NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) GENERAL

The unaudited interim consolidated financial statements included for A. Schulman, Inc. (the “Company”) reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of the results of the interim periods presented. All such adjustments are of a normal recurring nature. The fiscal year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The unaudited consolidated financial information should be read in conjunction with the consolidated financial statements and notes thereto incorporated in the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2014.

The results of operations for the three months ended November 30, 2014 are not necessarily indicative of the results expected for the fiscal year ending August 31, 2015.

The accounting policies for the periods presented are the same as described in Note 1 – Business and Summary of Significant Accounting Policies to the consolidated financial statements contained in the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2014.

Certain items previously reported in specific financial statement captions have been reclassified to conform to the fiscal 2015 presentation.

(2) BUSINESS ACQUISITIONS

Specialty Plastics Business of Ferro Corporation

On July 1, 2014, the Company acquired the majority of the assets of the specialty plastics business of Ferro Corporation (“Specialty Plastics” acquisition) for \$91.0 million. The results of operations for this business have been included in the consolidated financial statements since the date of acquisition.

The acquisition strategically expands the Company’s geographic reach with multiple facilities located in the U.S. and one facility located in Spain, diversifies the Company’s product mix and strengthens its position in a broad range of attractive product markets. Additionally, the business offers a broad portfolio of proprietary products and recognized brand names serving a wide range of end markets including packaging, transportation, construction, appliances and agriculture.

The information included herein has been prepared based on the preliminary allocation of the purchase price using estimates of the fair value and useful lives of assets acquired and liabilities assumed which were determined with the assistance of independent valuations using discounted cash flow and comparative market multiple approaches, quoted market prices and estimates made by management. The purchase price allocation is subject to further adjustment until all pertinent information regarding the acquired accounts receivable, inventory, intangible assets, property, plant & equipment, other current and long-term liabilities, and deferred income tax assets and liabilities are fully evaluated by the Company.

A. SCHULMAN, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table presents the preliminary estimated fair value of the assets acquired and liabilities assumed from the Specialty Plastics acquisition at the date of acquisition:

	As of July 1, 2014 (In thousands)
Accounts receivable	\$27,850
Inventories	12,800
Prepaid expenses and other current assets	415
Property, plant and equipment	20,049
Intangible assets	26,985
Total assets acquired	\$88,099
Accounts payable	15,247
Accrued payroll, taxes and related benefits	1,552
Other accrued liabilities	706
Other long-term liabilities	181
Total liabilities assumed	\$17,686
Identifiable net assets acquired	\$70,413
Goodwill	20,587
Net assets acquired	\$91,000

The Company preliminarily recorded acquired intangible assets of \$27.0 million, all of which are customer related intangibles with an estimated weighted-average useful life of 13.6 years. In addition, the estimated fair value of accounts receivable acquired was \$27.9 million with the gross contractual amount being \$28.0 million.

Goodwill is calculated as the excess of the purchase price over the estimated fair values of the assets acquired and the liabilities assumed in the acquisition, and represents the future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. The amount allocated to goodwill associated with the Specialty Plastics acquisition is primarily the result of anticipated synergies and market expansion.

The following pro forma information represents the consolidated results of the Company as if the Specialty Plastics acquisition occurred as of September 1, 2013:

	Three months ended November 30, 2013 Unaudited (In thousands, except per share data)
Net sales	\$ 624,872
Net income attributable to A. Schulman, Inc.	\$ 16,075

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table summarizes the Company's other business acquisitions for the periods presented:

Transaction Description	Date of Transaction	Purchase Consideration (In millions)	Segment
Perrite Group A thermoplastics manufacturer with business in niche engineered plastics and custom color with operations in Malaysia, the United Kingdom and France	September 2, 2013	\$51.3	EMEA and APAC
Network Polymers, Inc. An Ohio niche engineered plastics compounding business that is a leading single source provider of thermoplastic resins and alloys	December 2, 2013	\$49.2	Americas
Prime Colorants A Tennessee manufacturer of custom color and additive concentrates	December 31, 2013	\$15.1	Americas
Compco Pty. Ltd. A manufacturer of masterbatches and custom color with operations in Australia	September 2, 2014	\$6.7	APAC

The Company incurred \$1.1 million and \$0.6 million of acquisition and integration related costs, primarily included in selling, general & administrative expenses, during the three months ended November 30, 2014 and 2013, respectively.

(3) GOODWILL AND OTHER INTANGIBLE ASSETS

The changes in the Company's carrying value of goodwill are as follows:

	EMEA (In thousands)	Americas	APAC	Total
Balance as of August 31, 2014	\$85,957	\$115,679	\$663	\$202,299
Acquisitions	(80)) 1,064	407	1,391
Translation and other	(4,556)) (404)) (81)) (5,041)
Balance as of November 30, 2014	\$81,321	\$116,339	\$989	\$198,649

Goodwill is calculated as the excess of the purchase price over the estimated fair values of the assets acquired and the liabilities assumed in the acquisition, and represents the future economic benefits arising from other assets acquired that could not be individually identified and separately recognized.

Goodwill is tested for impairment at the reporting unit level on an annual basis in the fourth quarter and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value.

The Company completed its annual impairment review of goodwill as of June 1, 2014 and noted no impairment. Management uses judgment to determine whether to use a qualitative analysis or a quantitative fair value measurement approach that combines the income and market valuation techniques for each of the Company's reporting units that carry goodwill. These valuation techniques use estimates and assumptions including, but not limited to, the determination of appropriate market comparables, projected future cash flows (including timing and profitability), discount rate reflecting the risk inherent in future cash flows, perpetual growth rate, and projected future economic and market conditions.

The Company is not aware of any triggers which would require a goodwill impairment test as of November 30, 2014.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table summarizes intangible assets with finite useful lives by major category:

	November 30, 2014			August 31, 2014		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
	(In thousands)					
Customer related	\$136,295	\$(30,741)	\$105,554	\$139,990	\$(29,088)	\$110,902

Total finite-lived intangible assets	\$175,462	\$(43,974)	\$131,488	\$180,538	\$(41,904)	\$138,634

Foreign currency translation reduced the gross carrying amount of intangible assets by \$5.1 million from August 31, 2014 to November 30, 2014. Amortization expense of intangible assets was \$3.4 million and \$3.0 million for the three months ended November 30, 2014 and 2013, respectively.

(4) FAIR VALUE MEASUREMENT

The following table presents information about the Company's assets and liabilities measured at fair value:

	November 30, 2014				August 31, 2014			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
	(In thousands)							
Assets recorded at fair value:								
Foreign exchange forward contracts	\$1,610	\$—	\$1,610	\$—	\$713	\$—	\$713	\$—
Liabilities recorded at fair value:								
Foreign exchange forward contracts	\$1,718	\$—	\$1,718	\$—	\$557	\$—	\$557	\$—
Liabilities not recorded at fair value:								
Long-term fixed-rate debt	\$55,201	\$—	\$55,201	\$—	\$58,882	\$—	\$58,882	\$—

Cash and cash equivalents are recorded at cost, which approximates fair value. Additionally, the carrying value of the Company's variable-rate debt approximates fair value.

The Company measures the fair value of its foreign exchange forward contracts using an internal model. The model maximizes the use of Level 2 market observable inputs including interest rate curves, currency forward and spot prices, and credit spreads. The total contract value of foreign exchange forward contracts outstanding was \$161.4 million and \$118.0 million as of November 30, 2014 and August 31, 2014, respectively. The amount of foreign exchange forward contracts outstanding as of the end of the period is indicative of the exposure of current balances and the forecasted change in exposures for the following quarter. Any gains or losses associated with these contracts as well as the offsetting gains or losses from the underlying assets or liabilities are included in the foreign currency transaction (gains) losses line in the Company's consolidated statements of operations. The fair value of the Company's foreign exchange forward contracts is recognized in other current assets or other accrued liabilities in the consolidated balance sheets based on the net settlement value. The foreign exchange forward contracts are entered into with creditworthy financial institutions, generally have a term of three months or less, and the Company does not hold or issue foreign exchange forward contracts for trading purposes. There were no foreign exchange forward contracts designated as hedging instruments as of November 30, 2014 and August 31, 2014.

Long-term fixed-rate debt issued in Euros is recorded at cost and is presented at fair value for disclosure purposes as shown in the table above. The Level 2 fair value of the Company's long-term fixed-rate debt was estimated using prevailing market interest rates on debt with similar creditworthiness, terms and maturities. As of November 30, 2014 and August 31, 2014, the carrying value of the Company's long-term fixed-rate debt recorded on the consolidated

balance sheets was \$53.4 million and \$56.4 million, respectively.

For a discussion of the Company's fair value measurement policies under the fair value hierarchy, refer to Note 1 in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014. The Company has not changed its valuation techniques for measuring the fair value of any financial assets or liabilities during fiscal 2015, and transfers between levels

within the fair value hierarchy, if any, are recognized at the end of each quarter. There were no transfers between levels during the periods presented.

Additionally, the Company remeasures certain assets to fair value, using Level 3 measurements, as a result of the occurrence of triggering events. There were no significant assets or liabilities that were remeasured at fair value on a non-recurring basis during the periods presented.

(5) INCOME TAXES

A reconciliation of the U.S. statutory federal income tax rate with the effective tax rates for the respective periods is as follows:

	Three months ended November 30,						
	2014		2013				
	(In thousands, except for %'s)						
U.S. statutory federal income tax rate	\$6,256	35.0	%	\$6,019	35.0	%	
Amount of foreign taxes at less than U.S. statutory federal income tax rate	(2,034)	(11.4)	(3,794) (22.1)
U.S. and foreign losses with no tax benefit	1,430	8.0		1,785	10.4		
U.S. restructuring and other U.S. charges with no benefit	539	3.0		473	2.8		
U.S. income with no tax	(2,091)	(11.7)	—	—	
Establishment (resolution) of uncertain tax positions	49	0.3		56	0.3		
Other	337	1.9		29	0.2		
Provision (benefit) for U.S. and foreign income taxes	\$4,486	25.1	%	\$4,568	26.6	%	

The effective tax rates for the three months ended November 30, 2014 and 2013 are less than the U.S. statutory federal income tax rate primarily because of the Company's overall foreign tax rates being less than the U.S. statutory federal income tax rate. The decrease in the effective tax rate for the three months ended November 30, 2014 as compared with the same period last year was driven primarily by a decrease in U.S. and foreign losses with no tax benefit combined with U.S. income in the current period with no tax as a result of an offsetting decrease in the U.S. valuation allowance.

As of November 30, 2014, the Company's gross unrecognized tax benefits totaled \$3.6 million. If recognized, \$2.8 million of the total unrecognized tax benefits would favorably affect the Company's effective tax rate. The Company reports interest and penalties related to income tax matters in income tax expense. As of November 30, 2014, the Company had \$0.9 million of accrued interest and penalties on unrecognized tax benefits.

The Company's statute of limitations is open in various jurisdictions as follows: Germany - from 2005 onward, France - from 2010 onward, U.S. - from 2011 onward, Belgium - from 2012 onward, other foreign jurisdictions - from 2009 onward.

The amount of unrecognized tax benefits is expected to change in the next 12 months; however, the change is not expected to have a significant impact on the financial position of the Company.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

On December 12, 2014, both the Compensation Committee and all of the independent members of the Board of Directors of the Company unanimously approved the accelerated vesting upon retirement of the outstanding equity compensation awards previously granted to Joseph M. Gingo in 2013 and 2014 in lieu of the pro rata vesting otherwise required under the terms of the awards. As a result, the Company expects to recognize a one-time charge of approximately \$5.8 million during the second quarter of fiscal 2015 for such accelerated vesting. Awards granted in 2012 will vest pursuant to their grant terms and conditions on January 12, 2015.

(10) EARNINGS PER SHARE

Basic earnings per share is computed by dividing income available to common stockholders by the weighted-average number of shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if common stock equivalents are exercised as well as the impact of restricted stock awards expected to vest, which combined would then share in the earnings of the Company.

The difference between basic and diluted weighted-average shares results from the assumed exercise of outstanding stock options and vesting of restricted stock awards, calculated using the treasury stock method. The following table presents the number of incremental weighted-average shares used in computing diluted per share amounts:

	Three months ended November 30,	
	2014	2013
	(In thousands)	
Weighted-average shares outstanding:		
Basic	29,017	29,017
Incremental shares from equity awards	451	188
Diluted	29,468	29,205

(11) SEGMENT INFORMATION

The Company considers its operating structure and the types of information subject to regular review by its President and Chief Executive Officer (“CEO”), who is the Chief Operating Decision Maker (“CODM”), to identify reportable segments. The CODM makes decisions, assesses performance and allocates resources by the following regions, which are also the Company’s current reportable segments: Europe, Middle East and Africa (“EMEA”), the Americas, and Asia Pacific (“APAC”).

The CODM uses net sales to unaffiliated customers, segment gross profit and segment operating income in order to make decisions, assess performance and allocate resources to each segment. Segment operating income does not include items such as interest income or expense, other income or expense, foreign currency transaction gains or losses, restructuring and related costs including accelerated depreciation, asset impairments, or costs and inventory step-up charges related to business acquisitions and integration. Corporate expenses include the compensation of certain personnel, certain audit expenses, Board of Directors related costs, certain insurance costs, costs associated with being a publicly traded entity and other miscellaneous legal and professional fees.

On November 17, 2014, the Company appointed a Vice President and General Manager for the United States & Canada and a Vice President and General Manager for Latin America. These appointments separate responsibilities that were previously combined under the Vice President and General Manager of the Americas. On January 1, 2015, the Company’s new President and CEO assumed the role of CODM. Based on the new management structure and an evaluation of how the new CODM is expected to make decisions, assess performance and allocate resources, the Company expects to disclose the following four reportable segments beginning in the second quarter of fiscal 2015: EMEA, United States & Canada, Latin America and APAC.

(12) RESTRUCTURING

Fiscal 2015 Restructuring Plans

EMEA Reorganization Plan

In October 2014, the Company announced actions to optimize the back-office and support functions in EMEA. The Company plans to reduce headcount in EMEA by approximately 40, with the majority of reductions expected to occur during the first half of fiscal 2015. During the three months ended November 30, 2014, the Company recorded \$4.2 million of pretax employee-related costs and expects to recognize additional pretax employee-related costs of \$2.7 million throughout the remainder of fiscal 2015 for this plan. As of November 30, 2014, the Company has a balance of \$3.2 million accrued for this plan. Cash payments associated with this plan are expected to occur during fiscal 2015 as the plan is completed.

North American Production Facilities Consolidation Plan

In November 2014, the Company announced plans to consolidate its North American production facilities. As part of the ongoing review of its manufacturing footprint, the Company will close its plant in Stryker, Ohio in the third quarter of fiscal 2015 and shift the plant's production to other North American facilities. The Company expects to reduce headcount by approximately 70 by the end of fiscal 2015. The Company recorded \$0.6 million of pretax employee-related costs during the three months ended November 30, 2014 and expects to recognize additional pretax employee-related costs of \$1.9 million throughout the remainder of fiscal 2015. As of November 30, 2014, the Company has a balance of \$0.6 million accrued for this plan. Cash payments associated with this plan are expected to occur during fiscal 2015 as the plan is completed.

North American SG&A Reduction Plan

In November 2014, the Company announced plans to reduce headcount by approximately 10, primarily in North America selling, general and administrative functions as part of its ongoing effort to drive further synergies from recent acquisitions. The Company recorded \$0.2 million of pretax employee-related costs during the three months ended November 30, 2014 and expects to recognize additional pretax employee-related costs of \$0.3 million throughout the remainder of fiscal 2015. As of November 30, 2014, the Company has a balance of \$0.1 million accrued for this plan. Cash payments associated with this plan are expected to occur during fiscal 2015 as the plan is completed.

For discussion of the Company's previous restructuring plans, refer to Note 15 in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014.

(13) COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company is at times subject to pending and threatened legal actions, some for which the relief or damages sought may be substantial. Although the Company is not able to predict the outcome of such legal actions, after reviewing all pending and threatened legal actions with counsel and based on information currently available, management believes that the outcome of such actions, individually or in the aggregate, will not have a material adverse effect on the results of operations or financial position of the Company. However, it is possible that the ultimate resolution of such matters, if unfavorable, may be material to the results of operations in a particular future period as the time and amount of any resolution of such legal actions and its relationship to the future results of operations are not currently known.

Reserves are established for legal claims only when losses associated with the claims are judged to be probable, and the loss can be reasonably estimated. In many lawsuits and arbitrations, it is not considered probable that a liability has been incurred or it is not possible to estimate the ultimate or minimum amount of that liability until the case is close to resolution, in which case no reserve would be recognized until that time.

There were no material changes to the Company's future contractual obligations as previously reported in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014.

(14) SHARE REPURCHASE PROGRAM

For a discussion of the Company's Share Repurchase programs, refer to Note 18 in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014. During the first quarter of fiscal 2015, the Company repurchased 109,422 shares of common stock at an average price of \$30.46 per share for a total cost of \$3.3 million. As of November 30, 2014, shares valued at \$51.7 million remain authorized for repurchase. In the first quarter of fiscal 2014, the Company repurchased 40,327 shares of common stock at an average price of \$27.68 per share for a total cost of \$1.1 million.

(15) ACCOUNTING PRONOUNCEMENTS

In August 2014, the Financial Accounting Standards Board ("the FASB") issued new accounting guidance that requires management to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. The standard is effective for fiscal years ending after December 15, 2016, including interim

periods. Early application is permitted. The standard is not anticipated to have an impact on the Company's consolidated financial statements.

In May 2014, the FASB issued new accounting guidance that creates a single revenue recognition model, while clarifying the principles for recognizing revenue. The standard is effective for fiscal years beginning after December 15, 2016, including interim periods, and the Company will adopt the new guidance on September 1, 2017. Early adoption is not permitted. The Company will evaluate the effects, if any, that the adoption of this guidance will have on its consolidated financial statements.

In April 2014, the FASB issued new accounting guidance related to reporting discontinued operations that changes the criteria for determining which disposals can be presented as discontinued operations and modifies the related disclosure requirements. The standard is effective for fiscal years beginning on or after December 15, 2014 on a prospective basis, including interim periods, with early adoption permitted. The Company will evaluate the effects, if any, that the adoption of this guidance will have on its consolidated financial statements.

No other new accounting pronouncements issued or with effective dates during fiscal 2015 had or are expected to have a material impact on the Company's consolidated financial statements.

(16) DISCONTINUED OPERATIONS

The Company completed the sale of all of the fixed and intangible assets of its rotational compounding business in Australia for \$3.0 million on September 3, 2013. The operating results for this business were previously included in the Company's specialty powders product family within the APAC segment.

The following summarizes select financial information included in income (loss) from discontinued operations:

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

This Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) is intended to help investors understand our results of operations, financial condition and current business environment. The MD&A is provided as a supplement to, and should be read in conjunction with, our unaudited consolidated financial statements and related notes included elsewhere in this Quarterly Report and the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2014. The MD&A is organized as follows:

- Overview: From management’s point of view, we discuss the following:

Summary of our business and the markets in which we operate; and

Significant events during the current fiscal year.

Results of Operations: An analysis of our results of operations as reflected in our consolidated financial statements.

Throughout this MD&A, the Company provides operating results for continuing operations exclusive of certain items such as costs related to acquisitions and integration, restructuring and related expenses, and asset write-downs, which are considered relevant to aid analysis and understanding of the Company’s results and business trends.

Liquidity and Capital Resources: An analysis of our cash flows, working capital, debt structure, contractual obligations and other commercial commitments.

Overview

Business Summary

A. Schulman, Inc. is a leading international supplier of high-performance plastic compounds and resins headquartered in Fairlawn, Ohio. The Company’s customers span a wide range of markets such as packaging, mobility, building & construction, electronics & electrical, agriculture, personal care & hygiene, custom services, and sports, leisure & home. The Chief Operating Decision Maker (“CODM”) makes decisions, assesses performance and allocates resources by the following regions which represent our current reportable segments:

• Europe, Middle East and Africa (“EMEA”),

• Americas, and

• Asia Pacific (“APAC”).

On November 17, 2014, the Company appointed a Vice President and General Manager for the United States & Canada and a Vice President and General Manager for Latin America. These appointments separate responsibilities that were previously combined under the Vice President and General Manager of the Americas. On January 1, 2015, the Company’s new President & Chief Executive Officer assumed the role of CODM. Based on the new management structure and an evaluation of how the new CODM is expected to make decisions, assess performance and allocate resources, the Company expects to disclose the following four reportable segments beginning in the second quarter of fiscal 2015: EMEA, United States & Canada, Latin America and APAC.

The Company has approximately 3,900 employees and 43 manufacturing facilities worldwide. Globally, the Company operates in five product families: (1) custom performance colors, (2) masterbatch solutions, (3) engineered plastics, (4) specialty powders and (5) distribution services. The Company offers tolling services to customers primarily in the specialty powders product family.

Fiscal Year 2015 Significant Events

The following represent significant events during fiscal year 2015:

1. Business Acquisition. On September 2, 2014, the Company acquired Compco Pty. Ltd. (“Compco”), a manufacturer of masterbatches and custom colors in Melbourne, Australia for \$6.7 million.

2. Dividend Activities. In October 2014, the Company increased its regular quarterly cash dividend by 2.5% to \$0.205 per common share which reflects the Company’s confidence in its ability to generate cash and its long-term growth prospects, along with a continued commitment to shareholders. This continues the Company’s history of annual dividend payments that began in 1972.

3. China Expansion. In December 2014, the Company announced that it has added equipment in its manufacturing facility in Dongguan, China to accommodate an increase in demand in the masterbatch solutions product family.

This new production line will double the current masterbatch solutions production capacity at the facility.

Table of Contents

Restructuring Plans. In the first quarter of fiscal 2015, the Company announced three restructuring actions that will further optimize its back-office and support functions as well as consolidate its manufacturing footprint. The Company expects to reduce headcount by approximately 120 and realize annual savings of approximately \$8 million on completion of these activities.

Share Repurchases. The Company repurchased 109,422 shares of its common stock during the first quarter of fiscal 2015 at an average price of \$30.46 per share for a total cost of \$3.3 million.

CEO Transition. On January 1, 2015, Joseph M. Gingo retired as the Company's President and Chief Executive Officer, succeeded by Bernard Rzepka. On December 12, 2014, Mr. Gingo was re-elected as the Chairman of the Company's Board of Directors and Bernard Rzepka was elected to the Board.

Three months ended November 30, 2014

EMEA net sales for the three months ended November 30, 2014 were \$371.2 million, a decrease of \$21.3 million or 5.4%, compared with the prior-year period. Foreign currency translation negatively impacted net sales by \$21.5 million. Organic sales declined across all product families, primarily due to lower volumes in the engineered plastics and specialty powders product families. During the first quarter of fiscal 2015, the incremental contribution of the Ferro Specialty Plastics ("Specialty Plastics") acquisition in EMEA was \$11.0 million and 7.3 million pounds in net sales and volume, respectively.

EMEA gross profit was \$49.7 million for the three months ended November 30, 2014, a decrease of \$2.2 million compared with the same prior-year period. The decrease in gross profit was mainly attributed to the unfavorable foreign currency translation impact of \$3.0 million, lower organic volumes and higher pension expense of \$0.2 million, partially offset by the incremental contribution of the Specialty Plastics acquisition.

EMEA operating income for the three months ended November 30, 2014 was \$20.0 million, a decrease of \$0.4 million compared with the same period last year. Operating income declined due to lower gross profit as noted above, partially offset by lower selling, general and administrative ("SG&A") expense of \$1.9 million. SG&A expense decreased primarily due to foreign currency translation of \$1.8 million and lower variable incentive compensation of \$1.3 million, partially offset by incremental SG&A expenses from the Specialty Plastics acquisition of \$0.9 million and higher pension expense of \$0.2 million.

Three months ended November 30, 2014

Americas net sales for the three months ended November 30, 2014 were \$190.9 million, an increase of \$44.4 million or 30.3% compared with the prior-year period. During the first quarter of fiscal 2015, the incremental contribution of the Network Polymers, Prime Colorants and Specialty Plastics acquisitions was \$44.8 million and 29.1 million pounds in net sales and volume, respectively. Excluding the impact of foreign currency translation and acquisitions, price per pound increased principally driven by improved product mix. Foreign currency translation negatively impacted net sales by \$4.2 million.

Americas gross profit was \$30.3 million for the three months ended November 30, 2014, an increase of \$8.8 million from the comparable period last year. The benefits of recent acquisitions, improved mix in the specialty powders product family, and prior restructuring initiatives were partially offset by unfavorable foreign currency translation of \$0.6 million.

Americas operating income for the three months ended November 30, 2014 was \$12.0 million compared with \$7.4 million in the same quarter of fiscal 2014. Operating income increased due to the above noted increase in gross profit, partially offset by incremental SG&A expenses from recent acquisitions of \$2.5 million and unfavorable foreign currency translation of \$0.3 million.

Three months ended November 30, 2014

APAC net sales for the three months ended November 30, 2014 were \$53.0 million, an increase of \$6.6 million compared with the same prior-year period. During the first quarter of fiscal 2015, the Compcos acquisition in Australia contributed net sales and volume of \$3.4 million and 2.3 million pounds, respectively. Excluding the Compcos acquisition, organic volume increased across nearly all product families, partially offset by decreased price per pound driven by competitive pricing pressures primarily in the masterbatch solutions product family and unfavorable product

mix in the engineered plastics product family.

APAC gross profit for the three months ended November 30, 2014 was \$7.3 million, an increase of \$0.6 million compared with the prior-year period. Gross profit benefited from the positive contribution of the Compco acquisition and increased organic volume. The gross profit percentage declined primarily due to the combined impact of competitive pricing pressures and unfavorable product mix noted above.

APAC operating income for the three months ended November 30, 2014 was \$3.5 million compared with \$3.4 million in the prior-year comparable quarter. The increase in operating income was primarily due to the aforementioned increase in gross profit, partially offset by incremental SG&A expenses from the Compco acquisition of \$0.3 million.

Three months ended November 30, 2014

Consolidated net sales for the three months ended November 30, 2014 were \$615.1 million, an increase of \$29.7 million or 5.1%, compared with the same prior-year period. Incremental net sales and volume in the first quarter of fiscal 2014 from the Company's recent acquisitions contributed \$59.2 million and 38.7 million pounds, respectively. Foreign currency translation unfavorably impacted net sales for the three months ended November 30, 2014 by \$26.2 million.

Operating income increased \$1.1 million for the three months ended November 30, 2014 compared to the same prior year period. Total operating income before certain items for the three months ended November 30, 2014 was \$28.1 million, an increase of \$3.6 million compared with last year. The increase in total operating income before certain items was primarily due to the contribution from recent acquisitions of \$6.3 million partially offset by the negative impact of foreign currency translation of \$1.6 million.

Excluding \$1.4 million and \$1.9 million of acquisition, integration, restructuring and related costs for the three months ended November 30, 2014 and 2013, respectively, the Company's SG&A expenses increased by \$3.7 million for the three months ended November 30, 2014 compared with the same period in the prior year. The increase was primarily attributable to incremental SG&A expense of \$3.7 million from recent acquisitions.

Additional consolidated results

Interest expense, net of interest income, increased \$0.1 million for the three months ended November 30, 2014 as compared with the same period in the prior year.

The Company experienced foreign currency losses of \$1.1 million and \$0.7 million for the three months ended November 30, 2014 and 2013, respectively. Generally, the foreign currency transaction gains or losses relate to the changes in the value of the U.S. dollar compared with the Euro and other local currencies throughout all regions, and changes between the Euro and other non-Euro European currencies. The Company may enter into foreign exchange forward contracts to reduce the impact of changes in foreign exchange rates on the consolidated statements of operations. These contracts reduce exposure to currency movements affecting the remeasurement of foreign currency denominated assets and liabilities primarily related to trade receivables and payables, as well as intercompany activities. Any gains or losses associated with these contracts, as well as the offsetting gains or losses from the underlying assets or liabilities, are recognized on the foreign currency transaction line in the consolidated statements of operations. There were no foreign exchange forward contracts designated as hedging instruments as of November 30, 2014 and August 31, 2014.

Noncontrolling interests represent a 37% equity position of Alta Plastica S.A. in an Argentinean venture and a 35% equity position of P.T. Prima Polycron Indah in an Indonesian joint venture.

Net income attributable to the Company's stockholders was \$13.2 million and \$15.1 million for the three months ended November 30, 2014 and 2013, respectively. Foreign currency translation had a minimal impact on net income for the

three months ended November 30, 2014.

Product Families

Globally, the Company operates in five product families: (1) custom performance colors, (2) masterbatch solutions, (3) engineered plastics, (4) specialty powders and (5) distribution services. The Company offers tolling services to customers primarily in the specialty powders product family. The amount and percentage of consolidated net sales for these product families are as follows:

	Three months ended November 30,					
	2014		2013			
	(In thousands, except for %'s)					
Custom performance colors	\$48,078	8	%	\$44,941	8	%
Masterbatch solutions	202,030	33		182,903	31	
Engineered plastics	194,516	32		180,698	31	
Specialty powders	82,357	13		86,947	15	
Distribution services	88,072	14		89,908	15	
Total consolidated net sales	\$615,053	100	%	\$585,397	100	%

The three months ended November 30, 2013 include a reclassification of revenue between product families to better reflect the way the businesses are managed.

Capacity

The Company's practical capacity is not based on a theoretical 24-hour, seven-day operation, rather it is determined as the production level at which the manufacturing facilities can operate with an acceptable degree of efficiency, taking into consideration factors such as longer term customer demand, permanent staffing levels, operating shifts, holidays, scheduled maintenance and mix of product. Capacity utilization is calculated by dividing actual production pounds by practical capacity at each plant. A comparison of capacity utilization levels is as follows:

	Three months ended November 30,			
	2014		2013	
EMEA	87	%	87	%
Americas	67	%	67	%
APAC	65	%	67	%

Income Tax

A reconciliation of the U.S. statutory federal income tax rate with the effective tax rates for the respective periods is as follows:

	Three months ended November 30,						
	2014		2013				
	(In thousands, except for %'s)						
U.S. statutory federal income tax rate	\$6,256	35.0	%	\$6,019	35.0	%	
Amount of foreign taxes at less than U.S. statutory federal income tax rate	(2,034)	(11.4)	(3,794) (22.1)
U.S. and foreign losses with no tax benefit	1,430	8.0		1,785	10.4		
U.S. restructuring and other U.S. charges with no benefit	539	3.0		473	2.8		
U.S. income with no tax	(2,091)	(11.7)	—	—	
Establishment (resolution) of uncertain tax positions	49	0.3		56	0.3		
Other	337	1.9		29	0.2		
Provision (benefit) for U.S. and foreign income taxes	\$4,486	25.1	%	\$4,568	26.6	%	

The effective tax rates for the three months ended November 30, 2014 and 2013 are less than the U.S. statutory federal income tax rate primarily because of the Company's overall foreign tax rates being less than the U.S. statutory federal income tax rate. The decrease in the effective tax rate for the three months ended November 30, 2014 as compared with the same period last year was driven primarily by a decrease in U.S. and foreign losses with no tax benefit combined with U.S. income in the current period with no tax as a result of an offsetting decrease in the U.S. valuation allowance.

Goodwill

Goodwill is tested for impairment annually as of June 1. Management uses judgment to determine whether to use a qualitative analysis or a quantitative fair value measurement approach that combines the income and market valuation techniques for each of the Company's reporting units that carry goodwill. These valuation techniques use estimates and assumptions including, but not limited to, the determination of appropriate market comparables, projected future cash flows (including timing and profitability), discount rate reflecting the risk inherent in future cash flows, perpetual growth rate, and projected future economic and market conditions.

If circumstances change between annual tests that would more likely than not reduce the fair value of a reporting unit below its carrying value, the Company would test goodwill for impairment. Factors which would necessitate an interim goodwill impairment assessment include a sustained decline in the Company's stock price, prolonged negative industry or economic trends, and significant under-performance relative to historical or projected future operating results.

As of June 1, 2014, the annual goodwill impairment test date for fiscal 2014, goodwill was included in five of the Company's reporting units in EMEA (masterbatch solutions, engineered plastics, specialty powders, custom performance colors and distribution services), four reporting units in the Americas (masterbatch solutions, custom performance colors, engineered plastics and specialty powders) and one reporting unit in APAC (engineered plastics). In the first quarter of fiscal 2015, additional goodwill was recorded as a result of the Compco acquisition and allocated to the APAC custom performance colors reporting unit.

Management concluded, based on the quantitative fair value measurements performed, that as of June 1, 2014, the fair values of the EMEA specialty powders and Americas engineered plastics reporting units exceeded their carrying values by 13% in each instance. As of November 30, 2014, the EMEA specialty powders reporting unit had goodwill of \$18.0 million while goodwill in the Americas engineered plastics reporting unit was \$34.5 million. The goodwill associated with these reporting units is primarily the result of the acquisitions made within the last few years. Generally, goodwill recorded in business combinations is more susceptible to risk of impairment soon after the acquisition primarily because the business combination is recorded at fair value based on operating plans and economic conditions present at the time of the acquisition. If operating results or economic conditions deteriorate soon after an acquisition, it could result in the impairment of the acquired goodwill. A change in macroeconomic conditions in the Americas and EMEA regions, as well as future changes in the judgments, assumptions and estimates that were

used in the Company's goodwill impairment testing for these two reporting units, including the discount rate and future cash flow projections, could result in a significantly different estimate of the fair value. As of November 30, 2014, the Company concluded there were no triggering events which would have required a goodwill impairment test.

Liquidity and Capital Resources

Net cash provided from operations was \$10.3 million and \$9.8 million for the three months ended November 30, 2014 and 2013, respectively. The Company's cash and cash equivalents decreased \$3.4 million from August 31, 2014. This decrease was driven primarily by capital expenditures of \$10.3 million, the Compco acquisition of \$6.7 million, dividend payments of \$6.0 million, foreign currency translation of \$4.0 million and share repurchases of \$3.3 million. These items were funded by net borrowings of \$17.5 million and cash generated from operations of \$10.3 million.

The Company's approximate working capital days are summarized as follows:

	November 30, 2014	August 31, 2014	November 30, 2013
Days in receivables	55	55	55
Days in inventory	52	50	57
Days in payables	49	48	54
Total working capital days	58	57	58

The following table summarizes certain key balances on the Company's consolidated balance sheets and related metrics:

	November 30, 2014	August 31, 2014	\$ Change	% Change
	(In thousands, except for %'s)			
Cash and cash equivalents	\$132,109	\$135,493	\$(3,384)	(2.5)%
Working capital, excluding cash	\$268,283	\$263,715	\$4,568	1.7%
Long-term debt	\$353,262	\$339,546	\$13,716	4.0%
Total debt	\$385,274	\$371,294	\$13,980	3.8%

Total A. Schulman, Inc.'s stockholders' equity	\$506,953	\$527,043	\$(20,090)	(3.8)%

* Net debt, a non-GAAP financial measure, represents total debt less cash and cash equivalents. The Company believes that net debt provides useful supplemental liquidity information to investors.

As of November 30, 2014, 94% of the company's cash and cash equivalents were held by its foreign subsidiaries, compared to 95% as of August 31, 2014. The majority of these foreign cash balances are associated with earnings that we have asserted are permanently reinvested and which we plan to use to support continued growth plans outside the U.S. through funding of capital expenditures, acquisitions, operating expenses or other similar cash needs of foreign operations. From time to time, we repatriate cash from foreign subsidiaries to the U.S. through intercompany dividends for normal operating needs and service of outstanding debt. These dividends are typically paid out of current year earnings. In addition, excess cash in the U.S. is generally used to repay outstanding debt.

Working capital, excluding cash, was \$268.3 million as of November 30, 2014, an increase of \$4.6 million from August 31, 2014. The primary reasons for the increase in working capital from August 31, 2014 included increases of \$7.1 million in prepaid expenses and other current assets and \$4.4 million in inventory and a decrease in accrued payroll, taxes and related benefits of \$6.5 million. These increases were partially offset by a decrease in accounts receivable of \$8.0 million and an increase in other accrued liabilities of \$6.2 million. The translation effect of foreign currencies, primarily the Euro, decreased working capital by \$11.9 million.

Capital expenditures for the three months ended November 30, 2014 were \$10.3 million compared with \$9.6 million last year. The Company continued regular and ongoing investments in its global manufacturing facilities and technical innovation centers.

For a discussion of the Company's credit arrangements, refer to Note 5 in the Company's Annual Report on Form 10-K for the fiscal year-ended August 31, 2014. As of November 30, 2014, the Company was in compliance with its debt covenants and does not believe a subsequent covenant violation is reasonably possible.

The carrying value of the Company's Euro Notes approximates €42.8 million, or \$53.4 million, as of November 30, 2014. Repayment of the Euro Notes prior to maturity would cost approximately \$3.5 million in early termination fees as of November 30, 2014.

Below summarizes the Company's available funds:

	November 30, 2014	August 31, 2014
	(In thousands)	
Existing capacity:		
Revolving Facility	\$ 300,000	\$ 300,000
Term Loan Facility	188,125	190,625
Domestic short-term lines of credit	15,000	15,000
Foreign short-term lines of credit	50,352	53,520
Total capacity from credit lines and notes	\$ 553,477	\$ 559,145
Availability:		
Revolving Facility	\$ 174,809	\$ 193,909
Foreign short-term lines of credit	45,082	49,250
Total available funds from credit lines and notes	\$ 219,891	\$ 243,159

Total available funds from credit lines and notes represent the total capacity from credit lines and notes less outstanding borrowings of \$332.9 million and \$315.3 million as of November 30, 2014 and August 31, 2014, respectively, and issued letters of credit of \$0.7 million each, as of November 30, 2014 and August 31, 2014.

The Company was in a net debt position of \$253.2 million and \$235.8 million as of November 30, 2014 and August 31, 2014, respectively. The change of \$17.4 million was a result of an increase in total debt of \$14.0 million and a decrease in cash and cash equivalents of \$3.4 million as previously discussed.

During the three months ended November 30, 2014, the Company declared and paid quarterly cash dividends of \$0.205 per common share. The total amount of these dividends was \$6.0 million.

For a discussion of the Company's share repurchase programs, refer to Note 18 in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014. During the first quarter of fiscal 2015, the Company repurchased 109,422 shares of common stock at an average price of \$30.46 per share for a total cost of \$3.3 million. As of November 30, 2014, shares valued at \$51.7 million remain authorized for repurchase. In the first quarter of fiscal 2014, the Company repurchased 40,327 shares of common stock at an average price of \$27.68 per share for a total cost of \$1.1 million.

The Company has foreign currency exposures primarily related to the Euro, British pound sterling, Polish zloty, Mexican peso, Brazilian real, and Argentine peso, among others. The assets and liabilities of the Company's foreign subsidiaries are translated into U.S. dollars using current exchange rates. Income statement items are translated at average exchange rates prevailing during the period. The resulting translation adjustments are recorded in the accumulated other comprehensive income (loss) account in stockholders' equity. A significant portion of the Company's operations uses the Euro as its functional currency. Accumulated other comprehensive income decreased by \$25.6 million during the three months ended November 30, 2014 due to the strengthening of the U.S. dollar against various foreign currencies, most significantly the Euro which declined by 5.3% from 1.319 U.S. dollars to 1 Euro as of August 31, 2014 to \$1.248 as of November 30, 2014.

Cash flow from operations, borrowing capacity under the credit facilities and cash and cash equivalents are expected to provide sufficient liquidity to maintain the Company's current operations and capital expenditure requirements, pay dividends, repurchase shares, pursue acquisitions and service outstanding debt.

Contractual Obligations

As of November 30, 2014, there were no material changes to the Company's future contractual obligations as previously reported in the Company's 2014 Annual Report on Form 10-K for the fiscal year ended August 31, 2014.

The Company's outstanding commercial commitments as of November 30, 2014 are not material to the Company's financial position, liquidity or results of operations.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements as of November 30, 2014.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. Management bases its estimates on historical experience and other factors it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates. The Company's critical accounting policies are the same as discussed in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014.

Accounting Pronouncements

For a discussion of accounting pronouncements, refer to Note 15 of this Form 10-Q.

Cautionary Statements

A number of the matters discussed in this document that are not historical or current facts deal with potential future circumstances and developments and may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the fact that they do not relate strictly to historic or current facts and relate to future events and expectations. Forward-looking statements contain such words as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," and other words and terms of similar meaning in connection with any discussion of future operating or financial performance. Forward-looking statements are based on management's current expectations and include known and unknown risks, uncertainties and other factors, many of which management is unable to predict or control, that may cause actual results, performance or achievements to differ materially from those expressed or implied in the forward-looking statements. Important factors that could cause actual results to differ materially from those suggested by these forward-looking statements, and that could adversely affect the Company's future financial performance, include, but are not limited to, the following:

- worldwide and regional economic, business and political conditions, including continuing economic uncertainties in some or all of the Company's major product markets or countries where the Company has operations;
- the effectiveness of the Company's efforts to improve operating margins through sales growth, price increases, productivity gains, and improved purchasing techniques;
- competitive factors, including intense price competition;
- fluctuations in the value of currencies in areas where the Company operates;
- volatility of prices and availability of the supply of energy and raw materials that are critical to the manufacture of the Company's products, particularly plastic resins derived from oil and natural gas;
- changes in customer demand and requirements;
- effectiveness of the Company to achieve the level of cost savings, productivity improvements, growth and other benefits anticipated from acquisitions, joint ventures and restructuring initiatives;
- escalation in the cost of providing employee health care;
- uncertainties regarding the resolution of pending and future litigation and other claims;
- the performance of the global automotive market as well as other markets served;
- further adverse changes in economic or industry conditions, including global supply and demand conditions and prices for products; and
- operating problems with our information systems as a result of system security failures such as viruses, computer "hackers" or other causes.

Table of Contents

The risks and uncertainties identified above are not the only risks the Company faces. Additional risk factors that could affect the Company's performance are set forth in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014. In addition, risks and uncertainties not presently known to the Company or that it believes to be immaterial also may adversely affect the Company. Should any known or unknown risks or uncertainties develop into actual events, or underlying assumptions prove inaccurate, these developments could have material adverse effects on the Company's business, financial condition and results of operations.

Item 3 – Quantitative and Qualitative Disclosure about Market Risk

In the ordinary course of business, the Company is subject to interest rate, foreign currency, and commodity risks. Information related to these risks and management of these exposures is included in Part II, ITEM 7A, QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK, in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014, filed with the Securities and Exchange Commission on October 22, 2014. Exposures to market risks have not changed materially since August 31, 2014.

Item 4 – Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carries out a variety of on-going procedures, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

In the first quarter of fiscal 2015, the Company acquired Compco Pty. Ltd. The scope of the Company's assessment of the effectiveness of internal control over financial reporting did not include Compco Pty. Ltd. This exclusion is in accordance with the SEC's general guidance that an assessment of a recently acquired business may be omitted from the Company's scope in the year of acquisition.

There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II – OTHER INFORMATION

Items 1, 3, and 4 are not applicable or the answer to such items is negative; therefore, the items have been omitted and no reference is required in this Quarterly Report.

Item 1A – Risk Factors

There are certain risks and uncertainties in the Company’s business that could cause our actual results to differ materially from those anticipated. In “ITEM 1A. RISK FACTORS” of Part I of the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2014, the Company included a detailed discussion of its risk factors. There are no material changes from the risk factors previously disclosed.

Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

During the first quarter of fiscal 2015, the Company repurchased 109,422 shares of common stock at an average price of \$30.46 per share for a total cost of \$3.3 million. Shares valued at \$51.7 million remain authorized for repurchase as of November 30, 2014. For further discussion of the Company’s Share Repurchase program, refer to Note 18 in the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2014. The Company did not repurchase any shares under the Program in fiscal 2014.

The Company’s purchases of its common stock under the 2014 Repurchase Program during the first quarter of fiscal 2015 were as follows:

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum dollar value of shares that may yet be purchased under the plans or programs
Beginning shares available				\$55,000,000
