1. Magic Announces Dividend Distribution Policy

PRESS RELEASE

Magic Announces Dividend Distribution Policy

Or Yehuda, Israel, September 5, 2012 Magic Software Enterprises Ltd. (NASDAQ: MGIC), a global provider of software platforms for enterprise mobility, cloud applications, and business integration, announced today that on September 4, 2012, the Company's Board of Directors decided to adopt a policy for distributing dividends, subject to any applicable law.

According to this policy, each year the Company will distribute a dividend of up to 50% of its annual distributable profits. It is possible that the Board of Directors will decide, subject to the conditions stated above, to declare additional dividend distributions. The Company's Board of Directors may at its discretion and at any time, change, whether as a result of a one-time decision or a change in policy, the rate of dividend distributions and/or not to distribute a dividend, all at its discretion.

Guy Bernstein, CEO of Magic states that, "After five years of sequential growth, during which the company has surpassed \$100M in sales while demonstrating significant income and cash growth, we have decided to implement a divided policy that considers the company's long term activity and its relationship with shareholders. Magic will continue to implement its growth strategy for years to come in order to create greater value for its shareholders."

The actual distribution of a dividend will be subject to meeting the conditions required by applicable law, including the distribution tests set forth in Section 302 of the Israeli Companies Law - 1999, and to the specific decision of the Company's Board of Directors for each distribution.
