### PART I

#### Item 1. Business

Reference is hereby made to pages 1, 2, 23 and 24 of The Monarch Cement Company's 2003 annual report to stockholders (filed herewith as Exhibit 13) for a description of the Company's business, including information regarding lines of business. Such information is hereby incorporated herein by reference. In addition, we submit the following information:

The Company did not introduce any new products nor begin to do business in a new industry segment during 2003.

The Company owns and operates quarries located near its Humboldt, Kansas plant. Such quarries contain all essential raw materials presently used by the Company. The Company's total reserves, including these quarries and other property located near the plant, are estimated to be sufficient to maintain operations at the Humboldt plant's present capacity for more than 50 years.

The Company's products are marketed under registered trademarks using the name "MONARCH". The Company's operations are not materially dependent on any trademarks, franchises, patents or on any licenses relating to the use thereof.

Portland cement is the basic material used in the production of ready-mixed concrete that is used in highway, bridge and building construction. These construction activities are seasonal in nature. During winter months when the ground is frozen, groundwork preparation cannot be completed. Cold temperatures affect concrete set-time, strength and durability, limiting its use in winter months. Dry ground conditions are also required for construction activities to proceed. During the summer, winds and warmer temperatures tend to dry the ground quicker creating fewer delays in construction projects.

Variations in weather conditions from year-to-year significantly affect the demand for our products during any particular quarter; however, our Company's highest revenue and earnings historically occur in its second and third fiscal quarters, April through September.

It is necessary for the Company to invest a significant portion of its working capital in inventories. At December 31, 2003 the Company had inventories as follows:

Cement . . . . .	\$ 2,553,258
Work in process. . . . .	919,646
Fuel, gypsum and other materials . . . . .	5,582,318
Operating and maintenance supplies . . . . .	7,063,030
Total. . . . .	\$16,118,252

The Company is heavily dependent upon the construction industry and is directly affected by the level of activity in that industry. However, no

## Edgar Filing: MONARCH CEMENT CO - Form 10-K

customer accounted for 10% or more of the Company's consolidated net revenue during 2003, 2002 or 2001.

Backlog of customers' orders is not a material factor in the Company's business.

The Company has no contracts that are subject to renegotiation of profits or termination thereof at the election of the government.

The manufacture and sale of cement and ready-mixed concrete are extremely competitive enterprises. A number of producers, including several nationwide manufacturers, compete for business with the Company in its market area. The Company is not a significant factor in the nationwide portland cement or ready-mixed concrete business but does constitute a significant market factor for cement in its market area. Cement generally is produced to meet standard specifications and there is little differentiation between the products sold by the Company and its competitors. Accordingly, competition exists primarily in the areas of price and customer service.

The Company did not spend a material amount in the last three fiscal years on Company sponsored research and development. However, the Company is a member of the Portland Cement Association which conducts research for the cement industry.

The Company has, during the past several years, made substantial capital expenditures for pollution control equipment. The Company also incurs normal operating and maintenance expenditures in connection with its pollution control equipment.

At December 31, 2003, the Company and its subsidiaries employed approximately 650 employees including 275 hourly non-union employees, 235 hourly union employees, and 140 salaried employees, which included plant supervisory personnel, sales and executive staff. The Company has a good working relationship with its employees and has been successful in negotiating multiyear union contracts without work stoppages.

All of the Company's operations and sales are in one geographic area consisting primarily of the State of Kansas, the State of Iowa, southeast Nebraska, western Missouri, northwest Arkansas and northern Oklahoma.

### Item 2. Properties

The Company's corporate offices and cement plant, including equipment and raw materials are located at Humboldt, Kansas, approximately 110 miles southwest of Kansas City, Missouri. The Company owns approximately 5,000 acres of land on which the Humboldt plant, offices and all essential raw materials are located. This plant has a present annual capacity of 875,000 tons of cement. The Company believes that this plant and equipment are suitable and adequate for its current level of operations; however, due to recent and projected market demands, the Company began updating its equipment to improve efficiency and increase capacity. We have completed the installation of a precalciner and clinker cooler on one of our preheater kilns and have purchase a precalciner and clinker cooler to increase production through our second preheater kiln. We have postponed the installation of this equipment until market projections indicate the need for this additional kiln capacity. The installation of this equipment would allow the Company to produce in excess of one million tons of cement per year. Producing at that level, raw material reserves are estimated to be sufficient to maintain operations at this plant for more than 50 years. Reference is hereby made to pages 6 and 7 of the Company's 2003 annual report to stockholders (filed

## Edgar Filing: MONARCH CEMENT CO - Form 10-K

herewith as Exhibit 13) for a description of the Company's capital resources and expansion plans. Such information is hereby incorporated herein by reference.

The Company also owns approximately 250 acres of land in Des Moines, Iowa on which it operates a cement terminal. The Company transfers cement produced in Humboldt, Kansas to this terminal for distribution to Iowa customers. The Company also owns, but is not currently operating, a rock quarry located near Earlham, Iowa, approximately 30 miles west of Des Moines, Iowa. Approximately 300 acres of this 400 acre tract was previously quarried.

The Company owns various companies which sell ready-mixed concrete, concrete products and sundry building materials in metropolitan areas within the Humboldt cement plant's primary market. Various equipment and facility improvements in this line of business ensure these plants are suitable and adequate for their current level of operations and provide for increases in market demand. Individual locations do not have a material affect on the Company's overall operations.

### Item 3. Legal Proceedings

The Company was not a party to any material legal proceedings during 2003.

### Item 4. Submission of Matters to a Vote of Security Holders

The Company did not submit any matter to a vote of security holders, through the solicitation of proxies or otherwise, during the fourth quarter of 2003.

## PART II

### Item 5. Market for Registrant's Common Equity and Related Stockholder Matters

Pursuant to General Instruction G(2) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on page 9 of the Company's 2003 annual report to stockholders. In addition we submit the following:

The Company does not have any compensation plans or individual compensation arrangements under which equity securities of the registrant are authorized for issuance to employees or non-employees.

### Item 6. Selected Financial Data

Pursuant to General Instruction G(2) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on page 1 of the Company's 2003 annual report to stockholders.

### Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Pursuant to General Instruction G(2) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on pages 2 through 9 of the Company's 2003 annual report to stockholders.

## Edgar Filing: MONARCH CEMENT CO - Form 10-K

### Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to various market risks, including equity investment prices. The Company has \$11,502,902 of equity securities as of December 31, 2003. These investments are not hedged and are exposed to the risk of changing market prices. The Company classifies these securities as "available-for-sale" for accounting purposes and marks them to market on the balance sheet at the end of each period. Management estimates that its investments will generally be consistent with trends and movements of the overall stock market excluding any unusual situations. An immediate 10% change in the market price of our equity securities would have a \$690,000 effect on comprehensive income.

The Company also has \$21,741,459 of bank loans as of December 31, 2003. Interest rates on the Company's advancing term loan and line of credit are variable and are based on the JP Morgan Chase prime rate less 1.25% and .75%, respectively.

### Item 8. Financial Statements and Supplementary Data

Pursuant to General Instruction G(2) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on pages 10 through 26 of the Company's 2003 annual report to stockholders.

### Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

Pursuant to General Instruction G(3) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on pages 13 and 14 of the Company's definitive proxy statement prepared in connection with its 2004 annual meeting of stockholders pursuant to Regulation 14A and previously filed with the Commission.

## PART III

### Item 10. Directors and Executive Officers of the Registrant

Pursuant to General Instruction G(3) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on pages 4 through 6 of the Company's definitive proxy statement prepared in connection with its 2004 annual meeting of stockholders pursuant to Regulation 14A and previously filed with the Commission.

### Item 11. Executive Compensation

Pursuant to General Instruction G(3) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on pages 8 through 11 (except for the information set forth under the heading "Board of Directors' Report on Executive Compensation" which is expressly excluded from such incorporation) of the Company's definitive proxy statement prepared in connection with its 2004 annual meeting of stockholders pursuant to regulation 14A and previously filed with the Commission.

### Item 12. Security Ownership of Certain Beneficial Owners and Management

## Edgar Filing: MONARCH CEMENT CO - Form 10-K

Pursuant to General Instruction G(3) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on pages 7 and 8 of the Company's definitive proxy statement prepared in connection with its 2004 annual meeting of stockholders pursuant to Regulation 14A and previously filed with the Commission.

### Item 13. Certain Relationships and Related Transactions

Pursuant to General Instruction G(3) to Form 10-K, the information required by this Item is incorporated herein by reference to the material responsive to this Item on page 9 of the Company's definitive proxy statement prepared in connection with its 2004 annual meeting of stockholders pursuant to Regulation 14A and previously filed with the Commission.

### Item 14. Controls and Procedures

The Company maintains disclosure controls and procedures (as defined in Rules 13a-5(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in the Company's reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to the Company's management, including its President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

The Company's management, including its President and Chairman of the Board of Directors and Chief Financial Officer, evaluated the effectiveness of the design and operation of its disclosure controls and procedures within 90 days of the filing date of this Annual Report on Form 10-K. Based on this evaluation, the Company's President and Chairman of the Board of Directors and Chief Financial Officer have concluded that the design and operation of these disclosure controls and procedures are effective. There has been no change in the Company's internal control over financial reporting during the quarter ended December 31, 2003 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Report of Independent Accountants'  
on Financial Statement Schedules

Board of Directors and Stockholders  
The Monarch Cement Company  
Humboldt, Kansas

In connection with our audits of the consolidated financial statements of The Monarch Cement Company for the years ended December 31, 2003 and 2002, we have also audited the following financial statement schedules. These financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statement schedules

## Edgar Filing: MONARCH CEMENT CO - Form 10-K

based on our audits of the basic consolidated financial statements. These schedules are presented for purposes of complying with the Securities and Exchange Commission's rules and regulations and are not a required part of the consolidated financial statements.

In our opinion, the 2003 and 2002 financial statement schedules referred to above, when considered in relation to the 2003 and 2002 basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information required to be included therein.

The financial statement schedule for the year ended December 31, 2001, was audited by other accountants who have ceased operations. Their report dated February 22, 2002, expressed an unqualified opinion on such financial statement schedule in relation to the basic consolidated financial statements for the year ended December 31, 2001, taken as a whole.

### REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Directors and Stockholders of  
The Monarch Cement Company

We have audited in accordance with auditing standards generally accepted in the United States, the consolidated financial statements included in The Monarch Cement Company's annual report to shareholders incorporated by reference in this Form 10-K, and have issued our report thereon dated February 22, 2002. Our audit was made for the purpose of forming an opinion on those statements taken as a whole. The Schedule of Valuation and Qualifying Accounts (Schedule II) is the responsibility of the Company's management and is presented for purposes of complying with the Securities Exchange Commission's rules and is not part of the basic consolidated financial statements. The schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly states in all material respects the financial data required to be set forth therein in relation to the basic financial statements taken as a whole.
