Portions of the Annual Report to Shareholders of Friedman Industries, Incorporated for the fiscal year ended March 31, 2018 — Part II.

Proxy Statement for the 2018 Annual Meeting of Shareholders of Friedman Industries, Incorporated — Part III.

PART I

Item 1. Business

Friedman Industries, Incorporated (the “Company”), a Texas corporation incorporated in 1965, is a manufacturer and processor of steel products and operates in two reportable segments; coil products and tubular products. Significant financial information relating to the Company’s business segments for the last two years is contained in Note 8 of the Consolidated Financial Statements included in the Company’s Annual Report to Shareholders for the fiscal year ended March 31, 2018, which financial statements are incorporated herein by reference in Item 8 hereof.

Coil Products

The coil product segment consists of the operation of two hot-roll coil processing facilities; one in Hickman, Arkansas (“Hickman”) and the other in Decatur, Alabama (“Decatur”). Each facility operates a temper mill and a cut-to-length line. The temper mill improves the flatness and surface qualities of the coils and the cut-to-length line levels the steel and cuts the coils into sheet and plate of prescribed lengths. Combined, the facilities are capable of cutting sheet and plate with thicknesses ranging from 14 gauge to ½” thick. The coil product segment sells its prime grade inventory under the Friedman Industries name but also maintains an inventory of non-standard coil products, consisting primarily of mill secondary and excess prime coils, which are sold through the Company’s XSCP division. The coil product segment also processes customer-owned coils on a fee basis.

The Hickman and Decatur facilities are substantially similar with respect to machinery, equipment and products produced. The Company makes shipments of coil products based on which facility offers the desired product or, if the product is available at both facilities, based on other factors, such as customer location, freight conditions and the ability of the facility to fulfill the order on a timely basis. Coil products are sold on a wholesale, rapid-delivery basis in

competition with other processors of hot-rolled steel coils. Shipments are made via unaffiliated truckers or by rail.

The coil segment purchases its inventory from a limited number of suppliers. Loss of any of these suppliers could have a material adverse effect on the Company's business.

Tubular Products

The tubular product segment consists of the Company's Texas Tubular Products division ("TTP") located in Lone Star, Texas. TTP operates two electric resistance welded pipe mills with a combined outside diameter ("OD") size range of 2 3/8" OD to 8 5/8" OD. Both pipe mills are American Petroleum Institute ("API") licensed to manufacture line pipe and oil country pipe and also manufacture pipe for structural purposes that meets other recognized industry standards. TTP has a pipe finishing facility that threads and couples oil country tubular goods and performs other services that are customary in the pipe finishing process. The pipe finishing facility is API licensed and focuses on threading semi-premium connections. TTP's inventory consists of raw materials and finished goods. Raw material inventory consists of hot-rolled steel coils that TTP will manufacture into pipe. Finished goods inventory consists of pipe TTP has manufactured and new mill reject pipe that TTP purchases from U.S. Steel Tubular Products, Inc.

TTP purchases its inventory from a limited number of suppliers. Loss of any of these suppliers could have a material adverse effect on the Company's business.

Marketing

The following table sets forth the approximate percentage of total sales contributed by each group of products and services during each of the Company's last two fiscal years:

Product and Service Groups	2018	2017
Coil Products	74%	83%
Tubular Products	26%	17%

Coil Products. The Company sells coil products and processing services to approximately 165 customers located primarily in the midwestern, southwestern and southeastern regions of the United States. The Company's principal customers for these products and services are steel distributors and customers manufacturing steel products such as steel buildings, railroad cars, barges, tanks and containers, trailers, component parts and other fabricated steel products. During the fiscal years ended March 31, 2018 and 2017, sales of coil products to Trinity Industries, Inc. accounted for approximately 16% and 28% of the Company's total sales, respectively.

The Company sells substantially all of its coil products through its own sales force. At March 31, 2018, the sales force was comprised of the Vice President – Coil Sales and three professional sales personnel. Sales personnel are paid on a salary and commission basis.

Tubular Products. The Company sells its tubular products nationally to approximately 125 customers. The Company's principal customers for these products are steel and pipe distributors. In fiscal years 2018 and 2017, no individual tubular customer accounted for 10% or more of the Company's total sales.

The Company sells substantially all of its tubular products through its own sales force. At March 31, 2018, the sales force was comprised of the Vice President – Tubular Sales and two professional sales personnel. Sales personnel are paid on a salary and commission basis.

Competition

The Company is engaged in a non-seasonal, highly-competitive business. The Company competes with other processors of hot-rolled steel coils. The steel industry, in general, is characterized by a small number of extremely large companies dominating the bulk of the market and a large number of relatively small companies, such as the Company, competing for a limited share of such market.

The Company believes that, generally, its ability to compete is dependent upon its ability to offer products at prices competitive with or below those of other steel suppliers, as well as its ability to provide products meeting customer specifications on a rapid-delivery basis.

Employees

At March 31, 2018, the Company had 89 full-time employees and 2 part-time employees.

Executive Officers of the Company

The following table sets forth as of March 31, 2018, for each executive officer of the Company, the name, age, officer positions and arrangements with other persons regarding his selection as an officer, if any, and the period during which such officer has served in such capacity:

Name	Age	Position, Offices with the Company and Other Arrangements, if any
Robert Sparkman	62	President and Chief Executive Officer since April 2017; formerly President and Chief Operating Officer since 2016; formerly Senior Vice President — Operations since 2015; formerly Vice President of Sales — Coil Division since 2002 Chief Financial Officer – Secretary and Treasurer since March 2018; formerly Vice
Alex LaRue	32	President — Secretary and Treasurer since 2014; formerly Assistant Vice President — Secretary and Treasurer since 2013; formerly Controller — Texas Tubular Products since 2011

Item 1A. Risk Factors

(1) All of the Company's owned real properties, plants and offices are held in fee and are not subject to any mortgage or deed of trust.

(2) The office lease is with a non-affiliated party. The lease was scheduled to expire on April 30, 2018 but the Company executed a lease addendum to extend the term for an additional 36 months resulting in an amended expiration date of April 30, 2021. The lease requires a monthly rental payment by the Company of \$2,728.

Item 3. Legal Proceedings

The Company is a class member of steel antitrust class action litigation brought against certain steel manufacturers in the United States District Court for the Northern District of Illinois. The litigation was initiated by several complaints filed in September and October of 2008 alleging the defendants conspired, in violation of the U.S. antitrust laws, to restrict their output and therefore raise or fix the prices for steel products sold for delivery in the United States between April 1, 2005 and December 31, 2007. The plaintiffs sought monetary and other relief on behalf of themselves and the class. A portion of the defendants reached settlements in 2014 totaling \$163,900,000 and the Company received settlement proceeds of \$316,310 in fiscal 2016 related to this settlement. A settlement was reached with the remaining defendants in February 2017 totaling \$30,000,000. Subsequent to March 31, 2018, the Company received settlement proceeds of \$56,500. The Company does not expect to receive any additional proceeds from this legal matter.

The Company is not a party to, nor is its property the subject of, any other material pending legal proceedings.

PART II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The Company’s Common Stock is traded principally on the NYSE – American (Symbol: FRD).

Reference is hereby made to the sections of the Company’s Annual Report to Shareholders for the fiscal year ended March 31, 2018, entitled “Description of Business — Range of High and Low Sales Prices of Common Stock” and “Description of Business — Cash Dividends Declared Per Share of Common Stock”, which sections are hereby incorporated herein by reference.

The approximate number of shareholders of record of Common Stock of the Company as of May 25, 2018 was 205. Because many of the Company’s common shares are held by brokers and other institutions on behalf of shareholders, the Company is unable to estimate the total number of individual shareholders represented by these record holders.

Item 6. Selected Financial Data

Not required.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's principal executive officer ("CEO") and principal financial officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on this evaluation, the CEO and principal financial officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective to ensure that information that is required to be disclosed by the Company in the reports it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to the Company's management, including the CEO and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting

Management's report on internal control over financial reporting appears on page 20 of the Company's Annual Report to Shareholders for the year ended March 31, 2018, which is incorporated herein by reference. This Annual Report on Form 10-K does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to the rules of the SEC that permit the Company to provide only management's report in this Annual Report.

There were no changes in the Company's internal control over financial reporting that occurred during the fiscal quarter ended March 31, 2018 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information

None.
