CARVER BANCORP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Unaudited)
NOTE 1. ORGANIZATION

Nature of operations

Carver Bancorp, Inc. (on a stand-alone basis, the “Company” or “Registrant”), was incorporated in May 1996 and its principal wholly owned subsidiary is Carver Federal Savings Bank (the “Bank” or “Carver Federal”). Carver Federal's wholly owned subsidiaries are CFSB Realty Corp., Carver Community Development Corporation (“CCDC”) and CFSB Credit Corp., which is currently inactive. The Bank has a majority-owned interest in Carver Asset Corporation, a real estate investment trust formed in February 2004.

“Carver,” the “Company,” “we,” “us” or “our” refers to the Company along with its consolidated subsidiaries. The Bank was chartered in 1948 and began operations in 1949 as Carver Federal Savings and Loan Association, a federally-chartered mutual savings and loan association. The Bank converted to a federal savings bank in 1986. On October 24, 1994, the Bank converted from a mutual holding company structure to stock form and issued 2,314,375 shares of its common stock, par value 0.01 per share. On October 17, 1996, the Bank completed its reorganization into a holding company structure (the “Reorganization”) and became a wholly owned subsidiary of the Company.

Carver Federal’s principal business consists of attracting deposit accounts through its branches and investing those funds in mortgage loans and other investments permitted by federal savings banks. The Bank has nine branches located throughout the City of New York that primarily serve the communities in which they operate.

In September 2003, the Company formed Carver Statutory Trust I (the “Trust”) for the sole purpose of issuing trust preferred securities and investing the proceeds in an equivalent amount of floating rate junior subordinated debentures of the Company. In accordance with Accounting Standards Codification (“ASC”) 810, “Consolidations,” Carver Statutory Trust I is unconsolidated for financial reporting purposes. On September 17, 2003, Carver Statutory Trust I issued 13,000 shares, liquidation amount $1,000 per share, of floating rate capital securities. Gross proceeds from the sale of these trust preferred debt securities of $13 million, and proceeds from the sale of the trust's common securities of $0.4 million, were used to purchase approximately $13.4 million aggregate principal amount of the Company's floating rate junior subordinated debt securities due 2033. The trust preferred debt securities are redeemable at par quarterly at the option of the Company beginning on or after September 17, 2008, and have a mandatory redemption date of September 17, 2033. Cash distributions on the trust preferred debt securities are cumulative and payable at a floating rate per annum resetting quarterly with a margin of 3.05% over the three-month LIBOR.

Carver relies primarily on dividends from Carver Federal to pay cash dividends to its stockholders, to engage in share repurchase programs and to pay principal and interest on its trust preferred debt obligation. The OCC regulates all capital distributions, including dividend payments, by Carver Federal to Carver, and the FRB regulates dividends paid by Carver. As the subsidiary of a savings and loan association holding company, Carver Federal must file a notice or an application (depending on the proposed dividend amount) with the OCC (and a notice with the FRB) prior to the declaration of each capital distribution. The OCC will disallow any proposed dividend, for among other reasons, that would result in Carver Federal’s failure to meet the OCC minimum capital requirements. In accordance with the Agreement, Carver Federal is currently prohibited from paying any dividends without prior OCC approval, and, as such, has suspended Carver’s regular quarterly cash dividend on its common stock. There are no assurances that dividend payments to Carver will resume.

Regulation

On October 23, 2015, the Board of Directors of the Company adopted resolutions requiring, among other things, written approval from the Federal Reserve Bank of Philadelphia prior to the declaration or payment of dividends, any increase in debt by the Company, or the redemption of Company common stock.

On May 24, 2016, the Bank entered into a Formal Agreement with the OCC to undertake certain compliance-related and other actions as further described in the Company's Current Report on Form 8-K as filed with the Securities and Exchange Commission ("SEC") on May 27, 2016. As a result of the Formal Agreement ("the Agreement"), the Bank must obtain the approval of the OCC prior to effecting any change in its directors or senior executive officers. The Bank may not declare or pay dividends or make any other capital distributions, including to the Company, without first filing an application with the OCC and receiving the prior approval of the OCC. Furthermore, the Bank must seek the OCC's written approval and the FDIC's written concurrence before entering into any "golden parachute payments" as that term is defined under 12 U.S.C. § 1828(k) and 12 C.F.R. Part 359.

On June 29, 2011, the Company raised $55 million of capital by issuing 55,000 shares of mandatorily convertible non-voting participating preferred stock, Series C (the “Series C preferred stock”). The issuance resulted in a $51.4 million increase in equity after considering the effect of various expenses associated with the capital raise. The capital raise enabled the Company to make a capital injection of $37 million in the Bank on June 30, 2011. In December 2011, another $7 million capital injection was made in the Bank. The remainder of the net capital raised is retained by the Company for future strategic purposes or to downstream into the Bank, if necessary. No assurances can be given that the amount of capital raised is sufficient to absorb the expected losses in the Bank's loan portfolio. Should the losses be greater than expected, additional capital may be necessary in the future.

On October 25, 2011, Carver's stockholders voted to approve a 1-for-15 reverse stock split. A separate vote of approval was given to convert the Series C preferred stock to non-cumulative non-voting participating preferred stock, Series D (“the Series D preferred stock”) and to common stock and to exchange the U.S. Treasury's (“Treasury”) Community Development Capital Initiative (“CDCI”) Series B preferred stock for common stock.

On October 27, 2011, the 1-for-15 reverse stock split was effected, which reduced the number of outstanding shares of common stock from 2,492,415 to 166,161.

On October 28, 2011, the Treasury exchanged the CDCI Series B preferred stock for 2,321,286 shares of Carver common stock and the Series C preferred stock converted into 1,208,039 shares of Carver common stock and 45,118 shares of Series D preferred stock.

Restatement

On July 12, 2016, the Finance and Audit Committee of the Board of Directors of Carver Bancorp, Inc., after consultation with KPMG LLP, our independent registered public accounting firm at the time, determined that our consolidated financial statements for the fiscal year ended March 31, 2015, and each of the quarters of 2015 and 2016 should no longer be relied upon.

The Company's audited results as of and for the year ended March 31, 2015, as well as the unaudited condensed consolidated financial information for the quarterly periods in 2016 and 2015 were restated in the Annual Report on Form 10-K for the year ended March 31, 2016 (the "Restatement"). The Restatement corrected a material error related to the accrual of data processing and other expenses related to invoices paid to the Bank's core system service provider. In fiscal 2016, Carver Bancorp recognized expenses on invoices paid to its core system provider, and during the course of preparation of the fiscal 2016 consolidated financial statements and audit, management determined that $613 thousand of expenses should have been recognized in fiscal 2015. The impact of the restatement for the three months ended September 30, 2015 was a decrease in data processing expense of $9 thousand. For the six months ended September 30, 2015, the impact of the restatement was decreases in the provision for loan losses of $83 thousand, data processing expense of $134 thousand, consulting fees of $23 thousand and other non-interest expense of $36 thousand. Management also identified an accounting error related to the reporting of earnings per share (EPS). Under the two class method of computing EPS, the Company has two classes of stock to which undistributed earnings are allocated. Previously, the impact of the undistributed earnings allocated to the shares of the Company’s Series D convertible preferred stock had not been considered in this computation. Basic and Diluted EPS amounts were updated for all periods in a net income position to include 45,118 shares of Series D Preferred Stock which, under certain circumstances, could convert to 5,518,006 shares of common stock. In addition to these errors, adjustments were made related to other individually immaterial errors including certain corrections that had been previously identified but not recorded because they were not material to our consolidated financial statements. These corrections included adjustments to accrued liabilities, provision for loan losses and certain reclassification entries. All applicable amounts relating to this Restatement have been reflected in the consolidated financial statements and disclosed in the notes to the consolidated financial statements in this Form 10-Q.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidated financial statement presentation

The consolidated financial statements include the accounts of the Company, the Bank and the Bank’s wholly owned or majority-owned subsidiaries, Carver Asset Corporation, CFSB Realty Corp., Carver Community Development Corporation ("CCDC"), and CFSB Credit Corp. All significant intercompany accounts and transactions have been eliminated in consolidation.

The consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six month period ended September 30, 2016 are not necessarily indicative of the results that may be expected for the year ended March 31, 2017. The consolidated balance sheet at September 30, 2016 has been derived from the unaudited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements. In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated statement of financial condition and revenues and expenses for the period then ended. These unaudited consolidated financial statements should be read in conjunction with the Annual Report on Form 10-K for the year ended March 31, 2016. Amounts subject to significant estimates and assumptions are items such as the allowance for loan losses, valuation of real estate owned, realization of deferred tax assets, and the fair value of financial instruments. While management uses available information to recognize losses on loans, future additions to the allowance for loan losses or future writedowns of real estate owned may be necessary based on changes in economic conditions in the areas where Carver Federal has extended mortgages and other credit instruments. Actual results could differ significantly from those assumptions. Current market conditions increase the risk and complexity of the judgments in these estimates.

Certain comparative amounts for the prior period have been reclassified to conform to current period presentations. Such reclassifications had no effect on net income or shareholders' equity.

In addition, the OCC, Carver Federal's regulator, as an integral part of its examination process, periodically reviews Carver Federal's allowance for loan losses and, if applicable, real estate owned valuations. The OCC may require Carver Federal to recognize additions to the allowance for loan losses or additional writedowns of real estate owned based on their judgments about information available to them at the time of their examination.

NOTE 4. COMMON STOCK DIVIDENDS

On October 28, 2011, the Treasury exchanged the CDCI Series B preferred stock for 2,321,286 shares of Carver common stock and the Series C preferred stock converted into 1,208,039 shares of Carver common stock and 45,118 shares of Series D preferred stock. Series C stock was previously reported as mezzanine equity, and upon conversion to common and Series D preferred stock is now reported as equity attributable to Carver Bancorp, Inc. The holders of the Series D Preferred Stock are entitled to receive dividends, on an as-converted basis, simultaneously to the payment of any dividends on the common stock.

On October 23, 2015, the Board of Directors of the Company adopted resolutions requiring, among other things, written approval from the Federal Reserve Bank of Philadelphia prior to the declaration or payment of dividends, any increase in debt by the Company, or the redemption of Company common stock.

On May 24, 2016, the Bank entered into a Formal Agreement with the OCC to undertake certain compliance-related and other actions as further described in the Company's Current Report on Form 8-K as filed with the Securities and Exchange Commission ("SEC") on May 27, 2016. As a result of the Formal Agreement, the Bank may not declare or pay dividends or make any other capital distributions, including to the Company, without first filing an application with the OCC and receiving the prior approval of the OCC.

NOTE 5. OTHER COMPREHENSIVE INCOME (LOSS)

The following tables set forth changes in each component of accumulated other comprehensive income (loss), net of tax for the three and six months ended September 30, 2016 and 2015:

NOTE 6. INVESTMENT SECURITIES

The Bank utilizes mortgage-backed and other investment securities in its asset/liability management strategy. In making investment decisions, the Bank considers, among other things, its yield and interest rate objectives, its interest rate and credit risk position, and its liquidity and cash flow.

Generally, the investment policy of the Bank is to invest funds among categories of investments and maturities based upon the Bank's asset/liability management policies, investment quality, loan and deposit volume and collateral requirements, liquidity needs and performance objectives. ASC Subtopic 320-10-25 requires that securities be classified into three categories: trading, held-to-maturity, and available-for-sale. At September 30, 2016, $53.8 million, or 78.8%, of the Bank's total securities were classified as available-for-sale, and the remaining $14.5 million, or 21.2%, were classified as held-to-maturity. The Bank had no securities classified as trading at September 30, 2016 and March 31, 2016.

The following table sets forth the amortized cost and estimated fair value of securities available-for-sale and held-to-maturity at September 30, 2016:

[1] CRA fund comprised of over 95% agency securities.

A total of 12 securities had an unrealized loss at September 30, 2016 compared to 13 at March 31, 2016. There was one mortgage-backed security and one investment in a CRA fund that had an unrealized loss position for more than 12 months at September 30, 2016. Given the high credit quality of the securities which are backed by the U.S. government's guarantees, the risk of credit loss is minimal. Management believes that these unrealized losses are a direct result of the current rate environment and has the ability and intent to hold the securities until maturity or the valuation recovers.

The amount of an other-than-temporary impairment when there are credit and non-credit losses on a debt security which management does not intend to sell, and for which it is more likely than not that the Company will not be required to sell the security prior to the recovery of the non-credit impairment, the portion of the total impairment that is attributable to the credit loss would be recognized in earnings. The remaining difference between the debt security's amortized cost basis and its fair value would be included in other comprehensive income (loss). At September 30, 2016, the Bank does not have any securities that are classified as having other-than-temporary impairment in its investment portfolio.

The following is a summary of the carrying value (amortized cost) and fair value of securities at September 30, 2016, by remaining period to contractual maturity (ignoring earlier call dates, if any). Actual maturities may differ from contractual maturities because certain security issuers have the right to call or prepay their obligations. The table below does not consider the effects of possible prepayments or unscheduled repayments.

NOTE 7. LOANS RECEIVABLE AND ALLOWANCE FOR LOAN AND LEASE LOSSES

The loans receivable portfolio is segmented into one-to-four family, multifamily, commercial real estate, construction, business (including Small Business Administration loans), and consumer loans.

The allowance for loan and lease losses ("ALLL") reflects management's judgment in the evaluation of probable loan losses inherent in the portfolio at the balance sheet date. Management uses a disciplined process and methodology to calculate the ALLL each quarter. To determine the total ALLL, management estimates the reserves needed for each segment of the loan portfolio, including loans analyzed individually and loans analyzed on a pooled basis.

From time to time, events or economic factors may affect the loan portfolio, causing management to provide additional amounts or release balances from the ALLL. The ALLL is sensitive to risk ratings assigned to individually evaluated loans and economic assumptions and delinquency trends. Individual loan risk ratings are evaluated based on the specific facts related to that loan. Additions to the ALLL are made by charges to the provision for loan losses. Credit exposures deemed to be uncollectible are charged against the ALLL, while recoveries of previously charged off amounts are credited to the ALLL.

The following is a summary of loans receivable, gross of allowance for loan losses, and net of loans held-for-sale at September 30, 2016 and March 31, 2016:
