EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q of Host Hotels & Resorts, Inc. and Host Hotels & Resorts, L.P. Unless stated otherwise or the context requires otherwise, references to “Host Inc.” mean Host Hotels & Resorts, Inc., a Maryland corporation, and references to “Host L.P.” mean Host Hotels & Resorts, L.P., a Delaware limited partnership, and its consolidated subsidiaries, in cases where it is important to distinguish between Host Inc. and Host L.P. We use the terms “we” or “our” or “the company” to refer to Host Inc. and Host L.P. together, unless the context indicates otherwise.

Host Inc. operates as a self-managed and self-administered real estate investment trust (“REIT”). Host Inc. owns properties and conducts operations through Host L.P., of which Host Inc. is the sole general partner and of which it holds approximately 99% of the partnership interests (“OP units”). The remaining OP units are owned by various unaffiliated limited partners. As the sole general partner of Host L.P., Host Inc. has the exclusive and complete responsibility for Host L.P.’s day-to-day management and control. Management operates Host Inc. and Host L.P. as one enterprise. The management of Host Inc. consists of the same persons who direct the management of Host L.P. As general partner with control of Host L.P., Host Inc. consolidates Host L.P. for financial reporting purposes, and Host Inc. does not have significant assets other than its investment in Host L.P. Therefore, the assets and liabilities of Host Inc. and Host L.P. are substantially the same on their respective condensed consolidated financial statements and the disclosures of Host Inc. and Host L.P. also are substantially similar. For these reasons, we believe that the combination into a single report of the quarterly reports on Form 10-Q of Host Inc. and Host L.P. results in benefits to management and investors.

The substantive difference between Host Inc.’s and Host L.P.’s filings is the fact that Host Inc. is a REIT with public stock, while Host L.P. is a partnership with no publicly traded equity. In the condensed consolidated financial statements, this difference primarily is reflected in the equity (or partners’ capital for Host L.P.) section of the consolidated balance sheets and in the consolidated statements of equity (or partners’ capital for Host L.P.). Apart from the different equity treatment, the condensed consolidated financial statements of Host Inc. and Host L.P. nearly are identical.

This combined Form 10-Q for Host Inc. and Host L.P. includes, for each entity, separate interim financial statements (but combined footnotes), separate reports on disclosure controls and procedures and internal control over financial reporting and separate CEO/CFO certifications. In addition, with respect to any other financial and non-financial disclosure items required by Form 10-Q, any material differences between Host Inc. and Host L.P. are discussed separately herein. For a more detailed discussion of the substantive differences between Host Inc. and Host L.P. and why we believe the combined filing results in benefits to investors, see the discussion in the combined Annual Report on Form 10-K for the year ended December 31, 2013 under the heading “Explanatory Note.”

1. Organization

Description of Business

Host Hotels & Resorts, Inc. operates as a self-managed and self-administered real estate investment trust (“REIT”), with its operations conducted solely through Host Hotels & Resorts, L.P. and its subsidiaries. Host Hotels & Resorts, L.P., a Delaware limited partnership, operates through an umbrella partnership structure, with Host Hotels & Resorts, Inc., a Maryland corporation, as its sole general partner. In the notes to the condensed consolidated financial statements, we use the terms “we” or “our” to refer to Host Hotels & Resorts, Inc. and Host Hotels & Resorts, L.P. together, unless the context indicates otherwise. We also use the term “Host Inc.” specifically to refer to Host Hotels & Resorts, Inc. and the term “Host L.P.” specifically to refer to Host Hotels & Resorts, L.P. in cases where it is important to distinguish between Host Inc. and Host L.P. As of June 30, 2014, Host Inc. holds approximately 99% of Host L.P.’s OP units.

Consolidated Portfolio

As of June 30, 2014, our consolidated portfolio, primarily consisting of luxury and upper upscale hotels, is located in the following countries:

	Hotels
United States	99
Australia	1
Brazil	1
Canada	3
Chile	2
Mexico	1
New Zealand	7
Total	114

International Joint Ventures

We own a non-controlling interest in a joint venture in Europe (“Euro JV”) that owns hotels in two separate funds. We own a 32.1% interest in the first fund (“Euro JV Fund I”) (11 hotels) and a 33.4% interest in the second fund (“Euro JV Fund II”) (8 hotels).

As of June 30, 2014, the Euro JV owned hotels located in the following countries:

Hotels

Belgium	3
France	4
Germany	1
Italy	3
Poland	1
Spain	2
Sweden	1
The Netherlands	2
United Kingdom	2
Total	19

In addition, our joint venture in Asia (“Asia/Pacific JV”), in which we own a 25% non-controlling interest, owns one hotel in Australia and a non-controlling interest in an entity with two hotels operational and five additional hotels in various stages of development in India.

2. Summary of Significant Accounting Policies

We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with GAAP in the accompanying unaudited condensed consolidated financial statements. We believe the disclosures made herein are adequate to prevent the information presented from being misleading. However, the unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2013.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In our opinion, the accompanying unaudited condensed consolidated financial statements reflect all adjustments necessary to present fairly our financial position as of June 30, 2014, and the results of our operations for the quarter and year-to-date periods ended June 30, 2014 and 2013, respectively, and cash flows for the year-to-date periods ended June 30, 2014 and 2013, respectively. Interim results are not necessarily indicative of full year performance because of the impact of seasonal and short-term variations.

Reclassifications

Certain prior year financial statement amounts have been reclassified to conform with the current year presentation.

New Accounting Standards

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606), which affects virtually all aspects of an entity's revenue recognition. The core principle of the new standard is that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard is effective for annual reporting periods beginning after December 15, 2016. We have not yet completed our assessment of the effect of the new standard on our financial statements, including possible transition alternatives.

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360) - Reporting Discontinued Operations and Disclosure of Disposal of Components of an Entity ("ASU 2014-08 Reporting for Discontinued Operations.") Under this standard, a disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations only if the disposal represents a strategic shift that has, or will have, a major effect on an entity's operations and financial results. In addition, it requires an entity to present, for each comparative period, the assets and liabilities of a disposal group that includes a discontinued operation separately in the asset and liability sections, respectively, of the statement of financial position. As a result, the operations of sold properties through the date of their disposal will be included in continuing operations, unless the sale represents a strategic shift. We adopted this standard as of January 1, 2014. No prior year restatements are permitted for this change in policy.

3. Earnings Per Common Share (Unit)

Host Inc. Earnings Per Common Share

Basic earnings per common share is computed by dividing net income attributable to common stockholders by the weighted average number of shares of Host Inc. common stock outstanding. Diluted earnings per common share is computed by dividing net income attributable to common stockholders, as adjusted for potentially dilutive securities, by the weighted average number of shares of Host Inc. common stock outstanding plus other potentially dilutive securities. Dilutive securities may include shares granted under comprehensive stock plans, other non-controlling interests that have the option to convert their limited partnership interests to common OP units and convertible debt securities. No effect is shown for any securities that are anti-dilutive. The calculation of basic and diluted earnings per common share is shown below (in millions, except per share amounts):

	Quarter ended		Year-to-date ended June 30,	
	June 30, 2014	2013	2014	2013

Basic earnings per common share	\$.21	\$.16	\$.44	\$.24
Diluted earnings per common share	\$.21	\$.16	\$.44	\$.24

(1) There were approximately 30 million potentially dilutive shares for both the quarter and year-to-date periods ended June 30, 2014, and approximately 29 million potentially dilutive shares for both the quarter and year-to-date periods ended June 30, 2013, related to our exchangeable senior debentures, which shares were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the period. Income allocated to non-controlling interests of Host L.P. has been excluded from the numerator and common OP units in

Host L.P. have been omitted from the denominator for the purpose of computing diluted earnings per share since the effect of including these amounts would have no impact.

Host L.P. Earnings Per Common Unit

Basic earnings per common unit is computed by dividing net income attributable to common unitholders by the weighted average number of common units outstanding. Diluted earnings per common unit is computed by dividing net income attributable to common unitholders, as adjusted for potentially dilutive securities, by the weighted average number of common units outstanding plus other potentially dilutive securities. Dilutive securities may include units issued to Host Inc. to support Host Inc. common shares granted under comprehensive stock plans, other non-controlling interests that have the option to convert their limited partnership interests to common OP units and convertible debt securities. No effect is shown for any securities that are anti-dilutive. The calculation of basic and diluted earnings per unit is shown below (in millions, except per unit amounts):

5. Debt

Credit facility. On June 27, 2014, we amended and restated our senior unsecured credit facility with Bank of America, N.A. as administrative agent. The borrowing capacity under the credit facility remains the same at \$1 billion and now includes the ability to draw in Mexican pesos and swingline borrowings in Euros and British pound sterling. Under the amendment, we extended the maturity of the revolver portion of the credit facility to June 2018, with two six-month renewal options and amended the maturity of the \$500 million term loan under the credit facility to June 2017, with two one-year renewal options, resulting in a maturity for the entire credit facility in June 2019, if all renewal options are exercised. The amendment also reduced the interest rate margin and facility fee on our borrowings. Interest on revolver borrowings consists of floating rates equal to LIBOR plus a margin ranging from 87.5 to 155 basis points (depending on Host L.P.'s unsecured long-term debt rating). We also pay a facility fee ranging from 12.5 to 30 basis points depending on our rating, regardless of usage. Based on Host L.P.'s long-term debt rating as of June 30, 2014, our applicable margin on the revolver borrowings will be 100 basis points and we will pay a facility fee of 20 basis points. Interest on the term loan consists of floating interest rates equal to LIBOR plus a margin ranging from 90 to 175 basis points (depending on Host L.P.'s unsecured long-term debt rating). Based on Host L.P.'s long-term debt rating as of June 30, 2014, our applicable margin on the term loan is 112.5 basis points, for an all-in interest rate of 1.28%. As of June 30, 2014, we have \$778 million of available capacity under the credit facility.

Other. On June 25, 2014, we redeemed the \$40 million 7.75% Philadelphia Airport Industrial Development Revenue Bonds. Additionally, on June 15, 2014, we redeemed the \$32 million 7% Newark Airport Industrial Development Refunding Revenue Bonds.

6. Equity of Host Inc. and Capital of Host L.P.

Balance, June 30, 2014	\$7,348	\$ 36	\$7,384	\$ 211

Capital of Host L.P.

As of June 30, 2014, Host Inc. is the owner of approximately 99% of Host L.P.'s common OP units. The remaining common OP units are held by third party limited partners. Each OP unit may be redeemed for cash or, at the election of Host Inc., Host Inc. common stock, based on the conversion ratio of 1.021494 shares of Host Inc. common stock for each OP unit.

In exchange for any shares issued by Host Inc., Host L.P. will issue OP units to Host Inc. based on the applicable conversion ratio. Additionally, funds used by Host Inc. to pay dividends on its common stock are provided by distributions from Host L.P.

Dividends/Distributions

On May 14, 2014, Host Inc.'s Board of Directors declared a regular dividend of \$0.15 per share on its common stock. The dividend was paid on July 15, 2014 to stockholders of record as of June 30, 2014. Accordingly, Host L.P. made a distribution of \$0.1532241 per unit on its common OP units based on the current conversion ratio. In addition, on July 31, 2014, Host Inc.'s Board of Directors declared a regular dividend of \$0.20 per share on its common stock for the third quarter. The dividend is payable on October 15, 2014 to stockholders of record as of September 30, 2014.

7. Dispositions

Effective January 1, 2014, we adopted ASU 2014-08 Reporting for Discontinued Operations. As a result, operations of hotels sold subsequent to December 31, 2013 will continue to be reported in continuing operations, while gains on sales will be included in gain on sale of assets, within income from continuing operations. The results of properties sold in 2013, including the gain on sale, prior to adoption will continue to be reported in discontinued operations.

The following table provides summary results of operations for the five hotels sold in 2013 which have been included in discontinued operations (in millions):

8. Acquisitions

On January 21, 2014, we acquired the 151-room Powell Hotel in San Francisco, California, including retail space and the fee simple interest in the land, for approximately \$75 million. Accounting for the acquisition requires an allocation of the purchase price to the assets acquired and the liabilities assumed at their respective estimated fair values. The purchase price allocations are estimated based on currently available information; however, we still are in the process of obtaining appraisals and finalizing the accounting for the acquisition. The following table summarizes the estimated fair value of the assets acquired and liabilities assumed related to this acquisition (in millions):

Derivatives and Hedging

Interest rate swap derivatives designated as cash flow hedges. We have designated our floating-to-fixed interest rate swap derivatives as cash flow hedges. The purpose of the interest rate swaps is to hedge against changes in cash flows (interest payments) attributable to fluctuations in variable rate debt. The derivatives are valued based on the prevailing market yield curve on the date of measurement. We also evaluate counterparty credit risk when we calculate the fair value of the swaps. Changes in the fair value of the derivatives are recorded to other comprehensive income (loss). The hedges were fully effective as of June 30, 2014.

(1) The swap was entered into in connection with the A\$82 million (\$77 million) mortgage loan on the Hilton Melbourne South Wharf.

(2) The swap was entered into in connection with the NZ\$105 million (\$92 million) mortgage loan on seven properties in New Zealand.

Foreign Investment Hedging Instruments. We have five foreign currency forward sale contracts that hedge a portion of the foreign currency exposure resulting from the eventual repatriation of our net investment in foreign operations. These derivatives are considered hedges of the foreign currency exposure of a net investment in a foreign operation and are marked-to-market with changes in fair value recorded to other comprehensive income (loss). The forward sale contracts are valued based on the forward yield curve of the foreign currency to U.S. dollar forward exchange rate on the date of measurement. We also evaluate counterparty credit risk when we calculate the fair value of the derivatives.

The following table summarizes our foreign currency sale contracts (in millions):

Currently Outstanding Transaction Date Range	Total Transaction Amount in Foreign Currency	Total Transaction Amount in Dollars	Forward Purchase Date Range	Change in Fair Value - All Contracts			
				Gain (Loss) Quarter ended June 30, 2014	2013	Gain (Loss) Year-to-date ended June 30, 2014	2013

--------------------	------	--------	-----------------------	-----	---------	------	------

In addition to the forward sale contracts, we have designated a portion of the foreign currency draws on our credit facility as hedges of net investments in foreign operations. Changes in fair value of the designated credit facility draws are recorded to other comprehensive income (loss).

The following table summarizes the draws on our credit facility that are designated as hedges of net investments in foreign operations (in millions):

Euros	\$ 102	€ 74	\$ 1	\$ (1)	\$ 1	\$ —

(1) We have an additional \$71 million outstanding on the credit facility in Canadian dollars, which draw has not been designated as a hedging instrument.

Other Liabilities

Fair Value of Other Financial Liabilities. We did not elect the fair value measurement option for any of our other financial liabilities. Valuations for secured debt and our credit facility are determined based on the expected future payments discounted at risk-adjusted rates. Senior Notes and the Exchangeable Senior Debentures are valued based on quoted market prices. The fair values of financial instruments not included in this table are estimated to be equal to their carrying amounts.

10. Geographic Information

We consider each of our hotels to be an operating segment, none of which meets the threshold for a reportable segment. We also allocate resources and assess operating performance based on individual hotels. All of our other real estate investment activities (primarily office buildings and apartments) are immaterial and, with our operating segments, meet the aggregation criteria, and thus, we report one segment: hotel ownership. Our consolidated foreign operations consist of hotels in six countries. There were no intersegment sales during the periods presented.

The following table presents total revenues and property and equipment for each of the geographical areas in which we operate (in millions):

11. Non-controlling Interests

Other Consolidated Partnerships. We consolidate six majority-owned partnerships that have third-party, non-controlling ownership interests. The third-party partnership interests are included in non-controlling interests — other consolidated partnerships on the condensed consolidated balance sheets and totaled \$36 million and \$34 million as of June 30, 2014 and December 31, 2013, respectively. Two of the partnerships have finite lives that terminate between 2081 and 2095, and the associated non-controlling interests are mandatorily redeemable at our option at the end of, but not prior to, the finite life. At both June 30, 2014 and December 31, 2013, the fair values of the non-controlling interests in the partnerships with finite lives were approximately \$68 million.

Net income attributable to non-controlling interests of consolidated partnerships is included in our determination of net income. Net income attributable to non-controlling interests of third parties, which is included in the determination of net income attributable to Host Inc. and Host L.P., was \$2 million and \$1 million for the quarters ended June 30, 2014 and 2013, respectively. Net income attributable to non-controlling interests of third parties was \$5 million and \$4 million for the year-to-date periods ended June 30, 2014 and 2013, respectively.

HOST HOTELS & RESORTS, INC., HOST HOTELS & RESORTS, L.P., AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

Host Inc.'s treatment of the non-controlling interests of Host L.P.: Host Inc. adjusts the non-controlling interests of Host L.P. each period so that the amount presented equals the greater of its carrying value based on accumulated historical cost or its redemption value. The historical cost is based on the proportional relationship between the historical cost of equity held by our common stockholders relative to that of the unitholders of Host L.P. The redemption value is based on the amount of cash or Host Inc. common stock, at our option, that would be paid to the non-controlling interests of Host L.P. if it were terminated. Therefore, the redemption value of the common OP units is equivalent to the number of shares that would be issued upon conversion of the common OP units held by third parties valued at the market price of Host Inc. common stock at the balance sheet date. One common OP unit may be exchanged into 1.021494 shares of Host Inc. common stock. Non-controlling interests of Host L.P. are classified in the mezzanine section of our balance sheets as they do not meet the requirements for equity classification because the redemption feature requires the delivery of registered shares.

The table below details the historical cost and redemption values for the non-controlling interests:

	June 30, 2014	December 31, 2013
OP units outstanding (millions)	9.4	9.5
Market price per Host Inc. common share	\$22.01	\$19.44
Shares issuable upon conversion of one OP unit	1.021494	1.021494
Redemption value (millions)	\$211	\$190
Historical cost (millions)	95	95
Book value (millions) ⁽¹⁾	211	190

(1) The book value recorded is equal to the greater of redemption value or historical cost.

Net income is allocated to the non-controlling interests of Host L.P. based on their weighted average ownership interest during the period. Net income attributable to Host Inc. has been reduced by the amount attributable to non-controlling interests of Host L.P. The net income attributable to the non-controlling interests of Host L.P. for the quarter and year-to-date ended June 30, 2014 was \$2 million and \$5 million, respectively. The income attributable to the non-controlling interests of Host L.P. for the quarter and year-to-date ended June 30, 2013 was \$1 million and \$2 million, respectively.

12. Legal Proceedings

We are involved in various legal proceedings in the normal course of business regarding the operation of our hotels and company matters. To the extent not covered by insurance, these legal proceedings generally fall into the following broad categories: disputes involving hotel-level contracts, employment litigation, compliance with laws such as the Americans with Disabilities Act, tax disputes and other general matters. Under our management agreements, our operators have broad latitude to resolve individual hotel-level claims for amounts generally less than \$150,000. However, for matters exceeding such threshold, our operators may not settle claims without our consent.

Excluding the San Antonio litigation discussed below, based on our analysis of legal proceedings with which we currently are involved or of which we are aware and our experience in resolving similar claims in the past, we have accrued approximately \$23 million as of June 30, 2014 for liabilities related to legal proceedings and estimate that, in the aggregate, our losses related to these proceedings could be as much as \$51 million. We believe this range represents the maximum potential loss for all of our legal proceedings. We are not aware of any other matters with a reasonably possible unfavorable outcome for which disclosure of a loss contingency is required. No assurances can be given as to the outcome of any pending legal proceedings.

On May 16, 2012, we filed a Petition for Review in the Texas Supreme Court related to the litigation concerning the ground lease for the San Antonio Marriott Rivercenter and provided briefing on the merits, which were concluded in January 2013. On June 28, 2013, the Court issued an order denying the petition for review; however, on December 13, 2013, the Court granted our motion for rehearing on that order and heard oral arguments on our appeal on February 4, 2014. On June 13, 2014, the Court reversed the court of appeals judgment, the effect of which is that we are no longer liable for the jury verdict and punitive damages award. However, Keystone-Texas Property Holding Corporation (“Keystone”) has indicated that it will request a rehearing on the Court’s decision. We have accrued a loss contingency of approximately \$69 million related to this litigation, which includes the funding of a court-ordered \$25 million escrow reserve. If the motion for rehearing is denied, we will reverse the accrual and cancel the escrow reserve bond when the Court concludes the case by issuance of its final mandate. No assurances can be given, however, as to the outcome of the motion for rehearing.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements and related notes included elsewhere in this report. Host Inc. operates as a self-managed and self-administered REIT. Host Inc. is the sole general partner of Host L.P. and holds approximately 99% of its partnership interests. Host L.P. is a limited partnership operating through an umbrella partnership structure. The remaining common OP units are owned by various unaffiliated limited partners.

Forward-Looking Statements

In this report on Form 10-Q, we make forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are identified by their use of terms and phrases such as "anticipate," "believe," "could," "expect," "may," "intend," "predict," "project," "plan," "will," "estimate" and other similar phrases, including references to assumptions and forecasts of future results. Forward-looking statements are based on management's current expectations and assumptions and are not guarantees of future performance. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results to differ materially from those anticipated at the time the forward-looking statements are made.

The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- the effect on lodging demand of (i) changes in national and local economic and business conditions, including concerns about global economic prospects and the speed and strength of a recovery, and (ii) other factors such as natural disasters, weather, changes in the international political climate, and the occurrence or potential occurrence of terrorist attacks, all of which will affect occupancy rates at our hotels and the demand for hotel products and services;
- operating risks associated with the hotel business, including the effect of increasing labor costs or changes in workplace rules that affect labor costs;
- the continuing volatility in global financial and credit markets, and the impact of budget deficits and pending and future U.S. governmental action to address such deficits through reductions in spending and similar austerity measures, which could materially adversely affect U.S. and global economic conditions, business activity, credit availability, borrowing costs, and lodging demand;
- the impact of geopolitical developments outside the U.S., such as the sovereign credit issues in certain countries in the European Union, or unrest in the Middle East, which could affect the relative volatility of global credit markets generally, global travel and lodging demand, including for our foreign hotel properties;
- the effect of rating agency downgrades of our debt securities on the cost and availability of new debt financings;
- the reduction in our operating flexibility and the limitation on our ability to pay dividends and make distributions resulting from restrictive covenants in our debt agreements, which limit the amount of distributions from Host L.P. to Host Inc., and other risks associated with the level of our indebtedness or related to restrictive covenants in our debt agreements, including the risk of default that could occur;
- our ability to maintain our properties in a first-class manner, including meeting capital expenditures requirements, and the effect of renovations on our hotel occupancy and financial results;
- our ability to compete effectively in areas such as access, location, quality of accommodations and room rate structures;
- our ability to acquire or develop additional properties and the risk that potential acquisitions or developments may not perform in accordance with our expectations;
- relationships with property managers and joint venture partners and our ability to realize the expected benefits of our joint ventures and other strategic relationships;
- our ability to recover fully under our existing insurance policies for terrorist acts and our ability to maintain adequate or full replacement cost "all-risk" property insurance policies on our properties on commercially reasonable terms;

the effects of tax legislative action and other changes in laws and regulations, or the interpretation thereof, including the need for compliance with new environmental and safety requirements;

22

·the ability of Host Inc. and each of the REIT entities acquired, established or to be established by Host Inc. to continue to satisfy complex rules in order to qualify as REITs for federal income tax purposes, Host L.P.'s ability to satisfy the rules required to maintain its status as a partnership for federal income tax purposes, and Host Inc.'s and Host L.P.'s ability and the ability of our subsidiaries, and similar entities to be acquired or established by us, to operate effectively within the limitations imposed by these rules; and

·risks associated with our ability to effectuate our dividend policy, including factors such as investment activity, operating results and the economic outlook which may influence our board of director's decision whether to pay future dividends at levels previously disclosed or to use available cash to make special dividends.

We undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events, or otherwise. Achievement of future results is subject to risks, uncertainties and potentially inaccurate assumptions, including those risk factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2013 and in other filings with the Securities and Exchange Commission ("SEC"). Although we believe the expectations reflected in such forward-looking statements are based upon reasonable assumptions, we can give no assurance that we will attain these expectations or that any deviations will not be material.

(1) Adjusted EBITDA, NAREIT and Adjusted FFO per diluted share and comparable hotel operating results (including comparable hotel revenues and comparable hotel adjusted operating profit and margins) are non-GAAP (U.S. generally accepted accounting principles) financial measures within the meaning of the rules of the SEC. See “-Non-GAAP Financial Measures” for more information on these measures, including why we believe these supplemental measures are useful, reconciliations to the most directly comparable GAAP measure, and the limitations on the use of these supplemental measures.

(2) Comparable hotel operating statistics for 2014 and 2013 are based on 109 hotels as of June 30, 2014.

23

The growth in revenues for the second quarter and year-to-date was driven by an increase in rooms revenues as comparable hotel RevPAR, on a constant US\$ basis, increased 5.1% for the second quarter, reflecting a 4.1% increase in average room rates and an increase in occupancy to 81%, primarily due to strong transient business. Group business increased 2.1% for the quarter, primarily reflecting a 6.6% decline in April group results due to the Easter holiday shift to the second quarter in 2014. RevPAR increased 5.9% year-to-date on a constant dollar basis, reflecting a 4.3% increase in average room rates and a slight increase in occupancy to 77.5% due to improvements in both group and transient business. On a nominal US\$ basis, which includes the effect of foreign currency fluctuations, comparable hotel RevPAR increased 4.8% and 5.4%, respectively, for the second quarter and year-to-date. Comparable food and beverage revenues increased 0.8% for the quarter. Food and beverage revenues decreased by \$3 million for the quarter and increased \$33 million year-to-date. For the quarter, food & beverage revenues were affected negatively by the weakness in group business. The growth in revenues for all revenue categories were affected negatively by the timing of hotels acquired and sold during the comparable periods, which resulted in a net decrease of \$25 million in total revenues for the quarter and \$35 million year-to-date.

Operating profit margins (calculated based on GAAP operating profit as a percentage of GAAP revenues) increased 100 basis points and 190 basis points for the second quarter and year-to-date 2014, respectively, as compared to the same periods in 2013. These operating profit margins are affected significantly by several items, including operations from recently acquired hotels, depreciation, impairment expense, and corporate expenses. Our comparable hotel adjusted operating profit margins, which exclude these items, increased 60 basis points and 80 basis points for the second quarter and year-to-date 2014, respectively, compared to 2013. The improvement in operating profit margins was driven by the improvements in average room rates at the properties and well-managed operating costs, which increased 2.6% for the quarter and 3.8% year-to-date at our comparable hotels, respectively.

The increase in net income for the second quarter of 2014 primarily reflects the improvement in operations, described above, and a \$48 million, or 47%, decline in interest expense. The improvements in net income were partially offset by several recent transactions, including (i) the second quarter 2013 gain of \$21 million on sale of four acres of excess land adjacent to the Newport Beach Marriott Resort & Spa (ii) the timing of acquisitions and dispositions and (iii) cost (primarily selling expenses) recorded for the Maui timeshare, which is currently under development. The significant decline in interest expense reflects an improvement of \$17 million due to the refinancing or repayment of debt that has resulted in lower weighted average interest rates and a decrease in total debt and a decline in debt extinguishment costs of \$30 million for the quarter. Year-to-date 2014, net income also benefited from \$108 million of gains on property sales. The trends and transactions described for Host Inc. affected similarly the operating results for Host L.P, as the only significant difference between the Host Inc. and the Host L.P. statements of operations relates to the treatment of income attributable to the third party limited partners of Host L.P. For the second quarter and year-to-date 2014, Host Inc.'s diluted income per common share improved \$0.05 per common share and \$0.20 per common share, respectively. Host L.P.'s diluted income per common unit improved \$0.05 per common unit for the second quarter 2014 and improved \$0.21 per common unit for year-to-date 2014.

Comparable hotel adjusted operating profit increased \$21 million, or 5.5%, for the quarter and increased \$53 million, or 8.3%, year-to-date. However, for the quarter, Adjusted EBITDA declined \$20 million and Adjusted FFO per diluted share decreased \$.02 while, year-to-date, Adjusted EBITDA increased by \$5 million and Adjusted FFO per diluted share increased \$.03 compared to the corresponding 2013 periods. Comparisons of Adjusted EBITDA and Adjusted FFO per diluted share to prior periods were also negatively affected by the recent transactions described above by \$39 million and \$57 million for the quarter and year-to-date, respectively.

Outlook

For the remainder of 2014, we believe that the broad economic trends that have translated into the steady improvement in lodging demand should continue to drive RevPAR growth and operating results. Forecasts for full

year 2014 GDP and investment growth in the U.S. have declined significantly since January, as the weather-induced slump and the expiration of unemployment benefits in the first quarter of the year had a much more severe affect than initially anticipated. However, consumer confidence has been strong in recent months, and growth is expected to accelerate in the last two quarters. While we believe these economic trends will continue to effect individual markets unevenly, based on our current overall group bookings, we believe that increasing group demand will allow our operators to shift the business mix to higher-rated corporate group and transient demand, as opposed to lower-rated transient discount business, helping to drive profitability. As a result, we believe the majority of the RevPAR growth will be driven by improvements in average rate, and we expect occupancy growth will be similar to that experienced in 2013. For the full year 2014, we believe these trends will result in improved operating performance and comparable hotel RevPAR growth on a constant US\$ basis of 5.75% to 6.25%.

While we believe that the lodging industry will continue to improve, there can be no assurances that any increases in hotel revenues or earnings at our properties will continue for any number of reasons, including, but not limited to, slower than anticipated growth in the economy and changes in travel patterns.

Capital Expenditures Projects. We continue to pursue opportunities to enhance asset value through select capital improvements, including projects that are designed specifically to increase the eco-efficiency of our hotels, incorporate elements of sustainable design and replace aging equipment and systems with more efficient technology. Year-to-date, we have completed renovations of 2,800 guestrooms, over 100,000 square feet of meeting space and approximately 60,000 square feet of public space.

Redevelopment and Return on Investment Capital Expenditures. Redevelopment and ROI projects primarily consist of large-scale redevelopment projects designed to increase cash flow and improve profitability by capitalizing on changing market conditions and the favorable locations of our properties, including projects such as the redevelopment of a hotel, repositioning of a hotel restaurant or the installation of energy efficient systems. Approximately \$29 million of cash was used for these projects during the first half of 2014, compared to \$47 million used during the first half of 2013. During 2014, we plan to spend between \$65 million and \$75 million for redevelopment and ROI projects. Significant redevelopment and ROI capital expenditures completed during the second quarter included the renovation of approximately 10,000 square feet of restaurant and public space at the Denver Marriott West.

Acquisition Capital Expenditures. In conjunction with the acquisition of a property, we prepare capital and operational improvement plans designed to maximize profitability. During the first two quarters of 2014, we spent approximately \$7 million on acquisition capital projects, compared to \$22 million during the first two quarters of 2013. For the full year 2014, we expect to invest between \$25 million and \$30 million.

Renewal and Replacement Capital Expenditures. We spent \$71 million and \$147 million on renewal and replacement capital expenditures during the second quarter and year-to-date of 2014, respectively, compared to \$76 million and \$163 million during the second quarter and year-to-date of 2013. These expenditures are designed to ensure that our high standards for product quality are maintained and to enhance the overall competitiveness of our properties in the marketplace. During the second quarter of 2014, we completed the renovation of 428 rooms in the south tower of the Sheraton Boston Hotel along with 2,700 square feet of restaurant and public space. We expect that our investment in renewal and replacement expenditures in 2014 will total approximately \$330 million to \$350 million.

Investing activities

Acquisitions. We continue to seek investment opportunities in our target markets, which we have identified as those that are expected to have the greatest lodging demand growth, the fewest additions to supply, and consequently the strongest potential for revenue growth. We see increased competition for acquisitions in our target markets due to an abundance of capital and the current availability of inexpensive financing. Consequently, pricing for upper upscale and luxury assets has become more aggressive, and recent transaction values have approached replacement cost levels. Our acquisition strategy also includes the acquisition or development of midscale and upscale properties in select target markets.

Dispositions. We attempt to dispose of properties which are considered non-core assets when we believe the potential for growth is constrained or where we are able opportunistically to take advantage of the pricing in the market. During the second half of 2014, we anticipate asset sales totaling approximately \$200 million, although given the nature of these transactions, there can be no assurances that we will complete these sales in this time period.

Financing activities

Debt Transactions. On June 27, 2014, we completed the amendment and restatement of our revolving credit facility, scheduled to mature in 2015, and our term loan, scheduled to mature in 2017, extending the final maturity for both to

2019, including extensions. The new credit facility also improved pricing and based on Host L.P.'s current unsecured long-term debt rating, the all-in-pricing for borrowings was reduced 30 basis points on the revolver and 32.5 basis points on the term loan. Therefore, U.S. dollar denominated borrowings today on the revolver and term loan would result in an initial all-in rate of 1.35% and 1.28%, respectively.

2014 Compared to 2013

The comparisons of our hotel revenues and expenses are affected by the results of the hotels acquired and sold during the comparable periods (collectively, our “Recent Acquisitions and Dispositions”). Our second quarter and year-to-date periods for 2014 operations were affected by the sale of two hotels in 2014, most notably the Philadelphia Marriott Downtown, which operations prior to sale are included in continuing operations. This decrease in operations was

offset by the results of the Powell Hotel, acquired in January 2014 and the Hyatt Place Waikiki Beach, acquired in May 2013.

Hotel Sales Overview

The following table presents total revenues (in millions, except percentages) and includes both comparable and non-comparable hotels:

	Quarter ended June 30,			Year-to-date ended June 30,			
	2014	2013	% Change	2014	2013	% Change	
Revenues:							
Rooms	\$921	\$891	3.4 %	\$1,729	\$1,654	4.5 %	
Food and beverage	415	418	(0.7)	820	787	4.2	
Other	95	90	5.6	191	183	4.4	
Total revenues	\$1,431	\$1,399	2.3	\$2,740	\$2,624	4.4	

Rooms. The improvement in room revenues reflects the overall improvement in comparable RevPAR, partially offset by the effect of our Recent Acquisitions and Dispositions. For the second quarter, comparable hotel RevPAR, on a constant US\$ basis, increased 5.1%, driven by average rate improvement of 4.1%. The results for the second quarter were affected negatively by the shift of the Easter and Passover holidays from March of 2013 to April of 2014. For the year-to-date, comparable hotel RevPAR, on a constant US\$ basis, increased 5.9%. The increases in rooms revenues were offset partially by a net decrease of \$16 million and \$21 million for the quarter and year-to-date periods, respectively, due to the results of our Recent Acquisitions and Dispositions.

Food and beverage. The decline in food and beverage (“F&B”) revenues for the quarter is due to the effects of our Recent Acquisitions and Dispositions, partially offset by a 0.8% improvement in F&B revenues at our comparable hotels. For the quarter, the shift in business mix from group to transient resulted in slower growth in banquet and audio visual revenues. Year-to-date, F&B revenues at our comparable hotels increased 4.8% driven by strong growth in banquet and audio visual revenues in the first quarter, partially offset by slower growth in the second quarter. F&B revenues for the quarter and year-to-date were affected negatively by \$7 million and \$12 million, respectively, due to the results of our Recent Acquisitions and Dispositions.

Other revenues. For the second quarter and year-to-date 2014, other revenues increased \$5 million and \$8 million, respectively, due to increases in parking, rental and lease income.

Comparable Portfolio Operating Results. We discuss operating results for our hotels on a comparable basis. Comparable hotels are those properties that we have consolidated for the entirety of the reporting periods being compared. Comparable hotels do not include the results of properties acquired or sold, or that incurred significant property damage or business interruption or have undergone large scale capital projects during these periods. As of June 30, 2014, 109 of our 114 owned hotels have been classified as comparable hotels. See “Comparable Hotel Operating Statistics” for a complete description of our comparable hotels. We also discuss our comparable operating results by property type (i.e. urban, suburban, resort or airport), geographic market and mix of business (i.e. transient, group or contract).

For the quarter, RevPAR for our Latin American markets increased 40.3% on a constant dollar basis, as our JW Marriott Hotel Rio de Janeiro benefited from the FIFA World Cup and the JW Marriott Hotel Mexico City experienced significant post-renovation improvements in operations.

For the second quarter, our West coast markets continue to be our strongest performing domestic region with RevPAR growth of 7.1%. The improvements in our Seattle and San Francisco market reflected growth in average room rates driven by strong group demand, which allowed for a positive mix shift to higher-rated transient business. Our Phoenix market also had a strong quarter, with a combination of rate and occupancy growth due to strong weekday group demand, which enabled these hotels to drive a better transient business mix.

For the second quarter, our top-performing domestic market was Florida due to strong leisure demand which was strengthened by the Easter holiday shift to the second quarter.

29

Our Boston market outperformed the portfolio, driven by a shift towards higher-rated transient business, which drove an 8.3% growth in average room rate. Our New York market performed in-line with the portfolio as occupancy reached 92% for the quarter. However, room rate growth for the quarter was tempered by new supply in the market.

For the second quarter, our Atlanta, Washington D.C. and Philadelphia markets all significantly underperformed our portfolio. The Atlanta market decrease was due to less city-wide events, as the city hosted the NCAA Final Four in the second quarter of 2013 and group shortfall in corporate and association segments. The Washington D.C. market decrease was a result of weak group demand. The Philadelphia market decrease was driven by a combination of decrease in group room nights due to declining city wide events and lower transient rates.

Comparable Hotel Sales by Property Type

For the quarter, our resort properties outperformed the portfolio, as the shift in the Easter holiday to second quarter was a benefit to leisure travel. Our urban properties underperformed, as these properties rely more heavily on corporate and group demand, which was negatively affected by the Easter holiday shift.

Hotels Sales by Business Mix

The majority of our customers fall into three broad groups: transient, group, and contract business. The information below is derived from business mix data for 109 of our hotels for which business mix data is available from our managers. For further detail on our business mix, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10 K.

For the second quarter, our revenue growth was primarily driven by transient segment revenue growth of 6.7%, as group revenue increased 2.1%. The transient segment improvement for the quarter was driven by a 5.0% increase in average room rate and a 1.6% increase in demand. For the quarter, the leisure segments experienced substantial room night growth while transient business segment room nights decreased. Comparisons to prior year for the second quarter were significantly affected by the shift of the Easter holiday from March of 2013 to April of 2014. In particular, it caused a significant reduction in overall group and corporate transient demand for the month of April, while strengthening transient leisure demand for that month. Therefore, management believes that year-to-date comparisons, which eliminate the effects of the holiday shift from March of 2013 to April 2014, provide a better analysis of the current trends for transient and group business.

Year-to-date, transient and group revenues increased 5.1% and 6.2%, respectively. The improvement in group revenues was both rate and occupancy driven, as room rate increased 2.7%, while demand increased 3.4%. The primary driver of the group business was corporate group, which benefitted from a 5.4% increase in demand and a 5.0% increase in rate, leading to a revenue increase 10.7%. Year-to-date, transient RevPAR growth was primarily driven by the 4.4% improvement in room rates, as the improvements in group demand allowed our operators to focus on rate growth at our properties. Transient room nights increased .7% year-to-date.

Property-level Operating Expenses

The following table presents property-level operating expenses in accordance with GAAP and includes both comparable and non-comparable hotels (in millions, except percentages):

	Quarter ended June 30,			Year-to-date ended June 30,		
	2014	2013	% Change	2014	2013	% Change
Expenses:						
Rooms	\$234	\$227	3.1 %	\$460	\$442	4.1 %
Food and beverage	285	286	(0.3)	569	558	2.0
Other departmental and support expenses	320	316	1.3	635	623	1.9
Management fees	66	65	1.5	116	111	4.5
Other property-level expenses	98	92	6.5	195	187	4.3
Depreciation and amortization	174	171	1.8	346	345	0.3
Total property-level operating expenses	\$1,177	\$1,157	1.7	\$2,321	\$2,266	2.4

Our operating costs and expenses, which have both fixed and variable components, are affected by changes in occupancy, inflation and revenues (which affect management fees), though the effect on specific costs will differ. Our wages and benefits account for approximately 55% of the operating expenses at our hotels (which exclude depreciation). Other property level expenses consist of property taxes, the amounts and structure of which are highly dependent on local jurisdiction taxing authorities, and property and general liability insurance, and do not necessarily change based on changes in revenues at our hotels.

Rooms. Rooms expenses increased \$7 million and \$18 million for the second quarter and year-to-date 2014, respectively, reflecting a 4.7% and 5.5% increase at our comparable hotels for the second quarter and year-to-date, respectively. The increases were primarily driven by increased travel agent commissions and wages and benefits. The increases in rooms expenses were offset partially by a net decrease of \$4 million and \$6 million for the quarter and year-to-date periods, respectively, due to the results of our Recent Acquisitions and Dispositions.

Food and beverage. Food and beverage (“F&B”) expenses decreased \$1 million for the second quarter and increased \$11 million for year-to-date 2014, reflecting the changes in F&B revenues as well as an increase in food cost, partially offset by an improvement in F&B hourly productivity. Comparable F&B expenses increased \$3 million to \$268 million for quarter and \$17 million to \$532 million for the year-to-date. In addition, the change in F&B expenses for the quarter and year-to-date were affected by a decrease of \$5 million and \$10 million, respectively, due to the results of our Recent Acquisitions and Dispositions.

Other departmental and support expenses. Other departmental and support expenses increased \$4 million for the second quarter and \$12 million for the year-to-date 2014, primarily due to increased credit card fees and wages and benefits. The increases in other departmental and support expenses were partially offset by a net decrease of \$5 million and \$8 million for the quarter and the year-to-date, respectively, due to the results of our Recent Acquisitions and Dispositions.

Management fees. For the second quarter and year-to-date 2014, the increase in base management fees, which generally are calculated as a percentage of total revenues, reflect our improving operations. Incentive management fees, which generally are based on the level of operating profit at each property after we receive a priority return on our investment, decreased slightly for the second quarter 2014 and were unchanged for the year-to-date 2014, respectively.

Other property-level expenses. These expenses generally do not vary significantly based on occupancy and include expenses such as property taxes and insurance. Other property-level expenses increased \$6 million and \$8 million for the second quarter and year-to-date 2014, respectively, primarily due to an increase in property taxes. The increases in other property-level expenses were partially offset by a net decrease of \$1 million and \$2 million for the quarter and year-to-date, respectively, due to the results of our Recent Acquisitions and Dispositions.

Other Income and Expense

Corporate and other expenses. For the second quarter 2014, corporate and other expenses decreased \$8 million, primarily due to the recognition of an \$8 million accrual related to the San Antonio litigation in the second quarter of 2013. For further details on this legal proceeding, see Part II, Item 1, Legal Proceedings, of this Quarterly Report on Form 10 Q. Year-to-date, corporate and other expenses remained flat compared to the first half of 2013 as the second quarter decrease was offset by an increase in acquisition costs, other legal expenses and compensation expense related to restricted stock expense, which varies, in part, based on our stock price.

Interest expense. Interest expense decreased \$48 million and \$66 million for the second quarter and year-to-date 2014, respectively, compared to the corresponding 2013 periods primarily due to the repayment or refinancing of debt that resulted in a \$17 million decrease reflecting the decline in our weighted average interest rate and overall debt balance in addition to a decrease of \$30 million in debt extinguishment costs for the second quarter. The following table details our interest expense for the quarter and year-to-date (in millions):

	Quarter ended		Year-to-date ended June 30,	
	June 30, 2014	2013	2014	2013
Cash interest expense ⁽¹⁾	\$47	\$64	\$ 96	\$ 133
Non-cash interest expense	6	7	13	14
Non-cash debt extinguishment costs	2	12	2	12
Cash debt extinguishment costs ⁽¹⁾	—	20	2	20
Total interest expense	\$55	\$103	\$ 113	\$ 179

(1) Including the change in accrued interest, total cash interest expense paid was \$95 million and \$168 million for the year-to-date 2014 and 2013, respectively.

Gain (loss) on sale of assets. During the second quarter of 2013, we recognized a \$21 million gain on the sale of land adjacent to our Newport Beach Marriott Hotel & Spa. In addition, the year-to-date 2013 includes the recognition of a previously deferred \$11 million gain related to an eminent domain claim by the State of Georgia of 2.9 acres of land for the highway expansion at the Atlanta Marriott Perimeter Center. During the first quarter 2014, we recognized a \$112 million gain on the sale of an 89% interest in the Philadelphia Marriott Downtown.

Equity in earnings (losses) of affiliates. Equity in earnings of affiliates primarily reflects our interest in the operations of the Euro JV. The year-to-date decline is due primarily to the non-recurrence of a first quarter 2013 income tax benefit, which non-recurrence offset improvements in operating results. For both second quarter and year-to-date 2014, equity in earnings was impacted by selling costs incurred at our Maui timeshare joint venture, which is currently under development.

Provision for income taxes. We lease substantially all of our properties to consolidated subsidiaries designated as taxable REIT subsidiaries (“TRS”) for federal income tax purposes. The difference between hotel-level operating cash flow and the aggregate rent paid to Host L.P. by the TRS represents its taxable income or loss, on which we record an income tax provision or benefit. The income tax provision recorded in the second quarter and year-to-date 2014 primarily reflects year-over-year improvements in property operations recognized by our TRS, as well as an increase in taxes at our foreign subsidiaries.

Income from discontinued operations, net of tax. The income from discontinued operations for year-to-date 2013 primarily consists of the \$19 million gain recorded and the \$10 million of previously deferred key money recognized as a result of the sale of the Atlanta Marriott Marquis. Beginning in 2014, we adopted ASU 2014-08 Reporting for Discontinued Operations. As a result, the operations of sold properties through the date of their disposal will be included in continuing operations.

Liquidity and Capital Resources

Liquidity and Capital Resources of Host Inc. and Host L.P. The liquidity and capital resources of Host Inc. and Host L.P. are derived primarily from the activities of Host L.P., which generates the capital required by our business from hotel operations, the incurrence of debt, the issuance of OP units or the sale of properties. Host Inc. is a REIT and its only significant asset is the ownership of partnership interests of Host L.P.; therefore, its financing and investing activities are conducted through Host L.P., except for the issuance of its common and preferred stock. Proceeds from stock issuances by Host Inc. are contributed to Host L.P. in exchange for OP units. Additionally, funds used by Host Inc. to pay dividends or to repurchase its stock are provided by Host L.P. Therefore, while we have noted those areas in which it is important to distinguish between Host Inc. and Host L.P., we have not included a separate discussion of the liquidity and capital resources as the discussion below applies to both Host Inc. and Host L.P.

Overview. We look to maintain a capital structure and liquidity profile with an appropriate balance of cash, debt, and equity in order to provide financial flexibility. We believe this strategy will result in a lower overall cost of capital, allow us to complete opportunistic investments and acquisitions at all times in the lodging cycle and position us to manage potential declines in operations caused by the inherent volatility in the lodging industry. As operations have improved in the past several years, we have maintained our focus on strategically decreasing our debt-to-equity ratio and on increasing our interest coverage ratio through (i) acquisitions and other investments, the majority of which were completed with available cash and proceeds from equity issuances, and (ii) the repayment and refinancing of senior notes and mortgage debt in order to extend maturity dates and lower interest rates. On June 27, 2014, we completed the amendment and restatement of our revolving credit facility and our term loan, extending the final maturity for both to 2019 (including extensions). The amended credit facility also improved pricing and based on Host L.P.'s current unsecured long-term debt rating, the all-in pricing for borrowings was reduced 30 basis points on the revolver and 32.5 basis points on the term loan. Therefore, U.S. dollar denominated borrowings today for the revolver and term loan would result in an initial all-in rate of 1.35% and 1.28%, respectively. See “—Debt” for more information on the new credit facility.

As we achieve our balance sheet objectives, we intend to use available cash predominantly for acquisitions or other investments in our portfolio to the extent that we are able to find suitable investment opportunities that meet our return requirements. If we are unable to find appropriate investment opportunities and assuming operations continue to improve, we may, over time, consider other uses of any available cash, such as a return of capital through dividends or stock repurchases.

We have structured our debt profile to maintain a balanced maturity schedule and to minimize the number of assets that are encumbered by mortgage debt. Currently, 96% of our hotels (as measured by revenues) are unencumbered by mortgage debt. We have access to multiple types of financing, as approximately 89% of our debt consists of senior notes, exchangeable debentures and borrowings under our credit facility, none of which are collateralized by specific hotel properties. We believe that we have sufficient liquidity and access to capital markets to take advantage of opportunities to enhance our portfolio, withstand declines in operating cash flow, pay near-term debt maturities and fund our capital expenditures programs. We may continue to access the capital markets if favorable conditions exist in order to further enhance our liquidity and to fund cash needs.

Cash Requirements. We use cash for acquisitions, capital expenditures, debt payments, operating costs, and corporate and other expenses, as well as for dividends and distributions to stockholders and unitholders. As a REIT, Host Inc. is required to distribute to its stockholders at least 90% of its taxable income, excluding net capital gains, on an annual basis. On July 15, 2014, we paid a dividend of \$0.15 per share of Host Inc.'s common stock, which totaled approximately \$113 million. On July 31, 2014, the Board of Directors authorized a regular quarterly cash dividend of \$0.20 per share on Host Inc.'s common stock, to be paid on October 15, 2014 to stockholders of record on September 30, 2014.

Capital Resources. As of June 30, 2014, we had \$440 million of cash and cash equivalents and \$778 million available under our credit facility. We depend primarily on external sources of capital to finance future growth, including acquisitions. As a result, the liquidity and debt capacity provided by our credit facility and the ability to issue senior unsecured debt are key components of our capital structure. Our financial flexibility (including our ability to incur debt, make distributions and make investments) is contingent on our ability to maintain compliance with the financial covenants of such indebtedness, which includes, among other things, the allowable amounts of leverage, interest coverage and fixed charges.

If, at any time, we determine that market conditions are favorable, after taking into account our liquidity requirements, we may seek to issue and sell shares of Host Inc. common stock in registered public offerings, including through sales directly on the NYSE under any future “at-the-market” offering program, or to issue and sell shares of Host Inc.

preferred stock. We also may seek to cause Host L.P. to issue senior notes or debentures exchangeable for shares of Host Inc. common stock. Given our total debt level and maturity schedule, we will continue to redeem or refinance senior notes and mortgage debt from time to time, taking advantage of favorable market conditions when available. We also may pursue opportunistic refinancings to improve our liquidity, extend debt maturities and reduce interest expense. In October 2013, Host Inc.'s Board of Directors authorized repurchases of up to \$680 million of senior notes, exchangeable debentures and mortgage debt (other than in accordance with its terms), of which \$458 million remains available under this authority. We may purchase senior notes and exchangeable debentures for cash through open market purchases, privately negotiated transactions, a tender offer or, in some cases, through the early redemption of such securities pursuant to their terms. Repurchases of debt will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. Any refinancing or retirement before the maturity date will affect earnings and Funds From Operations ("FFO") per diluted share, as defined below, as a result of the payment of any applicable call premiums and the acceleration of the write-off of previously deferred financing costs. Accordingly, in light of our priorities in managing our capital structure and liquidity profile and given prevailing conditions and relative pricing in the capital markets, we may, at any time, subject to applicable securities laws, be considering, or be in discussions with respect to, the purchase or sale of common stock, exchangeable debentures and/or senior notes. Any such transactions may, subject to applicable securities laws, occur simultaneously.

Sources and Uses of Cash. Our sources of cash include cash from operations, proceeds from debt and equity issuances, and proceeds from asset sales. Uses of cash include acquisitions, investments in our joint ventures, capital expenditures, operating costs, debt repayments and repurchases and distributions to equity holders.

Cash Provided by Operations. Our cash provided by operations increased \$65 million to \$525 million for the year-to-date period ended June 30, 2014 compared to the same period in 2013. The increase is due to improved operating results and the decline in debt extinguishment costs and other interest expense.

Cash Used in Investing Activities. Cash used in investing activities was used primarily for capital expenditures on our existing portfolio, for the acquisition of property, and to fund our investment in joint ventures, with respect to which we invested in the aggregate \$304 million and \$471 million during the first half of 2014 and 2013, respectively. Cash used for renewal and replacement capital expenditures for the first half of 2014 and 2013 was \$147 million and \$163 million, respectively, while cash used for capital expenditures invested in ROI/redevelopment projects and acquisition capital expenditures during the same periods was \$36 million and \$69 million, respectively. Cash provided by investing activities was \$316 million from the sale of two hotels and return of investments in the first half of 2014 compared to \$446 million from the sale of two hotels and a parcel of land in the first half of 2013.

The following tables summarize significant acquisitions and dispositions that have been completed as of July 31, 2014 (in millions):

Transaction Date	Description of Transaction	Cash Paid	Investment Price
Acquisitions/Investments			
January	2014 Acquisition of The Powell Hotel	\$ (75)	\$ (75)
	Total acquisitions/investments	\$ (75)	\$ (75)
Transaction Date	Description of Transaction	Net Proceeds	Sales Price
Dispositions			
February	2014 Disposition of Courtyard Nashua	\$ 9	\$ 10
January	2014 Sale of 89% interest in the Philadelphia Marriott Downtown ⁽¹⁾	290	270
	Total dispositions	\$ 299	\$ 280

(1) Sales price represents the 89% interest in the hotel that was sold. Net proceeds also include our 11% portion of the proceeds received from the \$230 million mortgage loan issued by the partnership at closing.

Cash Used in Financing Activities. Year-to-date 2014, net cash used in financing activities was \$960 million, compared to \$454 million for year-to-date 2013. Cash used in financing activities for year-to-date 2014, primarily for the repayment of debt and dividends, decreased \$234 million compared to year-to-date 2013. We did not receive any proceeds from the issuance of debt or common stock (other than upon the exercise of employee stock options) during the first half of 2014. For year-to-date 2013, \$744 million was provided by financing activities primarily through the issuance of debt and common stock.

The following table summarizes significant redemptions and repayments of debt, including premiums, that have been completed through July 31, 2014 (in millions). There have been no new debt issuances during 2014.

Debt

As of June 30, 2014, our total debt was \$4.0 billion, with an average interest rate of 4.8% and an average maturity of 5.7 years. Additionally, 79% of our debt has a fixed rate of interest and 104 of our hotels are unencumbered by mortgage debt. Currently, 96% of our hotels (as measured by revenues) are unencumbered by mortgage debt.

Credit Facility. On June 27, 2014 Host L.P. entered into a new senior revolving credit and term loan facility with Bank of America, N.A., as administrative agent and certain other agents and lenders. The new facility replaces and refinances our existing \$1 billion senior revolving credit facility and \$500 million term loan facility which would have matured in November 2015 (in the case of the revolving facility) and July 2017 (in the case of the term loan facility). As with the existing facility, the new facility includes a revolving credit facility in an aggregate principal amount of up to \$1 billion and a term loan facility in an aggregate principal amount of \$500 million. The new facility provides for:

- an interest rate on all borrowings based on LIBOR or a base rate plus a margin that varies according to Host L.P.'s unsecured long-term debt rating, with such rate being (1) in the case of revolving credit facility borrowings, either LIBOR plus a margin ranging from 87.5 to 155 basis points or a base rate ranging from zero to 55 basis points, and (2) in the case of the term loan facility borrowings, either LIBOR plus a margin ranging from 90 to 175 basis points or a base rate ranging from zero to 75 basis points;
- in the case of the revolving credit facility, a facility fee payable on the total amount of the revolving credit facility commitment at a rate ranging from 12.5 to 30 basis points, with the actual rate determined according to Host L.P.'s long-term unsecured debt rating;
- a maturity date of (1) in the case of the revolving credit facility, June 27, 2018, which date may be extended by up to one year by the exercise of up to two 6-month extension options, each of which is subject to certain conditions, including the payment of an extension fee, and (2) in the case of the term loan facility, June 27, 2017, which date may be extended up to two years by the exercise of up to two 1-year extension options, each of which is subject to certain conditions, including the payment of an extension fee;
- a foreign currency subfacility for Canadian dollars, Australian dollars, New Zealand dollars, Japanese yen, Euros, British pounds sterling and, if available to the lenders, Mexican pesos, of up to the foreign currency equivalent of \$500 million, subject to a lower amount in the case of New Zealand dollar and Mexican peso borrowings;
- an option for Host L.P. to increase the aggregate principal amount of the revolving credit facility and/or term loan facility of the new facility by up to \$500 million, subject to obtaining additional loan commitments and satisfaction of certain conditions;
- a subfacility of up to \$100 million for swingline borrowings in U.S. dollars, Canadian dollars, Euros or British pounds sterling and a subfacility of up to \$100 million for issuances of letters of credit;

- no required scheduled amortization payments prior to the maturity date of the revolving credit facility or term loan facility, as applicable; and
- financial covenants that are comparable to the existing facility, see “—Financial Covenants” below. The new facility also includes financial covenant tests applicable to the incurrence of debt that are consistent with the limitations applicable under the indenture for our Series D senior notes.

35

Borrowings under the new facility may be used for working capital and other general corporate purposes. As of June 30, 2014, Host L.P. had approximately CAD 106,900,000, EUR 74,200,000 and GBP 11,720,000 (for a total of approximately U.S. \$220 million) outstanding under the revolving credit facility and \$500 million outstanding under the term loan facility. Based on Host L.P.'s current long-term debt rating, U.S.\$ denominated borrowings today would result in an initial all-in rate of 1.35% for revolving credit facility borrowings and 1.28% for term loan borrowings.

The new facility initially does not include any subsidiary guarantees or pledges of equity interests, and such guarantees and pledges would be required only in the event that Host L.P.'s leverage ratio exceeds 6:1 for two consecutive fiscal quarters at a time when Host L.P. does not have an investment grade long-term unsecured debt rating. In the event that such guarantee and pledge requirement are triggered, the guarantees and pledges would benefit ratably the new facility as well as the notes outstanding under Host L.P.'s senior notes indenture and certain hedging and bank product arrangements with lenders that are parties to the new facility.

The new facility imposes restrictions on customary matters that also were restricted in the former facility. As with the existing facility, certain covenants are less restrictive at any time that our leverage ratio is below 6:1. In particular, at any time that our leverage ratio is below 6:1, the limitations in respect of dividends are not applicable, and acquisition and investment transactions generally are permitted without limitation so long as, after giving effect to any such transaction, we are in compliance with the financial covenants under the credit facility. The new facility also includes usual and customary events of default for facilities of this nature, and provides that, upon occurrence and continuation of an event of default, payment of all amounts payable under the new facility may be accelerated, and the lenders' commitments may be terminated. In addition, upon the occurrence of certain insolvency or bankruptcy related events of default, all amounts payable under the new facility automatically will become due and payable and the lenders' commitments automatically will terminate.

Exchangeable Senior Debentures. As of June 30, 2014, we have \$400 million of 2½% exchangeable senior debentures outstanding that were issued on December 22, 2009 (the "2009 Debentures"). The 2009 Debentures are equal in right of payment with all of our other senior notes. Holders have the right to require us to purchase the 2009 Debentures at a price equal to 100% of the principal amount outstanding plus accrued interest (the "put option") on October 15, 2015 and on certain subsequent dates. Holders also have the right to exchange the 2009 Debentures prior to maturity under certain conditions, including at any time at which the closing price of Host Inc.'s common stock is in excess of 130% of the exchange price per share (\$13.20) for at least 20 of the last 30 consecutive trading days of the calendar quarter, or at any time up to two days prior to the date on which the 2009 Debentures have been called for redemption. We can redeem for cash all, or a portion of, the 2009 Debentures at any time subsequent to October 20, 2015, at a redemption price of 100% of the principal amount plus accrued interest. If, at any time, we elect to redeem the 2009 Debentures and the exchange value exceeds the cash redemption price, we would expect the holders to elect to exchange their debentures for common stock at the exchange value rather than receive the cash redemption price. The exchange value is equal to the applicable exchange rate multiplied by the price of Host Inc.'s common stock. Upon exchange, the 2009 Debentures would be exchanged for Host Inc.'s common stock, cash, or a combination thereof, at our option. The 2009 Debentures currently are exchangeable by holders at this time and each \$1,000 Debenture would be exchanged for 75.7559 Host Inc. common shares (for an equivalent per share price of \$13.20), for a total of 30.3 million shares.

We separately account for the liability and equity components of the 2009 Debentures in order to reflect the fair value of the liability component based on our non-convertible borrowing cost at the issuance date. Accordingly, we record the liability components at fair value as of the date of issuance and amortize the resulting discount as an increase to interest expense through the initial put option date, which is the expected life thereof. However, there is no effect of this accounting treatment on our cash interest payments. The initial allocations between the debt and equity components of the 2009 Debentures, net of the original issue discount, based on the effective interest rate at the time of issuance, was \$316 million and \$82 million, respectively. As of June 30, 2014, the debt carrying value and unamortized discount were \$378 million and \$22 million, respectively.

Interest expense recorded for our debentures (including interest expense for the debentures redeemed in 2014 and 2013) for the periods presented consists of the following (in millions):

	Quarter ended June 30,		Year-to-date ended June 30,	
	2014	2013	2014	2013
Contractual interest expense (cash)	\$2	\$ 2	\$ 5	\$ 5
Non-cash interest expense due to discount amortization	4	4	8	8
Total interest expense	\$6	\$ 6	\$ 13	\$ 13

Financial Covenants

Credit Facility Covenants. Our credit facility contains certain important financial covenants concerning allowable leverage, unsecured interest coverage and required fixed charge coverage. There were no significant changes to these financial covenants in connection with the amendment of the credit facility. Total debt used in the calculation of our leverage ratio is based on a “net debt” concept, under which cash and cash equivalents in excess of \$100 million are deducted from our total debt balance for purposes of measuring compliance. To the extent that no amounts are outstanding under the credit facility, breaching these covenants would not be an event of default thereunder.

We are in compliance with all of our financial covenants under the credit facility. The following table summarizes the financial tests contained in the credit facility as of June 30, 2014:

	Actual Ratio for all years	Covenant Requirement
Leverage ratio	3.0x	Maximum ratio of 7.25x
Fixed charge coverage ratio	4.7x	Minimum ratio of 1.25x
Unsecured interest coverage ratio ⁽¹⁾	7.9x	Minimum ratio of 1.75x

(1) If, at any time, our leverage ratio exceeds 7.0x, our minimum unsecured interest coverage ratio will be reduced to 1.5x.

Senior Notes Indenture Covenants

Series D Senior Notes

We are in compliance with all of the financial covenants applicable to our Series D senior notes. The following table summarizes the financial tests contained in the senior notes indenture for our Series D senior notes and our actual credit ratios as of June 30, 2014:

	Actual Ratio	Covenant Requirement
Unencumbered assets tests	477	% Minimum ratio of 150%
Total indebtedness to total assets	22	% Maximum ratio of 65%
Secured indebtedness to total assets	2	% Maximum ratio of 40%
EBITDA-to-interest coverage ratio	6.7	x Minimum ratio of 1.5x

Prior Series of Senior Notes

Because our senior notes currently are rated investment grade by both Moody’s and Standard & Poor’s, the covenants in our senior notes indenture (for all series other than the Series D senior notes) that previously limited our ability to incur indebtedness or pay dividends no longer are applicable. Even if we were to lose the investment grade rating, we would be in compliance with all of our financial covenants under the senior notes indenture. The following table

summarizes the actual credit ratios for our existing senior notes (other than the Series D senior notes) as of June 30, 2014 and the covenant requirements contained in the senior notes indenture that would be applicable at such times as our existing senior notes no longer are rated investment grade by either of Moody's or Standard & Poor's:

	Actual Ratio*		Covenant Requirement
Unencumbered assets tests	486	%	Minimum ratio of 125%
Total indebtedness to total assets	22	%	Maximum ratio of 65%
Secured indebtedness to total assets	2	%	Maximum ratio of 45%
EBITDA-to-interest coverage ratio	6.8	x	Minimum ratio of 2.0x

*Because of differences in the calculation methodology between our Series D senior notes and our other senior notes with respect to covenant ratios, our actual ratios as reported may be slightly different.

For further detail on our credit facility and senior notes, see our Annual Report on Form 10-K for the year ended December 31, 2013.

Dividend Policy

Host Inc. is required to distribute at least 90% of its annual taxable income, excluding net capital gains, to its stockholders in order to maintain its qualification as a REIT, including taxable income recognized for federal income tax purposes but with regard to which we do not receive cash. Funds used by Host Inc. to pay dividends on its common stock are provided through distributions from Host L.P. As of June 30, 2014, Host Inc. is the owner of approximately 99% of the Host L.P. common OP units. The remaining common OP units are held by various third party limited partners. Each Host L.P. OP unit may be redeemed for cash or, at the election of Host Inc., Host Inc. common stock based on the conversion ratio. The conversion ratio is 1.021494 shares of Host Inc. common stock for each Host L.P. OP unit.

Investors should take into account the non-controlling interest in the Host L.P. common OP units when analyzing common dividend payments by Host Inc. to its stockholders, as these common OP unit holders share, on a pro rata basis, in cash amounts distributed by Host L.P. to all of its common OP unit holders. For example, if Host Inc. paid a \$1 per share dividend on its common stock, it would be based on the payment of a \$1.021494 per common OP unit distribution by Host L.P. to Host Inc., as well as to the other Host L.P. common OP unitholders.

Host Inc.'s policy is that it generally intends to distribute, over time, 100% of its taxable income, which is primarily dependent on Host Inc.'s results of operations, as well as gains and losses on property sales. Host Inc. paid a regular quarterly cash dividend of \$0.15 per share on its common stock on July 15, 2014 to stockholders of record on June 30, 2014. On July 31, 2014, the Board of Directors authorized a regular quarterly cash dividend of \$0.20 per share on its common stock for the third quarter. The dividend will be paid on October 15, 2014 to stockholders of record on September 30, 2014. The third quarter dividend is a 33% increase over the prior quarter and represents Host Inc.'s intended regular quarterly dividend for the next several quarters, subject to Board approval. Host Inc. may pay a special dividend in the fourth quarter so that its annual distribution equates to its taxable income in order to satisfy its REIT distribution requirements. While Host Inc. intends to use available cash predominantly for acquisitions or other investments in its portfolio, to the extent that we do not identify appropriate investments, we may elect in the future to use available cash for other uses, such as special dividends, which would be in addition to taxable income. Any special dividend would be subject to approval by Host Inc.'s Board of Directors.

European Joint Venture

We own a non-controlling interest in a joint venture in Europe ("Euro JV") that owns luxury and upper upscale hotels in two separate funds. We own a 32.1% interest in Euro JV Fund I (11 hotels, 3,511 rooms) and a 33.4% interest in Euro JV Fund II (8 hotels, 2,916 rooms). At June 30, 2014, hotel investments by the Euro JV totaled €1.8 billion, with €980 million of mortgage debt. On July 3, 2014, the Euro JV refinanced the €69 million (\$94 million) loan secured by three properties in Brussels with Natixis, reducing the outstanding principal amount of the mortgage loan to €47.8 million using funds provided by the partners. Interest on the new loan is a combination of fixed and floating for an initial all-in rate of 2.0% and has a maturity date of July 3, 2019. All of the mortgage debt of the Euro JV is non-recourse to us and our partners and a default thereunder does not trigger a default under any of our debt. In June 2014, the Euro JV partners executed an amendment and restatement of the Euro JV partnership agreement which allows contributions to the joint venture in the form of loans, as opposed to only equity contributions. In July 2014, the Euro JV partners also amended the agreement to extend the commitment period for Euro JV Fund II by one year to June 27, 2015. Our investment, total partners' funding and debt outstanding as of June 30, 2014 are as follows:

Host's Net Investment	Total Partner	% of Total Commitment	Debt balance	Host's Portion of

(1)The presentation above includes the operating performance for the 18 properties consisting of 5,962 rooms. The table excludes one hotel acquired in 2013 as the joint venture did not own the hotel for the entirety of 2013. See “-Comparable Hotel Operating Statistics.”

Cash flows from operations were approximately €35 million and €8 million for the year-to-date periods ended June 30, 2014 and June 30, 2013, respectively. During the second quarter 2014, the Euro JV made a cash distribution to its partners totaling €37 million, of which Host’s share was €12 million (\$17 million). However, the majority of future cash flows from operations are expected to continue to be used to invest in the portfolio through capital expenditures and to fund other investments. No similar distribution was made during the year-to-date period ended June 30, 2013.

Critical Accounting Policies

Our unaudited condensed consolidated financial statements have been prepared in conformity with GAAP, which requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe that the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. We evaluate our estimates and judgments on an ongoing basis. We base our estimates on experience and on various other assumptions that we believe to be reasonable under the circumstances. All of our significant accounting policies, including certain critical accounting policies, are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which affects virtually all aspects of an entity’s revenue recognition. The core principle of the new standard is that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard is effective for annual reporting periods beginning after December 15, 2016. We have not yet completed our assessment of the effect of the new standard on our financial statements, including possible transition alternatives.

Effective January 1, 2014, we adopted early ASU 2014-08 Reporting for Discontinued Operations, under which only dispositions representing a strategic shift in operations will be reclassified to discontinued operations. Previously, we reported the disposition of a hotel as discontinued operations. With this adoption, we present the gain on the disposition of hotel property as gain on property sales within income from continuing operations and we do not reclassify the operating results of the hotel to discontinued operations. This treatment is prospective and, as a result,

we have not restated prior periods.

Comparable Hotel Operating Statistics

To facilitate a quarter-to-quarter comparison of our operations, we present certain operating statistics (i.e., RevPAR, average daily rate and average occupancy) and operating results (revenues, expenses, adjusted operating profit and associated margins) for the periods included in this report on a comparable hotel basis to enable our investors to better evaluate our operating performance.

Because these statistics and operating results are for our hotel properties, they exclude results for our non-hotel properties and other real estate investments. We define our comparable hotels as properties:

- (i) that are owned or leased by us and the operations of which are included in our consolidated results, whether as continuing operations or discontinued operations, for the entirety of the reporting periods being compared; and
- (ii) that have not sustained substantial property damage or business interruption, or undergone large-scale capital projects (as further defined below) during the reporting periods being compared.

39

The hotel business is capital-intensive and renovations are a regular part of the business. Generally, hotels under renovation remain comparable hotels. A large scale capital project that would cause a hotel to be excluded from our comparable hotel set is an extensive renovation of several core aspects of the hotel, such as rooms, meeting space, lobby, bars, restaurants and other public spaces. Both quantitative and qualitative factors are taken into consideration in determining if the renovation would cause a hotel to be removed from the comparable hotel set, including unusual or exceptional circumstances such as: a reduction or increase in room count, rebranding, a significant alteration of the business operations, or the closing of the hotel during the renovation.

We do not include an acquired hotel in our comparable hotel set until the operating results for that hotel have been included in our consolidated results for one full calendar year. For example, we acquired the Hyatt Place Waikiki Beach in May 2013. The hotel will not be included in our comparable hotel set until January 1, 2015. Hotels that we sell are excluded from the comparable hotel set once the transaction has closed. Similarly, hotels are excluded from our comparable hotel set from the date that they sustain substantial property damage or business interruption or commence a large-scale capital project. In each case, these hotels are returned to the comparable hotel set when the operations of the hotel have been included in our consolidated results for one full calendar year after completion of the repair of the property damage or cessation of the business interruption, or the completion of large-scale capital projects, as applicable.

Of the 114 hotels that we owned on June 30, 2014, 109 have been classified as comparable hotels. The operating results of the following hotels that we owned as of June 30, 2014 are excluded from comparable hotel results for these periods:

- Powell Street Hotel (acquired in January 2014)
- The Ritz-Carlton, Naples, removed in the third quarter of 2013 (business interruption due to the closure of the hotel during extensive renovations that were substantially completed in October 2013, which included renovations of 450 rooms, including 35 suites, restaurant, façade and windows);
- Hyatt Place Waikiki Beach (acquired in May 2013);
- Novotel Christchurch Cathedral Square (business interruption due to the closure of the hotel following an earthquake in February 2011 and the subsequent extensive renovations, which hotel reopened in August 2013);
- Orlando World Center Marriott, removed in the third quarter of 2012 (business interruption due to extensive renovations that were substantially completed in July 2013, which include façade restoration, the shutdown of the main pool and a complete restoration and enhancement of the hotel, including new water slides and activity areas, new pool, dining facilities and the renovation of one tower of guestrooms, meeting space and restaurants).

The operating results of seven hotels disposed of in 2014 and 2013 are not included in comparable hotel results for the periods presented herein.

CONSTANT US\$, NOMINAL US\$ AND CONSTANT EUROS

Operating results denominated in foreign currencies are translated using the prevailing exchange rates on the date of the transaction, or monthly based on the weighted average exchange rate for the period. For comparative purposes, we also present the RevPAR results for the prior year assuming that the results of our foreign operations were translated using the same exchange rates that were effective for the comparable periods in the current year, thereby eliminating the effect of currency fluctuation for the year-over-year comparisons. We believe this presentation is useful to investors as it shows growth in RevPAR in the local currency of the hotel consistent with the manner in which we evaluate our domestic portfolio. However, the estimated effect of changes in foreign currency has been reflected in the actual and forecast results of net income, EBITDA, earnings per diluted share and Adjusted FFO per diluted share. Nominal US\$ results include the effect of currency fluctuations, consistent with our financial statement presentation.

We also present RevPAR results for our joint venture in Europe in constant Euros using the same methodology as used for the constant US\$ presentation.

Non-GAAP Financial Measures

We use certain “non-GAAP financial measures,” which are measures of our historical or future financial performance that are not calculated and presented in accordance with GAAP, within the meaning of applicable SEC rules. These measures are as follows:

- Earnings Before Interest Expense, Income Taxes, Depreciation and Amortization (“EBITDA”) and Adjusted EBITDA, as a measure of performance for Host Inc. and Host L.P.,
- Funds From Operations (“FFO”) and FFO per diluted share, both calculated in accordance with National Association of Real Estate Investment Trust (“NAREIT”) guidelines and with certain adjustments from those guidelines, as a measure of performance for Host Inc., and
- Comparable hotel operating results, as a measure of performance for Host Inc. and Host L.P.

40

The following discussion defines these measures and presents why we believe they are useful supplemental measures of our performance.

Set forth below for each such non-GAAP financial measure is a reconciliation of the measure with the financial measure calculated and presented in accordance with GAAP that we consider most directly comparable to it. We also have included in “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Financial Measures” in our Annual Report on Form 10-K for the year ended December 31, 2013, further explanations of the adjustment being made, a statement disclosing the reasons why we believe the presentation of each of the non-GAAP financial measures provide useful information to investors regarding our financial condition and results of operations, the additional purposes for which we use the non-GAAP financial measures, and the limitations on their use.

EBITDA and Adjusted EBITDA

Earnings before Interest Expense, Income Taxes, Depreciation and Amortization (“EBITDA”) is a commonly used measure of performance in many industries. Management believes EBITDA provides useful information to investors regarding our results of operations because it helps us and our investors evaluate the ongoing operating performance of our properties after removing the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization). Management also believes the use of EBITDA facilitates comparisons between us and other lodging REITs, hotel owners who are not REITs and other capital-intensive companies. Management uses EBITDA to evaluate property-level results and as one measure in determining the value of acquisitions and dispositions and, like FFO and Adjusted FFO per diluted share, it is widely used by management in the annual budget process and for compensation programs.

Adjusted EBITDA

Historically, management has adjusted EBITDA when evaluating our performance because we believe that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance and that the presentation of Adjusted EBITDA, when combined with the primary GAAP presentation of net income (loss), is beneficial to an investor’s complete understanding of our operating performance. Adjusted EBITDA also is a relevant measure in calculating certain credit ratios. We adjust EBITDA for the following items, which may occur in any period, and refer to this measure as Adjusted EBITDA:

- Real Estate Transactions – We exclude the effect of gains and losses, including the amortization of deferred gains, recorded on the disposition or acquisition of depreciable assets and property insurance gains in our consolidated statement of operations because we believe that including them in Adjusted EBITDA is not consistent with reflecting the ongoing performance of our assets. In addition, material gains or losses based on the depreciated value of the disposed assets could be less important to investors given that the depreciated asset value often does not reflect its market value (as noted below for FFO).
- Equity Investment Adjustments – We exclude the equity in earnings (losses) of unconsolidated investments in partnerships and joint ventures as presented in our consolidated statement of operations because it includes our pro rata portion of depreciation, amortization and interest expense from these investments, which are excluded from EBITDA. We include our pro rata share of the Adjusted EBITDA of our equity investments as we believe this more accurately reflects the performance of our investments. The pro rata Adjusted EBITDA of equity investments is defined as the EBITDA of our equity investments, adjusted for any gains or losses on property transactions, multiplied by our ownership percentage in the partnership or joint venture.
- Consolidated Partnership Adjustments – We deduct the non-controlling partners’ pro rata share of the Adjusted EBITDA of our consolidated partnerships as this reflects the non-controlling owners’ interest in the EBITDA of our consolidated partnerships. The pro rata Adjusted EBITDA of non-controlling partners is defined as the EBITDA of

our consolidated partnerships, adjusted for any gains or losses on property transactions, multiplied by the non-controlling partners' ownership percentage in the partnership or joint venture.

·Cumulative Effect of a Change in Accounting Principle – Infrequently, the Financial Accounting Standards Board (“FASB”) promulgates new accounting standards that require the consolidated statement of operations to reflect the cumulative effect of a change in accounting principle. We exclude these one-time adjustments because they do not reflect our actual performance for that period.

·Impairment Losses – We exclude the effect of impairment losses recorded because we believe that including them in Adjusted EBITDA is not consistent with reflecting the ongoing performance of our assets. In addition, we believe that impairment losses, which are based on historical cost accounting of the relevant asset, are similar to gains (losses) on dispositions and depreciation expense, both of which also are excluded from EBITDA.

41

- Acquisition Costs – Under GAAP, costs associated with completed property acquisitions are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective of the ongoing performance of the company.
- Litigation Gains and Losses – Effective April 1, 2013, we have excluded the effect of gains or losses associated with litigation recorded under GAAP that we consider outside the ordinary course of business, which is consistent with the definition of Adjusted FFO that we adopted effective January 1, 2011. We believe that including these items is not consistent with our ongoing operating performance.

In unusual circumstances, we also may adjust EBITDA for gains or losses that management believes are not representative of our current operating performance. For example, in the first quarter of 2013, management excluded the \$11 million gain from the eminent domain claim for land adjacent to the Atlanta Marriott Perimeter Center for which we received the cash proceeds in 2007, but, pending the resolution of certain contingencies, was not recognized until 2013. Typically, gains from the disposition of non-depreciable property are included in the determination of Adjusted EBITDA.

The following table provides a reconciliation of the differences between EBITDA and Adjusted EBITDA and net income, the financial measure calculated and presented in accordance with GAAP that we consider the most directly comparable:

(1)

EBITDA and Adjusted EBITDA include a gain of \$21 million for the second quarter and year-to-date ended June 30, 2013 for the sale of excess land adjacent to our Newport Beach Marriott Hotel & Spa.

- (2) Reflects the interest expense, depreciation and amortization and income taxes included in discontinued operations.
- (3) Reflects the sale of an 89% controlling interest in one hotel in 2014 and the sale of one hotel during the first quarter of both 2014 and 2013.
- (4) During the first quarter of 2013, we recognized a previously deferred gain of approximately \$11 million related to the eminent domain claim by the State of Georgia for 2.9 acres of land at the Atlanta Marriott Perimeter Center for highway expansion, for which we received cash proceeds in 2007. We have included the gain in NAREIT FFO per diluted share, which is consistent with the treatment of gains recognized on the disposition of undepreciated assets. However, due to the significant passage of time since we received the proceeds, we have excluded the gain from Adjusted FFO per diluted share and Adjusted EBITDA for the year.
- (5) Effective April 1, 2013, we modified the definition of Adjusted EBITDA to exclude gains or losses associated with litigation outside the ordinary course of business, which is consistent with the definition of Adjusted FFO that we adopted effective January 1, 2011. The 2013 accrual relates to the Keystone litigation. See Part II, Item I Legal Proceedings for more information on the status of this case.

FFO Measures

We present NAREIT FFO and NAREIT FFO per diluted share as non-GAAP measures of our performance in addition to our earnings (loss) per share (calculated in accordance with GAAP). We calculate NAREIT FFO per diluted share as our NAREIT FFO (defined as set forth below) for a given operating period, as adjusted for the effect of dilutive securities, divided by the number of fully diluted shares outstanding during such period in accordance with NAREIT guidelines. NAREIT defines FFO as net income (loss) (calculated in accordance with GAAP), excluding gains (losses) from sales of real estate, the cumulative effect of changes in accounting principles, real estate-related depreciation, amortization and impairments and adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect our pro rata FFO of those entities on the same basis.

We believe that NAREIT FFO per diluted share is a useful supplemental measure of our operating performance and that the presentation of NAREIT FFO per diluted share, when combined with the primary GAAP presentation of earnings per share, provides beneficial information to investors. By excluding the effect of real estate depreciation, amortization, impairments and gains and losses from sales of real estate, all of which are based on historical cost accounting and which may be of lesser significance in evaluating current performance, we believe such measures can facilitate comparisons of operating performance between periods and with other REITs, even though NAREIT FFO per diluted share does not represent an amount that accrues directly to holders of our common stock. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. As noted by NAREIT in its April 2002 “White Paper on Funds From Operations,” since real estate values historically have risen or fallen with market conditions, many industry investors have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. For these reasons, NAREIT adopted the FFO metric in order to promote an industry-wide measure of REIT operating performance.

We also present Adjusted FFO per diluted share when evaluating our performance because management believes that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance. Management historically has made the adjustments detailed below in evaluating our performance, in our annual budget process, and for our compensation programs. We believe that the presentation of Adjusted FFO per diluted share, when combined with both the primary GAAP presentation of earnings per share and FFO per diluted share as defined by NAREIT, provides useful supplemental information that is beneficial to an investor’s complete understanding of our operating performance. We adjust NAREIT FFO per diluted share for the following items, which may occur in any period, and refer to this measure as Adjusted FFO per diluted share:

- Gains and Losses on the Extinguishment of Debt – We exclude the effect of finance charges and redemption premiums associated with the extinguishment of debt, including the acceleration of the write-off of deferred financing costs from the original issuance of the debt being redeemed or retired and incremental interest expense incurred during the refinancing period. We also exclude the gains on debt repurchases and the original issuance costs associated with the retirement of preferred stock. We believe that these items are not reflective of our ongoing finance costs.
- Acquisition Costs – Under GAAP, costs associated with completed property acquisitions are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective of the ongoing performance of the company.
- Litigation Gains and Losses – We exclude the effect of gains or losses associated with litigation recorded under GAAP that we consider outside the ordinary course of business. We believe that including these items is not consistent with our ongoing operating performance.

In unusual circumstances, we also may adjust NAREIT FFO for gains or losses that management believes are not representative of our current operating performance. For example, in the first quarter of 2013, management excluded

the \$11 million gain from the eminent domain claim for land adjacent to the Atlanta Marriott Perimeter Center for which we received the cash proceeds in 2007, but, pending the resolution of certain contingencies, was not recognized until 2013. Typically, gains from the disposition of non-depreciable property are included in the determination of NAREIT and Adjusted FFO.

The following table provides a reconciliation of the differences between our non-GAAP financial measures NAREIT FFO and Adjusted FFO (separately and on a per diluted share basis) and net income, the financial measure calculated and presented in accordance with GAAP that we consider most directly comparable:

Comparable Hotel Operating Results

We present certain operating results of our hotels, such as hotel revenues, expenses, adjusted operating profit and adjusted operating profit margin, on a comparable hotel, or “same store” basis as supplemental information for investors. For an explanation of which properties we considered to be “comparable hotels”, see “Comparable Hotel Operating Statistics” above.

The following table presents certain operating results and statistics for our comparable hotels for the periods presented herein and a reconciliation of the differences between comparable hotel adjusted operating profits, a non-GAAP financial measure, and operating profit, the financial measure calculated and presented in accordance with GAAP that we consider most directly comparable. Similar reconciliations of the differences between (i) comparable hotel revenues and (ii) our total revenues as calculated and presented in accordance with GAAP (each of which is used in the applicable margin calculation), and between (iii) comparable hotel expenses and (iv) operating costs and expenses as calculated and presented in accordance with GAAP, are provided in the footnotes to the reconciliation:

Item 3. Quantitative and Qualitative Disclosures about Market Risk

All information in this section applies to Host Inc. and Host L.P.

Interest Rate Sensitivity

As of June 30, 2014 and December 31, 2013, 79% and 71%, respectively, of our outstanding debt bore interest at fixed rates. To manage interest rate risk applicable to our debt, we may enter into interest rate swaps or caps. The interest rate derivatives into which we enter are strictly to hedge interest rate risk, and are not for trading purposes. The percentages above reflect the effect of any derivatives into which we have entered to manage interest rate risk. No interest rate swaps or caps were entered into during the second quarter of 2014. See Item 7A of our most recent Annual Report on Form 10-K and Note 9 – “Fair Value Measurements” in this quarterly report.

Exchange Rate Sensitivity

As we have operations outside of the United States (specifically, the ownership of hotels in Australia, Brazil, Canada, Mexico, Chile and New Zealand and our investments in the Euro JV and Asia/Pacific JV), currency exchange risks arise in the normal course of our business. To manage the currency exchange risk, we may enter into forward or option contracts or hedge our investment through the issuance of foreign currency denominated debt. During the quarter, upon maturity of a €15 million forward currency purchase contract, we entered into a new €15 million (\$21 million) forward currency purchase contract to hedge a portion of the foreign currency exposure resulting from the eventual repatriation of our net investment in the Euro JV. We will sell the Euro amount and receive the U.S. dollar amount on the forward purchase date of May 30, 2017. The following table summarizes our foreign currency sale contracts (in millions):

Currently Outstanding				Change in Fair Value - All Contracts				
Total								
Transaction		Total						
Amount in		Transaction			Gain			
					(Loss)	Gain (Loss)		
					Quarter	Year-to-date		
					ended	ended June		
Transaction Date	Foreign	Amount	Forward Purchase	June 30,	30,			
Range	Currency	in Dollars	Date Range	2014	2013	2014	2013	
July 2010-May 2014	€120	\$ 160	October 2014-May 2017	\$ 1	\$ (2)	\$ 1	\$ 1	

The foreign currency exchange agreements into which we have entered are strictly to hedge foreign currency risk and not for trading purposes. In addition to the forward sales contracts, we have designated a portion of the foreign currency draws on our credit facility as hedges of net investments in foreign operations. As a result, currency translation adjustments in the designated credit facility draws are recorded to other comprehensive income (loss), which adjustments offset a portion of the translation adjustment related to our international investments. See Item 7A of our most recent Annual Report on Form 10-K and Note 9 – “Fair Value Measurements” in this quarterly report.

Item 4. Controls and Procedures

Controls and Procedures (Host Hotels & Resorts, Inc.)

Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

Changes to Internal Control over Financial Reporting

There have been no changes in our internal controls over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On April 27, 2005, we initiated a lawsuit against Keystone-Texas Property Holding Corporation (“Keystone”) seeking a declaration that a provision of the ground lease for the property under the San Antonio Marriott Rivercenter was valid and claiming that Keystone had breached that lease provision. On October 18, 2006, Keystone filed an amended counterclaim and later, a third party claim, alleging that we had tortiously interfered with Keystone’s attempted sale of the property and that we slandered Keystone’s title to the property.

On February 8, 2010, we received an adverse jury verdict in the 166th Judicial District Court of Bexar County, Texas. The jury found that we tortiously interfered with the attempted sale by Keystone of the land under the San Antonio Marriott Rivercenter and awarded Keystone \$34.3 million in damages, plus statutory interest. In addition, the jury found that we slandered Keystone’s title to the property and awarded Keystone \$39 million in damages, plus statutory interest. Keystone only will be entitled to receive one of these damage awards. On February 12, 2010, the jury awarded Keystone \$7.5 million in exemplary damages with respect to the second claim. The trial court, however, subsequently granted our motion to disregard the jury’s exemplary damages award. On June 3, 2010, the trial court issued its final judgment awarding Keystone: (i) \$39 million in damages for slander of title or, alternatively, \$34.3 million for tortious interference of contract; (ii) approximately \$6.8 million in pre-judgment and post-judgment interest (as of June 30, 2014, interest was \$18 million); (iii) approximately \$3.5 million in attorneys’ fees, expenses, and costs; and (iv) an additional \$750,000 in attorneys’ fees for any appeal to the court of appeals and Texas Supreme Court.

On November 23, 2011, a three-judge panel of the San Antonio Court of Appeals issued its memorandum opinion denying our appeal of the trial court’s June 3, 2010 final judgment. In addition, the panel overturned the trial court’s decision to grant our motion to disregard the jury’s \$7.5 million award of exemplary damages. On January 17, 2012, we filed motions seeking rehearing from the three-judge panel and a motion for rehearing by the entire seven-judge court of appeals. Those motions were denied on February 29, 2012.

On May 16, 2012, we filed a Petition for Review in the Texas Supreme Court and on August 17, 2012 the Court requested briefing on the merits. Briefing concluded in January 2013. On June 28, 2013, the Court issued an order denying the petition for review; however, on December 13, 2013, the Court granted our motion for rehearing on that order and heard oral argument on our appeal on February 4, 2014. On June 13, 2014, the Court reversed the court of appeals judgment, the effect of which is that we are no longer liable for the jury verdict and punitive damages award. However, Keystone has indicated that it will request a rehearing on the Court’s decision. We have accrued a loss contingency of approximately \$69 million related to this litigation, which includes the funding of a court-ordered \$25 million escrow reserve. If the motion for rehearing is denied, we will reverse the accrual and cancel the escrow reserve bond when the Court concludes the case by issuance of its final mandate.

Item 6. Exhibits

In reviewing the agreements included as exhibits to this report, please remember they are included to provide you with information regarding their terms and are not intended to provide any other factual or disclosure information about the company, its subsidiaries or other parties to the agreements. The agreements contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties have been made solely for the benefit of the other parties to the applicable agreement and:

- should not in all instances be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate;
- have been qualified by disclosures that were made to other party in connection with the negotiation of the applicable agreement, which disclosures are not necessarily reflected in the agreement;
- may apply standards of materiality in a way that is different from what may be viewed as material to you or other investors; and
- were made only as of the date of the applicable agreement or such other date or date as may be specified in the agreement and are subject to more recent developments.

Accordingly, these representation and warranties may not describe the actual state of affairs as the date they were made or at any other time.

The exhibits listed on the accompanying Exhibit Index are filed as part of this report and such Exhibit Index is incorporated herein by reference.
