The Group's business and general information

Cresud was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

In 2002, Cresud acquired a 19.85% interest in IRSA, a real estate company related to certain shareholders of Cresud. In 2009, Cresud increased its ownership percentage in IRSA to 55.64% and IRSA became Cresud's directly principal subsidiary.

Cresud and its subsidiaries are collectively referred to hereinafter as the Group.

IFISA is the parent company and is a corporation established and domiciled in Uruguay, and IFIS Limited is the ultimate parent company.

These Financial Statements have been approved for issue by the Board of Directors on February 13, 2017.

As of December 31, 2016, the Group operates in two major lines of business: (i) agricultural business and (ii) urban properties and investments business, which is divided into two operations centers: (a) Operations Center in Argentina and (b) Operations Center in Israel. They are developed through several operating companies and the main ones are listed below:

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

1.
The Group's business and general information (Continued)

Within Operations center in Israel, IDBD has diverse debts containing restricted covenants, which have been successively negotiated, resulting in several waivers actually in force. IDBD estimates that if the original covenants of such debts were to become effective again, it would not be able to honor them. Non-compliance could have the effect of creditors requiring immediate repayment of the debt. Yet, there are restrictions as to the payment of dividends based on the indebtedness level in some of IDBD's subsidiaries. IDBD has projected future cash flows and expects to have the required liquidity to meet its commitments through the issuance of new debt in Israel, the sale of financial assets such as Clal and from dividend received from Clal and others. IDBD could also secure additional financing through the private issuance of equity securities.

On December 2013, was published in the Official Gazette of Israel the Promotion of Competition and Reduction of Concentration Law, 5774-2013 ("the Concentration Law") which has material implications for IDBD and its investments, including a potential delisting of IDBD or DIC so as to no longer trade its shares publicly or a merger between IDBD and DIC.

All factors mentioned above, mainly (i) IDBD's current financial position and need of financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern. These financial statements do not include the adjustments or reclassifications related to the valuation of IDBD's assets and liabilities that would be required if IDBD were not able to continue as a going-concern.

The Group is and will continue working to address the uncertainties described above.

The financial position of IDBD and its subsidiaries at the operations center in Israel does not affect the financial position of Cresud and its subsidiaries at the operations center in Argentina.

Cresud and its subsidiaries are not facing financial constraints and are compliant with their financial commitments. In addition, the commitments and other covenants resulting from the loan granted to IDBD do not have impact on Cresud since such loan has no recourse against Cresud and it is not secured by Cresud's assets.

There are no significant uncertainties as to the capacity of the Group, as a whole, to operate as a going-concern perspective, with such uncertainties being limited to the operations in Israel.

2.
Summary of significant accounting policies

2.1.
Basis of preparation of the Unaudited Financial Statements

The present Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Group as of June 30, 2016, prepared in accordance with IFRS in force. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of CNV. Such information is included in notes to the Financial Statements according to IFRS.

These Financial Statements corresponding to the six-month periods ended as of December 31, 2016 and 2015 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. Results for the six-month periods ended December 31, 2016 and 2015 do not necessarily reflect the proportion of the Group's full year results.

IDBD's fiscal year ends on December 31 each year and the Company's fiscal year ends on June 30. Furthermore, IDBD's quarterly and annual reporting follows the guidelines of Israeli standards, which means that the information is only available after the applicable statutory terms in Argentina. Therefore, the Company is not able to include IDBD's quarterly results in its financial statements to be filed with the CNV within the applicable statutory terms in Argentina. The Company consolidates IDBD's results of operations with a three-month lag, adjusted by the effects of material transactions that may have taken place during the reported period.

Under IAS 29 "Financial Reporting in Hyperinflationary Economies", the financial statements of an entity whose functional currency belongs to a hyperinflationary economy, regardless of whether they apply historic cost or current cost methods, should be stated at the current unit of measure as of the date of these Unaudited Condensed Interim Consolidated Financial Statements. For such purpose, in general, inflation is to be computed in non-monetary items from the acquisition or revaluation date, as applicable. In order to determine whether an economy is to be considered hyperinflationary, the standard lists a set of factors to be taken into account, including an accumulated inflation rate near or above 100% over a three year period.

As of December 31, 2016, it is not possible to compute the accumulated inflation rate for the three year period ending on that date based on the official statistics of the INDEC (Argentina Statistics Office), because in October 2015, the INDEC ceased to compute the Wholesale Domestic Price Index (IPIM, as per its Spanish acronym), and started to compute it again as from January 2016.

2.
Summary of significant accounting policies (Continued)

As of the date of these Unaudited Condensed Interim Consolidated Financial Statements, the Argentine peso does not meet the conditions to be treated as the currency of a hyperinflationary economy, pursuant to the guidelines set forth by IAS 29. Therefore, these Unaudited Financial Statements have not been restated in constant currency.

However, over the last years, certain macroeconomic variables affecting business in the operations center Argentina, such as payroll costs, input prices and service rates, have experienced significant annual changes. This factor should be taken into consideration in assessing and interpreting the financial condition and results of operations of the Company in these financial statements.

2.2
Significant accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements under IFRS as described in Note 2 to the Annual Financial Statements as of June 30, 2016, except for what is mentioned in Note 2.2.1.

2.2.1
Adjustment due to change to accounting standards

During the reported period, the Group has adopted the changes to IAS 16 "Property Plant and Equipment" and to IAS 41 "Agriculture" in relation to production plants. These amendments imply changes in accounting policies and have the following impact on the financial situation and results of operations of the Group, already recognized in the financial statements.

On June, 2014 the International Accounting Standards Board issued the amendments to IAS 16 "Property, plant and equipment" and to IAS 41 "Agriculture" whereby it distinguished between bearer plants and other biological assets. Production plants are solely used for product development and its operation is similar to that of manufacturing machinery. As a result, amendments require bearer plants to be accounted for as property, plant and equipment and covered by IAS 16, rather than IAS 41. However, the produce growing on bearer plants will continued to be governed by IAS 41 and will continue to be valued at fair value minus selling costs.

Group's sugarcane fields are recognized as bearer plants under the new definition included in IAS 41. Under IAS 8, modifications are to be applied retrospectively; therefore, the sugarcane field will be reclassified under "Property, plant and equipment" and valued at depreciated cost as from July 1, 2016, with comparative balances being revised retrospectively. Sugarcane fields are depreciated over its useful life under the balance declining method based on the expected yield.

2.3

Use of estimates

The preparation of financial statements at a certain date requires the Management of the Group to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

2.
Summary of significant accounting policies (Continued)

In the preparation of these Unaudited Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the financial statements for the year ended as of June 30, 2016, as described in Note 5 to those financial statements.

2.4
Comparability of information

Amounts as of June 30, 2016 and December 31, 2015 which are disclosed for comparative purposes have been taken from financial statements then ended, except for changes described in Note 2.2.1.

As required by IFRS 3, the information of IDBD is included in the financial statements of the Group as from takeover was secured, that is from October 11, 2015 and the prior periods are not modified by this situation. In addition, due to the time lag in getting income data from IDBD as indicated in Note 2.1., income for the six months ended on December 31, 2015 are not included in the income derived from that subsidiary; therefore, the consolidated financial information as of December 31, 2015 is not comparative.

3.
Seasonal effects on operations

Agricultural business

Some of the Group's businesses are more affected by seasonal effects than others. The operations of the Group's agricultural business are subject to seasonal effects. The harvests and sale of grains in Argentina generally take place each year since March in the case of corn and soybean, since October in the case of wheat, and since December in the case of sunflower. In Brazil, the harvest and sale of soybean take place since February, and in the case of corn weather conditions make it possible to have two seasons, therefore the harvest take place between March and July. In Bolivia, weather conditions also make it possible to have two soybeans, corn and sorghum seasons and, therefore, these crops are harvested in July and May, whereas wheat is harvested in August and September, respectively. In the case of sugarcane, harvest and sale take place between April and November of each year. Other segments of the agricultural business, such as beef cattle and milk production tend to be more stable. However, beef cattle and milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results across quarters.

3.
Seasonal effects on operations (Continued)

Urban Properties and Investments business

Operations Center in Argentina

The operations of the Group's shopping centers are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also impact the business. As a consequence, for shopping center operations, a higher level of business activity is expected in the period ranging between July and December, compared to the period between January and June.

Operations Center in Israel

The operations of the Shufersal supermarket chain are subject to fluctuations of quarterly sales and income due to the increase in activity during religious holidays in different quarters throughout the year. For instance, in Pesaj (Passover) between March and April, and the Jewish New Year, sometime between September and October each year.

The results of operations of Cellcom and IDBD Tourism are also usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4.
Acquisitions and disposals

Below are detailed the significant acquisitions and disposals for the six-month period ended December 31, 2016. The significant acquisitions and disposals for the fiscal year ended June 30, 2016, are detailed in Note 3 to the Annual Financial Statements at that date.

A.
Acquisition of equity interest in EHSA

On July 2016, the Group through IRSA Propiedades Comerciales acquired 20% of EHSA shares, a company of which it already owned 50%, and 1.25% of Entretenimiento Universal S.A. ("ENUSA"). The amount paid for the acquisition was Ps. 53. As a result of this, the Group holds 70% of the share capital and voting stock of EHSA. In addition, EHSA holds, both directly and indirectly, 100% of the shares of OGDEN Argentina S.A. ("OASA") and 95% of the shares of ENUSA.

Acquisitions and disposals (Continued)

Furthermore, OASA holds 50% of the voting stock of La Rural S.A. ("LRSA"), a company that holds the rights to commercially operate the emblematic "Predio Ferial de Palermo" in the Autonomous City of Buenos Aires, where the Sociedad Rural Argentina ("SRA") holds the remaining 50%.

The Group is analyzing the allocation of the price paid across various net assets acquired; therefore, the information presented below is preliminary and subject to changes. The following chart shows the consideration paid, the fair value of the acquired assets, the assumed liabilities and the non-controlling interest as of the acquisition date:

	Jul-16

B.

Share-holding increase in Shufersal

On September 12, 2016, the Group through DIC, acquired 9,097,127 of Shufersal's shares, so that the company's equity interest in Shufersal's share capital increased from approximately 53.89% to around 58.17%. In addition, on December 12, 2016 DIC repurchased 5,3 million shares of Shufersal for an amount of NIS 75 million (equal to Ps. 297), thus increasing its equity interest to approximately 60.67%.

Acquisitions and disposals (Continued)

C.
Acquisition of DIC shares

On September 23, 2016 Tyrus acquired from IDBD 8,888,888 of DIC's shares for a total amount of NIS 100 million (equivalent to Ps. 401), which represent 8.8% of the Company's outstanding shares. As a result of this transaction, the equity interest of the Group in DIC has increased by 3.28% without actual cash movements in the financial statements.

D.
Partial sale of equity interest in PBC

DIC sold 12% of its equity interest in PBC for a total amount of NIS 217 million (equivalent to Ps. 810); as a result, DIC's interest in PBC has declined to around 64.4%.

E.
Partial sale of equity interest in Gav Yam

On December 5, 2016, PBC sold 280,873 shares of its subsidiary Gav-Yam Land Corporation Ltd. for an amount of NIS 391 million (equivalent to Ps. 1,616). As a result of this transaction, the equity interest of the Company has decreased from 69.06% to 55.06%.

F.
Sale of Adama

On July 17, 2016 DIC has informed the market that it had accepted the tender offer by ChemChina to acquire 40% of Adama's shares currently held by Koor, indirectly controlled by IDBD through DIC. In August 2016, Koor and a subsidiary of ChemChina executed the corresponding agreement. The price of the transaction included a payment in cash of US\$ 230 million plus the total repayment of the non-recourse loan and its interests, which had been granted to Koor by a Chinese bank. Completion of the sale transaction was subject to several previous conditions, the most important of which referred to obtaining the regulatory authorizations in China, the approval of the antitrust authorities and the Chinese bank that granted the non-recourse loan as part of the loan assignment agreement. On November 22, 2016, the sale transaction was finalized and Koor received cash in the amount of US\$ 230 million. The interest of the Company in the results of Adama and the financing expenses related to the hybrid financial instrument are classified as discontinued operations in the Group's Consolidated Statements of Income / (Operations) as from July 17, 2016 on a retroactive basis. (Notes 33 and 34).

Acquisitions and disposals (Continued)

G.
Negotiations between Isirair and Sun D'or

On December 31, 2016 IDB Tourism was at an advanced stage of negotiations with Sun D'or International Airlines Ltd. ("Sun D'or"), a subsidiary of El Al Israel Airlines Ltd. ("EI Al"), which consists of:

- Isirair would sell the aircraft it owns through a purchase and lease agreement for an estimated value of US\$ 70 million.
- Following the sale of aircraft units, IDB Tourism would receive US\$ 45 million plus 25% of Sun D'Or's shares, with El Al retaining a 75% equity interest in such company.
- The parties would enter into a shareholder agreement that would give El Al a call option (and a sale option to IDB Tourism) for the acquisition of Sun D'Or's shares in accordance with a price and terms that would be established in due course.

As a consequence of this process, the Group's financial statements as of December 31, 2016 record the investment in Isirair as assets and liabilities held for sale, and a loss of nearly NIS 56 million (equivalent to Ps. 231), as a result of measuring these net assets at the estimated recoverable value.

It should be noted that as of the filing date of these financial statements the parties have not signed a memorandum of understanding and/or binding agreement regarding the transaction scheme and/or the transaction terms; and that should the transaction take place, it will be subject to the legally required approvals, including the approval from the Antitrust Commissioner. Insofar as an agreement be signed, the transaction is expected to be finalized by the end of 2017.

5.
Financial risk management and fair value estimates

5.1.
Financial risk

The Group's activities expose it to a variety of financial risk: market risk (including foreign currency risk, interest rate risk, indexing risk due to specific clauses and other price risk), credit risk, liquidity risk and capital risk. Within the Group, risk management functions are conducted in relation to financial risks associated to financial instruments to which the Group is exposed during a certain period or as of a specific date.

Given the diversity of characteristics in the activities conducted under its operations center, the Group has decentralized the risk management policies geographically based on its two operations center in order to identify and properly analyze the various types of risks to which each of the subsidiaries is exposed.

5.
Financial risk management and fair value estimates (Continued)

These financial statements do not include all the information and disclosures of the risk management, so they should be read together with Note 4 to the Financial Statements as of June 30, 2016. There have been no changes in the risk management or risk management policies applied by the Group since the fiscal year-end.

5.2.
Fair value estimates

Since June 30, 2016, as of the date of these Unaudited Condensed Interim Consolidated Financial Statements, there have been no significant changes in business or economic circumstances affecting the fair value of the Group's assets and liabilities (either measured at fair value or amortized cost). Neither have been transfers between the several tiers used in estimating the fair value of the Group's financial instruments.

6.
Segment information

As explained in Note 6 to the Annual Financial Statements, since the Group obtained control over IDBD, the financial and net worth performance is reported separately in two centers of operations. Within the Operations center in Argentina, there have been no changes in the business segments or the financial reporting criteria thereof. In Operations center in Israel, as reported in Note 4 to these financial statements, the Group stopped including Agrochemicals as a reportable segment, following the sale of Adama.

Restrictions, commitments and other relevant issues

Cellcom

As mentioned in Note 7 to the Financial Statements as of June 30, 2016, Cellcom was in dispute with Golan. In January 2017, Golan was acquired by Electra and signed an agreement with Cellcom regarding the use of its network and hosting services. Additionally, Cellcom agreed to provide Golan - on the effective day the agreement for the purchase of Golan by Electra - with a loan for NIS 130 million for a term of 10 years, which shall be repaid in 6 semi-annual installments starting on the eight anniversary of the execution of the agreement. The loan will be backed by several assets of Golan. It should be noted that the performance of the agreement is being hindered by interested third parties.

Analysis of the impact of the Concentration Act

As mentioned in Note 7 to the Financial Statements as of June 30, 2016, IDBD is analyzing the implications of the Concentration Law. As of the date of these Unaudited Condensed Interim Consolidated Financial Statements, IDBD continues on this analysis process.

PBC and consulting agreement with Rock Real

In November 2009, PBC's audit committee and board of directors approved the agreement with Rock Real whereby the latter would look for and propose to PBC the acquisition of commercial properties outside Israel, in addition to assisting in the negotiations and management of such properties. In return, Rock Real would receive 12% of the net income generated by the acquired real property. Pursuant to appendix 16 of the Israel Commercial Act 5759-1999, the agreement must be ratified by the Audit Committee before the third year after the effective date; otherwise, it expires. The agreement has not been ratified by the audit committee within such three-year term, so in January 2017, PBC issued a statement that hinted at the expiration of the agreement and informed that it would begin negotiations to reduce the debt that currently amounts to NIS 155 million (or Ps. 640).

Dolphin arbitration process

As mentioned in note 3 to the Annual Financial Statements there is an arbitration process going on between Dolphin and ETH in relation to certain issues connected to the control obtainment of IDBD. As of the date of these financial statements, there is no news in relation to the case and the proceeding is pending of resolution.

Amortization charges of intangible assets are included in "General and administrative expenses" in the Statement of Income / (Operations) (Note 26). There is no impairment charges for any of the periods / years presented.

(ii)

Includes "Rights of use". Corresponds to Distrito Arcos.

(iii)

Includes "Rights to receive future units under barter agreements". Correspond to receivables in kind representing the right to receive residential apartments in the future by way of barter agreements. Caballito: on June 29, 2011, the Group and TGLT entered into a barter agreement in the amount of US\$ 12.8. In 2013 a neighborhood association secured a preliminary injunction which suspended the works to be carried out by TGLT in the property and started a claim against GCBA and TGLT. As a consequence of the unfavorable rulings rendered by lower courts and appellate courts in the cited proceeding, the Group and TGLT reached a settlement agreement dated December 30, 2016, whereby they agree to provide a deed for the revocation of the barter agreement, after TGLT resolves certain issues. Consequently, the Group has decided to deregister the intangible asset related to this transaction, thus recognizing a loss of Ps. 27.7.

Clal

As mentioned in Note 16 to the annual financial statements, IDBD is subject to a judicial process on the sale of its equity interest in Clal. As of the date of this Unaudited Condensed Interim Consolidated Financial Statement, there was no further information on the subject. It should be noted that on December 31, 2016 the Group was obliged to sell the 10% interest in Clal. Clal appealed to the Israel Concentration Committee asking that the significant company status be reviewed and Dolphin also presented an appeal with the Supreme Court of Israel. The Group cannot estimate the outcome of such appeals.

The following table presents the changes in Level 3 financial instruments for the six-month period ended December 31, 2016 and the year ended June 30, 2016.

The valuation models used by the Group for the measurement Level 2 and Level 3 instruments are no different from those used as of June 30, 2016. See Note 16 to the annual financial statements.

When no quoted prices in an active market are available, fair values (particularly derivatives) are based on recognized valuation methods. The Group uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model / method	Parameters	Range
Trade and other receivables - Cellcom	Discounted cash flows	Discount rate.	3.3
Interest-rate swaps	Cash flows - theoretical price	Interest rate futures contract and cash flow forward contract.	-
Preferred shares of Condor	Binomial tree - Theoretical price I	Underlying asset price (market price) and share price volatility (historical) and market interest rate (Libor curve).	Price of underlying assets 1.8 to 2.2 Share price volatility 58% to 78% Market interest-rate 1.7% to 2.1%
Promissory note	Discounted cash flows - Theoretical price	Market interest-rate (Libor rate curve).	Market interest-rate 1.8% to 2.2% Price of underlying assets 1.8 to 1.7
Warrants of Condor	Black-Scholes – Theoretical price	Underlying asset price (market price) and share price volatility (historical) and market interest rate (Libor curve).	Share price volatility 58% to 78% Market interest-rate 1.7% to 2.1%
Call option of Arcos	Discounted cash flows	Projected revenues and discounting rate.	-
Avenida Inc.	Market approach valuation	Assets and liabilities market value	-
Investments in financial assets - Other private companies securities	Cash flows / NAV – Theoretical price	Projected revenue discounted at the discounting rate / The value is calculated in accordance with the company's shares in the equity funds on the basis of its financial statements, based on fair value or investment	1 - 3.5

Investments in financial assets - Others	Discounted cash flows – Theoretical price	assessments. Projected revenue discounted at the discounting rate / The value is calculated in accordance with the company's shares in the equity funds on the basis of its financial statements, based on fair value or investment assessments. 1 - 3.5

(i)
Additions and recoveries are included in "Other operating results, net".

(ii)
Corresponds to the interest in New Lipstick and Condor with negative equity. Additions and recoveries are included in "Share of profit / (loss) of joint ventures and associates".

(iii)
The Group's companies are required to recognize certain costs related to dismantling assets and remediating sites here such assets are located. The calculation of expenses are based on the dismantling value for the current year, taking into consideration the best estimate of future changes in prices, inflation, etc. and such costs are capitalized at a risk-free interest rate. Volume projections for retired or built assets are restated based on expected changes from technological

rulings and requirements.

(iv)

Provisions for other contractual liabilities include a series of liabilities resulting from a contractual liability or laws, regarding which there is a high degree of uncertainty as to the terms and the necessary amounts to discharge such liability.

As mentioned in Note 22 to the Annual Financial Statements, on February 23, 2016, a class action was filed against the Company, IRSA, some first-line managers and directors with the District Court of the United States for the Central District of California. The complaint, on behalf of people holding American Depositary Receipts of the Company between November 3, 2014 and December 30, 2015, claims presumed violations to the US federal securities laws. In addition, it argues that defendants have made material misrepresentations and made some omissions related to the Company's investment in IDBD.

Provisions (Continued)

Such complaint was voluntarily waived on May 4, 2016 by the plaintiff and filed again on May 9, 2016 with the US District Court by the East District of Pennsylvania.

Furthermore, the Company, some of its first-line managers and directors are defendants in a class action filed on April 29, 2016 with the US District Court of the East District of Pennsylvania. The complaint, on behalf of people holding American Depositary Receipts of the Company between May 13, 2015 and December 30, 2015, claims violations to the US federal securities laws. In addition, it argues that defendants have made material misrepresentations and made some omissions related to the IRSA's investment in IDBD.

Subsequently, the Company and IRSA requested that the complaint be moved to the district of New York, which request was granted.

The Company holds that such allegations are meritless and intends to make a strong defense in this action.

Urban properties and investment business of the operations center in Argentina

On September 1, 2016, Non-Convertible Notes Class VII and VIII were tendered under the Program approved by the Shareholders' Meeting for up to US\$ 300 million. The settlement took place on September 8, 2016. The results are shown below:

Non-convertible notes Class VII for an amount of Ps. 384.2 to be matured 36 months after the issuing date, which accrue interest at an annual floating interest rate, Badlar plus 299 basis points, interest payable on a quarterly basis. Principal will be amortized in only one installment due on September 9, 2019.

Non-convertible notes Class VIII for an amount of US\$ 184.5 million (equivalent to Ps. 2,771) to be matured 36 months after the issuing date, paid in and payable in US Dollars, which will accrue interest at an annual fixed interest rate of 7.0%, interest payable on a quarterly basis. Principal will be amortized in only one installment due on September 9, 2019.

Urban properties and investment business of the operations center in Israel

In July 2016, Shufersal repurchased NCN Series B for a nominal value of NIS 511 million (equivalents to Ps. 2,771) with an increase of the issue of NCN Series F by a ratio of 1.175 for each NIS 1 of the Series B. The NCN Series B acquired by Shufersal were cancelled and delisted. The swap transaction does not amount to an exchange of debt instruments because the terms are not substantially different. All expenses related to the bond swap have been deducted from outstanding balance of the debt and shall be amortized over the remaining term of it.

On August 2, 2016, IDBD has issued a new series of NCN in the Israeli market in an amount of NIS 325 million (equivalent to Ps. 1,213) due in 2019, at an annual IPC (indexed interest rate) plus 4.25%. These NCN are secured by shares of Clal subject to the approval of the Israel Commission of Capital Markets, Savings and Insurance. On September 15, 2016, the Supreme Court rendered an opinion on the use of Clal's shares as collateral and has requested the Capital Markets, Savings and Insurance Commission to explain the reasons why it does not allow IDBD to secure debentures with up to 5% of Clal shares. In January 2017, the Court ordered that IDBD should refrain from securing the debentures in excess of 5% of Clal's shares, as they are already securing in part a loan by Menorha.

22.
Borrowings (Continued)

In accordance with the decision rendered by the Supreme Court on the petition filed by IDBD to pledge Clal's shares in September, 2016, on October 13, 2016, the Board of Directors of IDBD resolved a partial early redemption of the debentures, which was effected on November 1, 2016 for an approximately amount of NIS 239 million at nominal value ("the redeemed portion") and represents a total of approximately NIS 244 million with respect to principal, interest and compensation for early redemption. The early redemption represented 73.7% of the outstanding principal balance of the debentures.

In addition, IDBD issued debentures (Series L) for a total of NIS 381 million (equal to Ps. 1,565). The debentures accrue interest at a rate of 6.95%. The principal will be repaid in a single payment on November 28, 2019. The first interest payment will be made on February 28, 2017 for the period spanning from the issue date to the payment date. The remaining interest payments will be made in 4 annual consecutive quarterly installments due in February, May, August and November each year. In order to ensure full compliance with all commitments, IDBD pledged DIC's shares for nearly 46.2 million.

On August 4, 2016, DIC issued further debentures due 2025 in an amount of NIS 360 million (equivalent to Ps. 1,344). The bonds were placed at an internal rate of return of 5.70%.

In October 2016, PBC issued debentures for NIS 102 million (equal to Ps. 417), at an annual effective rate of 2.99% indexed to the CPI, and also issued debentures for roughly NIS 497 million (equal to Ps. 2,055) at an effective rate of 4.10% with no CPI indexation clause.

IDBD has certain restrictions and financial covenants in connection with its financial debt, included in its debentures, loans from banks and financial institutions. It was agreed between IDBD and financial entities corporations that the parties would work to formulate an arrangement, to replace or amend the current financial covenants by March 2017. These covenants are currently suspended until December 2016. If such arrangement is not reached, then with respect to the results for IDBD's first quarter of 2017 and thereafter, the previous financial covenants will re-apply. In the event that these covenants will re-apply, IDBD estimates that it will not be able to meet the thresholds which were determined in the past with respect to the "Liquidity Covenant" and the "Economic Equity Covenant".

23. Taxation

The details of the provision for the Group's income tax is as follows:

	December 31, 2016	December 31, 2015
Current income tax	(410)	(174)
Deferred income tax	905	164
MPIT	-	(1)
Income tax	495	(11)

The statutory tax rate in the countries where the Group operates for all of the periods presented are:

Tax jurisdiction	Income tax rate
Argentina	35%
Brazil	between 25% - 34%
Uruguay	between 0% - 25%
Bolivia	25%
United States	between 0% - 45%
Bermudas	0%
Israel	24% (i)

(i) In December 2016, the Israeli government modified the income tax rate thereby generating a reduction from 25% to 24% for 2016 and 2017 calendar years, and to 23% for 2018 calendar year onwards. The change of interest rate for fiscal year 2016 became effective on December 29, 2016. The effect from the rate change is recorded as part of the deferred tax expense.

Below is a reconciliation between the income tax recognized and that which would result from applying the prevailing tax rate, applicable in the respective countries, on the income/loss before income tax for the six-month periods ended December 31, 2016 and 2015:

	December 31, 2016	December 31, 2015
Tax calculated at the tax rates applicable to profits in the respective countries	645	440
Permanent differences:		
Share of profit / (loss) of associates and joint ventures	146	(414)
Unrecognized tax losses	(104)	(8)
Reimbursement of tax losses	-	10
Non-taxable income	(35)	-
Non-deductible expenses	(2)	(36)
Others	(155)	(3)
Income tax from continuing operations	495	(11)

No charges have been reported for tax associated to discontinued operations.

Groups of assets and liabilities held for sale

As mentioned in Note 4, the investment in Israir has been reclassified to held for sale. Additionally, IDB Tourism is currently negotiating the sale of its equity interests in Open Sky Ltd., but the terms and conditions of such sale have not yet been finalized. The assets and liabilities related to the Open Sky Ltd. transaction have been also reclassified. In addition, the equity interest of the Group in Adama and the related non-recourse loan had been reclassified to held for sale before the disposal.

Pursuant to IFRS 5, assets and liabilities available for sale have been valued at the lower of their book value and fair value less cost of sale. Given that the book value of some assets was higher, an impairment loss of Ps. 231 has been recorded.

The following table shows the main assets and liabilities held for sale:

Group of assets held for sale:

CNV General Ruling N° 629/14 – Storage of documentation

On August 14, 2014, the CNV issued General Ruling N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should be noted that the Group has entrusted the storage of certain non-sensitive and old information to the following providers:

Documentation storage provider	Location
Bank S.A.	Gral. Rivas 401, Avellaneda, Province of Buenos Aires

CNV General Ruling N° 629/14 – Storage of documentation (Continued)

It is further noted that a detailed list of all documentation held in custody by providers, as well as documentation required in section 5 a.3) of section I, Chapter V, Title II of the RULES (N.T. 2013 as amended) are available at the registered office.

On February 5, 2014 there was a widely known fire in Iron Mountain's warehouse, which company is a supplier of the Group and where Group's documentation was being kept. Based on the internal review carried out by the Group, duly reported to the CNV on February 12, 2014, the information kept at the Iron Mountain premises that were on fire do not appear to be sensitive or capable of affecting normal operations.

Subsequent events

IDBG and subsidiaries

In January 2017, IDBG received a loan from an Israeli financial entity in the amount of US\$ 41.4 million. Principal will be reimbursed after the lapse of two years and shall accrue interest at 7%. The loan is backed by IDBD and PBC (jointly and severally). In addition, the due date has been extended to December 31, 2018 for a bank loan in the amount of US\$ 59 million granted by a US bank to a subsidiary of IDBG (Great Wash Park LLC) which is building a shopping center in Las Vegas, Nevada.

Comparaencasa LTD

In January 2017, the Group acquired, through Tyrus, 69,750 shares which represent a 12.5% equity interest in Comparaencasa Ltd., a company registered in the United Kingdom engaged in the search, comparison and selection of products and/or services offered on the Internet, mainly car insurance and related products, for the Argentine Republic. The transaction price was US\$ 1 million, which has already been fully paid. Additionally, Tyrus received warrants for the purchase of shares in future capital increases for up to US\$ 1.5 million, with a 35% discount, which warrants will be effective for 5 years.

Avenida Inc.

On January 20, 2017, as part of a corporate reorganization process, Avenida Inc., carried out a 100,000,000:1 reverse stock split and issued additional capital in which the Group and other minority investors took part. The transaction price was US\$ 0.5 million, which has already been fully paid at the date of these Financial Statements.

Also, the Group has an option (warrant) to acquire other 4,421,093 Series I preferred shares at a price per share of US\$ 0.01 for a term of 18 months and until the issuance of capital, whichever takes place earlier, subject to certain conditions.

Subsequent events (Continued)

Condor

On January 24, Condor issued new warrants (150,540) held by RES, which is 66.7% owned by the Group, to replace the warrants held to that date (3,750,000 warrants each with a right to one share at an exercise price of US\$ 1.92, expiring on January 31, 2017). The new warrant entitles the holder to receive 150,540 ordinary shares at an exercise price of US\$ 0.001 with expiration in January 2019.

Acquisition of farmland by our subsidiary Brasilagro

In February 2007, Brasilagro entered into a sale and lease agreement for a farmland property located in the municipality of São Raimundo das Mangabeiras, in the state of Maranhão. The sale agreement consists in the acquisition of 17,566 hectares, of which 10,000 are developed and productive lands that will be devoted to farming. The remaining 7,566 hectares consist of permanent conservation and legal reservation areas. The purchase price is Rs. 100.0 million (Rs. 10,000 per productive area), which will be paid in full upon fulfillment of certain prior conditions by sellers. The lease consists of 15,000 hectares of cultivable and developed land, already planted mostly with sugar cane. The agreement is valid for 15 years and renewable for another 15-years.

Cresca S.A. agreement

On October 5, 2016, Brasilagro and Carlos Casado entered into an agreement whereby they agree to offer for sale, for a term of 120 days, all of the real property owned by Cresca at a price of at least US\$ 120 million or else 100% of the outstanding shares of Cresca or divide Cresca's properties. On December 2016, the shareholders Brasilagro and Carlos Casado entered into agreements intended to carry out what had been agreed.

As of the date of these Unaudited Condensed Interim Consolidated Financial Statements, no tender offers have been received by the entity or any of its land properties and the shareholders are carrying out development and maintenance tasks pursuant to the agreements entered into.

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Legal address: Moreno 877 – 23° floor
Autonomous City Buenos Aires
Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (hereinafter “the Company”) which included the unaudited condensed interim consolidated statement of financial position as of December 31, 2016, and the unaudited condensed interim consolidated statements of income and comprehensive income for the six-month and three-month period ended December 31, 2016, the unaudited condensed interim consolidated statement of changes in shareholders’ equity and the unaudited condensed interim consolidated statement of cash flows for the six-month period ended December 31, 2016 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2016 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and , for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 1 of these unaudited condensed interim consolidated financial statements.

1. General information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (“Cresud” or the “Company”) was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier’s shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

Cresud is a company organized and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on February 13, 2017.

2.
Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1.
Basis of preparation

These Unaudited Condensed Interim Separate Financial Statements of the Company have been prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board (IASB).

On April 1, 2016, the Argentine Federation of Professional Councils of Economic Science ("FAPCE", as per its Spanish acronym) approved Technical Resolution N° 43, which amends Technical Resolution N° 26, for fiscal years starting on January 1, 2016. Such Technical Resolution N° 43 provides that entities that file financial statements in accordance with the IFRSs, are expected to do it integrally and without modifications and that investments in subsidiaries, joint ventures and associates are to be accounted under the equity method in the Separate Financial Statements, as established by IFRS, pursuant to the amendment established by the IASB to IAS 27 in August 2014. Thus, valuation at cost or fair value (which are additional measurements) is not permitted for these types of investments. Before such amendment, Technical Resolution N° 26 did not require an integral adoption of IFRS in Separate Financial Statements, since the equity method was not a valuation option for such investments.

The Company has adopted Technical Resolution N° 43 for this fiscal year ending on June 30, 2017. The financial statements corresponding to the period ended September 30, 2016 where the first Condensed Interim Separate Financial Statements prepared in accordance with the IFRS; its transition date is July 1, 2015 and, therefore, the provisions of IFRS 1 "First-Time Adoption of International Financial Reporting Standards" should be applied as of that date.

2.
Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

IFRS 1 mandatorily establishes that an entity must apply the requirements of IFRS 10 "Consolidated Financial Statements" for accounting of changes in a parent's ownership interest in a subsidiary that do not result in a loss of control prospectively. Under IFRS, the Company accounts for acquisitions and disposals of non-controlling interests that do not result in change of control as business combinations. The Group did not restate these acquisitions and disposals prior to transition date.

Furthermore, IFRS 1 also provides that, where a first time IFRS adopter entity decides to account for investments in subsidiaries under the equity method in accordance with IAS 28, the entity should apply the exemption for business combinations conducted before the transition date. This exemption involves applying IFRS 3 "Business Combinations" on a prospective basis to business combinations conducted after the transition date. Business combinations occurring prior to the transition date have not been restated.

The other compulsory and optional exceptions of IFRS 1 have not been applied, as these are not relevant to the Group.

Below there is a comparison between shareholders' equity computed under the previous standards and in accordance with IFRS 1 as of July 1, 2015.

Amounts as of June 30, 2016 and December 31, 2015, which are disclosed for comparative purposes have been modified in order to present the mentioned adjustments. The notes below include a reconciliation of shareholders' equity figures of Condensed Interim Separate Financial Statements prepared in accordance with the Technical Resolution N° 26 on the closing date of the comparative period and the statement of income and other comprehensive income figures for the six-month period ended December 31, 2015 and those presented in accordance with IFRS in these Unaudited Condensed Interim Separate Financial Statements.

The Unaudited Condensed Interim Separate Financial Statements of the Company for the six-month periods ended December 31, 2016 have been prepared in accordance with IAS 34 "Interim Financial Reporting".

2.2.
Reconciliations of Technical Resolution N° 26 to IFRS

The notes below include a reconciliation of shareholders' equity prepared in accordance with Technical Resolution N° 26 and those presented in accordance with IFRS as of June 30, 2016 and December 31, 2015, and the reconciliations of net income and cash flows for the year ended June 30, 2016 and for the six-month period ended December 31, 2015. The reconciliations included below were prepared based on the IFRS standards that are estimated to be applicable for the Company for the financial statements as of and for the year ended June 30, 2017. The items and amounts in the reconciliations included below are subject to change and should only be deemed final when the Consolidated Financial Statements prepared under IFRS for the first time as of and for the year ended June 30, 2013 are issued.

The items and amounts included in the reconciliations could be modified to the extent that, when preparing financial statements as of and for the year ended June 30, 2017, applicable standards are different.

The first reconciliation provides an overview of the impact on equity, at December 31, 2015 and June 30, 2016 (Note 2.2.1). The second reconciliation provides an overview of the impact on income for the six-month period ended as of December 31, 2015 (Note 2.2.2). The mentioned reconciliations do not have impact on other comprehensive income nor the statements of cash flows.

2.2.3

Explanation of the transition to IFRS

Technical Resolution N° 26 – The Company accounts for investments in subsidiaries under the equity method including any adjustment in the Consolidated Financial Statements, so that the equity and income corresponding to the majority interest resulting from Consolidated Financial Statements filed together with Separate Financial Statements are the same in both sets of financial statements.

IFRS - Investments in entities in which the Company exercises control, are accounted for under the equity method. Under this method, the investment is recorded at original cost and periodically increased (decreased) by the investor's proportionate share of earnings (losses) and other comprehensive income of the subsidiary and decreased by all dividends received from the subsidiary.

In accordance with IFRS 28, paragraph 27, the interest in the investee is computed based on the Consolidated Financial Statements of such investee after any adjustment related to unification of accounting criteria, without regard to any interest that the investee may have in other entities. As a result, the company has recognized its direct interest related to investments in subsidiaries, associates and companies under joint control, based on the Consolidated Financial Statements of such companies.

Below is an outline of the adjustments recorded as explained above in relation to transactions affecting the non-controlling interest reserve of its subsidiaries, associates and entities under joint control where the company holds a direct interest:

Acquisition of additional interests in controlled companies: the acquisition price in excess of the book value of the subsidiary is recorded as an increase in assets.

Sale of interest in controlling companies where control is not lost: the difference between the sale price charged for the shares and the book value is recorded in the statement of income.

Dilution of interest, other shareholders: the result caused by the interest dilution has been recorded in the statement of income.

The non-controlling interest reserve set up before July 1, 2015 has been reclassified under retained earnings.

2.3.

Significant accounting policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the annual financial statements as of June 30, 2016, except for the changes generated by implementation of Technical Resolution N° 43, as described in Note 2.1 and for the change of accounting standard mentioned in Note 2.2.1 to the condensed interim Consolidated Financial Statements.

2.4.

Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Future results might differ from the estimates and evaluations made at the date of preparation of these Unaudited Interim Condensed Separate Financial Statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the significant judgments made by Management in applying the Company's accounting policies and the main sources of uncertainty were the same applied by the Company in the preparation of the Separate Financial Statements for the fiscal year ended June 30, 2016, except for changes in provisions for income tax, for legal claims and for doubtful accounts.

3.

Seasonal effects on operations

The operations of the Company are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between January and September every year. Wheat is generally harvested between November and February every year. However, milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results each quarter.

4.

Acquisitions and disposals

See summary of acquisitions and additional disposals of the Company for the six-month period ended December 31, 2016 in Note 4 to Unaudited Condensed Interim Consolidated Financial Statements.

5.

Financial risk management and fair value estimates

5.1.

Financial risk

The Company's activities are exposed to several financial risks, market risk (including exchange rate risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The Unaudited Condensed Interim Separate Financial Statements do not include all the information and disclosures of the risk management, so they should be read together with the annual Separate Financial Statements as of June 30, 2016. There have been no significant changes in the risk management or risk management policies applied by the Company since the fiscal year-end.

5.2.

Fair value estimates

Since June 30, 2016, to the balance sheet date, there have been no significant changes in business or economic circumstances affecting the fair value of the Company's financial assets, liabilities or biological assets (either measured at fair value or amortized cost). Nor there have been transfers between the several hierarchies used in

estimating the fair value of the Company's financial instruments, or reclassifications among their respective categories.

6.

Information about principal subsidiaries, associates and joint ventures

The Company conducts its business through several subsidiaries, associates and joint ventures.

As mentioned in Note 1 to the Consolidated Financial Statements as of June 30, 2016, on October 11, 2015 IRSA acquired control over IDBD. This Israeli company is one of the largest and most significant conglomerates of Israel, which takes part in many markets and sectors of the industry. Factors namely (i) IDBD's current financial position and need for financing to honor its financial liabilities and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern.

Trade and other receivables (Continued)

The fair value of current trade and other receivables approximate their respective carrying amounts because, due to their short-term nature, as the impact of discounting is not considered significant. Fair values are based on discounted cash flows (Level 2 of fair value hierarchy).

The carrying amounts of the Company's trade and other receivables denominated in foreign currencies are detailed in Note 29.

Trade receivables are generally presented in the statement of financial position net of allowances for doubtful receivables. Impairment policies and procedures by type of receivables are discussed in detail in Note 2.16 to the Consolidated Financial Statements as of June 30, 2016.

Movements on the Company's allowance for doubtful accounts are as follows:

	December 31, 2016	June 30, 2016
Beginning of the period / year	8	8
Charges	-	-
End of the period / year	8	8

The addition and release of allowance for doubtful accounts have been included in "Selling expenses" in the statement of income (Note 22). Amounts charged to the provision account are generally written off when there is no expectation of recovering additional cash.

Borrowings (Continued)

The fair value of current borrowings at fixed-rate and current and non-current borrowings at floating-rate equals their carrying amount, as the impact of discounting is not significant. The fair value of all debts that are not quoted in the market are valued at their technical value that is nominal value plus accrued interest.

Book value of borrowings denominated in foreign currencies is detailed in Note 29.

The fair values of non-current borrowings at fixed rate (excluding finance leases) are as follows:

	December 31, 2016	June 30, 2016

CNV General Ruling N° 629/14 – Storage of documentation

On August 14, 2014, the CNV issued General Ruling N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should be noted that the Company has entrusted the storage of certain non-sensitive and old information to the following providers:

Documentation storage provider Location

Bank S.A. Ruta Panamericana Km 37,5, Garín, Province of Buenos Aires
Av. Fleming 2190, Munro, Province of Buenos Aires

Carlos Pellegrini 1401, Avellaneda, Province of Buenos Aires

Av. Amancio Alcorta 2482, Autonomous City of Buenos Aires

Iron Mountain Argentina S.A.

Cañada de Gomez 3825, Autonomous City of Buenos Aires

It is further noted that a detailed list of all documentation held in custody by providers, as well as documentation required in section 5 a.3) of section I, Chapter V, Title II of the RULES (2013 as amended) are available at the registered office.

On February 5, 2014 there was a widely known fire in Iron Mountain's warehouse, which is a supplier of the Company and where Company's documentation was being kept. Based on the internal review carried out by the Company, duly reported to CNV on February 12, 2014, the information kept at the Iron Mountain premises that were on fire do not appear to be sensitive or capable of affecting normal operations.

31.

Negative working capital

At the end of the period, the Company carried a working capital deficit of Ps. 400 whose treatment is being considered by the Board of Directors and the respective Management.

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Legal address: Moreno 877 – 23° floor
Autonomous City Buenos Aires
Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (hereinafter “the Company”) which included the unaudited condensed interim separate statement of financial position as of December 31, 2016, and the unaudited condensed interim separate statements of income and comprehensive income for the six-month and three-month period ended December 31, 2016, the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the six-month period ended December 31, 2016 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2016 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with the International Financial Reporting Standards (IFRS) adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim separate financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information

included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and the separate statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 6 of these unaudited condensed interim separate financial statements.

The Company's consolidated results reflect in all lines the material accounting impact of the consolidation of the investment made by our subsidiary IRSA Inversiones y Representaciones S.A. in the Israeli holding company IDB Development Corporation since IIQ16. Revenues and profits from operations for the first 6 months of 2017 reached ARS 38,696 million and ARS 2,026 million, respectively. In turn, the Company recorded net income of ARS 3,820 million (ARS 919 million attributable to CRESUD's shareholders) for the 6-month period of 2017, mainly explained by the results delivered by the operations center in Israel of our urban subsidiary IRSA Inversiones y Representaciones S.A., reflecting the sale of the agrochemical company Adama and the increase in the listing price of Clal Insurance company, recorded at fair value.

Agricultural Business

Period Summary

The 2017 season has been developing under the “El Niño” pattern in Argentina, with above-average rainfall rates. As of the date, we are finishing the planting stage of the area planned for this season, and we increased the area leased to third parties by 47% as compared to the previous season. Moreover, we expect sustained commodity prices for this season.

As concerns land development and sale of farmlands, during this season we increased the area under development as compared to the previous seasons, in light of the more favorable macroeconomic conditions, while we also managed to consummate the sale of two farms comprising 2,615 hectares intended for agriculture in the Province of La Pampa (Argentina) for USD 6 million during the first quarter of 2017.

Our Portfolio

Our portfolio is composed of 296,564 hectares in operation and 455,290 hectares of land reserves distributed among 4 countries in the region: Argentina, with a mixed model combining land development and agricultural production; Bolivia, with a productive model in Santa Cruz de la Sierra; and through our subsidiary BrasilAgro, Brazil and Paraguay, where the strategy is exclusively focused on the development of lands.

(*) Includes Brazil, Paraguay, Agro-Uranga at 35.723% and 132,000 hectares under concession.

(**) Includes 85,000 hectares intended for sheep breeding.

Agricultural Segment Income

I)

Land Development, Transformation and Sales

We periodically sell properties that have reached a considerable appraisal to reinvest in new farms with higher appreciation potential. We analyze the possibility of selling farms based on a number of factors, including the expected future yield of the farmland for continued agricultural and livestock exploitation, the availability of other investment opportunities and cyclical factors that have a bearing on the global values of farmlands.

During the first quarter of fiscal year 2017 we sold “El Invierno” and “La Esperanza” farms comprising 2,615 hectares intended for agriculture, located in the district of “Rancul”, Province of La Pampa. The total transaction amount was USD 6 million (USD 2,294/hectare). These farms were valued at approximately ARS 13.5 million. For such reason, profit from operations of this segment was ARS 66 million, and consequently, income from this segment increased ARS 70 million as compared to the same period of the previous fiscal year. No sales of farmlands were closed in the second quarter of this fiscal year.

Edgar Filing: CRESUD INC - Form 6-K

During this season we expect to transform 13,326 hectares in the region: 9,601 hectares in Brazil; 1,553 hectares in Paraguay; and 2,172 hectares in Argentina. We increased the area under development compared with the figures announced at the start of the season due to the improvement in operating margins during this year, after the changes implemented by the government in the agricultural industry and the lower development costs in dollars.

>

Income from the Crops segment decreased by ARS 310 million, from an income of ARS 83 million during IIQ16 to a loss of ARS 227 million in IIQ17, mainly due to:

o

A loss of ARS 141 million, originated mainly in Argentina as a result of the pullback in corn and soybean prices throughout the first half of 2017 after the peak recorded in the first half of 2016, reflected in sale and holding results, compared to

o

ARS 102.9 million in income from the general rise in prices experienced toward the end of the first half of 2016, due to the elimination/reduction of withholding taxes on agriculture and the sharp devaluation of the peso against the dollar.

>

The Sugarcane segment's income was similar to the one recorded in the first half of fiscal year 2016, due to higher revenues from sales and output posted in Brazil and higher general and management expenses, reflecting by the variation in the exchange rate.

During the quarter under review, we posted lower results by approximately ARS 51 million as compared to those recorded in IIQ16. The main reason for the decrease was the rise in production costs and lower holding results in Argentina, and the commencement of operations in Brazil, where no production income has been recorded yet.

III: Other Segments

Under “Others” we include the results from Agricultural Rental and Services, Agro-industrial Activities and our investment in FyO.

The “Others” segment recorded an income of ARS 3 million in the six-month period of 2017, mostly explained by a higher loss in our agroindustrial business developed in our meat packing plant in La Pampa recorded compensated by the results of our subsidiary Futuros y Opciones, which is mainly engaged in the trading of crops and sale of inputs. Futuros y Opciones recorded an income of ARS 36 million reflecting the upsurge in the grain consignment business, the recovery of the input business as growers opted not to invest in technology during the previous year, and a higher turnover from the brokerage business hand in hand with a more competitive exchange rate than in the past year. In contrast,

As concerns the shopping centers' segment, during the first six months of fiscal year 2017, our tenants' sales reached ARS 17,815.5 million, 19.9% higher than in the same period of 2016, although recording a deceleration as compared to the preceding quarters, reflecting the fall in spending that has been observed in the past months. Our portfolio's leasable area increased by approximately 2,300 square meters, mainly explained by the completion of the second expansion stage at Distrito Arcos and the addition of significant tenants such as Megatlon, Farmacity, Akiabara, Stock Center and Mishka. The occupancy rate stood at optimum levels of 98.4%, reflecting the quality of our portfolio. As concerns the offices' segment, during the first six months of fiscal year 2017, revenues from the offices segment increased 49.7% as compared to the same period of 2016, mainly explained by the depreciation of the peso vis-à-vis the dollar. EBITDA from this segment grew 93.1% in the first six months of fiscal year 2017 compared to the same period of 2016, principally explained by the increase in revenues and the gain resulting from the business combination of Entertainment Holding S.A. (which is indirect holder of 35% of La Rural S.A., the company that runs the exhibition center known as Predio Ferial de Palermo in the City of Buenos Aires) with our subsidiary IRSA Propiedades Comerciales

As concerns the sales and developments segment, for the six-month period of fiscal year 2017, EBITDA from the Sales and Developments segment was negative for ARS 48 million as compared to EBITDA for ARS 937 million during the first six months of 2016, in which higher gains from disposal of investment property had been recorded. While 1,795 sqm in the Intercontinental Plaza office building were sold in the first half of FY 2017, 1,761 sqm in the Maipú 1300 building, 5,963 sqm in the Intercontinental Plaza building, the Isla Sirgadero plot, and the entire Dique IV office building located in Puerto Madero, had been sold in the first half of FY 2016.

The revenues and operating income from the Real Estate segment through the subsidiary Property & Building (“PBC”) reached ARS 2,484 million and ARS 607 million, respectively, during the consolidated six months (April 1, 2016 to September 30, 2016). During this period, there was an increase in rental income and occupancy rates from PBC’s investment property.

The Supermarkets segment, through Shufersal, recorded revenues of ARS 23,476 million for the period, mainly due to an increase in revenues from the retail segment, offset by a slight decrease in revenues from the real estate segment. Same-store sales keep rising. Operating income from this segment reached ARS 788 million.

The Telecommunications segment, operated by Cellcom, recorded revenues of ARS 7,863 million. There was a decrease in revenues in both revenues from services and revenues from handsets. The reduction in revenues from services under review mainly reflected lower revenues from cell telephone services due to the continued erosion of the price of these services as a result of stronger competition in the cell telephone market and lower revenues from international call services. The reduction in the revenues from handsets was mainly due to the reduction in the number of cell phones sold. Operating income was ARS 48 million.

The Others segment recorded revenues for ARS 198 million, and an operating loss of ARS 268 million.

As concerns “Clal”, the Group values its interest in this insurance company as a financial asset at fair value. The valuation of Clal’s shares was ARS 6,143 million (USD 386 million) as of December 31, 2016, a 21% increase in dollars compared to September 30, 2016.

Material and Subsequent Events

General Ordinary and Extraordinary Shareholders' Meeting

On October 31, 2016, the Company's General Ordinary and Extraordinary Shareholders' Meeting was held, which resolved upon with the following matters, among others:

Update on shared services agreement report.

Approval of sums paid as personal asset tax levied on the shareholders.

Renewal of delegation of powers conferred to the Board of Directors in order to determine the time and currency of issuance and further terms and conditions governing the issue of notes under the global note program.

Grant of indemnities to the Directors, Statutory Auditors and Managers who perform or have performed duties for the Company accessorially to the D&O policies.

Approval of special merger balance sheet of AGRO MANAGERS S.A.

Distribution of treasury shares.

Agreement for the sale of real estate or shares of Cresca S.A.

On October 5, 2016, our subsidiary Brasilagro and Carlos Casado executed an agreement whereby they proposed to offer for sale for the term of 120 days all the real estate owned by Cresca for a price of not less than USD 120 million or 100% of Cresca's outstanding shares. The real estate and shares will be offered for a term of 120 calendar days after the execution date. If a proposal for the shares is received, the fair value of the rest of the assets (less the liabilities) will be added to the above mentioned price. Moreover, if no sale is made upon expiration of the term, the parties irrevocably promise to take all such actions and carry out all such proceedings as necessary for implementing the division of the Company's assets into two equivalent portions.

Distribution of treasury shares

On November 3, 2016, Cresud's Board of Directors resolved to distribute ratably among the shareholders who were registered as such as of November 16, 2016, 3,833,352 treasury shares, equivalent to 0.00774216906 per share and 0.76415967% of the stock capital amounting to \$501,642,804, and 0.774216906% of the stock capital net of treasury shares, effective November 17, 2016.

Purchase of farm by our subsidiary Brasilagro

On February 7, 2017, Brasilagro – Companhia Brasileira de Propriedades Agrícolas, controlled by the Company, executed a purchase and lease agreement, including crop sharing provisions, in respect of a rural property located in the municipal district of São Raimundo das Mangabeiras, in the State of Maranhão.

The purchase agreement is for 17,566 hectares, 10,000 of which are developed and productive lands to be used for agriculture. The remaining 7,566 hectares are permanent preservation areas and land reserves protected by law. The purchase price was R\$ 100.0 million (R\$ 10,000 per productive hectare), and will be fully paid upon satisfaction by the sellers of certain conditions precedent.

The lease is for 15,000 hectares of arable, developed lands, mostly consisting of sugarcane crops. The agreement's term is 15 years, renewable for 15 additional years.

Prospects for the next fiscal year

The 2017 crop season has been developing under the "El Niño" pattern in Argentina, with above-average rainfall rates. To date, we have planted almost all the area planned for this season, and we increased the area leased to third parties by 47% as compared to the previous season. We expect sustained commodity prices for this season.

In Argentina, we expect stable prices for cattle after the significant appreciation seen in the past year, which encouraged the Company to sell cattle, delivering good holding results. We expect satisfactory production figures and constrained costs for the rest of the 2017 season, while we plan to continue working efficiently towards reaching the highest operating margins possible. In the case of our "El Tigre" dairy facility, where we have consolidated all our milk production, we are following our strategy consisting in the selective sale of milking cows and keeping the more productive herd. The milk business suffered a highly depressed price scenario during the first half of 2016, but started to recover towards the second half, and has begun to stabilize since then. Productivity stood at high levels, as we had no production in the dairy region that was severely affected by the floods, causing milk supply in Argentina to dwindle.

In connection with our meat packing plant, which we hold through our interest in Carnes Pampeanas, we trust that the margin improvement initiatives implemented in the plant will reap fruits as the business context improves, hand in hand with the opening up of the Argentine beef markets abroad and the government's policies against informality in the dairy industry.

As concerns land transformation and value-adding activities, we will make progress in the development of our farms in Argentina, Paraguay and Brazil. Although in the past years our land transformation activities developed at a slower pace than historically due to the high development costs and production profitability conditions, the current macroeconomic conditions are more favorable, and we expect to be able to resume our historic levels at lower transformation costs.

We remain watchful of sale opportunities that may arise and we will continue to dispose of those farms that have reached their highest degree of appreciation, whilst continuing to analyze purchase opportunities in other countries of the region with the objective to put together a regional portfolio with major development and appreciation potential.

Our urban subsidiary IRSA Inversiones y Representaciones S.A. keeps recording sound results in its various business lines. Prospects are positive, as the company has a large reserve of lands intended for future shopping center, office, and mixed-use developments in an industry scenario with high growth potential. Moreover, as concerns the investment in the Israeli company IDBD, this company has sold assets for very competitive prices; its indebtedness level has been significantly reduced and a strategy intended to improve operating margins in each of its business units has been launched.

We believe that companies such as Cresud, with a track record going back so many years and vast industry knowledge will have outstanding possibilities of taking advantage of the best opportunities arising in the market, much more so considering that our main task is to produce food for a growing and demanding world population.
