Item 8.01. Other Events

World Fuel Services Corporation (the "Company") is filing this Form 8-K to provide additional information and details regarding the correction of previously issued financial statements disclosed in its Current Report on Form 8-K filed with the Securities and Exchange Commission on July 28, 2016. During the quarter ended June 30, 2016, the Company identified a correction to its provision for income taxes in certain prior periods due to the accounting for the tax effects of foreign currency translation changes on intercompany loans that are considered to be of a long-term investment nature. The Company determined that it had incorrectly applied the accounting guidance in ASC 740, Income Taxes and recorded a deferred tax asset related to foreign currency translation losses in the provision for income taxes, resulting in the Company reporting a lower provision for income taxes in the periods that were impacted.

In accordance with Staff Accounting Bulletin ("SAB") No. 99, Materiality, and SAB No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements, management evaluated the materiality of the error from qualitative and quantitative perspectives, and concluded the error was not material to its previously issued annual and interim financial statements. The cumulative amounts of the corrections were approximately \$20.0 million, of which approximately \$12.5 million was attributable to the year ended December 31, 2015. The cumulative amount of the prior period adjustments would have been material to the Company's current Statements of Income and Comprehensive Income had it made the correction in the current period and, accordingly the Company will revise its previously issued financial statements prospectively to correct these errors.

The corrections associated with the provision for income taxes line item as well as other immaterial adjustments are reflected below and will also be reflected in the Company's regularly filed financial reports commencing with its Quarterly Report on Form 10-Q for the three and six months ended June 30, 2016 for all periods presented

The following table presents the effect of the correction on the previously reported Balance Sheet as of December 31, 2015 and December 31, 2014:
