GMAC SECOND QUARTER 2003 EARNINGS SUMMARY

General Motors Acceptance Corporation (GMAC) recorded its highest quarterly  
earnings ever in the second quarter of 2003, in large part due to record results  
at the Mortgage Group. Consolidated net income of \$834 million was up \$403  
million from the \$431 million earned in the same quarter of 2002.

For the quarter, net income from financing operations totaled \$396 million, up  
\$49 million from the \$347 million earned in the prior year. The increase  
reflects lower credit loss provisions, which more than offset the unfavorable  
impact of lower net interest margins and continued weakness in lease termination  
values.

GMAC Insurance Holdings, Inc. generated net income of \$23 million in the second  
quarter of 2003, down \$3 million from the same period in 2002. While  
underwriting income increased, earnings were adversely affected by a write-down  
of certain investment security issues that have not sufficiently recovered in  
value during the recent strengthening in equity markets.

GMAC Mortgage Group, Inc. achieved another record quarter with earnings of \$415  
million, reflecting exceptionally strong origination volume in the residential  
sector and continued strong results at the commercial mortgage operations.  
Earnings were up \$357 million compared to the second quarter last year, when  
results were negatively impacted by considerably higher write-downs of mortgage  
servicing rights.
