Section 8 - Other Events

Item 8.01 Other Events.

On September 10, 2007, Overseas Shipholding Group, Inc. ("OSG") issued a press release announcing the naming of the LNG carrier Al Gattara, the first in a series of four sister Q-Flex Liquefied Natural Gas (LNG) carriers to be delivered to OSG Nakilat, the joint venture between OSG and Qatargas Transport Company (Nakilat). The Al Gattara was constructed at the Hyundai Heavy Industries shipyard in Ulsan, South Korea. On September 11, 2007, the second Q-Flex LNG carrier in the new fleet, the Tembek, constructed at the Samsung Heavy Industries shipyard in Geoje Island, South Korea, will be named.

OSG's Q-Flex LNG carriers employ some of the most advanced technology currently available, including a first-of-its-kind on-board reliquefaction plant, which cools boil-off gas and converts it back to liquid to return to the tanks. Safety features include redundant systems such as dual propellers and rudders and environmentally friendly, low-emission electronically controlled diesel engines.

A copy of the press release is attached to this Report as Exhibit 99.1 and is hereby incorporated by reference.

Section 9 - Financial Statements and Exhibits.

Item 9.01 Financial Statements and Exhibits.

(d) Press Release of OSG dated September 10, 2007.

<u>Exhibit No.</u>	<u>Description</u>
99.1	Press Release of OSG dated September 10, 2007
