Participants and Administrator  
AVX Nonqualified Supplemental Retirement Plan

We have audited the accompanying statement of financial condition with fund information of AVX Nonqualified Supplemental Retirement Plan (the Plan) as of December 31, 2005, and the related statement of income and changes in plan equity with fund information for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have nor were we engaged to perform an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005, and the changes in its net assets available for benefits for the year then ended in conformity with accounting principals generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying AVX Nonqualified Supplemental Retirement Plan Schedule I - Investments as of December 31, 2005, is presented for purposes of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

**AVX NONQUALIFIED SUPPLEMENTAL RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS**

**1. Description of Plan**

The following brief description of the AVX Nonqualified Supplemental Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

**General**

The Plan was established August 1, 1994 to provide certain officers and highly compensated managers of AVX Corporation (the "Company") with supplemental retirement benefits. Effective January 1, 2005 the AVX Corporation SERP Plan, that was established January 1, 1998, was merged into the Plan. All balances from the SERP Plan were transferred into the Plan. Any employee eligible to participate in the AVX Corporation Retirement Plan whose annual compensation is in excess of \$210,000 (as such limit is defined by the Internal Revenue Code) is eligible to participate in the Plan. An employee who, in prior years, becomes an eligible participant in the Plan shall continue to be eligible to fully participate in the Plan regardless of whether such employee's annual compensation falls below the annual compensation limit for the year. The Company is the Plan's sponsor and Plan administrator. HSBC Bank USA was the Plan's trustee until September 2005. All Plan assets were moved to New York Life (the "Trustee") at that time. New York Life is now the Plan's trustee and record keeper.

**Deferred Compensation Contribution**

The Plan is split into two parts. There is a SERP portion and a Supplemental Retirement portion. The SERP portion allows each participant to defer receipt of all or a portion of annual compensation currently in excess of \$210,000 (as such limit is defined by the Internal Revenue Code) otherwise payable by the Company to such employee. The Supplemental Retirement portion allows participants to defer an amount from 1% to 3% of eligible compensation (currently between \$210,000 and \$600,000). Beginning January 1, 2001, eligible compensation for employee contributions is determined based on total compensation less any amount deferred under the AVX Corporation SERP Plan. A matching contribution of 100% is made by AVX Corporation. Compensation deferred by a participant and the matching contribution made by the Company shall be invested in the AVX Stock Fund.

**Company Matching Contribution**

The Company will match contributions equal to 100% of the first 3% of the amount that is deferred under the SERP portion of the Plan. The Company will also match contributions equal to 100% of the first 3% of the amount deferred that is related to eligible compensation between \$210,000 (as indexed) and \$600,000 in the Supplemental Retirement Plan.

**Non-discretionary Contribution**

The Company will make an annual contribution equal to 5% of eligible compensation.

**Discretionary Contribution**

The Company may make an annual contribution between 0% - 5% of eligible compensation. The contribution amount is subject to approval by the Company's Board of Directors.

**Vesting**

Each participant shall be fully vested and have a non-forfeitable interest in his account.

Payment of Benefits

Benefits under the Plan shall be payable to a participant or beneficiary upon the earlier of such participant's termination of employment or death in a lump-sum payment or in installments over a period not to exceed 10 years.

**2. Significant Accounting Policies**

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Contributions

Employer contributions under the non-discretionary contribution feature include amounts equal to the aggregate that would have been contributed based on a participant's eligible compensation under the non-discretionary contribution feature of the AVX Retirement Plan. The employer contributions associated with the discretionary contribution feature of the Plan are not readily determinable until after the Company's fiscal year ended March 31 and are included in the Plan in the year paid.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments in securities traded on a national securities exchange are valued at the closing sales price on the last business day of the plan year. Plan investments in any investment companies, unit investment trusts or similar investment funds are valued daily at their closing net asset values (or unit value) per share. Temporary cash investments in money market funds are valued at par, which represents market value as determined by the Trustee. For purposes of determining realized gains and losses, the Plan uses the average cost method to determine the cost basis of disposed assets. Net appreciation (depreciation) in fair value of investments on the Statement of Income and Changes in Plan Equity with Fund Information represents realized losses and the cumulative change in unrealized appreciation (depreciation) for the respective years.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company.

Use of Estimates

The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the plan administrator to make significant estimates and assumptions that affect the reported amounts of plan equity at the date of the financial statements and the changes of plan equity during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Dividend and Interest Income Recognition

Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date.

**6. Federal Income Taxes**

The Plan is a grantor type trust and is not qualified under Section 401 of the Internal Revenue Code. Under Section 671 of the Internal Revenue Code, items of income, deduction or credit in a grantor trust are treated as belonging to the grantor. The Plan provides for various investment options in registered investment companies which invest in combinations of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that such changes could materially affect participants’ account balances and the amounts reported in the statement of financial condition with fund information. The market value of the Plan’s assets is included as an asset and a liability on the Company’s balance sheet because the Plan’s assets are available to AVX’s general creditors in the event of the Company’s insolvency.

**9. Subsequent Event**

The reported employer contribution receivable as of December 31, 2005 was subsequently received by the Plan on March 6, 2006.
