Cautionary Statement Regarding Forward-Looking Statements

Any statement contained in this report which is not a historical fact, or which might otherwise be considered an opinion or projection concerning the Company or its business, whether expressed or implied, is meant as and should be considered a forward-looking statement as that term is defined in the Private Securities Litigation Reform Act of 1995. The following report contains forward-looking statements that are not strictly historical and that involve risks and uncertainties. Such statements include any statements containing the words “expect,” “plan,” “estimate,” “anticipate” or other words of a similar nature. Management cautions investors about forward-looking statements. Forward-looking statements involve certain evaluation criteria, such as risks, uncertainties, estimates, and/or assumptions made by individuals informed of the Company and industries in which we operate. Any variation in the preceding evaluation criteria could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These risks and uncertainties include, without limitation, the following:

The insurance industry is highly competitive and the Company encounters significant competition in all lines of business from other insurance companies. Many of the competing companies have more abundant financial resources than the Company.

Insurance is a highly regulated industry. It is possible that legislation may be enacted which would have an adverse effect on the Company’s business.

The Company is subject to regulation by state governments for each of the states in which it conducts business. The Company cannot predict the subject of any future regulatory initiative(s) or its (their) impact on the Company’s business.

The Company is rated by various insurance rating agencies. If a rating is downgraded from its current level by one of these agencies, sales of the Company’s products and stock could be adversely impacted.

The Company’s financial results are adversely affected by increases in policy claims received by the Company. While a manageable risk, this fluctuation is often unpredictable.

The Company’s investments are subject to a variety of risks. Investments are subject to defaults and changes in market value. Market value can be affected by changes in interest rates, market performance and the economy.

The Company mitigates risk associated with life policies through implementing effective underwriting and reinsurance strategies. These factors mitigate, not eliminate, risk related to mortality and morbidity exposure. The Company has established reserves for claims and future policy benefits based on amounts determined by independent actuaries. There is no assurance that these estimated reserves will prove to be sufficient or that the Company will not incur claims exceeding reserves, which could result in operating losses.

The Company mitigates risk associated with property and casualty policies through implementing effective underwriting and reinsurance strategies. The Company obtains reinsurance which increases underwriting capacity and limits the risk associated with policy claims. The Company is subject to credit risk with regard to reinsurers as reinsurance does not alleviate the Company’s liability to its insured’s for the ceded risks. The Company utilizes a third-party to develop a reinsurance treaty with reinsurers who are reliable and financially stable. However, there is no guarantee that booked reinsurance recoverable will actually be recovered. A reinsurer’s insolvency or inability to make payments due could have a material adverse impact on the financial condition of the Company.

The Company’s ability to continue to pay dividends to shareholders is contingent upon profitability and capital adequacy of the insurance subsidiaries. The insurance subsidiaries operate under regulatory restrictions that could limit the ability to fund future dividend payments of the Company. An adverse event or series of events could materially impact the ability of the insurance subsidiaries to fund future dividends and consequently the Board of Directors would have to suspend the declaration of dividends to shareholders.

The Company is subject to the risk of adverse settlements or judgments resulting from litigation of contested claims. It is difficult to predict or quantify the expected results of litigation because the outcome depends on decisions of the court and jury that are based on facts and legal arguments presented at the trial.

Table of Contents

THE NATIONAL SECURITY GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation and Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of The National Security Group, Inc. (the Company) and its wholly-owned subsidiaries: National Security Insurance Company (NSIC), National Security Fire and Casualty Company (NSFC) and NATSCO, Inc. (NATSCO). NSFC includes a wholly-owned subsidiary - Omega One Insurance Company (Omega) . The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). All significant intercompany transactions and accounts have been eliminated. The financial information presented herein should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2010, which includes information and disclosures not presented herein.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among the more significant estimates included in these financial statements are reserves for future policy benefits, liabilities for losses and loss adjustment expenses, reinsurance recoverable asset on associated loss and loss adjustment expense liabilities, deferred policy acquisition costs, deferred income tax assets and liabilities, assessments of other than temporary impairments on investments and accruals for contingencies. Actual results could differ from those estimates.

Recently Issued Accounting Standards

Intangibles-Goodwill and Other

Effective for interim and annual reporting periods beginning after December 15, 2010, the FASB revised guidance related to goodwill impairment testing. The revised guidance clarifies that when evaluating goodwill associated with a reporting unit that has a zero or negative carrying value, an initial determination should be made as to whether it is more likely than not that the goodwill is impaired. When impairment is more likely than not, the goodwill is required to be tested for impairment. We adopted the guidance on January 1, 2011. Adoption did not have a material effect on our results of operations or financial position.

Fair Value Measurements

Effective for interim and annual reporting periods beginning after December 15, 2010, the FASB revised guidance to require additional disclosure about purchases, sales, issuances, and settlements in the roll forward activity in Level 3 fair value measurements. We adopted the guidance on January 1, 2011; adoption did not have a material effect on our results of operations or financial position.

Accounting Changes Not Yet Adopted

Presentation of Comprehensive Income

Effective for interim and annual reporting periods beginning after December 15, 2011, the FASB revised guidance related to the way other comprehensive income ("OCI") appears within the financial statements. Companies will be required to show net income, OCI and total comprehensive income in one continuous statement or in two separate but consecutive statements. Components of OCI may no longer be presented solely in the statement of changes in

shareholders' equity. Any reclassification between OCI and net income will be presented on the face of the financial statements. We do not expect the impact of this revised guidance to change reported net income or comprehensive income upon adoption in 2012.

Fair Value Measurements

Effective for interim and annual reporting periods beginning after December 15, 2011, the FASB revised guidance related to fair value measurements and disclosures, all of which are to be applied prospectively. The new guidance increases disclosure requirements regarding valuation methods used to determine fair value measurements categorized as Level 3, as well as the sensitivity to change of those measurements, and requires additional disclosures regarding the consideration given to highest and best use in fair value measurements of nonfinancial assets. The guidance requires that when fair value measurements of items not carried at fair value are disclosed, the fair value measurements are to be categorized by level of fair value hierarchy. Additionally, the guidance also clarifies or revises certain fair value measurement principles related to the valuation of financial instruments managed within a portfolio, the valuation of instruments classified as a part of shareholders' equity, the appropriate application of the highest and best use valuation premise, and the consideration of premium and discounts in a fair value measurement.

Table of Contents

THE NATIONAL SECURITY GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
(Continued)

We are currently evaluating the impact of this revised guidance. However, we do not expect a material effect on our results of operations or financial position upon adoption in 2012.

Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts

Effective for fiscal years beginning after December 15, 2011, the FASB revised guidance regarding the interpretation of which costs relating to the acquisition of new or renewal insurance contracts qualify for deferral. The guidance permits deferral of qualifying costs associated only with successful contract acquisitions. The portion of internal selling agent and underwriter salary and benefit costs allocated to unsuccessful contracts, as well as advertising costs, are excluded. The guidance should be applied prospectively, but may be applied retrospectively for all prior periods. We are currently evaluating the impact of this revised guidance on our financial statements. However, we do not expect a material effect on our results of operations or financial position upon adoption in 2012.

NOTE 2 – REINSURANCE

In the normal course of business, NSFC seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results by reinsuring certain levels of risk in various areas of exposure with other insurance enterprises or reinsurers. NSFC maintains a catastrophe reinsurance agreement to cover losses from catastrophic events, primarily hurricanes.

Under the catastrophe reinsurance program, the Company retains the first \$3.5 million in losses from each event. Reinsurance is maintained in four layers as follows:

Layer	Reinsurers' Limits of Liability
First Layer	95% of \$6,500,000 in excess of \$3,500,000
Second Layer	95% of \$7,500,000 in excess of \$10,000,000
Third Layer	100% of \$25,000,000 in excess of \$17,500,000
Fourth Layer	100% of \$30,000,000 in excess of \$42,500,000

Layers 1-4 cover events occurring from January 1-December 31 of the contract year. All significant reinsurers under the program carry A.M. Best ratings of A- (Excellent) or higher, or equivalent ratings.

Amounts recoverable from reinsurers are estimated in a manner consistent with the claim liability associated with the reinsured policy. Amounts paid for prospective reinsurance contracts are reported as prepaid reinsurance premiums and amortized over the remaining contract period.

In the normal course of business, NSIC seeks to limit its exposure to loss on any single insured and to recover a portion of benefits paid by ceding reinsurance to other insurance enterprises or reinsurers under excess coverage contracts. NSIC retains a maximum of \$50,000 of coverage per individual life. The cost of reinsurance is amortized over the contract period of the reinsurance.

NOTE 3 – CALCULATION OF EARNINGS PER SHARE

Earnings per share were based on net income (loss) divided by the weighted average common shares outstanding. The weighted average number of shares outstanding for the three month and six month periods ending June 30, 2011 and 2010 were 2,466,600.

NOTE 4 – CHANGES IN SHAREHOLDERS' EQUITY

During the six months ended June 30, 2011 and 2010, there were no changes in shareholders' equity except for a net loss of \$3,950,000 and net income of \$2,708,000, respectively; dividends paid of \$740,000 in 2011 and 2010; changes in accumulated other comprehensive income, net of applicable taxes of \$230,000 and \$191,000, respectively. Other comprehensive income consists of accumulated unrealized gains and losses on securities and unrealized gains and losses on interest rate swaps.

	\$492	\$13	\$—	\$—	\$492	\$13	2

According to the most recent accounting guidance, for securities in an unrealized loss position, the Company is required to assess whether the Company has the intent to sell the security or more likely than not will be required to sell the security before the anticipated recovery. If either of these conditions is met, the Company is required to recognize an other-than-temporary impairment with the entire unrealized loss reported in earnings. For securities in an unrealized loss position that do not meet these conditions, the Company assesses whether the impairment of a security is other-than-temporary. If the impairment is determined to be other-than-temporary, the Company is required to separate the other-than-temporary impairments into two components: the amount representing the credit loss and the amount related to all other factors. The credit loss is the portion of the amortized book value in excess of the net present value of the projected future cash flows discounted at the effective interest rate implicit in the debt security prior to impairment. The credit loss component of other-than-temporary impairments is reported in earnings, whereas the amount relating to factors other than credit losses are recorded in other comprehensive income, net of taxes.

Management has evaluated each security in a significant unrealized loss position. For the three month and six months ended June 30, 2011, the Company realized no additional other-than-temporary impairments. The single largest accumulated loss at June 30, 2011, was in the equity portfolio and totaled \$392,000. The second largest loss position was in the bond portfolio and totaled \$182,000. The third largest loss position was in the bond portfolio and totaled \$63,000. Most unrealized losses in the fixed income portfolio are interest rate driven as opposed to credit quality driven and management believes no ultimate loss will be realized. The Company has no material exposure to sub-prime mortgage loans and less than 3% of the fixed income investment portfolio is rated below investment grade. In evaluating whether or not the equity loss positions were other-than-temporary impairments, Management evaluated financial information on each company and where available reviewed analyst reports from at least two independent sources. Based on a review of the available financial information, the prospect for future earnings of each company and consideration of the Company's intent and ability to hold the securities until market values recovered, it was determined that the remaining securities in an accumulated loss position in the portfolio were temporary impairments.

For the year ended December 31, 2010, the Company realized no other than temporary impairments. The single largest accumulated loss was in the equity portfolio and totaled \$360,000. The second largest loss position was in the

bond portfolio and totaled \$185,000. The third largest loss position was in the equity portfolio and totaled \$83,000. Most unrealized losses in the fixed income portfolio are interest rate driven as opposed to credit quality driven, and management believes no ultimate loss will be realized. The Company has no material exposure to sub-prime mortgage loans and less than 4% of the fixed income investment portfolio is rated below investment grade.

An analysis of the net change in unrealized appreciation on available-for-sale securities follows:

	(Dollars in thousands)	
	June 30, 2011 (unaudited)	December 31, 2010
Net change in unrealized appreciation on available-for-sale securities before deferred tax	\$375	\$1,261
Deferred income tax	(90) (414
Net change in unrealized appreciation on available-for-sale securities	\$285	\$847

NOTE 6 – INCOME TAXES

The Company recognizes tax-related interest and penalties as a component of tax expense. The Company incurred no interest or penalties as of both June 30, 2011 and December 31, 2010. The Company files income tax returns in the U.S. federal jurisdiction and various states. The Company is not subject to examinations by authorities related to its U.S. federal or state income tax filings for years prior to 2007. Tax returns have been filed through the year 2009 with extensions filed for 2010.

Net deferred tax liabilities are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of the enacted tax laws. Management believes that, based on its historical pattern of taxable income, the Company will produce sufficient income in the future to realize its deferred tax assets. The Company recognized net deferred tax liability positions of \$1,132,000 at June 30, 2011 and \$1,043,000 at December 31, 2010.

The tax effect of significant differences representing deferred tax assets and liabilities are as follows (dollars in thousands):

	June 30, 2011	December 31, 2010
General insurance expenses	\$1,540	\$1,442
Unearned premiums	1,897	1,795
Claims liabilities	304	301
Trading securities	7	17
Other than temporary impairments on securities owned	184	115
Unrealized loss on interest rate swaps	106	77
Deferred tax assets	\$4,038	\$3,747
Depreciation	\$(155) \$(171
Deferred policy acquisition costs	(3,178) (2,874
Unrealized gains on securities available-for-sale	(1,837) (1,745
Deferred tax liabilities	\$(5,170) \$(4,790

Net deferred tax liability	\$ (1,132)	\$ (1,043)
----------------------------	-----------	---	-----------	---

Table of Contents

THE NATIONAL SECURITY GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
(Continued)

The appropriate income tax effects of changes in temporary differences are as follows (dollars in thousands):

	Six months ended June 30,	
	2011	2010
Deferred policy acquisition costs	\$304	\$157
Other-than-temporary-impairments	(69) (144
Trading securities	10	—
Unearned premiums	(102) (3
General insurance expenses	(98) 84
Depreciation	(16) (8
Claim liabilities	(2) 469
Deferred income tax expense	\$27	\$555

Total income tax expense varies from amounts computed by applying current federal income tax rates to income before income taxes. The reason for these differences and the approximate tax effects are as follows (dollars in thousands):

	Six months ended June 30,	
	2011	2010
Federal income tax rate applied to pre-tax income	\$(2,070) \$1,309
Dividends received deduction and tax-exempt interest	(101) (89
Company owned life insurance	(45) (36
Small life deduction	(187) 3
Other, net	265	(44
Federal income tax (benefit) expense	\$(2,138) \$1,143

NOTE 7 –NOTES PAYABLE AND LONG-TERM DEBT

Short-term notes payable consisted of the following as of June 30, 2011 and December 31, 2010:

	(Dollars in thousands)	
	2011	2010
Line of credit with variable interest rate equal to the WSJ prime rate, subject to a 5.0% floor. Interest payments due quarterly. Unsecured.	\$175	\$500

Table of Contents

THE NATIONAL SECURITY GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
(Continued)

Long-term debt consisted of the following as of June 30, 2011 and December 31, 2010:

	(Dollars in thousands)	
	2011	2010
Subordinated debentures issued on December 15, 2005 with fixed interest rate of 8.83% each distribution period thereafter until December 15, 2015 when the coupon rate shall equal the 3-month LIBOR plus 3.75% applied to the outstanding principal; maturity December 2035. Interest payments due quarterly. All may be redeemed at any time following the tenth anniversary of issuance. Unsecured.	\$9,279	\$9,279
Subordinated debentures issued on June 21, 2007 with a floating interest rate equal to the 3 Month LIBOR plus 3.40% applied to the outstanding principal; maturity June 15, 2037. Interest payments due quarterly. All may be redeemed at any time following the fifth anniversary of issuance. Unsecured.	3,093	3,093
	\$12,372	\$12,372

The subordinated debentures (debentures) have the same maturities and other applicable terms and features as the associated trust preferred securities (TPS). Payment of interest may be deferred for up to 20 consecutive quarters; however, stockholder dividends cannot be paid during any extended interest payment period or any time the debentures are in default. All have stated maturities of thirty years. None of the securities require the Company to maintain minimum financial covenants. The Company has guaranteed that amounts paid to the Trusts will be remitted to the holders of the associated TPS. This guarantee, when taken together with the obligations of the Company under the debentures, the Indentures pursuant to which the debentures were issued, and the related trust agreement (including obligations to pay related trust fees, expenses, debt and other obligations with respect to the TPS), provides a full and unconditional guarantee of amounts due the Trusts. The amount guaranteed is not expected to at any time exceed the obligations of the TPS, and no additional liability has been recorded related to the guarantee.

On September 13, 2007, the Company entered into a 5 year swap effective September 17, 2007 with a notional amount of \$3,000,000 and designated the swap as a hedge against changes in cash flows attributable to changes in the benchmark interest rate (LIBOR) associated with the subordinated debentures issued on June 21, 2007. Commencing December 17, 2007, under the terms of the swap, the Company will receive interest at the three-month LIBOR rate plus 3.4% and pay interest at the fixed rate of 8.34%.

On March 19, 2009, the Company entered into a forward swap effective September 17, 2012, which will also hedge against changes in cash flows following the termination of the 5 year swap agreement discussed previously. Commencing September 17, 2012, under the terms of the forward swap, the Company will receive interest at the three-month LIBOR rate plus 3.4% and pay interest at the fixed rate of 7.02%. This forward swap will effectively fix the interest rate on \$3,000,000 in debt until September of 2019.

On May 26, 2010, the Company entered into a forward swap with a notional amount of \$9,000,000 effective December 15, 2015, which will hedge against changes in cash flows following the termination of the fixed rate period. Quarterly, commencing March 16, 2016 under the terms of the forward swap, the Company will pay interest at a fixed

rate of 8.49% until March 15, 2020.

The swaps entered into in 2007, 2009 and 2010 have fair values of \$139,000 (liability), \$87,000 (liability) and \$84,000 (liability), respectively, for a total liability of \$310,000 at June 30, 2011 (\$227,000 at December 31, 2010). The swap liability is reported as a component of other liabilities on the condensed consolidated balance sheets. A net valuation loss of \$55,000 is included in accumulated other comprehensive income related to the swap agreements for the current period. A net valuation loss of \$90,000 was included in accumulated other comprehensive income related to the swap at December 31, 2010.

We use dollar offset at the hedge's inception and for each reporting period thereafter to assess whether the derivative used in a hedging transaction is expected to be, and has been, effective in offsetting changes in the fair value of the hedged item. Since inception no portion of the hedged item has been deemed ineffective. For all hedges, we discontinue hedge accounting if it is determined that a derivative is not expected to be, or has ceased to be, effective as a hedge.

Table of Contents

THE NATIONAL SECURITY GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Continued)

The Company's interest rate swaps include provisions requiring the Company to post collateral when the derivative is in a net liability position. The Company has securities on deposit with fair market values of \$821,000 (\$765,000 of which is posted as collateral) (\$660,000 at December 31, 2010). See Note 9 for additional information about the interest rate swaps.

In December of 2010, the Company renewed an unsecured line of credit for \$700,000, with an interest rate of 5%, to be made available for general corporate purposes. As of June 30, 2011, \$175,000 was drawn on this line (\$500,000 at December 31, 2010).

NOTE 8 – CONTINGENCIES

Litigation

The Company and its subsidiaries continue to be named individually as parties to litigation related to the conduct of their insurance operations. These suits involve alleged breaches of contracts, torts, including bad faith and fraud claims based on alleged wrongful or fraudulent acts of agents of the Company's subsidiaries, and miscellaneous other causes of action. Most of these lawsuits include claims for punitive damages in addition to other specified relief.

The Company's property & casualty subsidiaries are defending a number of matters filed in the aftermath of Hurricanes Katrina and Rita in Mississippi, Louisiana and Alabama. These actions include individual lawsuits and purported statewide class action lawsuits, although to date no class has been certified in any action. These actions make a number of allegations of underpayment of hurricane-related claims, including allegations that the flood exclusion found in the Company's subsidiaries' policies, and in certain actions other insurance companies' policies, is either ambiguous, unenforceable as unconscionable or contrary to public policy, or inapplicable to the damage sustained.

The various suits seek a variety of remedies, including actual and/or punitive damages in unspecified amounts and/or declaratory relief. All of these matters are in various stages of development and the Company's subsidiaries intend to vigorously defend them. The outcome of these disputes is currently uncertain.

The Company has been sued in a putative class action in the State of Alabama. The Plaintiff alleges entitlement to, but did not receive, payment for general contractor overhead and profit ("GCOP") in the proceeds received from the Company concerning the repair of the Plaintiff's home. Plaintiff alleges that said failure to include GCOP is a material breach by the Company of the terms of its contract of insurance with Plaintiff and seeks monetary damages in the form of contractual damages. A class certification hearing was held on March 1, 2010 with the trial court taking the Plaintiff's motion for class certification under advisement. On May 10, 2010, the trial court issued its ruling granting Plaintiff's motion to certify the class. The Company filed its Appellant Brief on October 5, 2010. The Company denies Plaintiff's allegations and intends to vigorously defend this lawsuit.

In April 2007, the Company sold substantially all of its 50% interest in its subsidiary, Mobile Attic, Inc. The Company, Peter L. Cash and Russell L. Cash (collectively the "Sellers") sold to Purchaser 61% of the outstanding stock of Mobile Attic under the terms of a Stock Purchase Agreement dated April 5, 2007, executed by Sellers, Mobile Attic and Purchaser's assignor, James W. Bagley (the "Stock Purchase Agreement").

Under the terms of the Stock Purchase Agreement, the Purchaser paid the Company \$2,700,000 for 45% of the total outstanding stock of Mobile Attic and paid the other Sellers \$960,000 for an additional 16% of the total outstanding stock in Mobile Attic, thus obtaining a controlling interest of 61% of the outstanding stock. The Stock Purchase Agreement also required the Purchaser as a condition to the transaction to cause the Company to be released from its guaranty of a bank loan to Mobile Attic having an outstanding principal balance of approximately \$9,400,000. The bank loan was secured by portable storage containers of Mobile Attic. The Sellers made certain warranties to the Purchaser in the Stock Purchase Agreement regarding the financial condition of Mobile Attic and agreed to jointly and severally indemnify the Purchaser for any damages resulting from a breach of any of the warranties.

On January 9, 2009, Mobile Attic, MA Manufacturing Company, Inc., and Purchaser initiated an action against Peter Cash, Cash Brothers Leasing, Inc., Bridgeville Trailers, Inc., and Barfield, Murphy, Shank & Smith, P.C. in the United States District Court for the Middle District of Alabama. In the complaint, Plaintiffs asserted, among other claims, a claim for damages resulting from a breach of certain of the warranties regarding the financial statements of Mobile Attic and other financial information provided by Mobile Attic.

Table of Contents

THE NATIONAL SECURITY GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Continued)

Purchaser then notified the Company of its claim for breach of warranty under the Stock Purchase Agreement and requested indemnity from the Company.

The Purchaser has asserted that the Company is jointly and severally liable with the other Sellers (whom the Company believes have limited resources) for all losses suffered by Purchaser as a result of Sellers' misrepresentations. Purchaser claims that the misrepresentations caused Purchaser to purchase the stock of Mobile Attic, Inc. with the result that Sellers should be liable for all of Purchaser's losses resulting from the transaction, which include the value paid for the stock of Mobile Attic, Inc., the losses suffered on the assumption of the bank loan, the operating losses funded by Purchaser after the transaction, and attorneys' fees incurred by Purchaser to enforce its claim for indemnity.

On July 9, 2009, the Company filed a complaint in intervention requesting the Court to find that the Company is not liable for indemnity under the Stock Purchase Agreement, or in the alternative, to award damages to the Company for any loss suffered as a result of the fraudulent actions of Peter Cash and as a result of the negligence of Mobile Attic and its auditors in the preparation of Mobile Attic's financial statements. [Mobile Attic, Inc., MA Manufacturing Company, Inc. and Bagley Family Revocable Trust, plaintiffs, v. Peter L. Cash, Cash Brothers Leasing, Inc., Bridgeville Trailers, Inc., and Barfield, Murphy, Shank & Smith, P.C, defendants, v. The National Security Group, Inc., intervenor plaintiff, v. Peter L. Cash, Barfield, Murphy, Shank & Smith, P.C. and Bagley Family Revocable Trust, intervenor defendants, U.S. District Court, Middle District of Alabama, Eastern Division, Civil Action No. 09-cv-00024.]

On August 13, 2009, the Court granted the Company's motion to intervene. The parties have conducted initial discovery in this action, and at the request of the Court, each party filed an amended complaint on or before August 23, 2010. The Purchaser has asserted counterclaims against the Company for losses incurred as a result of failure to disclose material facts or alleged innocent, negligent or reckless false representations made to induce Purchaser to enter into the Stock Purchase Agreement, breach of the Stock Purchase Agreement and indemnification of Purchaser's losses and damages as a result of the breach of representations and warranties in the Stock Purchase Agreement.

The Company has denied the allegations supporting Purchaser's claims. The financial records of Mobile Attic have been in the possession of Purchaser since Purchaser acquired the stock of Mobile Attic in early 2007 and are only available to the Company through discovery in the litigation. The Company is actively conducting discovery in defense of Purchaser's claims and has requested Purchaser to provide the financial information supporting the allegations made in its complaint. Discovery has not been completed at this time. The Company believes that the Purchaser's claim for damages is unreasonable and excessive even if the Purchaser is able to prove the alleged misrepresentations in Mobile Attic's financial statements. Given the difficulty in obtaining access to the Mobile Attic financial records and the fact that discovery is ongoing, the Company is unable to predict the amount of the ultimate liability that the Company may have if the Purchaser is successful in this litigation. Management has recorded an estimate of aggregate litigation related expenses related to these actions as of June 30, 2011 and December 31, 2010, and the amounts are included in other liabilities in the accompanying condensed consolidated financial statements.

The Company establishes and maintains reserves on contingent liabilities. In many instances, however, it is not feasible to predict the ultimate outcome with any degree of accuracy.

NOTE 9 – FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Our securities available-for-sale consists of fixed maturity and equity securities which are recorded at fair value in the accompanying condensed consolidated balance sheets. The change in the fair value of these investments, unless deemed to be other than temporarily impaired, is recorded as a component of other comprehensive income.

We are permitted to elect to measure financial instruments and certain other items at fair value, with the change in fair value recorded in earnings. We elected not to measure any eligible items using the fair value option.

Accounting standards define fair value as the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework to make the measurement of fair value more consistent and comparable. In determining fair value, we primarily use prices and other relevant information generated by market transactions involving identical or comparable assets.

Table of Contents

THE NATIONAL SECURITY GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
(Continued)

The Company categorizes assets and liabilities carried at their fair value based upon a fair value hierarchy:

Level 1 – Quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 1 assets and liabilities consist of money market fund deposits and certain of our marketable debt and equity instruments, including equity instruments offsetting deferred compensation, that are traded in an active market with sufficient volume and frequency of transactions.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 2 assets include certain of our marketable debt and equity instruments with quoted market prices that are traded in less active markets or priced using a quoted market price for similar instruments. Level 2 assets also include marketable equity instruments with security-specific restrictions that would transfer to the buyer, marketable debt instruments priced using indicator prices which represent non-binding market consensus prices that can be corroborated by observable market quotes, as well as derivative contracts and debt instruments priced using inputs that are observable in the market or can be derived principally from or corroborated by observable market data. Marketable debt instruments in this category generally include commercial paper, bank time deposits, repurchase agreements for fixed-income instruments, and a majority of floating-rate notes, corporate bonds, and municipal bonds.

Level 3 - Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

Level 3 assets and liabilities include marketable debt instruments, non-marketable equity investments, derivative contracts, and company issued debt whose values are determined using inputs that are both unobservable and significant to the values of the instruments being measured. Level 3 assets also include marketable debt instruments that are priced using indicator prices that we were unable to corroborate with observable market quotes.

Marketable debt instruments in this category generally include asset-backed securities and certain of our floating-rate notes, corporate bonds, and municipal bonds.

THE NATIONAL SECURITY GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
(Continued)

The Company is exposed to certain risks in the normal course of its business operations. The primary risk that is managed through the use of derivatives is interest rate risk on floating rate borrowings. This risk is managed through the use of interest rate swaps which are designated as cash flow hedges. For cash flow hedges, the effective portion of the gain or loss on the interest rate swap is included as a component of other comprehensive income and reclassified into earnings in the same period during which the hedged transaction is recognized in earnings. The Company does not hold or issue derivatives that are not designated as hedging instruments. See Note 7 for additional information about the interest rate swaps.

The following methods and assumptions were used to estimate fair value of each class of financial instrument for which it is practical to estimate that value:

Cash and cash equivalents—the carrying amount is a reasonable estimate of fair value.

Mortgage receivables—the carrying amount is a reasonable estimate of fair value due to the restrictive nature and limited marketability of the mortgage notes.

Other invested assets—the carrying amount is a reasonable estimate of fair value.

Other policyholder funds—the carrying amount is a reasonable estimate of fair value.

Debt—the carrying amount is a reasonable estimate of fair value.

The carrying amount and estimate fair value of the Company's financial instruments as of June 30, 2011 and December 31, 2010 are as follows:

	In Thousands of Dollars			
	June 30, 2011		December 31, 2010	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Assets and related instruments				
Mortgage loans	\$393	\$393	\$935	\$935
Policy loans	1,185	1,185	1,123	1,123
Company owned life insurance	5,652	5,652	5,520	5,520
Other invested assets	3,871	3,871	3,915	3,915
Liabilities and related instruments				
Other policyholder funds	1,379	1,379	1,351	1,351
Short-term debt	175	175	500	500
Long-term debt	12,372	12,372	12,372	12,372

NOTE 10 – SEGMENTS

The Company's property and casualty insurance operations comprise one business segment. The property and casualty insurance segment consists of seven lines of business: dwelling fire and extended coverage, homeowners (including mobile homeowners), ocean marine, other liability, private passenger auto liability, commercial auto liability and auto physical damage. Management organizes the business utilizing a niche strategy focusing on lower valued dwellings as well as non-standard automobile products. Our chief decision makers (President, Chief Financial Officer and Chief Executive Officer) review results and operating plans making decisions on resource allocations on a company-wide basis. The Company's products are primarily produced through agents within the states in which we operate. The Company's life and accident and health operations comprise the second business segment. The life and accident and health insurance segment consists of two lines of business: traditional life insurance and accident and health insurance.

REVIEW OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
The National Security Group, Inc.

We have reviewed the condensed consolidated balance sheet of The National Security Group, Inc. as of June 30, 2011, and related condensed consolidated statements of income (loss) for the three-month and six-month periods ended June 30, 2011 and 2010, shareholders' equity for the six-month period ended June 30, 2011, and cash flows for the six-month periods ended June 30, 2011 and 2010. These condensed consolidated financial statements are the responsibility of the company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying condensed consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of The National Security Group, Inc. as of December 31, 2010, and the related consolidated statements of income, shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated March 31, 2011, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2010, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2.

MANAGEMENTS' DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion addresses the financial condition of The National Security Group, Inc. (referred to in this document as we, our, us, the Company or NSEC) as of June 30, 2011, compared with December 31, 2010 and its results of operations and cash flows for the quarter ending June 30, 2011, compared with the same period last year. This discussion and analysis should be read in conjunction with the unaudited consolidated financial statements and related notes thereto included in Part I, Item 1 of this report and with our audited consolidated financial statements and related notes thereto contained in our Annual Report on Form 10-K for the year ended December 31, 2010.

This discussion will primarily consist of an analysis of the two segments of our operations. The life segment consists of the operations of our life insurance subsidiary, National Security Insurance Company (NSIC). The property and casualty (P&C) segment consists of the operations of our two property and casualty insurance subsidiaries, National Security Fire & Casualty Company (NSFC) and Omega One Insurance Company (Omega).

This discussion contains forward-looking statements that are not historical facts, including statements about our beliefs and expectations. These statements are based upon current plans, estimates and projections. Our actual results may differ materially from those projected in these forward-looking statements as a result of various factors. See "Cautionary Statement Regarding Forward-Looking Statements" contained on Page 3 of this report.

The reader is assumed to have access to the Company's 2010 Annual Report. This discussion should be read in conjunction with the Annual Report and with condensed consolidated financial information on pages 5 through 29 of this form 10-Q.

Information in this discussion is presented in whole dollars rounded to the nearest thousand.

The National Security Group operates in the property and casualty and life, accident and supplemental health insurance businesses and markets products primarily through independent agents. The company operates in eleven states with just under 54% of total premium revenue generated in the states of Alabama and Mississippi. Property and casualty insurance is the most significant segment accounting for 87.1% of total insurance premium revenue during the first six months of 2011. Revenue generated from the life segment accounted for 12.9% of total insurance premium revenue.

National Security Insurance Company (NSIC) is a life, accident and health insurance company founded in 1947 and is the oldest subsidiary of the Company. The premium revenue produced in NSIC from the traditional life products and accident and health products accounted for 9.5% and 3.4%, respectively, of total premium revenue. All references to NSIC in the remainder of this management discussion and analysis will refer to the combined life, accident and health insurance operations and will compose the life segment of the Company. NSIC is licensed to underwrite life and accident and health insurance in Alabama, Florida, Georgia, Mississippi, South Carolina and Texas.

Omega One Insurance Company (Omega) is a property and casualty insurance company incorporated in 1992. Omega is a wholly owned subsidiary of National Security Fire and Casualty Company (NSFC) and is the smallest of the insurance subsidiaries accounting for approximately 8% of consolidated premium revenue. Omega is licensed and underwrites property and casualty insurance in the states of Alabama and Louisiana. There is no material product differentiation between those products underwritten by NSFC and Omega as both primarily underwrite personal lines of insurance.

National Security Fire and Casualty Company (NSFC) is a property and casualty insurance company and is the largest of the insurance subsidiaries accounting for over 79.1% of total premium revenue of the Company. NSFC operates primarily in the personal lines segment of the property and casualty insurance market. NSFC has been in operation since 1959. NSFC is licensed and underwrites property and casualty insurance in the states of Alabama, Arkansas, Florida, Georgia, Mississippi, Oklahoma, South Carolina and Tennessee. NSFC is licensed, but does not currently underwrite any business, in the states of Kentucky and West Virginia. NSFC also underwrites insurance on a non-admitted or surplus lines basis in the states of Louisiana, Missouri and Texas.

All of the insurance subsidiaries are Alabama domiciled insurance companies and therefore the Alabama Department of Insurance is the primary insurance regulator. However, each subsidiary is subject to regulation by the respective insurance regulators of each state in which it is licensed to transact business. Insurance rates charged by each of the insurance subsidiaries are typically reviewed and approved by each insurance department for the respective state to which the rates will apply.

Table of Contents

All of our insurance companies have been assigned ratings by A.M. Best. The property and casualty group has been assigned a group rating of "B++" (Good) with a negative outlook. In addition, A.M. Best has assigned an issuer credit rating of "bbb" with a negative outlook. NSFC, the largest of the insurance subsidiaries, carries the same A.M. Best ratings as the group. Omega carries an A.M. Best rating of "B+" (Good) with a stable outlook and an issuer credit rating of "bbb-" with a stable outlook. The life insurance subsidiary, NSIC, has been assigned a rating of "B" (Fair) with a stable outlook and an issuer credit rating of "bb" with a stable outlook. All ratings are reviewed at least annually by A.M. Best with the latest ratings effective date of January 28, 2011.

The two primary segments in which we report insurance operations are the personal lines property and casualty segment (NSFC) and the life, accident and health insurance segment (NSIC). Please note that due to the small amount of premium revenue produced by Omega and the fact that Omega is a wholly owned subsidiary of NSFC underwriting similar lines of business, all references to NSFC in the remainder of this management discussion and analysis will include the insurance operations of both NSFC and Omega. Our income is principally derived from net underwriting profits and investment income. Net underwriting profit is principally derived from earned premiums received less claims paid, sales commissions to agents, costs of underwriting and insurance taxes and fees. Investment income includes interest and dividend income and gains and losses on investment holdings.

CONSOLIDATED RESULTS OF OPERATIONS

Summary:

The Company ended the first six months of 2011 with a net loss of \$3,950,000 compared to net income of \$2,708,000 for the same period last year. The primary reason for the decline in net income was the \$5,470,000 increase in policyholder benefits paid or provided. The 28% increase in policyholder benefits paid or provided was largely related to the \$5,262,000 increase in incurred losses and incurred adjustment expenses in the P&C segment from several severe weather related events during the second quarter of 2011. The P&C segment incurred losses and loss adjustment expenses from one weather event (officially assigned catastrophe number 46 by Property Claim Services) which caused us to pierce our catastrophe reinsurance. Throughout the remainder of this document, claims from the storm with the aforementioned loss dates will be referred to as "catastrophe 46" or "cat 46" and references to reinsured losses in 2011 will be all-encompassing of catastrophe 46.

The life insurance segment ended June 2011 with a \$255,000 increase in incurred losses compared to June 2010 with the primary source being death and maturity benefits which increased 6.2% compared to the same period last year.

Table of Contents

Three-months ended June 30, 2011 compared to three-months ended June 30, 2010:

Premium revenue:

The table below provides earned premium revenue by segment for the three-months ended June 30, 2011 and 2010:

	Three months ended June 30,		Percent	
	2011	2010	increase	(decrease)
Life, accident and health operations:				
Traditional life insurance	\$ 1,302,000	\$ 1,315,000	(0.99)%
Accident and health insurance	475,000	474,000	0.21	%
Total life, accident and health	1,777,000	1,789,000	(0.67)%
Property and Casualty operations:				
Dwelling fire & extended coverage	6,666,000	6,239,000	6.84	%
Homeowners (Including mobile homeowners)	6,227,000	7,270,000	(14.35)%
Ocean marine	300,000	312,000	(3.85)%
Other liability	321,000	333,000	(3.60)%
Private passenger auto liability	685,000	960,000	(28.65)%
Commercial auto liability	92,000	121,000	(23.97)%
Auto physical damage	274,000	405,000	(32.35)%
Reinsurance premium ceded	(3,021,000)	(1,526,000)	97.97	%
Total property and casualty	11,544,000	14,114,000	(18.21)%
Total earned premium revenue	\$ 13,321,000	\$ 15,903,000	(16.24)%

Premium revenue decreased \$2,582,000 or 16.2% to \$13,321,000 in the second quarter of 2011 compared to \$15,903,000 for the same period last year. The P&C segment had an 18.2% decrease in net premiums earned for the three-months ended June 30, 2011 compared to the same period last year. The primary reason for the decrease in net earned premium was an increase in ceded premium from catastrophe reinstatement totaling \$1,490,000. The reinstatement premium was triggered by tornado, wind and hail related catastrophe losses which occurred from cat 46.

Decreases in the homeowners and personal lines auto business were the primary factors contributing the remaining decrease in premium revenue. The implementation of stricter underwriting standards along with ongoing limitations on growth along the Alabama, Mississippi and Louisiana coasts were primary reasons for the decrease in net premiums earned for the homeowners program compared to June 2010. The primary reason for the decline in net premiums earned in the automobile line of business was the implementation of rate increases which slowed growth in this program; principally in the state of Louisiana.

Premium revenue from the life segment was virtually unchanged with an overall decline of 0.7% for the second quarter of 2011 compared to the second quarter of 2010.

Investment income:

Investment income in the second quarter of 2011 was \$1,257,000, an increase of \$62,000 compared to \$1,195,000 for the same period last year. The primary reason for the increase was investment income generated from our company owned life insurance (COLI). For the three-months ended June 30, 2011, COLI investment income totaled \$69,000 compared to \$16,000 for the same period last year. The primary reason for the increase was an improvement in the

performance of the fixed income investments in the portfolio.

Realized investment gains and losses:

Net realized investment gains totaled \$261,000 for the second quarter of 2011 compared to net realized investment gains of \$689,000 for the second quarter of 2010. The reduction in realized capital gains was due to fewer shifts in the investment portfolio in the second quarter of 2011 compared to last year.

Table of Contents

Other income:

For the three-months ended June 30, 2011 and 2010, other income was \$256,000. Other income is primarily composed of billing, payment and policy fees associated with residential property and automobile policies issued in the P&C segment.

Policyholder benefits and settlement expenses:

For the three-months ended June 30, 2011, the Company incurred policyholder benefits and settlement expenses totaling \$15,682,000 compared to \$11,061,000 for the same period last year; an increase of 41.8%. The principal reason for the increase for the three-month period was an increase in incurred losses in the P&C segment, primarily in the property programs, compared to the same period last year. A series of severe spring storm systems occurred in the month of April causing widespread tornado, wind and hail damage. The storm damage impacted policyholders in the states of Alabama, Arkansas, Georgia, Mississippi, Oklahoma, South Carolina and Tennessee. The heaviest concentration of insured losses were incurred in a tornado outbreak in the states of Alabama, Georgia and Mississippi from catastrophe 46. This storm system generated over 1,300 policyholder claims. Total gross incurred losses from this event were \$9,936,000 and exceeded the retention limit of \$3,500,000 in our catastrophe reinsurance coverage. After reinsurance recoveries, our net incurred losses from this event totaled \$4,234,000, which included our retention and coinsurance amounts under our catastrophe reinsurance coverage. The claims related to catastrophe 46 increased the second quarter 2011 loss ratio 40.4 percentage points. The loss ratio for the second quarter of 2011 was 117.7% (77.3% without cat 46 claims) compared to 69.6% for the second quarter of 2010.

In addition to losses generated by cat 46, we incurred \$2,560,000 in insured losses from other tornado, wind and hail storm events during the second quarter of 2011 compared to \$1,463,000 for the same period last year. The \$1,097,000 increase in non-reinsured storm losses increased the loss ratio in the second quarter of 2011 an additional 17.3 percentage points compared to 2010 storm related losses which increased the loss ratio 9.2 percentage points for the three-month period ended June 30, 2010.

Policy acquisition cost:

For the three-month period ended June 30, 2011, policy acquisition cost was \$3,071,000 compared to \$2,970,000 for the same period last year. The primary factor contributing to the increase in policy acquisition cost was an increase in the amortization of deferred acquisition cost in the life subsidiary.

General expenses:

General expenses for the three-months ended June 30, 2011, totaled \$2,986,000 compared to \$2,155,000 for the same period last year. The most significant factor affecting the increase in general expenses was litigation related defense costs compared to the same period last year. See Note 8 to the condensed consolidated financial statements for further discussion regarding litigation.

Taxes, licenses and fees:

Taxes, licenses and fees totaled \$622,000 for the quarter-ended June 30, 2011, compared to \$480,000 for the quarter-ended June 30, 2010; a \$142,000 increase. As a percent of premiums earned, taxes, licenses and fees were 4.7% for the second quarter of 2011 compared to 3.2% for the same period last year. Examination fees associated with a periodic regulatory examination conducted by the Alabama Department of Insurance was the primary reason for the increase. The examination concluded in May of 2011.

Interest expense:

Interest expense was down moderately due to a lower average balance outstanding on a bank line of credit.

Income taxes:

For the three-month period ended June 30, 2011, income tax benefit totaled \$2,606,000 compared to an income tax expense of \$256,000 for the same period last year. The effective tax rate for the three-month period ended June 30, 2011 was 34.5% compared to 23.9% for the same period last year. Significant losses sustained in the property and casualty subsidiaries have generated considerable tax benefits for the current quarter. Because the effective tax rate in the property and casualty subsidiaries is higher than in the life subsidiary coupled with the higher percentage of total net losses generated from the P&C segment, the effective tax rate increased in the second quarter of 2011 compared to the second quarter of 2010. Because the property and casualty companies posted profitable results in each of the prior two years, it is expected that, should full year 2011 results generate a net operating loss, the tax benefit of any net operating losses for 2011 will be recovered immediately through carry back provisions of the Federal Tax Code.

Table of Contents

Six-months ended June 30, 2011 compared to six-months ended June 30, 2010:

Premium Revenue:

The table below provides earned premium revenue by segment for the six months ended June 30, 2011 and 2010:

	Six months ended June 30,		Percent	
	2011	2010	increase	(decrease)
Life, accident and health operations:				
Traditional life insurance	\$2,688,000	\$2,679,000	0.34	%
Accident and health insurance	958,000	972,000	(1.44))%
Total life, accident and health	3,646,000	3,651,000	(0.14))%
Property and Casualty operations:				
Dwelling fire & extended coverage	13,165,000	12,621,000	4.31	%
Homeowners (Including mobile homeowners)	12,471,000	13,864,000	(10.05))%
Ocean marine	619,000	632,000	(2.06))%
Other liability	631,000	643,000	(1.87))%
Private passenger auto liability	1,441,000	1,635,000	(11.87))%
Commercial auto liability	211,000	253,000	(16.60))%
Auto physical damage	571,000	707,000	(19.24))%
Reinsurance premium ceded	(4,564,000)	(3,065,000)	48.91	%
Total property and casualty	24,545,000	27,290,000	(10.06))%
Total earned premium revenue	\$28,191,000	\$30,941,000	(8.89))%

Consolidated premium revenue was \$28,191,000 as of June 2011 compared to \$30,941,000 as of June 2010; a decrease of \$2,750,000 or 8.9%. The decline was primarily driven by declines in net earned premium in the P&C segment due to catastrophe reinstatement premium, a decrease in auto policies in-force and a moderate decline in homeowners business.

The P&C segment ended June 2011 with year-to-date net earned premiums of \$24,545,000 compared to \$27,290,000 for the same period last year; a decrease of 10.1%. The primary reason for the decrease in net earned premium was an increase in ceded catastrophe reinstatement premium of \$1,490,000 triggered by tornado related catastrophe losses in the last week of April, 2011.

Decreases in the homeowners and personal lines auto business were the primary factors contributing the the remaining decrease in premium revenue. The implementation of stricter underwriting standards along with ongoing limitations on growth along the Alabama, Mississippi and Louisiana coasts were primary reasons for the decrease in net premiums earned for the homeowners program compared to June 2010. The primary reason for the decline in net premiums earned in the automobile line of business was the implementation of rate increases which slowed growth in this program; principally in the state of Louisiana.

Life segment premium revenue was virtually unchanged in the six month period ending June 30, 2011 at \$3,646,000 compared to \$3,651,000 for the same period last year; a decrease of 0.1%.

Investment income:

Investment income decreased \$122,000 to \$2,399,000 as of June 2011 from \$2,521,000 in June 2010. The decrease in investment income was primarily due to lower yields on reinvested cash flows from sells and maturities in the fixed income portfolio.

Realized investment gains and losses:

For the first six months of 2011, realized investment gains totaled \$1,031,000 compared to \$1,358,000 for the same period last year; a decrease of \$327,000. The investment gains realized in the current year totaled \$643,000 and \$358,000 in the P&C and life segments, respectively compared to \$341,000 and \$328,000 for the same period last year. The primary reason for the decrease in realized capital gains was that fewer changes were made in the investment portfolio during the period.

Table of Contents

Other income:

Other income was \$511,000 as of June 2011 compared to \$555,000 as of June 2010; a decrease of 7.9%. Other income is primarily composed of billing, payment and policy fees associated with residential property and automobile policies issued in the P&C segment. Due to the decline in production our auto program, billing, payment and policy fees declined and was the primary reason for the overall reduction in other income for the current year.

Policyholder benefits:

Policyholder benefits paid or provided as of June 2011 were \$25,004,000 compared to \$19,534,000 for the same period last year; an increase of 28%. The primary reason for the 18.7 percentage point increase in the loss ratio for the current year was related to increased claim activity in the P&C segment primarily resulting from severe wind, hail and tornado damage incurred from catastrophe 46. The losses incurred from this storm exceeded our catastrophe reinsurance retention of \$3,500,000 and triggered coverage under our catastrophe reinsurance program. The P&C segment incurred gross losses and loss adjustment expenses totaling \$9,936,000 (\$4,234,000 net of reinsurance) from cat 46. The reinsurance related claims increased the overall loss ratio 18.7 percentage points in 2011 compared to 2010.

The remainder of the increase in policyholder claims is attributable to a higher frequency of tornado and windstorm losses in early April 2011. In addition to the \$4,234,000 in pretax net losses incurred from catastrophe 46, we experienced an additional \$2,775,000 from various other tornado and hail storm events during 2011; most of these losses were incurred in early April. Cumulatively, tornado and windstorm losses incurred during the month of April 2011 were tenfold greater than any other single month of spring storms experienced previously. The 2011 tornado and windstorm claims contributed just under \$2,775,000 to incurred losses and added 9.3 percentage points to the 2011 loss ratio (excluding cat 46). In comparison, tornado and windstorm losses during the first half of 2010 totaled \$1,597,000 and added 5.2 percentage points to the loss ratio.

Policy acquisition cost:

For the six months ended June 30, 2011, policy acquisition costs were \$5,995,000 compared to \$5,718,000 for the same period last year. The increase was primarily attributable to an increase in amortization of policy acquisition cost in the life subsidiary.

General Expenses:

General expenses were up \$809,000 as of June 2011 at \$5,549,000 compared to \$4,740,000 as of June 2010. The primary reason for the increase was related to litigation expenses in our holding company. Litigation expenses were \$789,000 as of June 2011 compared to \$166,000 for the same period last year; an increase of \$623,000. This increase accounted for 77% of the overall increase in general expenses through the second quarter of 2011. See Note 8 to the condensed consolidated financial statements for further discussion regarding litigation.

Taxes, licenses and fees:

Taxes, licenses and fees were up \$135,000 for the six months ending June 2011 at \$1,102,000 compared to \$967,000 for the same period last year. Taxes, licenses and fees as a percentage of earned premiums were 3.9% as of June 30, 2011 and 3.1% for the same period last year. The primary reason for the increase was fees incurred from the recently completed regulatory examination conducted by the Alabama Department of Insurance.

Interest expense:

Interest expense was virtually unchanged at \$570,000 as of June 30, 2011, compared to \$565,000 for the same period last year.

Income taxes:

For the period ended June 30, 2011, income tax benefit totaled \$2,138,000 compared to an income tax expense of \$1,143,000 for the same period last year. The effective tax rate as of June 30, 2011 was 35.1% compared to 29.7% for the same period last year. Income tax (benefit)/expense was composed of current taxes totaling \$(2,165,000) and \$588,000 for first six months of 2011 and 2010, respectively, while deferred tax expense totaled \$27,000 and \$555,000, for the same time periods respectively. As mentioned previously, the significant losses sustained in the property and casualty subsidiaries generated considerable tax benefits during 2011 and therefore increased the effective tax rate in the current year compared to the same period last year.

Table of Contents

Liquidity and capital resources:

At June 30, 2011, the Company had aggregate equity capital, unrealized investment gains (net of income taxes) and retained earnings of \$39,250,000 down \$4,460,000 compared to \$43,710,000 at December 31, 2010. Components of the change in equity were a net loss of \$3,950,000, net unrealized gains of \$285,000 and a net unrealized loss of \$55,000 related to interest rate swaps and cash dividends paid totaling \$740,000.

The Company has \$12,372,000 in debt outstanding consisting of long-term debt from the proceeds of two separate trust preferred securities issuances, the latest of which totaled \$3,000,000 and was completed in June 2007. The Company has an operating line of credit to allow flexibility with respect to cash management at the holding company level. The outstanding balance on the line, at June 30, 2011, was \$175,000. We had \$525,000 available at June 30, 2011 under the operating credit line.

The Company had \$965,000 in cash and cash equivalents at June 30, 2011 compared to \$2,698,000 at June 30, 2010. Cash flow from operations declined \$8,805,000 for the six months compared to the same period last year. The primary reason for the decline in operating cash flow was a reduction in net income related to catastrophe losses during the month of April 2011. Gross losses from a single storm system that swept across the Southeast in late April totaled \$9,936,000. The Company maintains a catastrophe reinsurance program to limit the effect of such catastrophic events on the Company's financial condition. Net income, net of reinsurance, for the period ended June 30, 2011, was reduced by \$3,777,000 (\$1.53 per share) due to storm related losses from this event. Also largely associated with the storms and the decline in cash flow from operations were increases in reinsurance recoverables of \$1,832,000 and a decline in accrued income taxes totaling \$2,604,000.

The payment of catastrophe claims during the second quarter led the Company to liquidate certain investments in order to provide more cash to pay claims. Cash provided by investing activities increased \$10,867,000 during the first six months of 2011 compared to the same period last year. The cash provided from investments was primarily used to pay storm related claims.

The liquidity requirements of the Company are primarily met by funds provided from operations of the life insurance and property/casualty subsidiaries. The Company receives funds from its subsidiaries consisting of dividends, payments for federal income taxes, and reimbursement of expenses incurred at the corporate level for the subsidiaries. These funds are used to pay stockholder dividends, interest on debt, corporate administrative expenses, federal income taxes, and for funding investments in subsidiaries. Dividends paid from the insurance subsidiaries are subject to regulatory restrictions and prior approval of the Alabama Department of Insurance.

As disclosed in Note 8 to the condensed consolidated financial statements regarding contingencies, the Company is involved in litigation related to the sale of Mobile Attic, Inc. As is customarily discussed in the Management Discussion and Analysis, the Company's liquidity requirements are primarily met by funds provided from operations of the insurance subsidiaries. The Company maintains minimal liquidity in order to maximize liquidity within the insurance subsidiaries in order to support ongoing insurance operations. The Company has no separate source of revenue other than dividends and fees from the insurance subsidiaries. Also, dividends from the insurance subsidiaries are subject to regulatory restrictions and, therefore, are limited depending on capital levels and earnings of the subsidiaries. In the event of a substantial adverse judgment related to the litigation against the Company, we could face limitations in our ability to fund shareholder dividends and service interest payments on outstanding debt.

The uncertainty related to the pending litigation could also impair our ability to raise new debt or equity capital. The Company is vigorously defending the allegations raised in this litigation and is unable to determine a potential ultimate liability at this time which limits our ability to predict the ultimate impact on our liquidity and capital resources.

The Company's subsidiaries require cash in order to fund policy acquisition costs, claims, other policy benefits, interest expense, general expenses, and dividends to the Company. Premium and investment income, as well as maturities, calls, and sales of invested assets, provide the primary sources of cash for both subsidiaries. A significant portion of the Company's investment portfolio consists of readily marketable securities, which can be sold for cash.

Except as discussed above and in Note 8 to the condensed consolidated financial statements, the Company is aware of no known trends, events, or uncertainties reasonably likely to have a material effect on its liquidity, capital resources, or operations. Additionally, the Company has not been made aware of any recommendations of regulatory authorities, which if implemented, would have such an effect.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Under smaller reporting company rules, we are not required to disclose information required under Item 3. However, in order to provide information to our investors, we have elected to provide information related to market risk.

Table of Contents

The Company's primary objectives in managing its investment portfolio are to maximize investment income and total investment returns while minimizing overall credit risk. Investment strategies are developed based on many factors including changes in interest rates, overall market conditions, underwriting results, regulatory requirements, and tax position. Investment decisions are made by management and reviewed by the Board of Directors. Market risk represents the potential for loss due to adverse changes in fair value of securities. The three potential risks related to the Company's fixed maturity portfolio are interest rate risk, prepayment risk, and default risk. The primary risk related to the Company's equity portfolio is equity price risk. The Company has not incurred material losses in its investment portfolio in the first six months of 2011 related to interest rate changes, defaults on certain securities and changes in value of equity investments. Changes are discussed in detail under Item 2 of this Form 10-Q. For further information regarding market risk, reference is made to the Company's Form 10-K for the year ended December 31, 2010.

Item 4. Controls and Procedures

Our management carried out an evaluation, with the participation of our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures as of June 30, 2011. Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There has not been any change in our internal control over financial reporting in connection with the evaluation required by Rule 13A-15(d) under the Exchange Act that occurred during the three month period ended June 30, 2011, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

Please refer to Note 8 to the financial statements.

Item 1A. Risk Factors

There has been no material change in risk factors previously disclosed under Item 1A. of the Company's annual report for 2010 on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None

Item 5. Other Information

None
