Glossary of Terms

The following terms or acronyms used in this Form 10-Q are defined below:

Term or Acronym	Definition
Adjusted Earnings per Diluted Share	As defined on p. 44
Adjusted Net Income	As defined on p. 44
A/R Sales Agreement	As defined on p. 19
AGI In-Store	A.G. Industries, Inc.
Antitrust Litigation	As defined on p. 23
ASC	FASB's Accounting Standards Codification
ASU	Accounting Standards Update
BSF	Billions of square feet
CBPC	Cellulosic biofuel producers credits
CERCLA	The Comprehensive Environmental Response, Compensation, and Liability Act of 1980
Code	The Internal Revenue Code of 1986, as amended
Common Stock	Our Class A common stock, par value \$0.01 per share
containerboard	Linerboard and corrugating medium
Credit Facility	Our unsecured Amended and Restated Credit Agreement
EPA	U.S. Environmental Protection Agency
FASB	Financial Accounting Standards Board
FIFO	First-in first-out inventory valuation method
Fiscal 2014 Form 10-K	Our Annual Report on Form 10-K for the fiscal year ended September 30, 2014
GAAP	Generally accepted accounting principles in the U.S.
GHG	Greenhouse gases
Guarantor Subsidiaries	Certain of our 100% owned domestic subsidiaries
LIBOR	The London Interbank Offered Rate
LIFO	Last-in first-out inventory valuation method
MACT	Maximum Achievable Control Technology
March 2019 Notes	\$350.0 million aggregate principal amount of 4.45% senior notes due March 2019
March 2020 Notes	\$350.0 million aggregate principal amount of 3.50% senior notes due March 2020
March 2022 Notes	\$400.0 million aggregate principal amount of 4.90% senior notes due March 2022
March 2023 Notes	\$350.0 million aggregate principal amount of 4.00% senior notes due March 2023
MeadWestvaco	MeadWestvaco Corporation
MMSF	Millions of square feet
Non-Guarantor Subsidiaries	The consolidated subsidiaries of the Company that are not guarantors of the guaranteed notes
NOV	Notice of Violation
NPG	NPG Holding, Inc.
OSHA	The Occupational Safety and Health Act
Parent	Rock-Tenn Company
Pension Act	Pension Protection Act of 2006
Pension Offer	As defined on p. 20

Table of Contents

Term or Acronym	Definition
PRPs or PRP	Potentially responsible parties
PSD	Prevention of Significant Deterioration
Receivables Facility	Our receivables-backed financing facility
SEC	Securities and Exchange Commission
Senior Notes	The March 2019 Notes, March 2020 Notes, March 2022 Notes and March 2023 Notes
Seven Hills	Seven Hills Paperboard LLC
SERP	Supplemental executive retirement plan
SG&A	Selling, general and administrative expenses
Smurfit-Stone	Smurfit-Stone Container Corporation
Smurfit-Stone Acquisition	Our May 27, 2011 acquisition of Smurfit-Stone
Stock Split	As defined on p. 11
Tacoma Mill	The Simpson Tacoma Kraft Paper Mill
U.S.	United States

ROCK-TENN COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Three Month Period Ended December 31, 2014

(Unaudited)

Unless the context otherwise requires, “we”, “us”, “our”, “RockTenn” and “the Company” refer to the business of Rock-Tenn Company, its wholly-owned subsidiaries and its partially-owned consolidated subsidiaries.

We are one of North America’s leading providers of packaging solutions and manufacturers of containerboard and paperboard. We operate locations in the United States, Canada, Mexico, Chile, Argentina and Puerto Rico.

Note 1. Interim Financial Statements

Our independent public accounting firm has not audited our accompanying interim financial statements. We derived the Condensed Consolidated Balance Sheet at September 30, 2014 from the audited Consolidated Financial Statements included in Fiscal 2014 Form 10-K. In the opinion of our management, the Condensed Consolidated Financial Statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of our statements of income for the three months ended December 31, 2014 and December 31, 2013, our comprehensive income for the three months ended December 31, 2014 and December 31, 2013, our financial position at December 31, 2014 and September 30, 2014, and our cash flows for the three months ended December 31, 2014 and December 31, 2013.

We have condensed or omitted certain notes and other information from the interim financial statements presented in this Quarterly Report on Form 10-Q. Therefore, these interim statements should be read in conjunction with our Fiscal 2014 Form 10-K. The results for the three months ended December 31, 2014 are not necessarily indicative of results that may be expected for the full year.

Note 2. New Accounting Standards

Recently Adopted Standards

In April 2014, the FASB issued ASU 2014-08 “Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity”. This ASU amends ASC 360 “Property Plant and Equipment” and expands the disclosures for discontinued operations, and requires new disclosures for disposals of individually significant components that do not meet the new definition of a discontinued operation and are classified as assets held for sale. These provisions are effective for annual and interim periods beginning after December 15, 2014 (January 1, 2015 for us). The adoptions of these provisions did not have a material effect on our consolidated financial statements.

Recently Issued Standards

In May 2014, the FASB issued ASU 2014-09 which is codified in ASC 606 “Revenue from Contracts with Customers” and supersedes both the revenue recognition requirement to ASC 605 “Revenue Recognition” and most industry-specific guidance. The core principle of ASC 606 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the five steps set forth in ASC 606. An entity must also disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative information about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. These provisions are effective for annual reporting periods beginning after December 15, 2016 (October 1, 2017 for us),

including interim periods within that annual period, and can be applied using a full retrospective or modified retrospective approach. The Company is currently evaluating the impact of these provisions.

In June 2014, the FASB issued ASU 2014-12 “Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period”. This ASU amends ASC 718 “Compensation - Stock Compensation” and clarifies that a performance target in a share-based payment that affects vesting and that could be achieved after the requisite service period should be accounted for as a performance condition and impact compensation cost when it is probable the performance target will be achieved. These provisions are effective for annual periods beginning after December 15, 2015 (October 1, 2016 for us) and based on our current stock compensation awards are not expected to have a material effect on our consolidated financial statements.

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

Note 3. Equity and Other Comprehensive Income

Equity

The following is a summary of the changes in total equity for the three months ended December 31, 2014 (in millions):

	Rock-Tenn Company Shareholders' Equity	Noncontrolling (1) Interests	Total Equity
Balance at September 30, 2014	\$4,306.8	\$0.6	\$4,307.4
Net income	125.1	0.1	125.2
Other comprehensive loss, net of tax	(21.8) —	(21.8
Compensation expense under share-based plans	10.7	—	10.7
Cash dividends declared (per share - \$0.1875) ⁽²⁾	(26.3) —	(26.3
Cash distributions to noncontrolling interests	—	(0.2) (0.2
Issuance of Class A common stock, net of stock received for minimum tax withholdings	1.8	—	1.8
Purchases of Class A common stock	(8.7) —	(8.7
Balance at December 31, 2014	\$4,387.6	\$0.5	\$4,388.1

(1) Excludes amounts related to contingently redeemable noncontrolling interests which are separately classified outside of permanent equity in the mezzanine section of the Condensed Consolidated Balance Sheets.

(2) Includes cash dividends paid, and dividends declared but unpaid, related to the shares reserved but unissued to satisfy Smurfit-Stone bankruptcy claims.

Stock Repurchase Plan

Our board of directors has approved a stock repurchase plan that allows for the repurchase of shares of our Common Stock over an indefinite period of time at the discretion of our management. Our stock repurchase plan was last amended in September 2014 following the August 27, 2014 two-for-one stock split of our Common Stock in the form of a 100% stock dividend to shareholders of record as of August 12, 2014 (the "Stock Split"). The stock repurchase plan allows for the repurchase of up to a total of 16.9 million shares of Common Stock. Pursuant to our repurchase plan, in the three months ended December 31, 2014, we repurchased approximately 0.2 million shares for an aggregate cost of \$8.7 million. As of December 31, 2014, we had approximately 8.5 million shares of Common Stock available for repurchase under the plan.

Accumulated Other Comprehensive (Loss) Income

The tables below summarize the changes in accumulated other comprehensive (loss) income, net of tax, by component for the three months ended December 31, 2014 and December 31, 2013 (in millions):

	Deferred Loss on Cash Flow Hedges	Defined Benefit Pension and Postretirement Plans	Foreign Currency Items	Total ⁽¹⁾
--	--	--	------------------------------	----------------------

Edgar Filing: Rock-Tenn CO - Form 10-Q

Balance at September 30, 2014	\$ (0.2) \$ (498.2) \$ 3.1	\$ (495.3)
Other comprehensive loss before reclassifications	—	(16.7) (17.5) (34.2)
Amounts reclassified from accumulated other comprehensive loss	—	12.4	—	12.4	
Net current period other comprehensive loss	—	(4.3) (17.5) (21.8)
Balance at December 31, 2014	\$ (0.2) \$ (502.5) \$ (14.4) \$ (517.1)

(1) All amounts are net of tax and noncontrolling interest.

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

	Deferred Loss on Cash Flow Hedges	Defined Benefit Pension and Postretirement Plans	Foreign Currency Items	Total ⁽¹⁾
Balance at September 30, 2013	\$ (0.2)	\$ (332.9)	\$ 32.5	\$ (300.6)
Other comprehensive income (loss) before reclassifications	—	—	(9.2)	(9.2)
Amounts reclassified from accumulated other comprehensive loss	—	2.5	—	2.5
Net current period other comprehensive income (loss)	—	2.5	(9.2)	(6.7)
Balance at December 31, 2013	\$ (0.2)	\$ (330.4)	\$ 23.3	\$ (307.3)

(1) All amounts are net of tax and noncontrolling interest.

The net of tax components were determined using effective tax rates averaging approximately 38% to 39% for the three months ended December 31, 2014 and December 31, 2013, respectively. Foreign currency translation gains and losses recorded in accumulated other comprehensive (loss) income for the three months ended December 31, 2014 and December 31, 2013 were primarily due to the change in the Canadian/U.S. dollar exchange rates. For the three months ended December 31, 2014, we recorded defined benefit net actuarial losses and prior service costs, net of tax, in other comprehensive income of \$2.8 million and \$13.9 million, respectively, primarily due to the partial settlement, plan amendments and curtailment of certain defined benefit plans. The deferred income tax expense associated with the net actuarial losses and prior service costs was \$1.7 million and \$8.8 million, respectively. The amounts reclassified out of other comprehensive income into earnings for these events are summarized in the reclassifications table below. For the three months ended December 31, 2013, there were no defined benefit plan net actuarial gains, losses or prior service costs arising during the period.

The following tables summarize the reclassifications out of accumulated other comprehensive loss by component (in millions):

	Three Months Ended December 31, 2014			Three Months Ended December 31, 2013		
	Pretax	Tax	Net of Tax	Pretax	Tax	Net of Tax
Amortization of defined benefit pension and postretirement items ⁽¹⁾						
Actuarial losses ⁽²⁾	\$ (28.3)	\$ 10.7	\$ (17.6)	\$ (4.0)	\$ 1.5	\$ (2.5)
Prior service costs ⁽²⁾	8.4	(3.2)	5.2	—	—	—
Total reclassifications for the period	\$ (19.9)	\$ 7.5	\$ (12.4)	\$ (4.0)	\$ 1.5	\$ (2.5)

(1) Amounts in parentheses indicate charges to earnings. Amounts pertaining to noncontrolling interests are excluded.

(2) These accumulated other comprehensive income components are included in the computation of net periodic pension cost (See "Note 11. Retirement Plans" for additional details).

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

Note 4. Earnings per Share

Certain of our restricted stock awards are considered participating securities as they receive non-forfeitable rights to dividends at the same rate as Common Stock. As participating securities, we include these instruments in the earnings allocation in computing earnings per share under the two-class method described in ASC 260 "Earnings per Share". The following table sets forth the computation of basic and diluted earnings per share under the two-class method and has been retroactively adjusted to reflect the Stock Split (in millions, except per share data):

	Three Months Ended December 31,	
	2014	2013
Basic earnings per share:		
Numerator:		
Net income attributable to Rock-Tenn Company shareholders	\$125.1	\$109.7
Less: Distributed and undistributed income available to participating securities	(0.1) (0.1
Distributed and undistributed income attributable to Rock-Tenn Company shareholders	\$125.0	\$109.6
Denominator:		
Basic weighted average shares outstanding	140.3	144.0
Basic earnings per share attributable to Rock-Tenn Company shareholders	\$0.89	\$0.76
Diluted earnings per share:		
Numerator:		
Net income attributable to Rock-Tenn Company shareholders	\$125.1	\$109.7
Less: Distributed and undistributed income available to participating securities	(0.1) (0.1
Distributed and undistributed income attributable to Rock-Tenn Company shareholders	\$125.0	\$109.6
Denominator:		
Basic weighted average shares outstanding	140.3	144.0
Effect of dilutive stock options and non-participating securities	2.5	2.6
Diluted weighted average shares outstanding	142.8	146.6
Diluted earnings per share attributable to Rock-Tenn Company shareholders	\$0.88	\$0.75

Weighted average shares includes approximately 0.3 million of reserved, but unissued shares at each of December 31, 2014 and December 31, 2013. These reserved shares will be distributed as claims are liquidated or resolved in accordance with the Smurfit-Stone Plan of Reorganization and Confirmation Order.

Options and restricted stock in the amount of 0.8 million and 0.1 million common shares in the three months ended December 31, 2014 and December 31, 2013, respectively, were not included in computing diluted earnings per share because the effect would have been antidilutive.

Note 5. Acquisitions

AGI In-Store

On August 29, 2014, we acquired the stock of AGI In-Store, a manufacturer of permanent point-of-purchase displays and fixtures to the consumer products and retail industries. The purchase price was \$70.0 million net of cash acquired

of \$0.5 million, and an estimated working capital settlement. No debt was assumed. We acquired the AGI In-Store business as we believe it supports our strategy to provide a more holistic portfolio of innovative in-store marketing solutions, including “store-within-a-store” displays, and will enhance cross-selling opportunities and bolster our growing retail presence. We have included the results of AGI In-Store’s operations since the date of the acquisition in our condensed consolidated financial statements in our Merchandising Displays segment. The preliminary purchase price allocation for the acquisition included \$26.0 million of customer

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

relationship intangible assets, \$13.2 million of goodwill and \$5.8 million of liabilities. We are amortizing the customer relationship intangibles over 5 to 10.5 years on a straight-line basis because the amortization pattern was not reliably determinable. The fair value assigned to goodwill is primarily attributable to buyer-specific synergies expected to arise after the acquisition (e.g., enhanced reach of the combined organization and increased vertical integration) and the assembled work force of AGI In-Store. We expect to make an election under section 338(h)(10) of the Code that will increase our tax basis in the acquired assets for an as yet to be determined amount for consideration not to exceed \$2.0 million. We are in the process of completing the estimated values of the assets acquired and liabilities assumed, and therefore the allocation of the purchase price is preliminary and subject to revision. We expect the goodwill and intangibles to be amortizable for income tax purposes.

Tacoma Mill

On May 16, 2014, we acquired certain assets and liabilities of the Tacoma Mill. The purchase price was \$340.6 million including an estimate of the expected working capital settlement. We believe the Tacoma Mill, located in Tacoma, WA, is a strategic fit as the mill has improved our ability to satisfy West Coast customers and generate operating efficiencies across our containerboard system. We have included the results of the Tacoma Mill since the date of the acquisition in our condensed consolidated financial statements in our Corrugated Packaging segment. The preliminary purchase price allocation for the acquisition included \$22.6 million for the fair value of an electrical cogeneration contract, \$14.6 million of customer relationship intangible assets, \$29.0 million of goodwill and \$28.9 million of liabilities assumed. We are amortizing the electrical cogeneration contract over the contract life of 7.2 years and the customer relationship intangibles over 20.0 years based on a straight-line basis because the amortization pattern was not reliably determinable. The fair value assigned to goodwill is primarily attributable to buyer-specific synergies expected to arise after the acquisition (e.g., enhanced reach of the combined organization and synergies) and the assembled work force of the Tacoma Mill. We are in the process of finalizing the estimated values of the assets acquired and liabilities assumed and therefore the allocation of the purchase price is preliminary and subject to revision. We expect the goodwill and intangibles to be amortizable for income tax purposes.

NPG

On December 20, 2013, we acquired the stock of NPG, a specialty display company. The purchase price was \$59.6 million, net of cash acquired of \$1.7 million and a working capital settlement. We acquired the NPG business as we believe it is a strong strategic fit that will strengthen our displays business. We have included the results of NPG's operations in our condensed consolidated financial statements in our Merchandising Displays segment. The purchase price allocation for the acquisition included \$14.5 million of customer relationship intangible assets, \$27.9 million of goodwill and \$19.5 million of liabilities including approximately \$0.6 million in debt. We are amortizing the customer relationship intangibles over 9 years based on a straight-line basis because the pattern was not reliably determinable. The fair value assigned to goodwill is primarily attributable to buyer-specific synergies expected to arise after the acquisition (e.g., enhanced reach of the combined organization and increased vertical integration) and the assembled work force of NPG. The goodwill and intangibles resulting from the acquisition will not be amortizable for tax purposes.

Note 6. Restructuring and Other Costs, Net

Summary of Restructuring and Other Initiatives

We recorded pre-tax restructuring and other costs, net, of \$5.4 million and \$17.6 million for the three months ended December 31, 2014 and December 31, 2013, respectively. Costs recorded in each period are not comparable since the timing and scope of the individual actions associated with a restructuring, an acquisition or an integration can vary.

We discuss these charges in more detail below.

When we close a facility, if necessary, we recognize an impairment charge primarily to reduce the carrying value of equipment or other property to their estimated fair value less cost to sell, and record charges for severance and other employee related costs. Any subsequent change in fair value less cost to sell prior to disposition is recognized as identified; however, no gain is recognized in excess of the cumulative loss previously recorded. At the time of each announced closure, we generally expect to record future charges for equipment relocation, facility carrying costs, costs to terminate a lease or contract before the end of its term and other employee related costs. Although specific circumstances vary, our strategy has generally been to consolidate our sales and operations into large well-equipped plants that operate at high utilization rates and take advantage of available capacity created by operational excellence initiatives. Therefore, we transfer a substantial portion of each plant's assets and production to our other plants. We believe these actions have allowed us to more effectively manage our business.

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

While restructuring costs are not charged to our segments and therefore do not reduce segment income, we highlight the segment to which the charges relate. The following table presents a summary of restructuring and other charges, net, related to active restructuring and other initiatives that we incurred during the three months ended December 31, 2014 and December 31, 2013, the cumulative recorded amount since we started the initiatives, and the total we expect to incur (in millions):

Summary of Restructuring and Other Costs, Net

Segment	Period	Net Property, Plant and Equipment ^(a)	Severance and Other Employee Related Costs	Equipment and Inventory Relocation Costs	Facility Carrying Costs	Other Costs	Total
Corrugated Packaging ^(b)	Current Qtr.	\$0.2	\$—	\$0.1	\$0.6	\$0.1	\$1.0

	Cumulative	\$46.0	\$32.7	\$8.6	\$15.0	\$161.6	\$263.9
	Expected Total	\$46.0	\$32.7	\$9.2	\$17.5	\$161.7	\$267.1

We have defined “Net Property, Plant and Equipment” as used in this Note 6 to represent property, plant and equipment impairment losses, subsequent adjustments to fair value for assets classified as held for sale, subsequent (a) (gains) or losses on sales of property, plant and equipment and related parts and supplies, and accelerated depreciation on such assets, if any.

The Corrugated Packaging segment current quarter and prior year quarter charges primarily reflect on-going closure costs at previously closed facilities net of asset sales. The cumulative charges primarily reflect charges (b) associated with the closure of corrugated container plants and the closure of the Matane, Quebec containerboard mill, including gains and losses associated with the sale of assets associated with the closures. We have transferred a substantial portion of each closed facility's production to our other facilities.

(c) The Consumer Packaging segment current quarter charges are primarily associated with the closure of a small converting facility and on-going closure activity at previously closed facilities including the Cincinnati, OH specialty recycled paperboard mill. The prior year quarter charges also primarily reflect on-going closure costs associated with previously closed facilities. The cumulative charges primarily reflect charges associated with the

closure of converting facilities and a specialty recycled paperboard mill. We have transferred a substantial portion of each closed facility's production to our other facilities.

(d) The Recycling segment current quarter charges are primarily associated with the on-going closure costs at previously closed facilities. The prior year quarter charges primarily reflect charges associated with a collection facility and on-going closure costs associated with previously closed facilities. The cumulative charges primarily reflect the charges

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

associated with the closure of collection facilities including gains and losses associated with the sale of assets associated with the closures.

The expenses in the “Other” segment primarily reflect costs that we consider as Corporate, including the “Other Costs” column that primarily reflects costs incurred as a result of the Smurfit-Stone Acquisition, such as merger (e) integration expenses. Also included in the “Other” segment are insignificant costs related to our Merchandising Displays segment. The pre-tax charges in the “Other Costs” column are summarized below (in millions):

	Acquisition Expenses	Integration Expenses	Total
Current Qtr.	\$0.5	\$2.2	\$2.7
Prior Year Qtr.	\$1.4	\$6.1	\$7.5

Acquisition expenses include expenses associated with acquisitions, whether consummated or not, as well as litigation expenses associated with the Smurfit-Stone Acquisition, net of recoveries. Acquisition expenses primarily consist of advisory, legal, accounting, valuation and other professional or consulting fees. Integration expenses primarily reflect severance and other employee costs, professional services including work being performed to facilitate the Smurfit-Stone integration including information systems integration costs, lease expense and other costs. Due to the complexity and duration of the integration activities, the precise amount expected to be incurred has not been quantified above. We expect integration activities related to the Smurfit-Stone Acquisition to continue during fiscal 2015.

The following table represents a summary of and the changes in the restructuring accrual, which is primarily composed of lease commitments, accrued severance and other employee costs, and a reconciliation of the restructuring accrual charges to the line item “Restructuring and other costs, net” on our Condensed Consolidated Statements of Income (in millions):

	Three Months Ended December 31,	
	2014	2013
Accrual at beginning of fiscal year	\$10.9	\$21.8
Additional accruals	0.2	1.1
Payments	(2.7) (6.7
Adjustment to accruals	0.9	(0.5
Accrual at December 31	\$9.3	\$15.7

Reconciliation of accruals and charges to restructuring and other costs, net:

	Three Months Ended December 31,	
	2014	2013
Additional accruals and adjustments to accruals (see table above)	\$1.1	\$0.6
Acquisition expenses	0.5	1.4
Integration expenses	2.1	5.8
Net property, plant and equipment	0.4	4.9
Severance and other employee expense	0.4	0.6
Equipment and inventory relocation costs	0.1	1.7
Facility carrying costs	0.9	1.5
Other (income) expense	(0.1) 1.1
Total restructuring and other costs, net	\$5.4	\$17.6

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

Note 7. Income Taxes

The effective tax rates for the three months ended December 31, 2014 and December 31, 2013 were 33.0% and 35.8%, respectively. The effective tax rates for the three months ended December 31, 2014 and December 31, 2013, respectively, were different than the statutory rate primarily due to the impact of state taxes, the ability to claim the domestic manufacturer's deduction against U.S. taxable earnings and a lower tax rate with respect to foreign earnings.

Note 8. Inventories

We value substantially all of our U.S. inventories at the lower of cost or market, with cost determined on the LIFO inventory valuation method, which we believe generally results in a better matching of current costs and revenues than under the FIFO inventory valuation method. In periods of increasing costs, the LIFO method generally results in higher cost of goods sold than under the FIFO method. In periods of decreasing costs, the results are generally the opposite. Since LIFO is designed for annual determinations, it is possible to make an actual valuation of inventory under the LIFO method only at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, we base interim LIFO estimates on management's projection of expected year-end inventory levels and costs. We value all other inventories at the lower of cost or market, with cost determined using methods which approximate cost computed on a FIFO basis. These other inventories represent primarily foreign inventories and certain inventoried spare parts and supplies inventories. Inventories were as follows (in millions):

	December 31, 2014	September 30, 2014
Finished goods and work in process	\$422.9	\$421.8
Raw materials	473.6	465.7
Spare parts and supplies	223.7	225.3
Inventories at FIFO cost	1,120.2	1,112.8
LIFO reserve	(88.3) (83.6
Net inventories	\$1,031.9	\$1,029.2

Note 9. Debt

At December 31, 2014, our Credit Facility and Our Notes were unsecured. For more information regarding certain of our debt characteristics, see "Note 8. Debt" of the Notes to Consolidated Financial Statements section of the Fiscal 2014 Form 10-K. The following were individual components of debt (in millions):

	December 31, 2014	September 30, 2014
4.45% notes due March 2019	\$349.8	\$349.8
3.50% notes due March 2020	348.0	347.9
4.90% notes due March 2022	399.4	399.4
4.00% notes due March 2023	347.1	347.0
Term loan facility	947.5	947.5
Revolving credit and swing facilities	98.2	120.3
Receivables-backed financing facility	305.0	460.0
Other debt	12.7	12.8
Total debt	2,807.7	2,984.7
Less current portion of debt	128.2	132.6
Long-term debt due after one year	\$2,679.5	\$2,852.1

A portion of the debt classified as long-term, principally our Credit Facility and Receivables Facility, may be paid down earlier than scheduled at our discretion without penalty. Certain restrictive covenants govern our maximum availability under the Credit Facility and Receivables Facility. We test and report our compliance with these covenants as required and are in compliance with all of our covenants at December 31, 2014.

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

Term Loan and Revolving Credit Facility

On September 27, 2012, we entered into a Credit Facility with an original maximum principal amount of approximately \$2.7 billion before scheduled payments. The Credit Facility includes a \$1.475 billion, 5-year revolving credit facility and a \$1.223 billion amended maximum principal amount, 5-year term loan facility. At December 31, 2014, we had \$40.9 million of outstanding letters of credit not drawn upon and available borrowings under the revolving credit portion of the Credit Facility were approximately \$1.4 billion.

Receivables-Backed Financing Facility

On September 15, 2014, we amended our Receivables Facility and extended the maturity date from December 18, 2015 to October 24, 2017, and continued the size of the facility at \$700.0 million. The borrowing rate, which consists of a blend of the market rate for asset-backed commercial paper and the one month LIBOR rate plus a utilization fee, was 0.90% and 0.89% as of December 31, 2014 and September 30, 2014, respectively. The commitment fee for this facility was 0.25% and 0.25% as of December 31, 2014 and September 30, 2014, respectively. At December 31, 2014 and September 30, 2014, maximum available borrowings, excluding amounts outstanding, under this facility were approximately \$620.4 million and \$647.7 million, respectively. The carrying amount of accounts receivable collateralizing the maximum available borrowings at December 31, 2014 was approximately \$803.6 million. We have continuing involvement with the underlying receivables as we provide credit and collections services pursuant to the securitization agreement.

Proposed Merger

Our Credit Facility and Receivables Facility include “change of control” default/termination provisions and, accordingly, we anticipate refinancing or amending them in connection with the consummation of the proposed transaction with MeadWestvaco. Although we believe we will be able to obtain any necessary amendments or refinancings at a reasonable cost, there can be no assurance that we will succeed in obtaining such amendments or refinancings. In addition, our Senior Notes require us to make a change of control offer at 101% of the aggregate principal amount thereof, plus accrued and unpaid interest, upon the occurrence of both a change of control and a related down-grade to non-investment grade (or a related withdrawal of the investment grade rating) by both S&P and Moody’s rating agencies within sixty days of the change of control or the public announcement thereof. We do not currently anticipate a ratings event that would trigger the obligation to make a change of control offer in respect of the Senior Notes but there can be no assurance that such a ratings event will not occur in connection with the transaction or otherwise.

Note 10. Fair Value

Assets and Liabilities Measured or Disclosed at Fair Value

We estimate fair values in accordance with ASC 820 “Fair Value Measurement”. ASC 820 provides a framework for measuring fair value and expands disclosures required about fair value measurements. Specifically, ASC 820 sets forth a definition of fair value and a hierarchy prioritizing the inputs to valuation techniques. ASC 820 defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Additionally, ASC 820 defines levels within the hierarchy based on the availability of quoted prices for identical items in active markets, similar items in active or inactive markets and valuation techniques using observable and unobservable inputs. We incorporate credit valuation adjustments to reflect both our own nonperformance risk and the respective counterparty’s nonperformance risk in our fair value measurements.

We disclose the fair value of our pension and postretirement assets and liabilities in our Fiscal 2014 Form 10-K and the fair value of our long-term debt below. We have, or from time to time may have, supplemental retirement savings plans that are nonqualified deferred compensation plans pursuant to which assets are invested primarily in mutual funds, interest rate derivatives, commodity derivatives or other similar classes of assets or liabilities, the fair value of which are not significant.

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

The following table summarizes the carrying amount and estimated fair value of our long-term debt (in millions):

	December 31, 2014		September 30, 2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
March 2019 Notes ⁽¹⁾	\$349.8	\$371.8	\$349.8	\$376.1
March 2020 Notes ⁽¹⁾	348.0	354.4	347.9	357.5
March 2022 Notes ⁽¹⁾	399.4	430.3	399.4	430.0
March 2023 Notes ⁽¹⁾	347.1	355.4	347.0	357.9
Term loan facilities ⁽²⁾	947.5	947.5	947.5	947.5
Revolving credit and swing facilities ⁽²⁾	98.2	98.2	120.3	120.3
Receivables-backed financing facility ⁽²⁾	305.0	305.0	460.0	460.0
Other debt ⁽²⁾⁽³⁾	12.7	12.9	12.8	13.0
Total debt	\$2,807.7	\$2,875.5	\$2,984.7	\$3,062.3

(1) Fair value is categorized as level 2 within the fair value hierarchy since the notes trade infrequently. Fair value is based on quoted market prices.

(2) Fair value approximates the carrying amount as the variable interest rates reprice frequently at observable current market rates. As such, fair value is categorized as level 2 within the fair value hierarchy.

(3) Fair value for certain debt is estimated based on the discounted value of future cash flows using observable current market interest rates offered for debt of similar credit risk and maturity. As such, fair value is categorized as level 2 within the fair value hierarchy.

In the absence of quoted prices in active markets, considerable judgment is required in developing estimates of fair value. Estimates are not necessarily indicative of the amounts we could realize in a current market transaction, or the amounts at which we could settle our debt.

Accounts Receivable Sales Agreement

During the first quarter of fiscal 2014, we entered into an agreement (the “A/R Sales Agreement”), to sell to a third party financial institution all of the short term receivables generated from certain customer trade accounts, on a revolving basis, until the agreement is terminated by either party. Transfers under this agreement meet the requirements to be accounted for as sales in accordance with the “Transfers and Servicing” guidance in ASC 860. On February 3, 2014, the A/R Sales Agreement was amended to increase the maximum amount of receivables that may be sold at any point in time to \$205 million. During the three months ended December 31, 2014, we sold and derecognized \$219.4 million of receivables, \$219.8 million of receivables were collected by the third party financial institution, we received \$6.4 million from the third-party financial institution and decreased our receivable from the financial institution from \$10.4 million at September 30, 2014 to \$3.6 million at December 31, 2014. During the three months ended December 31, 2013, we derecognized \$98.5 million of receivables, of which \$33.5 million was collected by the third party financial institution. The remaining \$65.0 million represents the net sale of receivables sold as of December 31, 2013 which were funded by the third-party financial institution. Cash proceeds related to these sales are included in cash from operating activities in the condensed consolidated statement of cash flows in the accounts receivable line item. The loss on sale is not material as it is currently less than 1% per annum of the receivables sold, and is included in other income and expense.

Although the sales are made without recourse, we maintain continuing involvement with the sold receivables as we provide collections services related to the transferred assets. The associated servicing liability is not material given the high quality of the customers underlying the receivables and the anticipated short collection period.

Financial Instruments not Recognized at Fair Value

Financial instruments not recognized at fair value on a recurring or nonrecurring basis include cash and cash equivalents, accounts receivable, certain other current assets, short-term debt, accounts payable, certain other current liabilities, and long-term debt. With the exception of long-term debt, the carrying amounts of these financial instruments approximate their fair values due to their short maturities.

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

Fair Value of Nonfinancial Assets and Nonfinancial Liabilities

We measure certain nonfinancial assets and liabilities at fair value on a nonrecurring basis. These assets and liabilities include cost and equity method investments when they are deemed to be other-than-temporarily impaired, assets acquired and liabilities assumed in an acquisition or in a nonmonetary exchange, and property, plant and equipment and intangible assets that are written down to fair value when they are held for sale or determined to be impaired. During the three months ended December 31, 2014 and December 31, 2013, we did not have any significant nonfinancial assets or nonfinancial liabilities that were measured at fair value on a nonrecurring basis in periods subsequent to initial recognition.

Note 11. Retirement Plans

We have defined benefit pension plans and other postretirement plans primarily for certain U.S. and Canadian employees. In addition, under several labor contracts, we make payments, based on hours worked, into multiemployer pension plan trusts established for the benefit of certain collective bargaining employees in facilities both inside and outside the U.S. We also have a SERP and other non-qualified defined benefit pension plans that provide unfunded supplemental retirement benefits to certain of our executives and former executives. The SERP provides for incremental pension benefits in excess of those offered in our principal pension plan. For more information regarding our retirement plans see “Note 12. Retirement Plans” of the Notes to Consolidated Financial Statements section of the Fiscal 2014 Form 10-K.

The following table represents a summary of the components of net pension cost (in millions):

	Three Months Ended December 31,	
	2014	2013
Service cost	\$7.7	\$7.9
Interest cost	49.6	55.0
Expected return on plan assets	(65.0)	(63.9)
Amortization of net actuarial loss	8.7	4.3
Amortization of prior service cost	0.3	0.3
Settlement loss recognized	20.0	—
Company defined benefit plan expense	21.3	3.6
Multiemployer and other plans	1.3	1.5
Net pension cost	\$22.6	\$5.1

During the three months ended December 31, 2014, we contributed an aggregate of \$6.4 million to our qualified and supplemental defined benefit pension plans. Based on our current assumptions, we estimate contributing approximately \$159 million in fiscal 2015 to our qualified and supplemental defined benefit pension plans excluding the impact of the proposed transaction with MeadWestvaco and other future business combinations, the occurrence of which could cause our estimate to change materially. However, it is possible that our assumptions may change, actual market performance may vary or we may decide to contribute additional amounts. During the three months ended December 31, 2013, we contributed an aggregate of \$37.2 million to our qualified and supplemental defined benefit pension plans.

During the first quarter of fiscal 2015 we partially settled obligations of one of our defined benefit pension plans through lump sum payments to certain eligible former employees who were not currently receiving a monthly benefit. Eligible former employees whose present value of future pension benefits exceed a certain minimum threshold had the option to either voluntarily accept or not accept the offer (the “Pension Offer”) and continue to be entitled to their

monthly benefit upon retirement. Former employees with an aggregate pension benefit obligation of \$163.7 million accepted the Pension Offer. Lump sum payments of \$135.1 million were made out of existing plan assets. The settlement resulted in a gain of \$28.6 million which was more than offset by the loss on remeasurement of the pension benefit obligation of approximately \$32.5 million that was primarily due to the impact of a lower discount rate and mortality table changes. As a result we recorded a net \$3.9 million loss to other comprehensive income. The settlement also resulted in a \$20.0 million pre-tax non-cash charge to earnings which is included in the line item "Pension lump sum settlement and retiree medical curtailment, net" on our Condensed Consolidated Statements of Income. The impact of the settlement is included in the net periodic pension cost table above. As a result of the remeasurement, the pension benefit obligation increased \$22.1 million due to changes in coverage for certain employees covered by the United Steelworkers master agreement, with an offset recorded to the unrecognized prior service cost component of other comprehensive income.

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

The postretirement benefit plans provide certain health care and life insurance benefits for certain salaried and hourly employees who meet specified age and service requirements as defined by the plans. The following table represents a summary of the components of the postretirement benefits costs (in millions):

	Three Months Ended December 31,	
	2014	2013
Service cost	\$0.1	\$0.3
Interest cost	1.2	1.5
Amortization of net actuarial gain	(0.3)	(0.2)
Amortization of prior service credit	(0.5)	(0.3)
Curtailed gain recognized	(8.1)	—
Postretirement plan (income) expense	\$(7.6)	\$1.3

During the three months ended December 31, 2014 and December 31, 2013, we contributed an aggregate of \$2.7 million and \$2.9 million, respectively, to our postretirement benefit plans.

During the quarter we entered into a master agreement with the United Steelworkers Union that applies to substantially all of our facilities they represent. The agreement covers a number of specific items such as wages, medical coverage and certain other benefit programs. During the first quarter of fiscal 2015, changes in retiree medical coverage for certain employees covered by the United Steelworkers master agreement resulted in the recognition of a \$8.1 million pre-tax non-cash curtailment gain included in the line item "Pension lump sum settlement and retiree medical curtailment, net" on our Condensed Consolidated Statements of Income. The aggregate postretirement benefit obligation decreased \$0.9 million as a result of the curtailment.

Note 12. Commitments and Contingencies

Environmental and Other Matters

Environmental compliance requirements are a significant factor affecting our business. We employ processes in the manufacture of pulp, paperboard and other products which result in various discharges, emissions and wastes. These processes are subject to numerous federal, state, local and foreign environmental laws and regulations. We operate and expect to continue to operate, under environmental permits and similar authorizations from various governmental authorities that regulate such discharges, emissions and wastes. Environmental programs in the U.S. are primarily established, administered and enforced at the federal level by the EPA. In addition, many of the jurisdictions in which we operate have adopted equivalent or more stringent environmental laws and regulations or have enacted their own parallel environmental programs.

In 2004, the EPA promulgated a MACT regulation that established air emissions standards and other requirements for industrial, commercial and institutional boilers. The rule was challenged by third parties in litigation, and in 2007, the United States Court of Appeals for the D. C. Circuit issued a decision vacating and remanding the rule to the EPA. Under court order, the EPA published a set of four interrelated rules in March 2011, commonly referred to as Boiler MACT. The EPA also published notice in March 2011 that it would reconsider certain aspects of Boiler MACT in order to address "difficult technical issues" raised during the public comment period. On December 20, 2012, the EPA took final action on its proposed reconsideration of certain provisions of the March 2011 Boiler MACT rules. The Boiler MACT reconsideration rules included certain adjustments based on the EPA's review of existing and new data provided after the March 2011 standards were issued. For the Company's boilers where capital may be necessary for compliance, the final December 2012 rule requires compliance by January 31, 2016, subject to a possible one-year

extension. Several environmental, industry and other groups have filed legal challenges to the December 2012 final Boiler MACT rules. We cannot predict with certainty how any of the legal challenges will impact our Boiler MACT strategies and costs.

Certain jurisdictions in which the Company has manufacturing facilities or other investments have taken actions to address climate change. In the U.S., the EPA has issued the Clean Air Act permitting regulations applicable to certain facilities that emit GHG. However, on June 23, 2014, the U.S. Supreme Court issued a decision holding that the EPA may not treat GHG emissions as an air pollutant for purposes of determining whether a source is a major source required to obtain a PSD or Title V permit. The Supreme Court also said that the EPA could continue to require that PSD permits otherwise required based on emissions of conventional pollutants contain limitations on GHG emissions based on the application of best available control technology. The EPA is continuing to examine the implications of the Supreme Court's decision, including how the EPA will need to revise its

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

permitting regulations and related impacts to state programs. The EPA also has promulgated a rule requiring facilities that emit 25,000 metric tons or more of carbon dioxide equivalent per year to file an annual report of their emissions. Some U.S. states and Canadian provinces in which RockTenn has manufacturing operations are also taking measures to reduce GHG emissions. For example, Quebec, has become a member of the Western Climate Initiative, which is a collaboration among California and certain Canadian provinces, Mexican states and tribes that have joined together to create a cap-and-trade program to reduce GHG emissions. On November 18, 2009, Quebec adopted a target of reducing GHG emissions by 20% below 1990 levels by 2020. In December 2011, Quebec issued a final regulation establishing a regional cap-and-trade program that required reductions in GHG emissions from covered emitters as of January 1, 2013. Enactment of the Quebec cap-and-trade program may require expenditures to meet required GHG emission reduction requirements in future years. Such requirements also may increase energy costs above the level of general inflation and result in direct compliance and other costs. However, we do not believe that compliance with the requirements of the new cap-and-trade program will have a material adverse effect on our operations or financial condition. We have systems in place for tracking the GHG emissions from our energy-intensive facilities, and we carefully monitor developments in climate change laws, regulations and policies to assess the potential impact of such developments on our operations and financial condition.

In addition to Boiler MACT and GHG, the EPA has finalized a number of other environmental rules that may impact the pulp and paper industry, including National Ambient Air Quality Standards for nitrogen oxide, sulfur dioxide and fine particulate matter. The EPA is also revising existing environmental standards and developing several new rules that may apply to the industry in the future. We cannot currently predict with certainty how any future changes in environmental laws, regulations and/or enforcement practices will affect our business; however, it is possible that our compliance with new environmental standards may require substantial additional capital expenditures and/or operating costs could increase materially.

On October 1, 2010, our Hopewell, VA containerboard mill received a NOV from EPA Region III alleging certain violations of regulations that require treatment of kraft pulping condensates. The Company and the government have agreed in principle on the terms of the settlement to resolve the allegations set forth in the NOV. We expect to finalize the settlement in the next calendar quarter and do not believe that any fines or compliance obligations required as a condition of settlement will have a significant adverse effect on our results of operations, financial condition or cash flows. We also are involved in various other administrative proceedings relating to environmental matters that arise in the normal course of business. Although the ultimate outcome of such matters cannot be predicted with certainty and we cannot at this time estimate any reasonably possible losses, management does not believe that the currently expected outcome of any environmental proceedings and claim that are pending or threatened against us will have a material adverse effect on our results of operations, financial condition or cash flows.

We also face potential liability under CERCLA and analogous state laws as a result of releases, or threatened releases, of hazardous substances into the environment from various sites owned and operated by third parties at which Company-generated wastes have allegedly been deposited. Generators of hazardous substances sent to off-site disposal locations at which environmental problems exist, as well as the owners of those sites and certain other classes of persons, all of whom are referred to as PRPs and are, in most instances, subject to joint and several liability for response costs for the investigation and remediation of such sites under CERCLA and analogous state laws, regardless of fault or the lawfulness of the original disposal. Liability is typically shared with other PRPs and costs are commonly allocated according to relative amounts of waste deposited and other factors.

On January 26, 2009, Smurfit-Stone and certain of its subsidiaries filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code. Smurfit-Stone's Canadian subsidiaries also filed to reorganize in Canada. We believe that matters relating to previously identified third party PRP sites and certain facilities formerly owned or operated by Smurfit-Stone have been or will be satisfied claims in the Smurfit-Stone bankruptcy proceedings. However, we may

face additional liability for cleanup activity at sites that existed prior to bankruptcy discharge, but are not currently identified. Some of these liabilities may be satisfied from existing bankruptcy reserves. We may also face liability under CERCLA and analogous state and other laws at other ongoing and future remediation sites where we may be a PRP. In addition to the above mentioned sites, certain of our current or former locations are being studied or remediated under various environmental laws and regulations. Based on current facts and assumptions, we do not believe that the costs of these projects will have a material adverse effect on our results of operations, financial condition or cash flows. However, the discovery of additional contamination or the imposition of additional obligations at these or other sites in the future could result in additional costs.

We believe that we can assert claims for indemnification pursuant to existing rights we have under settlement and purchase agreements in connection with certain of our existing remediation sites. However, there can be no assurance that we will be successful with respect to any claim regarding these indemnification rights or that, if we are successful, any amounts paid pursuant to the indemnification rights will be sufficient to cover all our costs and expenses. We also cannot predict with certainty whether we will be required to perform remediation projects at other locations, and it is possible that our remediation requirements and costs could increase materially in the future and exceed current reserves. In addition, we cannot currently assess with certainty

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

the impact that future federal, state or other environmental laws, regulations or enforcement practices will have on our results of operations, financial condition or cash flows.

Our operations are subject to federal, state, local and foreign laws and regulations relating to workplace safety and worker health including OSHA and related regulations. OSHA, among other things, establishes asbestos and noise standards and regulates the use of hazardous chemicals in the workplace. Although we do not use asbestos in manufacturing our products, some of our facilities contain asbestos. For those facilities where asbestos is present, we believe we have properly contained the asbestos and/or we have conducted training of our employees in an effort to ensure that no federal, state or local rules or regulations are violated in the maintenance of our facilities. We do not believe that future compliance with health and safety laws and regulations will have a material adverse effect on our results of operations, financial condition or cash flows.

As of December 31, 2014, we had approximately \$4.3 million reserved for environmental liabilities on an undiscounted basis, of which \$2.7 million is included in other long-term liabilities and \$1.6 million in other current liabilities. We believe the liability for these matters was adequately reserved at December 31, 2014.

Litigation

In late 2010, Smurfit-Stone was one of nine U.S. and Canadian containerboard producers named as defendants in a lawsuit, in the U.S. District Court of the Northern District of Illinois, alleging that these producers violated the Sherman Act by conspiring to limit the supply and fix the prices of containerboard from mid-2005 through November 8, 2010 (“Antitrust Litigation”). RockTenn CP, LLC, as the successor to Smurfit-Stone, is a defendant with respect to the period after Smurfit-Stone’s discharge from bankruptcy in June 30, 2010 through November 8, 2010. The complaint seeks treble damages and costs, including attorney’s fees. The defendants’ motions to dismiss the complaint were denied by the court in April 2011. We believe the allegations are without merit and will defend this lawsuit vigorously. However, at this stage of the litigation, we are unable to predict the ultimate outcome or estimate a range of reasonably possible losses.

We are a defendant in a number of other lawsuits and claims arising out of the conduct of our business. While the ultimate results of such suits or other proceedings against us cannot be predicted with certainty, management believes the resolution of these other matters will not have a material adverse effect on our consolidated financial condition, results of operations or cash flows.

Guarantees

We have made the following guarantees as of December 31, 2014:

- we have a 49% ownership interest in Seven Hills. The joint venture partners guarantee funding of net losses in proportion to their share of ownership;

- we have a wood chip processing contract with minimum purchase commitments which expires in 2017. As part of the agreement, we guarantee the third party contractors’ debt outstanding and have a security interest in the chipping equipment. At December 31, 2014, the maximum potential amount of future payments related to the guarantee was approximately \$5 million, which decreases ratably over the life of the contract. In the event the guarantee on the contract is called, proceeds from the liquidation of the chipping equipment would be based on current market conditions and we may not recover in full the guarantee payments made;

as part of acquisitions we have acquired unconsolidated entities for which we guarantee approximately \$4 million in debt, primarily for bank loans; and

we lease certain manufacturing and warehousing facilities and equipment under various operating leases. A substantial number of these leases require us to indemnify the lessor in the event that additional taxes are assessed due to a change in the tax law. We are unable to estimate our maximum exposure under these leases because it is dependent on changes in the tax law.

Table of Contents

Notes to Condensed Consolidated Statements (Unaudited) (Continued)

Seven Hills Option

Seven Hills commenced operations on March 29, 2001. Our partner in the Seven Hills joint venture has the option to require us to purchase its interest in Seven Hills, at a formula price, effective on the sixth or any subsequent anniversary of the commencement date by providing us notice two years prior to any such anniversary. The earliest date on which we could be required to purchase our partner's interest is March 29, 2017. We have not recorded any liability for this unexercised option. We currently project this contingent obligation to purchase our partner's interest (based on the formula) to be approximately \$8 million at December 31, 2014, which would result in a purchase price of approximately 49% of our partner's net equity reflected on Seven Hills' December 31, 2014 balance sheet.

Note 13. Segment Information

We report our results of operations in the following four reportable segments: Corrugated Packaging, consisting of our containerboard mills and our corrugated converting operations; Consumer Packaging, consisting of our coated and uncoated paperboard mills and consumer packaging converting operations; Merchandising Displays, consisting of our display and contract packaging services; and Recycling, which consists of our recycled fiber brokerage and collection operations. Certain income and expenses are not allocated to our segments and, thus, the information that management uses to make operating decisions and assess performance does not reflect such amounts. Items not allocated to segments are reported as non-allocated expenses or in other line items in the table below after segment income.

Note 14. Selected Consolidating Financial Statements of Parent, Guarantors and Non-Guarantors

The Company's Senior Notes are fully and unconditionally guaranteed on a joint and several basis by our Guarantor Subsidiaries. The total assets, stockholders' equity, revenues, earnings and cash flows from operating activities of the Guarantor Subsidiaries reflect the majority of the consolidated total of such items as of or for the periods reported. The Non-Guarantor Subsidiaries include: foreign operations in Canada, Mexico, Chile, Argentina, Puerto Rico and China, certain non-operating U.S. subsidiaries and joint ventures not 100% owned.

In accordance with Rule 3-10 of Regulation S-X, the following tables present condensed consolidating financial statements including the Parent, the Guarantor Subsidiaries, the Non-Guarantor Subsidiaries and eliminations. Such financial statements include the Condensed Consolidating Statements of Income for the three months ended December 31, 2014 and December 31, 2013, Condensed Consolidating Balance Sheets as of December 31, 2014 and September 30, 2014 and Condensed Consolidating Statements of Cash Flows for the three months ended December 31, 2014 and December 31, 2013.

Supplemental schedule of non-cash investing and financing activities:

The Condensed Consolidating Statements of Cash Flows for the three months ended December 31, 2013 do not include a \$23.6 million non-cash transaction between a Guarantor Subsidiary and a Non-Guarantor Subsidiary to increase an intercompany capital investment in the Non-Guarantor Subsidiary nor to reflect the corresponding decrease in intercompany notes receivable. The additional investment into a Non-Guarantor Subsidiary was made through a non-cash conversion of an intercompany note receivable in the first quarter of fiscal 2014.

Note 15. Subsequent Events

On January 25, 2015, RockTenn and MeadWestvaco, entered into a Business Combination Agreement (the “Agreement”), pursuant to which RockTenn and MeadWestvaco have agreed, subject to the terms and conditions of the Agreement, to effect a strategic combination of their respective businesses by: (i) RockTenn forming a new holding company organized under the laws of Delaware, the name of which shall be mutually agreed upon by RockTenn and MeadWestvaco (“TopCo”), (ii) RockTenn merging with a newly formed wholly owned direct subsidiary of TopCo, with RockTenn surviving such merger as a direct wholly owned subsidiary of TopCo (the “RockTenn Merger”), and (iii) MeadWestvaco merging with and into a newly formed wholly owned direct subsidiary of TopCo, with such subsidiary surviving such merger as a direct wholly owned subsidiary of TopCo (the “MeadWestvaco Merger” and, together with the RockTenn Merger, the “Mergers”). The boards of directors of each of RockTenn and MeadWestvaco have unanimously approved the Agreement and the transactions contemplated thereby. The transaction, which is expected to close in the second calendar quarter of 2015, requires the approval of shareholders of both the Company and MeadWestvaco and is subject to the receipt of certain regulatory approvals and other customary closing conditions. For additional information regarding the transaction see RockTenn’s Current Report on Form 8-K filed on January 26, 2015 with respect to the press release announcing the merger and RockTenn’s Current Report on Form 8-K filed on January 27, 2015 with respect to entering into the Agreement.

Item 2. **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the Condensed Consolidated Financial Statements and Notes thereto included herein and our audited Consolidated Financial Statements and Notes thereto for the fiscal year ended September 30, 2014, as well as the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" that are part of our Fiscal 2014 Form 10-K. The table in "Note 13. Segment Information" of the Notes to Condensed Consolidated Financial Statements included herein shows certain operating data for our segments. See our reconciliations of Non-GAAP measures in the "Non-GAAP Financial Measures" section below.

Overview

Net sales of \$2,514.2 million for the first quarter of fiscal 2015 increased \$151.6 million, or 6.4%, over the first quarter of fiscal 2014, primarily as a result of the acquisitions completed in fiscal 2014. Corrugated Packaging segment shipments increased 10.6% in the first quarter of fiscal 2015, and 5.3% excluding the Tacoma Mill acquisition, each as compared to the prior year quarter. Segment income increased \$9.2 million or 3.9% to \$243.9 million in the first quarter of fiscal 2015 compared to the prior year quarter, primarily as a result of productivity improvements, lower fiber costs and increased net sales which were partially offset by of higher non-fiber commodity, freight and other costs - each as discussed below.

Net income in the first quarter of fiscal 2015 was \$125.1 million compared to \$109.7 million in the first quarter of last year. Adjusted Net Income in the first quarter of fiscal 2015 increased \$15.7 million over the first quarter of last year to \$137.6 million. Earnings per diluted share in the first quarter of fiscal 2015 were \$0.88 per diluted share as compared to \$0.75 per diluted share in the first quarter of last year. Adjusted Earnings Per Diluted Share in the first quarter of fiscal 2015 were \$0.96 per diluted share as compared to \$0.83 per diluted share in the first quarter of last year. Cash Generated for Net Debt Repayment, Dividends, Acquisitions/Investments, Stock Repurchases and Pension Lump Sum Settlement and Retiree Medical Curtailment, net and Pension Funding in Excess of Expense (as hereinafter defined) was \$219.5 million and \$253.5 million for three months ended December 31, 2014 and December 31, 2013. The prior year quarter included \$65.0 million of cash proceeds from the initial sale of accounts receivables in connection with the A/R Sales Agreement.

Results of Operations (Consolidated)

The following table summarizes our consolidated results for the three months ended December 31, 2014 and December 31, 2013 and is followed by a discussion of the adjustments to reconcile diluted earnings per share attributable to Rock-Tenn Company shareholders to Adjusted Earnings Per Diluted Share (in millions):

	Three Months Ended December 31,	
	2014	2013
Net sales	\$2,514.2	\$2,362.6
Cost of goods sold	2,044.7	1,914.8
Gross profit	469.5	447.8
Selling, general and administrative expenses	243.7	234.8
Pension lump sum settlement and retiree medical curtailment, net	11.9	—
Restructuring and other costs, net	5.4	17.6
Operating profit	208.5	195.4

Net income attributable to Rock-Tenn Company shareholders	\$125.1		\$109.7	

34

Table of Contents

Set forth below is a reconciliation of Adjusted Earnings Per Diluted Share to the most directly comparable GAAP measure Earnings per diluted share (in dollars per share), for the periods indicated:

	Three Months Ended	
	December 31,	
	2014	2013
Earnings per diluted share	\$0.88	\$0.75
Pension lump sum settlement and retiree medical curtailment, net	0.05	—
Restructuring and other costs and operating losses and transition costs due to plant closures	0.02	0.08
Acquisition inventory step-up	0.01	—
Adjusted Earnings Per Diluted Share	\$0.96	\$0.83

In the first quarter of fiscal 2015, we completed our previously announced lump sum pension settlement to certain eligible former employees and recorded a pre-tax charge of \$20.0 million. In addition, changes in retiree medical coverage for certain employees covered by the United Steelworkers Union master agreement resulted in the recognition of an \$8.1 million pre-tax curtailment gain. These two items aggregated \$11.9 million pre-tax or \$0.05 per diluted share after-tax. In addition, our restructuring and other costs and operating losses and transition costs due to plant closures were \$0.02 per diluted share and consisted primarily of \$3.3 million of pre-tax facility closure and related operating losses and transition costs primarily related to charges associated with previously closed facilities and \$2.7 million of pre-tax integration and acquisition costs.

In the first quarter of fiscal 2014, our restructuring and other costs and operating losses and transition costs due to plant closures were \$0.08 per diluted share and consisted primarily of \$11.7 million of pre-tax facility closure and related operating losses and transition costs primarily related to consolidating corrugated container plants and recycled collection facilities and \$7.5 million of pre-tax integration and acquisition.

We discuss these charges in more detail in “Note 6. Restructuring and Other Costs, Net” and “Note 11. Retirement Plans” of the Notes to Condensed Consolidated Financial Statements included herein.

Net Sales (Unaffiliated Customers)

(In millions, except percentages)	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Fiscal Year
Fiscal 2014	\$2,362.6	\$2,393.6	\$2,530.9	\$2,608.0	\$9,895.1
Fiscal 2015	\$2,514.2				
% Change	6.4	%			

Net sales in the first quarter of fiscal 2015 increased \$151.6 million compared to the first quarter of fiscal 2014 primarily as a result of the acquisitions completed in fiscal 2014.

Cost of Goods Sold

(In millions, except percentages)	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Fiscal Year
Fiscal 2014	\$1,914.8	\$1,966.4	\$2,041.3	\$2,039.0	\$7,961.5
(% of Net Sales)	81.0	% 82.2	% 80.7	% 78.2	% 80.5
Fiscal 2015	\$2,044.7				
(% of Net Sales)	81.3	%			

Cost of goods sold as a percentage of net sales in the first quarter of fiscal 2015 was relatively flat compared to the prior year first quarter. On a volume adjusted basis compared to the prior year quarter, aggregate freight, shipping and warehousing costs

35

Table of Contents

increased \$15.2 million, commodity costs decreased \$20.5 million, including aggregate fiber and board costs which decreased \$30.4 million, direct labor costs decreased \$7.7 million and energy costs decreased \$6.6 million. Depreciation and amortization expense increased \$6.7 million and group insurance expense increased \$7.7 million, each as compared to the prior year quarter.

Selling, General and Administrative Expenses

(In millions, except percentages)	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Fiscal Year		
Fiscal 2014	\$234.8	\$245.5	\$245.3	\$250.1	\$975.7		
(% of Net Sales)	9.9	% 10.3	% 9.7	% 9.6	% 9.9		%
Fiscal 2015	\$243.7						
(% of Net Sales)	9.7	%					

SG&A expenses increased \$8.9 million in the first quarter of fiscal 2015 compared to the prior year period as a result of the acquisitions completed in fiscal 2014. SG&A expenses include \$22.4 million and \$21.1 of intangible amortization in the first quarter of fiscal 2015 and 2014, respectively.

Pension Lump Sum Settlement and Retiree Medical Curtailment, net

During the first quarter of fiscal 2015, we completed our previously announced lump sum pension settlement to certain eligible former employees and as a result recorded a pre-tax charge of \$20.0 million. In addition, during the first quarter of fiscal 2015, changes in retiree medical coverage for certain employees covered by the United Steelworkers Union master agreement resulted in the recognition of an \$8.1 million pre-tax curtailment gain. For additional information see “Note 11. Retirement Plans” of the Notes to Condensed Consolidated Financial Statements included herein.

Restructuring and Other Costs, Net

We recorded aggregate pre-tax restructuring and other costs of \$5.4 million and \$17.6 million in the first quarter of fiscal 2015 and 2014, respectively. Costs recorded in each period are not comparable since the timing and scope of the individual actions associated with a restructuring, an acquisition or an integration can vary. We discuss these charges in more detail in “Note 6. Restructuring and Other Costs, Net” of the Notes to Condensed Consolidated Financial Statements included herein.

Acquisitions

On August 29, 2014, we acquired the stock of AGI In-Store, a manufacturer of permanent point-of-purchase displays and fixtures to the consumer products and retail industries. The purchase price was \$70.0 million, net of cash and an estimated working capital settlement. We expect to make an election under section 338(h)(10) of the Code that will increase our tax basis in the acquired assets for an as yet to be determined amount for consideration not to exceed \$2.0 million. We acquired the AGI In-Store business as we believe it supports our strategy to provide a more holistic portfolio of innovative in-store marketing solutions, including “store-within-a-store” displays, and will enhance cross-selling opportunities and bolster our growing retail presence. We have included the results of AGI In-Store’s operations since the date of the acquisition in our condensed consolidated financial statements in our Merchandising Displays segment.

On May 16, 2014, we acquired certain assets and liabilities of the Tacoma Mill. The purchase price was \$340.6 million including an estimated working capital settlement. We believe the Tacoma Mill, located in Tacoma, WA, is a

strategic fit and the mill has improved our ability to satisfy West Coast customers and generate operating efficiencies across our containerboard system. We have included the results of the Tacoma Mill since the date of the acquisition in our condensed consolidated financial statements in our Corrugated Packaging segment.

On December 20, 2013, we acquired the stock of NPG, a specialty display company. The purchase price was \$59.6 million, net of cash acquired of \$1.7 million and a working capital settlement. We acquired the NPG business as we believe NPG provides a broad range of display products and services to many of the most recognized retailers and their innovative retail solutions and large-format printing capability expands our customer base and significantly improves our ability to provide retail insights, innovation and connectivity to all of our customers. We have included the results of NPG's operations since the date of the acquisition in our condensed consolidated financial statements in our Merchandising Displays segment.

Table of Contents

We discuss these acquisitions in more detail in “Note 5. Acquisitions” of the Notes to Condensed Consolidated Financial Statements included herein.

Interest Expense

Interest expense for the first quarter of fiscal 2015 decreased to \$23.3 million from \$24.0 million for the same quarter last year and included amortization of deferred financing costs of \$2.7 million compared to \$2.6 million for the same quarter of the prior year. The increase in our average outstanding borrowings increased interest expense by approximately \$0.6 million, lower average interest rates decreased interest expense by approximately \$1.4 million and amortization of deferred financing costs increased by \$0.1 million.

Provision for Income Taxes

We recorded income tax expense of \$62.0 million for the three months ended December 31, 2014, compared to income tax expense of \$61.7 million for the three months ended December 31, 2013. The effective tax rates for the three months ended December 31, 2014 and December 31, 2013 were approximately 33.0% and 35.8%, respectively. The effective tax rate for the three months ended December 31, 2014 and December 31, 2013, respectively, were different than the statutory rate primarily due to the impact of state taxes, the ability to claim the domestic manufacturer’s deduction against U.S. taxable earnings and a lower tax rate with respect to foreign earnings. We expect our effective tax rate to be approximately 33% to 35% in fiscal 2015, excluding the impact of discrete items.

Results of Operations (Segment Data)

Corrugated Packaging Shipments

Corrugated Packaging Segment Shipments are expressed as a tons equivalent which includes external and intersegment tons shipped from our Corrugated mills plus Corrugated Container Shipments converted from BSF to tons. The following data excludes container shipments in Asia.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Fiscal Year
Fiscal 2014					
Corrugated Packaging Segment Shipments - thousands of tons	1,803.8	1,809.5	1,961.8	2,074.6	7,649.7
Corrugated Containers Shipments - BSF	18.4	18.2	18.8	18.8	74.2
Corrugated Containers Per Shipping Day - MMSF	301.5	288.8	298.2	294.7	295.8
Fiscal 2015					
Corrugated Packaging Segment Shipments - thousands of tons	1,995.8				
Corrugated Containers Shipments - BSF	18.8				
Corrugated Containers Per Shipping Day - MMSF	309.0				

Table of Contents

Corrugated Packaging Segment (Aggregate Before Intersegment Eliminations)

	Net Sales (Aggregate) (In millions, except percentages)	Segment Income	Return on Sales	
Fiscal 2014				
First Quarter	\$1,651.9	\$157.7	9.5	%
Second Quarter	1,651.7	133.1	8.1	
Third Quarter	1,774.2	179.8	10.1	
Fourth Quarter	1,825.9	248.4	13.6	
Fiscal 2014	\$6,903.7	\$719.0	10.4	%
Fiscal 2015				
First Quarter	\$1,768.2	\$183.1	10.4	%

Net Sales (Corrugated Packaging Segment)

Net sales of the Corrugated Packaging segment increased \$116.3 million in the first quarter of fiscal 2015 compared to the prior year quarter primarily due to increased shipments. Corrugated Packaging segment shipments increased 10.6% in the first quarter of fiscal 2015, and 5.3% excluding the Tacoma Mill acquisition, each as compared to the prior year quarter.

Segment Income (Corrugated Packaging Segment)

Segment income attributable to the Corrugated Packaging segment in the first quarter of fiscal 2015 increased \$25.4 million compared to the prior year first quarter. The increase in segment income was primarily a result of lower fiber costs, productivity improvements and increased volume which were partially offset by higher non-fiber commodity, freight and other costs. We estimate productivity improvements in the Corrugated Packaging segment in the first quarter of fiscal 2015 to be approximately \$42 million. On a volume adjusted basis, commodity costs decreased \$22.1 million, including aggregate fiber and board costs which decreased \$24.4 million, direct labor costs decreased \$11.5 million, energy costs decreased \$7.1 million and aggregate freight, shipping and warehousing costs increased \$8.9 million, each as compared to the prior year quarter. Depreciation and amortization expense increased \$5.5 million, group insurance expense increased \$5.3 million, bad debt expense increased \$2.6 million and amortization of major maintenance outage expense decreased \$4.2 million, each as compared to the prior year quarter.

Consumer Packaging Shipments

Consumer Packaging Segment Shipments are expressed as a tons equivalent which includes external and intersegment tons shipped from our Consumer mills plus Consumer Packaging Converting Shipments converted from BSF to tons. The shipment data excludes gypsum paperboard liner tons produced by Seven Hills since it is not consolidated.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Fiscal Year
Fiscal 2014					
Consumer Packaging Segment Shipments - thousands of tons	378.1	386.0	394.3	408.7	1,567.1
Consumer Packaging Converting Shipments - BSF	5.0	5.3	5.2	5.5	21.0
Consumer Packaging Converting Per Shipping Day - MMSF	82.0	83.6	83.3	86.1	83.8
Fiscal 2015					
Consumer Packaging Segment Shipments - thousands of tons	371.2				
Consumer Packaging Converting Shipments - BSF	5.3				

Table of Contents

Consumer Packaging Segment (Aggregate Before Intersegment Eliminations)

	Net Sales (Aggregate) (In millions, except percentages)	Segment Income	Return on Sales	
Fiscal 2014				
First Quarter	\$472.1	\$57.6	12.2	%
Second Quarter	489.3	49.3	10.1	
Third Quarter	497.0	59.6	12.0	
Fourth Quarter	525.1	72.3	13.8	
Fiscal 2014	\$1,983.5	\$238.8	12.0	%
Fiscal 2015				
First Quarter	\$478.8	\$52.6	11.0	%

Net Sales (Consumer Packaging Segment)

The \$6.7 million increase in net sales for the Consumer Packaging segment for the first quarter of fiscal 2015 compared to the prior year first quarter was primarily due to higher selling price/mix partially offset by lower segment shipments compared to the prior year quarter. The 1.8% decrease in shipments was primarily due to pulp inventoried for next quarter's planned major maintenance outage partially offset by increased folding carton volumes.

Segment Income (Consumer Packaging Segment)

Segment income of the Consumer Packaging segment for the quarter ended December 31, 2014 decreased \$5.0 million compared to the prior year quarter primarily as the impact of increased net sales was more than offset by higher commodity and other costs. On a volume adjusted basis, commodity costs increased \$4.8 million, including aggregate fiber and board costs which increased \$2.9 million, direct labor costs increased \$2.7 million and aggregate freight, shipping and warehousing costs increased \$2.3 million, each as compared to the prior year quarter. Segment income in the first quarter of fiscal 2014 included a gain of \$2.7 million related to a partial insurance settlement of property damage claims associated with the Demopolis turbine failure which occurred in fiscal 2012.

Merchandising Displays (Aggregate Before Intersegment Eliminations)

	Net Sales (Aggregate) (In millions, except percentages)	Segment Income	Return on Sales	
Fiscal 2014				
First Quarter	\$184.6	\$19.3	10.5	%
Second Quarter	213.0	17.0	8.0	
Third Quarter	225.1	21.4	9.5	
Fourth Quarter	229.2	14.9	6.5	
Fiscal 2014	\$851.9	\$72.6	8.5	%
Fiscal 2015				
First Quarter	\$238.2	\$6.4	2.7	%

Net Sales (Merchandising Displays Segment)

Our Merchandising Displays segment net sales increased \$53.6 million or 29.0% for the first quarter of fiscal 2015 compared to the prior year first quarter primarily due to higher volumes driven by customer promotional activity and net sales from the two display acquisitions completed in fiscal 2014. The acquisitions accounted for almost three-fourths of the increase in net sales.

Table of Contents

Segment Income (Merchandising Displays)

Segment income attributable to the Merchandising Displays segment decreased \$12.9 million in the first quarter of fiscal 2015 compared to the prior year first quarter as the higher net sales were more than offset by higher commodity and other costs including higher costs associated with supporting and onboarding new business. Additionally, segment income for the first quarter of fiscal 2015 included \$1.1 million pre-tax for acquisition inventory step-up expense.

Recycling Segment (Aggregate Before Intersegment Eliminations)

	Net Sales (Aggregate) (In millions, except percentages)	Segment Income	Return on Sales	
Fiscal 2014				
First Quarter	\$99.6	\$0.1	0.1	%
Second Quarter	90.1	2.8	3.1	
Third Quarter	85.4	2.1	2.5	
Fourth Quarter	88.1	4.0	4.5	
Fiscal 2014	\$363.2	\$9.0	2.5	%
Fiscal 2015				
First Quarter	\$80.3	\$1.8	2.2	%

Fiber Reclaimed and Brokered

(Shipments in thousands of tons)	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Fiscal Year
Fiscal 2014	1,562.5	1,564.0	1,573.6	1,609.0	6,309.1
Fiscal 2015	1,628.0				

Net Sales (Recycling Segment)

Our Recycling segment net sales decreased \$19.3 million for the first quarter of fiscal 2015 compared to the prior year first quarter primarily due to lower recovered fiber prices as a result of soft global markets for recovered fiber, including exports to China, and collection facility closures during the past year which were partially offset by higher volumes.

Segment Income (Recycling Segment)

Segment income attributable to the Recycling segment increased \$1.7 million in the first quarter of fiscal 2015 compared to the prior year first quarter primarily due to cost structure improvements and higher volumes.

Liquidity and Capital Resources

We fund our working capital requirements, capital expenditures, acquisitions, restructuring activities, dividends and stock repurchases from net cash provided by operating activities, borrowings under our credit facilities, proceeds from the sale of property, plant and equipment removed from service and proceeds received in connection with the issuance of debt and equity securities. Our primary credit facilities are our Credit Facility and our Receivables Facility. See "Note 9. Debt" of the Notes to Condensed Consolidated Financial Statements section included herein for additional information on our outstanding debt. References to estimates in Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" for items such as capital expenditures, contributions to our qualified and supplemental defined benefit pension plans and the timing of utilizing

our net operating losses, CBPC, Alternative Minimum Tax and other credits, including the impact on estimated cash tax payments, exclude the impact of the proposed MeadWestvaco transaction and other future business combinations, the occurrence of which could cause our estimates to change materially.

Cash and cash equivalents were \$32.8 million at December 31, 2014 and \$32.6 million at September 30, 2014. At December 31, 2014 and September 30, 2014, total debt was \$2,807.7 million and \$2,984.7 million, respectively, \$128.2 million

Table of Contents

of which was short-term at December 31, 2014. A portion of the debt classified as long-term may be paid down earlier than scheduled at our discretion without penalty. Aggregate liquidity under our Receivables Facility and Credit Facility was approximately \$1.7 billion at December 31, 2014. Certain restrictive covenants govern our maximum availability under the Credit Facility and Receivables Facility. We test and report our compliance with these covenants as required by these facilities and were in compliance with all of those covenants at December 31, 2014.

Credit Facility

On September 27, 2012, we entered into the Credit Facility with an original maximum principal amount of approximately \$2.7 billion before scheduled payments. The Credit Facility includes a \$1.475 billion, 5-year revolving credit facility and a \$1.223 billion, amended maximum principal amount, 5-year term loan facility. The facility matures on September 27, 2017. In December 2012, we prepaid our term loan facility through December 2014 with borrowings under our Receivables Facility, our revolving credit facility and available cash. At December 31, 2014, available borrowings under the revolving credit portion of the Credit Facility were approximately \$1.4 billion.

Receivables-Backed Financing Facility

On September 15, 2014, we amended our Receivables Facility and extended the maturity date to October 24, 2017, and continued the size of the facility at \$700.0 million. The amendment reduced the credit spread for the used portion of the facility from 0.75% to 0.70% and made minor amendments to the process of calculating the Borrowing Base (as defined in the Receivables Facility). Borrowing availability under this facility is based on the eligible underlying accounts receivable and certain covenants. The Receivables Facility allows for the exclusion of eligible receivables of specific customers each calendar year subject to the following restrictions: (i) the aggregate of excluded receivables may not exceed 7.5% of eligible receivables under the Receivables Facility, and (ii) the excluded receivables of each customer may not exceed 2.5% of the aggregate outstanding balance of all eligible receivables. At December 31, 2014, borrowing availability under this facility exceeded \$0.3 billion.

Proposed Merger

Our Credit Facility and Receivables Facility include “change of control” default/termination provisions and, accordingly, we anticipate refinancing or amending them in connection with the consummation of the proposed transaction with MeadWestvaco. Although we believe we will be able to obtain any necessary amendments or refinancings at a reasonable cost, there can be no assurance that we will succeed in obtaining such amendments or refinancings. In addition, our Senior Notes require us to make a change of control offer at 101% of the aggregate principal amount thereof, plus accrued and unpaid interest, upon the occurrence of both a change of control and a related down-grade to non-investment grade (or a related withdrawal of the investment grade rating) by both S&P and Moody’s rating agencies within sixty days of the change of control or the public announcement thereof. We do not currently anticipate a ratings event that would trigger the obligation to make a change of control offer in respect of the Senior Notes but there can be no assurance that such a ratings event will not occur in connection with the transaction or otherwise.

See “Note 9. Debt” of the Notes to Condensed Consolidated Financial Statements section included herein for additional information on the Credit Facility and Receivables Facility.

Accounts Receivable Sales Agreement

In fiscal 2014, we entered into an agreement to sell to a third party financial institution all of the short term receivables generated from certain customer trade accounts, on a revolving basis, until the agreement is terminated by either party. The maximum funding from receivables that may be sold at any time is \$205 million. Transfers under the

A/R Sales Agreement meet the requirements to be accounted for as sales in accordance with the “Transfers and Servicing” guidance in ASC 860. Cash proceeds related to the sales are included in cash from operating activities in the consolidated statement of cash flows in the accounts receivable line item. The loss on sale is not material as it is currently less than 1% per annum of the receivables sold, and is included in interest income and other income (expense), net. See “Note 10. Fair Value” of the Notes to Condensed Consolidated Financial Statements section included herein for additional information on the A/R Sales Agreement.

Table of Contents

Cash Flow Activity

	Three Months Ended December 31,	
	2014	2013
	(In millions)	
Net cash provided by operating activities	\$332.4	\$304.5
Net cash used for investing activities	\$(123.2)	\$(154.4)
Net cash used for by financing activities	\$(208.4)	\$(161.7)

Net cash provided by operating activities during the three months ended December 31, 2014 increased compared to the three months ended December 31, 2013 primarily due to the impact of increased aggregate net income, deferred taxes and depreciation and amortization, and decreased pension funding and less working capital utilized in the current year period compared to the three months ended December 31, 2013 excluding the cash proceeds from \$65.0 million sale of accounts receivables in connection with the A/R Sales Agreement in the prior year period.

Net cash used for investing activities in the three months ended December 31, 2014 consisted primarily of \$126.9 million of capital expenditures that was partially offset by proceeds from the sale of property, plant and equipment. Net cash used for investing activities in the three months ended December 31, 2013 consisted primarily of \$100.6 million of capital expenditures and \$60.0 million for the purchase of a merchandising display business which were partially offset by proceeds from the sale of property, plant and equipment and a partial insurance settlement. We estimate fiscal 2015 capital expenditures will be approximately \$500 to \$550 million. We believe we have significant opportunity to improve our performance via capital investment. In our box plant system, the most prominent investments being in the converting equipment, including the modernization of our box plant system by installing a total of thirty EVOL flexo folder gluers. Seven of which were installed in fiscal 2014 and four were installed in the first quarter of fiscal 2015. We have also identified opportunities in our mill system to improve the productivity and cost structure, including projects such as converting to a carbonate caustic pulping process at our Stevenson, AL containerboard mill which is expected to improve yield and reduce cost. Our estimate also includes our fiscal 2015 Boiler MACT expenditures that will be part of our total multi-year estimated Boiler MACT capital investment of approximately \$55 million at our containerboard mills as well as continued work on an estimated \$89 million project, that is expected to start-up in fiscal 2016, to build a new fluidized bed biomass boiler at our Demopolis, AL bleached paperboard mill that will replace two 1950s power boilers and address the Boiler MACT requirements at the mill. Our capital expenditure estimates exclude approximately \$34 million of accrued liabilities associated with a dispute with vendors related to a fiscal 2012 major capital investment at one of our containerboard mills, which would increase capital expenditures to the extent paid. It is possible that our capital expenditure assumptions may change, project completion dates may change, or we may decide to spend a different amount depending upon opportunities we identify or to comply with environmental regulation changes such as those promulgated by the EPA. Our Boiler MACT projections are subject to change due to items such as the finalization of ongoing engineering work, EPA determinations on Boiler MACT implementation issues and the outcomes of pending legal challenges to the rules.

In the three months ended December 31, 2014, net cash used for financing activities consisted primarily of the net repayment of debt aggregating \$174.4 million, cash dividends paid to shareholders of \$26.3 million and purchases of Common Stock of \$8.7 million. In the three months ended December 31, 2013, net cash used for financing activities consisted primarily of the net repayment of debt aggregating \$86.9 million, purchases of Common Stock of \$53.0 million and cash dividends paid to shareholders of \$25.8 million.

In December 2014, Congress passed the Tax Increase Prevention Act of 2014 that among other things extended bonus depreciation through the end of calendar 2014. As a result, we increased our tax depreciation deduction for fiscal 2014 and correspondingly decreased our previously reflected use of U.S. federal net operating losses and other credits. At

December 31, 2014, the U.S. federal, state and foreign net operating losses, CBPC, Alternative Minimum Tax credits and other U.S. federal and state tax credits available to us aggregated approximately \$280 million in future potential reductions of U.S. federal, state and foreign cash taxes. Based on our current projections, we expect to utilize the remaining U.S. Federal NOLs, CBPC, Alternative Minimum Tax and other U.S. federal credits and foreign net operating losses primarily over the next two years. We expect to receive increased tax benefits from a the domestic manufacturer's deduction, which has been limited in recent years due to lower levels of federal taxable income after the use of federal net operating losses. State net operating losses and credits will be used over a longer period of time. We expect our cash tax payments to be materially less than our income tax expense in fiscal 2015, significantly lower in fiscal 2016 and similar in fiscal 2017. However, it is possible that our utilization of these net operating losses and credits may change due to changes in taxable income, tax laws or tax rates, capital expenditures, future business combinations or other factors.

Table of Contents

We made contributions of \$6.4 million to our pension and supplemental retirement plans during the three months ended December 31, 2014. Based on current facts and assumptions, we anticipate contributing a total of approximately \$159 million in fiscal 2015 and \$160 million in fiscal 2016 to our qualified and supplemental defined benefit pension plans. We have made contributions to our pension plans and expect to continue to make contributions in the coming years in order to ensure that our funding levels remain adequate in light of projected liabilities and to meet the requirements of the Pension Act and other regulations. We do not expect to be required to make additional pension plan contributions as a result of the lump sum payments to certain eligible former employees who are not currently receiving a monthly benefit as discussed in “Note 11. Retirement Plans” of the Notes to Condensed Consolidated Financial Statements included herein. Our estimates are based on current factors, such as discount rates and expected return on plan assets. Future contributions are subject to changes in our underfunded status based on factors such as investment performance, discount rates, return on plan assets, changes in mortality or other assumptions and changes in legislation. It is possible that our assumptions may change, actual market performance may vary or we may decide to contribute different amounts. There can be no assurance that such changes, including potential turmoil in financial and capital markets, will not be material to our results of operations, financial condition or cash flows.

In November 2014 we paid a quarterly dividend of \$0.1875 per share, indicating a current annualized cash dividend of \$0.75 per share on our Common Stock. As a result of the Agreement entered into with MeadWestvaco to effect a strategic combination, we expect to increase the per share amount of the dividend(s) we distribute between the announcement date and the closing of the proposed transaction to equalize dividend payments between the two companies. Therefore, in January 2015, our board of directors approved our February 2015 dividend of \$0.320525 per share which reflected our \$0.1875 regular quarterly dividend payment plus an addition \$0.133025 per share to equalize the dividend.

We anticipate that we will be able to fund our capital expenditures, interest payments, dividends and stock repurchases, pension payments, working capital needs, note repurchases, restructuring activities, repayments of current portion of long-term debt and other corporate actions for the foreseeable future from cash generated from operations, borrowings under our Credit Facility and Receivables Facility, proceeds from our A/R Sales Agreement, proceeds from the issuance of debt or equity securities or other additional long-term debt financing, including new or amended facilities. In addition, we continually review our capital structure and conditions in the private and public debt markets in order to optimize our mix of indebtedness. In connection therewith, we may seek to refinance existing indebtedness to extend maturities, reduce borrowing costs or otherwise improve the terms and composition of our indebtedness.

New Accounting Standards

See “Note 2. New Accounting Standards” of the Notes to Condensed Consolidated Financial Statements included herein for a full description of recent accounting pronouncements including the respective expected dates of adoption and expected effects on results of operations and financial condition.

Non-GAAP Financial Measures

We have included in the discussion under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations” above financial measures that were not prepared in accordance with GAAP. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with GAAP. Below, we define the non-GAAP financial measures, discuss the reasons that we believe this information is useful to management and may be useful to investors, and provide reconciliations of the non-GAAP financial measures to the most directly comparable financial measures calculated in accordance with GAAP. These measures may differ from

similarly captioned measures of other companies. The following non-GAAP measures are not intended to be substitutes for GAAP financial measures and should not be used as such.

We have defined the non-GAAP financial measure “Net Debt” to include the aggregate debt obligations reflected in our consolidated balance sheet, less the hedge adjustments resulting from fair value interest rate derivatives or swaps, if any, and less the balance sheet line item Cash and cash equivalents. Our management uses Net Debt, along with other factors, to evaluate our financial condition. We believe that Net Debt is an appropriate supplemental measure of financial condition and may be useful to investors because it provides a more complete understanding of our financial condition before the impact of our decisions regarding the appropriate use of cash and liquid investments.

We have also defined the non-GAAP financial measure “Cash Generated for Net Debt Repayment, Dividends, Acquisitions/Investments, Stock Repurchases, Pension Lump Sum Settlement and Retiree Medical Curtailment, net and Pension Funding in Excess of Expense” to be the sum of the non-GAAP measure Net Debt Repayment, and the following GAAP cash flow statement and income statement line items: Cash dividends paid to shareholders, Cash paid for the purchase of business, net of cash acquired

Table of Contents

plus Investment in unconsolidated entities, Purchases of common stock, Pension lump sum settlement and retiree medical curtailment, net and Pension and other postretirement funding less (more) than expense. Our management uses Cash Generated for Net Debt Repayment, Dividends, Acquisitions/Investments, Stock Repurchases, Pension Lump Sum Settlement and Retiree Medical Curtailment, net and Pension Funding in Excess of Expense, along with other factors, to evaluate our performance. Net Debt Repayment is the difference between Net Debt at two points in time. We believe that this measure is an appropriate supplemental measure of financial performance and may be useful to investors because it provides a measure of cash generated for the benefit of shareholders.

We also use the non-GAAP financial measures “Adjusted Net Income” and “Adjusted Earnings Per Diluted Share”. Management believes these non-GAAP financial measures provide our board of directors, investors, potential investors, securities analysts and others with useful information to evaluate our performance because it excludes restructuring and other costs, net, and other specific items that management believes are not indicative of the ongoing operating results of the business. The Company and our board of directors use this information to evaluate our performance relative to other periods. We believe that the most directly comparable GAAP measures to Adjusted Net Income and Adjusted Earnings Per Diluted Share are Net income attributable to Rock-Tenn Company shareholders and Earnings per diluted share, respectively.

Reconciliations of Non-GAAP Financial Measures to the Most Directly Comparable GAAP Measures

Set forth below is a reconciliation of Net Debt to the most directly comparable GAAP measures, Current Portion of Debt and Long-Term Debt Due After One Year for various periods (in millions):

	Dec 31, 2014	Sep 30, 2014	Dec 31, 2013	Sep 30, 2013
Current Portion of Debt	\$128.2	\$132.6	\$3.2	\$2.9
Long-Term Debt Due After One Year	2,679.5	2,852.1	2,750.3	2,841.9
Total Debt	2,807.7	2,984.7	2,753.5	2,844.8
Less: Cash and Cash Equivalents	(32.8)	(32.6)	(24.6)	(36.4)
Net Debt	\$2,774.9	\$2,952.1	\$2,728.9	\$2,808.4
Net Debt Repayment - QTR	\$177.2		\$79.5	

Set forth below is a calculation of Cash Generated for Net Debt Repayment, Dividends, Acquisitions/Investments, Stock Repurchases, Pension Lump Sum Settlement and Retiree Medical Curtailment, net and Pension Funding in Excess of Expense for the three months ended December 31, 2014 and December 31, 2013 using the various non-GAAP and GAAP measures referenced above (in millions):

	Three Months Ended December 31,	
	2014	2013
Net Debt Repayment	\$177.2	\$79.5
Cash dividends paid to shareholders	26.3	25.8
Cash paid for the purchase of business, net of cash acquired plus Investment in unconsolidated entities	—	60.0
Purchases of common stock	8.7	53.0
Pension lump sum settlement and retiree medical curtailment, net	11.9	—
Pension and postretirement funding (less) more than expense	(4.6)) 35.2
Cash Generated for Net Debt Repayment, Dividends, Acquisition / Investments, Stock Repurchases, Pension Lump Sum Settlement and Retiree Medical Curtailment, net and Pension Funding in Excess of Expense	\$219.5	\$253.5

Table of Contents

Set forth below is a reconciliation of Adjusted Net Income to the most directly comparable GAAP measure, Net income attributable to Rock-Tenn Company shareholders (in millions, net of tax), for the periods indicated:

	Three Months Ended	
	December 31,	
	2014	2013
Net income attributable to Rock-Tenn Company shareholders	\$ 125.1	\$ 109.7
Pension lump sum settlement and retiree medical curtailment, net	7.9	—
Restructuring and other costs and operating losses and transition costs due to plant closures	3.9	12.2
Acquisition inventory step-up	0.7	—
Adjusted Net Income	\$ 137.6	\$ 121.9

Forward-Looking Statements

Statements in this report that do not relate strictly to historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on our current expectations, beliefs, plans or forecasts and use words such as will, estimate, anticipate, plan, may, believe, project, or expect, or refer to future time periods, and include statements made in this report regarding, among other things: our estimate for our capital expenditures in fiscal 2015, as well as amounts and timing of specific projects; our estimate of the cost and timing of compliance with the Boiler MACT rules; our belief that the Quebec cap-and-trade program may require expenditures to meet required GHG emission reduction requirements in future years; our expectation that we will continue to make contributions to our pension plans in the coming years in order to ensure that our funding levels remain adequate in light of projected liabilities and to meet the requirements of the Pension Act and other regulations; the amounts of our anticipated contributions to our qualified and supplemental defined benefit pension plans in fiscal 2015 and fiscal 2016; our expectation that we will not be required to make additional contributions into our plans as a result of the offer to settle certain of our defined benefit pension plans through lump sum payments to certain eligible former employees who are not currently receiving a monthly benefit; our expectation that buyer-specific synergies will arise after the acquisition of the Tacoma Mill (e.g., enhanced reach of the combined organization and synergies) and its assembled work force; our belief that the acquisition of the Tacoma Mill, located in Tacoma, WA, is a strategic fit as the mill has improved our ability to satisfy West Coast customers and generate operating efficiencies across our containerboard system; our expectation that buyer-specific synergies will be achieved with the acquisition of NPG and AGI In-Store (e.g., enhanced reach of the combined organization and increased vertical integration) and the assembled work force of each; our belief that NPG provides a broad range of display products and services to many of the most recognized retailers and their innovative retail solutions and large-format printing capability expands our customer base and significantly improves our ability to provide retail insights, innovation and connectivity to all of our customers; our belief that the acquisitions of AGI In-Store support our strategy to provide a more holistic portfolio of innovative in-store marketing solutions, including “store-within-a-store” displays, and will enhance cross-selling opportunities and bolster our growing retail presence; our belief that we have significant opportunity to improve our performance via capital investment in our box plant system; our expectation that we will make an election under section 338(h)(10) of the Code that will increase our tax basis in the acquired assets of AGI In-Store for an as yet to be determined amount at a cost not to exceed \$2.0 million; our expectation that the AGI In-Store and Tacoma Mill’s goodwill and intangibles will be amortizable for income tax purposes; a current annualized dividend rate of \$0.75 per share on our Common Stock; our expectation that we will increase the per share amount of the dividend(s) we distribute between the announcement date and the closing of the proposed transaction with MeadWestvaco to equalize dividend payments between the two companies; our anticipation that we will be able to fund our capital expenditures, interest payments, dividends and stock repurchases, pension payments, working capital needs, note repurchases,

restructuring activities, repayments of current portion of long-term debt and other corporate actions for the foreseeable future from cash generated from operations, borrowings under our Credit Facility and Receivables Facility, proceeds from our A/R Sales Agreement, proceeds from the issuance of debt or equity securities or other additional long-term debt financing, including new or amended facilities; our expectation to continue to operate under environmental permits and similar authorizations from various governmental authorities that regulate discharges, emissions and wastes; our expectation to utilize the remaining U.S. Federal NOLs, CBPC, Alternative Minimum Tax and other U.S. federal credits and foreign net operating losses primarily over the next two years and State net operating losses and credits over a longer period of time; our expectation of receiving increased tax benefits from a greater domestic manufacturer's deduction which has been limited in recent years by federal taxable income after the use of federal net operating losses and that we expect our cash tax payments to be materially less than our income tax expense in fiscal 2015, significantly lower in fiscal 2016 and similar in fiscal 2017; our expectation that our effective tax rate will be approximately 33% to 35% in fiscal 2015, excluding the impact of discrete items; our belief that integration activities related to the Smurfit-Stone Acquisition will continue during fiscal 2015; the Antitrust Litigation and other lawsuits and claims arising

Table of Contents

out of the conduct of our business; and our expectation that ASU 2014-12 will not have a material effect on our consolidated financial statements.

With respect to these statements, we have made assumptions regarding, among other things, economic, competitive and market conditions; volumes and price levels of purchases by customers; competitive conditions in our businesses; possible adverse actions of our customers, our competitors and suppliers; labor costs; the amount and timing of capital expenditures, including installation costs, project development and implementation costs, severance and other shutdown costs; restructuring costs; utilization of real property that is subject to the restructurings due to realizable values from the sale of such property; credit availability; volumes and price levels of purchases by customers; raw material and energy costs; competitive conditions in our businesses; whether and when the proposed transaction with MeadWestvaco will be approved; whether and when the proposed transaction MeadWestvaco will close; our anticipation of refinancing or amending our Credit Facility and Receivables Facility in connection with the proposed transaction with MeadWestvaco and that the transaction is not expected to trigger a down-grade to non-investment grade (or a related withdrawal of the investment grade rating) by both S&P and Moody's rating agencies within sixty days of the change of control or the public announcement thereof that would trigger the obligation to make a change of control offer under our Senior Notes; the results and impacts of the proposed transaction with MeadWestvaco; and possible adverse actions of our customers, competitors and suppliers.

You should not place undue reliance on any forward-looking statements as such statements involve risks, uncertainties, assumptions and other factors that could cause actual results to differ materially, including the following: the level of demand for our products; our ability to successfully identify and make performance improvements; anticipated returns on our capital investments; our ability to achieve benefits from acquisitions and the timing thereof, including synergies, performance improvements and successful implementation of capital projects; our belief that matters relating to previously identified third party PRP sites and certain formerly owned facilities of Smurfit-Stone have been or will be satisfied claims in the Smurfit-Stone bankruptcy proceedings; the level of demand for our products; our belief that we can assert claims for indemnification pursuant to existing rights we have under settlement and purchase agreements in connection with certain of our existing environmental remediation sites; our ability to successfully identify and make performance improvements; anticipated returns on our capital investments; uncertainties related to planned mill outages or production disruptions, including associated costs and the length of those outages; the possibility of unplanned mill outages; investment performance, discount rates, return on pension plan assets and expected compensation levels; market risk from changes in, including but not limited to, interest rates and commodity prices; possible increases in energy, raw materials, shipping and capital equipment costs; any reduction in the supply of raw materials; fluctuations in selling prices and volumes; intense competition; the potential loss of certain customers; the timing and impact of CBPC; the impact of operational restructuring activities, including the cost and timing of such activities, the size and cost of employment terminations, operational consolidation, capacity utilization, cost reductions and production efficiencies, estimated fair values of assets, and returns from planned asset transactions, and the impact of such factors on earnings; potential liability for outstanding guarantees and indemnities and the potential impact of such liabilities; the impact of economic conditions, including the nature of the current market environment, raw material and energy costs and market trends or factors that affect such trends, such as expected price changes, competitive pricing pressures and cost increases, as well as the impact and continuation of such factors; our results of operations, including operational inefficiencies, costs, sales growth or declines, the timing and impact of customer transitioning, the impact of announced price increases or decreases and the impact of the gain and loss of customers; pension plan contributions and expense, funding requirements and earnings; environmental law liability as well as the impact of related compliance efforts, including the cost of required improvements and the availability of certain indemnification claims; capital expenditures; the cost and other effects of complying with governmental laws and regulations and the timing of such costs; the scope, and timing and outcome of any litigation, including the Antitrust Litigation or other dispute resolutions and the impact of any such litigation or other dispute resolutions on our results of operations, financial condition or cash flows; income tax rates, future deferred tax expense and future cash tax payments; future debt repayment; our ability to fund capital expenditures,

interest payments, dividends and stock repurchases, pension payments, working capital needs, note repurchases, repayments of current portion of long term debt and other corporate actions for the foreseeable future from cash generated from operations, borrowings under our Credit Facility and Receivables Facility, proceeds from our A/R Sales Agreement, proceeds from the issuance of debt or equity securities or other additional long-term debt financing, including new or amended facilities; our estimates and assumptions regarding our contractual obligations and the impact of our contractual obligations on our liquidity and cash flow; the impact of changes in assumptions and estimates underlying accounting policies; the expected impact of implementing new accounting standards; the impact of changes in assumptions and estimates on which we based the design of our system of disclosure controls and procedures; the expected cash tax payments that may change due to changes in taxable income, tax laws or tax rates, capital expenditures or other factors; the occurrence of severe weather or a natural disaster, such as a hurricane, tropical storm, earthquake, tornado, flood, fire, or other unanticipated problems such as labor difficulties, equipment failure or unscheduled maintenance and repair, which could result in operational disruptions of varied duration; adverse changes in general market and industry conditions; and other risks, uncertainties and factors discussed in Item 1A “Risk Factors” and under the caption “Business — Forward-Looking Information” and “Risk Factors” in our Fiscal 2014 Form 10-K and by similar disclosures in any of our subsequent

Table of Contents

SEC filings. The information contained herein speaks as of the date hereof and we do not have or undertake any obligation to update such information as future events unfold.

ADDITIONAL INFORMATION AND WHERE TO FIND IT

The proposed transaction involving MeadWestvaco and RockTenn will be submitted to the respective shareholders of MeadWestvaco and RockTenn for their consideration. In connection with the proposed transaction, MeadWestvaco and RockTenn will cause the newly formed company to file with the SEC a registration statement on Form S-4 (the "Registration Statement"), which will include a prospectus with respect to the shares to be issued in the proposed transaction and a preliminary and definitive joint proxy statement for the shareholders of MeadWestvaco and RockTenn (the "Joint Proxy Statement") and each of MeadWestvaco and RockTenn will mail the Joint Proxy Statement to their respective shareholders and file other documents regarding the proposed transaction with the SEC. The definitive Registration Statement and the Joint Proxy Statement will contain important information about the proposed transaction and related matters. SECURITY HOLDERS ARE URGED AND ADVISED TO READ THE REGISTRATION STATEMENT AND THE JOINT PROXY STATEMENT CAREFULLY WHEN THEY BECOME AVAILABLE, AS WELL AS ANY OTHER RELEVANT DOCUMENTS FILED WITH THE SEC AND ANY AMENDMENTS OR SUPPLEMENTS TO THOSE DOCUMENTS, BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION. The Registration Statement, the Joint Proxy Statement and other relevant materials (when they become available) and any other documents filed or furnished by MeadWestvaco or RockTenn with the SEC may be obtained free of charge at the SEC's website at www.sec.gov. In addition, security holders will be able to obtain free copies of the Registration Statement and the Joint Proxy Statement from RockTenn by going to its investor relations page on its corporate website at <http://ir.rocktenn.com> and from MeadWestvaco on its corporate website at www.mwv.com.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of certain of the market risks to which we are exposed, see the "Quantitative and Qualitative Disclosures About Market Risk" section in our Fiscal 2014 Form 10-K. There have been no material changes in our exposure to market risk since September 30, 2014.

Item 4. CONTROLS AND PROCEDURES

Our Chief Executive Officer and our Chief Financial Officer evaluated the effectiveness of our "disclosure controls and procedures" (as defined in Rule 13a-15(e)) under the Exchange Act as of the end of the period covered by this quarterly report. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is (i) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

There has been no change in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II: OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

Litigation

In late 2010, Smurfit-Stone was one of nine U.S. and Canadian containerboard producers named as defendants in a lawsuit alleging that these producers violated the Sherman Act by conspiring to limit the supply and fix the prices of containerboard from mid-2005 through November 8, 2010. RockTenn CP, LLC, as the successor to Smurfit-Stone, is a defendant with respect to the period after Smurfit-Stone's discharge from bankruptcy in June 30, 2010 through November 8, 2010. The complaint seeks treble damages and costs, including attorney's fees. The defendants' motions to dismiss the complaint were denied by the court in April 2011. We believe the allegations are without merit and will defend this lawsuit vigorously. However, at this stage of the litigation, we are unable to predict the ultimate outcome or estimate a range of reasonably possible losses.

We are a defendant in a number of other lawsuits and claims arising out of the conduct of our business. While the ultimate results of such suits or other proceedings against us cannot be predicted with certainty, management believes the resolution of these other matters will not have a material adverse effect on our consolidated financial condition, results of operations or cash flows.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Stock Repurchase Plan

Our board of directors has approved a stock repurchase plan that allows for the repurchase of shares of Common Stock over an indefinite period of time. Our stock repurchase plan was last amended in September 2014 following the Stock Split and allows for the repurchase of a total of 16.9 million shares of Common Stock. Pursuant to our repurchase plan, in the three months ended December 31, 2014, we repurchased 156,187 shares for an aggregate cost of \$8.7 million. As of December 31, 2014, we had approximately 8.5 million shares of Common Stock available for repurchase under the plan.

The following table presents information with respect to purchases of our Common Stock that we made during the three months ended December 31, 2014:

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
October 1, 2014 through October 31, 2014	—	\$—	—	8,702,951
November 1, 2014 through November 30, 2014	29,239	55.67	29,239	8,673,712
December 1, 2014 through December 31, 2014	126,948	55.99	126,948	8,546,764
Total	156,187		156,187	

Item 6. EXHIBITS

See separate Exhibit Index attached hereto and hereby incorporated herein by reference.
