Former name or former address, if changed since last report)

---

**Item 9. Regulation FD Disclosure**

On Tuesday, May 6, 2003, the Company will issue a press release, a copy of which is attached as Exhibit A, which contains Non-GAAP financial information. The Non-GAAP financial information consists of EBITDA (Earnings Before Interest, Discounts on Sale of Accounts Receivable, Taxes, Depreciation and Amortization). This measure may not be comparable to similarly titled measures reported by other companies. The Company believes that EBITDA is a measure that should be reported because of its importance to the professional investment community including the Company's primary lenders. Further the Company discusses trailing quarter-to-quarter comparative results which do not include the net inventory charges made in the fourth quarter of 2002. The Company believes this information is necessary to a proper understanding of the impact of volume changes on the Company's earnings between the first quarter and fourth quarter, on a comparable basis, without the effect of a net inventory adjustment which only occurs in the fourth quarter.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

A. M. Castle & Co.

Exhibit A.1

**FOR IMMEDIATE RELEASE TUESDAY,  
MAY 6, 2003**

**A. M. CASTLE & CO. ANNOUNCES FIRST QUARTER OPERATING RESULTS**

**FRANKLIN PARK, ILLINOIS, MAY 6, 2003 -- A. M. CASTLE & CO. (AMEX: CAS)**, A North American distributor of highly engineered metals and plastics, today announced its operating results for the quarter ended March 31, 2003.

For the quarter, sales totalled \$141.6 million, an increase of 4.1 percent over sales of \$136.0 million for the first three months of 2002. Current quarter sales include \$3.3 million of revenues of its small order business, Metal Express, which was consolidated following the Company's purchase of its partner's remaining joint venture interest effective May 1, 2002. Metal revenues were relatively flat year-over-year while sales of its Total Plastics, Inc. subsidiary rose \$1.9 million, or 13.2 percent. Gross material margins rose \$1.9 million due primarily to the inclusion of Metal Express and the increased volume of Total Plastics. As a percent of sales, total gross material margins at 30.5 percent were comparable to the 30.4 percent reported in the prior quarter.

Other operating expenses rose \$3.1 million to \$42.7 million from \$39.6 million in the first quarter of 2002. The consolidation of Metal Express accounted for \$1.7 million of the increase while expenses at Total Plastics rose \$0.7 million in support of higher activity levels. Of the remaining \$0.7 million of increased expenses, \$0.4 million was due to lower non-cash pension income primarily due to a reduction in the expected long-term rate of return on pension assets from 10 percent to 9 percent. Financing expense increased to \$2.8 million from \$2.1 million a year-ago reflecting the impact of higher rates negotiated as part of the capital restructuring put in place in the later part of 2002 offset by reductions of \$14.8 million in the aggregate amount of debt and advances under the Company's accounts receivable purchase facility. After-tax losses for the quarter totalled \$1.4 million as compared with \$0.2 million in 2002. Including dividends payable on preferred stock, the net loss applicable to common stock totalled \$1.6 million, or 10 cents per share, compared with \$0.2 million, or 1-cent per share, a year ago.

---

Exhibit A.2

In making the announcement, G. Thomas McKane, President and CEO noted that "On a trailing quarter basis, sales were up \$17.4 million, or 14.0 percent. Gross material margins increased \$6.4 million from the fourth quarter of 2002. The Company's fourth quarter cost of sales included a \$1.3 million net inventory adjustment. Exclusive of this charge, gross material margins increased by \$5.1 million. Plant, delivery, selling and administrative expenses increased by \$2.3 million, or 13.5 percent on the incremental sales volume. As a result of the increased volume, we produced a \$2.8 million increase in EBITDA. This \$2.8 million represents a 16.1 percent return on incremental sales, indicative of the leverage the Company will realize when demand in our markets begins to recover."

Speaking to current market conditions, Mr. McKane noted that the Company was seeing single digit growth in the upper Midwest but that aerospace markets continue to decline as both commercial and private aircraft orders remain depressed.

In closing, Mr. McKane invited interested parties to listen to the Company's conference call scheduled for 11:00 (EST) today, Tuesday, May 6, 2003. Connection is available at [www.amcastle.com](http://www.amcastle.com) and will be available for 14 days following the call.

Edgar Filing: CASTLE A M & CO - Form 8-K

Founded in 1890, A. M. Castle & Co. provides highly engineered materials and value-added services to a wide range of industrial companies. The company is widely recognized as one of the leading industrial distributors of specialty metals such as carbon, alloy and stainless steels; aluminum; nickel alloy; titanium; and copper and brass. Through its subsidiary, Total Plastics, Inc., the company also distributes a broad range of value-added industrial plastics. Together, Castle and its affiliated companies operate over 50 locations throughout North America. Its common stock is traded on the American and Chicago Stock Exchanges under the ticker symbol "CAS."

This release may contain forward-looking statements relating to future financial results. Actual results may differ materially as a result of factors over which the company has no control. These risk factors and additional information are included in the company's reports on file with the Securities and Exchange Commission.
