PAR TECHNOLOGY CORPORATION
REPORTS FIRST QUARTER RESULTS-

NEW HARTFORD, NY, PAR TECHNOLOGY CORPORATION (NYSE:PAR)

New Hartford, NY – (April 27, 2011) – PAR Technology Corporation (NYSE:PAR) today announced results from operations for the first quarter ended March 31, 2011.

PAR reported first quarter revenues of \$55.8 million, a 4% decline over the \$58.1 million reported in the same period a year ago. Reported net income for the first quarter was \$404,000, a decrease from the net income of \$582,000 in the first quarter of 2010. The Company reported diluted earnings per share of \$0.03 for the first quarter of 2011, compared to diluted earnings per share of \$0.04 for the first quarter of last year.

Revenue for the quarter was in line with the Company's expectations. However, service revenues in the hospitality segment continue to be negatively impacted from the ongoing systems upgrade initiative with PAR's largest customer, McDonald's and their utilization of outside system integrators for the accelerated deployment of in-store technology systems. Offsetting that decrease somewhat, the Company continued to realize gains in product revenue in the hospitality and logistics management segments of our business, growing nearly 8% in the quarter. For the rest of 2011, the Company expects improved profitability based on increased software revenues, operating efficiencies and operating income improvement from all business segments.

Statements in this release or by the Company's spokespersons from time to time may contain forward-looking statements. Any statements in this document that do not describe historical facts are forward-looking statements. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that all forward-looking statements involve risks and uncertainties, including without limitation, delays in new product introduction, risks in technology development and commercialization, risks in product development and market acceptance of and demand for the Company's products, risks of downturns in economic conditions generally, and in the quick service sector of the hospitality technology market specifically, risks of intellectual property rights associated with competition and competitive pricing pressures, risks associated with foreign sales and high customer concentration, and other risks detailed in the Company's filings with the Securities and Exchange Commission.

ABOUT PAR TECHNOLOGY

PAR Technology Corporation creates and markets products that help hospitality operators around the world to better manage money, materials, people and the guest experience. PAR has provided hardware, software and services to the world's largest restaurant chains and their franchisees for almost 30 years. Today the Company's extensive offerings include technology solutions for the full spectrum of hospitality operations, from boutique hotels and independent table service restaurants to international QSR chains, all backed by PAR's global service network. The Company has over 50,000 installations in more than 105 countries worldwide. PAR is also a leader in providing computer-based system design and engineering services to the Department of Defense and various federal agencies. Through PAR Logistics Management Systems, the Company is a provider of best of breed integrated solutions for shipping asset management and tracking. PAR Technology Corporation's stock is traded on the New York Stock Exchange under the symbol PAR. For more information visit the Company's website at www.partech.com.
