Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of  
AFGWU Local 1028 401(k) Retirement Plan for  
Employees of AVX Corporation in Raleigh, North Carolina:

We have audited the accompanying statements of net assets available for benefits of AFGWU Local 1028 401(k) Retirement Plan for Employees of AVX Corporation in Raleigh, North Carolina (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2010 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

AFGWU LOCAL 1028 401(k) RETIREMENT PLAN FOR  
EMPLOYEES OF AVX CORPORATION IN RALEIGH, NORTH CAROLINA  
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan:

The following description of the AFGWU Local 1028 401(k) Retirement Plan for Employees of AVX Corporation in Raleigh, North Carolina (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and Eligibility

The Plan, which was adopted on July 1, 1995, is a defined contribution plan established to provide retirement benefits to employees of AVX Corporation (the “Company” and the Plan sponsor) who are members of the AFGWU Local 1028 Union and have worked 90 days. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). In March of 2009, the Plan was amended to be in compliance with the Internal Revenue Code (“IRC”) regarding participant eligibility and compensation limits. This amendment is effective for plan years beginning on or after January 1, 2007. Effective January 1, 2009, the Plan moved all plan assets from Merrill Lynch to New York Life.

Contributions

Each year, participants may contribute up to 20% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a stable value investment and common stock of Kyocera Corporation as investment options for participants. In April 2006, the Plan eliminated a participant’s ability to invest in the common stock of AVX Corporation, effective for investments made after April 30, 2006. The Company contributes a matching contribution on participant deferrals of up to 5% of compensation that a participant contributes to the Plan as follows:

Participant Contribution	Company Matching Contribution
1%	0.667% of compensation
2%	1.334% of compensation
3%	2.000% of compensation
4%	2.500% of compensation
5%	3.000% of compensation

Each year the Company also makes a fixed contribution to the Plan equal to 1% of each participant's annual compensation. Additional contributions are made for members with 20 years or more of service as of July 1,

1995. Contributions are subject to certain limitations.

#### Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (1) the Company's contributions, and (2) plan earnings less an allocation of administrative expenses. Allocations are based on participant contributions and earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled to is that amount which can be provided from the participant's vested account.

#### Vesting

Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon. Vesting in the Company's fixed contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of qualifying service.

-5-

---

### Notes Receivable from Participants

Plan participants may borrow from their individual account balance in the Plan. A participant may have a maximum of two notes outstanding. A participant must have a minimum \$5,000 account balance in order to receive a note and the minimum note amount permitted by the Plan is \$1,000. The maximum allowable note receivable from the Plan is 50% of the participant's vested account balance and may not exceed \$50,000. These notes are repayable during a period up to 10 years. Notes bear interest at a rate determined by the Plan Committee; at December 31, 2009 the rate for new notes is 5% - 7% annually. There were no notes outstanding at December 31, 2010. All principal and interest repayments are credited to the individual participant's account.

### Payment of Benefits

Benefits under the Plan are payable after termination of service or retirement in an amount equal to the vested interest in the participant's account. Benefits are paid as a lump sum or a payout as elected by the Plan participant. For participants terminating employment with vested balances less than \$5,000, the value of their vested balance is paid in one lump sum.

### Forfeitures

For the Plan year in which the forfeiture occurs, amounts of forfeitures shall be used to first reduce the Company's matching contributions, and then to reduce the Company's fixed contribution. During the year ended December 31, 2010, there were no forfeitures used to reduce either matching or fixed contributions. At December 31, 2009 and 2010, forfeited non-vested account balances totaled \$33,893 and \$28,494, respectively. In 2010, excess forfeitures not used for Company contributions were used to pay administrative costs of \$6,526.

### Administrative Expenses

Most of the costs to administer the Plan are paid by the Plan and allocated to participants' accounts. Certain administrative fees are paid by the sponsor.

## 2. Summary of Significant Accounting Policies:

### Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that may affect the reported amounts of certain assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### Investment Transactions and Investment Income

Investments are reported at fair value. See Note 4 herein. Purchases and sales of securities are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Other income from investments is recorded as earned on an accrual basis.

-6-

---

The Statement of Changes in Net Assets Available for Benefits presents the net appreciation in the fair value of the Plan's investments which consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments for the year ended December 31, 2010.

#### Payment of Benefits

Benefits are recorded when paid.

#### Notes Receivable from Participants:

Notes receivable from participants are presented as notes receivable due from participants and recorded at unpaid principal balance, plus any accrued but unpaid interest. The notes receivable are secured by the participant account balance and are considered delinquent and written off when payment is 90 days past due. The Plan does not charge late fees on delinquent amounts. No allowance for loss on notes receivable from participants is provided based on a review of the accounts.

#### New Accounting Standards

In January 2010, the FASB issued ASU No. 2010-06, Improving Disclosures About Fair Value Measurements (ASC 820, Fair Value Measurements and Disclosures (ASC 820)) to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. These disclosures were effective for the Plan on January 1, 2010, except for the disclosures related to the purchases, sales, issuances and settlements in the roll forward activity of Level 3 fair value measurements, which are effective on January 1, 2011. The guidance requires additional disclosures but does not impact the Plan's net assets available for benefits.

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of \$1,782 for the year ended December 31, 2009, from investments to notes receivable from participants. Net assets of the plan were not affected by the adoption of the new guidance.

In May 2011, the FASB issued guidance on fair value measurement and disclosure requirements. The guidance generally clarifies the application of existing requirements on topics including the concepts of highest and best use and valuation premise and disclosing quantitative information about the unobservable inputs used in the measurement of instruments categorized within Level 3 of the fair value hierarchy. Additionally, the guidance includes changes on topics such as measuring fair value of financial instruments that are managed within a portfolio and additional disclosure for fair value measurements categorized within Level 3 of the fair value hierarchy. This guidance is effective for the Plan on January 1, 2012. The Company is currently evaluating the effect that adoption of this guidance may have on the Plan's net assets available for benefits.

## 3. Investments:

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2009 and 2010, are as follows:

	2009	2010
NY Life Insurance Company Anchor Account I	\$ 1,007,504	\$ 868,249
Janus Balanced Fund	618,909	554,433
Columbia Select Large-Cap Value Fund	*	296,054
Seligman Large-Cap Value Fund	308,287	*
PIMCO Total Return Fund	153,968	124,862

\* Investment option was not available to participants as of December 31, 2009 and 2010, respectively.

During the year ended December 31, 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

AVX Corporation	
Common Stock	\$ 5,381
Kyocera Corporation	
Common Stock	13,825
Mutual Funds	98,182
	\$ 117,388

## 4. Fair Value:

## Fair Value Hierarchy

The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to value the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

	Fair Value at December 31, 2010	Quoted prices in active markets (Level 1)	Based on Other observable inputs (Level 2)	Unobservable inputs (Level 3)
Assets measured at fair value on a recurring basis:				
Mutual Funds:				
Large Cap Value	\$ 296,054	\$ 296,054	\$ -	\$ -
Large Cap Blend	580,180	580,180	-	-
Fixed Income	124,862	124,862	-	-
Money Market Fund:				
Mainstay Cash Reserves Fund	3,636	3,636	-	-
Pooled Separate Account:				
NY Life Insurance Company Anchor Account I	868,249	-	868,249	-
Common Stock:				
Kyocera Corporation American Depository Shares	97,991	97,991	-	-
AVX Corporation Common Stock	29,703	29,703	-	-
<b>Total</b>	<b>\$ 2,000,675</b>	<b>\$ 1,132,426</b>	<b>\$ 868,249</b>	<b>\$ -</b>

	Fair Value at December 31, 2009	Quoted prices in active markets (Level 1)	Based on Other observable inputs (Level 2)	Unobservable inputs (Level 3)
Assets measured at fair value on a recurring basis:				
Mutual Funds:				
Large Cap Value	\$ 308,287	\$ 308,287	\$ -	\$ -
Large Cap Blend	667,481	667,481	-	-
Fixed Income	154,053	154,053	-	-
Money Market Fund:				
Mainstay Cash Reserves Fund	2,686	2,686	-	-
Pooled Separate Account:				
NY Life Insurance Company Anchor Account I	1,007,504	-	1,007,504	-
Common Stock:				
Kyocera Corporation American Depository Shares	94,668	94,668	-	-
AVX Corporation Common Stock	25,657	25,657	-	-
<b>Total</b>	<b>\$ 2,260,336</b>	<b>\$ 1,252,832</b>	<b>\$ 1,007,504</b>	<b>\$ -</b>

Assets valued using Level 1 inputs in the table above represent assets from the Plan and are valued at net asset value (NAV) based on the number of shares in the funds using a closing price per share traded in an active market.

Assets valued using Level 2 inputs in the table above represent investments held in a pooled separate account. The fair value of this fully benefit responsive investment contract is calculated by the Trustee on a net unit basis, or NAV, using a discounting method. See discussion in the "Valuation of Investment" section below.

#### Valuation of Investments

Investments are presented at estimated fair values. Investments in securities (ADS and commonstocks) traded on a national securities exchange are valued at the end of each business day based on closing quoted market prices, which represent NAV. Investment performance depends on the price of the investment on the open market which is influenced by economic markets offering and the businesses of AVX Corporation and Kyocera Corporation. Temporary cash is invested in the MainStay Cash Reserves Fund, which is designed to provide safety of purchasers' liquidity and return on investment. The shares of mutual funds are valued at the net asset value as reported on national securities exchanges at the end of each business day. The investments can be redeemed daily, have no redemption restrictions, and have no unfunded commitments.

The Plan also holds an investment in a pooled separate account that is fully benefit-responsive. This investment is reported at contract value in the financial statements, which represents contributions made to the account, plus earnings on the underlying investment, less participant withdrawals and administrative expenses. Such investments are recorded at contract value rather than fair value, to the extent that they are fully-benefit responsive. The fair value of the fully benefit responsive investment contracts are calculated using a discounting method developed by the trustee. The average yield for 2010 and 2009 was 2.16% and 2.82%, respectively. For the year ended December 31, 2010 and 2009, the average yield credited to participants in the Plan was 2.67% and 3.34%, respectively. There were no valuation reserves recorded that were associated with the pooled separate account in 2010. Interest is credited daily to the account and is guaranteed to be not less than 0% before any deduction for expenses. The investment can be redeemed at any time at fair value and has no unfunded commitments. In order for the Plan to exit the investment at contract value, it would receive twelve monthly payments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (c) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants is probable.

The pooled separate account investment is designed to provide income while preserving principal. The fund primarily invests in corporate bonds, commercial mortgage backed securities, collateralized mortgage obligations and asset backed securities. The fair value is calculated using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities.

Investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

5. Related-Party Transactions:

Notes receivable from participants and certain investments issued and/or managed by the Trustee or its affiliates qualified as party-in-interest transactions which are exempt from the prohibited transaction rules.

At December 31, 2009, the Plan holds 1,072 shares of Kyocera Corporation common stock and 2,025 shares of AVX Corporation common stock with market values of \$94,668 and \$25,657, respectively. At December 31, 2010, the Plan holds 959 shares of Kyocera Corporation common stock and 1,925 shares of AVX Corporation common stock with market values of \$97,991 and \$29,703, respectively. The ability for participants to make additional investments in AVX stock was discontinued in April 2006.

6. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, all participants shall become 100% vested in their accounts regardless of years of service. Participant accounts will be paid in accordance with Plan provisions as soon as is practicable after the termination.

7. Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated June 10, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed in accordance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2007.

8. Reconciliation Between the Financial Statements and Form 5500:

The following tables reconcile the information provided in the Form 5500 to the Statements of Net Assets Available for Benefits and Changes in Net Assets Available for Benefits provided in the financial statements:

	December 31,	
	2009	2010
Net assets available for benefits per the financial statements	\$ 2,317,248	\$ 2,014,794
Less:		
Adjustment from contract value to fair value for pooled separate account	(50,798 )	(10,012 )
Net assets available for benefits per Form 5500	\$ 2,266,450	\$ 2,004,782

	2010
Net decrease in net assets available for benefits per the financial statements	\$ (302,454)
Add:	
Adjustment from contract value to fair value	40,786
Net decrease in net assets available for benefits per Form 5500	\$ (261,668)

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Administrative Committee has duly caused this annual report to be signed by the undersigned thereunto duly authorized.
