## Item 2.01. Completion of Acquisition or Disposition of Assets.

On August 14, 2015, First Mid-Illinois Bancshares, Inc. (the “Company”) filed a Current Report on Form 8-K to report that First Mid-Illinois Bank & Trust, N.A. (“First Mid Bank”), a wholly-owned subsidiary of the Company, completed on August 14, 2015 its previously-announced acquisition of 12 branch offices (the “ONB Branches”) of Old National Bank, a national banking association having its principal office in Evansville, Indiana. Pursuant to the terms of the Branch Purchase and Assumption Agreement, dated January 30, 2015, as amended, by and between First Mid Bank and Old National Bank, First Mid Bank, among other matters, assumed certain deposit liabilities and acquired certain loans, as well as cash, real property, furniture, and other fixed operating assets associated with the Branches. The deposit and loan balances assumed were approximately \$453 million and \$156 million, respectively, as of August 14, 2015. First Mid Bank also assumed certain leases, and entered into certain subleases, relating to the Branches. First Mid Bank agreed to pay Old National Bank the sum of: (i) a deposit premium of 3.6% on the amount of deposit accounts of the ONB Branches, other than brokered deposits and municipal deposits, which equated to approximately \$15.9 million, (ii) \$500,000, representing the fixed deposit premium related to the municipal deposits of the Branches, (iii) the principal amount of the loans being purchased, plus the accrued but unpaid interest, (iv) the aggregate net book value of the other assets purchased including facilities of approximately \$4.5 million, and (v) the aggregate amount of cash on hand of \$2.7 million as of the closing. The acquisition was settled by Old National Bank paying cash of approximately \$276.8 million to First Mid Bank for the difference between these amounts and the total deposits assumed.

The Current Report on Form 8-K/A is being filed in order to file certain financial statements with respect to the ONB Branches and other information. The Company recognized approximately \$1.1 million of costs related to completion of the acquisition during the first nine months of 2015. These acquisition costs are included in other expense in the statement of income of the Company and are not reflected in the financial statements filed herewith.

The purchase was accounted for under the acquisition method in accordance with Accounting Standards Codification (“ASC”) 805, “Business Combinations,” and accordingly the assets and liabilities were recorded at their fair values on the date of acquisition. The following table summarizes the estimated fair values of assets acquired and liabilities assumed at the date of acquisition (in thousands).

The difference between the fair value and acquired value of the purchased loans of \$3,377,000 is being accreted to interest income over the remaining term of the loans. The difference between the fair value and acquired value of the assumed time deposits of \$837,000 is being amortized to interest expense over the remaining term of the time

deposits. The core deposit intangible asset, with a fair value of \$6,216,000, will be amortized on an accelerated basis over its estimated life of ten years.
