Item 2.02. Results of Operations and Financial Condition

Item 7.01. Regulation FD Disclosure

The Corning Incorporated press release dated July 26, 2005, regarding its financial results for the quarter ended June 30, 2005 and its third quarter 2005 earnings guidance, is attached hereto as Exhibit 99.

The information in this report, being furnished pursuant to Item 2.01 and 7.01 of Form 8-K, shall not be deemed to be "filed" for purposes of Section 18 of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that Section, and is not incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such filing.

Safe Harbor Statement

Statements contained in the Item 7.01 Regulation FD Disclosure and the exhibit to this report that state the company's or its management's expectations or predictions of the future are forward-looking statements intended to be covered by the safe harbor provisions of the Securities Act of 1933 and the Exchange Act. The company's actual results could differ materially from those projected in such forward-looking statements. Factors that could affect those results include those mentioned in the documents that the company has filed with the Securities and Exchange Commission.

Item 9.01. Financial Statements and Exhibits

(c) Exhibit

99 Press Release dated July 26, 2005, issued by Corning Incorporated.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Corning Reports Second-Quarter Results

10th consecutive quarterly sales increase

CORNING, N.Y. -- Corning Incorporated (NYSE: GLW) today announced second-quarter sales of \$1.141 billion, with net income of \$165 million, or \$0.11 per share. Net income includes net special charges of \$141 million, or \$0.09 per share.

Excluding these net charges, Corning's earnings per share (EPS) would have been \$0.20, exceeding the company's previously announced EPS guidance range of \$0.17 to \$0.19. This EPS is a non-GAAP financial measure. This and all non-GAAP financial measures are reconciled on the company's investor relations Web site and in attachments to this news release.

"We are pleased with our second-quarter performance and our 10th consecutive quarterly sales increase driven by the strong growth in our Display Technologies segment," Wendell P. Weeks, president and chief executive officer, said. "Our first-half results demonstrate that Corning's growth strategy is succeeding."

Second-Quarter Operating Results

Corning's second-quarter sales of \$1.141 billion increased 17 percent over last year's second-quarter sales of \$971 million, and increased 9 percent over the previous quarter's sales of \$1.05 billion. Gross margin for the second quarter improved to 42 percent versus 41 percent in the first quarter. The second-quarter gross margin exceeded the company's expectation of 40 percent and was its highest since the first quarter of 2001. The gross-margin improvement is primarily the result of stronger overall performance in the Display Technologies segment, brought on by increased demand for larger-size glass substrates and strong manufacturing performance.

Equity earnings for the second quarter were \$172 million, compared to the first quarter's equity earnings of \$166 million. Corning's equity earnings from Dow Corning Corporation were \$77 million, including an \$11 million non-recurring gain in the second quarter, versus \$68 million in the first quarter.

(more)

Corning Reports Second Quarter Results
Page Two

Corning's Display Technologies segment achieved record sales of \$415 million in the second quarter, a 30-percent increase over first-quarter sales of \$320

Edgar Filing: CORNING INC /NY - Form 8-K

million and a 50-percent sales increase over second-quarter 2004 sales of \$277 million. The sequential quarterly sales increase was the result of a 32-percent volume increase and flat overall pricing. Exchange rates in the quarter had a 3-percent negative impact on sales. Segment gross margins increased from 60 percent in the first quarter to 65 percent in the second quarter.

Samsung Corning Precision Glass Co., Ltd., a 50-percent equity venture in Korea, increased its sequential glass volume by 27 percent. Strong volume gains at Samsung Corning Precision were offset by a number of nonrecurring items and the negative impact of exchange rates in the second quarter. Equity earnings from Samsung Corning Precision were up 6 percent in the second quarter at \$85 million versus \$80 million in the first quarter.

Net income for the Display Technologies segment, which includes Corning's wholly owned business and equity earnings from Samsung Corning Precision, grew 51 percent from \$161 million in the first quarter to \$243 million in the second quarter. The increase was due to strong sales and gross margin improvement, as well as the nonrecurrence of a \$20 million after-tax foreign exchange loss incurred in the first quarter, offset by a higher tax rate and lower-than-expected earnings growth at Samsung Corning Precision.

"Market demand for flat panel desk top monitors, notebook computers and flat screen televisions continue to fuel the growth of our liquid crystal display (LCD) business," Weeks said. "In fact," he said, "our second-quarter sales of glass substrates were larger than our total Display Technologies segment sales for 2002." He added that retail pricing declines and a movement to larger sizes have resulted in greater-than-expected penetration of LCD desktop monitors in the market. Weeks said, "Our preliminary estimates indicate that LCD monitor sales reached 67 percent of total monitor sales in the second quarter, compared to 60 percent in the first quarter of this year."

Telecommunications segment sales declined 3 percent sequentially to \$415 million versus \$427 million in the first quarter of this year. The sales decline was due to lower fiber-to-the-premises (FTTP) hardware and equipment sales, which were, in turn, primarily the result of supply chain inventory declines during the second quarter. The decline in FTTP product sales was almost offset by seasonal increases in demand. Optical fiber volume and pricing were essentially flat with first-quarter results. The segment incurred a net loss of \$13 million compared to net income of \$9 million in the first quarter. The second-quarter loss includes an \$8 million charge to adjust prior years' restructuring reserves.

(more)

Corning Reports Second Quarter Results

Page Three

Weeks said, "The FTTP market continues to be a growth opportunity for us, particularly for sales of our hardware and equipment products. While we did experience a second-quarter sales decline, we believe this is the result of customer inventory reduction and not a slowdown in FTTP deployment."

Second-quarter Environmental Technologies segment sales were \$146 million compared to \$148 million in the first quarter. The Life Sciences segment had

Edgar Filing: CORNING INC /NY - Form 8-K

second-quarter sales of \$75 million, basically flat with first-quarter sales of \$74 million.

Special Items

Corning's second-quarter results included net special charges totaling \$141 million after-tax and minority interest, of which \$137 million was a pretax and after-tax charge to reflect the increase in market value of Corning common stock to be contributed to settle the asbestos litigation related to Pittsburgh Corning Corporation. In addition, the company recognized a \$12 million pretax and after-tax loss on the repurchase of debt, a \$1 million pretax gain (\$3 million after-tax and minority interest charge) to adjust restructuring reserves, and the previously discussed \$11 million nonrecurring gain at Dow Corning.

Cash Flow/Liquidity Update

Corning ended the second quarter with \$2.1 billion in cash and short-term investments, an increase of \$568 million from the previous quarter's balance of \$1.5 billion. The increase was largely the result of the receipt of \$212 million of customer deposits in the Display Technologies segment and net cash proceeds of \$323 million from the issuance of 20 million shares of common stock. These proceeds will primarily be used to fund the anticipated fourth-quarter repurchase of the company's outstanding zero-coupon convertible debentures.

James B. Flaws, vice chairman and chief financial officer, said, "We have made excellent progress in restoring Corning to sound financial health. During the quarter, we reduced our debt by an additional \$183 million, and we attained investment-grade credit ratings from two of the three rating agencies. We are carefully balancing our capital spending with our need to protect the financial health of the company."

Third-Quarter Outlook

Corning said that it expects third-quarter sales to be in the range of \$1.14 billion to \$1.19 billion and EPS in the range of \$0.20 to \$0.22 before special items. This EPS estimate is a non-GAAP financial measure and excludes any possible special items. This and all non-GAAP financial measures are reconciled on the company's investor relations Web site and in attachments to this news release. The company expects its gross margin to be between 41 percent and 42 percent, comparable to the second quarter. Corning expects that the third-quarter tax rate will be in the 20 percent to 25 percent range.

(more)

Corning Reports Second Quarter Results

Page Four

In the Display Technologies segment, the company is anticipating that third-quarter sequential volume growth for its wholly owned business and Samsung Corning Precision will be in the range of 10 percent to 20 percent both individually and in the aggregate. Pricing in the third quarter is expected to be flat to down slightly.

"Corning's third-quarter volume growth will be largely dependent upon our ability to continue to bring on additional large generation LCD glass melting and finishing capacity, and our customers' ability to ramp up their new large-size generation fabs to meet the increasing industry demand," Weeks said.

Edgar Filing: CORNING INC /NY - Form 8-K

He added that Samsung Corning Precision has been shipping Gen 7 glass to the Samsung Electronics and Sony equity venture and has begun manufacturing Gen 7.5 glass substrates for LG. Philips. "And our construction of Gen 8 size glass capacity in Japan is underway," he added. Corning noted that it continues to believe that the global LCD glass market volume remains on track to grow in excess of 50 percent this year.

Weeks said that the growth of LCD televisions continues to meet the expectations of the industry and the company continues to expect overall LCD television penetration will reach 10 percent of the TV market this year. "We have seen a 40-percent decline in the retail price of an LCD television year-over-year, and this has helped fuel demand," he said.

Corning's Telecommunications segment third-quarter sales are expected to be in the range of flat to down 5 percent from second-quarter sales. The company's third-quarter fiber volume is expected to be flat to down 5 percent, with fiber pricing down less than 5 percent. Corning believes that its FTTP sales will be consistent with the second quarter.

The company expects equity earnings from Dow Corning to be \$50 million to \$60 million in the third quarter, consistent with prior guidance, Flaws said. "Dow Corning had a very strong first half of the year, and it typically experiences slightly weaker performance in the second half due to seasonality. Also, Dow Corning will be doing a maintenance shutdown at one of its major facilities in the fall."

Weeks said, "Corning had an excellent first half of the year. We believe that we are well positioned for success through the remainder of the year." During the company's investor conference call on Wednesday morning, Flaws will remind investors about the company's plan, which was discussed at its annual investor meeting in February, to contribute up to 10 million shares of common stock during the second half of the year to fund Corning's U.S. pension plan. He also will provide further detail on the company's plan to adopt the new accounting rules for stock-based compensation, which will result in additional expense of up to \$90 million in 2006. This amount is higher than the original estimate of \$60 million the company provided earlier.

The company also announced that it will be meeting with Boston area investors on August 1 and will host a luncheon at 12:30 p.m. EDT at the Boston Harbor Hotel. Investors interested in attending should contact Corning's investor relations department at (607) 974-8764.

Second-Quarter Conference Call Information

The company will host a second-quarter conference call at 8:30 a.m. EDT on Wednesday, July 27. To access the call, dial (773) 681-5826. The password is RESULTS. A replay of the call will begin at approximately 10:30 a.m. EDT, and will run through 5:00 p.m. EDT, Wednesday, August 10. To listen, dial (203) 369-1382, no pass code is required. To listen to a live audio webcast of the call, please go to Corning's Web site and follow the instructions:

Edgar Filing: CORNING INC /NY - Form 8-K

http://www.corning.com/investor_relations. The audio webcast will be archived for one year following the call.

Presentation of Information in this News Release

Non-GAAP financial measures are not in accordance with, or an alternative to, GAAP. Corning's non-GAAP net income and EPS measures exclude restructuring, impairment and other charges and adjustments to prior estimates for such charges. Additionally, the company's non-GAAP measures exclude adjustments to asbestos settlement reserves required by movements in Corning's common stock price, gains and losses arising from debt retirements, charges resulting from the impairment of equity or cost method investments and gains or losses recognized in equity earnings from restructuring, impairment or other charges or credits taken by equity method companies. The company believes presenting non-GAAP net income and EPS measures is helpful to analyze financial performance without the impact of unusual items that may obscure trends in the company's underlying performance. These non-GAAP measures are reconciled on the company's Web site at www.corning.com/investor_relations and accompany this news release.

About Corning Incorporated

Corning Incorporated (www.corning.com) is a diversified technology company that concentrates its efforts on high-impact growth opportunities. Corning combines its expertise in specialty glass, ceramic materials, polymers and the manipulation of the properties of light, with strong process and manufacturing capabilities to develop, engineer and commercialize significant innovative products for the telecommunications, flat panel display, environmental, semiconductor, and life sciences industries.

- (1) Non-direct research, development and engineering expenses are allocated based upon direct project spending for each segment.
- (2) Interest expense is allocated to segments based on a percentage of segment net operating assets. Consolidated subsidiaries with independent capital structures do not receive additional allocations of interest expense.
- (3) Many of Corning's administrative and staff functions are performed on a centralized basis. Where practicable, Corning charges these expenses to segments based upon the extent to which each business uses a centralized function. Other staff functions, such as corporate finance, human resources and legal, are allocated to segments, primarily as a percentage of sales.
- (4) For the three and six months ended June 30, 2005, minority interests include gains of \$4 million for adjustments to prior years' restructuring and impairment reserves associated with Corning Asahi Video Products (CAV). For the three and six months ended June 30, 2004, minority interests include gains of \$13 and \$14, respectively, from the sale of CAV assets in excess of assumed salvage value.

- (3) For the three and six months ended June 30, 2005, non-segment restructuring, impairment and other (charges) and credits includes impairment charges for the other than temporary decline in the market value of Avanex shares. Refer to Note 1 (Restructuring, Impairment and Other Charges and (Credits)).
- (4) Benefit for income taxes includes taxes associated with non-segment restructuring, impairment and other (charges) and credits.
- (5) Equity in earnings of associated companies includes amounts derived from Dow Corning.

CORNING INCORPORATED AND SUBSIDIARY COMPANIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Restructuring, Impairment and Other Charges and (Credits)

In the second quarter of 2005, we recorded net credits of \$1 million (net charge of \$3 million after-tax and minority interest) included in restructuring, impairment and other charges and (credits). A summary of these credits and charges follows:

- . We recorded net credits of \$7 million (\$3 million after-tax and minority interest), primarily for adjustments to prior years' restructuring and impairment reserves.
- . We recorded an additional impairment charge of \$6 million for an other than temporary decline in the fair value of our investment in Avanex Corporation (Avanex) below its adjusted cost basis. Our investment in Avanex is accounted for as an available-for-sale security under Financial Accounting Standards Board Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities." At June 30, 2005, shares of Avanex stock were trading at \$0.90 per share compared to our adjusted cost basis of \$1.30 per share (after adjusting for the first quarter 2005 impairment charge). We intend to sell our shares of Avanex and, subject to restrictions and the trading volume in Avanex stock, we expect to complete this activity in early 2006. As we do not expect the market value of the Avanex shares to recover in this timeframe, the additional impairment in the second quarter was required.

2. Asbestos Settlement

On March 28, 2003, we announced that we had reached agreement with the representatives of asbestos claimants for the settlement of all current and future asbestos claims against us and Pittsburgh Corning Corporation (PCC), which might arise from PCC products or operations. Accordingly, we recorded a charge of \$298 million in the first quarter of 2003. The charge included the value of 25 million shares of Corning common stock that we will contribute as part of the settlement if the PCC plan of reorganization is approved and becomes effective. Also at that time, we indicated that any changes in the value of our common stock contribution would be recognized in our quarterly results through

Edgar Filing: CORNING INC /NY - Form 8-K

the date of contribution to the settlement trust. As required, we recorded a mark-to-market charge of \$137 million in the second quarter of 2005 reflecting the increase in Corning's common stock from March 31 to June 30, 2005. Beginning with the first quarter of 2003, we have recorded total net charges of \$567 million to reflect the initial settlement and to mark-to-market the value of our common stock.

3. Loss on Repurchases and Retirement of Debt, net

In the second quarter of 2005, we redeemed for cash the \$100 million principal amount of our 7% debentures due March 15, 2007. We recognized a \$12 million loss upon the early redemption of these debentures.

4. Provision for Income Taxes

For the three months ended June 30, 2005, the tax provision reflected the impact of maintaining a valuation allowance on the majority of our net deferred tax assets. As a result, U.S. (federal, state and local) and certain foreign income taxes attributable to pretax income or losses were not provided. The most significant item for which a U.S. tax benefit was not provided was the asbestos settlement charge. Such items increased our effective tax rate from 23% to 105%.

5. Equity in Earnings of Associated Companies

In the second quarter of 2005, Dow Corning Corporation recorded a gain on the issuance of subsidiary stock. Our equity earnings included \$11 million related to this gain.

CORNING INCORPORATED AND SUBSIDIARY COMPANIES
RECONCILIATION OF NON-GAAP FINANCIAL MEASURE TO GAAP FINANCIAL MEASURE
Three Months Ended June 30, 2005
(Unaudited; amounts in millions, except per share amounts)

Corning's net income and earnings per share (EPS) excluding special items for the second quarter of 2005 are non-GAAP financial measures within the meaning of Regulation G of the Securities and Exchange Commission. Non-GAAP financial measures are not in accordance with, or an alternative to, generally accepted accounting principles (GAAP). The company believes presenting non-GAAP net income and EPS is helpful to analyze financial performance without the impact of unusual items that may obscure trends in the company's underlying performance. A detailed reconciliation is provided below outlining the differences between these non-GAAP measures and the directly related GAAP measure.

	=====	=====

(a) In the second quarter of 2005, Corning recorded net credits of \$1 million (net charge of \$3 million after-tax and minority interest) included in restructuring, impairment and other charges and (credits). A summary of these credits and charges follows:

- . We recorded net credits of \$7 million (\$3 million after-tax and minority interest), primarily for adjustments to prior years' restructuring and impairment reserves.
- . We recorded an additional impairment charge of \$6 million (pretax and after-tax) for an other than temporary decline in the fair value of our investment in Avanex Corporation (Avanex) below its adjusted cost basis. Our investment in Avanex is accounted for as an available-for-sale security under SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities." At June 30, 2005, shares of Avanex stock were trading at \$0.90 per share compared to our adjusted cost basis of \$1.30 per share (after adjusting for the first quarter of 2005 impairment charge). We intend to sell our shares of Avanex and, subject to restrictions and the trading volume in Avanex stock, we expect to complete this activity in early 2006. As we do not expect the market value of the Avanex shares to recover in this timeframe, the additional impairment in the second quarter was required.

(b) As part of Corning's asbestos settlement arrangement to be incorporated into the Pittsburgh Corning Corporation plan of reorganization, Corning will contribute, if the reorganization plan becomes effective, 25 million shares of Corning common stock to a trust. This portion of the asbestos liability requires quarterly adjustment based upon movements in Corning's common stock price prior to contribution of the shares to the trust. In the second quarter of 2005, Corning recorded a charge of \$137 million for the change in its common stock price of \$16.62 at June 30, 2005 compared to \$11.13, the common stock price at March 31, 2005.

(c) In the second quarter of 2005, we redeemed for cash the \$100 million principal amount of our 7% debentures due March 15, 2007. We recognized a \$12 million loss upon the early redemption of these debentures.

(d) In the second quarter of 2005, Dow Corning Corporation recorded a gain on

Edgar Filing: CORNING INC /NY - Form 8-K

the issuance of subsidiary stock. Our equity earnings included \$11 million related to this gain.

 This schedule will be updated as additional announcements occur.

- (a) From time to time, Corning may need to make adjustments to estimates used in the determination of prior years' restructuring and impairment charges, which could result in a gain or loss during the quarter.
- (b) As part of Corning's asbestos settlement arrangement to be incorporated into the Pittsburgh Corning Corporation plan of reorganization, Corning will contribute, if the reorganization plan becomes effective, 25 million shares of Corning common stock to a trust. This portion of the asbestos liability requires adjustment based upon movements in Corning's common stock price prior to contribution of the shares to the trust. In the third quarter of 2005, Corning will record a charge or credit for the change in its common stock price as of September 30, 2005 compared to \$16.62, the common stock price at June 30, 2005.
- (c) From time to time, Corning may repurchase or retire debt, which could result in a gain or loss during the quarter.

Please note that the company may pursue other financing, restructuring and divestiture activities at any time in the future, and that the potential impact of these events is not included within Corning's third quarter 2005 guidance.

This schedule contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward looking statements are based on current expectations and involve certain risks and uncertainties. Actual results may differ from those projected in the forward looking statements. Additional information concerning factors that could cause actual results to materially differ from those in the forward looking statements is contained in the Securities and Exchange Commission filings of this company.
