Item 2.02 Results of Operations and Financial Condition

On January 9, 2017, Acorda Therapeutics, Inc. (the “Company”) issued a press release announcing certain financial information for the fourth quarter of 2016 as well as for the 2016 full year, including that Ampyra (dalfampridine) Extended Release Tablets, 10 mg net sales for the fourth quarter of 2016 were \$132 million, and that Ampyra full year net sales for 2016 were \$493 million. Final results are subject to completion of the Company’s year-end audit. The Company provided 2017 guidance for Ampyra net sales of \$535-\$545 million, research and development (R&D) expense of \$185-\$195 million, and sales, general and administrative (SG&A) expense of \$195-\$205 million. R&D and SG&A expense guidance are non-GAAP projections which exclude share-based compensation, as more fully described below.

The Company also announced that it is providing a corporate overview today at the 35th Annual J.P. Morgan Healthcare Conference.

A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K, and incorporated by reference into this Item.

This report and Exhibit 99.1 include certain forward-looking financial measures that were not prepared in accordance with accounting principles generally accepted in the United States (GAAP). In particular, the Company has provided 2017 guidance for R&D and SG&A expense on a non-GAAP basis. Due to the forward looking nature of this information, the amount of compensation charges and benefits needed to reconcile these measures to the most directly comparable GAAP financial measures is dependent on future changes in the market price of our common stock and is not available at this time. Non-GAAP financial measures are not an alternative for financial measures prepared in accordance with GAAP. However, the Company believes the presentation of these non-GAAP financial measures, when viewed in conjunction with our GAAP results, provide investors with a more meaningful understanding of our ongoing and projected operating performance. The Company believes these non-GAAP financial measures help indicate underlying trends in the Company's business and are important in understanding projected operating performance.
