Other Events

The Registrant recently settled litigation in a case filed in a state court in Franklin County, Arkansas in 1996 against the Registrant and two of its subsidiaries related to overriding royalty interests on certain Arkansas oil and gas properties. In a Form 8-K filed in July 1996, the Registrant disclosed the lawsuit and that the plaintiff was

seeking "several million" dollars in damages for failure to attach overrides dating back to 1939 to certain gas producing properties. The plaintiff subsequently expanded its claim alleging the underpayment of overriding royalties arising from contractual arrangements for the purchase and sale of natural gas between subsidiaries of the Registrant dating back to 1978.

This matter went to a non-jury trial as to the issue of liability in January 2000. The court in this matter issued Findings of Fact and Conclusions of Law that found no fraud was committed and that any overriding royalty interests subject to the plaintiff's claim for additional overriding royalties accrued after March 1, 1990. All claims prior to March 1, 1990 were barred by the statute of limitations. The damages phase of the trial was scheduled for June 2001 and the Registrant recently settled all outstanding issues in the case through mediation. The Registrant will record a \$2.0 million charge in the second quarter of 2001 related to the settlement. Also, in connection with the settlement, the Registrant purchased the plaintiff's overriding royalty interest in a group of the Registrant's Arkansas gas producing properties.
