Item 12. Results of Operations and Financial Conditions.

This information is being furnished pursuant to Item 12(a) of Form 8-K

The attached release indicates that the company expects second quarter earnings per share to be in the range of \$0.30 to \$0.35 per share, excluding special charges, and the company expects full year earnings per share to be in the range of \$0.80 to \$1.00, excluding special charges. The company also indicated its intent to record special charges of \$15 to \$20 million principally for consolidation, restructuring and other actions. The majority of these charges are expected in the second quarter with the remainder throughout the second half of 2003. The company is in the process of finalizing the amount of the second quarter charges. If, for example, \$8 million of special charges are recorded in the second quarter and an additional \$7 million of special charges are recorded in the second half of 2003, then second quarter earnings per share, including special charges, would be in the range of \$0.10 to \$0.15, and full year earnings per share, including special charges, would be in the range of \$0.40 to \$0.60.

The company believes that the disclosure of the expected second quarter and full year earnings per share excluding special charges is useful to investors in order to provide a comparison to the average published analysts' estimates for those periods, which estimates do not include special charges.
