- a Security issued with a zero coupon. Income is recognized through the accretion of discount.
- b These securities are prerefunded; the date shown represents the prerefunded date. Bonds which are prerefunded are collateralized by U.S. Government securities which are held in escrow and are used to pay principal and interest on the municipal issue and to retire the bonds in full at the earliest refunding date.
- c Inverse floater security--the interest rate is subject to change periodically.
- d Securities exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At August 31, 2009, these securities amounted to \$11,298,720 or 3.0% of net assets applicable to Common Shareholders.
- e Collateral for floating rate borrowings.
- f Non-income producing--security in default.
- g Variable rate demand note rate shown is the interest rate in effect at August 31, 2009. Maturity date represents the next demand date, or the ultimate maturity date if earlier.

At August 31, 2009, the aggregate cost of investment securities for income tax purposes was \$566,541,130. Net unrealized depreciation on investments was \$14,531,785 of which \$27,194,301 related to appreciated investment securities and \$41,726,086 related to depreciated investment securities.

Various inputs are used in determining the value of the fund's investments relating to FAS 157. These inputs are summarized in the three broad levels listed below.

- Level 1 quoted prices in active markets for identical investments.
- **Level 2** other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of August 31, 2009 in valuing the fund's investments:

	Level 1 -Quoted Leve	el 2 - Other Significant	Level 3 -Significant	
Assets (\$)	Prices	Observable Inputs	Unobservable Inputs	Total

Investments in Securities:

Other Financial Instruments+

Municipal Bonds - 552,009,345 - **552,009,345**Other Financial Instruments+ - - - - - - - Liabilities (\$)

Other financial instruments include derivative instruments, such as futures, forward foreign currency exchange contracts, swap contracts and options contracts. Amounts shown represents unrealized appreciation (depreciation), or in the case of options, market value at period end.

The fund adopted Statement of Financial Accounting Standards No. 161 Disclosures about Derivative Instruments and Hedging Activities (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk-related contingent features in derivative agreements. Since the fund held no derivatives during the period, FAS 161 disclosures did not impact the notes to the financial statements.

Portfolio valuation: Investments in municipal debt securities are valued on the last business day of each week and month by an independent pricing service (the Service) approved by the Board of Directors. Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Other investments (which constitute a majority of the portfolio securities) are carried at fair value as determined by the Service, based on methods which include consideration of: yields or prices of municipal securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. Options and financial futures on municipal securities and U.S.Treasury securities are valued at the last sales price on the securities exchange on which such securities are primarily traded or at the last sales price on the national securities market on the last business day of each week and month.

Inverse Floater Securities: The fund may participate in secondary inverse floater structures in which fixed-rate, tax-exempt municipal bonds purchased by the fund are transferred to a trust. The trust subsequently issues two or more variable rate securities that are collateralized by the cash flows of the fixed-rate, tax-exempt municipal bonds. One or more of these variable rate securities pays interest based on a short-term floating rate set by a remarketing agent at predetermined intervals. A residual interest tax-exempt security is also

created by the trust, which is transferred to the fund, and is paid interest based on the remaining cash flow of the trust, after payment of interest on the other securities and various expenses of the trust.

The fund accounts for the transfer of bonds to the trusts as secured borrowings, with the securities transferred remaining in the fund s investments, and the related floating rate certificate securities reflected as fund liabilities.

Additional investment related disclosures are hereby incorporated by reference to the annual and semi-annual reports previously filed with the Securities and Exchange Commission on Form N-CSR.

Item 2. Controls and Procedures.

(a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-Q is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-Q is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers,

as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes to the Registrant's internal control over financial reporting that occurred during the Registrant's most recently ended fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3. Exhibits.

(a) Certifications of principal executive and principal financial officers as required by Rule 30a-2(a) under the Investment Company Act of 1940.
