Director Independence

The Board annually determines each director's independence, although we are not required to have any independent directors because the common stock of the Company is not listed on a national exchange. We do not consider a director independent unless the Board has determined that he has no material relationship with us. We intend to monitor the relationships of our directors and officers through a questionnaire each director completes no less frequently than annually and updates periodically as information provided in the most recent questionnaire changes.

In order to evaluate the materiality of any such relationship, the Board uses the definition of director independence set forth in Rule 5605(a)(2) promulgated by the Nasdaq Stock Market. The Board has determined that Messrs. Keating and Simonton are independent directors. Mr. Bechtel and Ms. Keen are not independent directors as a result of their positions as executive officers.

Nominations for Directors

The Company has not established a nominating committee. Accordingly, the Board is responsible for identifying individuals qualified to serve on the Board as directors and on committees of the Board, establishing procedures for evaluating the suitability of potential director nominees consistent with the criteria approved by the Board, reviewing the suitability for continued service as a director when his or her term expires and at such other times as the Board deems necessary or appropriate, and determining whether or not the director should be re-nominated, and reviewing the membership of the Board and its committees and making changes, if any.

In evaluating director nominees, the Board of Directors will generally consider the following factors:

the appropriate size and composition of our Board of Directors;

whether or not the person is an "independent" director as defined in Rule 5605(a)(2) promulgated by the Nasdaq Stock Market;

the needs of the Company with respect to the particular talents and experience of its directors;

the knowledge, skills and experience of nominees in light of prevailing business conditions and the knowledge, skills and experience already possessed by other members of the Board of Directors;

familiarity with national and international business matters and the requirements of the industry in which we operate;

experience with accounting rules and practices;

the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members; and

all applicable laws, rules, regulations and listing standards, if applicable.

There are no stated minimum criteria for director nominees, although the Board may consider such factors as it may deem are in the best interests of the Company and its stockholders. The Board also believes it is appropriate for certain key members of our management to participate as members of the Board of Directors.

The Board identifies nominees by first evaluating the current members of the Board willing to continue in service. Current members of the Board with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board with that of obtaining a new perspective. If any member of the Board does not wish to continue in service, or if the Board decides not to re-nominate a member for re-election, the Board identifies the desired skills and experience of a prospective director nominee in light of the criteria above, or determines to reduce the size of the Board. Research may also be performed to identify qualified individuals. To date, we have not engaged third parties to identify or evaluate or assist in identifying potential nominees, nor do we anticipate doing so in the future.

Stockholder Communications with Directors

Stockholders may communicate with the Board by sending a letter to the Corporate Secretary, Surna Inc., 1780 55th Street, Boulder, Colorado 80301. Each communication must set forth the name and address of the stockholder on whose behalf the communication is sent and should indicate in the address whether the communication is intended for the entire Board, the non-employee directors as a group or an individual director. Each communication will be screened by the Corporate Secretary or his or her designee to determine whether it is appropriate for presentation to the Board or any specified director(s). Examples of inappropriate communications include junk mail, spam, mass mailings, resumes, job inquiries, surveys, business solicitations and advertisements, as well as unduly hostile, threatening, illegal, unsuitable, frivolous, patently offensive or otherwise inappropriate material. Communications determined to be appropriate for presentation to the Board, or the director(s) to whom they are specifically addressed, will be submitted to the Board or such director(s) on a periodic basis. Any communications that concern accounting, internal control or auditing matters will be handled in accordance with procedures adopted by the Audit Committee.

Code of Business Conduct and Ethics

Our Board has adopted a Code of Business Conduct and Ethics, which is available for review on our website at www.surna.com and is also available in print, without charge, to any stockholder who requests a copy by writing to us at Surna Inc., 1780 55th Street, Boulder, Colorado 80301, Attention: Corporate Secretary. Each of our directors, employees and officers, including our Chief Executive Officer, Chief Financial Officer, and all of our other principal executive officers, are required to comply with the Code of Business Conduct and Ethics. There have not been any waivers of the Code of Business Conduct and Ethics relating to any of our executive officers or directors in the past year.

Meetings and Committees of the Board

Our Board is responsible for overseeing the management of our business. We keep our directors informed of our business at meetings and through reports and analyses presented to the Board and the committees of the Board. Regular communications between our directors and management also occur outside of formal meetings of the Board and committees of the Board.

Meeting Attendance

Our Board generally holds meetings on a quarterly basis, but may hold additional meetings as required. In 2017, the Board held eight meetings. Except for one Board meeting missed by Ms. Keen, each of our directors attended 100% of the Board meetings that were held during the periods when he or she was a director and 100% of the meetings of each committee of the Board on which he or she served that were held during the periods that he served on such committee. We do not have a policy requiring that directors attend our annual meetings of stockholders. We did not hold a 2017 annual meeting of stockholders.

Committees of the Board of Directors

Our Board established an Audit Committee on May 31, 2017. The Audit Committee operates pursuant to a charter approved by the Board, a copy of which is available on our website at www.surna.com by written request to the Company at Surna Inc., 1780 55th Street, Boulder, Colorado 80301, Attention: Corporate Secretary. The charter sets forth the responsibilities of the Audit Committee. The Audit Committee's responsibilities include recommending the selection of our independent registered public accounting firm; evaluating the appointment, compensation and retention of our registered public accounting firm; receiving formal written statements from our independent registered public accounting firm regarding its independence, including a delineation of all relationships between it and the Company; reviewing with such independent registered public accounting firm the planning, scope and results of their audit of our financial statements; pre-approving the fees for services performed; reviewing with the independent registered public accounting firm the adequacy of internal control systems; reviewing our annual financial statements and periodic filings, and receiving our audit reports and financial statements. In addition, the Audit Committee's responsibilities include considering the effect on the Company of any changes in accounting principles or practices proposed by management or the independent registered public accounting firm, any changes in service providers, such as the accountants, that could impact the Company's internal control over financial reporting, and any changes in schedules (such as fiscal or tax year-end changes) or structures or transactions that required special accounting activities, services or resources. The Audit Committee is presently comprised of two persons: Messrs. Keating and Simonton. Each member of the Audit Committee is considered independent under the rules promulgated by the Nasdaq Stock Market. Our Board has determined that Mr. Simonton is an "audit committee financial expert" as that term is defined under Item 407 of Regulation S-K of the Securities Act of 1933, as amended (the "Securities Act"). Mr. Simonton currently serves as Chairman of the Audit Committee. The Audit Committee held four meetings during 2017.

Board Leadership Structure

The Board may, but is not required to, select a Chairman of the Board who presides over the meetings of the Board and meetings of the stockholders and performs such other duties as may be assigned to him by the Board. The positions of Chairman of the Board and Chief Executive Officer may be filled by one individual or two different individuals. Currently the positions of Chairman of the Board and Chief Executive Officer are separated. Our Board believes that this structure has allowed Mr. Bechtel, Chief Executive Officer, to focus on our day-to-day business, while allowing Mr. Keating, our Chairman of the Board, to lead the Board in its fundamental role of providing advice to and independent oversight (including risk oversight) of management.

Our separated Chairman of the Board and Chief Executive Officer positions are augmented by our independent directors, who comprise all of our Board committees and meet regularly in executive session without Mr. Bechtel, Ms. Keen or other members of our management present to ensure that our Board maintains an appropriate level of independent oversight of management.

Board's Role in Risk Oversight

While risk management is primarily the responsibility of the Company's management team, the Board is responsible for the overall supervision of the Company's risk management activities. The Board as a whole has responsibility for risk oversight, and each Board committee has responsibility for reviewing certain risk areas and reporting to the full Board. The oversight responsibility of the Board and its committees is enabled by management reporting processes that are designed to provide visibility to the Board about the identification, assessment, and management of critical risks and management's risk mitigation strategies in certain focus areas. These areas of focus include strategic, operational, financial and reporting, succession and compensation and other areas.

The Board and its committees oversee risks associated with their respective areas of responsibility. The full Board oversees: (i) risks and exposures associated with our business strategy and other current matters that may present material risk to our financial performance, operations, prospects or reputation, (ii) risks and exposures associated with management succession planning and executive compensation programs and arrangements, including equity incentive plans, and (iii) risks and exposures associated with director succession planning, corporate governance, and overall board effectiveness. The Audit Committee oversees overall policies with respect to risk assessment and risk management, material pending legal proceedings involving the Company and other contingent liabilities, any potential related party or conflict of interest transactions, as well as other risks and exposures that may have a material impact on our financial statements.

Management provides regular updates to the Board regarding the management of the risks they oversee at each regular meeting of the Board. We believe that the Board's role in risk oversight must be evaluated on a case-by-case basis and that our existing Board's role in risk oversight is appropriate. However, we continually re-examine the manners in which the Board administers its oversight function on an ongoing basis to ensure that they continue to meet the Company's needs.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") requires our executive officers, directors and persons who beneficially own more than 10% of our common stock to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulations to furnish us with

copies of all Section 16(a) reports filed by such persons.

Based solely on our review of the copies of such reports furnished to us, we believe that during the fiscal year ended December 31, 2017, all executive officers, directors and greater than 10% beneficial owners of our common stock complied with the reporting requirements of Section 16(a) of the Exchange Act.

Item 11. Executive Compensation

Director Compensation Program

On August 8, 2017, the Board approved a compensation plan for its independent directors, which was effective the election or appointment of independent directors on or after May 31, 2017. Under the plan, the Company pays its independent directors an annual fee of \$60,000, payable quarterly in advance on the first business day of each quarter, covering any regular or special meetings of the Board or any committee thereof attended in person, any telephonic meeting of the Board or any committee thereof in which the director participated, any non-meeting consultations with the Company's management, and any other services provided by them as a director (other than services as the Chairman of the Board and lead independent director and the Chairman of the Audit Committee). The annual fee is paid 50% in cash and 50% in shares of the Company's common stock, with the number of shares to be determined based on the closing price of the common stock on the date of issuance.

The Company pays the Chairman of the Board and lead independent director an additional annual fee of \$15,000, payable in cash quarterly in advance. Mr. Keating is currently the Chairman of the Board and is presently designated as the lead independent director.

The Company pays the Audit Committee Chairman, currently Mr. Simonton, an annual fee of \$15,000, payable in cash quarterly in advance, for his services as the Audit Committee Chairman. There is no additional compensation paid to members of the Audit Committee.

At the time of initial election or appointment, each director also receives an equity retention award in the form of non-qualified stock options ("Stock Options") to purchase shares of common stock, shares of common stock ("Common Shares"), or a combination thereof. The number of common shares underlying the Stock Options ("Option Shares") and/or Common Shares included in the equity retention award is determined by the Board. Vesting of the equity retention award is determined by the Board, with a portion vesting upon grant and the remainder vesting over either a one- or two-year period following the grant.

Each director is responsible for the payment of any and all income taxes arising with respect to the grant of common stock or the exercise of non-qualified stock options.

The Company also reimburses directors for out-of-pocket expenses incurred in attending Board and committee meetings and undertaking certain matters on the Company's behalf.

Employee directors do not receive separate fees for their services as directors.

Under the Nevada Revised Statutes and pursuant to our charter and bylaws, as currently in effect, the Company may indemnify the Company's officers and directors for various expenses and damages resulting from their acting in these capacities. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our officers and directors pursuant to the foregoing provisions, we have been informed that, in the opinion of the SEC, this indemnification is against public policy as expressed in the Securities Act, and is therefore unenforceable.

The Company has entered into indemnification agreements with its directors and executive officers. The indemnification agreements are intended to provide the Company's directors the maximum indemnification permitted under the Nevada Revised Statutes, unless otherwise limited by the Company's charter and bylaws. Each indemnification agreement provides that the Company shall indemnify the director or executive officer who is a party to the agreement (an "Indemnitee"), including the advancement of legal expenses, if, by reason of his corporate status, the Indemnitee is, or is threatened to be, made a party to or a witness in any threatened, pending, or completed proceeding. Executive Compensation Philosophy and Objectives

The Company has not established a compensation committee. Accordingly, the Board is responsible for setting compensation policies for executive officers has two fundamental objectives: (i) to provide a competitive total compensation package that enables the Company to attract and retain highly qualified executives with the skills and experience required for the achievement of business goals; and (ii) to align certain compensation elements with the Company's annual performance goals. The Board considers, with respect to each of the Company's executive officers, the total compensation that may be awarded, including base salary, discretionary cash bonuses, annual stock incentive awards, stock options, restricted stock units and other equity awards, and other benefits and perquisites. Under certain circumstances, the Board may also award compensation payable upon termination of the executive officer under an employment agreement or severance agreement (if applicable). The Board recognizes that its overall goal is to award compensation that is reasonable when all elements of potential compensation are considered. The Board believes that cash compensation in the form of base salary and discretionary cash bonuses provides our executives with short-term rewards for success in operations, and that long-term compensation through the award of stock options, restricted stock units and other equity awards aligns the objectives of management with those of our stockholders with respect to long-term performance and success.

The Board also has historically focused on the Company's financial condition when making compensation decisions and approving performance objectives. Because the Company has historically sought to preserve cash and currently does not operate at a profit, overall compensation traditionally has been weighted more heavily toward equity-based compensation, a portion of which is earned only upon the Company's achievement of specified annual revenue goals. The Board will continue to periodically reassess the appropriate weighting of cash and equity compensation in light of the Company's expenditures in connection with commercial operations and its cash resources and working capital needs.

On May 10, 2017, the Board approved a three-year equipment, demonstration and product testing agreement between the Company and Sterling Pharms, LLC ("Sterling"), an entity controlled by Mr. Keen, which operates a Colorado-regulated cannabis cultivation facility currently under construction. Under this agreement, the Company agreed to provide to Sterling certain lighting, environmental control, and air sanitation equipment for use at the Sterling facility in exchange for a quarterly fee of \$16,500. Also, under this agreement, Sterling agreed to allow the Company and its existing and prospective customers to have access to the Sterling facility for demonstration tours in a working environment, which the Company believes will assist it in the sale of its products. Sterling also agreed to monitor, test and evaluate the Company's products installed at the Sterling facility and to collect data and provide feedback to the Company on the energy and operational efficiency and efficacy of the installed products, which the Company intends to use to improve, enhance and develop new or additional product features, innovations and technologies.
