NOTES TO CONDENSED FINANCIAL STATEMENTS

AS OF JUNE 30, 2008

(UNAUDITED)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Interim Statements

The accompanying unaudited financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These statements should be read in conjunction with the audited financial statements and notes thereto included in the Registrant's annual Form 10-KSB for the year ended March 31, 2008.

Organization

The Company was organized in May, 1980, as part of a quasi reorganization of Colspan Environmental Systems. On 18th May, 1998, the Company amended the Articles of Incorporation to change the Company's name to Wincroft, Inc., to effect a 100 for 1 forward stock split to increase the number of shares outstanding without effecting the stated value of the common shares, and to authorized a class of Preferred Shares.

Effective at close of business on February 1, 2008, the Company, which had been a Colorado corporation, reincorporated in the State of Nevada by merging into its subsidiary, a Nevada corporation. As a result of this change in domicile, the Company is now governed by Nevada law, and the articles of incorporation and bylaws of the Nevada corporation became the Company's governing instruments. The change in domicile had no effect on the Company's financial condition or its business.

In connection with the reincorporation merger, one new share of the Nevada corporation was exchanged for every eight shares of the Colorado corporation that had been outstanding, with any resulting fractional shares of the Nevada corporation being rounded up to one whole share. The effect of this exchange was a 1-for-8 reverse split of the Company's common stock. In addition, the authorized common stock was increased from 75,000,000 shares to 100,000,000 shares.

Capital Stock

At June 30, 2008, the Company was authorized to issue 25,000,000 shares of \$0.001 par value preferred stock and 100,000,000 shares of \$0.001 par value common stock. As of June 30, 2008 there were no preferred shares issued and outstanding and there were 555,013 common shares issued and outstanding.

The holders of the Company's stock are entitled to receive dividends at such time and in such amounts as may be determined by the Company's Board of Directors. All shares of the Company's Common Stock have equal voting rights, each share being entitled to one vote per share for the election of directors and for all other purposes. All shares of the Company's Preferred Stock have a preference over the Common Stock in the event of liquidation or similar action. The Board of Directors of the Company is authorized to create series of Preferred Shares designating the rights of the holders of the series. The preferred shares have no voting rights.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results differ from the estimates.

Recently issued accounting pronouncements

In December 2007, the Financial Accounting Standards Board ("FASB") revised Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations". This Statement requires an acquirer to measure the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired entity at their fair values on the acquisition date, with goodwill being the excess value over the net identifiable assets acquired. SFAS No. 141(R) is effective as of the beginning of the Company's first fiscal year beginning on or after December 15, 2008. The Company does not expect application of SFAS No. 141 (R) to have a material effect on its financial statements.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51". This Statement clarifies that a noncontrolling interest in a subsidiary should be reported as equity in consolidated financial statements. The calculation of earnings per share will continue to be based on income amounts attributable to the parent. SFAS No. 160 is effective as of the beginning of the Company's first fiscal year that begins on or after December 15, 2008. The Company does not expect application of SFAS No. 160 to have a material effect on its financial statements.

F4

WINCROFT, INC.

NOTES TO CONDENSED FINANCIAL STATEMENTS

AS OF JUNE 30, 2008

(UNAUDITED)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently issued accounting pronouncements (continued)

In February of 2007, the FASB issued SFAS no. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—including an amendment of FASB Statement No. 115". SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The fair value option established by this Statement permits all entities to choose to measure eligible items at fair value at specified election dates. A business entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings (or another performance indicator if the business entity does not report earnings) at each subsequent reporting date. This requirement is effective for the fiscal year ended March 31, 2009. The Company is currently reviewing this pronouncement, but believes it will not have a material impact on the financial statements.

NOTE B: RELATED PARTY TRANSACTIONS

The Company's President has advanced funds to pay creditors of the company. During the three months ended June 30, 2008 a total of \$8,771 was advanced. As a result, the Company owed \$14,391 to its President at June 30, 2008. Management intends to continue to fund expenses of the Company in the upcoming year.

NOTE C: GOING CONCERN

Since its inception, the Company has incurred an accumulated deficit of \$1,227,643. Since April 2000, the Company has been dependent upon receipt of capital investment or other financing to fund its continuing activities. The Company has not identified any business combination and, therefore, has not ascertained with any degree of certainty the capital requirements for any particular transaction. In addition, the Company is dependent upon certain related parties to provide continued funding and capital resources. These factors indicate substantial doubt that the Company will be able to continue as a going concern. The accompanying financial statements have been presented on the basis of the continuation of the Company as a going concern and do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Item 2. Management Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

We currently have no assets and no operations. During the three months that ended on June 30, 2008, we realized no revenue and incurred \$4,063 in operating expenses. Our operating expenses consist of fees to lawyers and accountants necessary to maintain our standing as a fully-reporting public company and other administration expenses attendant to the trading of our common stock.

Our operating expenses in the three months ended June 30, 2007 were higher than in the three months ended June 30, 2008 because majority ownership and management of our Company changed during the 2007 period. This resulted in expenses for reporting and for implementation of new management systems. We do not expect the level of our operating expenses to change in the future until we commence business operations or acquire an operating business.

On August 18, 2008 Wincroft entered into a Merger Agreement, dated as of August 8, 2008 with Apollo Solar Energy, Inc., a Delaware corporation (“Apollo”). The Agreement provides that, if certain specified conditions are satisfied, a wholly-owned subsidiary of Wincroft will merge into Apollo, and Apollo will become a subsidiary of Wincroft. In exchange for the capital stock of Apollo, Wincroft will issue 44 million shares of its common stock, which would represent 98.75% of Apollo’s outstanding common stock.

The significant conditions that must be satisfied before the merger can occur are:

§ Approval of the merger by the shareholders of Apollo;

§ Delivery by Apollo to Wincroft of the financial statements required for compliance with the filing requirements of the Securities and Exchange Commission.

The Merger Agreement provides that it will terminate automatically if the merger has not been consummated by August 31, 2008, unless extended by written agreement of Wincroft and Apollo. If the merger is completed, our future operations will be the business of Apollo and its subsidiaries. In that event, a Current Report on Form 8-K will be filed containing the financial statements of Apollo Solar Energy, Inc., as well as a description of its operations, both historical and prospective.

Liquidity and Capital Resources

At June 30, 2008 we had a working capital deficit of (\$18,976), due to the fact that we had no assets and owed \$18,976. Our liabilities are owed primarily to our President, who has financed our ongoing operations. Our remaining liabilities, our accounts payable, are owed primarily to our professional advisors.

Our operations consumed no cash during the three months ended June 30, 2008, as our management paid our ongoing expenses, increasing our amounts due to related parties. In the future, as long as we remain a shell corporation, it is likely that we will continue to rely on loans and capital contributions to sustain our operations.

To date we have supplied our cash needs by making private placements of securities and obtaining loans from management and shareholders. We expect that our President will fund our operations until we have completed an acquisition of an operating company and that we will, therefore, have sufficient cash to maintain our existence as a shell company for the next twelve months, if necessary.

The report from our independent accountants on our financial statements for the year ended March 31, 2008 states that there is substantial doubt as to our ability to continue as a going concern. In order to alleviate that doubt, our management is engaged in seeking to acquire, through the issuance of capital stock, an operating business that can sustain its operations. We cannot tell at this time whether such an acquisition will be accomplished.

The acquisition of Apollo Solar Energy, Inc. mentioned above would result in a complete change to our capital structure. In the event that the merger is completed, the Current Report on Form 8-K that will be filed will contain a discussion of the liquidity and capital resources of Apollo and its subsidiaries.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition or results of operations.

Item 3 Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

As of the end of the period covered by this quarterly report, our Chief Executive Officer and Chief Financial Officer (the "Certifying Officer") conducted evaluations of our disclosure controls and procedures. As defined under Sections 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 Act, as amended (the "Exchange Act") the term "disclosure controls and procedures" means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including the Certifying Officer, to allow timely decisions regarding required disclosure. Based on this evaluation, the Certifying Officer has concluded that our disclosure controls and procedures were effective to ensure that material information is recorded, processed, summarized and reported by our management on a timely basis in order to comply with our disclosure obligations under the Exchange Act, and the rules and regulations promulgated thereunder.

There was no change in internal controls over financial reporting (as defined in Rule 13a-15(f) promulgated under the Securities Exchange Act or 1934) identified in connection with the evaluation described in the preceding paragraph that occurred during the Company's first fiscal quarter that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.
