any aspect of the depositary's actions or for its records of ownership interests in a global security. Neither we, the trustee, the transfer agent nor any other third parties supervise the depositary in any way;

DTC requires that those who purchase and sell interests in a global security within its book-entry system use immediately available funds and your broker, bank or other financial institution may require you to do so as well; and

brokers, banks and other financial institutions that participate in the depositary's book-entry system, and through which an investor holds its interest in a global security, may also have their own policies affecting payments, notices and other matters relating to the security. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the actions of any of those intermediaries.

Special Situations When a Global Security Will Be Terminated. In some situations described below, a global security will be terminated and interests in it will be exchanged for certificates in non-global form representing the securities it represented. After that exchange, the choice of whether to hold the securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global security transferred on termination to their own names so that they will be holders. We have described the rights of holders and street name investors above under "- Legal Ownership of Securities - Holders of Securities" above.

The special situations for termination of a global security are as follows:

if the depositary notifies us that it is unwilling, unable or no longer qualified to continue as depositary for that global security, and we do not appoint another institution to act as depositary within a specified time period; or

if we elect to terminate that global security.

A prospectus supplement may also list additional situations for terminating a global security that would apply to that particular series of securities covered by that prospectus supplement. If a global security is terminated, the depositary has the sole responsibility for determining the institutions in whose names the securities represented by the global security will be registered and, therefore, who will be the holders of those securities.

Unless indicated in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series outstanding at the time of the issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of debt securities under the applicable indenture.

We intend to disclose any restrictive covenants for any issuance or series of debt securities in the applicable prospectus supplement.

Common Stock

The following is a summary of the material terms of our common stock. Because it is only a summary, it does not contain all the information that may be important to you. Accordingly, you should read carefully the more detailed provisions of our restated certificate of incorporation, as amended (restated certificate of incorporation), and amended and restated bylaws.

Each outstanding share of our common stock entitles the holder to one vote, either in person or by proxy, on all matters submitted to a vote of stockholders, including the election of directors. There is no cumulative voting in the election of directors, which means that the holders of a majority of the outstanding shares of common stock can elect all of the directors then standing for election. Subject to preferences which may be applicable to any outstanding shares of preferred stock, holders of common stock have equal ratable rights to any dividends that may be declared by the board of directors out of legally available funds.

Holders of our common stock have no conversion, redemption or preemptive rights to subscribe for any of our securities. All outstanding shares of our common stock are fully paid and nonassessable. In the event of any liquidation, dissolution or winding-up of our affairs, holders of our common stock will be entitled to share ratably in our assets remaining after provision for payment of liabilities to creditors and preferences applicable to outstanding shares of preferred stock. The rights, preferences and privileges of holders of our common stock are subject to the rights of the holders of any outstanding shares of preferred stock.

Our restated certificate of incorporation provides that directors shall not be personally liable to us or our stockholders for monetary damages for breach of fiduciary duties as a director except to the extent otherwise required by Delaware law. Our amended and restated bylaws provide for indemnification of our officers and directors to the fullest extent permitted by Delaware law.

Our amended and restated bylaws provide that our stockholders must provide prior notice for nominations for election to the board of directors or for proposing matters which can be acted upon at stockholders meeting. This provision could be considered an "anti-takeover" provision.

Our common stock is traded on the New York Stock Exchange under the symbol "TEX". The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company.

Preferred Stock and Depositary Shares Representing Fractional Shares of Preferred Stock

The following describes the general terms and provisions of the preferred stock we may offer by this prospectus. The applicable prospectus supplement will describe the specific terms of the series of the preferred stock then offered, and the terms and provisions described in this section will apply only to the extent not superseded by the terms of the applicable prospectus supplement.

This section is only a summary of the preferred stock that we may offer. We urge you to read carefully our restated certificate of incorporation and the certificate of designation we will file in relation to an issue of any particular series of preferred stock before you buy any preferred stock.

Our board of directors may, without further action of the stockholders, determine the following for each series of preferred stock, and any applicable prospectus supplement will describe:

the distinctive serial designation and the number of shares;

.

the dividend rate or rates, whether dividends shall be cumulative and, if so, from what date, the payment date or dates for dividends, and any participating or other special rights with respect to dividends;

.

any voting powers of the shares;

.

whether the shares will be redeemable and, if so, the price or prices at which, and the terms and conditions on which, the shares may be redeemed;

.

the amount or amounts payable upon the shares in the event of voluntary or involuntary liquidation, dissolution or winding up of us prior to any payment or distribution of our assets to any class or classes of our stock ranking junior to the preferred stock;

.

whether the shares will be entitled to the benefit of a sinking or retirement fund and, if so entitled, the amount of the fund and the manner of its application, including the price or prices at which the shares may be redeemed or purchased through the application of the fund;

.

whether the shares will be convertible into, or exchangeable for, shares of any other class or of any other series of the same or any other class of our stock or the stock of another issuer, and if so convertible or exchangeable, the conversion price or prices, or the rates of exchange, and any adjustments to the conversion price or rates of exchange at which the conversion or exchange may be made, and any other terms and conditions of the conversion or exchange; and

.

any other preferences, privileges and powers, and relative, participating, optional, or other special rights, and qualifications, limitations or restrictions, as our board of directors may deem advisable and as shall not be inconsistent with the provisions of our restated certificate of incorporation.

The preferred stock, when issued, will be fully paid and non-assessable. Unless the applicable prospectus supplement provides otherwise, the preferred stock will have no preemptive rights to subscribe for any additional securities which may be issued by us in the future. The transfer agent and registrar for the preferred stock and any depositary shares will be specified in the applicable prospectus supplement.

We may elect to offer depositary shares represented by depositary receipts. If we so elect, each depositary share will represent a fractional interest in a share of preferred stock with the amount of the fractional interest to be specified in the applicable prospectus supplement. If we issue depositary shares representing interests in shares of preferred stock, those shares of preferred stock will be deposited with a depositary.

The shares of any series of preferred stock underlying the depositary shares will be deposited under a separate deposit agreement between us and a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50 million. The applicable prospectus supplement will set forth the name and address of the depositary. Subject to the terms of the deposit agreement, each owner of a depositary share will have a fractional interest in all the rights and preferences of the preferred stock underlying the depositary share. Those rights include any dividend, voting, redemption, conversion and liquidation rights.

The depositary shares will be evidenced by depositary receipts issued under the deposit agreement. If you purchase fractional interests in shares of the related series of preferred stock, you will receive depositary receipts as described in the applicable prospectus supplement. While the final depositary receipts are being prepared, we may order the depositary to issue temporary depositary receipts substantially identical to the final depositary receipts although not in final form. The holders of the temporary depositary receipts will be entitled to the same rights as if they held the depositary receipts in final form. Holders of the temporary depositary receipts can exchange them for the final depositary receipts at our expense.

DESCRIPTION OF THE SECURITIES WARRANTS

This section describes the general terms and provisions of the securities warrants that we may offer by this prospectus. The applicable prospectus supplement will describe the specific terms of the securities warrants then offered, and the terms and provisions described in this section will apply only to the extent not superseded by the terms of the applicable prospectus supplement.

We may issue securities warrants for the purchase of senior debt securities, subordinated debt securities, preferred stock, depositary shares or common stock. Securities warrants may be issued alone or together with senior debt securities, subordinated debt securities, preferred stock, depositary shares or common stock offered by any prospectus supplement and may be attached to or separate from those securities. Each series of securities warrants will be issued under warrant agreements between us and a bank or trust company, as warrant agent, which will be described in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the securities warrants and will not act as an agent or trustee for any holders or beneficial holders of securities warrants.

If securities warrants for the purchase of senior debt securities or subordinated debt securities are offered, the applicable prospectus supplement will describe the terms of those securities warrants, including the following if applicable:

.
the offering price;

.
the currencies in which the securities warrants are being offered;

.
the designation, aggregate principal amount, currencies, denominations and terms of the series of the senior debt securities or subordinated debt securities that can be purchased upon exercise;

.
the designation and terms of any series of senior debt securities or subordinated debt securities with which the securities warrants are being offered and the number of securities warrants offered with each senior debt security or subordinated debt security;

.
the date on and after which the holder of the securities warrants can transfer them separately from the series of senior debt securities or subordinated debt securities;

.
the principal amount of the series of senior debt securities or subordinated debt securities that can be purchased upon exercise and the price at which and currencies in which the principal amount may be purchased upon exercise;

.
the date on which the right to exercise the securities warrants begins and the date on which the right expires; and

.
any other terms of the securities warrants.

If securities warrants for the purchase of preferred stock are offered, the applicable prospectus supplement will also describe the terms of the preferred stock into which the securities warrants are exercisable as described under Description of the Capital Stock - Preferred Stock and Depositary Shares Representing Fractional Shares of Preferred Stock.

PLAN OF DISTRIBUTION

General

We may offer and sell securities in one or more transactions from time to time to or through underwriters, who may act as principals or agents, directly to other purchasers or through agents or dealers to other purchasers or through any combination of these methods.

A prospectus supplement relating to a particular offering of securities may include the following information:

- .
the terms of the offering;
- .
the names of any underwriters, dealers or agents;
- .
the purchase price of the securities;
- .
the net proceeds to us from the sale of the securities;
- .
any delayed delivery arrangements;
- .
any underwriting discounts and other items constituting underwriters' compensation;
- .
any initial public offering price; and

any discounts or concessions allowed or reallocated or paid to dealers.

The distribution of the securities may be effected from time to time in one or more transactions at a fixed price or prices, which may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices in block trades, or in underwritten offerings or in other types of trades.

Underwriting Compensation

We may offer these securities to the public through underwriting syndicates represented by managing underwriters or through underwriters without an underwriting syndicate. If underwriters are used for the sale of securities, the securities will be acquired by the underwriters for their own account. The underwriters may resell the securities in one or more transactions, including in negotiated transactions at a fixed public offering price or at varying prices determined at the time of sale. In connection with any such underwritten sale of securities, underwriters may receive compensation from us or from purchasers for whom they may act as agents, in the form of discounts, concessions or commissions. Underwriters may sell securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents.

If we use an underwriter or underwriters in the sale of particular securities, we will execute an underwriting agreement with those underwriters at the time of sale of those securities. The names of the underwriters will be set forth in the prospectus supplement used by the underwriters to sell those securities. Unless otherwise indicated in the prospectus supplement relating to a particular offering of securities, the obligations of the underwriters to purchase the securities will be subject to customary conditions precedent and the underwriters will be obligated to purchase all of the securities offered if any of the securities are purchased.

Underwriters, dealers and agents that participate in the distribution of securities may be deemed to be underwriters under the Securities Act. Any discounts or commissions that they receive from us and any profit that they receive on the resale of securities may be deemed to be underwriting discounts and commissions under the Securities Act. If any entity is deemed an underwriter or any amounts deemed underwriting discounts and commissions, the prospectus supplement will identify the underwriter or agent and describe the compensation received from us.

Indemnification

We may enter agreements under which underwriters and agents who participate in the distribution of securities may be entitled to indemnification by us against various liabilities, including liabilities under the Securities Act of 1933, and

to contribution with respect to payments which the underwriters, dealers or agents may be required to make.

Related Transactions

Various of the underwriters who participate in the distribution of securities, and their affiliates, may perform various commercial banking and investment banking services for us or our affiliates from time to time in the ordinary course of business.

Delayed Delivery Contracts

We may authorize underwriters or other persons acting as our agents to solicit offers by institutions to purchase securities from us pursuant to contracts providing for payment and delivery on a future date. These institutions may include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others, but in all cases we must approve these institutions. The obligations of any purchaser under any of these contracts will be subject to the condition that the purchase of the securities shall not at the time of delivery be prohibited under the laws of the jurisdiction to which such purchaser is subject. The underwriters and other agents will not have any responsibility in respect of the validity or performance of these contracts.

Price Stabilization and Short Positions

If underwriters or dealers are used in the sale, until the distribution of the securities is completed, rules of the SEC may limit the ability of any underwriters to bid for and purchase the securities. As an exception to these rules, representatives of any underwriters are permitted to engage in transactions that stabilize the price of the securities. These transactions may consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of the securities. If the underwriters create a short position in the securities in connection with the offering (that is, if they sell more securities than are set forth on the cover page of the prospectus supplement) the representatives of the underwriters may reduce that short position by purchasing securities in the open market.

We make no representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the securities. In addition, we make no representation that the representatives of any underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

LEGAL MATTERS

Unless otherwise specified in a prospectus supplement, the validity of any securities issued hereunder will be passed upon for us by Bryan Cave LLP, New York, New York and by Eric I Cohen, Esq., General Counsel of the Company.
