ExxonMobil Fuels Marketing Savings Plan

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF THE PLAN

General

The following description provides general information for the ExxonMobil Fuels Marketing Savings Plan (the Plan). Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is a defined contribution plan established to provide retirement benefits for certain qualified employees of ExxonMobil Fuels Marketing Company, a division of Exxon Mobil Corporation (the Company), employed in its company-operated retail store operations and for certain qualified employees at the Olathe, Kansas grease plant.

Contributions

Contributions to the Plan are made by both the participant and the Company. Participants may contribute any whole percentage, up to 20% of their eligible pay. Participants may also make a rollover contribution from other qualified plans or rollover IRA. Generally, for eligible participants not covered by a collective bargaining agreement, the Company provides a 100% match for each pretax dollar contributed up to the first 4.5% of eligible pay. For eligible participants covered by a collective bargaining agreement, the Company provided a 100% match for each pretax dollar contributed up to 4% of eligible pay through March 31, 2006. Effective April 1, 2006, the match for these employees increased to 6% of eligible pay. Employees who are at least age 50 at the end of the Plan year may elect to make additional pretax contributions up to limits defined in the Plan.

Vesting

Participants are immediately vested in their contributions and earnings. Company contributions and earnings vest at 100% upon the earliest of completion of 3 years of vesting service, reaching age 65 while employed, or upon death while an employee.

Plan transfer

During 2006, certain employees became eligible to enroll in the ExxonMobil Savings Plan. Some of these employees transferred their accounts from the ExxonMobil Fuels Marketing Savings Plan. The aggregate amount transferred totaled \$262,178.

Forfeitures

During 2006, \$17,272 were forfeited by terminating employees and used to offset employer contributions.

Plan Termination

The Company may terminate or amend the Plan at any time. In the event of termination, the net assets of the Plan will be distributed in accordance with the Employee Retirement Income Security Act of 1974.

Other Plan Provisions

Other Plan provisions including eligibility, enrollment, participation, forfeiture, loans, benefit payments (including withdrawals and distributions), and investment options are described in the Plan document.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are presented on the accrual basis. Benefit payments are reported when paid.

Investment Valuation and Income Recognition

Investment income is recorded when earned. Investments are stated at fair value based upon market quotations.

Interest earned on money market deposits and the change in the value of the investments are allocated daily to the individual employee accounts on the basis of the participant's account balance. Investments are subject to normal risks associated with international and domestic debt and equity markets.

Net appreciation and net depreciation in the current value of investments includes realized gains and losses on investments sold or disposed of during the year and unrealized gains and losses on investments held at year end.

Purchases and sales of securities are recorded on the trade date.

Participant loans represent the outstanding principal balances of the loans and are valued at cost, which approximates current value.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Expenses

Administrative expenses incurred in the administration of the Plan, to the extent not paid by the Company, are charged to and paid from the Plan's assets. Administrative expenses are recorded when incurred. Investment management fees are netted against investment income.

NOTE 3 - INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits.

NOTE 5 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan administrators by letter dated October 17, 2002 that the Plan is qualified and the trust is exempt under the appropriate sections of the Internal Revenue Code (IRC).

The Plan has been amended since receiving the determination letter. However, counsel for the Company believes that these amendments have not adversely affected the Plan's qualified status and the related trust's tax-exempt status as of the financial statement date.

Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the ExxonMobil Fuels Marketing Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the ExxonMobil Fuels Marketing Savings Plan (the "Plan") at December 31, 2006 and 2005, and the changes in net assets available for benefits for the year ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
