Item 8.01 Other Events.

On May 4, 2016, we entered into a Contribution, Conveyance and Assumption Agreement (CCAA) with Phillips 66 Partners GP LLC (our General Partner), Phillips 66 Company, and Phillips 66 Project Development Inc. (P66 PDI), each a wholly owned subsidiary of Phillips 66. Pursuant to the CCAA, we agreed to acquire from P66 PDI, through a series of intercompany contributions, the remaining 75 percent interest in Phillips 66 Sweeny Frac LLC and 100 percent of the Standish Pipeline (the Subsequent Fractionator Acquisition).

On February 17, 2016, we entered into a CCAA with our General Partner, Phillips 66 Company and P66 PDI to acquire from P66 PDI, through a series of intercompany contributions, a 25 percent controlling interest in Phillips 66 Sweeny Frac LLC (the Initial Fractionator Acquisition).

Through the Initial Fractionator Acquisition and Subsequent Fractionator Acquisition (collectively, the Acquisitions), we acquired the following assets (the Acquired Assets):

Sweeny NGL Fractionator. The newly constructed natural gas liquids (NGL) fractionator is located within Phillips 66's Sweeny refinery complex in Old Ocean, Texas, and has a processing capacity of 100,000 barrels per day. The NGL fractionator uses distillation to process a raw (Y-grade) NGL stream into its individual purity components, such as propane and butane.

Clemens Caverns. The newly constructed underground salt dome NGL storage facility located near Brazoria, Texas. The Clemens Caverns facilitate handling of Y-grade NGL for input into the Sweeny NGL Fractionator, as well as storage of purity NGL products produced by the fractionator.

Standish Pipeline. This 92-mile refined petroleum product pipeline extends from Phillips 66's refinery in Ponca City, Oklahoma, to our terminal in Wichita, Kansas.

The Initial Fractionator Acquisition closed on March 1, 2016, and the Subsequent Fractionator Acquisition closed on May 10, 2016.

The Acquisitions were transfers of businesses between entities under common control, which require them to be accounted for as if the transfers had occurred at the beginning of the period of transfer, with financial statements for prior periods retrospectively adjusted to furnish comparative information. On May 3, 2016, we filed a Current Report on Form 8-K (the Initial Form 8-K) to provide financial statements and related notes with retrospective adjustments to include the results of operations and financial position of the assets acquired in the Initial Fractionator Acquisition for all periods presented in our Annual Report on Form 10-K for the year ended December 31, 2015, as filed with the Securities and Exchange Commission on February 12, 2016. This Current Report on Form 8-K further adjusts our results of operations and financial condition to give retrospective adjustment to the Subsequent Fractionator Acquisition.

Included herein as Exhibit 99.3 are the audited consolidated financial statements of the Partnership as of December 31, 2015 and 2014, and for each of the three years in the period ended December 31, 2015. These audited consolidated financial statements give retrospective effect to the Subsequent Fractionator Acquisition, and update the Initial Form 8-K. Included herein as Exhibit 99.1 is Selected Financial Data, which is derived from the audited consolidated financial statements, and updates Exhibit 99.1 in the Initial Form 8-K. Included herein as Exhibit 99.2 is Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosure about Market Risk, which updates Exhibit 99.2 in the Initial Form 8-K.
