Item 1. Business.

General

American Eagle Outfitters, Inc., (“AEO Inc.,” the “Company,” “we,” “our”) a Delaware corporation, was founded in 1977. We are a leading multi-brand specialty retailer, operating over 1,000 retail stores and online at www.ae.com and www.aerie.com in the United States and internationally. We offer a broad assortment of high-quality, on-trend apparel and accessories for men and women under the American Eagle Outfitters brand, and intimates, apparel and personal care products for women under the Aerie brand at affordable prices. AEO Inc. operates stores in the United States, Canada, Mexico, Hong Kong, and China. As of February 3, 2018, we operated 933 American Eagle Outfitters stores and 109 Aerie stand-alone stores. We also have license agreements with third-parties to operate American Eagle Outfitters and Aerie stores throughout Asia, Europe, India, Latin America and the Middle East. Our licensed store base has grown to 214 locations in 25 countries. We also operate two emerging brands to complement our existing brands, Tailgate, a vintage, sports-inspired apparel brand, and Todd Snyder New York, a premium menswear brand.

We operate in one reportable segment, consisting of two brand-based operating segments of American Eagle and Aerie (as further described below). All operating segments have met the aggregation criteria and are presented as one reportable segment. Additional information concerning our segment, geographic information and merchandise mix is contained in Note 2 of the Consolidated Financial Statements included in this Form 10-K and is incorporated herein by reference. Additionally, a five-year summary of certain financial and operating information can be found in Part II, Item 6, Selected Consolidated Financial Data, of this Form 10-K. See also Part II, Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations, and Item 8, Financial Statements and Supplementary Data.

Brands

American Eagle Brand

We are an American brand rooted in our denim heritage and passionate about providing the highest-quality products. Since 1977, American Eagle (or “AE”) has offered an assortment of specialty apparel and accessories for men and women that enables self-expression and empowers our customers to celebrate their individuality. The brand has broadened its leadership in jeans by producing innovative fabric with options for all styles and fits at a value. We aren’t just passionate about making great clothing, we’re passionate about making real connections with the people who wear them.

As of February 3, 2018, the AE brand operated 933 stores and online at www.ae.com.

Aerie

Aerie is a lifestyle brand in operation for over 10 years and is committed to making all girls feel good about their REAL selves. We offer intimates, apparel, activewear and swim collections. With the #AerieREAL™ movement, Aerie celebrates its community by advocating for body positivity and the empowerment of all women. Aerie believes in inspiring customers to love their real selves, inside and out.

As of February 3, 2018, the Aerie brand operated 109 stand-alone stores and 116 side-by-side stores connected to AE brand stores. In addition, the Aerie brand merchandise is sold online at www.aerie.com and certain items are sold in

AE brand stores.

Other brands

Tailgate is a vintage, sports-inspired apparel brand with a college town store concept. As of February 3, 2018, the Tailgate brand operated 4 stand-alone stores and is available online at www.ae.com.

Todd Snyder New York is a premium menswear brand. As of February 3, 2018, the Todd Snyder brand operated 1 stand-alone store and online at www.ToddSnyder.com.

3

Key Business Priorities & Strategy

We are focused on driving our brands forward and delivering an exceptional customer experience across channels. Our current priorities include:

- Delivering innovation, quality and outstanding value to our customers;
- Leveraging American Eagle's leading position in jeans and bottoms;
- Accelerating Aerie's growth as a leading intimates brand in the marketplace;
- Leveraging our omni-channel capabilities and customer information to gain market share and provide industry leading customer experiences; and
- Strengthening our financial discipline including inventory and expense management, delivering profitable revenue growth and focusing on high return investments, among other areas.

Real Estate

We ended Fiscal 2017 with a total of 1,261 stores, consisting of 1,047 Company-owned stores and 214 licensed store locations. Our AE brand stores average approximately 6,600 gross square feet and approximately 5,300 on a selling square foot basis. Our Aerie brand stand-alone stores average approximately 3,600 gross square feet and approximately 3,000 on a selling square foot basis. The gross square footage of our Company-owned stores decreased by 0.6% to 6.6 million during Fiscal 2017.

Company-Owned Stores

Our Company-owned retail stores are located in shopping malls, lifestyle centers and street locations in the United States, Canada, Mexico, China and Hong Kong.

Refer to Note 15 to the Consolidated Financial Statements for additional information regarding impairment and restructuring charges in China, Hong Kong and the United Kingdom.

The following table provides the number of our Company-owned stores in operation as of February 3, 2018 and January 28, 2017.

	February 3, 2018	January 28, 2017
AE Brand:		
United States	802	812

Edgar Filing: AMERICAN EAGLE OUTFITTERS INC - Form 10-K

Todd Snyder	1	1
Total Consolidated	1,047	1,050

The following table provides the changes in the number of our Company-owned stores for the past five fiscal years:

Fiscal Year	Beginning of Year	Opened	Closed	End of Year
2017	1,050	31	(34)	1,047
2016	1,047	29	(26)	1,050
2015	1,056	23	(32)	1,047
2014	1,066	60	(70)	1,056
2013	1,044	64	(42)	1,066

Licensed Stores

In addition to our Company-owned stores, our merchandise is sold at stores operated by third-party licensees. Under these agreements, our merchandise is sold at American Eagle and Aerie stores owned and operated by third-party operators. Revenue recognized under license agreements generally consists of royalties earned and recognized upon sale of merchandise by license partners to retail customers.

As of February 3, 2018, our products were sold in 214 locations operated by licensees in 25 countries as provided in the following table. We continue to increase the number of locations under these types of arrangements as part of our disciplined approach to global expansion.

AEO Direct

We sell merchandise through our digital channels, ae.com, aerie.com and our AEO apps, both domestically and internationally in 81 countries. The digital channels reinforce each particular brand platform, and are designed to complement the in-store experience.

5

Over the past several years, we have invested in building our technologies and digital capabilities. We focused our investments in three key areas: making significant advances in mobile technology, investing in digital marketing and improving the digital customer experience.

Omni-Channel

In addition to our investments in technology, we have invested in building omni-channel capabilities to better serve customers and gain operational efficiencies. These upgraded technologies provide a single view of inventory across channels, connecting physical stores directly to our digital store and providing our customers with a more convenient and improved shopping experience. Our U.S. and Canadian distribution centers are fully omni-channel and service both stores and digital businesses. We offer the ability for customers to seamlessly return product via any channel regardless of where it was originally purchased. Our store-to-door capability enables store customers to make purchases from online inventory while shopping in our stores. Additionally, we fulfill online orders at stores through our buy online, ship from store capability, maximizing inventory exposure to digital traffic. We also offer a reserve online, pick up in store service to our customers which gives customers the ability to select in-store inventory from all digital channels. We will continue to optimize these tools and services to continue to enhance and improve the total customer shopping experience.

Customer Loyalty Program

We offer AEO Connected, a new, highly-digitized loyalty program serving all American Eagle and Aerie customers. Members enjoy greater convenience, more rewards and an enhanced customer experience.

AEO Connected highlights include:

- Upgraded rewards for our best customers and brand advocates
- Full integration with AE and Aerie's branded credit cards
- Special perks for purchasing key items, jeans and bras
- Exclusive member access to concerts, festivals and special events

Under AEO Connected, customers accumulate points based on purchase activity and earn rewards by reaching certain point thresholds, and when reached, rewards are distributed. Customers earn rewards in the form of discount savings certificates. Rewards earned are valid through the stated expiration date, which is 45 days from the issuance date of the reward. Additional rewards are also given for key items such as jeans and bras. Rewards not redeemed during the 45 day redemption period are forfeited.

Merchandise Suppliers

We design our merchandise, which is manufactured by third-party factories. During Fiscal 2017, we purchased substantially all of our merchandise from non-North American suppliers. We sourced merchandise through approximately 300 vendors located throughout the world, primarily in Asia, and did not source more than 10% of our merchandise from any single factory or supplier. Although we purchase a significant portion of our merchandise through a single international buying agent, we do not maintain any exclusive commitments to purchase from any one vendor.

We maintain a quality control department at our distribution centers to inspect incoming merchandise shipments for overall quality of manufacturing. Inspections are also made by our employees and agents at manufacturing facilities to identify quality issues prior to shipment of merchandise.

We uphold an extensive factory inspection program to monitor compliance with our Vendor Code of Conduct (“Vendor Code”). New garment factories must pass an initial inspection in order to do business with us and we continue to review their performance against our guidelines regarding working conditions, employment practices and compliance with local laws through internal audits by our compliance team and the use of third-party monitors. We strive to partner with suppliers who respect local laws and share our dedication to utilize best practices in human rights, labor rights, environmental practices and workplace safety. We are a certified member of the Customs-Trade Partnership Against Terrorism program (“CTPAT”), a designation we have held since 2004. CTPAT is a voluntary program offered by U.S. Customs and Border Protection (“CBP”) in which an importer agrees to work with CBP to strengthen overall supply chain security. As of September 2016, we were accepted into the Apparel, Footwear and Textiles Center, one of CBP’s Centers of Excellence and Expertise (“CEE”). The CEE was created to ensure uniformity, create efficiencies, reduce redundancies, enhance industry expertise and facilitate trade, all with a final goal of reduced costs at the border and allowing CBP to focus on high-risk shipments.

Inventory and Distribution

Merchandise is shipped directly from our vendors to our Company-owned distribution centers in Hazleton, Pennsylvania and Ottawa, Kansas, or to our Canadian distribution center in Mississauga, Ontario. Additionally, product is shipped directly to stores which reduces transit times and lowers operating costs. We contract with third-party distribution centers in Mexico, Hong Kong, and China to service our Company-owned stores in those regions.

Regulation

We and our products are subject to regulation by various federal, state, local and foreign regulatory authorities. Substantially all of our products are manufactured by foreign suppliers and imported by us, and we are subject to a variety of trade laws, customs regulations and international trade agreements. Apparel and other products sold by us are under the jurisdiction of multiple governmental agencies and regulations, including, in the U.S., the Federal Trade Commission and the Consumer Products Safety Commission. These regulations relate principally to product labeling, marketing, licensing requirements, and consumer product safety requirements and regulatory testing. We are also subject to regulations governing our employees both globally and in the U.S., and by disclosure and reporting requirements for publicly traded companies established under existing or new federal or state laws, including the Sarbanes-Oxley Act of 2002, the Securities and Exchange Commission (“SEC”) and New York Stock Exchange (“NYSE”).

Our licensing partners, buying/sourcing agents, and the vendors and factories with which we contract for the manufacture and distribution of our products are also subject to regulation. Our agreements require our licensing partners, buying/sourcing agents, vendors, and factories to operate in compliance with all applicable laws and regulations, and we are not aware of any violations that could reasonably be expected to have a material adverse effect on our business or operating results.

Competition

The global retail apparel industry is highly competitive both in stores and online. We compete with various local, national, and global apparel retailers, as well as the casual apparel and footwear departments of department stores and discount retailers, primarily on the basis of quality, fashion, service, selection and price.

Trademarks and Service Marks

We have registered AMERICAN EAGLE OUTFITTERS®, AMERICAN EAGLE®, AE®, AEO®, LIVE YOUR LIFE®, AERIE®, and the Flying Eagle Design with the United States Patent and Trademark Office. We also have registered or have applied to register substantially all of these trademarks with the registries of the foreign countries in which our stores and/or manufacturers are located and/or where our product is shipped.

We have registered AMERICAN EAGLE OUTFITTERS®, AMERICAN EAGLE®, AEO®, LIVE YOUR LIFE®, AERIE®, and the Flying Eagle Design with the Canadian Intellectual Property Office. In addition, we have acquired rights in AE™ for clothing products and registered AE® in connection with certain non-clothing products.

In the U.S. and in other countries around the world, we also have registered, or have applied to register, a number of other marks used in our business, including TODD SNYDER®, TAILGATE®, DON'T ASK WHY® and our pocket stitch designs.

Our registered trademarks are renewable indefinitely, and their registrations are properly maintained in accordance with the laws of the country in which they are registered. We believe that the recognition associated with these trademarks makes them extremely valuable and, therefore, we intend to use, renew, and enforce our trademarks in accordance with our business plans.

Employees

As of February 3, 2018, we had approximately 40,700 employees in the United States, Canada, Mexico, Hong Kong and China of whom approximately 33,200 were part-time or seasonal hourly employees.

7

Executive Officers of the Registrant

Jennifer M. Foyle, age 51, has served as our Global Brand President – Aerie since January 2015. Prior thereto, Ms. Foyle served as Executive Vice President, Chief Merchandising Officer – Aerie from February 2014 to January 2015 and Senior Vice President, Chief Merchandising Officer – Aerie from August 2010 to February 2014. Prior to joining us, Ms. Foyle was President of Calypso St. Barth from 2009 to 2010. In addition, she held various positions at J. Crew Group, Inc., including Chief Merchandising Officer, from 2003 to 2009. Early in her career, Ms. Foyle was the Women’s Divisional Merchandise Manager for Gap Inc. from 1999 – 2003 and held various roles at Bloomingdales from 1988-1999.

Charles F. Kessler, age 45, has served as our Global Brand President – American Eagle Outfitters since January 2015. Prior thereto, he served as our Executive Vice President, Chief Merchandising and Design Officer – American Eagle Outfitters from February 2014 to January 2015. Prior to joining us, Mr. Kessler served as Chief Merchandising Officer at Urban Outfitters, Inc. from October 2011 to November 2013 and as Senior Vice President, Corporate Merchandising at Coach, Inc. from July 2010 to October 2011. Prior to that time, Mr. Kessler held various positions with Abercrombie & Fitch Co. from 1994 to 2010, including Executive Vice President, Female Merchandising from 2008 to 2010.

Robert L. Madore, age 53, has served as our Executive Vice President and Chief Financial Officer since October 2016. Prior to joining us, Mr. Madore served as the Chief Financial Officer of Ralph Lauren Corporation from April 2015 to September 2016. Prior to that role, he held a number of key financial and operational roles at the Ralph Lauren Corporation, including Senior Vice President of Corporate Finance from December 2010 to March 2015, and Senior Vice President of Operations and Chief Financial Officer of its retail division from 2004 to December 2010. Prior to that time, Mr. Madore was Chief Financial Officer for New York & Company from 2003 to 2004, and served as Chief Operating Officer and Chief Financial Officer of FutureBrand, a division of McCann Erickson, from 2001 to 2003. Prior thereto, he held various executive management positions at Nine West Group, Inc. starting in 1995. Mr. Madore began his career in 1987 at Deloitte & Touche until 1995.

Michael R. Rempell, age 44, has served as our Executive Vice President and Chief Operations Officer since June 2012. Prior thereto, he served as our Executive Vice President and Chief Operating Officer, New York Design Center, from April 2009 to June 2012, as Senior Vice President and Chief Supply Chain Officer from May 2006 to April 2009, and in various other positions since joining us in February 2000.

Jay L. Schottenstein, age 63, has served as our Executive Chairman, Chief Executive Officer since December 2015. Prior thereto, Mr. Schottenstein served as our Executive Chairman, Interim Chief Executive Officer from January 2014 to December 2015. He has also served as the Chairman of the Company and its predecessors since March 1992. He served as our Chief Executive Officer from March 1992 until December 2002 and prior to that time, he served as a Vice President and Director of our predecessors since 1980. He has also served as Chairman of the Board and Chief Executive Officer of Schottenstein Stores Corporation (“SSC”) since March 1992 and as President since 2001. Prior thereto, Mr. Schottenstein served as Vice Chairman of SSC from 1986 to 1992. He has been a Director of SSC since 1982. Mr. Schottenstein also served as Chief Executive Officer from March 2005 to April 2009 and as Chairman of the Board since March 2005 of DSW Inc., a company traded on the NYSE. He has also served as a member of the Board of Directors for AB Acquisition LLC (Albertsons/Safeway) since 2006. He has also served as an officer and director of various other entities owned or controlled by members of his family since 1976.

Fiscal Year

Our fiscal year ends on the Saturday nearest to January 31. As used herein, “Fiscal 2018” refers to the 52-week period ending February 2, 2019. “Fiscal 2017” refers to the 53-week period ended February 3, 2018. “Fiscal 2016” and “Fiscal

2015” refer to the 52-week periods ended January 28, 2017 and January 30, 2016, respectively.

Available Information

Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports are available under the Investors section of our website at www.ae.com. These reports are available as soon as reasonably practicable, free of charge, after such material is electronically filed with the SEC.

Our corporate governance materials, including our corporate governance guidelines, the charters of our audit, compensation, and nominating and corporate governance committees, and our code of ethics may also be found under the Investors section of our website at www.ae.com. Any amendments or waivers to our code of ethics will also be available on our website. A copy of the corporate governance materials is also available upon written request.

Additionally, our investor presentations are available under the Investors section of our website at www.ae.com. These materials are available as soon as reasonably practicable after they are presented at investor conferences.

Certifications

As required by the NYSE Corporate Governance Standards Section 303A.12(a), on June 21, 2017, our Chief Executive Officer submitted to the NYSE a certification that he was not aware of any violation by the Company of NYSE corporate governance listing standards. Additionally, we filed and furnished, as applicable, with this Form 10-K, the Principal Executive Officer and Principal Financial Officer certifications required under Sections 302 and 906 of the Sarbanes-Oxley Act of 2002.

Item 1A. Risk Factors

Our inability to anticipate and respond to changing consumer preferences and fashion trends in a timely manner could adversely impact our profitability

Our future success depends, in part, upon our ability to identify and respond to fashion trends in a timely manner. The specialty retail apparel business fluctuates according to changes in the economy and customer preferences, dictated by fashion and season. These fluctuations especially affect the inventory owned by apparel retailers because merchandise typically must be ordered well in advance of the selling season. While we endeavor to test many merchandise items before ordering large quantities, we remain susceptible to changing fashion trends and fluctuations in customer demands.

In addition, the cyclical nature of the retail business requires that we carry a significant amount of inventory, especially during our peak selling seasons. We enter into agreements for the manufacture and purchase of our private label apparel well in advance of the applicable selling season. As a result, we are vulnerable to changes in consumer demand, pricing shifts and the timing and selection of merchandise purchases. Our failure to enter into agreements for the manufacture and purchase of merchandise in a timely manner could, among other things, lead to a shortage of inventory and lower sales. Changes in fashion trends, if unsuccessfully identified, forecasted or responded to by us, could, among other matters, lead to lower sales, excess inventories and higher markdowns, which in turn could have a material adverse effect on our results of operations and financial condition.

Our market share may be adversely impacted by increasing competition and pricing pressures from companies with brands or merchandise that are competitive with ours

The sale of apparel, accessories, intimates and personal care products is a highly competitive business with numerous participants, including individual and chain specialty apparel retailers, local, regional, national and international department stores, discount stores and online businesses. The substantial sales growth in the digital channel within the last several years has encouraged the entry of many new competitors and an increase in competition from established companies. We face a variety of competitive challenges, including:

- Anticipating and quickly responding to changing consumer demands or preferences better than our competitors;
- Maintaining favorable brand recognition and effective marketing of our products to consumers in several demographic markets;
- Sourcing merchandise efficiently;
- Developing innovative, high-quality merchandise in styles that appeal to our consumers and in ways that favorably distinguish us from our competitors; and
- Countering the aggressive pricing and promotional activities of many of our competitors.

In light of the competitive challenges we face, we may not be able to compete successfully in the future. Additionally, increases in competition could reduce our sales, which in turn could have a material adverse effect on our results of operations and financial condition.

The effect of economic pressures and other business factors on consumer spending could have a material adverse effect on our business, results of operations and liquidity

The success of our operations depends to a significant extent on a number of factors relating to discretionary consumer spending, including economic conditions affecting disposable consumer income such as income taxes, payroll taxes, employment, consumer debt, interest rates, increases in energy costs and consumer confidence. Additionally, changes in consumer preferences and discretionary spending habits may negatively impact the specialty retail market. There can be no assurance that consumer spending will not be further negatively affected by general, local or international economic conditions and changing consumer preferences, thereby adversely impacting our results of operations and financial condition.

Seasonality may cause sales to fluctuate and negatively impact our results of operations

Historically, our operations have been seasonal, with a large portion of total net revenue and operating income occurring in the third and fourth fiscal quarters, reflecting increased demand during the back-to-school and year-end holiday selling seasons, respectively. As a result of this seasonality, factors negatively affecting us during the third and fourth fiscal quarters of any year, including adverse weather or unfavorable economic conditions, could have a material adverse effect on our financial condition and results of operations for the entire year. Our quarterly results of operations also may fluctuate based upon such factors as the timing of certain holiday seasons, the number and timing of new store openings, the acceptability of seasonal merchandise offerings, the timing and level of markdowns, store closings and remodels, competitive factors, weather and general economic and political conditions.

Our efforts to execute on our key business priorities could have a negative impact on our growth and profitability

Our success depends on our ability to execute on our key priorities, which are centered on driving our brands forward and delivering an exceptional customer experience across channels, including:

- Delivering innovation, quality and outstanding value to our customers;
- Leveraging American Eagle's leading position in jeans and bottoms;
- Accelerating Aerie's growth as a leading intimates brand in the marketplace;
- Leveraging our omni-channel capabilities and customer information to gain market share and provide industry leading customer experiences; and
- Strengthening our financial discipline including inventory and expense management, delivering profitable revenue growth and focusing on high return investments, among other areas.

Achieving these key business priorities depends on us executing our strategies successfully, and the initiatives that we implement in connection with these goals may not resonate with our customers. It may take longer than anticipated to generate the expected benefits, and there can be no guarantee that these key priorities will result in improved operating results. Failure to successfully implement our key business priorities could have a negative impact on our growth and profitability.

Our inability to react to raw material, labor and energy cost increases could adversely impact our business and results of operations

Increases in our costs, such as raw materials, labor and energy, may reduce our overall profitability. Specifically, fluctuations in the costs associated with the manufacture of merchandise that we purchase from our suppliers impact

our cost of sales. We have strategies in place to help mitigate these costs; however, our overall profitability depends on the success of those strategies. Additionally, increases in other costs, including labor, energy and additional duties and taxes on imports, could further reduce our profitability if not mitigated.

Our inability to achieve planned store performance, gain market share in the face of declining shopping center traffic or attract customers to our stores could adversely impact our profitability and our results of operations

The results achieved by our stores may not be indicative of long-term performance or the potential performance of stores in other locations. Part of our future growth is dependent on our ability to operate stores in desirable locations with capital investment and lease costs providing the opportunity to earn a reasonable return. We cannot be sure as to when or whether such desirable locations will become available at reasonable costs. The failure of our stores to achieve acceptable results could result in store asset impairment charges, which could adversely affect our results of operations and financial condition.

Additionally, our real estate strategy may not be successful, and store locations may fail to produce desired results, which could impact our competitive position and profitability. Customer shopping patterns have been evolving from brick-and-mortar locations to, increasingly, digital channels. We have Company-owned stores in shopping centers that have experienced declining traffic trends while our digital channels continue to grow. Our ability to grow revenue and acquire new customers is contingent on our ability to drive traffic to both store locations and digital channels so that we are accessible to our customers when and where they want to shop.

We locate our brick and mortar stores in prominent locations within successful shopping malls or street locations. Our stores benefit from the ability of the malls' "anchor" tenants, which generally are large department stores and other area attractions, to generate consumer traffic in the vicinity of our stores. We cannot control the increasing impact of digital channels on shopping center traffic, the loss of an anchor or other significant tenant in a shopping mall in which we have a store, the development of new shopping malls in the U.S. or around the world, the availability or cost of appropriate locations, competition with other retailers for prominent locations, or the success of individual shopping malls. All of these factors may impact our ability to meet our productivity targets and could have a material adverse effect on our financial results. In addition, some malls and shopping centers that were in prominent locations when we opened our stores may cease to be viewed as prominent. If this trend continues or if the popularity of mall shopping continues to decline generally among our customers, our sales may decline, which would impact our results of operations and financial condition.

We have significant lease obligations, and are subject to risks associated with leasing substantial amounts of space, including future increases in occupancy costs and the need to generate significant cash flow to meet our lease obligations

Operating lease obligations, which consist primarily of future minimum lease commitments related to store operating leases, represent a significant contractual commitment. All of our stores are leased and generally have initial terms of 10 years. In the future, we may not be able to negotiate favorable lease terms for the most desired store locations. Our inability to do so may cause our occupancy costs to be higher in future years or may force us to close stores in desirable locations.

Certain leases have early termination options, which can be exercised under certain specific conditions. In addition to future minimum lease payments, some of our store leases provide for additional rental payments based on a percentage of net sales, or "percentage rent," if sales at the respective stores exceed specified levels, as well as the payment of tenant occupancy costs, including maintenance costs, common area charges, real estate taxes and certain other expenses. Many of our lease agreements have defined escalating rent provisions over the initial term and any extensions.

We depend on cash flow from operations to pay our lease expenses. If our business does not generate sufficient cash flow from operating activities to fund these expenses, due to continued decreases in mall traffic, the highly competitive and promotional retail environment, or other factors, we may not be able to service our lease expenses,

which could materially harm our business. Furthermore, the significant cash flow required to satisfy our obligations under the leases increases our vulnerability to adverse changes in general economic, industry, and competitive conditions, and could limit our ability to fund working capital, incur indebtedness, and make capital expenditures or other investments in our business.

Our inability to grow our e-commerce channel and leverage omni-channel capabilities could adversely impact our business

We sell merchandise through our digital channels, both domestically and internationally. We have invested in building technologies and digital capabilities in three key areas: mobile technology, digital marketing and desktop experience. We have made significant capital investments in these areas but there is no assurance that we will be able to continue to successfully maintain or expand our e-commerce business.

As omni-channel retailing continues to evolve, our customers are increasingly more likely to shop across multiple channels that work in tandem to meet their needs. Our inability to respond to these changes and successfully maintain and expand our omni-channel business may have an adverse impact on our results of operations.

Our efforts to expand internationally expose us to risks inherent in operating in new countries

We are actively pursuing additional international expansion initiatives, which include Company-owned stores and stores operated by third-parties through licensing arrangements in select international markets. The effect of international expansion arrangements on our business and results of operations is uncertain and will depend upon various factors, including the demand for our products in new markets internationally. Furthermore, although we provide store operation training, literature and support, to the extent that a licensee does not operate its stores in a manner consistent with our requirements regarding our brand and customer experience standards, our business results and the value of our brand could be negatively impacted.

A failure to properly implement our expansion initiatives, or the adverse impact of political or economic risks in these international markets, could have a material adverse effect on our results of operations and financial condition. We have limited prior experience operating internationally, where we face established competitors. In many of these locations, the real estate, labor and employment, transportation and logistics and other operating requirements differ dramatically from those in the locations where we have more experience. Consumer demand and behavior, as well as tastes and purchasing trends, may differ substantially, and as a result, sales of our products may not be successful, or the margins on those sales may not be in line with those we currently anticipate. Any differences that we encounter as we expand internationally may divert financial, operational and managerial resources from our existing operations, which could adversely impact our financial condition and results of operations. In addition, we are increasingly exposed to foreign currency exchange rate risk with respect to our revenue, profits, assets, and liabilities denominated in currencies other than the U.S. dollar for which we have taken risk mitigating actions, when appropriate. We may also use instruments to hedge certain foreign currency risks in the future; however, these measures may not succeed in offsetting all of the negative impact of foreign currency rate movements on our business and results of operations.

As we pursue our international expansion initiatives, we are subject to certain laws, including the Foreign Corrupt Practices Act, as well as the laws of the foreign countries in which we operate. Violations of these laws could subject us to sanctions or other penalties that could have an adverse effect on our reputation, operating results and financial condition.

Our international merchandise sourcing strategy subjects us to risks that could adversely impact our business and results of operations

Our merchandise is manufactured by suppliers worldwide. Although we purchase a significant portion of our merchandise through a single international buying agent, we do not maintain any exclusive commitments to purchase from any one vendor. Because we have a global supply chain, any event causing the disruption of imports, including the insolvency of a significant supplier or a major labor slow-down, strike or dispute including any such actions involving ports, trans loaders, consolidators or shippers, could have an adverse effect on our operations. Given the

volatility and risk in the current markets, our reliance on external vendors leaves us subject to certain risks should one or more of these external vendors become insolvent. Although we monitor the financial stability of our key vendors and plan for contingencies, the financial failure of a key vendor could disrupt our operations and have an adverse effect on our cash flows, results of operations and financial condition.

We have a Vendor Code that provides guidelines for our vendors regarding working conditions, employment practices and compliance with local laws. A copy of the Vendor Code is posted on our website, www.ae.com, and is also included in our vendor manual in English and multiple other languages. We have a factory compliance program to audit for compliance with the Vendor Code. However, there can be no assurance that all violations can be eliminated in our supply chain. Publicity regarding violation of our Vendor Code or other social responsibility standards by any of our vendor factories could adversely affect our reputation, sales and financial performance.

There is a risk of terrorist activity on a global basis. Such activity might take the form of a physical act that impedes the flow of imported goods or the insertion of a harmful or injurious agent to an imported shipment. We have instituted policies and procedures designed to reduce the chance or impact of such actions. Examples include, but are not limited to, factory audits and self-assessments, including audit protocols on all critical security issues; the review of security procedures of our other international trading partners, including forwarders, consolidators, shippers and brokers; and the cancellation of agreements with entities who fail to meet our security requirements. In addition, U.S. Customs and Border Protection has recognized us as a validated participant of the CTPAT program, a voluntary program in which an importer agrees to work with customs to strengthen overall supply chain security. However, there can be no assurance that terrorist activity can be prevented entirely and we cannot predict the likelihood of any such activities or the extent of their adverse impact on our operations.

Our inability to implement and sustain adequate information technology systems could adversely impact our profitability

We regularly evaluate our information technology systems and are currently implementing modifications and/or upgrades to the information technology systems that support our business. Modifications include replacing legacy systems with successor systems, making changes to legacy systems or acquiring new systems with new functionality. We are aware of inherent risks associated with operating, replacing and modifying these systems, including inaccurate system information and system disruptions. We believe we are taking appropriate action to mitigate the risks through testing, training, staging implementation and in-sourcing certain processes, as well as securing appropriate commercial contracts with third-party vendors supplying such replacement and redundancy technologies; however, there is a risk that information technology system disruptions and inaccurate system information, if not anticipated and/or promptly and appropriately mitigated, could have a material adverse effect on our results of operations. Furthermore, while we have disaster recovery and business continuity plans in place, if our information technology systems are damaged, breached or cease to properly function for any reason, including the poor performance of, failure of, or cyber-attack on third-party service providers, catastrophic events, power outages, cyber-security breaches, network outages, failed upgrades or similar events, and if such disaster recovery and business continuity plans do not effectively resolve such issues, we may suffer interruptions in our ability to manage or conduct business, as well as reputational harm, and we may be subject to governmental investigations and litigation, any of which may adversely impact our business, results of operations, and financial condition.

Our inability to safeguard against security breaches with respect to our information technology systems could damage our reputation and adversely impact our profitability

Our business employs systems and websites that allow for the storage and transmission of proprietary or confidential information regarding our business, customers and employees including credit card information. Attackers continuously enhance and evolve their methods to compromise data. We continue to research and deploy technology that mitigates security risk including reducing financial gain to an adversary when possible. Security breaches could expose us to a risk of loss or misuse of this information and potential liability. We have experienced cyber incidents, which have not had a material adverse impact on our business and for which we have taken measures to prevent from reoccurring. We may, however, experience them in the future, potentially with more frequency and/or sophistication. We may not be able to anticipate or prevent rapidly evolving types of cyber-attacks. Actual or anticipated attacks may cause us to incur increasing costs including costs to deploy additional personnel and protection technologies, train employees and engage third-party experts and consultants. Advances in computer capabilities, new technological discoveries or other developments may result in the technology we use to protect transaction or other data, being breached or compromised. Data and security breaches can also occur as a result of non-technical issues including intentional or inadvertent breach by employees or persons with whom we have commercial relationships that result in the unauthorized release of personal or confidential information. Any compromise or breach could result in a violation of applicable privacy and other laws, significant financial exposure

and a loss of confidence in our security measures, which could have an adverse effect on our results of operations and our reputation.

13

We may be exposed to risks and costs associated with the loss of customer information that would cause us to incur unexpected expenses and loss of revenues

We collect customer data, including encrypted credit card information, in our stores, at special events and online. For our sales channels to function successfully, we and third parties involved in processing customer transactions for us must be able to transmit confidential information, including credit card information, securely over public networks. We cannot guarantee that any of our security measures or the security measures of third parties with whom we work will effectively prevent others from obtaining unauthorized access to our customers' information. If such a breach were to occur, customers could lose confidence in our ability to secure their information and choose not to purchase from us. Any unauthorized access to customer information could expose us to data loss or manipulation, litigation and legal liability, and could seriously disrupt operations, negatively impact our marketing capabilities, cause us to incur significant expenses to notify customers of the breach and for other remediation activities, and harm our reputation and brand, any of which could adversely affect our financial condition and results of operations.

In addition, state, federal, and foreign governments are increasingly enacting laws and regulations protecting consumers' privacy and personal information against identity theft and unwanted exposure. These laws and regulations likely will increase the costs of doing business. If we fail to implement appropriate security measures or fail to detect and provide applicable notice of unauthorized access (as required by some of these laws and regulations), we could be subject to potential governmental investigations, claims for damages, or other remedies, which could adversely affect our business and operations.

We rely on key personnel, the loss of whom could have a material adverse effect on our business

Our success depends to a significant extent upon our ability to attract and retain qualified key personnel, including senior management. Collective or individual changes in our senior management and other key personnel could have an adverse effect on our ability to determine and execute our strategies, which could adversely affect our business and results of operations. There is a high level of competition for senior management and other key personnel, and we cannot be assured we will be able to attract, retain and develop a sufficient number of qualified senior managers and other key personnel.

A complex regulatory, compliance and legal environment could adversely affect us

We are subject to numerous domestic and foreign laws and regulations affecting our business, including those related to labor, employment, worker health and safety, competition, privacy, consumer protection, import/export and anti-corruption, including the Foreign Corrupt Practices Act. Additional legal and regulatory requirements have increased the complexity of the regulatory environment and the cost of compliance. If these laws change without our knowledge, or are violated by importers, designers, manufacturers, distributors or employees, we could experience delays in shipments or receipt of goods or be subject to fines or other penalties, any of which could adversely affect our business. Also, changes in laws and regulations could make operating our business more expensive or require us to change the way we do business. Although we have put into place policies and procedures aimed at ensuring legal and regulatory compliance, our employees, subcontractors, vendors and suppliers could take actions that violate these requirements, which could have a material adverse effect on our reputation, financial condition and on the market price of our common stock.

Fluctuations in foreign currency exchange rates may adversely impact our profitability

We have foreign currency exchange rate risk with respect to revenues, expenses, assets and liabilities denominated in currencies other than the U.S. dollar. We currently do not utilize hedging instruments to mitigate foreign currency exchange risks. Specifically, fluctuations in the value of the Canadian Dollar, Mexican Peso, Chinese Yuan, Hong

Kong Dollar and Euro against the U.S. Dollar could have a material adverse effect on our results of operations, financial condition and cash flows.

Fluctuations in our tax obligations and effective tax rate could adversely affect us

We are subject to income taxes in many U.S. and certain foreign jurisdictions. We record tax expense based on our estimates of future payments, which include reserves for uncertain tax positions in multiple tax jurisdictions. At any one time, multiple tax years are subject to audit by various taxing authorities. The results of these audits and negotiations with taxing authorities may affect the ultimate settlement of these issues. In addition, the tax laws and regulations in the countries where we operate may change or there may be changes in interpretation and enforcement of existing tax

laws. As a result, we expect that throughout the year there could be ongoing variability in our quarterly tax rates as events occur and exposures are evaluated. In addition, our effective tax rate in a given financial statement period may be materially impacted by changes in the mix and level of earnings by jurisdiction or by changes to existing accounting rules or regulations.

Recently enacted tax reform legislation in the U.S. will materially impact our financial position, results of operations and cash flows

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act had a significant impact on our effective tax rate, cash tax expenses and deferred tax asset and liability balances. The Tax Act makes broad and complex changes to the U.S. tax code that affect us, including, but not limited to, (1) reducing the U.S. federal corporate tax rate from 35% to 21% effective January 1, 2018; (2) imposing a one-time transition tax on a deemed repatriation of all undistributed earnings and profits of certain U.S.-owned foreign corporations ("Transition Tax"); (3) adopting elements of a modified territorial tax system; (4) revising the rules governing foreign tax credits; (5) creating the base erosion anti-abuse tax (BEAT), a new minimum tax; (6) permitting certain capital expenditures to be expensed immediately; and (7) modifying or repealing many deductions and credits. Certain changes became effective immediately, while others become effective for our fiscal year 2018. The impact of many provisions of the Tax Act is subject to interpretation until additional Internal Revenue Service guidance is issued. The ultimate impact of the Tax Act may differ from the Company's estimates due to changes in the interpretations and assumptions made as well as any forthcoming regulatory guidance. The SEC recently issued interpretive guidance under Staff Accounting Bulletin No. 118 ("SAB 118") that allows for a measurement period of up to one year after the enactment date of the Tax Act to finalize the recording of the related tax impacts. We expect that the impact of the Tax Act may be significant for fiscal year 2018 and future periods. Additionally, the Tax Act includes particular changes that may not be positive for the Company, including deductibility of certain corporate expenses and two new international revenue-raising provisions, and contains provisions whose meaning is subject to differing interpretations, and future guidance may differ adversely from our current interpretation.

Impact of various legal proceedings, lawsuits, disputes, and claims could have an adverse impact on our business, financial condition and results of operations

As a multinational company, we are subject to various proceedings, lawsuits, disputes, and claims ("Actions") arising in the ordinary course of our business. Many of these Actions raise complex factual and legal issues and are subject to uncertainties. Actions filed against us from time to time include commercial, intellectual property, customer, employment, and data privacy claims, including class action lawsuits. Actions are in various procedural stages and some are covered in part by insurance. We cannot predict with assurance the outcome of Actions brought against us. Accordingly, developments, settlements, or resolutions may occur and impact income in the quarter of such development, settlement, or resolution. An unfavorable outcome could have an adverse impact on our business, financial condition and results of operations.

Other risk factors

Additionally, other factors could adversely affect our financial performance, including factors such as: our ability to successfully acquire and integrate other businesses; any interruption of our key infrastructure systems, including exceeding capacity in our distribution centers; any disaster or casualty resulting in the interruption of service from our distribution centers or in a large number of our stores; any interruption of our business related to an outbreak of a pandemic disease in a country where we source or market our merchandise; extreme weather conditions or changes in climate conditions or weather patterns; the effects of changes in interest rates; and international and domestic acts of terror.

The impact of any of the previously discussed factors, some of which are beyond our control, may cause our actual results to differ materially from expected results in these statements and other forward-looking statements we may make from time-to-time.

Item 1B. Unresolved Staff Comments.

Not applicable.

15

Item 2. Properties.

We own two buildings in urban Pittsburgh, Pennsylvania which house our corporate headquarters. These buildings total 186,000 square feet and 150,000 square feet, respectively.

In suburban Pittsburgh, Pennsylvania, we own a 45,000 square foot building, which houses our data center and additional office space and lease an additional location of approximately 18,000 square feet, which is used for storage space. This lease expires in 2020.

We rent approximately 182,000 square feet of office space in New York, New York for our designers and sourcing and production teams. The lease for this space expires in 2026.

We lease 9,200 square feet of office space in San Francisco, California that functions as a technology center for our engineers and digital marketing team focused on our omni-channel strategy. The lease for this space expires in 2018.

We own distribution facilities in Ottawa, Kansas and Hazleton, Pennsylvania consisting of approximately 1.2 million and 1.0 million square feet, respectively. These facilities are used to support new and existing growth initiatives, including AEO Direct and Aerie.

We lease a building in Mississauga, Ontario with approximately 294,000 square feet, which houses our Canadian distribution center. The lease expires in 2028.

All of the above-noted properties are shared by all of our operating business segments (which we report in a single reportable segment).

As for our stores, all are leased and generally have initial terms of 10 years. Certain leases also include early termination options, which can be exercised under specific conditions. Most of these leases provide for base rent and require the payment of a percentage of sales as additional contingent rent when sales reach specified levels. Under our store leases, we are typically responsible for tenant occupancy costs, including maintenance and common area charges, real estate taxes and certain other expenses. We have generally been successful in negotiating renewals as leases near expiration.

Item 3. Legal Proceedings.

We are involved, from time to time, in actions associated with or incidental to our business, including, among other things, matters involving credit card fraud, trademark and other intellectual property, licensing, importation of products, taxation, and employee relations. We believe at present that the resolution of currently pending matters will not individually or in the aggregate have a material adverse effect on our financial position or results of operations. However, our assessment of any litigation or other legal claims could potentially change in light of the discovery of facts not presently known or determinations by judges, juries, or other finders of fact which are not in accord with management's evaluation of the possible liability or outcome of such litigation or claims.

Item 4. Mine Safety Disclosures.

Not Applicable.

PART II

Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our common stock is traded on the NYSE under the symbol "AEO". As of March 12, 2018, there were 504 stockholders of record. However, when including associates who own shares through our employee stock purchase plan, and others holding shares in broker accounts under street name, we estimate the stockholder base at approximately 40,000. The following table sets forth the range of high and low closing prices of the common stock as reported on the NYSE during the periods indicated.

For the Quarters Ended	Market Price		Cash Dividends per Common Share
	High	Low	
February 3, 2018	\$19.37	\$12.77	\$ 0.125
October 28, 2017	\$14.46	\$10.62	\$ 0.125
July 29, 2017	\$14.41	\$10.85	\$ 0.125
April 29, 2017	\$15.85	\$13.08	\$ 0.125
January 28, 2017	\$18.91	\$14.45	\$ 0.125
October 29, 2016	\$19.37	\$16.80	\$ 0.125
July 30, 2016	\$17.92	\$13.39	\$ 0.125
April 30, 2016	\$16.90	\$13.12	\$ 0.125

During Fiscal 2017 and Fiscal 2016, we paid quarterly dividends as shown in the table above. The payment of future dividends is at the discretion of our Board of Directors (the "Board") and is based on future earnings, cash flow, financial condition, capital requirements, changes in U.S. taxation and other relevant factors. It is anticipated that any future dividends paid will be declared on a quarterly basis.

Performance Graph

The following Performance Graph and related information shall not be deemed “soliciting material” or to be filed with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933 or Securities Exchange Act of 1934, each as amended, except to the extent that we specifically incorporate it by reference into such filing.

The following graph compares the changes in the cumulative total return to holders of our common stock with that of the S&P Midcap 400 and our peer group as described below. The comparison of the cumulative total returns for each investment assumes that \$100 was invested in our common stock and the respective index on February 2, 2013 and includes reinvestment of all dividends. The plotted points are based on the closing price on the last trading day of the fiscal year indicated.

	2/02/13	2/01/14	1/31/15	1/30/16	1/28/17	2/03/18
American Eagle Outfitters, Inc.	100.00	68.68	74.09	79.63	82.23	102.05
S&P MidCap 400 Index	100.00	120.96	134.13	125.15	163.82	188.07
Peer Group	100.00	112.09	125.85	109.67	95.58	107.79

*We compared our cumulative total return to a custom peer group that aligns with our compensation peer group, as disclosed in our 2017 Proxy Statement. This group consisted of the following companies: Abercrombie & Fitch Co., Ascena Retail Group, Inc., Burberry Group PLC, Chico’s FAS, Inc., Coach, Inc., Express, Inc., Gap, Inc., Guess?, Inc., Hanesbrands Inc., L Brands Inc., Lululemon Athletica, Inc., Michael Kors Holdings LTD, PVH Corp, Ralph Lauren Corp., Tailored Brands Inc., Under Armour Inc, and Urban Outfitters, Inc.

The following table provides information regarding our repurchases of common stock during the three months ended February 3, 2018.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Programs (1) (3)	Maximum Number of Shares that May Yet be Purchased Under the Program (3)
Month #1 (October 29, 2017 through November 25, 2017)	4,318	\$ 13.29	—	19,000,000
Month #2 (November 26, 2017 through December 30, 2017)	7,450	\$ 15.57		19,000,000
Month #3 (December 31, 2017 through February 3, 2018)	2,868	\$ 18.60		19,000,000
Total	14,636	\$ 15.49	—	19,000,000

(1) There were no shares repurchased as part of our publicly announced share repurchase program during the three months ended February 3, 2018 and there were 14,636 shares repurchased for the payment of taxes in connection with the vesting of share-based payments.

(2) Average price paid per share excludes any broker commissions paid.

(3) During Fiscal 2016, our Board authorized 25.0 million shares under a new share repurchase program which expires on January 30, 2021.

Item 6. Selected Consolidated Financial Data.

The following Selected Consolidated Financial Data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” included under Item 7 below and the Consolidated Financial Statements and Notes thereto, included in Item 8 below. Most of the selected Consolidated Financial Statements data presented below is derived from our Consolidated Financial Statements, if applicable, which are filed in response to Item 8 below. The selected Consolidated Statement of Operations data for the years ended January 31, 2015 and February 1, 2014 and the selected Consolidated Balance Sheet data as of January 30, 2016, January 31, 2015 and February 1, 2014 are derived from audited Consolidated Financial Statements not included herein.

(In thousands, except per share amounts, ratios and other non-financial information)	For the Years Ended (1)

Total gross square feet at end of period	6,580,812	6,619,267	6,601,112	6,613,100	6,503,486
Number of employees at end of period	40,700	38,700	37,800	38,000	40,400

(1) Except for the fiscal year ended February 3, 2018, which includes 53 weeks, all fiscal years presented include 52 weeks.

- (2) All amounts presented are from continuing operations for all periods presented. Refer to Note 16 to the accompanying Consolidated Financial Statements for additional information regarding the discontinued operations of 77kids.
- (3) The comparable sales increase for Fiscal 2017 ended February 3, 2018 is compared to the corresponding 53-week period in Fiscal 2016. Additionally, comparable sales for all periods include AEO Direct sales.
- (4) Total net revenue per average square foot is calculated using retail store sales for the year divided by the straight average of the beginning and ending square footage for the year.
- (5) Average return on stockholders' equity is calculated by using the annual reported net income divided by the straight average of the beginning and ending stockholders' equity balances from the consolidated balance sheets.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of financial condition and results of operations are based upon our Consolidated Financial Statements and should be read in conjunction with those statements and notes thereto.

This report contains various "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which represent our expectations or beliefs concerning future events, including the following:

- the planned opening of approximately 15 to 20 American Eagle Outfitters stores and 10 to 15 Aerie stores, and conversion of 20 to 25 Aerie side-by-side format stores in North America during Fiscal 2018;
 - the success of our efforts to expand internationally, engage in future franchise/license agreements, and/or growth through acquisitions or joint ventures;
 - the selection of approximately 60 to 70 American Eagle Outfitters stores in the United States and Canada for remodeling and refurbishing during Fiscal 2018;
 - the potential closure of approximately 10 to 15 American Eagle Outfitters and 5 to 10 Aerie stores, primarily in North America, during Fiscal 2018;
 - the planned opening of approximately 45 to 50 new international third-party operated American Eagle Outfitters stores during Fiscal 2018;
 - the success of our core American Eagle Outfitters and Aerie brands through our omni-channel and licensed outlets within North America and internationally;
 - the success of our business priorities and strategies;
 - the expected payment of a dividend in future periods;
 - the possibility that our credit facilities may not be available for future borrowings;
 - the possibility that rising prices of raw materials, labor, energy and other inputs to our manufacturing process, if unmitigated, will have a significant impact to our profitability; and
 - the possibility that we may be required to take additional store impairment charges related to underperforming stores.
- We caution that these forward-looking statements, and those described elsewhere in this report, involve material risks and uncertainties and are subject to change based on factors beyond our control, as discussed within Part I, Item 1A of this Form 10-K. Accordingly, our future performance and financial results may differ materially from those expressed or implied in any such forward-looking statement.

Critical Accounting Policies

Our Consolidated Financial Statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"), which require us to make estimates and assumptions that may affect the reported financial

condition and results of operations should actual results differ from these estimates. We base our estimates and assumptions on the best available information and believe them to be reasonable for the circumstances. We believe that of our significant accounting policies, the following involve a higher degree of judgment and complexity. Refer to Note 2 to the Consolidated Financial Statements for a complete discussion of our significant accounting policies. Management has reviewed these critical accounting policies and estimates with the Audit Committee of our Board.

21

Revenue Recognition. We record revenue for store sales upon the purchase of merchandise by customers. Our e-commerce operation records revenue upon the estimated customer receipt date of the merchandise. Revenue is not recorded on the purchase of gift cards. A current liability is recorded upon purchase, and revenue is recognized when the gift card is redeemed for merchandise.

We estimate gift card breakage and recognize revenue in proportion to actual gift card redemptions as a component of total net revenue. We determine an estimated gift card breakage rate by continuously evaluating historical redemption data and the time when there is a remote likelihood that a gift card will be redeemed.

Revenue is recorded net of estimated and actual sales returns and deductions for coupon redemptions and other promotions. The estimated sales return reserve is based on projected merchandise returns determined through the use of historical average return percentages. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our sales return reserve. However, if the actual rate of sales returns increases significantly, our operating results could be adversely affected.

We recognize royalty revenue generated from our license or franchise agreements based upon a percentage of merchandise sales by the licensee/franchisee. This revenue is recorded as a component of total net revenue when earned.

Merchandise Inventory. Merchandise inventory is valued at the lower of average cost or market, utilizing the retail method. Average cost includes merchandise design and sourcing costs and related expenses. We record merchandise receipts at the time which both title and risk of loss for the merchandise transfers to us.

We review our inventory in order to identify slow-moving merchandise and generally use markdowns to clear merchandise. Additionally, we estimate a markdown reserve for future planned markdowns related to current inventory. If inventory exceeds customer demand for reasons of style, seasonal adaptation, changes in customer preference, lack of consumer acceptance of fashion items, competition, or if it is determined that the inventory in stock will not sell at its currently ticketed price, additional markdowns may be necessary. These markdowns may have a material adverse impact on earnings, depending on the extent and amount of inventory affected.

We estimate an inventory shrinkage reserve for anticipated losses for the period between the last physical count and the balance sheet date. The estimate for the shrinkage reserve is calculated based on historical percentages and can be affected by changes in merchandise mix and changes in actual shrinkage trends. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our inventory shrinkage reserve. However, if actual physical inventory losses differ significantly from our estimate, our operating results could be adversely affected.

Asset Impairment. In accordance with Financial Accounting Standards Board (“FASB”) Accounting Standard Codification (“ASC”) 360, Property, Plant, and Equipment (“ASC 360”), we evaluate long-lived assets for impairment at the individual store level, which is the lowest level at which individual cash flows can be identified. Impairment losses are recorded on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amounts of the assets. When events such as these occur, the impaired assets are adjusted to their estimated fair value and an impairment loss is recorded separately as a component of operating income.

Our impairment loss calculations require management to make assumptions and to apply judgment to estimate future cash flows and asset fair values, including forecasting useful lives of the assets and selecting the discount rate that reflects the risk inherent in future cash flows. We do not believe there is a reasonable likelihood that there will be a material change in the estimates or assumptions we use to calculate long-lived asset impairment losses. However, if

actual results are not consistent with our estimates and assumptions, our operating results could be adversely affected.

Share-Based Payments. We account for share-based payments in accordance with the provisions of ASC 718, Compensation – Stock Compensation (“ASC 718”). To determine the fair value of our stock option awards, we use the Black-Scholes option pricing model, which requires management to apply judgment and make assumptions to determine the fair value of our awards. These assumptions include estimating the length of time employees will retain their vested stock options before exercising them (the “expected term”) and the estimated volatility of the price of our common stock over the expected term.

We calculate a weighted-average expected term based on historical experience. Expected stock price volatility is based on a combination of historical volatility of our common stock and implied volatility. We choose to use a combination of historical and implied volatility as we believe that this combination is more representative of future stock price trends than historical volatility alone. Changes in these assumptions can materially affect the estimate of the fair value of our share-based payments and the related amount recognized in our Consolidated Financial Statements.

Income Taxes. We calculate income taxes in accordance with ASC 740, Income Taxes (“ASC 740”), which requires the use of the asset and liability method. Under this method, deferred tax assets and liabilities are recognized based on the difference between the Consolidated Financial Statement carrying amounts of existing assets and liabilities and their respective tax bases as computed pursuant to ASC 740. Deferred tax assets and liabilities are measured using the tax rates, based on certain judgments regarding enacted tax laws and published guidance, in effect in the years when those temporary differences are expected to reverse. A valuation allowance is established against the deferred tax assets when it is more likely than not that some portion or all of the deferred taxes may not be realized. Changes in our level and composition of earnings, tax laws or the deferred tax valuation allowance, as well as the results of tax audits, may materially impact the effective income tax rate.

We evaluate our income tax positions in accordance with ASC 740 which prescribes a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on a tax return, including a decision whether to file or not to file in a particular jurisdiction. Under ASC 740, a tax benefit from an uncertain position may be recognized only if it is “more likely than not” that the position is sustainable based on its technical merits.

The calculation of the deferred tax assets and liabilities, as well as the decision to recognize a tax benefit from an uncertain position and to establish a valuation allowance require management to make estimates and assumptions. We believe that our assumptions and estimates are reasonable, although actual results may have a positive or negative material impact on the balances of deferred tax assets and liabilities, valuation allowances or net income.

Key Performance Indicators

Our management evaluates the following items, which are considered key performance indicators, in assessing our performance:

Comparable sales — Comparable sales provide a measure of sales growth for stores and channels open at least one year over the comparable prior year period. In fiscal years following those with 53 weeks, the prior year period is shifted by one week to compare similar calendar weeks. A store is included in comparable sales in the thirteenth month of operation. However, stores that have a gross square footage increase of 25% or greater due to a remodel are removed from the comparable sales base, but are included in total sales. These stores are returned to the comparable sales base in the thirteenth month following the remodel. Sales from company-owned stores, as well as sales from AEO Direct, are included in total comparable sales. Sales from licensed stores are not included in comparable sales. Individual American Eagle Outfitters and Aerie brand comparable sales disclosures represent sales from stores and AEO Direct.

AEO Direct sales are included in the individual American Eagle Outfitters and Aerie brand comparable sales metric for the following reasons:

Our approach to customer engagement is “omni-channel”, which provides a seamless customer experience through both traditional and non-traditional channels, including four wall store locations, web, mobile/tablet devices, social networks, email, in-store displays and kiosks. Additionally, we fulfill online orders at stores through our buy online, ship from store capability, maximizing store inventory exposure to digital traffic and accept digital returns in

stores. We also offer a reserve online, pick up in store service to our customers and give them the ability to look up in store inventory from all digital channels; and

Shopping behavior has continued to evolve across multiple channels that work in tandem to meet customer needs.

Management believes that presenting a brand level performance metric that includes all channels (i.e., stores and AEO Direct) to be the most appropriate given customer behavior.

Our management considers comparable sales to be an important indicator of our current performance. Comparable sales results are important to achieve leveraging of our costs, including store payroll, store supplies, rent, etc.

Comparable sales also have a direct impact on our total net revenue, cash and working capital.

Gross profit — Gross profit measures whether we are optimizing the profitability of our sales. Gross profit is the difference between total net revenue and cost of sales. Cost of sales consists of: merchandise costs, including design, sourcing, importing and inbound freight costs, as well as markdowns, shrinkage and certain promotional costs (collectively “merchandise costs”) and buying, occupancy and warehousing costs. Design costs consist of: compensation, rent, depreciation, travel, supplies and samples.

Buying, occupancy and warehousing costs consist of: compensation, employee benefit expenses and travel for our buyers and certain senior merchandising executives; rent and utilities related to our stores, corporate headquarters, distribution centers and other office space; freight from our distribution centers to the stores; compensation and supplies for our distribution centers, including purchasing, receiving and inspection costs; and shipping and handling costs related to our e-commerce operation.

The inability to obtain acceptable levels of sales, initial markups or any significant increase in our use of markdowns could have an adverse effect on our gross profit and results of operations.

Operating income — Our management views operating income as a key indicator of our performance. The key drivers of operating income are comparable sales, gross profit, our ability to control selling, general and administrative expenses, and our level of capital expenditures. Management also uses earnings before interest and taxes as an indicator of operating results.

Return on invested capital — Our management uses return on invested capital as a key measure to assess our efficiency at allocating capital to profitable investments. This measure is critical in determining which strategic alternatives to pursue.

Omni-channel sales performance — Our management utilizes the following quality of sales metrics in evaluating our omni-channel sales performance: Comparable sales, average unit retail price (“AUR”), units per transaction (“UPT”), average transaction value, transactions, customer traffic and conversion rates.

Inventory turnover — Our management evaluates inventory turnover as a measure of how productively inventory is bought and sold. Inventory turnover is important as it can signal slow-moving inventory. This can be critical in determining the need to take markdowns on merchandise.

Cash flow and liquidity — Our management evaluates cash flow from operations, investing and financing in determining the sufficiency of our cash position. Free cash flow has historically been sufficient to cover our uses of cash. Our management believes that free cash flow will be sufficient to fund anticipated capital expenditures, dividends and working capital requirements.

Results of Operations

Overview

Fiscal 2017 represented the third straight year of positive comparable sales increase. Additionally, all fiscal quarters in 2017 had positive comparable sales, including an 8% growth in the fourth quarter which was our best since 2015. Total net revenue for the year increased 5% to \$3.796 billion, compared to \$3.610 billion last year. Total comparable sales increased 4%. By brand, American Eagle brand comparable sales rose 2% and comparable sales for the Aerie brand increased 27%. Gross profit was up slightly to \$1.371 billion and deleveraged 180 basis points to 36.1% as a rate to revenue. The reduction in margin rate was primarily due to higher promotional activity and increased shipping costs associated with a strong digital business.

Net income was \$1.13 per diluted share this year, compared to \$1.16 per diluted share last year. On an adjusted basis, net income per diluted share this year declined 7% to \$1.16, compared to adjusted net income per diluted share of \$1.25 last year. Adjusted net income per diluted share this year excludes a \$0.08 per diluted share benefit from the impact of U.S. tax legislation and related actions and a (\$0.11) per diluted share impact from impairment and restructuring charges. Adjusted net income per diluted share last year excludes a (\$0.09) per diluted share impact from impairment and restructuring charges.

The preceding paragraph contains non-GAAP financial measures (“non-GAAP” or “adjusted”), comprised of earnings per share information excluding non-GAAP items. This financial measure is not based on any standardized methodology prescribed by U.S. generally accepted accounting principles (“GAAP”) and is not necessarily comparable to similar measures presented by other companies. We believe that this non-GAAP information is useful as an additional means for investors to evaluate our operating performance, when reviewed in conjunction with our GAAP financial statements. These amounts are not determined in accordance with GAAP and, therefore, should not be used exclusively in evaluating our business and operations. The table below reconciles the GAAP financial measure to the non-GAAP financial measure discussed above.

	Earnings per Share For the Fiscal
	Year Ended February 3,
	2018
Net income per diluted share - GAAP Basis	\$ 1.13
Add: Asset impairment & restructuring (1)	0.08
Add: Joint Business Venture Charges (2)	0.03
Less: U.S. Tax Reform Impact (3)	(0.08)
Net income per diluted share - Non-GAAP Basis	\$ 1.16

(1) \$22.3 million pre-tax restructuring charges, consisting of:

- Inventory charges related to the restructuring of the United Kingdom, Hong Kong,

and China (\$1.7M), recorded as a reduction of Gross Profit

- Lease buyouts, store closure charges and severance and related charges (\$19.9M), which

includes charges for the United Kingdom, Hong Kong, and China and corporate overhead

reductions, recorded within Restructuring Charges.

(2) \$8.0 million of net pre-tax charges related to the exit of a joint business venture, recorded

within Other (expense) income, net.

(3) \$14.9 million of after-tax benefit resulting from the estimated impact of U.S. tax legislation

enacted on December 22, 2017, referred to as the Tax Cuts and Jobs Act and related

actions, specifically:

- The benefit of a lower blended U.S. corporate tax rate in fiscal 2017
- The net benefit from the re-measurement of deferred tax balances and the one-time

transition tax on un-repatriated earnings of foreign subsidiaries

- The acceleration of certain deductions into fiscal 2017

	Earnings per Share For the Fiscal
	Year Ended January 28,
	2017
Net income per diluted share - GAAP Basis	\$ 1.16
Add: Asset impairment & restructuring (1)	0.07
Add: Tax (2)	0.02
Net income per diluted share - Non-GAAP Basis	\$ 1.25

(1) \$21.2 million pre-tax asset impairments and restructuring charges relating to our wholly-owned businesses in the United Kingdom and Asia.

(2) GAAP tax rate included impact of valuation allowances on asset impairment and restructuring charges. Excluding the impact of those items resulted in a 35.6% tax rate for the year.

We ended the year with \$413.6 million in cash, a 9% increase from \$378.6 million in cash last year. During the year, we generated \$394.4 million of cash from operations. The cash from operations was offset by \$169.5 million of capital expenditures, the repurchase of 6.0 million shares for \$87.7 million and dividend payments of \$88.5 million. Merchandise inventory at the end of Fiscal 2017 was \$398.2 million, an increase of 11% to last year, reflecting investments in bottoms, women's tops and Aerie apparel to support strong sales trends. We ended the year with no long-term debt.

The following table shows, for the periods indicated, the percentage relationship to total net revenue of the listed items included in our Consolidated Statements of Operations.

	For the Fiscal Years Ended					
	February 2018		January 28, 2017		January 30, 2016	
Total net revenue	100.0	%	100.0	%	100.0	%
Cost of sales, including certain buying, occupancy and warehousing expenses	63.9		62.1		63.0	
Gross profit	36.1		37.9		37.0	
Selling, general and administrative expenses	23.2		23.8		23.7	
Impairment and restructuring charges	0.5		0.6		—	
Depreciation and amortization expense	4.4		4.3		4.2	
Operating income	8.0		9.2		9.1	
Other (expense) income, net	(0.4)	0.1		0.1	
Income before income taxes	7.6		9.3		9.2	
Provision for income taxes	2.2		3.4		3.1	
Income from continuing operations	5.4		5.9		6.1	
Gain from discontinued operations, net of tax	—		—		0.1	
Net income	5.4	%	5.9	%	6.2	%

Comparison of Fiscal 2017 to Fiscal 2016

Total Net Revenue

Total net revenue this year increased 5% to \$3.796 billion compared to \$3.610 billion. For Fiscal 2017, total comparable sales increased 4% compared to a 3% increase for Fiscal 2016. By brand, including the respective AEO Direct revenue, American Eagle brand comparable sales were up 2% or \$49.8 million, and Aerie brand increased 27%, or \$83.4 million. AE brand men's and women's comparable sales increased in the low-single digits.

For the year, total transactions increased in the mid-single digits. UPT and average transaction value decreased in the low-single digits while AUR increased in the low-single digits.

Gross Profit

Gross profit increased slightly at \$1.371 billion from \$1.367 billion last year. On a consolidated basis, gross profit as a percent to total net revenue decreased by 180 basis points to 36.1% from 37.9% last year. Gross profit this year includes \$1.7 million, or 10 basis points, of inventory charges related to restructuring activities in our United

Kingdom and Asia markets. The decline in gross margin reflected higher promotional activity and increased shipping costs associated with a strong digital business.

Buying, occupancy and warehousing (“BOW”) costs increased 6% and deleveraged 20 basis points to 19.2% from 19.0% last year. The increase was a result of higher delivery costs from increased AEO Direct penetration, partially offset by decreased shipments per order.

There was \$10.3 million of share-based payment expense, consisting of both time and performance-based awards, included in gross profit this year. This is compared to \$15.1 million of share-based payment expense included in gross profit last year.

Our gross profit may not be comparable to that of other retailers, as some retailers include all costs related to their distribution network, as well as design costs in cost of sales. Other retailers may exclude a portion of these costs from cost of sales, including them in a line item such as selling, general and administrative expenses. Refer to Note 2 to the Consolidated Financial Statements for a description of our accounting policy regarding cost of sales, including certain buying, occupancy and warehousing expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expense increased 3% to \$879.7 million, compared to \$857.6 million last year. As a rate to total net revenue, selling, general and administrative expenses leveraged 60 basis points to 23.2%, compared to 23.8% last year. Increased expenses this year were driven mainly by increased salaries and advertising expense.

There was \$6.6 million of share-based payment expense, consisting of time and performance-based awards, included in selling, general and administrative expenses this year compared to \$14.0 million last year.

Impairment and Restructuring Charges

In Fiscal 2017, restructuring charges were \$20.6 million, or 0.5% as a rate to total net revenue. These charges are the result of home office restructuring and the previously announced initiative to explore the closure or conversion of Company-owned and operated stores in Hong Kong, China, and the United Kingdom to licensed partnerships. The closure of the United Kingdom was completed in Fiscal 2017. We may incur additional charges for international restructuring in Fiscal 2018.

Also during Fiscal 2017, and recorded separately from Impairment and Restructuring Charges on the Consolidated Statements of Operations, is \$1.7 million, or 0.1% as a rate to total revenue, of inventory charges related to restructuring activities recorded as a reduction in Gross Profit in our United Kingdom and Asia markets. Additionally, \$8.0 million, or 0.2% as a rate to total revenue, of net costs related to the exit of a joint business venture are recorded within Other (Expense) Income, Net.

In Fiscal 2016, impairment and restructuring charges were \$21.2 million. This amount consists of impairment of all Company-owned retail stores in the United Kingdom, Hong Kong and China. Additionally, charges were incurred for goodwill and non-store corporate assets that support the international retail stores and e-commerce operations. In Fiscal 2016, the company undertook an initiative to convert these markets to license partnerships. Assets for these markets currently have no ability to generate sufficient cash flow to cover their carrying value.

Depreciation and Amortization Expense

Depreciation and amortization expense increased 7% to \$167.4 million from \$156.7 million last year, driven by omni-channel and information technology investments and new and remodeled mainline AE Brand stores. As a rate to total net revenue, depreciation and amortization increased 10 basis points to 4.4% from 4.3% last year.

Other (Expense) Income, Net

Other expense was \$(15.6) million this year, compared to other income of \$3.8 million last year. Included in other expense this year is \$8.0 million of costs related to the planned exit of a joint business venture, along with a \$15.2 million net charge associated with a reserve against a receivable, partially offset by foreign currency fluctuations.

Provision for Income Taxes

The effective income tax rate decreased to 28.9% this year from 36.6% last year. This year included a 520 basis point net benefit to the effective tax rate primarily from the estimated impact of U.S. tax legislation enacted on December 22, 2017, referred to herein as the Tax Act, and excess tax benefits from share-based payments in accordance with ASU 2016-09. Last year included a 100 basis point charge to the effective tax rate primarily from valuation allowances on the \$21.2 million of impairment and restructuring charges. The remainder of the change in the effective tax rate was primarily related to the overall mix of earnings in jurisdictions with different tax rates. Under the Tax Act, the transition to a new territorial tax system resulted in a deemed repatriation tax of \$3.5 million on undistributed earnings of foreign subsidiaries ("Transition Tax"), offset by a \$3.5 million benefit of a lower blended U.S. corporate tax rate. In addition, the reduction of the U.S. corporate tax rate from 35% to 21% effective January 1, 2018, resulted in an adjustment to the Company's U.S. deferred tax assets and liabilities to the lower base rate of 21%. The impact of the re-measurement of deferred tax assets and liabilities resulted in a non-cash tax benefit of \$12.1 million. The deemed repatriation tax, re-measurement of deferred tax assets and liabilities, and other items are recorded as provisional amounts in accordance with SAB 118.

Refer to Note 14 to the Consolidated Financial Statements for additional information regarding our accounting for income taxes.

Net Income

Net income decreased to \$204.2 million this year from \$212.4 million last year. As a percent to total net revenue, net income was 5.4% and 5.9% for Fiscal 2017 and Fiscal 2016, respectively. Net income per diluted share was \$1.13 per diluted share, and included \$22.3 million, (\$0.08 per diluted share) of pre-tax restructuring charges, \$8.0 million (\$0.03 per diluted share) of net pre-tax charges related to the exit of a joint business venture, partially offset by \$14.9 million (\$0.08 per diluted share) of after-tax benefit from the Tax Act and related actions.

Net income last year was \$212.4 million, or \$1.16 per diluted share. This includes a (\$0.09) per diluted share impact from pre-tax impairment and restructuring charges. The change in net income was attributable to the factors noted above.

Comparison of Fiscal 2016 to Fiscal 2015

Total Net Revenue

Total net revenue for Fiscal 2016 increased 2% to \$3.61 billion compared to \$3.52 billion for Fiscal 2015. Total comparable sales by brand, including the respective AEO Direct revenue, American Eagle brand comparable sales increased 1%, or \$28.5 million, and Aerie brand increased 23%, or \$54.8 million. AE brand men's comparable sales decreased in the mid- single digits and AE brand women's comparable sales increased in the mid-single digits.

For Fiscal 2016, total transactions decreased in the low-single digits. UPT increased slightly and AUR increased in the mid-single digits, which drove the overall comparable sales increase.

Gross Profit

Gross profit increased 5% to \$1.367 billion in Fiscal 2016 from \$1.303 billion in Fiscal 2015. On a consolidated basis, gross profit as a percent to total net revenue increased by 90 basis points to 37.9% from 37.0% in Fiscal 2015. The improvement in gross margin reflected improved merchandise margins from higher product markup levels and flat cost of markdowns as compared to Fiscal 2015.

BOW costs were flat as a rate to revenue in Fiscal 2016 compared to Fiscal 2015, as higher delivery costs from increased AEO Direct penetration were offset by occupancy cost leverage from positive comparable sales.

There was \$15.1 million of share-based payment expense, consisting of both time and performance-based awards, included in gross profit in Fiscal 2016. This is compared to \$21.0 million of share-based payment expense included in gross profit in Fiscal 2015.

28

Our gross profit may not be comparable to that of other retailers, as some retailers include all costs related to their distribution network, as well as design costs in cost of sales. Other retailers may exclude a portion of these costs from cost of sales, including them in a line item such as selling, general and administrative expenses. Refer to Note 2 to the Consolidated Financial Statements for a description of our accounting policy regarding cost of sales, including certain buying, occupancy and warehousing expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expense increased 3% to \$857.6 million in Fiscal 2016, compared to \$834.7 million in Fiscal 2015. As a rate to total net revenue, selling, general, and administrative expenses deleveraged 10 basis points to 23.8%, compared to 23.7% in Fiscal 2015, due to higher advertising expense from brand campaigns, offset by lower incentive compensation. Fiscal 2015 included a \$9.4 million gain on the sales of the previously closed Warrendale distribution center, which accounted for 30 basis points of deleverage year-over-year.

There was \$14.0 million of share-based payment expense, consisting of time and performance-based awards, included in selling, general and administrative expenses in Fiscal 2016 compared to \$14.0 million in Fiscal 2015.

Impairment and Restructuring Charges

In Fiscal 2016, impairment and restructuring charges were \$21.2 million, or 0.6% as a rate to total net revenue. This amount consisted of \$7.2 million for the impairment of owned retail stores in the United Kingdom, Hong Kong, and China, as well as \$11.5 million of impairment and restructuring charges related to non-store corporate assets that support the international retail stores and e-commerce operations and \$2.5 million of goodwill impairment for the China and Hong Kong retail operations. These charges were the result of business performance and exploring an initiative to convert these markets to licensed partnerships. There were no restructuring charges in Fiscal 2015.

Depreciation and Amortization Expense

Depreciation and amortization expense increased 6% to \$156.7 million in Fiscal 2016 from \$148.2 million in Fiscal 2015, driven by omni-channel and IT investments, and new and remodeled mainline AE brand stores.

Other Income, Net

Other income was \$3.8 million in Fiscal 2016, compared to \$2.0 million in Fiscal 2015, primarily as a result of foreign currency fluctuations.

Provision for Income Taxes

The effective income tax rate from continuing operations increased to 36.6% in Fiscal 2016 from 33.7% in Fiscal 2015. The lower effective income tax rate in Fiscal 2015 was primarily due to an increase in world-wide earnings, income tax settlements, higher federal tax credits, and a decrease to the valuation allowance on foreign deferred tax assets. The impact of income tax settlements and a decrease to the valuation on foreign deferred tax assets in Fiscal 2015 was a 260 basis point decrease in the effective income tax rate.

Refer to Note 14 to the Consolidated Financial Statements for additional information regarding our accounting for income taxes.

Income from Continuing Operations

Income from continuing operations for Fiscal 2016 was \$212.4 million, or \$1.16 per diluted share, and included \$21.2 million of pre-tax impairment and restructuring charges, resulting in a (\$0.09) per diluted share impact. Income from continuing operations in Fiscal 2015 was \$213.3 million, or \$1.09 per diluted share. This includes a \$0.04 per diluted share gain from the sale of a distribution center and a \$0.04 per diluted share gain from income tax settlements, higher federal tax credits and tax strategies.

Discontinued Operations

In 2012, we exited the 77kids business and sold the stores and related e-commerce operations to a third-party purchaser. In Fiscal 2014, we became primarily liable for 21 store leases as the third-party purchaser did not fulfill its obligations. We incurred \$13.7 million in pre-tax expense to terminate store leases. During Fiscal 2015, we recorded a \$7.8 million pre-tax gain (\$4.8 million net of tax) as a result of favorably settling lease termination obligations.

Refer to Note 16 to the Consolidated Financial Statements for additional information regarding the discontinued operations of 77kids.

Net Income

Net income decreased to \$212.4 million in Fiscal 2016 from \$218.1 million in Fiscal 2015. As a percent to total net revenue, net income was 5.9% and 6.2% for Fiscal 2016 and Fiscal 2015, respectively. Net income per diluted share was \$1.16, compared to \$1.11 in Fiscal 2015. The change in net income was attributable to the factors noted above.

Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. Fair value is defined under ASC 820 as the exit price associated with the sale of an asset or transfer of a liability in an orderly transaction between market participants at the measurement date:

Financial Instruments

Valuation techniques used to measure fair value under ASC 820 must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes this three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1 — Quoted prices in active markets.
- Level 2 — Inputs other than Level 1 that are observable, either directly or indirectly.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

As of February 3, 2018 and January 28, 2017, we held certain cash equivalents that are required to be measured at fair value on a recurring basis.

In accordance with ASC 820, the following table represents the fair value hierarchy for our financial assets (cash equivalents) measured at fair value on a recurring basis as of February 3, 2018.

(In thousands)	Fair Value Measurements at February 3, 2018			
	Carrying Amount	Quoted Market Prices in Active Markets for Identical	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Assets

(Level 1)

Cash and cash equivalents						
Cash	\$ 184,107	\$	184,107			
Interest bearing deposits	174,577		174,577	—		—
Commercial paper	54,929		54,929	—		—
Total cash and cash equivalents	\$ 413,613		413,613	—		—
Percent to total	100.0	%	100.0	%	—	—

In the event we hold Level 3 investments, a discounted cash flow model is used to value those investments. There were no Level 3 investments at February 3, 2018.

Liquidity and Capital Resources

Our uses of cash are generally for working capital, the construction of new stores and remodeling of existing stores, information technology upgrades and investments, digital investments, distribution center improvements and expansion and the return of value to shareholders through the repurchase of common stock and the payment of dividends. Historically, these uses of cash have been funded with cash flow from operations and existing cash on hand. Also, we maintain a five-year asset-based revolving credit facility that allows us to borrow up to \$400 million, which will expire in December of 2019. Additionally, our uses of cash include the development of the Aerie brand, investments in technology and omni-channel capabilities, and our international expansion efforts. We expect to be able to fund our future cash requirements in North America through current cash holdings as well as cash generated from operations.

Our growth strategy includes fortifying our brands and further international expansion or acquisitions. We periodically consider and evaluate these options to support future growth. In the event we do pursue such options, we could require additional equity or debt financing. There can be no assurance that we would be successful in closing any potential transaction, or that any endeavor we undertake would increase our profitability.

The following sets forth certain measures of our liquidity:

	February 3, 2018	January 28, 2017
Working Capital (in 000's)	\$483,309	\$407,446
Current Ratio	2.00	1.83

The \$75.9 million increase in our working capital and corresponding increase in the current ratio as of February 3, 2018 compared to January 28, 2017, is driven by our cash flow from operations of \$394.4 million, partially offset by our capital expenditures of \$169.5 million and dividends of \$88.5 million. Operating cash flow from continuing operations and capital expenditures were \$365.6 million and \$161.5 million, respectively, last year. In Fiscal 2017, we repurchased 6.0 million shares for \$87.7 million under publicly announced programs. There were no shares repurchased under publically announced programs in Fiscal 2016.

Cash Flows from Operating Activities of Continuing Operations

Net cash provided by operating activities totaled \$394.4 million during Fiscal 2017, compared to \$365.6 million during Fiscal 2016 and \$341.9 million during Fiscal 2015. Our major source of cash from operations was merchandise sales. Our primary outflows of cash from operations were for the payment of operational costs.

Cash Flows from Investing Activities of Continuing Operations

Investing activities for Fiscal 2017 included \$169.5 million in capital expenditures for property and equipment. Investing activities for Fiscal 2016 included \$161.5 million in capital expenditures for property and equipment. Investing activities for Fiscal 2015 included \$153.3 million in capital expenditures, cash paid for our acquisition of Tailgate Clothing Company of \$10.4 million, and the purchase of intangible assets of \$2.4 million, partially offset by \$12.6 million of proceeds from the sale of the Warrendale Distribution Center. For further information on capital expenditures, refer to the Capital Expenditures for Property and Equipment caption below.

Cash Flows from Financing Activities of Continuing Operations

During Fiscal 2017, cash used for financing activities resulted primarily from \$88.5 million for the payment of dividends, \$87.7 million of purchases of common stock under publically announced programs, and \$12.5 million for the repurchase of common stock from employees for the payment of taxes in connection with the vesting of share-based payments. During Fiscal 2016, cash used for financing activities resulted primarily from \$90.7 million for the payment of dividends and \$7.0 million for the repurchase of common stock from employees for the payment of taxes in connection with the vesting of share-based payments. During Fiscal 2015, cash used for financing activities resulted primarily from \$227.1 million for the repurchase of shares as part of our publicly announced repurchase program, \$97.2 million for the payment of dividends and \$5.2 million for the repurchase of common stock from employees for the payment of taxes in connection with the vesting of share-based payments.

Cash returned to shareholders through dividends and share repurchases was \$176.2 million, \$90.7 million and \$324.3 million in Fiscal 2017, Fiscal 2016 and Fiscal 2015, respectively.

ASC 718 requires that cash flows resulting from the benefits of tax deductions in excess of recognized compensation cost for share-based payments be classified as financing cash flows. Accordingly, for Fiscal 2016 and Fiscal 2015, the excess tax benefits from share-based payments of \$0.8 million and \$0.7 million, respectively, are classified as financing cash flows. Accounting Standards Update (“ASU”) No. 2016-09, Compensation – Stock Compensation (Topic 718) (“ASU 2016-09”) clarified the Statement of Cash Flow presentation for excess tax benefits from share-based payments. For Fiscal 2017, no excess tax benefits were required to be classified as financing cash flows under ASU 2016-09.

Capital Expenditures for Property and Equipment

Fiscal 2017 capital expenditures were \$169.5 million, compared to \$161.5 million in Fiscal 2016. Fiscal 2017 expenditures included \$88.5 million related to investments in our AEO stores, including 31 new AEO stores, 48 remodeled and refurbished stores, and fixtures and visual investments. Additionally, we continued to support our infrastructure growth by investing in information technology (\$34.1 million), the improvement of our distribution centers (\$10.0 million) and investments in e-commerce (\$31.8 million) and other home office projects (\$5.1 million).

For Fiscal 2018, we expect capital expenditures to be in the range of \$180 million to \$190 million related to the continued support of our expansion efforts, stores, information technology upgrades to support growth and investments in e-commerce.

Credit Facilities

In 2014, we entered into a Credit Agreement (“Credit Agreement”) for a five-year, syndicated, asset-based revolving credit facilities (the “Credit Facilities”). The Credit Agreement provides senior secured revolving credit for loans and letters of credit up to \$400 million, subject to customary borrowing base limitations. The Credit Facilities provide increased financial flexibility and take advantage of a favorable credit environment.

All obligations under the Credit Facilities are unconditionally guaranteed by certain subsidiaries. The obligations under the Credit Agreement are secured by a first-priority security interest in certain working capital assets of the borrowers and guarantors, consisting primarily of cash, receivables, inventory and certain other assets and have been further secured by first-priority mortgages on certain real property.

As of February 3, 2018, we were in compliance with the terms of the Credit Agreement and had \$8.1 million outstanding in stand-by letters of credit. No loans were outstanding under the Credit Agreement as of February 3, 2018.

Additionally, we have a borrowing agreement with one financial institution under which we may borrow an aggregate of \$5 million USD for the purposes of trade letter of credit issuances. The availability of any future borrowings under the trade letter of credit facilities is subject to acceptance by the respective financial institutions.

As of February 3, 2018, we had no outstanding trade letters of credit.

Stock Repurchases

During Fiscal 2017, as part of our publicly announced share repurchase program, we repurchased 6.0 million shares for approximately \$87.7 million, at a weighted average price of \$14.59 per share. During Fiscal 2016 there were no

shares repurchased as part of our publicly announced program. During Fiscal 2015, we repurchased 15.6 million shares for approximately \$227.1 million as a part of our publicly announced repurchase programs.

In Fiscal 2016, our Board authorized 25.0 million shares under a new share repurchase program which expires on January 30, 2021. As of February 3, 2018, 19.0 million shares remain authorized under this share repurchase program.

During Fiscal 2017, Fiscal 2016 and Fiscal 2015, we repurchased approximately 0.9 million, 0.5 million and 0.3 million shares, respectively, from certain employees at market prices totaling \$12.5 million, \$7.0 million and \$5.2 million, respectively. These shares were repurchased for the payment of taxes in connection with the vesting of share-based payments, as permitted under our equity incentive plans.

The aforementioned share repurchases have been recorded as treasury stock.

Dividends

A \$0.125 per share dividend was paid for each quarter of Fiscal 2017, resulting in a dividend yield of 3.5% for the trailing twelve months ended February 3, 2018. During Fiscal 2016, a \$0.125 per share dividend was paid for each quarter, resulting in a dividend yield of 3.1% for the trailing twelve months ended January 28, 2017. Subsequent to the fourth quarter of Fiscal 2017, our Board raised our quarterly cash dividend to \$0.1375 per share, a 10% increase, payable on April 27, 2018 to stockholders of record at the close of business on April 13, 2018. The payment of future dividends is at the discretion of our Board and is based on future earnings, cash flow, financial condition, capital requirements, changes in U.S. taxation and other relevant factors. It is anticipated that any future dividends paid will be declared on a quarterly basis.

Obligations and Commitments

Disclosure about Contractual Obligations

The following table summarizes our significant contractual obligations as of February 3, 2018:

(In thousands)	Payments Due by Period				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Operating leases (1)	\$1,574,720	\$286,300	\$481,207	\$371,598	\$435,616
Unrecognized tax benefits (2)	8,309	4,238	—	—	4,071
Purchase obligations (3)	957,421	915,566	41,850	5	—
Total contractual obligations	\$2,540,450	\$1,206,104	\$523,057	\$371,603	\$439,687

- (1) Operating lease obligations consist primarily of future minimum lease commitments related to store operating leases (Refer to Note 10 to the Consolidated Financial Statements). Operating lease obligations do not include common area maintenance, insurance or tax payments for which we are also obligated.
- (2) The amount of unrecognized tax benefits as of February 3, 2018 was \$8.3 million, including approximately \$1.0 million of accrued interest and penalties. Unrecognized tax benefits are positions taken or expected to be taken on an income tax return that may result in additional payments to tax authorities. We anticipate \$4.2 million of unrecognized tax benefits will be realized within one year. The remaining balance of unrecognized tax benefits of \$4.1 million is included in the “More than 5 Years” column as we are not able to reasonably estimate the timing of the potential future payouts.
- (3) Purchase obligations primarily include binding commitments to purchase merchandise inventory, as well as other legally binding commitments, made in the normal course of business that are enforceable and specify all significant terms.

Disclosure about Commercial Commitments

The following table summarizes our significant commercial commitments as of February 3, 2018:

	Amount of Commitment Expiration Per Period				
	Total Amount Committed	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
(In thousands)					
Standby letters of credit (1)	8,142	8,142	—	—	—
Total commercial commitments	\$8,142	\$8,142	—	—	—

(1) Standby letters of credit represent commitments, guaranteed by a bank, to pay vendors to the extent previously agreed criteria are not met.

Off-Balance Sheet Arrangements

We are not a party to any off-balance sheet arrangements.

Recent Accounting Pronouncements

Recent accounting pronouncements are disclosed in Note 2 of the Consolidated Financial Statements.

Impact of Inflation

Historically, fluctuations in the price of raw materials used in the manufacture of merchandise we purchase from suppliers have impacted our cost of sales. Future changes in these costs, in addition to increases in the price of labor, energy and other inputs to the manufacture of our merchandise, could negatively impact our business and the industry in the future.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

We have market risk exposure related to interest rates and foreign currency exchange rates. Market risk is measured as the potential negative impact on earnings, cash flows or fair values resulting from a hypothetical change in interest rates or foreign currency exchange rates over the next year.

We have estimated our market risk exposure using sensitivity analysis. To test the sensitivity of our market risk exposure, we have estimated the changes in fair value of market risk sensitive instruments assuming a hypothetical 10 percent adverse change in market prices or rates. The results of the sensitivity analyses are summarized below.

Interest Rate Risk

Our earnings are not materially affected by changes in market interest rates. If our Fiscal 2017 average yield rate decreases by 10% in Fiscal 2018, our income before taxes will decrease by approximately \$0.1 million. Comparatively, if our Fiscal 2016 average yield rate had decreased by 10% in Fiscal 2017, our income before taxes would have decreased by approximately \$0.1 million. These amounts are determined by considering the impact of the hypothetical yield rates on our cash and investment balances and assumes no change in our investment structure.

Foreign Exchange Rate Risk

We are primarily exposed to the impact of foreign exchange rate risk primarily through our Canadian and Mexican operations where the functional currency is the Canadian dollar and Mexican peso, respectively. The impact of all other foreign currencies is currently immaterial to our financial results. We do not utilize hedging instruments to mitigate foreign currency exchange risks. A hypothetical 10% movement in the Canadian dollar and Mexican peso exchange rate could result in a \$8.9 million foreign currency translation fluctuation, which would be recorded in accumulated other comprehensive income within the consolidated balance sheets. An unrealized loss of \$30.8 million is included in accumulated other comprehensive income as of February 3, 2018.

This sensitivity analysis has inherent limitations. The analysis disregards the possibility that rates of multiple foreign currencies will not always move in the same direction relative to the value of the U.S. dollar over time.

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of

American Eagle Outfitters, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of American Eagle Outfitters, Inc. (the Company) as of February 3, 2018 and January 28, 2017, and the related consolidated statements of operations, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended February 3, 2018, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at February 3, 2018 and January 28, 2017, and the results of its operations and its cash flows for each of the three years in the period ended February 3, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of February 3, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 Framework) and our report dated March 16, 2018 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 1993.

AMERICAN EAGLE OUTFITTERS, INC.

Notes to Consolidated Financial Statements

For the Year Ended February 3, 2018

1. Business Operations

American Eagle Outfitters, Inc. (the “Company” or “AEO, Inc.”), a Delaware corporation, operates under the American Eagle Outfitters® (“AEO”) and Aerie® by American Eagle Outfitters® (“Aerie”) brands.

Founded in 1977, AEO, Inc. is a leading multi-brand specialty retailer that operates more than 1,000 retail stores in the U.S. and internationally, online at www.ae.com and www.aerie.com and international store locations managed by third-party operators. Through its portfolio of brands, the Company offers high quality, on-trend clothing, accessories and personal care products at affordable prices. The Company’s online business, AEO Direct, ships to 81 countries worldwide.

In Fiscal 2015, AEO Inc. acquired Tailgate Clothing Company (“Tailgate”), which owns and operates Tailgate, a vintage, sports-inspired apparel brand with a college town store concept, and Todd Snyder New York, a premium menswear brand.

Merchandise Mix

The following table sets forth the approximate consolidated percentage of total net revenue from continuing operations attributable to each merchandise group for each of the periods indicated:

	For the Years Ended					
	February 3, 2018		January 28, 2017		January 30, 2016	
Men’s apparel and accessories	34	%	35	%	37	%
Women’s apparel and accessories (excluding Aerie)	53	%	54	%	54	%
Aerie	13	%	11	%	9	%
Total	100	%	100	%	100	%

2. Summary of Significant Accounting Policies

Principles of Consolidation

The Consolidated Financial Statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. At February 3, 2018, the Company operated in one reportable segment.

The Company exited its 77kids brand in 2012. These Consolidated Financial Statements reflect the results of 77kids as discontinued operations for all periods presented.

Fiscal Year

Our fiscal year ends on the Saturday nearest to January 31. As used herein, “Fiscal 2018” refers to the 52-week period ending February 2, 2019. “Fiscal 2017” refers to the 53-week period ended February 3, 2018. “Fiscal 2016” and “Fiscal 2015” refer to the 52-week periods ended January 28, 2017 and January 30, 2016, respectively.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. On an ongoing basis, our management reviews its estimates based on currently available information. Changes in facts and circumstances may result in revised estimates.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standard Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”). ASU 2014-09 is a comprehensive new revenue recognition model that expands disclosure requirements and requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. Originally, ASU 2014-09 was effective for annual reporting periods beginning after December 15, 2016. In July 2015, the FASB voted to approve amendments deferring the effective date by one year to be effective for annual reporting periods beginning after December 15, 2017. Accordingly, the Company will adopt ASU 2014-09 on February 4, 2018 using the modified retrospective method. The adoption of ASU 2014-09 will not have a material impact on the Company’s Consolidated Financial Statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (“ASU 2016-02”) which replaces the existing guidance in ASC 840, Leases. The new standard establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company will adopt as of February 3, 2019 and is currently evaluating the impact of ASU 2016-02 to its Consolidated Financial Statements, but expects that it will result in a significant increase to its long-term assets and liabilities on the Consolidated Balance Sheets.

Foreign Currency Translation

In accordance with Accounting Standards Codification (“ASC”) 830, Foreign Currency Matters, assets and liabilities denominated in foreign currencies were translated into United States dollars (“USD”) (the reporting currency) at the exchange rates prevailing at the balance sheet date. Revenues and expenses denominated in foreign currencies were translated into USD at the monthly average exchange rates for the period. Gains or losses resulting from foreign currency transactions are included in the results of operations, whereas, related translation adjustments are reported as an element of other comprehensive income in accordance with ASC 220, Comprehensive Income (refer to Note 11 to the Consolidated Financial Statements).

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a remaining maturity of three months or less to be cash equivalents.

As of February 3, 2018 and January 28, 2017, the Company held no short-term investments.

Refer to Note 3 to the Consolidated Financial Statements for information regarding cash and cash equivalents and investments.

Merchandise Inventory

Merchandise inventory is valued at the lower of average cost or market, utilizing the retail method. Average cost includes merchandise design and sourcing costs and related expenses. The Company records merchandise receipts at

the time which both title and risk of loss for the merchandise transfers to the Company.

The Company reviews its inventory levels to identify slow-moving merchandise and generally uses markdowns to clear merchandise. Additionally, the Company estimates a markdown reserve for future planned permanent markdowns related to current inventory. Markdowns may occur when inventory exceeds customer demand for reasons of style, seasonal adaptation, changes in customer preference, lack of consumer acceptance of fashion items, competition, or if it is determined that the inventory in stock will not sell at its currently ticketed price. Such markdowns may have a material adverse impact on earnings, depending on the extent and amount of inventory affected. The Company also estimates a shrinkage reserve for the period between the last physical count and the balance sheet date. The estimate for the shrinkage reserve, based on historical results, can be affected by changes in merchandise mix and changes in actual shrinkage trends.

Property and Equipment

Property and equipment is recorded on the basis of cost with depreciation computed utilizing the straight-line method over the assets' estimated useful lives. The useful lives of our major classes of assets are as follows:

Buildings	25 years
Leasehold improvements	Lesser of 10 years or the term of the lease
Fixtures and equipment	5 years
Information technology	3-5 years

As of February 3, 2018, the weighted average remaining useful life of our assets is approximately 8.1 years.

In accordance with ASC 360, Property, Plant, and Equipment, the Company's management evaluates the value of leasehold improvements and store fixtures associated with retail stores, which have been open for a period of time sufficient to reach maturity. The Company evaluates long-lived assets for impairment at the individual store level, which is the lowest level at which individual cash flows can be identified. Impairment losses are recorded on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amounts of the assets. When events such as these occur, the impaired assets are adjusted to their estimated fair value and an impairment loss is recorded separately as a component of operating income under loss on impairment of assets. During Fiscal 2017 and Fiscal 2015, the Company recorded no asset impairment charges.

During Fiscal 2016, the Company recorded pre-tax asset impairment charges of \$20.6 million that included \$7.2 million for the impairment of all Company owned retail stores in the United Kingdom, Hong Kong and China. This amount is included within impairment and restructuring charges in the Consolidated Statements of Operations. These charges were the result of business performance and exploring an initiative to convert these markets to licensed partnerships. Retail stores in these markets no longer are able to generate sufficient cash flow over the expected remaining lease term to recover the carrying value of the respective stores' assets. Additionally, the Company recorded \$10.8 million of impairment charges related to non-store corporate assets that support the United Kingdom, Hong Kong and China Company owned retail store and e-commerce operations and \$2.5 million of goodwill impairment for the China and Hong Kong retail operations.

When the Company closes, remodels or relocates a store prior to the end of its lease term, the remaining net book value of the assets related to the store is recorded as a write-off of assets within depreciation and amortization expense.

Refer to Note 7 to the Consolidated Financial Statements for additional information regarding property and equipment and Note 15 for additional information regarding impairment charges.

Goodwill

The Company's goodwill is primarily related to the acquisition of its importing operations, Canadian, Hong Kong and China businesses and the acquisition of Tailgate and Todd Snyder. In accordance with ASC 350, Intangibles-Goodwill and Other ("ASC 350"), the Company evaluates goodwill for possible impairment on at least an annual basis and last performed an annual impairment test as of February 3, 2018. As a result, there were no impairments recorded during Fiscal 2017. During Fiscal 2016, the Company concluded the goodwill was impaired for the Hong Kong and China businesses, resulting in a \$2.5 million charge included within impairment and restructuring charges in the Consolidated Statements of Operations as a result of the Company's plans to convert these markets to licensed partnerships. All other goodwill for the Company was not impaired as a result of the annual goodwill impairment test.

Intangible Assets

Intangible assets are recorded on the basis of cost with amortization computed utilizing the straight-line method over the assets' estimated useful lives. The Company's intangible assets, which primarily include trademark assets, are amortized over 15 to 25 years.

The Company evaluates intangible assets for impairment in accordance with ASC 350 when events or circumstances indicate that the carrying value of the asset may not be recoverable. Such an evaluation includes the estimation of undiscounted future cash flows to be generated by those assets. If the sum of the estimated future undiscounted cash flows is less than the carrying amounts of the assets, then the assets are impaired and are adjusted to their estimated fair value. No intangible asset impairment charges were recorded for all periods presented.

Refer to Note 8 to the Consolidated Financial Statements for additional information regarding intangible assets.

Deferred Lease Credits

Deferred lease credits represent the unamortized portion of construction allowances received from landlords related to the Company's retail stores. Construction allowances are generally comprised of cash amounts received by the Company from its landlords as part of the negotiated lease terms. The Company records a receivable and a deferred lease credit liability at the lease commencement date (date of initial possession of the store). The deferred lease credit is amortized on a straight-line basis as a reduction of rent expense over the term of the original lease (including the pre-opening build-out period). The receivable is reduced as amounts are received from the landlord.

Self-Insurance Liability

The Company uses a combination of insurance and self-insurance mechanisms for certain losses related to employee medical benefits and worker's compensation. Costs for self-insurance claims filed and claims incurred but not reported are accrued based on known claims and historical experience. Management believes that it has adequately reserved for its self-insurance liability, which is capped through the use of stop loss contracts with insurance companies. However, any significant variation of future claims from historical trends could cause actual results to differ from the accrued liability.

Co-branded Credit Card

The Company offers a co-branded credit card (the "AEO Visa Card") and a private label credit card (the "AEO Credit Card") under the AEO and Aerie brands. These credit cards are issued by a third-party bank (the "Bank") in accordance with a credit card agreement ("the Agreement"). The Company has no liability to the Bank for bad debt expense, provided that purchases are made in accordance with the Bank's procedures. We receive funding from the Bank based on the Agreement and card activity, which includes payments for new account activations and usage of the credit cards. We recognize revenue for this funding when the amounts are fixed or determinable and collectability is reasonably assured. This revenue is recorded in other revenue, which is a component of total net revenue in our Consolidated Statements of Operations and Retained Earnings.

Once a customer is approved to receive the AEO Visa Card or the AEO Credit Card and the card is activated, the customer is eligible to participate in the customer loyalty program offered by the Company. For further information on the Company's loyalty program, refer to the Customer Loyalty Program caption below.

Customer Loyalty Program

The Company recently launched a new, highly digitized loyalty program called AEO Connected™ (the "Program"). This Program integrates the current credit card rewards program and the AEREWARDS® loyalty program into one combined customer offering. Under the Program, customers accumulate points based on purchase activity and earn rewards by reaching certain point thresholds, and when reached, rewards are distributed. Customers earn rewards in the form of discount savings certificates. Rewards earned are valid through the stated expiration date, which is 45 days from the issuance date of the reward. Additional rewards are also given for key items such as jeans

and bras. Rewards not redeemed during the 45-day redemption period are forfeited.

Points earned under the Program on purchases at AE and Aerie are accounted for in accordance with ASC 605-25, Revenue Recognition, Multiple Element Arrangements (“ASC 605-25”). The Company believes that points earned under the Program represent deliverables in a multiple element arrangement rather than a rebate or refund of cash. Accordingly, the portion of the sales revenue attributed to the award points is deferred and recognized when the award is redeemed or when the points expire. Additionally, reward points earned using the Co-branded credit card on non-AEO or Aerie purchases are accounted for in accordance with ASC 605-25. As the points are earned, a current liability is recorded for the estimated cost of the award, and the impact of adjustments is recorded in cost of sales.

45

Income Taxes

The Company calculates income taxes in accordance with ASC 740, Income Taxes (“ASC 740”), which requires the use of the asset and liability method. Under this method, deferred tax assets and liabilities are recognized based on the difference between the Consolidated Financial Statement carrying amounts of existing assets and liabilities and their respective tax bases as computed pursuant to ASC 740. Deferred tax assets and liabilities are measured using the tax rates, based on certain judgments regarding enacted tax laws and published guidance, in effect in the years when those temporary differences are expected to reverse. A valuation allowance is established against the deferred tax assets when it is more likely than not that some portion or all of the deferred taxes may not be realized. Changes in the Company’s level and composition of earnings, tax laws or the deferred tax valuation allowance, as well as the results of tax audits, may materially impact the Company’s effective income tax rate.

The Company evaluates its income tax positions in accordance with ASC 740 which prescribes a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on a tax return, including a decision whether to file or not to file in a particular jurisdiction. Under ASC 740, a tax benefit from an uncertain position may be recognized only if it is “more likely than not” that the position is sustainable based on its technical merits.

The calculation of the deferred tax assets and liabilities, as well as the decision to recognize a tax benefit from an uncertain position and to establish a valuation allowance require management to make estimates and assumptions. The Company believes that its assumptions and estimates are reasonable, although actual results may have a positive or negative material impact on the balances of deferred tax assets and liabilities, valuation allowances or net income.

The Company has included the estimated impact of the recently enacted U.S. Tax Act in our financial results for the period ended February 3, 2018. The Securities and Exchange Commission (“SEC”) has issued interpretive guidance under Staff Accounting Bulletin No. 118 (“SAB 118”) that allows for a measurement period of up to one year after the enactment date of the Tax Act to finalize the recording of the related tax impacts. Our future results could include additional adjustments, and those adjustments could be material. Refer to Note 14 to the Consolidated Financial Statements for additional information.

Revenue Recognition

Revenue is recorded for store sales upon the purchase of merchandise by customers. The Company’s e-commerce operation records revenue upon the estimated customer receipt date of the merchandise. Shipping and handling revenues are included in total net revenue. Sales tax collected from customers is excluded from revenue and is included as part of accrued income and other taxes on the Company’s Consolidated Balance Sheets.

Revenue is recorded net of estimated and actual sales returns and deductions for coupon redemptions and other promotions. The Company records the impact of adjustments to its sales return reserve quarterly within total net revenue and cost of sales. The sales return reserve reflects an estimate of sales returns based on projected merchandise returns determined through the use of historical average return percentages.

	For the Years Ended		
	February	January	January
	3,	28,	30,
(In thousands)	2018	2017	2016
Beginning balance	\$3,639	\$3,349	\$3,249

Returns	(103,393)	(97,126)	(90,719)
Provisions	104,471	97,416	90,819
Ending balance	\$4,717	\$3,639	\$3,349

Revenue is not recorded on the purchase of gift cards. A current liability is recorded upon purchase, and revenue is recognized when the gift card is redeemed for merchandise. Additionally, the Company recognizes revenue on unredeemed gift cards based on an estimate of the amounts that will not be redeemed (“gift card breakage”), determined through historical redemption trends. Gift card breakage revenue is recognized in proportion to actual gift card redemptions as a component of total net revenue. For further information on the Company’s gift card program, refer to the Gift Cards caption below.

The Company recognizes royalty revenue generated from its license or franchise agreements based upon a percentage of merchandise sales by the licensee/franchisee. This revenue is recorded as a component of total net revenue when earned.

Cost of Sales, Including Certain Buying, Occupancy and Warehousing Expenses

Cost of sales consists of merchandise costs, including design, sourcing, importing and inbound freight costs, as well as markdowns, shrinkage and certain promotional costs (collectively "merchandise costs") and buying, occupancy and warehousing costs.

Design costs are related to the Company's Design Center operations and include compensation, travel and entertainment, supplies and samples for our design teams, as well as rent and depreciation for our Design Center. These costs are included in cost of sales as the respective inventory is sold.

Buying, occupancy and warehousing costs consist of compensation, employee benefit expenses and travel and entertainment for our buyers and certain senior merchandising executives; rent and utilities related to our stores, corporate headquarters, distribution centers and other office space; freight from our distribution centers to the stores; compensation and supplies for our distribution centers, including purchasing, receiving and inspection costs; and shipping and handling costs related to our e-commerce operation. Gross profit is the difference between total net revenue and cost of sales.

Selling, General and Administrative Expenses

Selling, general and administrative expenses consist of compensation and employee benefit expenses, including salaries, incentives and related benefits associated with our stores and corporate headquarters. Selling, general and administrative expenses also include advertising costs, supplies for our stores and home office, communication costs, travel and entertainment, leasing costs and services purchased. Selling, general and administrative expenses do not include compensation, employee benefit expenses and travel for our design, sourcing and importing teams, our buyers and our distribution centers as these amounts are recorded in cost of sales. Additionally, selling, general and administrative expenses do not include rent and utilities related to our stores, operating costs of our distribution centers, and shipping and handling costs related to our e-commerce operations.

Advertising Costs

Certain advertising costs, including direct mail, in-store photographs and other promotional costs are expensed when the marketing campaign commences. As of February 3, 2018 and January 28, 2017, the Company had prepaid advertising expense of \$6.6 million and \$8.4 million, respectively. All other advertising costs are expensed as incurred. The Company recognized \$129.8 million, \$124.5 million and \$104.1 million in advertising expense during Fiscal 2017, Fiscal 2016 and Fiscal 2015, respectively.

Store Pre-Opening Costs

Store pre-opening costs consist primarily of rent, advertising, supplies and payroll expenses. These costs are expensed as incurred.

Other (Expense) Income, Net

Other (expense) income, net consists primarily of allowances for uncollectible receivables, foreign currency transaction gain/loss, interest income/expense and realized investment gains/losses.

Gift Cards

The value of a gift card is recorded as a current liability upon purchase and revenue is recognized when the gift card is redeemed for merchandise. The Company estimates gift card breakage and recognizes revenue in proportion to actual gift card redemptions as a component of total net revenue. The Company determines an estimated gift card breakage rate by continuously evaluating historical redemption data and the time when there is a remote likelihood that a gift card will be redeemed. The Company recorded gift card breakage of \$10.1 million, \$9.1 million and \$8.2 million during Fiscal 2017, Fiscal 2016 and Fiscal 2015, respectively.

Legal Proceedings and Claims

The Company is subject to certain legal proceedings and claims arising out of the conduct of its business. In accordance with ASC 450, Contingencies (“ASC 450”), the Company records a reserve for estimated losses when the loss is probable and the amount can be reasonably estimated. If a range of possible loss exists and no anticipated loss within the range is more likely than any other anticipated loss, the Company records the accrual at the low end of the range, in accordance with ASC 450. As the Company believes that it has provided adequate reserves, it anticipates that the ultimate outcome of any matter currently pending against the Company will not materially affect the consolidated financial position, results of operations or consolidated cash flows of the Company. However, our assessment of any litigation or other legal claims could potentially change in light of the discovery of facts not presently known or determinations by judges, juries, or other finders of fact which are not in accord with management’s evaluation of the possible liability or outcome of such litigation or claims.

Supplemental Disclosures of Cash Flow Information

The table below shows supplemental cash flow information for cash amounts paid during the respective periods:

(In thousands)	For the Years Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
Cash paid during the periods for:			
Income taxes	\$47,094	\$126,592	\$116,765
Interest	\$1,098	\$1,155	\$1,173

Segment Information

In accordance with ASC 280, Segment Reporting (“ASC 280”), the Company has identified two operating segments (American Eagle Brand and Aerie Brand) that reflect the Company’s operational structure as well as the business’s internal view of analyzing results and allocating resources. All of the operating segments have met the aggregation criteria and have been aggregated and are presented as one reportable segment, as permitted by ASC 280.

The following tables present summarized geographical information:

(In thousands)	For the Years Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
Total net revenue:			
United States	\$3,295,066	\$3,160,699	\$3,091,205
Foreign (1)	500,483	449,166	430,643
Total net revenue	\$3,795,549	\$3,609,865	\$3,521,848

(1)

Edgar Filing: AMERICAN EAGLE OUTFITTERS INC - Form 10-K

Amounts represent sales from American Eagle and Aerie international retail stores, and e-commerce sales that are billed to and/or shipped to foreign countries and international franchise royalty revenue.

Commercial paper	54,929	30,000
Total cash and cash equivalents	\$ 413,613	\$ 378,613

4. Fair Value Measurements

ASC 820, Fair Value Measurement Disclosures (“ASC 820”), defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. Fair value is defined under ASC 820 as the exit price associated with the sale of an asset or transfer of a liability in an orderly transaction between market participants at the measurement date.

Financial Instruments

Valuation techniques used to measure fair value under ASC 820 must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes this three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 — Quoted prices in active markets.

Level 2 — Inputs other than Level 1 that are observable, either directly or indirectly.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In accordance with ASC 820, the following tables represent the fair value hierarchy for the Company’s financial assets (cash equivalents) measured at fair value on a recurring basis as of February 3, 2018 and January 28, 2017:

(In thousands)	Fair Value Measurements at February 3, 2018		
	Carrying Amount	Quoted Market Prices in Active Markets for	Significant Other Observable Inputs (Level 2)

Identical

(Level 3)

Assets

(Level 1)

In the event the Company holds Level 3 investments, a discounted cash flow model is used to value those investments. There were no Level 3 investments at February 3, 2018 or January 28, 2017.

Non-Financial Assets

The Company's non-financial assets, which include goodwill, intangible assets and property and equipment, are not required to be measured at fair value on a recurring basis. However, if certain triggering events occur, or if an annual impairment test is required and the Company is required to evaluate the non-financial instrument for impairment, a resulting asset impairment would require that the non-financial asset be recorded at the estimated fair value. During Fiscal 2016, the Company concluded the goodwill was impaired for the Hong Kong and China businesses, resulting in a \$2.5 million charge included within impairment and restructuring charges in the Consolidated Statements of Operations as a result of the performance of those businesses and the Company's exploration of alternatives, including the licensing of these markets to third-party operators. All other goodwill for the Company was not impaired as a result of the annual goodwill impairment test.

Certain long-lived assets were measured at fair value on a nonrecurring basis using Level 3 inputs as defined in ASC 820. During Fiscal 2017, the Company recorded no asset impairment charges. During Fiscal 2016, certain long-lived assets related to the Company's retail stores, goodwill and corporate assets were determined to be unable to recover their respective carrying values and were written down to their fair value, resulting in a loss of \$20.6 million, which is recorded within impairment and restructuring charges within the Consolidated Statements of Operations. The fair value of the impaired assets after the recorded loss is an immaterial amount.

The fair value of the Company's stores was determined by estimating the amount and timing of net future cash flows and discounting them using a risk-adjusted rate of interest. The Company estimates future cash flows based on its experience and knowledge of the market in which the store is located.

5. Earnings per Share

The following is a reconciliation between basic and diluted weighted average shares outstanding:

(In thousands, except per share amounts)	For the Years Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
Weighted average common shares outstanding:			
Basic number of common shares outstanding	177,938	181,429	194,351
Dilutive effect of stock options and non-vested			
restricted stock	2,218	2,406	1,886
Dilutive number of common shares outstanding	180,156	183,835	196,237

Stock option awards to purchase approximately 2.2 million, 2.2 million and 13,000 shares of common stock during the Fiscal 2017, Fiscal 2016 and Fiscal 2015, respectively, were outstanding, but were not included in the computation of weighted average diluted common share amounts as the effect of doing so would have been anti-dilutive.

Additionally, approximately 0.9 million, 0.1 million, and 0.7 million of performance-based restricted stock awards for Fiscal 2017, Fiscal 2016, and Fiscal 2015, respectively, were not included in the computation of weighted average diluted common share amounts because the number of shares ultimately issued is contingent on the Company's performance compared to pre-established performance goals.

Refer to Note 12 to the Consolidated Financial Statements for additional information regarding share-based compensation.

6. Accounts Receivable, net

Accounts receivable, net are comprised of the following:

(In thousands)	February 3, 2018	January 28, 2017
Franchise and license receivable	\$32,930	\$35,983
Merchandise sell-offs and vendor receivables	15,742	20,089
Credit card program receivable	9,544	11,869
Tax refunds	8,271	4,731
Landlord construction allowances	5,605	2,412
Gift card receivable	1,799	6,567
Other items	4,413	4,983
Total	\$78,304	\$86,634

Allowance for uncollectible receivables of \$20.4 million and \$4.2 million are included within Accounts receivable, net as of February 3, 2018 and January 28, 2017, respectively.

7. Property and Equipment

Property and equipment consists of the following:

(In thousands)	February 3, 2018	January 28, 2017
Land	\$17,910	\$17,910
Buildings	206,505	204,890
Leasehold improvements	630,725	606,522

Edgar Filing: AMERICAN EAGLE OUTFITTERS INC - Form 10-K

Fixtures and equipment	1,143,140	1,028,117
Construction in progress	25,595	26,858
Property and equipment, at cost	\$2,023,875	\$1,884,297
Less: Accumulated depreciation	(1,299,636)	(1,176,500)
Property and equipment, net	\$724,239	\$707,797

Depreciation expense is summarized as follows:

	For the Years Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
(In thousands)			
Depreciation expense	\$158,969	\$152,644	\$140,616

Additionally, during Fiscal 2017, Fiscal 2016 and Fiscal 2015, the Company recorded \$6.0 million, \$1.5 million and \$4.8 million, respectively, related to asset write-offs within depreciation and amortization expense.

8. Intangible Assets

Intangible assets include costs to acquire and register the Company's trademark assets. The following table represents intangible assets as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
(In thousands)		
Trademarks, at cost	\$70,322	\$68,978
Less: Accumulated amortization	(23,656)	(19,605)
Intangible assets, net	\$46,666	\$49,373

Amortization expense is summarized as follows:

	For the Years Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
(In thousands)			
Amortization expense	\$4,551	\$4,007	\$3,483

The table below summarizes the estimated future amortization expense for intangible assets existing as of February 3, 2018 for the next five Fiscal Years:

(In thousands)	Future Amortization
2018	\$ 3,732
2019	\$ 3,732
2020	\$ 3,059
2021	\$ 2,732
2022	\$ 2,730

9. Other Credit Arrangements

In Fiscal 2014, the Company entered into a new Credit Agreement ("Credit Agreement") for a five-year, syndicated, asset-based revolving credit facilities (the "Credit Facilities"). The Credit Agreement provides senior secured revolving credit for loans and letters of credit up to \$400 million, subject to customary borrowing base limitations. The Credit

Facilities provide increased financial flexibility and take advantage of a favorable credit environment.

All obligations under the Credit Facilities are unconditionally guaranteed by certain subsidiaries. The obligations under the Credit Agreement are secured by a first-priority security interest in certain working capital assets of the borrowers and guarantors, consisting primarily of cash, receivables, inventory and certain other assets, and will be further secured by first-priority mortgages on certain real property.

As of February 3, 2018, the Company was in compliance with the terms of the Credit Agreement and had \$8.1 million outstanding in stand-by letters of credit. No loans were outstanding under the Credit Agreement on February 3, 2018.

Additionally, the Company has a borrowing agreement with one financial institution under which it may borrow an aggregate of \$5.0 million USD for the purposes of trade letter of credit issuances. The availability of any future borrowings under the trade letter of credit facilities is subject to acceptance by the respective financial institutions.

As of February 3, 2018, the Company had no outstanding trade letters of credit.

10. Leases

The Company leases all store premises, some of its office space and certain information technology and office equipment. The store leases generally have initial terms of 10 years and are classified as operating leases. Most of these store leases provide for base rentals and the payment of a percentage of sales as additional contingent rent when sales exceed specified levels. Additionally, most leases contain construction allowances and/or rent holidays. In recognizing landlord incentives and minimum rent expense, the Company amortizes the items on a straight-line basis over the lease term (including the pre-opening build-out period).

A summary of fixed minimum and contingent rent expense for all operating leases follows:

(In thousands)	For the Years Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
Store rent:			
Fixed minimum	\$298,458	\$286,850	\$282,300
Contingent	9,566	8,519	9,035
Total store rent, excluding common area maintenance charges, real estate taxes and certain other expenses	\$308,025	\$295,369	\$291,335
Offices, distribution facilities, equipment and other	26,960	18,172	16,063
Total rent expense	\$334,985	\$313,541	\$307,398

In addition, the Company is typically responsible under its store, office and distribution center leases for tenant occupancy costs, including maintenance costs, common area charges, real estate taxes and certain other expenses.

The table below summarizes future minimum lease obligations, consisting of fixed minimum rent, under operating leases in effect at February 3, 2018:

(In thousands)	Future Minimum Lease Obligations
Fiscal years:	
2018	\$ 286,300
2019	\$ 252,150
2020	\$ 229,056
2021	\$ 202,605
2022	\$ 168,993
Thereafter	\$ 435,616
Total	\$ 1,574,720

11. Other Comprehensive Income

The accumulated balances of other comprehensive income included as part of the Consolidated Statements of Stockholders' Equity follow:

	Before Tax	Tax Benefit	Accumulated Other Comprehensive
--	------------	-------------	---------------------------------

Edgar Filing: AMERICAN EAGLE OUTFITTERS INC - Form 10-K

(In thousands)	Amount	(Expense)	Income
Balance at January 31, 2015	\$(9,944)	—	\$ (9,944)
Foreign currency translation loss (1)	(14,535)	—	(14,535)
Loss on long-term intra-entity foreign currency transactions	(8,805)	3,416	(5,389)
Balance at January 30, 2016	\$(33,284)	—	\$ (29,868)
Foreign currency translation loss (1)	(8,380)	—	(8,380)
Gain on long-term intra-entity foreign currency transactions	2,919	(1,133)	1,786
Balance at January 28, 2017	\$(38,745)	2,283	\$ (36,462)
Foreign currency translation gain (1)	3,564	—	3,564
Gain on long-term intra-entity foreign currency transactions	3,436	(1,333)	2,103
Balance at February 3, 2018	\$(31,745)	\$ 950	\$ (30,795)

(1) Foreign currency translation adjustments are not adjusted for income taxes as they relate to permanent investments in our subsidiaries.

12. Share-Based Payments

The Company accounts for share-based compensation under the provisions of ASC 718, Compensation – Stock Compensation (“ASC 718”), which requires the Company to measure and recognize compensation expense for all share-based payments at fair value. Total share-based compensation expense included in the Consolidated Statements of Operations for Fiscal 2017, Fiscal 2016 and Fiscal 2015 was \$16.9 million (\$12.0 million, net of tax), \$29.1 million (\$18.5 million, net of tax) and \$35.0 million (\$23.2 million, net of tax), respectively.

ASC 718 requires recognition of compensation cost under a non-substantive vesting period approach for awards containing provisions that accelerate or continue vesting upon retirement. Accordingly, for awards with such provisions, the Company recognizes compensation expense over the period from the grant date to the date retirement eligibility is achieved, if that is expected to occur during the nominal vesting period. Additionally, for awards granted to retirement eligible employees, the full compensation cost of an award must be recognized immediately upon grant.

At February 3, 2018, the Company had awards outstanding under two share-based compensation plans, which are described below.

Share-based compensation plans

2017 Stock Award and Incentive Plan

The 2017 Plan was approved by the stockholders on May 23, 2017. The 2017 Plan authorized 11.2 million shares for issuance, in the form of options, stock appreciation rights (“SARS”), restricted stock, restricted stock units, bonus stock and awards, performance awards, dividend equivalents and other stock based awards. The 2017 Plan provides that for awards intended to qualify as “performance-based compensation” under Code Section 162(m) (i) the maximum number of shares awarded to any individual may not exceed 3.0 million shares per year for options and SARS and (ii) no more than 1.5 million shares may be granted with respect to each of restricted shares of stock and restricted stock units (subject to certain adjustments and exceptions provided therein). The 2017 Plan allows the Compensation Committee of the Board to determine which employees receive awards and the terms and conditions of the awards under the 2017 Plan. The 2017 Plan provides for grants to directors who are not officers or employees of the Company, which are not to exceed in value \$750,000 in any single fiscal year. Through February 3, 2018, approximately 1.4 million shares of restricted stock and approximately 0.5 million shares of common stock had been granted under the 2017 Plan to employees and directors. Approximately 1% of the restricted stock awards are performance-based and are earned if the established performance goals are met. The remaining 99% of the restricted stock awards are time-based and 97% vest ratably over three years and 3% vest over a period of one to two years.

2014 Stock Award and Incentive Plan

The 2014 Plan was approved by the stockholders on May 29, 2014. The 2014 Plan authorized 11.5 million shares for issuance, in the form of options, SARS, restricted stock, restricted stock units, bonus stock and awards, performance awards, dividend equivalents and other stock based awards. The 2014 Plan provides that the maximum number of shares awarded to any individual may not exceed 4.0 million shares per year for options and SARS and no more than 1.5 million shares may be granted with respect to each of restricted shares of stock and restricted stock units (subject to certain adjustments and exceptions provided therein). The 2014 Plan allows the Compensation Committee of the Board to determine which employees receive awards and the terms and conditions of the awards under the 2014 Plan. The 2014 Plan provides for grants to directors who are not officers or employees of the Company, which are not to exceed in value \$300,000 in any single calendar year (\$500,000 in the first year a person becomes a non-employee

director). Through February 3, 2018, approximately 6.3 million shares of restricted stock and approximately 2.6 million shares of common stock had been granted under the 2014 Plan to employees and directors. Approximately 60% of the restricted stock awards are performance-based and are earned if the established performance goals are met. The remaining 40% of the restricted stock awards are time-based and 89% vest ratably over three years, 5% vest ratably over two years and 6% cliff vest in three years. After May 23, 2017, no new awards may be granted under the 2014 plan and all outstanding awards at that time continued in force and operation in accordance with their respective terms.

Stock Option Grants

The Company has granted both time-based and performance-based stock options under the 2014 and 2017 Plans. Time-based stock option awards vest over the requisite service period of the award or to an employee's eligible retirement date, if earlier. Performance-based stock option awards vest over three years and are earned if the Company meets pre-established performance goals during each year.

A summary of the Company's stock option activity under all plans for Fiscal 2017 follows:

	For the Year Ended February 3, 2018			
	Weighted-		Average	
	Options	Average	Contractual	Aggregate
	(In thousands)	Exercise Price	Term	Intrinsic Value
			(In years)	(In thousands)
Outstanding - January 28, 2017	2,314	\$ 15.33		
Granted	1,055	\$ 14.59		
Exercised (1)	(242)	\$ 14.28		
Cancelled	(937)	\$ 14.85		
Outstanding - February 3, 2018	2,190	\$ 14.59	5.6	4,979
Vested and expected to vest - February 3, 2018	2,047	\$ 14.28	5.6	4,635
Exercisable - February 3, 2018 (2)	429	\$ 14.85	5.2	784

(1) Options exercised during Fiscal 2017 ranged in price from \$11.60 to \$15.45.

(2) Options exercisable represent "in-the-money" vested options based upon the weighted average exercise price of vested options compared to the Company's stock price at February 3, 2018.

The weighted-average grant date fair value of stock options granted during Fiscal 2017 and Fiscal 2016 was \$3.84 and \$3.55, respectively. The aggregate intrinsic value of options exercised during Fiscal 2017, Fiscal 2016 and Fiscal 2015 was \$0.2 million, \$3.8 million and \$0.4 million, respectively. Cash received from the exercise of stock options and the actual tax benefit realized from share-based payments was \$3.4 million and \$3.3 million, respectively, for Fiscal 2017. Cash received from the exercise of stock options and the actual tax benefit realized from share-based payments was \$16.3 million and \$0.3 million, respectively, for Fiscal 2016. Cash received from the exercise of stock options and the actual tax benefit realized from share-based payments was \$7.3 million and \$(0.5) million, respectively, for Fiscal 2015.

The fair value of stock options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions:

For the Years

	Ended	
	February 3, 2018	January 28, 2017
Black-Scholes Option Valuation Assumptions		
Risk-free interest rates (1)	2.1%	1.3%
Dividend yield	3.1%	3.0%
Volatility factors of the expected market price of		
the Company's common stock (2)	38.5%	35.4%
Weighted-average expected term (3)	4.5 years	4.4 years

(1) Based on the U.S. Treasury yield curve in effect at the time of grant with a term consistent with the expected life of our stock options.

(2) Based on a combination of historical volatility of the Company's common stock and implied volatility.

(3) Represents the period of time options are expected to be outstanding. The weighted average expected option terms were determined based on historical experience.

As of February 3, 2018, there was \$4.3 million of unrecognized compensation expense related to nonvested stock option awards that is expected to be recognized over a weighted average period of 1.7 years.

Restricted Stock Grants

Time-based restricted stock awards are comprised of time-based restricted stock units. These awards vest over three years. Time-based restricted stock units receive dividend equivalents in the form of additional time-based restricted stock units, which are subject to the same restrictions and forfeiture provisions as the original award.

Performance-based restricted stock awards include performance-based restricted stock units. These awards cliff vest at the end of a three-year period based upon the Company's achievement of pre-established goals throughout the term of the award. Performance-based restricted stock units receive dividend equivalents in the form of additional performance-based restricted stock units, which are subject to the same restrictions and forfeiture provisions as the original award.

The grant date fair value of all restricted stock awards is based on the closing market price of the Company's common stock on the date of grant.

A summary of the activity of the Company's restricted stock is presented in the following tables:

	Time-Based Restricted Stock Units For the year ended February 3, 2018		Performance-Based Restricted Stock Units For the year ended February 3, 2018	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
(Shares in thousands)				
Nonvested - January 28, 2017	2,001	\$ 15.39	2,825	\$ 15.07
Granted	1,497	11.63	703	14.52
Vested	(1,006)	15.13	(957)	14.14
Cancelled/Forfeited	(303)	13.02	(433)	15.80
Nonvested - February 3, 2018	2,189	13.27	2,138	15.16

As of February 3, 2018, there was \$15.9 million of unrecognized compensation expense related to nonvested time-based restricted stock unit awards that is expected to be recognized over a weighted average period of 1.7 years. Based on current probable performance, there is \$3.0 million of unrecognized compensation expense related to performance-based restricted stock unit awards which will be recognized as achievement of performance goals is probable over a one to three-year period.

As of February 3, 2018, the Company had 9.5 million shares available for all equity grants.

13. Retirement Plan and Employee Stock Purchase Plan

The Company maintains a profit sharing and 401(k) plan (the “Retirement Plan”). Under the provisions of the Retirement Plan, full-time employees and part-time employees are automatically enrolled to contribute 3% of their salary if they have attained 20½ years of age. In addition, full-time employees need to have completed 60 days of service and part-time employees must complete 1,000 hours worked to be eligible. Individuals can decline enrollment or can contribute up to 50% of their salary to the 401(k) plan on a pretax basis, subject to IRS limitations. After one year of service, the Company will match 100% of the first 3% of pay plus an additional 25% of the next 3% of pay that is contributed to the plan. Contributions to the profit sharing plan, as determined by the Board, are discretionary. The Company recognized \$10.6 million, \$9.8 million and \$10.6 million in expense during Fiscal 2017, Fiscal 2016 and Fiscal 2015, respectively, in connection with the Retirement Plan.

The Employee Stock Purchase Plan is a non-qualified plan that covers all full-time employees and part-time employees who are at least 18 years old and have completed 60 days of service. Contributions are determined by the employee, with the Company matching 15% of the investment up to a maximum investment of \$100 per pay period. These contributions are used to purchase shares of Company stock in the open market.

14. Income Taxes

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the “Tax Act”). The Tax Act makes broad and complex changes to the U.S. tax code including reducing the U.S. federal corporate tax rate from 35% to 21% effective January 1, 2018, and requiring a mandatory deemed repatriation tax on undistributed earnings of U.S. owned foreign subsidiaries (“Transition Tax”). The Tax Act also adopts elements of a modified territorial tax system, revises the rules governing foreign tax credits, and permits certain capital expenditures to be expensed immediately, as well as modifying or repealing many deductions and credits. Certain changes became effective for Fiscal 2017, while others become effective for Fiscal 2018.

As a result of the Tax Act, the Company recorded an estimated tax benefit of \$12.1 million in the fourth quarter of Fiscal 2017 consisting of:

- \$3.5 million charge on previously undistributed foreign earnings as of December 31, 2017, net of estimated tax credits
- \$12.1 million benefit on the re-measurement of deferred tax assets and liabilities and tax reserves to the lower base federal corporate tax rate of 21%
- \$3.5 million benefit of a lower blended U.S. corporate tax rate as reflected in the starting point of the effective tax rate reconciliation table below

In December 2017, the Securities and Exchange Commission (“SEC”) issued interpretive guidance under SAB 118 that allows for a measurement period of up to one year after the enactment date of the Tax Act to finalize the recording of the related tax impacts. The estimated tax impacts of the Transition Tax, re-measurement of deferred tax assets and liabilities, and other items are recorded as provisional amounts in accordance with SAB 118. Given the significant complexity of the Tax Act, anticipated guidance from the Internal Revenue Service on implementing the Tax Act, and the potential for additional guidance from the SEC or the FASB related to the Tax Act or additional information becoming available, the Company’s provisional net benefit may be adjusted during 2018 within the allowable measurement period. Other provisions of the Tax Act that impact future tax years are still being assessed.

The Fiscal 2017 impact of the Tax Act is reflected in the tables below.

The components of income before income taxes from continuing operations were:

For the Years Ended		
February	January	January
3,	28,	30,

Edgar Filing: AMERICAN EAGLE OUTFITTERS INC - Form 10-K

(In thousands)	2018	2017	2016
U.S.	\$255,621	\$315,199	\$289,697
Foreign	31,552	20,063	32,174
Total	\$287,173	\$335,262	\$321,871

The significant components of the Company's deferred tax assets and liabilities were as follows:

(In thousands)	February 3, 2018	January 28, 2017
Deferred tax assets:		
Rent	\$20,753	\$27,843
Net operating loss	9,232	5,364
Inventories	8,900	10,693
Deferred compensation	7,698	24,042
State tax credits	7,492	6,574
Accruals not currently deductible	5,631	8,613
Foreign tax credits	3,123	22,269
Employee compensation and benefits	1,599	13,206
Other	4,936	9,380
Gross deferred tax assets	69,364	127,984
Valuation allowance	(7,096)	(7,266)
Total deferred tax assets	\$62,268	\$120,718
Deferred tax liabilities:		
Property and equipment	\$(46,165)	\$(63,546)
Prepaid Expenses	\$(3,736)	\$(5,079)
Other	(3,023)	(2,843)
Total deferred tax liabilities	\$(52,924)	\$(71,468)
Total deferred tax assets, net	\$9,344	\$49,250

The net decrease in deferred tax assets and liabilities was primarily due to decreases in the deferred tax assets for foreign tax credit carryovers, deferred compensation and employee compensation and benefits, partially offset by a decrease in the deferred tax liability for property and equipment basis differences.

As of February 3, 2018, the Company had deferred tax assets related to state and foreign net operating loss carryovers of \$2.1 million and \$7.1 million, respectively that could be utilized to reduce future years' tax liabilities. A portion of these net operating loss carryovers begin expiring in the year 2018 and some have an indefinite carryforward period. Management believes it is more likely than not that the foreign net operating loss carryovers will not reduce future years' tax liabilities in certain jurisdictions. As such a valuation allowance of \$7.1 million has been recorded on the deferred tax assets related to the cumulative foreign net operating loss carryovers.

The Company has foreign tax credit carryovers in the amount of \$3.1 million and \$22.3 million as of February 3, 2018 and January 28, 2017, respectively. The foreign tax credit carryovers begin to expire in Fiscal 2020 to the extent not

utilized. No valuation allowance has been recorded on the foreign tax credit carryovers as the Company believes it is more likely than not that the foreign tax credits will be utilized prior to expiration.

The Company has state income tax credit carryforwards of \$7.5 million (net of federal tax) and \$6.6 million (net of federal tax) as of February 3, 2018 and January 28, 2017, respectively. These income tax credits can be utilized to offset future state income taxes and have a carryforward period of 10 to 16 years. They will begin to expire in Fiscal 2023.

Significant components of the provision for income taxes from continuing operations were as follows:

(In thousands)	For the Years Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
Current:			
Federal	\$31,763	\$93,961	\$86,122
Foreign taxes	3,404	3,168	3,836
State	9,600	11,137	13,032
Total current	44,767	108,266	102,990
Deferred:			
Federal	\$36,345	\$12,057	\$5,606
Foreign taxes	(1,130)	(268)	(1,977)
State	3,028	2,758	1,961
Total deferred	38,243	14,547	5,590
Provision for income taxes	\$83,010	\$122,813	\$108,580

The Company previously considered the earnings in its foreign subsidiaries to be indefinitely reinvested and, accordingly, recorded no deferred income taxes. Under the Tax Act, the Company recorded an estimated Transition Tax payable of \$3.5 million, net of estimated tax credits, on approximately \$42.9 million of previously undistributed foreign earnings. The Company is currently analyzing the tax liability, if any, under the Tax Act for its remaining outside basis differences in its foreign subsidiaries and assessing how the Tax Act will impact the Company's prior assertion of indefinite reinvestment. The Company has yet to determine whether it plans to change its prior assertion and repatriate earnings. As such, no change has been made with respect to the assertion of indefinite reinvestment for the year ended February 3, 2018. The Company will record the tax effects of any change in its prior assertion in the period that it completes its analysis and is able to make a reasonable estimate, and disclose any unrecognized deferred tax liability related to its foreign investments, if practicable.

The following table summarizes the activity related to our unrecognized tax benefits:

(In thousands)	For the Years Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
Unrecognized tax benefits, beginning of the year			
balance	\$7,093	\$ 5,748	\$ 12,609
Increases in current period tax positions	1,913	1,884	2,727
Increases in tax positions of prior periods	624	464	—
Settlements	(744)	—	—
Lapse of statute of limitations	(517)	(362)	(516)

Edgar Filing: AMERICAN EAGLE OUTFITTERS INC - Form 10-K

Decreases in tax positions of prior periods	(1,083)	(641)	(9,072)
Unrecognized tax benefits, end of the year balance	\$7,286	\$ 7,093		\$ 5,748	

As of February 3, 2018, the gross amount of unrecognized tax benefits was \$7.3 million, of which \$6.6 million would affect the effective income tax rate if recognized. The gross amount of unrecognized tax benefits as of January 28, 2017 was \$7.1 million, of which \$5.8 million would affect the effective income tax rate if recognized.

Unrecognized tax benefits increased by \$0.2 million during Fiscal 2017, increased by \$1.3 million during Fiscal 2016 and decreased by \$6.9 million during Fiscal 2015. Over the next twelve months the Company believes it is reasonably possible the unrecognized tax benefits could decrease by as much as \$4.8 million as a result of federal and state tax settlements, statute of limitations lapses, and other changes to the reserves.

The Company records accrued interest and penalties related to unrecognized tax benefits in income tax expense. Accrued interest and penalties related to unrecognized tax benefits included in the Consolidated Balance Sheet were \$1.0 million and \$1.4 million as of February 3, 2018 and January 28, 2017, respectively. An immaterial amount of interest and penalties were recognized in the provision for income taxes during Fiscal 2017, Fiscal 2016 and Fiscal 2015.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The company participates in the Internal Revenue Service (“IRS”) Compliance Assurance Program (“CAP”). As part of the CAP, tax years are audited on a real-time basis so that all or most issues are resolved prior to the filing of the federal tax return. The IRS has completed examinations under CAP through January 28, 2017, for which the majority of the issues have been resolved. The Company does not anticipate that any adjustments will result in a material change to its financial position, results of operations or cash flows. With respect to state and local jurisdictions and countries outside of the United States, with limited exceptions, generally, the Company and its subsidiaries are no longer subject to income tax audits for tax years before 2011. Although the outcome of tax audits is always uncertain, the Company believes that adequate amounts of tax, interest and penalties have been provided for any adjustments that are expected to result from these years.

A reconciliation between the statutory federal income tax rate and the effective income tax rate from continuing operations follows:

	For the Years Ended			
	February 3, 2018	January 28, 2017	January 30, 2016	
Federal income tax rate	33.7%	35.0 %	35.0 %	
State income taxes, net of federal income tax effect	2.9	2.8	3.1	
Foreign rate differential	(1.9)	(1.7)	(1.6)	
Impact of Tax Cuts and Jobs Act	(3.0)	0.0	0.0	
Valuation allowance changes, net	(0.2)	0.4	(1.1)	
Change in unrecognized tax benefits	0.3	0.4	(1.5)	
Other	(2.9)	(0.3)	(0.2)	
	28.9%	36.6 %	33.7 %	

15. Impairment & Restructuring Charges

In Fiscal 2017, the Company recorded pre-tax restructuring charges of \$30.2 million. This amount consists of costs related to the planned exit of a joint business venture; charges for home office restructuring; and the previously announced initiative to explore the closure or conversion of Company-owned and operated stores in Hong Kong, China, and the United Kingdom to licensed partnerships.

In Fiscal 2016, impairment and restructuring charges were \$21.2 million. This amount consists of impairment of all Company-owned retail stores in the United Kingdom, Hong Kong and China. Additionally, impairment and restructuring charges were incurred for goodwill (\$2.5 million) and non-store corporate assets (\$11.5 million) that support the international retail stores and e-commerce operations. In Fiscal 2016, the company undertook an initiative to convert these markets to license partnerships. Assets for these markets currently have no ability to generate sufficient cash flow to cover their carrying value.

The closure of the United Kingdom was completed in Fiscal 2017. The Company may incur additional charges for international restructuring in Fiscal 2018. The magnitude is dependent on a number of factors, including negotiating third-party agreements, adherence to notification requirements and local laws.

(In thousands)	For the years ended	
	February 3, 2018	January 28, 2017
Severance and related employee costs	\$ 10,660	\$ 295
Lease termination and store closure costs	\$ 9,951	\$ 295
Total cash restructuring charges (1)	20,611	590
Joint business venture charges (2)	7,964	—
Inventory charges (3)	1,669	—
Asset impairment charges (4)	—	20,576
Total impairment and restructuring charges	\$ 30,244	\$ 21,166

(1) Cash charges of \$20.6 million and \$0.6 million for Fiscal 2017 and Fiscal 2016 respectively, for lease termination, store closures and severance were recorded within Impairment and Restructuring Charges on the Consolidated Statements of Operations

(2) \$8.0 million (\$3.5 million cash and \$4.5 million non-cash) of net charges for Fiscal 2017 related to the planned exit of a joint business venture were recorded within Other (Expense) Income, Net on the Consolidated Statements of Operations

(3) Non-cash inventory charges of \$1.7 million for Fiscal 2017 related to restructuring activities for our United Kingdom and Asia markets recorded as a reduction in Gross Profit on the Consolidated Statements of Operations.

(4) Non-cash impairment charges of \$20.6 million for Fiscal 2016 consisting of \$7.2 million for the impairment of all Company-owned retail stores in the United Kingdom, Hong Kong and China, as well as \$10.8 million of impairment and restructuring charges related to non-store corporate assets that support the international retail stores and e-commerce operations and \$2.5 million of goodwill impairment for the China and Hong Kong retail operations.

A rollforward of the liabilities recognized in the Consolidated Balance Sheet is as follows:

(In thousands)	February 3, 2018
Accrued liability as of January 28, 2017	\$1,175
Add: Costs incurred, excluding non-cash charges	24,113
Less: Cash payments and adjustments	(17,638)
Accrued liability as of February 3, 2018	\$7,650

The accrued liability as of January 28, 2017 relates to previous restructuring activities disclosed in the Company's Fiscal 2016 Form 10-K, which remain unpaid at the beginning of Fiscal 2017.

16. Discontinued Operations

In 2012, the Company exited the 77kids business. In connection with the exit of the 77kids business, the Company became secondarily liable for obligations under lease agreements for 21 store leases assumed by the third-party purchaser. In Fiscal 2014, the third-party purchaser did not fulfill its obligations under the leases, resulting in the Company becoming primarily liable. The Company was required to make rental and lease termination payments and received reimbursement from the \$11.5 million stand-by letter of credit provided by the third-party purchaser. The cash outflow for the remaining lease termination costs was paid in Fiscal 2015.

In accordance with ASC 460, Guarantees ("ASC 460"), as the Company became primarily liable under the leases upon the third-party purchaser's default, the estimated remaining amounts to terminate the lease agreements were accrued in our Consolidated Financial Statements related to these guarantees.

There are no accrued liabilities for the years ended February 3, 2018 and January 28, 2017.

Edgar Filing: AMERICAN EAGLE OUTFITTERS INC - Form 10-K

The table below presents the significant components of 77kids' results included in Gain from Discontinued Operations on the Consolidated Statements of Operations for the year ended January 30, 2016. There were no discontinued operations for the years ended February 3, 2018 or January 28, 2017.

	For the Year Ended January 30, 2016
Total net revenue	\$ —
Gain from discontinued operations, before	
income taxes	\$ 7,831
Income tax benefit	(2,984)
Gain from discontinued operations, net of	
tax	\$ 4,847
Gain per common share from discontinued	
operations:	
Basic	\$ 0.02
Diluted	\$ 0.02

17. Quarterly Financial Information — Unaudited

The sum of the quarterly EPS amounts may not equal the full year amount as the computations of the weighted average shares outstanding for each quarter and the full year are calculated independently.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to the management of American Eagle Outfitters, Inc. (the “Management”), including our principal executive officer and our principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, Management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

As of the end of the period covered by this Annual Report on Form 10-K, the Company performed an evaluation under the supervision and with the participation of Management, including our principal executive officer and principal financial officer, of the design and effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act. Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this Annual Report, our disclosure controls and procedures were effective in the timely and accurate recording, processing, summarizing and reporting of material financial and non-financial information within the time periods specified within the SEC’s rules and forms. Our principal executive officer and principal financial officer also concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our Management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Management’s Annual Report on Internal Control Over Financial Reporting

Our Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) or Rule 15(d)-15(f) under the Exchange Act). Our internal control over financial reporting is designed to provide a reasonable assurance to our Management and our Board that the reported financial information is presented fairly, that disclosures are adequate, and that the judgments inherent in the preparation of financial statements are reasonable.

All internal control systems, no matter how well designed, have inherent limitations, including the possibility of human error and the overriding of controls. Therefore, even those systems determined to be effective can provide only reasonable, not absolute, assurance with respect to financial statement preparation and presentation.

Our Management assessed the effectiveness of our internal control over financial reporting as of February 3, 2018. In making this assessment, our Management used the framework and criteria set forth in Internal Control – Integrated Framework (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, our Management concluded that the Company’s internal control over financial reporting was effective as of February 3, 2018.

Our independent registered public accounting firm, Ernst & Young LLP, was retained to audit the Company’s financial statements included in this Annual Report on Form 10-K and the effectiveness of the Company’s internal control over

financial reporting. Ernst & Young LLP has issued an attestation report on our internal control over financial reporting as of February 3, 2018, which is included herein.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) during our most recently-completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of American Eagle Outfitters, Inc.

Opinion on Internal Control over Financial Reporting

We have audited American Eagle Outfitters, Inc.'s internal control over financial reporting as of February 3, 2018, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, American Eagle Outfitters, Inc. (the Company) maintained, in all material respects, effective internal control over financial reporting as of February 3, 2018, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of February 3, 2018 and January 28, 2017, the related consolidated statements of operations, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended February 3, 2018, and the related notes, and our report dated March 16, 2018 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
