Item 7.01 Regulation FD Disclosure

Edward Gilligan, Vice Chairman of American Express Company (the “Company”), provided the following information earlier today at the Morgan Stanley Financials Conference in New York:

For the U.S. Cardmember Loan portfolio:

- Net write-off rate* in May 2012: 2.2%
- 30 days past due rate in May 2012: 1.2%

* Net write-off rate based on principal only (i.e. excluding interest and/or fees).

Mr. Gilligan also said that both the Company’s worldwide billings growth on an F/X adjusted basis** and the U.S. billings growth for the quarter to date through May 31, 2012 was 9 – 10%. He noted that the billings growth is slower than the first quarter of 2012, which had the leap year benefit of an extra day. He also noted that the billings growth was impacted by difficult year-over-year comparisons and that billings growth in EMEA was approximately 5% for the quarter to date through May 31, 2012 on an F/X adjusted basis.** He further noted that the strengthening of the US dollar will impact the reported growth rate for the Company’s worldwide billed business and the reported growth rate will be weaker than the F/X adjusted growth rate for the quarter.

An audio replay of Mr. Gilligan’s complete remarks will be available later today through the American Express Investor Relations website at <http://ir.americanexpress.com>.

** F/X adjusted information assumes a constant exchange rate between the periods being compared for purposes of currency translation into U.S. dollars (i.e., assumes the foreign exchange rates used to determine results for April and May 2012 apply to the period(s) against which such results are being compared). The Company believes the presentation of information on an F/X adjusted basis is helpful to investors by making it easier to compare the Company's performance in one period to that of another period without the variability caused by fluctuations in currency exchange rates.
