Smith & Nephew acquires developer of unique pressure injury prevention device, Leaf Healthcare, Inc.

1 April 2019

Smith & Nephew plc (LSE:SN, NYSE:SNN), the global medical technology business, today announces that it has agreed to acquire Leaf Healthcare, Inc, the developer of the unique Leaf Patient Monitoring System for pressure injury prevention and patient mobility monitoring. The transaction follows Smith & Nephew's successful two-year partnership with Leaf Healthcare as an exclusive distributor and strategic investor.

The Leaf Patient Monitoring System is comprised of a small, lightweight, wearable sensor that wirelessly monitors a patient's position and their mobility whilst in a hospital. The tracking data is used to automate and document the compliance with prescribed turn protocols for patients at risk for pressure injuries.

An estimated 2.5 million pressure injuries are treated each year in US acute care facilities alone¹, with an estimated annual burden of \$11 billion in the United States². National Pressure Ulcer Advisory Panel (NPUAP) guidelines recommend a prevention protocol for high-risk patients that includes prophylactic foam dressings, preventative skin care including pH balanced skin cleanser, and patient repositioning with early mobilisation³. The Leaf Patient Monitoring System together with Smith & Nephew's ALLEVYN[®]LIFE and ALLEVYN GENTLE BORDER and SECURA[®] Skin Care products provide a comprehensive portfolio to help customers achieve and optimise pressure injury prevention protocols.

In January 2018, an independently conducted Randomized Controlled Trial (RCT) from Stanford University evaluated optimal patient repositioning and found that the Leaf Patient Monitoring System induced a 43% relative increase in turning protocol compliance in high-risk patients. Patients treated with the Leaf sensor were 73% less likely to develop a pressure injury⁴.

"Consistent with our initial strategic investment, Smith & Nephew is focused on providing not just products to treat conditions, but also supporting clinicians with technologies designed for prevention as well as treatment, and helping healthcare facilities reduce the cost of care," said Simon Fraser, President of Advanced Wound Management, Smith & Nephew. "The Leaf Patient Monitoring System is highly complementary to Smith & Nephew's existing wound portfolio and we are excited by the opportunities of expanding this product within our global portfolio."

"The benefits of patient turning and improved patient mobility are well recognised, including the potential for shorter hospital stays," said Barrett Larson, MD, Co-Founder and Chief Executive Officer, Leaf Healthcare. "We are proud of the impact our technology has already made through our existing relationship with Smith & Nephew. We are excited by this new opportunity to deploy our award-winning pressure injury prevention technology through Smith & Nephew's extensive Advanced Wound Management portfolio."

The transaction is expected to close in Q2 2019, subject to the satisfaction of customary conditions, and will be financed from existing cash and debt facilities. The commercial terms have not been disclosed.

Forward-looking Statements

This document may contain forward-looking statements that may or may not prove accurate. For example, statements regarding expected revenue growth and trading margins, market trends and our product pipeline are forward-looking statements. Phrases such as "aim", "plan", "intend", "anticipate", "well-placed", "believe", "estimate", "expect", "target", "consider" and similar expressions are generally intended to identify forward-looking statements.

Forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause actual results to differ materially from what is expressed or implied by the statements. For Smith & Nephew, these factors include: economic and financial conditions in the markets we serve, especially those affecting health care providers, payers and customers; price levels for established and innovative medical devices; developments in medical technology; regulatory approvals, reimbursement decisions or other government actions; product defects or recalls or other problems with quality management systems or failure to comply with related regulations; litigation relating to patent or other claims; legal compliance risks and related investigative, remedial or enforcement actions; disruption to our supply chain or operations or those of our suppliers; competition for qualified personnel; strategic actions, including acquisitions and dispositions, our success in performing due diligence, valuing and integrating acquired businesses; disruption that may result from transactions or other changes we make in our business plans or organisation to adapt to market developments; and numerous other matters that affect us or our markets, including those of a political, economic, business, competitive or reputational nature. Please refer to the documents that Smith & Nephew has filed with the U.S. Securities and Exchange Commission under the U.S. Securities Exchange Act of 1934, as amended, including Smith & Nephew's most recent annual report on Form 20-F, for a discussion of certain of these factors. Any forward-looking statement is based on information available to Smith & Nephew as of the date of the statement. All written or oral forward-looking statements attributable to Smith & Nephew are qualified by this caution. Smith & Nephew does not undertake any obligation to update or revise any forward-looking statement to

reflect any change in circumstances or in Smith & Nephew's expectations.
