NACCO INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2013

(In thousands, except as noted and per share amounts)

Note 1 - Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of NACCO Industries, Inc. (the “parent company” or “NACCO”) and its wholly owned subsidiaries (collectively, “NACCO Industries, Inc. and Subsidiaries” or the “Company”). Intercompany accounts and transactions are eliminated in consolidation. The Company's subsidiaries operate in the following principal industries: mining, small appliances and specialty retail. The Company manages its subsidiaries primarily by industry.

The North American Coal Corporation and its affiliated companies (collectively, “NACoal”) mine and market steam and metallurgical coal for use in power generation and steel production and provide selected value-added mining services for other natural resources companies. Hamilton Beach Brands, Inc. (“HBB”) is a leading designer, marketer and distributor of small electric household appliances, as well as commercial products for restaurants, bars and hotels. The Kitchen Collection, LLC (“KC”) is a national specialty retailer of kitchenware and gourmet foods operating under the Kitchen Collection® and Le Gourmet Chef® store names in outlet and traditional malls throughout the United States. On September 28, 2012, the Company spun-off Hyster-Yale Materials Handling, Inc. (“Hyster-Yale”), a former subsidiary. The financial position, results of operations and cash flows of Hyster-Yale are reflected as discontinued operations for all periods presented through the date of the spin-off. See Note 4 to the unaudited condensed consolidated financial statements for further details regarding the spin-off.

These financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position of the Company at June 30, 2013 and the results of its operations, comprehensive income, cash flows and changes in equity for the six months ended June 30, 2013 and 2012 have been included. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

The balance sheet at December 31, 2012 has been derived from the audited financial statements at that date but does not include all of the information or notes required by U.S. GAAP for complete financial statements.

Operating results for the three and six months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the remainder of the year ending December 31, 2013. The HBB and KC businesses are seasonal and a majority of revenues and operating profit typically occurs in the second half of the calendar year when sales of small electric household appliances to retailers and consumers increase significantly for the fall holiday-selling season. For further information regarding seasonality of these businesses, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Note 2 - Recently Issued Accounting Guidance

Accounting Guidance Adopted in 2013:

In February 2013, the FASB issued authoritative guidance on the presentation of comprehensive income, which was effective for the Company on January 1, 2013. The guidance requires an entity to (i) present (either on the face of the statement where net income is presented or in the notes) the effects on the line items of net income of significant amounts reclassified out of accumulated other comprehensive income - but only if the item reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period; and (ii) cross-reference to other disclosures currently required under U.S. GAAP for other reclassification items (that are not required under U.S. GAAP) to be reclassified directly to net income in their entirety in the same reporting period. This would be the case when a portion of the amount reclassified out of accumulated other comprehensive income is initially transferred to a balance sheet account (e.g., inventory for pension-related amounts) instead of directly to income or expense. The Company adopted this guidance during the first quarter of 2013. Because this guidance is related to presentation only, the adoption did not have any effect on the Company's financial position, results of operations or cash flows.

Table of Contents

Reclassifications: Certain amounts in the prior periods' unaudited condensed consolidated financial statements have been reclassified to conform to the current period's presentation.

Note 3 - Acquisition

On August 31, 2012, NACoal acquired, through a wholly owned subsidiary, four related operating companies - Reed Minerals, Inc., Reed Hauling Inc., C&H Mining Company, Inc. and Reed Management LLC - from members of and entities controlled by the Reed family. These companies (collectively known as "Reed Minerals") are based in Jasper, Alabama and are involved in the mining of steam and metallurgical coal. The results of Reed Minerals have been included in the Company's consolidated financial statements since the date of acquisition.

Reed Minerals mines and markets steam coal and metallurgical coal for sale primarily into the power generation and steel markets. Steam coal is primarily sold to a cooperative association which provides fuel under a long-term contract with a significant U.S. utility. Metallurgical coal is sold to several customers. Reed Minerals operates three mines on leased reserves in central Alabama. The Reed Minerals acquisition provides the Company a foundation to build a metallurgical coal business.

The acquisition was funded using borrowings under NACoal's unsecured revolving line of credit. The purchase price included a \$69.3 million cash payment and estimated contingent consideration valued at an additional \$1.6 million. The value of the contingent consideration as of the acquisition date was based on a Monte Carlo simulation model. The contingent consideration is structured as an earn-out payment to the sellers of Reed Minerals. The earn-out is calculated as a percentage by which the monthly average coal selling price exceeds an established threshold multiplied by the number of tons sold during the month. The earn-out period covers the first 15 million tons of coal sold from the Reed Minerals coal reserves. There is no monetary cap on the amount payable under this contingent payment arrangement. The liability for contingent consideration (\$1.6 million at June 30, 2013 after accretion and payments) is included in other long-term liabilities in the unaudited condensed consolidated balance sheet. Earn-out payments, if payable, are paid quarterly. Earn-out payments of less than \$0.1 million were paid during the six months ended June 30, 2013.

The goodwill arising from the acquisition is expected to be deductible for tax purposes.

The following table summarizes the fair values of the assets acquired and liabilities assumed of Reed Minerals as of the acquisition date:

	(In millions)
Property, plant and equipment (including mineral rights)	\$60.2
Other assets	21.3
Other intangible assets	8.2
Total assets acquired	89.7
Other current liabilities	8.3
Other long-term liabilities	14.5
Total liabilities assumed	22.8
Net assets acquired	66.9
Purchase price	70.9
Goodwill	\$4.0

The fair values of the assets acquired and liabilities assumed in the table above includes a \$6.3 million liability reflected within other long-term liabilities for tax liabilities associated with pre-acquisition business activities of Reed Minerals. There is also a \$6.3 million long-term asset recorded, recognizing the sellers' contractual obligation to indemnify the Company for this pre-acquisition liability. The indemnification asset was measured on the same basis as the corresponding liability.

Note 4 - Other Events and Transactions

NACoal: During the first six months of 2012, NACoal sold a dragline for \$20.2 million, which approximated book value. This asset was previously reported as held for sale on the consolidated balance sheet.

During 2012, Coyote Creek, an indirect subsidiary of the Company, entered into a Lignite Sales Agreement (the “LSA”) with Otter Tail Power Company (“OTP”), a wholly owned subsidiary of Otter Tail Corporation, and with OTP's co-owners in the Coyote Station baseload generation plant, Montana-Dakota Utilities Co., a division of MDU Resources Group, Inc., Northern

Table of Contents

Municipal Power Agency and NorthWestern Corporation. Under the LSA, NACoal will develop a lignite mine in Mercer County, North Dakota and deliver to the Coyote Station co-owners, as an exclusive supplier, the annual fuel requirements of the Coyote Station plant (expected to be approximately 2.5 million tons annually starting in 2016). The term of the LSA consists of two periods: (i) the development period, which is from October 10, 2012 until on or around May 5, 2016, and (ii) the production period, which is from the last day of the development period until December 31, 2040. The production period is subject to automatic 5-year extensions unless either party gives notice of its desire not to extend the LSA or the lignite at the mine is exhausted. Included in "Accounts receivable from affiliates" is \$25.9 million and \$24.8 million as of June 30, 2013 and December 31, 2012, respectively due from Coyote Creek, primarily for the purchase of a dragline from NACoal.

Hyster-Yale Spin-Off: On September 28, 2012, the Company spun-off Hyster-Yale, a former wholly owned subsidiary. To complete the spin-off, the Company distributed one share of Hyster-Yale Class A common stock and one share of Hyster-Yale Class B common stock to NACCO stockholders for each share of NACCO Class A common stock or Class B common stock owned. In accordance with the applicable authoritative accounting guidance, the Company accounted for the spin-off based on the carrying value of Hyster-Yale.

As a result of the spin-off, the financial position, results of operations and cash flows of Hyster-Yale are reflected as discontinued operations through the date of the spin-off in the unaudited condensed consolidated financial statements.

Discontinued operations includes the following results:

	Three Months Ended June 30, 2012	Six Months Ended June 30, 2012
	(In millions, except per share data)	
Revenues	\$602.0	\$1,231.5
Net income	\$18.3	\$38.8
Basic earnings per share	\$2.18	\$4.64
Diluted earnings per share	\$2.18	\$4.63

Note 5 - Inventories

Inventories are summarized as follows:

	JUNE 30 2013	DECEMBER 31 2012	JUNE 30 2012
Coal - NACoal	\$22,154	\$17,311	\$17,144
Mining supplies - NACoal	15,994	13,587	11,949
Total inventories at weighted average cost	38,148	30,898	29,093
Sourced inventories - HBB	79,778	84,814	86,212
Retail inventories - KC	49,544	53,728	58,608
Total inventories at FIFO	129,322	138,542	144,820
	\$167,470	\$169,440	\$173,913

Note 6 - Stockholders' Equity

Share Repurchase Program: In 2011, the Company announced that the Company's Board of Directors approved the repurchase of up to \$50 million of the Company's outstanding Class A common stock. The authorization for the repurchase program originally was scheduled to expire on December 31, 2012; however, in November 2012 the Company's Board of Directors approved an extension of the stock repurchase program through December 31, 2013.

As of June 30, 2013, the Company had repurchased 469,471 shares of Class A common stock for an aggregate purchase price of \$26.8 million under this program. The weighted average purchase price per share and number of shares repurchased were \$54.79 per share and 394,397 for the six months ended June 30, 2013, respectively.

Table of Contents

Amounts Reclassified out of Accumulated Other Comprehensive Income: The following table summarizes the amounts reclassified out of accumulated other comprehensive income ("AOCI") and recognized in the unaudited condensed consolidated statements of operations:

Details about AOCI Components	Amount Reclassified from AOCI		Location of loss (gain) reclassified from AOCI into income
	Three Months Ended June 30, 2013 (in thousands)	Six Months Ended June 30, 2013	
Loss (gain) on cash flow hedging			
Foreign exchange contracts	\$(27)) \$(17) Cost of sales
Interest rate contracts	228	460	Interest expense
	201	443	Total before income tax expense
	77	170	Income tax benefit
	\$124	\$273	Net of tax
Pension and postretirement plan			
Actuarial loss	\$682	\$1,313	(a)
Prior-service credit	(55) (100) (a)
	627	1,213	Total before income tax expense
	264	408	Income tax benefit
	\$363	\$805	Net of tax
Total reclassifications for the period	\$487	\$1,078	Net of tax

(a) These accumulated other comprehensive income components are included in the computation of pension expense. See Note 13 for a discussion of the Company's pension expense.

Note 7 - Derivative Financial Instruments

The Company uses forward foreign currency exchange contracts to partially reduce risks related to transactions denominated in foreign currencies. The Company offsets fair value amounts related to foreign currency exchange contracts executed with the same counterparty. These contracts hedge firm commitments and forecasted transactions relating to cash flows associated with sales and purchases denominated in currencies other than the Company's subsidiaries' functional currencies. Changes in the fair value of forward foreign currency exchange contracts that are effective as hedges are recorded in accumulated other comprehensive income (loss) ("OCI"). Deferred gains or losses are reclassified from OCI to the unaudited condensed consolidated statements of comprehensive income in the same period as the gains or losses from the underlying transactions are recorded and are generally recognized in cost of sales. The ineffective portion of derivatives that are classified as hedges is immediately recognized in earnings and generally recognized in cost of sales.

The Company uses interest rate swap agreements to partially reduce risks related to floating rate financing agreements that are subject to changes in the market rate of interest. Terms of the interest rate swap agreements provide for the Company to receive a variable interest rate and pay a fixed interest rate. The Company's interest rate swap agreements and its variable rate financings are based upon LIBOR. Changes in the fair value of interest rate swap agreements that are effective as hedges are recorded in OCI. Deferred gains or losses are reclassified from OCI to the unaudited

condensed consolidated statements of comprehensive income in the same period as the gains or losses from the underlying transactions are recorded and are generally recognized in interest expense. The ineffective portion of derivatives that are classified as hedges is immediately recognized in earnings and included on the line “Other” in the “Other (income) expense” section of the unaudited condensed consolidated statements of operations.

Table of Contents

Interest rate swap agreements and forward foreign currency exchange contracts held by the Company have been designated as hedges of forecasted cash flows. The Company does not currently hold any nonderivative instruments designated as hedges or any derivatives designated as fair value hedges.

The Company periodically enters into foreign currency exchange contracts that do not meet the criteria for hedge accounting. These derivatives are used to reduce the Company's exposure to foreign currency risk related to forecasted purchase or sales transactions or forecasted intercompany cash payments or settlements. Gains and losses on these derivatives are included on the line "Cost of sales" or "Other" in the "Other (income) expense" section of the unaudited condensed consolidated statements of operations.

Cash flows from hedging activities are reported in the unaudited condensed consolidated statements of cash flows in the same classification as the hedged item, generally as a component of cash flows from operations.

The Company measures its derivatives at fair value on a recurring basis using significant observable inputs, which is Level 2 as defined in the fair value hierarchy. The Company uses a present value technique that incorporates the LIBOR swap curve, foreign currency spot rates and foreign currency forward rates to value its derivatives, including its interest rate swap agreements and foreign currency exchange contracts, and also incorporates the effect of its subsidiary and counterparty credit risk into the valuation.

Foreign Currency Derivatives: HBB held forward foreign currency exchange contracts denominated in Canadian dollars with total notional amounts of \$6.0 million, \$10.5 million and \$12.2 million at June 30, 2013, December 31, 2012 and June 30, 2012, respectively. The fair value of these contracts approximated a net asset of \$0.3 million, a net liability of less than \$0.1 million, and a net asset of \$0.3 million at June 30, 2013, December 31, 2012, and June 30, 2012, respectively.

Forward foreign currency exchange contracts that qualify for hedge accounting are used to hedge transactions expected to occur within the next twelve months. The mark-to-market effect of forward foreign currency exchange contracts that are considered effective as hedges has been included in OCI. Based on market valuations at June 30, 2013, \$0.2 million of the amount included in OCI is expected to be reclassified as income into the consolidated statement of comprehensive income (loss) over the next twelve months, as the transactions occur.

Interest Rate Derivatives: HBB has interest rate swap agreements that hedge interest payments on its one-month LIBOR borrowings. The following table summarizes the notional amounts, related rates and remaining terms of active interest rate swap agreements at June 30, 2013, December 31, 2012, and June 30, 2012:

Notional Amount			Average Fixed Rate				Remaining Term at June 30,
JUNE 30 2013	DECEMBER 31 2012	JUNE 30 2012	JUNE 30 2013	DECEMBER 31 2012	JUNE 30 2012		
(In millions)							
\$20.0	\$25.0	\$25.0	1.4	% 4.0	% 4.1	%	delayed contracts extending to January 2020

The fair value of all interest rate swap agreements was a net asset of \$0.8 million, a net liability of \$0.5 million, and a net liability of \$0.9 million at June 30, 2013, December 31, 2012, and June 30, 2012, respectively. The mark-to-market effect of interest rate swap agreements that are considered effective as hedges has been included in OCI. Based on market valuations at June 30, 2013, \$0.5 million of the amount included in OCI is expected to be reclassified as income into the consolidated statement of comprehensive income (loss) over the next twelve months, as cash flow payments are made in accordance with the interest rate swap agreements. The interest rate swap agreements held by HBB on June 30, 2013 are expected to continue to be effective as hedges.

Table of Contents

The following table summarizes the fair value of derivatives designated as hedging instruments reflected on a gross basis at June 30, 2013, December 31, 2012, and June 30, 2012 as recorded in the unaudited condensed consolidated balance sheets:

		Derivative Assets		
		Balance Sheet Location	JUNE 30 2013	DECEMBER 31 2012
			JUNE 30 2012	
Interest rate swap agreements	Prepaid expenses and other	\$64	\$—	\$—
Interest rate swap agreements	Other non-current assets	700	—	—
Foreign currency exchange contracts	Prepaid expenses and other	326	—	257
		\$1,090	\$—	\$257

See Note 8 for a discussion of the Company's fair value disclosures. There was no gain or loss recognized resulting from ineffectiveness and no amounts were excluded from effectiveness testing.

12

Table of Contents

Note 8 - Fair Value Disclosure

The following table presents the Company's assets and liabilities accounted for at fair value on a recurring basis:

Description	June 30, 2013	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Interest rate swap agreements	\$764	\$—	\$764	\$—
Foreign currency exchange contracts	326	—	326	—
	\$1,090	\$—	\$1,090	\$—
Liabilities:				
Contingent consideration	\$1,564	\$—	\$—	\$1,564
	\$1,564	\$—	\$—	\$1,564

The Company uses significant other observable inputs to value derivative instruments used to hedge foreign currency and interest rate risk; therefore, they are classified within Level 2 of the valuation hierarchy. The fair value for these contracts is determined based on exchange rates and interest rates, respectively. See Note 7 for further discussion of the Company's derivative financial instruments. The valuation techniques and Level 3 inputs used to estimate the fair value of contingent consideration payable in connection with the Company's acquisition of Reed Minerals are described below. There were no transfers into or out of Levels 1, 2 or 3 during the six months ended June 30, 2013.

The following table summarizes changes in Level 3 liabilities measured at fair value on a recurring basis:

		Contingent Consideration	
Balance at	December 31, 2012	\$4,000	
Change in estimate		(2,426)
Accretion expense		27	
Payments		(37)
Balance at	June 30, 2013	\$1,564	

As described in Note 3, NACoal acquired Reed Minerals on August 31, 2012 for a purchase price of approximately \$70.9 million, which includes estimated contingent consideration valued at \$1.6 million. The estimated fair value of the contingent consideration was determined based on the income approach with key assumptions that include future projected metallurgical coal prices, forecasted coal deliveries and the estimated discount rate used to determine the present value of the projected contingent consideration payments. Future projected coal prices were estimated using a stochastic modeling methodology based on Geometric Brownian Motion with a risk neutral Monte Carlo simulation. Significant assumptions used in the model include coal price volatility and the risk-free interest rate based on U.S. Treasury yield curves with maturities consistent with the expected life of the contingent consideration. Volatility is considered a significant assumption and is based on historical coal prices. A significant increase or decrease in any of the aforementioned key assumptions related to the fair value measurement of the contingent consideration would result in a significantly higher or lower reported fair value for the contingent consideration liability.

The future anticipated cash flow for the contingent consideration was discounted using an interest rate that appropriately captures a market participant's view of the risk associated with the liability. This fair value measurement

is based on significant inputs not observable in the market and thus represents a Level 3 measurement within the fair value hierarchy. The liability for contingent consideration is included in other long-term liabilities in the Unaudited Condensed Consolidated Balance Sheets. Contingent consideration payments, if payable, are paid quarterly.

Table of Contents

During the six months ended June 30, 2013, the estimate of the contingent consideration liability decreased by \$2.4 million as the Company finalized purchase accounting for the Reed Minerals acquisition. The estimate of the contingent consideration liability reflects information known as of the acquisition date.

The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable approximate fair value due to the short-term maturities of these instruments. The fair values of revolving credit agreements and long-term debt, excluding capital leases, were determined using current rates offered for similar obligations taking into account subsidiary credit risk, which is Level 2 as defined in the fair value hierarchy. At June 30, 2013, the fair value of the revolving credit agreements and long-term debt, excluding capital leases, was \$152.9 million compared with the book value of \$152.5 million. At December 31, 2012, the fair value of the revolving credit agreements and long-term debt, excluding capital leases, was \$166.8 million compared with the book value of \$166.0 million. At June 30, 2012, the fair value of the revolving credit agreements and long-term debt, excluding capital leases, was \$161.4 million compared with the book value of \$160.5 million.

Note 9 - Unconsolidated Subsidiaries

NACoal has two consolidated mining operations: Mississippi Lignite Mining Company ("MLMC") and Reed Minerals. NACoal also provides dragline mining services for independently owned limerock quarries in Florida. NACoal has ten wholly owned unconsolidated subsidiaries that each meet the definition of a variable interest entity and are accounted for using the equity method:

The Coteau Properties Company ("Coteau")
The Falkirk Mining Company ("Falkirk")
The Sabine Mining Company ("Sabine")
Demery Resources Company, LLC ("Demery")
Caddo Creek Resources Company, LLC ("Caddo Creek")
Coyote Creek Mining Company, LLC ("Coyote Creek")
Camino Real Fuels, LLC ("Camino Real")
Liberty Fuels Company, LLC ("Liberty")
NoDak Energy Services, LLC ("NoDak")
North American Coal Corporation India Private Limited ("NACC India")

Coteau, Falkirk and Sabine were developed between 1974 and 1981 and operate lignite coal mines under long-term contracts with various utility customers. Coteau, Falkirk and Sabine are capitalized primarily with debt financing, which the utility customers have arranged and guaranteed, and are without recourse to NACCO and NACoal.

Demery, Caddo Creek, Coyote Creek, Camino Real and Liberty (collectively with Coteau, Falkirk and Sabine, the "Unconsolidated Mines") were formed to develop, construct and operate surface mines under long-term contracts. Demery commenced delivering coal to its customer in 2012 and is expected to reach full production levels in late 2015 or 2016. Liberty commenced production in June 2013 and is expected to reach full production levels in late 2014. Caddo Creek, Coyote Creek and Camino Real are still in development and are not expected to be at full production for several years.

NoDak was formed to operate and maintain a coal processing facility. NACC India was formed to provide technical advisory services to the third-party owners of a coal mine in India.

The contracts with customers of the unconsolidated mines provide for reimbursement at a price based on actual costs plus an agreed pre-tax profit per ton of coal sold or actual costs plus a management fee. Although NACoal owns 100% of the equity and manages the daily operations of these entities, the Company has determined that the equity capital

provided by NACoal is not sufficient to adequately finance the ongoing activities or absorb any expected losses without additional support from the customers. The customers have a controlling financial interest and have the power to direct the activities that most significantly affect the economic performance of the entities. As a result, NACoal is not the primary beneficiary and therefore does not consolidate these entities' financial position or results of operations.

The income taxes resulting from the operations of the unconsolidated mines are solely the responsibility of the Company. The pre-tax income from the unconsolidated mines is reported on the line "Earnings of unconsolidated mines" in the unaudited condensed consolidated statements of operations, with related income taxes included in the provision for income taxes. The Company has included the pre-tax earnings of the unconsolidated mines above operating profit because they are an integral component of the Company's business and operating results.

Table of Contents

The pre-tax income from NoDak is reported on the line "Income from other unconsolidated affiliates" in the "Other (income) expense" section of the unaudited condensed consolidated statements of operations, with the related income taxes included in the provision for income taxes. The net income from NACC India is reported on the line "Income from other unconsolidated affiliates" in the "Other (income) expense" section of the unaudited condensed consolidated statements of operations.

The investment in the ten unconsolidated operations and related tax position was \$34.5 million, \$20.2 million, and \$18.3 million at June 30, 2013, December 31, 2012, and June 30, 2012, respectively, and is included on the line "Other Non-current Assets" in the unaudited condensed consolidated balance sheets. The Company's maximum risk of loss relating to these entities is limited to its invested capital, which was \$4.2 million, \$3.2 million, and \$4.9 million at June 30, 2013, December 31, 2012, and June 30, 2012 respectively.

Summarized financial information for the ten unconsolidated operations is as follows:

	THREE MONTHS ENDED		SIX MONTHS ENDED	
	JUNE 30		JUNE 30	
	2013	2012	2013	2012
Revenues	\$141,302	\$135,004	\$280,938	\$269,382
Gross profit	\$17,515	\$18,236	\$37,012	\$37,399
Income before income taxes	\$10,695	\$11,018	\$23,478	\$23,597
Net income	\$8,191	\$8,915	\$17,992	\$18,397

Note 10 - Contingencies

Various legal and regulatory proceedings and claims have been or may be asserted against NACCO and certain subsidiaries relating to the conduct of their businesses, including product liability, environmental and other claims. These proceedings and claims are incidental to the ordinary course of business of the Company. Management believes that it has meritorious defenses and will vigorously defend the Company in these actions. Any costs that management estimates will be paid as a result of these claims are accrued when the liability is considered probable and the amount can be reasonably estimated. Although the ultimate disposition of these proceedings is not presently determinable, management believes, after consultation with its legal counsel, that the likelihood is remote that material costs will be incurred in excess of accruals already recognized.

HBB is investigating or remediating historical environmental contamination at some current and former sites operated by HBB or by businesses it acquired. Based on the current stage of the investigation or remediation at each known site, HBB estimates the total investigation and remediation costs and the period of assessment and remediation activity required for each site. The estimate of future investigation and remediation costs is primarily based on variables associated with site clean-up, including, but not limited to, physical characteristics of the site, the nature and extent of the contamination and applicable regulatory programs and remediation standards. No assessment can fully characterize all subsurface conditions at a site. There is no assurance that additional assessment and remediation efforts will not result in adjustments to estimated remediation costs or the time frame for remediation at these sites.

HBB's estimates of investigation and remediation costs may change if it discovers contamination at additional sites or additional contamination at known sites, if the effectiveness of its current remediation efforts change, if applicable federal or state regulations change or if HBB's estimate of the time required to remediate the sites changes. HBB's revised estimates may differ materially from original estimates.

At June 30, 2013, December 31, 2012, and June 30, 2012, HBB had accrued approximately \$7.1 million, \$4.7 million, and \$4.5 million for environmental investigation and remediation activities at these sites, respectively. HBB estimates that it is reasonably possible that it may incur additional expenses in the range of \$0 to \$4.7 million related to the

environmental investigation and remediation at these sites. The increase in the liability from December 31, 2012 is primarily due to a \$2.3 million charge to establish a liability for environmental investigation and remediation activities at HBB's Picton, Ontario facility as a result of an environmental study performed in the second quarter of 2013.

Note 11 - Product Warranties

HBB provides a standard warranty to consumers for all of its products. The specific terms and conditions of those warranties vary depending upon the product brand. In general, if a product is returned under warranty, a refund is provided to the consumer by HBB's customer, the retailer. Generally, the retailer returns those products to HBB for a credit. The Company

Table of Contents

estimates the costs which may be incurred under its standard warranty programs and records a liability for such costs at the time product revenue is recognized.

The Company periodically assesses the adequacy of its recorded warranty liabilities and adjusts the amounts as necessary. Factors that affect the Company's warranty liability include the number of units sold, historical and anticipated rates of warranty claims and the cost per claim.

Changes in the Company's current and long-term recorded warranty liability are as follows:

	2013
Balance at January 1	\$4,269
Current year warranty expense	3,905
Payments made	(4,268)
Balance as of June 30	\$3,906

Note 12 - Income Taxes

The income tax provision includes U.S. federal, state and local, and foreign income taxes and is based on the application of a forecasted annual income tax rate applied to the current quarter's year-to-date pre-tax income or loss. In determining the estimated annual effective income tax rate, the Company analyzes various factors, including projections of the Company's annual earnings, taxing jurisdictions in which the earnings will be generated, the impact of state and local income taxes, the Company's ability to use tax credits and net operating loss carryforwards, and available tax planning alternatives. Discrete items, including the effect of changes in tax laws, tax rates and certain circumstances with respect to valuation allowances or other unusual or non-recurring tax adjustments are reflected in the period in which they occur as an addition to, or reduction from, the income tax provision, rather than included in the estimated effective annual income tax rate.

A reconciliation of the Company's consolidated federal statutory and effective income tax on income from continuing operations is as follows (in thousands):

	THREE MONTHS ENDED JUNE 30		SIX MONTHS ENDED JUNE 30	
	2013	2012	2013	2012
Income from continuing operations before income tax provision:	\$7,243	\$4,830	\$13,080	\$11,580
Statutory taxes at 35%	\$2,535	\$1,691	\$4,578	\$4,053
Discrete items:				
Other	140	10	(2)	21
	140	10	(2)	21
Other permanent items:				
NACoal percentage depletion	(711)	(346)	(1,297)	(949)
Other	132	32	232	300
	(579)	(314)	(1,065)	(649)
Income tax provision	\$2,096	\$1,387	\$3,511	\$3,425
Effective income tax rate	28.9 %	28.7 %	26.8 %	29.6 %

At June 30, 2013, the Company has a \$1.8 million liability, included in Other long-term liabilities on the unaudited condensed consolidated balance sheet, for an uncertain tax position associated with pre-acquisition business activities of Reed Minerals. There is also a \$1.8 million long-term asset recorded, recognizing a third party's contractual obligation to indemnify the Company in connection with this uncertain tax position. The indemnification asset was measured on the same basis as the corresponding liability.

Note 13 - Retirement Benefit Plans

The Company maintains various defined benefit pension and postretirement health care plans that provide benefits based on years of service and average compensation during certain periods. The Company's policy is to make contributions to fund these

16

Table of Contents

plans within the range allowed by applicable regulations. Plan assets consist primarily of publicly traded stocks and government and corporate bonds.

Pension benefits are frozen for all employees other than certain NACoal unconsolidated mine employees (see Note 15 regarding subsequent events related to this plan). All other eligible employees of the Company, including employees whose pension benefits are frozen, receive retirement benefits under defined contribution retirement plans.

The components of pension and postretirement health care expense are set forth below:

	THREE MONTHS ENDED JUNE 30		SIX MONTHS ENDED JUNE 30	
	2013	2012	2013	2012
U.S. Pension and Postretirement Health Care				
Service cost	\$18	\$19	\$38	\$39
Interest cost	686	769	1,466	1,646
Expected return on plan assets	(1,087)	(1,055)	(2,303)	(2,235)
Amortization of actuarial loss	651	773	1,252	1,453
Amortization of prior service credit	(55)	(156)	(100)	(126)
Total	\$213	\$350	\$353	\$777
Non-U.S. Pension				
Service cost	\$—	\$—	\$—	\$—
Interest cost	51	51	101	103
Expected return on plan assets	(71)	(71)	(143)	(142)
Amortization of actuarial loss	31	33	61	65
Total	\$11	\$13	\$19	\$26

Note 14 - Business Segments

NACCO is a holding company with the following principal subsidiaries: NACoal, HBB and KC. See Note 1 for a discussion of the Company's industries and product lines. NACCO's non-operating segment, NACCO and Other, includes the accounts of the parent company and Bellaire Corporation, a non-operating subsidiary of the Company ("Bellaire").

Financial information for each of NACCO's reportable segments is presented in the following table. The line "Eliminations" in the revenues section eliminates revenues from HBB sales to KC. The amounts of these revenues are based on current market prices of similar third-party transactions. No other sales transactions occur among reportable segments. Other transactions among reportable segments are recognized based on current market prices of similar third-party transactions.

Note 15 - Subsequent Events

During the third quarter of 2013, the Company approved a plan to freeze pension benefits for certain NACoal unconsolidated mines' employees effective January 1, 2014. Affected employees will earn benefits under the Company's defined contribution retirement plans. The Company has not yet determined the estimated curtailment gain or loss associated with freezing the pension benefits but does not expect the curtailment gain or loss to have a significant impact on the Company's future financial position, results of operations or cash flows.

Table of Contents

Item 2. - Management's Discussion and Analysis of Financial Condition and Results of Operations

(In thousands, except as noted and per share and percentage data)

NACCO Industries, Inc. (the “parent company” or “NACCO”) and its wholly owned subsidiaries (collectively, the “Company”) operate in the following principal industries: mining, small appliances and specialty retail. Results of operations and financial condition are discussed separately by subsidiary, which corresponds with the industry groupings.

The North American Coal Corporation and its affiliated coal companies (collectively, “NACoal”) mine and market steam and metallurgical coal for use in power generation and steel production and provide selected value-added mining services for other natural resources companies. Hamilton Beach Brands, Inc. (“HBB”) is a leading designer, marketer and distributor of small electric household appliances, as well as commercial products for restaurants, bars and hotels. The Kitchen Collection, LLC (“KC”) is a national specialty retailer of kitchenware and gourmet foods operating under the Kitchen Collection® and Le Gourmet Chef® store names in outlet and traditional malls throughout the United States.

On September 28, 2012, the Company completed the spin-off of Hyster-Yale Materials Handling, Inc. (“Hyster-Yale”), a former wholly owned subsidiary. To complete the spin-off, the Company distributed one share of Hyster-Yale Class A common stock and one share of Hyster-Yale Class B common stock to NACCO stockholders for each share of NACCO Class A common stock or Class B common stock they owned. As a result of the spin-off, the financial position, results of operations and cash flows of Hyster-Yale are reflected as discontinued operations for all periods presented through the date of the spin-off in the unaudited condensed consolidated financial statements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Please refer to the discussion of the Company's Critical Accounting Policies and Estimates as disclosed on pages 33 through 36 in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. The Company's Critical Accounting Policies and Estimates have not materially changed since December 31, 2012.

THE NORTH AMERICAN COAL CORPORATION

NACoal mines and markets steam and metallurgical coal for use in power generation and steel production and provides selected value-added mining services for other natural resources companies. Coal is surface mined from NACoal's developed mines in North Dakota, Texas, Mississippi, Louisiana and Alabama. Total coal reserves approximate 2.2 billion tons with approximately 1.1 billion tons committed to customers pursuant to long-term contracts.

NACoal has two consolidated mining operations: Mississippi Lignite Mining Company (“MLMC”) and Reed Minerals. NACoal also provides dragline mining services for independently owned limerock quarries in Florida. NACoal has ten wholly owned unconsolidated subsidiaries that each meet the definition of a variable interest entity and are accounted for using the equity method:

The Coteau Properties Company (“Coteau”)
The Falkirk Mining Company (“Falkirk”)
The Sabine Mining Company (“Sabine”)
Demery Resources Company, LLC (“Demery”)
Caddo Creek Resources Company, LLC (“Caddo Creek”)
Coyote Creek Mining Company, LLC (“Coyote Creek”)
Camino Real Fuels, LLC (“Camino Real”)
Liberty Fuels Company, LLC (“Liberty”)
NoDak Energy Services, LLC (“NoDak”)

North American Coal Corporation India Private Limited ("NACC India")

Coteau, Falkirk and Sabine were developed between 1974 and 1981 and operate lignite coal mines under long-term contracts with various utility customers. Coteau, Falkirk and Sabine are capitalized primarily with debt financing, which the utility customers have arranged and guaranteed, and are without recourse to NACCO and NACoal.

Demery, Caddo Creek, Coyote Creek, Camino Real and Liberty (collectively with Coteau, Falkirk and Sabine, the "Unconsolidated Mines") were formed to develop, construct and operate surface mines under long-term contracts. Demery commenced delivering coal to its customer in 2012 and is expected to reach full production levels in late 2015 or 2016. Liberty commenced production in June 2013 and is expected to reach full production levels in late 2014. Caddo Creek, Coyote Creek and Camino Real are still in development and are not expected to be at full production for several years.

Table of Contents

NoDak was formed to operate and maintain a coal processing facility. NACC India was formed to provide technical advisory services to the third-party owners of a coal mine in India.

The contracts with the customers of the unconsolidated mines provide for reimbursement at a price based on actual costs plus an agreed pre-tax profit per ton of coal sold or actual costs plus a management fee.

On August 31, 2012, NACoal acquired, through a wholly owned subsidiary, four related companies - Reed Minerals, Inc., Reed Hauling Inc., C&H Mining Company, Inc. and Reed Management, LLC - from members of and entities controlled by the Reed family. These companies, known collectively as Reed Minerals, are based in Jasper, Alabama and are involved in the mining of steam and metallurgical coal. See Note 3 for further discussion of this acquisition.

FINANCIAL REVIEW

Tons of coal sold by NACoal's operating mines were as follows for the three and six months ended June 30:

	THREE MONTHS		SIX MONTHS	
	2013	2012	2013	2012
	(In millions)			
Coteau	2.9	3.1	6.7	6.5
Falkirk	1.6	1.7	3.6	3.7
Sabine	1.1	1.1	2.3	2.3
Unconsolidated mines	5.6	5.9	12.6	12.5
MLMC	0.4	0.5	1.3	1.3
Reed Minerals	0.3	—	0.5	—
Consolidated mines	0.7	0.5	1.8	1.3
Total tons sold	6.3	6.4	14.4	13.8

The limerock dragline mining operations sold 5.3 million and 11.6 million cubic yards of limerock in the three and six months ended June 30, 2013, respectively. This compares with 4.4 million and 8.1 million cubic yards of limerock in the three and six months ended June 30, 2012, respectively.

Table of Contents

The results of operations for NACoal were as follows for the three and six months ended June 30:

	THREE MONTHS		SIX MONTHS	
	2013	2012	2013	2012
Revenue - consolidated mines	\$36,595	\$17,353	\$82,430	\$38,461
Royalty and other	6,972	1,846	12,284	5,072
Total revenues	43,567	19,199	94,714	43,533
Cost of sales - consolidated mines	35,412	14,801	77,570	31,601
Cost of sales - royalty and other	310	569	570	1,183
Total cost of sales	35,722	15,370	78,140	32,784
Gross profit	7,845	3,829	16,574	10,749
Earnings of unconsolidated mines (a)	10,281	10,579	22,379	22,585
Selling, general and administrative expenses	6,302	7,106	13,953	13,454
Amortization of intangibles	619	464	1,660	1,073
(Gain) loss on sale of assets	9	(2,314)	359	(2,273)
Operating profit	11,196	9,152	22,981	21,080
Interest expense	628	689	1,412	1,431
Other (income) expense (including income from other unconsolidated affiliates)	(297)	(426)	(657)	(779)
Income from continuing operations before income tax provision	10,865	8,889	22,226	20,428
Income tax provision	1,913	1,759	3,683	4,091
Net income	\$8,952	\$7,130	\$18,543	\$16,337
Effective income tax rate	17.6	% 19.8	% 16.6	% 20.0

(a) See Note 9 for a discussion of the Company's unconsolidated subsidiaries, including summarized financial information.

The decrease in the effective income tax rate is primarily due to a shift in the mix of taxable income to entities with lower estimated effective income tax rates. See further information regarding the consolidated effective income tax rate in Note 12 of the unaudited condensed consolidated financial statements.

Second Quarter of 2013 Compared with Second Quarter of 2012

The following table identifies the components of change in revenues for the second quarter of 2013 compared with the second quarter of 2012:

	Revenues
2012	\$19,199
Increase from:	
Reed Minerals	20,535
Royalty and other income	5,125
Other consolidated mining operations	(1,292)
2013	\$43,567

Revenues increased to \$43.6 million for the second quarter of 2013 from \$19.2 million in the second quarter of 2012 primarily due to the Reed Minerals acquisition and an increase in royalty and other income. The decrease in other consolidated mining operations was primarily due to decreased deliveries at MLMC due to an extended shutdown at the customer's power plant partially offset by increased deliveries at the limerock dragline operations.

Table of Contents

The following table identifies the components of change in operating profit for the second quarter of 2013 compared with the second quarter of 2012:

	Operating Profit
2012	\$9,152
Increase (decrease) from:	
Royalty and other income	5,495
Other selling, general and administrative expenses	384
Other consolidated mining operations	147
Gain on sale of asset	(2,323)
Reed Minerals	(1,361)
Earnings of unconsolidated mines	(298)
2013	\$11,196

Operating profit increased to \$11.2 million in the second quarter of 2013 from \$9.2 million in the second quarter of 2012. Higher royalty and other income was partially offset by the absence of a gain on the sale of assets recorded in the second quarter of 2012 and an operating loss at the Reed Minerals operations. The operating loss at Reed Minerals was due to lower sales resulting from lower demand for metallurgical coal and higher mining costs due to unexpected major equipment repairs and operational productivity which, while improving, has not yet reached expected levels. Net income increased to \$9.0 million in the second quarter of 2013 from \$7.1 million in the second quarter of 2012 primarily due to the factors affecting operating profit and the benefit of a shift in the mix of taxable income towards entities with lower estimated effective income tax rates.

First Six Months of 2013 Compared with First Six Months of 2012

The following table identifies the components of change in revenues for the first six months of 2013 compared with the first six months of 2012:

	Revenues
2012	\$43,533
Increase from:	
Reed Minerals	37,200
Royalty and other income	7,210
Consolidated mining operations	6,771
2013	\$94,714

Revenues for the first six months of 2013 increased to \$94.7 million from \$43.5 million in the first six months of 2012 due to the Reed Minerals acquisition, an increase in royalty and other income and higher revenues at the consolidated mining operations. The increase at the consolidated mining operations was primarily the result of increased customer requirements at the limerock dragline mining operations and an increase in tons delivered at MLMC as a result of improvements at a customer's power plant in the first six months of 2013 compared with 2012.

Table of Contents

The following table identifies the components of change in operating profit for the first six months of 2013 compared with the first six months of 2012:

	Operating Profit
2012	\$21,080
Increase (decrease) in 2012 from:	
Royalty and other income	7,991
Other consolidated mining operations	436
Reed Minerals	(3,098)
Gain on sale of asset	(2,632)
Other selling, general and administrative expenses	(590)
Earnings of unconsolidated mines	(206)
2013	\$22,981

Operating profit increased to \$23.0 million in the first six months of 2013 from \$21.1 million in the first six months of 2012, primarily as a result of higher royalty and other income partially offset by an operating loss at the Reed Minerals operations and the absence of a gain on the sale of assets recorded in the first six months of 2012. The operating loss at Reed Minerals was due to sales which were below expectations as a result of inclement weather that led to operational mining delays and lower demand for metallurgical coal as well as higher mining costs due to unexpected major equipment repairs and operational productivity which, while improving, has not yet reached expected levels.

Net income increased to \$18.5 million in the first six months of 2013 from \$16.3 million in the first six months of 2012 primarily due to the factors affecting operating profit and the benefit of a shift in the mix of taxable income towards entities with lower estimated effective income tax rates.

LIQUIDITY AND CAPITAL RESOURCES**Cash Flows**

The following tables detail the changes in cash flow for the six months ended June 30:

	2013	2012	Change
Operating activities:			
Net income	\$18,543	\$16,337	\$2,206
Depreciation, depletion and amortization	7,475	3,998	3,477
Other	(15,584)	2,616	(18,200)
Working capital changes	2,329	(6,117)	8,446
Net cash provided by operating activities	12,763	16,834	(4,071)
Investing activities:			
Expenditures for property, plant and equipment	(11,522)	(30,369)	18,847
Proceeds from the sale of assets	1,235	23,482	(22,247)
Other	(213)	14,349	(14,562)
Net cash provided by (used for) investing activities	(10,500)	7,462	(17,962)
Cash flow before financing activities	\$2,263	\$24,296	\$(22,033)

The decrease in net cash provided by operating activities was primarily the result of the decrease in other operating activities partially offset by favorable working capital changes, higher depreciation, depletion and amortization and

the increase in net income during the first six months of 2013 compared with the first six months of 2012. The change in other operating activities and working capital were primarily the result of changes in intercompany taxes and accounts receivable from the unconsolidated mines. The increase in depreciation, depletion and amortization was primarily a result of the Reed Minerals acquisition.

Table of Contents

The change in net cash provided by (used for) investing activities was primarily attributable to transactions in the first six months of 2012 that did not recur in the first six months of 2013. In the first six months of 2012, NACoal received proceeds from the sale of a dragline and the collection of a long-term note related to the prior sale of a dragline that were partially offset by an increase in expenditures for property, plant and equipment including the purchase of two draglines in the first six months of 2012.

	2013	2012	Change
Financing activities:			
Net additions (reductions) of long-term debt and revolving credit agreements	\$(6,496)	\$12,772	\$(19,268)
Cash dividends paid to NACCO	—	(20,192)	20,192
Net cash used for financing activities	\$(6,496)	\$(7,420)	\$924

The decrease in net cash used for financing activities during the first six months of 2013 compared with the first six months of 2012 was due to the absence of dividends paid to NACCO in the first six months of 2013 and repayments under the revolving credit agreement during the first six months of 2013 compared with borrowings in the 2012 period.

Financing Activities

NACoal has an unsecured revolving line of credit (the “NACoal Facility”) of up to \$150.0 million that expires in December 2016. Borrowings outstanding under the NACoal Facility were \$102.0 million at June 30, 2013. The excess availability under the NACoal Facility was \$46.9 million at June 30, 2013, which reflects a reduction for outstanding letters of credit of \$1.1 million.

The NACoal Facility has performance-based pricing, which sets interest rates based upon achieving various levels of debt to EBITDA ratios of NACoal, as defined in the NACoal Facility. Borrowings bear interest at a floating rate plus a margin based on the level of debt to EBITDA ratio achieved, as defined in the NACoal Facility. The applicable margins, effective June 30, 2013, for base rate and LIBOR loans were 0.75% and 1.75%, respectively. The NACoal Facility has a commitment fee which is based upon achieving various levels of debt to EBITDA ratios. The commitment fee was 0.35% on the unused commitment at June 30, 2013. The floating rate of interest applicable to the NACoal Facility at June 30, 2013 was 1.92% including the floating rate margin.

The NACoal Facility also contains restrictive covenants that require, among other things, NACoal to maintain certain debt to EBITDA and interest coverage ratios, and provides the ability to make loans, dividends and advances to NACCO, with some restrictions based on maintaining a maximum debt to EBITDA ratio of 3.0 to 1.0 in conjunction with maintaining unused availability thresholds of borrowing capacity under a minimum interest coverage ratio, as defined in the NACoal Facility, of 4.0 to 1.0. The current level of availability required to pay dividends is \$15 million. At June 30, 2013, NACoal was in compliance with the financial covenants in the NACoal Facility.

During 2004 and 2005, NACoal issued unsecured notes totaling \$45.0 million in a private placement (the “NACoal Notes”), which require annual principal payments of approximately \$6.4 million that began in October 2008 and will continue until October 4, 2014. These unsecured notes bear interest at a weighted-average fixed rate of 6.08%, payable semi-annually on April 4 and October 4. The NACoal Notes are redeemable at any time at the option of NACoal, in whole or in part, at an amount equal to par plus accrued and unpaid interest plus a “make-whole premium,” if applicable. NACoal had \$12.9 million of the private placement notes outstanding at June 30, 2013. The NACoal Notes contain certain covenants and restrictions that require, among other things, NACoal to maintain certain net worth, leverage and interest coverage ratios, and limit dividends to NACCO based upon maintaining a maximum debt to EBITDA ratio of 3.5 to 1.0. At June 30, 2013, NACoal was in compliance with the financial covenants in the NACoal Notes.

NACoal has a demand note payable to Coteau which bears interest based on the applicable quarterly federal short-term interest rate as announced from time to time by the Internal Revenue Service. At June 30, 2013, the balance of the note was \$5.2 million and the interest rate was 0.22%.

NACoal believes funds available from cash on hand at NACoal and the Company, the NACoal Facility and operating cash flows will provide sufficient liquidity to meet its operating needs and commitments arising during the next twelve months and until the expiration of the NACoal Facility in December 2016.

Table of Contents

Contractual Obligations, Contingent Liabilities and Commitments

Since December 31, 2012, there have been no significant changes in the total amount of NACoal's contractual obligations, contingent liabilities or commercial commitments, or the timing of cash flows in accordance with those obligations as reported on page 41 in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Capital Expenditures

Expenditures for property, plant and equipment were \$11.5 million during the first six months of 2013. NACoal estimates that its capital expenditures for the remainder of 2013 will be an additional \$31.1 million, primarily for dragline refurbishment, mine equipment and development at its mines. These expenditures are expected to be funded from internally generated funds and bank borrowings.

Capital Structure

NACoal's capital structure is presented below:

	JUNE 30 2013	DECEMBER 31 2012	Change
Cash and cash equivalents	\$26	\$ 4,259	\$(4,233)
Other net tangible assets	187,090	166,265	20,825
Goodwill, coal supply agreements and other intangibles, net	65,666	69,752	(4,086)
Net assets	252,782	240,276	12,506
Total debt	(131,525)	(138,021)	6,496
Total equity	\$121,257	\$ 102,255	\$19,002
Debt to total capitalization	52%	57%	(5)%

The increase in other net tangible assets during the first six months of 2013 was primarily due to an increase in inventory and a decrease in taxes payable. The increase in inventory was attributable to a decrease in tons delivered at MLMC in the second quarter of 2013 as a result of an extended outage at a customer's power plant and an increase in inventory at Reed Minerals as sales in the first six months of 2013 were below expectations.

Total debt decreased \$6.5 million due to payments made on the NACoal Facility during the first six months of 2013.

OUTLOOK

Steam coal tons delivered in the last half of 2013 are expected to increase over the same period in 2012 at the unconsolidated mining operations provided customers achieve currently planned power plant operating levels for the remainder of 2013. Demery's Five Forks Mine commenced delivering coal to its customer in 2012 and is expected to increase production in 2013, with full production levels expected to be reached in late 2015 or in 2016. Liberty also commenced production in 2013 and is expected to reach full production levels of approximately 4.5 million tons of lignite coal annually for Mississippi Power Company's new Kemper County Energy Facility in late 2014.

At the consolidated mining operations, deliveries at MLMC are expected to be slightly lower in the second half of 2013 than in the latter half of 2012. Deliveries at MLMC are expected to increase longer-term as a result of recently implemented and anticipated operational improvements at the customer's power plant. Metallurgical coal sales for Reed Minerals in the second half of 2013 are expected to be slightly higher than the first half of 2013 but below the company's initial expectations as a result of volume expectations for the metallurgical coal market. Overall operating results are expected to be comparable to the first half of 2013 as a result of these volume expectations and operating costs which are not yet at the levels expected in future years. Post-acquisition productivity improvements are being

made to increase mining efficiencies. Substantial improvements are expected in 2014 once a new, large dragline is in operation. Also, limerock deliveries for the second half of 2013 are expected to decrease compared with deliveries in the last half of 2012 as customer requirements are expected to decline moderately. Royalty and other income in the remainder of 2013 is also expected to be lower than the same period in 2012.

Unconsolidated mines currently in development are expected to continue to generate modest income in the remainder of 2013. The three mines in development are not expected to be at full production for several years. In the first quarter of 2013, mining permits needed to commence mining operations in Texas were issued for the Caddo Creek project and the Camino Real project. Caddo Creek expects to begin making initial coal deliveries in 2014. Camino Real expects initial deliveries in the latter half of

Table of Contents

2014, and expects to mine approximately 3.0 million tons of coal annually when at full production. Coyote Creek is developing a lignite mine in Mercer County, North Dakota, from which it expects to deliver approximately 2.5 million tons of coal annually beginning in May 2016.

NACoal also has new project opportunities for which it expects to continue to incur additional expenses in 2013. In particular, the company continues to move forward to obtain a permit for its Otter Creek reserve in North Dakota in preparation for the anticipated construction of a new mine.

Overall, NACoal expects net income in the second half of 2013 to decline from the same period in 2012 primarily due to the absence of pre-tax gains from asset sales of approximately \$4.5 million recognized during the last half of 2012. Excluding the effect of the asset sales, operating results are expected to be down slightly compared with 2012. Cash flow before financing activities for 2013 is expected to be higher than 2012, but not at the levels of 2011, due to anticipated increases in capital expenditures at MLMC and at the Reed Minerals operations. The capital expenditures associated with the Reed Minerals operations were designed as part of the Reed Minerals acquisition plan to improve mining efficiencies by reducing costs and increasing production capacity.

Over the longer term, NACoal's goal is to increase earnings of unconsolidated mines by approximately 50% over the next five years through the development and ongoing maturation of its new mines and normal escalation of contractual compensation at its existing mines. At the consolidated mines, NACoal has a goal of at least doubling the contribution from consolidated mining operations as MLMC benefits from recently implemented and anticipated operational improvements at its customer's power plant and as the company executes its long-term plan at the Reed Minerals operations. NACoal also expects to continue its efforts to develop new mining projects. NACoal is actively pursuing domestic opportunities for new or expanded coal mining projects, which include prospects for power generation, coal-to-liquids, coal-to-chemicals, coal gasification, coal drying and other clean coal technologies. Also, NACoal views its acquisition of Reed Minerals as the first step in a metallurgical coal strategic initiative which includes coal exports. NACoal also continues to pursue additional non-coal mining opportunities, principally in aggregates, and international value-added mining services projects, particularly in India.

HAMILTON BEACH BRANDS, INC.

HBB is a leading designer, marketer and distributor of small electric household appliances, as well as commercial products for restaurants, bars and hotels. HBB's products are marketed primarily to retail merchants and wholesale distributors. HBB's business is seasonal, and a majority of its revenues and operating profit typically occurs in the second half of the year when sales of small electric appliances to retailers and consumers increase significantly for the fall holiday-selling season.

FINANCIAL REVIEW

The results of operations for HBB were as follows for the three and six months ended June 30:

	THREE MONTHS		SIX MONTHS	
	2013	2012	2013	2012
Revenues	\$114,651	\$110,676	\$220,802	\$215,616
Operating profit	\$4,005	\$5,048	\$6,673	\$7,199
Interest expense	\$440	\$682	\$909	\$1,561
Other (income) expense	\$425	\$818	\$242	\$415
Net income	\$1,985	\$2,214	\$3,486	\$3,241
Effective income tax rate	36.8	% 37.6	% 36.9	% 37.9

Table of Contents

Second Quarter of 2013 Compared with Second Quarter of 2012

The following table identifies the components of change in revenues for the second quarter of 2013 compared with the second quarter of 2012:

	Revenues
2012	\$110,676
Increase (decrease) from:	
Unit volume and product mix	4,177
Foreign currency	482
Average sales price	(684)
2013	\$114,651

Revenues for the second quarter of 2013 increased to \$114.7 million from \$110.7 million in the second quarter of 2012 primarily as a result of an increase in sales of products with higher price points, mainly in the U.S. consumer market. The improvement in revenue was partially offset by lower unit sales volumes in the Canadian and international consumer markets.

The following table identifies the components of change in operating profit for the second quarter of 2013 compared with the second quarter of 2012:

	Operating Profit
2012	\$5,048
Increase (decrease) from:	
Environmental charge	(2,254)
Other selling, general and administrative expenses	(2,054)
Gross profit	2,997
Foreign currency	268
2013	\$4,005

HBB's operating profit decreased to \$4.0 million in the second quarter of 2013 from \$5.0 million in the second quarter of 2012 primarily due to a \$2.3 million charge to establish a liability for environmental investigation and remediation activities at HBB's Picton, Ontario facility, and increased other selling, general and administrative expenses, partially offset by higher gross profit. The increase in other selling, general and administrative expenses was mainly due to higher employee-related costs, an increase in advertising expenses and additional costs incurred to execute HBB's five strategic initiatives. The increase in gross profit was mainly attributable to a shift in sales mix to higher-margin products and a \$0.9 million favorable product liability adjustment, primarily as a result of a change in estimate.

HBB recognized net income of \$2.0 million in the second quarter of 2013 compared with \$2.2 million in the second quarter of 2012 primarily due to the factors affecting operating profit and lower interest expense. The decrease in interest expense was due to lower levels of borrowings during the second quarter of 2013 compared with the second quarter of 2012 and the write-off of deferred financing fees in the second quarter of 2012 related to the HBB term loan that was repaid in that period.

First Six Months of 2013 Compared with First Six Months of 2012

The following table identifies the components of change in revenues for the first six months of 2013 compared with the first six months of 2012:

	Revenues
2012	\$215,616

Increase (decrease) in 2012 from:

Unit volume and product mix

5,747

Foreign currency

624

Average sales price

(1,185)

2013

\$220,802

27

Table of Contents

Revenues increased to \$220.8 million in the first six months of 2013 compared with \$215.6 million in the first six months of 2012 primarily due to an increase in sales volumes, mainly in the U.S. consumer market, partially offset by decreases in the international and Canadian consumer markets. The increase was partially offset by lower prices on comparable products sold.

The following table identifies the components of change in operating profit for the first six months of 2013 compared with the first six months of 2012:

	Operating Profit
2012	\$7,199
Increase (decrease) in 2012 from:	
Other selling, general and administrative expenses	(2,704)
Environmental charge	(2,254)
Gross profit	3,593
Foreign currency	839
2013	\$6,673

HBB's operating profit decreased to \$6.7 million in the first six months of 2013 compared with \$7.2 million in the first six months of 2012. Operating profit decreased primarily as a result of an increase in other selling, general and administrative expenses, mainly due to higher employee-related costs and increased advertising in the first six months of 2013 compared with the first six months of 2012, and a \$2.3 million charge to establish a liability for environmental investigation and remediation activities at HBB's Picton, Ontario facility. These items were partially offset by higher gross profit primarily attributable to a shift in sales mix to higher-margin products in the first six months of 2013 compared with the first six months of 2012 and a \$0.9 million favorable product liability adjustment, primarily as a result of a change in estimate in the first six months of 2013.

HBB recognized net income of \$3.5 million in the first six months of 2013 compared with \$3.2 million in the first six months of 2012 primarily due to the factors affecting operating profit and lower interest expense due to lower levels of borrowings during the first six months of 2013 compared with the first six months of 2012.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

The following tables detail the changes in cash flow for the six months ended June 30:

	2013	2012	Change
Operating activities:			
Net income	\$3,486	\$3,241	\$245
Depreciation and amortization	1,107	1,141	(34)
Other	271	3,317	(3,046)
Working capital changes	16,743	11,719	5,024
Net cash provided by operating activities	21,607	19,418	2,189
Investing activities:			
Expenditures for property, plant and equipment	(735)	(1,281)	546
Proceeds from the sale of assets	8	—	8
Net cash used for investing activities	(727)	(1,281)	554

Edgar Filing: NACCO INDUSTRIES INC - Form 10-Q

Cash flow before financing activities	\$20,880	\$18,137	\$2,743
---------------------------------------	----------	----------	---------

Net cash provided by operating activities increased \$2.2 million in the first six months of 2013 compared with the first six months of 2012 primarily due to the change in working capital partially offset by the change in other operating activities. The change in working capital was mainly the result of changes in accounts payable, inventory and accounts receivable. In the first six months of 2013, inventory decreased compared with an increase in the first six months of 2012 primarily attributable to higher inventory levels at the end of the 2012 holiday-selling season compared with the prior year. A larger decrease in accounts receivable in the first six months of 2013 compared with the comparable 2012 period occurred primarily from higher

Table of Contents

sales volumes during the 2012 holiday-selling season compared with the prior year. The change in inventory and accounts receivable was partially offset by a decrease in accounts payable in the first six months of 2013 compared with an increase in the first six months of 2012 as a result of the changes in inventory. The decrease in other operating activities was primarily due to a change in deferred income taxes and an increase in a derivative asset.

	2013	2012	Change
Financing activities:			
Reductions to long-term debt and revolving credit agreements	\$(19,452)	\$(12,807)	\$(6,645)
Cash dividends paid to NACCO	—	(10,000)	10,000
Financing fees paid	—	(1,207)	1,207
Net cash used for financing activities	\$(19,452)	\$(24,014)	\$4,562

The decrease in net cash used for financing activities was the result of the absence of dividends paid to NACCO in the first six months of 2013, partially offset by an increase in payments made on the HBB revolver in the first six months of 2013 compared with the first six months of 2012.

Financing Activities

HBB has a \$115.0 million senior secured floating-rate revolving credit facility that expires in July 2017 (the “HBB Facility”). The obligations under the HBB Facility are secured by substantially all of HBB's assets. The approximate book value of HBB's assets held as collateral under the HBB Facility was \$180.6 million as of June 30, 2013.

The maximum availability under the HBB Facility is governed by a borrowing base derived from advance rates against eligible accounts receivable, inventory and trademarks of the borrowers, as defined in the HBB Facility. Adjustments to reserves booked against these assets, including inventory reserves, will change the eligible borrowing base and thereby impact the liquidity provided by the HBB Facility. A portion of the availability is denominated in Canadian dollars to provide funding to HBB's Canadian subsidiary. Borrowings bear interest at a floating rate, which can be a base rate or LIBOR, as defined in the HBB Facility, plus an applicable margin. The applicable margins, effective June 30, 2013, for base rate loans and LIBOR loans denominated in U.S. dollars were 0.00% and 1.50%, respectively. The applicable margins, effective June 30, 2013, for base rate loans and bankers' acceptance loans denominated in Canadian dollars were 0.00% and 1.50%, respectively. The HBB Facility also requires a fee of 0.375% per annum on the unused commitment. The margins and unused commitment fee under the HBB Facility are subject to quarterly adjustment based on average excess availability and average usage, respectively.

At June 30, 2013, the borrowing base under the HBB Facility was \$93.1 million. Borrowings outstanding under the HBB Facility were \$20.2 million at June 30, 2013 and the excess availability under the HBB Facility was \$72.9 million. The floating rate of interest applicable to the HBB Facility at June 30, 2013 was 1.8% including the floating rate margin.

The HBB Facility includes restrictive covenants, which, among other things, limit the payment of dividends to NACCO, subject to achieving availability thresholds. Dividends are limited to the greater of \$20.0 million or excess cash flow from the most recently ended fiscal year in each of the two twelve-month periods following the closing date of the HBB Facility, so long as HBB has excess availability under the HBB Facility of not less than \$25.0 million and maintains a minimum fixed charge coverage ratio of 1.0 to 1.0, as defined in the HBB Facility; and in such amounts as determined by HBB subsequent to the second anniversary of the closing date of the HBB Facility, so long as HBB has excess availability under the HBB Facility of not less than \$25.0 million. The HBB Facility also requires HBB to achieve a minimum fixed charge coverage ratio in certain circumstances, as defined in the HBB Facility. At June 30, 2013, HBB was in compliance with the financial covenants in the HBB Facility.

HBB believes funds available from cash on hand at HBB and the Company, the HBB Facility and operating cash flows will provide sufficient liquidity to meet its operating needs and commitments arising during the next twelve months and until the expiration of the HBB Facility in July 2017.

Contractual Obligations, Contingent Liabilities and Commitments

Since December 31, 2012, there have been no significant changes in the total amount of HBB's contractual obligations, contingent liabilities or commercial commitments, or the timing of cash flows in accordance with those obligations as reported on page 47 in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Table of Contents

Capital Expenditures

Expenditures for property, plant and equipment were \$0.7 million for the first six months of 2013 and are estimated to be an additional \$3.3 million for the remainder of 2013. These planned capital expenditures are primarily for tooling for new products. These expenditures are expected to be funded from internally generated funds.

Capital Structure

Working capital is significantly affected by the seasonality of HBB's business. The following is a discussion of the changes in HBB's capital structure at June 30, 2013 compared with both June 30, 2012 and December 31, 2012.

June 30, 2013 Compared with June 30, 2012

	JUNE 30 2013	JUNE 30 2012	Change
Cash and cash equivalents	\$4,216	\$3,506	\$710
Other net tangible assets	63,749	67,073	(3,324)
Net assets	67,965	70,579	(2,614)
Total debt	(20,223)	(41,389)	21,166
Total equity	\$47,742	\$29,190	\$18,552
Debt to total capitalization	30 %	59 %	(29)%

Other net tangible assets decreased \$3.3 million from June 30, 2012 primarily due to a decrease in inventory, partially offset by an increase in accounts receivable and a decrease in accounts payable. The reduction in inventory and higher accounts receivable were driven by higher sales in the second quarter of 2013 compared with the second quarter of 2012. Accounts payable declined primarily due to the decrease in inventory.

Total debt decreased \$21.2 million due to payments made since June 30, 2012.

Total equity increased \$18.6 million primarily due to HBB's net income of \$21.5 million for the twelve months ended June 30, 2013 partially offset by \$5.0 million of dividends paid to NACCO during the twelve months ended June 30, 2013.

June 30, 2013 Compared with December 31, 2012

	JUNE 30 2013	DECEMBER 31 2012	Change
Cash and cash equivalents	\$4,216	\$2,784	\$1,432
Other net tangible assets	63,749	80,003	(16,254)
Net assets	67,965	82,787	(14,822)
Total debt	(20,223)	(39,676)	19,453
Total equity	\$47,742	\$43,111	\$4,631
Debt to total capitalization	30 %	48 %	(18)%

Other net tangible assets decreased \$16.3 million from December 31, 2012 primarily due to lower levels of accounts receivable mainly as a result of the seasonality of the business and lower inventory levels partially offset by lower accounts payable.

Total debt decreased \$19.5 million due to payments made during the first six months of 2013.

OUTLOOK

HBB's target consumer, the middle-market mass consumer, continues to struggle with financial and economic concerns. As a result, sales volumes in the middle-market portion of the U.S. small kitchen appliance market in which HBB participates are projected to grow only moderately in the second half of 2013 compared with the second half of 2012. International and commercial product markets are expected to grow reasonably in the second half of 2013 compared with the same period in 2012.

Table of Contents

HBB continues to focus on strengthening its North American consumer market position through product innovation, promotions, increased placements and branding programs, together with appropriate levels of advertising for the company's highly successful and innovative product lines. HBB expects The Scoop®, the Two-Way Brewer and the Durathon™ iron product line, all introduced in late 2011, as well as the FlexBrew™ launched in late 2012, to continue to gain market position as broader distribution is attained over time. HBB is continuing to introduce innovative products in several small appliance categories. In the first quarter of 2013, HBB launched the Hamilton Beach® Breakfast Sandwich Maker, which provides an innovative and convenient way for consumers to cook breakfast sandwiches quickly at home. These products, as well as other new product introductions in the pipeline for 2013, are expected to increase both revenues and operating profit. As a result of these new products and execution of HBB's strategic initiatives, HBB expects to increase volumes and revenues in the second half of 2013 compared with the same period in 2012.

Overall, HBB expects net income in the second half of 2013 to be comparable to or up slightly from the second half of 2012 as anticipated increases in operating profit from increased revenues are forecasted to offset expected increases in operating expenses to support HBB's strategic initiatives and promotional programs. Product and transportation costs in the second half of 2013 are currently expected to be comparable with the same period in 2012. HBB continues to monitor commodity costs closely and intends to adjust product prices and product placements, as appropriate, if these costs increase more than anticipated. HBB expects cash flow before financing activities for the 2013 full year to be moderately lower than in 2012 due to increased working capital.

Longer term, HBB will work to take advantage of the potential to improve return on sales through economies of scale derived from market growth and a focus on its five strategic growth initiatives: (1) enhancing its placements in the North America consumer business through consumer-driven innovative products and strong sales and marketing support, (2) enhancing internet sales by providing best in class retailer support and increased consumer content and engagement, (3) achieving further penetration of the global Commercial market through a commitment to an enhanced global product line for chains and distributors serving the global food service and hospitality markets, (4) expanding internationally in the emerging Asian and Latin American markets by increasing product offerings in these markets, increasing focus on offering products designed specifically for those market needs and expanding distribution channels and sales and marketing capabilities and (5) entering the "only the best" market with a strong brand and broad product line. During the first half of 2013, HBB continued to make strides in the execution of its strategic initiatives and expects to continue to do so over the remainder of 2013.

THE KITCHEN COLLECTION, LLC

KC is a national specialty retailer of kitchenware and gourmet foods operating under the Kitchen Collection® and Le Gourmet Chef® ("LGC") store names in outlet and traditional malls throughout the United States. KC's business is seasonal, and a majority of its revenues and operating profit typically occurs in the second half of the year when sales of kitchenware to consumers increase significantly for the fall holiday-selling season.

FINANCIAL REVIEW

The results of operations for KC were as follows for the three and six months ended June 30:

	THREE MONTHS		SIX MONTHS	
	2013	2012	2013	2012
Revenues	\$38,380	\$42,340	\$78,091	\$87,633
Operating loss	\$(5,407)	\$(5,163)	\$(10,387)	\$(9,741)
Interest expense	\$79	\$130	\$130	\$211
Other (income) expense	\$19	\$22	\$42	\$58
Net loss	\$(2,403)	\$(3,189)	\$(5,670)	\$(6,006)

Effective income tax rate	56.3	%	40.0	%	46.3	%	40.0	%
---------------------------	------	---	------	---	------	---	------	---

Table of Contents

Second Quarter of 2013 Compared with Second Quarter of 2012

The following table identifies the components of change in revenues for the second quarter of 2013 compared with the second quarter of 2012:

	Revenues
2012	\$42,340
Increase (decrease) from:	
Closed stores	(3,816)
KC comparable store sales	(1,152)
LGC comparable store sales	(315)
Other	(25)
New store sales	1,348
2013	\$38,380

Revenues for the second quarter of 2013 decreased to \$38.4 million from \$42.3 million in the second quarter of 2012. The decrease was primarily a result of the effect of closing unprofitable KC and LGC stores since June 30, 2012 and a decline in both KC and LGC comparable store sales. The decrease in comparable store sales was mainly due to fewer customer visits and a reduction in store transactions at both store formats partially offset by a higher average sale transaction value in the second quarter of 2013 compared with the second quarter of 2012. These decreases were partially offset by sales at newly opened KC stores.

At June 30, 2013, KC operated 254 stores compared with 265 stores at June 30, 2012 and 261 stores at December 31, 2012. At June 30, 2013, LGC operated 41 stores compared with 55 stores at June 30, 2012 and 51 stores at December 31, 2012.

The following table identifies the components of change in operating loss for the second quarter of 2013 compared with the second quarter of 2012:

	Operating Loss
2012	\$(5,163)
(Increase) decrease from:	
KC comparable stores	(1,146)
New stores	(177)
LGC comparable stores	(17)
Closed stores	696
Selling, general and administrative expenses	400
2013	\$(5,407)

KC recognized an operating loss of \$5.4 million in the second quarter of 2013 compared with an operating loss of \$5.2 million in the second quarter of 2012. The increase in the operating loss was primarily due to reduced sales and a shift in mix to lower-margin products at KC comparable stores, partially offset by the favorable effect of closing unprofitable KC and LGC stores during the past twelve months and lower SG&A expenses primarily due to decreased employee-related expenses.

KC reported a net loss of \$2.4 million in the second quarter of 2013 compared with a net loss of \$3.2 million in the second quarter of 2012 primarily due to a higher separate company effective tax rate in 2013 which generated a greater tax benefit on the loss from operations.

Table of Contents

First Six Months of 2013 Compared with First Six Months of 2012

The following table identifies the components of change in revenues for the first six months of 2013 compared with the first six months of 2012:

	Revenues
2012	\$87,633
Increase (decrease) from:	
Closed stores	(7,098)
KC comparable store sales	(3,936)
LGC comparable store sales	(1,250)
Other	(50)
New store sales	2,792
2013	\$78,091

Revenues decreased to \$78.1 million for the first six months of 2013 from \$87.6 million in the first six months of 2012. The decrease was primarily the result of closing unprofitable KC and LGC stores since June 30, 2012 and a decline in comparable stores sales at KC and LGC. The decrease in comparable store sales was primarily attributable to a decrease in store transactions at both store formats and fewer customer visits, partially offset by a higher average sale transaction value at both KC and LGC stores. These decreases were partially offset by sales at newly opened KC stores.

The following table identifies the components of change in operating loss for the first six months of 2013 compared with the first six months of 2012:

	Operating Loss
2012	\$(9,741)
(Increase) decrease from:	
KC comparable stores	(2,007)
New stores	(229)
Closed stores	781
Selling, general and administrative expenses	510
LGC comparable stores	299
2013	\$(10,387)

KC recognized an operating loss of \$10.4 million in the first six months of 2013 compared with an operating loss of \$9.7 million in the first six months of 2012. The increase in the operating loss was primarily the result of reduced sales and a shift in mix to lower-margin products at the KC comparable stores, partially offset by the favorable effect of closing unprofitable KC and LGC stores during the past twelve months and lower selling, general and administrative expenses primarily from a decrease in employee-related expenses.

KC reported a net loss of \$5.7 million in the first six months of 2013 and \$6.0 million in the first six months of 2012 primarily due to the factors affecting the operating loss and a higher separate company effective tax rate in 2013 which generated a greater tax benefit on the loss from operations.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

The following tables detail the changes in cash flow for the six months ended June 30:

	2013		2012		Change
Operating activities:					
Net loss	\$(5,670)	\$(6,006)	\$336
Depreciation and amortization	1,457		1,413		44
Other	122		94		28
Working capital changes	(17,343)	(18,641)	1,298
Net cash used for operating activities	(21,434)	(23,140)	1,706
Investing activities:					
Expenditures for property, plant and equipment	(1,342)	(2,536)	1,194
Proceeds from the sale of assets	31		17		14
Net cash used for investing activities	(1,311)	(2,519)	1,208
Cash flow before financing activities	\$(22,745)	\$(25,659)	\$2,914

Net cash used for operating activities decreased \$1.7 million in the first six months of 2013 compared with the first six months of 2012 primarily from the change in working capital. The change in working capital was mainly the result of a larger decrease in inventory in the first six months of 2013 compared with the first six months of 2012.

Expenditures for property, plant and equipment decreased primarily due to the reduction of new KC stores opened during the first six months of 2013 compared with first six months of 2012 and the remodeling of a number of KC stores during the first six months of 2012.

	2013		2012		Change
Financing activities:					
Net additions to revolving credit agreement	\$12,172		\$14,944		\$(2,772)
Financing fees paid	—		(15)	15
Other	(2)	—		(2)
Net cash provided by financing activities	\$12,170		\$14,929		\$(2,759)

Net cash provided by financing activities decreased \$2.8 million in the first six months of 2013 compared with the first six months of 2012 as a result of lower levels of borrowings to support operations.

Financing Activities

KC has a \$30.0 million secured revolving line of credit that expires in August 2017 (the “KC Facility”). The obligations under the KC Facility are secured by substantially all of the assets of KC. The approximate book value of KC's assets collateralized under the KC Facility was \$63.8 million as of June 30, 2013.

The maximum availability under the KC Facility is derived from a borrowing base formula using KC's eligible inventory and eligible credit card accounts receivable, as defined in the KC Facility. Borrowings bear interest at a floating rate plus a margin based on the excess availability under the agreement, as defined in the KC Facility, which can be either a base rate plus a margin of 1.00% or LIBOR plus a margin of 2.00% as of June 30, 2013. The KC Facility also requires a commitment fee of 0.375% per annum on the unused commitment.

At June 30, 2013, the borrowing base under the KC Facility was \$27.0 million. Borrowings outstanding under the KC Facility were \$12.2 million at June 30, 2013. Therefore, at June 30, 2013, the excess availability under the KC Facility was \$14.8 million. The floating rate of interest applicable to the KC Facility at June 30, 2013 was 2.39%, including the floating rate margin.

Table of Contents

The KC Facility allows for the payment of dividends to NACCO, subject to certain restrictions based on availability and meeting a fixed charge coverage ratio as described in the KC Facility. Dividends are limited to (i) \$6.0 million in any twelve-month period, so long as KC has excess availability, as defined in the KC Facility, of at least \$7.5 million after giving effect to such payment and maintaining a minimum fixed charge coverage ratio of 1.1 to 1.0, as defined in the KC Facility; (ii) \$2.0 million in any twelve-month period, so long as KC has excess availability, as defined in the KC Facility, of at least \$7.5 million after giving effect to such payment and (iii) in such amounts as determined by KC, so long as KC has excess availability under the KC Facility of \$15.0 million after giving effect to such payment.

KC believes funds available from cash on hand at KC and the Company, the KC Facility and operating cash flows will provide sufficient liquidity to meet its operating needs and commitments arising during the next twelve months and until the expiration of the KC Facility in August 2017.

Contractual Obligations, Contingent Liabilities and Commitments

Since December 31, 2012, there have been no significant changes in the total amount of KC's contractual obligations, contingent liabilities or commercial commitments, or the timing of cash flows in accordance with those obligations as reported on page 53 in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Capital Expenditures

Expenditures for property, plant and equipment were \$1.3 million for the first six months of 2013 and are estimated to be an additional \$1.9 million for the remainder of 2013. These planned capital expenditures are primarily for fixtures and equipment at new or existing stores and improvements to KC's information technology infrastructure. These expenditures are expected to be funded from internally generated funds and bank borrowings.

Capital Structure

Working capital is significantly affected by the seasonality of KC's business. The following is a discussion of the changes in KC's capital structure at June 30, 2013 compared with both June 30, 2012 and December 31, 2012.

June 30, 2013 Compared with June 30, 2012

	JUNE 30 2013	JUNE 30 2012	Change
Cash and cash equivalents	\$947	\$1,132	\$(185)
Other net tangible assets	49,211	54,568	(5,357)
Net assets	50,158	55,700	(5,542)
Total debt	(12,172)	(14,964)	2,792
Total equity	\$37,986	\$40,736	\$(2,750)
Debt to total capitalization	24 %	27 %	(3)%

The \$5.4 million change in other net tangible assets at June 30, 2013 compared with June 30, 2012 was mainly due to a reduction in inventory and accounts payable primarily from a decrease in the number of stores open at June 30, 2013 compared with June 30, 2012 and an increase in intercompany taxes receivable from NACCO. Total debt decreased as a result of the reduction in inventory.

Table of Contents

June 30, 2013 Compared with December 31, 2012

	JUNE 30 2013	DECEMBER 31 2012	Change
Cash and cash equivalents	\$947	\$ 11,522	\$(10,575)
Other net tangible assets	49,211	32,134	17,077
Net assets	50,158	43,656	6,502
Total debt	(12,172)	—	(12,172)
Total equity	\$37,986	\$ 43,656	\$(5,670)
Debt to total capitalization	24	% (a)	(a)

(a)Debt to total capitalization is not meaningful.

Cash and cash equivalents decreased \$10.6 million at June 30, 2013 compared with December 31, 2012. Other net tangible assets increased \$17.1 million at June 30, 2013 compared with December 31, 2012 primarily from a decrease in accounts payable, inventory, sales tax payable, accrued payroll and an increase in intercompany taxes receivable from NACCO due to the seasonality of the business. Total debt increased as a result of the seasonality of the business and the required funding of operations during the first six months of 2013. Total equity decreased as a result of KC's net loss during the first six months of 2013.

OUTLOOK

KC believes the middle market consumer remains under pressure due to financial and economic concerns, and those concerns are expected to continue to dampen consumer sentiment and limit consumer spending levels by KC's target customer in 2013. KC expects to increase the number of Kitchen Collection® stores in the second half of 2013 compared with the first half of the year. However, overall the company expects to continue to have fewer aggregate stores than in 2012, as it expects to close six additional Le Gourmet Chef stores® during the remainder of 2013. As a result, KC expects revenues in the second half of 2013 to decrease compared with the second half of 2012.

Overall, KC expects an increase in net income for the second half of 2013 compared with the second half of 2012, primarily in the fourth quarter. However, these improvements are not expected to completely offset the losses from the first half of the year. As a result, KC expects a moderate loss for the 2013 full year. The net effect of the closing of a number of stores early in 2013 and the anticipated opening of new stores during the second half of 2013 are expected to contribute to improved results over the remainder of 2013 compared with the second half of 2012. Nevertheless, a shift in sales mix from higher-margin gadgets to lower-margin electrics is expected to continue to affect operating margins negatively. KC expects to continue to make improvements in store formats and layouts, and promotional offers and merchandise mix, at both the Kitchen Collection® and Le Gourmet Chef® stores to offset the shift in product mix. KC expects positive cash flow before financing activities in 2013 compared with essentially break even cash flow before financing activities in 2012.

Longer term, KC plans to focus on comparable store sales growth around a sound store portfolio. KC expects to accomplish its goals by enhancing sales volume and profitability through continued refinement of its formats and ongoing review of specific product offerings, merchandise mix, store displays and appearance, while improving inventory efficiency and store inventory controls. The company will also continue to evaluate and, as lease contracts permit, close underperforming and loss-generating stores. KC expects to have closed most underperforming and loss-generating stores by the first quarter of 2014. In the near term, KC expects to concentrate its growth on increasing the number of Kitchen Collection® stores, with store expansion expected to be focused on identifying the best positions in the best outlet malls for Kitchen Collection® stores. KC also expects to explore other growth opportunities in textiles, with limited testing occurring later in 2013, and e-commerce.

NACCO AND OTHER

NACCO and Other includes the parent company operations and Bellaire.

FINANCIAL REVIEW

Operating Results

The results of operations at NACCO and Other were as follows for the three and six months ended June 30:

	THREE MONTHS		SIX MONTHS	
	2013	2012	2013	2012
Revenues	\$—	\$—	\$—	\$—
Operating loss	\$(1,099)	\$(1,480)	\$(3,535)	\$(2,994)
Other (income) expense	\$265	\$856	\$666	\$1,192
Loss from continuing operations, net of tax	\$(1,048)	\$(1,715)	\$(3,051)	\$(3,167)
Net loss	\$(1,048)	\$(2,237)	\$(3,051)	\$(3,689)

Second Quarter of 2013 Compared with Second Quarter of 2012 and First Six Months of 2013 Compared with First Six Months of 2012

NACCO and Other recognized an operating loss of \$1.1 million in the second quarter of 2013 compared with an operating loss of \$1.5 million in the second quarter of 2012. The decrease in the operating loss was primarily the result of a decrease in employee-related expenses and professional fees partially offset by a reduction in management fees charged to subsidiaries during the second quarter of 2013 compared with the second quarter of 2012 as a result of the spin-off of Hyster-Yale.

NACCO and Other recognized an operating loss of \$3.5 million in the first six months of 2013 compared with an operating loss of \$3.0 million in the first six months of 2012. The increase in the operating loss was primarily due to a reduction in management fees charged to the subsidiaries partially offset by a decrease in employee-related expenses during the first six months of 2013 compared with the first six months of 2012, both as a result of the spin-off of Hyster-Yale.

The change in the loss from continuing operations for both the three and six months ended June 30, 2013 compared with the 2012 comparable periods were primarily due to the factors affecting the operating losses.

In connection with the spin-off of Hyster-Yale, NACCO and Other recognized expenses of \$0.8 million, \$0.5 million after-tax, for the three and six months ended June 30, 2012, which are reflected as discontinued operations in the unaudited condensed consolidated financial statements.

Management Fees

The management fees charged to the operating subsidiaries represent an allocation of corporate overhead of the parent company. Management fees are allocated among all subsidiaries based upon the relative size and complexity of each subsidiary. The Company believes the allocation method is consistently applied and reasonable.

Following are the parent company management fees included in each subsidiary's selling, general and administrative expenses for the three and six months ended June 30:

THREE MONTHS		SIX MONTHS	
2013	2012	2013	2012

Edgar Filing: NACCO INDUSTRIES INC - Form 10-Q

NACoal	\$740	\$787	\$1,480	\$1,569
HBB	\$855	\$562	\$1,647	\$1,125
KC	\$63	\$63	\$125	\$125

In addition, the parent company received management fees from Hyster-Yale of \$3.2 million and \$6.5 million for the three and six months ended June 30, 2012, respectively. The parent company no longer receives management fees from Hyster-Yale.

Table of Contents

Hyster-Yale Spin-Off

On September 28, 2012, the Company completed the spin-off of Hyster-Yale, a former wholly owned subsidiary. To complete the spin-off, the Company distributed one share of Hyster-Yale Class A common stock and one share of Hyster-Yale Class B common stock to NACCO stockholders for each share of NACCO Class A common stock or Class B common stock they owned. As a result of the spin-off, the financial position, results of operations and cash flows of Hyster-Yale are reflected as discontinued operations for all periods presented through the date of the spin-off in the unaudited condensed consolidated financial statements.

In connection with the spin-off of Hyster-Yale, the Company and Hyster-Yale entered into a Transition Services Agreement ("TSA"). Under the terms of the TSA, as amended, the Company will obtain various services from Hyster-Yale and provide various services to Hyster-Yale on a transitional basis, as needed, for varying periods after the spin-off. The TSA will end on September 28, 2013. Under the TSA, the Company paid net aggregate fees to Hyster-Yale of \$0.1 million and \$0.3 million in the three and six months ended June 30, 2013, respectively.

Share Repurchase Program

On November 8, 2011, the Company announced that the Company's Board of Directors approved the repurchase of up to \$50 million of the Company's outstanding Class A common stock. The timing and amount of any repurchases will be determined at the discretion of the Company's management based on a number of factors, including the availability of capital, other capital allocation alternatives and market conditions for the Company's Class A common stock. The original authorization for the repurchase program was scheduled to expire on December 31, 2012; however, in November 2012 the Company's Board of Directors approved an extension of the stock repurchase program through December 31, 2013. The share repurchase program does not require the Company to acquire any specific number of shares. It may be modified, suspended, extended or terminated by the Company at any time without prior notice and may be executed through open market purchases, privately negotiated transactions or otherwise. All or part of the repurchases may be implemented under a Rule 10b5-1 trading plan, which would allow repurchases under pre-set terms at times when the Company might otherwise be prevented from doing so. As of June 30, 2013, the Company had repurchased 469,471 shares of Class A common stock for an aggregate purchase price of \$26.8 million under this program.

LIQUIDITY AND CAPITAL RESOURCES

Although NACCO's subsidiaries have entered into substantial borrowing agreements, NACCO has not guaranteed any borrowings of its subsidiaries. The borrowing agreements at NACoal, HBB and KC allow for the payment to NACCO of dividends and advances under certain circumstances. Dividends (to the extent permitted by its subsidiaries' borrowing agreements), advances and management fees from its subsidiaries are the primary sources of cash for NACCO.

The Company believes funds available from cash on hand, its subsidiaries' credit facilities and anticipated funds generated from operations are sufficient to finance all of the subsidiaries scheduled principal repayments, its operating needs and commitments arising during the next twelve months and until the expiration of its subsidiaries' credit facilities.

Contractual Obligations, Contingent Liabilities and Commitments

Since December 31, 2012, there have been no significant changes in the total amount of NACCO and Other contractual obligations, contingent liabilities or commercial commitments, or the timing of cash flows in accordance with those obligations as reported on page 57 in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Table of Contents

Capital Structure

NACCO's consolidated capital structure is presented below:

	JUNE 30 2013	DECEMBER 31 2012	Change
Cash and cash equivalents	\$85,058	\$ 139,855	\$(54,797)
Other net tangible assets	295,898	264,449	31,449
Goodwill, coal supply agreement and other intangibles, net	65,666	69,752	(4,086)
Net assets	446,622	474,056	(27,434)
Total debt	(163,920)	(177,697)	13,777
Bellaire closed mine obligations, net of tax	(14,676)	(15,028)	352
Total equity	\$268,026	\$ 281,331	\$(13,305)
Debt to total capitalization	38%	39%	(1)%

EFFECTS OF FOREIGN CURRENCY

HBB operates internationally and enters into transactions denominated in foreign currencies. As a result, the Company is subject to the variability that arises from exchange rate movements. The effects of foreign currency fluctuations on revenues, operating profit and net income at HBB are addressed in the previous discussions of operating results. See also Item 3, "Quantitative and Qualitative Disclosures About Market Risk," in Part I of this Form 10-Q.

FORWARD-LOOKING STATEMENTS

The statements contained in this Form 10-Q that are not historical facts are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are made subject to certain risks and uncertainties, which could cause actual results to differ materially from those presented. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Such risks and uncertainties with respect to each subsidiary's operations include, without limitation:

NACoal: (1) the successful integration of the Reed Minerals acquisition, (2) changes in the demand for and market prices of metallurgical coal produced at the Reed Minerals operations, (3) changes in tax laws or regulatory requirements, including changes in mining or power plant emission regulations and health, safety or environmental legislation, (4) changes in costs related to geological conditions, repairs and maintenance, new equipment and replacement parts, fuel or other similar items, (5) regulatory actions, changes in mining permit requirements or delays in obtaining mining permits that could affect deliveries to customers, (6) weather conditions, extended power plant outages or other events that would change the level of customers' coal or limerock requirements, which would have an adverse effect on results of operations, (7) weather or equipment problems that could affect deliveries to customers, (8) changes in the power industry that would affect demand for NACoal's reserves, (9) changes in the costs to reclaim current NACoal mining areas, (10) costs to pursue and develop new mining opportunities, (11) legal challenges related to Mississippi Power's Kemper County Energy Facility in Mississippi, (12) changes or termination of a long-term mining contract, or a customer default under a contract and (13) increased competition, including consolidation within the industry.

HBB: (1) changes in the sales prices, product mix or levels of consumer purchases of small electric appliances, (2) changes in consumer retail and credit markets, (3) bankruptcy of or loss of major retail customers or suppliers, (4) changes in costs, including transportation costs, of sourced products, (5) delays in delivery of sourced products, (6) changes in or unavailability of quality or cost effective suppliers, (7) exchange rate fluctuations, changes in the foreign import tariffs and monetary policies and other changes in the regulatory climate in the foreign countries in which HB

buys, operates and/or sells products, (8) product liability, regulatory actions or other litigation, warranty claims or returns of products, (9) customer acceptance of, changes in costs of, or delays in the development of new products, (10) increased competition, including consolidation within the industry and (11) changes mandated by federal, state and other regulation, including health, safety or environmental legislation.

KC: (1) changes in gasoline prices, weather conditions, the level of consumer confidence and disposable income as a result of economic conditions, unemployment rates or other events or conditions that may adversely affect the number of customers visiting Kitchen Collection® and Le Gourmet Chef® stores, (2) changes in the sales prices, product mix or levels of consumer

Table of Contents

purchases of kitchenware, small electric appliances and gourmet foods, (3) changes in costs, including transportation costs, of inventory, (4) delays in delivery or the unavailability of inventory, (5) customer acceptance of new products, (6) the anticipated impact of the opening of new stores, the ability to renegotiate existing leases and effectively and efficiently close under-performing stores, (7) increased competition and (8) changes in health care benefits that could adversely affect costs or required staffing levels.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

INTEREST RATE RISK

The Company's subsidiaries, NACoal, HBB and KC, have entered into certain financing arrangements that require interest payments based on floating interest rates. As such, the Company's financial results are subject to changes in the market rate of interest. There is an inherent rollover risk for borrowings as they mature and are renewed at current market rates. The extent of this risk is not quantifiable or predictable because of the variability of future interest rates and business financing requirements. To reduce the exposure to changes in the market rate of interest, the Company has entered into interest rate swap agreements for a portion of its floating rate financing arrangements. The Company does not enter into interest rate swap agreements for trading purposes. Terms of the interest rate swap agreements provide the subsidiaries to receive a variable interest rate and pay a fixed interest rate. See also Note 7 to the unaudited condensed consolidated financial statements in this Form 10-Q.

The fair value of the Company's interest rate swap agreements was a net asset of \$0.8 million at June 30, 2013. A hypothetical 10% decrease in interest rates would not cause a material change in the fair value of the interest rate swap agreements at June 30, 2013.

FOREIGN CURRENCY EXCHANGE RATE RISK

HBB operates internationally and enters into transactions denominated in foreign currencies, principally the Canadian dollar and, to a lesser extent the Mexican peso. As such, its financial results are subject to the variability that arises from exchange rate movements. HBB uses forward foreign currency exchange contracts to partially reduce risks related to transactions denominated in foreign currencies and not for trading purposes. These contracts generally mature within twelve months and require HBB to buy or sell the functional currency in which the applicable subsidiary operates and buy U.S. dollars at rates agreed to at the inception of the contracts. The fair value of these contracts was a net asset of \$0.3 million at June 30, 2013. See also Note 7 to the unaudited condensed consolidated financial statements in this Form 10-Q.

For purposes of risk analysis, the Company uses sensitivity analysis to measure the potential loss in fair value of financial instruments sensitive to changes in foreign currency exchange rates. The Company assumes that a loss in fair value is either a decrease to its assets or an increase to its liabilities. Assuming a hypothetical 10% weakening of the U.S. dollar compared with other foreign currencies at June 30, 2013, the fair value of foreign currency-sensitive financial instruments, which primarily represent forward foreign currency exchange contracts, would not cause a material change in the fair value of the contracts at June 30, 2013. It is important to note that the change in fair value indicated in this sensitivity analysis would be somewhat offset by changes in the fair value of the underlying receivables and payables, which would not be material.

COMMODITY PRICE RISK

The Company uses certain commodities, including steel and diesel fuel, in the normal course of its mining processes. As such, the cost of operations is subject to variability as the market for these commodities changes. The Company does not currently have any such derivative contracts outstanding, nor does the Company have any significant purchase obligations to obtain fixed quantities of commodities in the future.

Table of Contents

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures: An evaluation was carried out under the supervision and with the participation of the Company's management, including the principal executive officer and the principal financial officer, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, these officers have concluded that the Company's disclosure controls and procedures are effective.

Changes in internal control over financial reporting: During the second quarter of 2013, other than changes resulting from the acquisition of Reed Minerals discussed below, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

On August 31, 2012, NACoal acquired Reed Minerals. The Company is currently in the process of integrating Reed's operations, processes and internal controls. See Note 3 to the unaudited condensed consolidated financial statements for additional information regarding the acquisition.

Item 1A Risk Factors

No material changes for HBB, KC, NACoal or General from the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

Issuer Purchases of Equity Securities

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of the Publicly Announced Program	(d) Maximum Number of Shares (or Approximate Dollar Value) that May Yet Be Purchased Under the Program (1)
Month #1 (April 1 to 30, 2013)	127,620	\$52.60	127,620	\$32,950,896
Month #2 (May 1 to 31, 2013)	82,199	\$54.06	82,199	\$28,506,974
Month #3 (June 1 to 30, 2013)	95,093	\$56.30	95,093	\$23,152,887
Total	304,912	\$54.15	304,912	\$23,152,887

On November 8, 2011, the Company announced that the Company's Board of Directors approved the repurchase of up to \$50 million of the Company's outstanding Class A common stock. The timing and amount of any repurchases will be determined at the discretion of the Company's management based on a number of factors, including the availability of capital, other capital allocation alternatives and market conditions for the Company's Class A common stock. The original authorization for the repurchase program was scheduled to expire on December 31, 2012; however, in November 2012 the Company's Board of Directors approved an extension of the stock (1) repurchase program through December 31, 2013. The share repurchase program does not require the Company to acquire any specific number of shares. It may be modified, suspended, extended or terminated by the Company at any time without prior notice and may be executed through open market purchases, privately negotiated transactions or otherwise. All or part of the repurchases may be implemented under a Rule 10b5-1 trading plan, which would allow repurchases under pre-set terms at times when the Company might otherwise be prevented from doing so. As of June 30, 2013, the Company has repurchased 469,471 shares of Class A common stock for an aggregate purchase price of \$26.8 million under this program.
