CHRISTOPHER & BANKS CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

NOTE 1 — Basis of Presentation

The unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q have been prepared by Christopher & Banks Corporation and its subsidiaries (collectively referred to as “Christopher & Banks”, “the Company”, “we” or “us”) pursuant to the current rules and regulations of the United States (“U.S.”) Securities and Exchange Commission. Accordingly, certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the U.S. have been omitted, pursuant to such rules and regulations. These unaudited condensed consolidated financial statements, except the condensed consolidated balance sheet as of January 28, 2017 derived from the Company's audited financial statements, should be read in conjunction with the audited financial statements and related notes included in the Company's Annual Report on Form 10-K for the fiscal year ended January 28, 2017.

The results of operations for the interim period shown in this report are not necessarily indicative of results to be expected for the full fiscal year. In the opinion of management, the information contained herein reflects all adjustments, consisting only of normal adjustments, except as otherwise stated in these notes, considered necessary to present fairly our financial position, results of operations, and cash flows as of October 28, 2017, and October 29, 2016 and for all periods presented.

Recently issued accounting pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued authoritative guidance under Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers. ASU 2014-09 supersedes existing revenue recognition requirements and provides a new comprehensive revenue recognition model that requires entities to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers, Deferral of the Effective Date, which defers the effective date of the new revenue recognition standard by one year. As a result, ASU 2014-09 is effective retrospectively for fiscal years and interim periods within those years beginning after December 15, 2017. We do not believe the adoption of this standard will have a material impact on our consolidated financial statements. The new revenue standard will require the Company to recognize gift card breakage proportional to actual gift card redemptions. We plan to adopt this ASU under the modified retrospective approach beginning in the first quarter of fiscal 2018 which includes a cumulative adjustment to retained earnings. As interpretations of the new guidance continue to evolve in the fourth quarter of fiscal 2017, we will monitor developments and will finalize conclusions on our revenue recognition policy, disclosure requirements and changes that may be necessary to our internal controls over financial reporting.

In February 2016, the FASB issued ASU 2016-02, Leases, which requires that any lease arrangements longer than twelve months result in an entity recognizing an asset and liability on its balance sheet. The updated guidance is effective for interim and annual periods beginning after December 15, 2018, and early adoption is permitted. The provisions of this new guidance are to be applied using a modified retrospective approach, with elective reliefs, which requires application of the new guidance for all periods presented. The Company is currently evaluating the guidance and its impact on our consolidated financial statements and the related internal controls over financial reporting. The Company expects the adoption of this standard will have a material impact on its consolidated balance sheet for recognition of lease-related assets and liabilities. We will adopt the ASU beginning in the first quarter of fiscal 2019. In March 2016, the FASB issued ASU No. 2016-09, Compensation-Stock Compensation (Topic 718) Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 addresses simplification of several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as

either equity or liabilities, and classification on the statement of cash flows. ASU 2016-09 is effective for public companies for annual reporting periods beginning after December 15, 2016, and interim periods within those fiscal years. The adoption of ASU 2016-09 did not have a material impact on the Company's consolidated financial statements mostly due to the impact of the tax valuation allowance.

We reviewed all other significant newly-issued accounting pronouncements and concluded they are either not applicable to our operations, or that no material effect is expected on our consolidated financial statements as a result of future adoption.

Table of Contents

NOTE 2 — Merchandise Inventories and Sources of Supply

Merchandise inventories consisted of the following (in thousands):

	October 28, January 28, 2017 2017	
Merchandise - in store/eCommerce	\$ 44,367	\$ 28,584
Merchandise - in transit	7,064	8,250
Total merchandise inventories	\$ 51,431	\$ 36,834

There have been no material changes to our ratio of imports to total merchandise purchases or concentration of supplier purchases in the thirty-nine weeks ended October 28, 2017 compared to the fiscal 2016 year ended January 28, 2017.

NOTE 3 — Property, Equipment and Improvements, Net

Property, equipment and improvements, net consisted of the following (in thousands):

Description	October 28, January 28, 2017 2017	
Land	\$ 1,597	\$ 1,597
Corporate office, distribution center and related building improvements	12,753	12,700
Store leasehold improvements	49,281	49,450
Store furniture and fixtures	69,405	69,598
Corporate office and distribution center furniture, fixtures and equipment	4,900	4,880
Computer and point of sale hardware and software	33,868	32,313
Construction in progress	1,795	1,321
Total property, equipment and improvements, gross	173,599	171,859
Less accumulated depreciation and amortization	(123,225)	(116,527)
Total property, equipment and improvements, net	\$ 50,374	\$ 55,332

Long-lived assets are evaluated for impairment whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable. In conjunction with an impairment analysis, the Company determined that improvements and equipment at certain under-performing stores and at stores identified for closure were impaired. As a result, the Company recorded no long-lived asset impairment during the thirteen week periods ended October 28, 2017 and October 29, 2016. The Company recorded approximately \$0.2 million and \$0.5 million for long-lived asset impairments during the thirty-nine week periods ended October 28, 2017 and October 29, 2016, respectively.

NOTE 4 — Accrued Liabilities

Accrued liabilities and other current liabilities consisted of the following (in thousands):

	October 28, January 28, 2017 2017	
Gift card and store credit liabilities	\$ 4,535	\$ 7,414
Accrued Friendship Rewards Program loyalty liability	3,763	3,770
Accrued income, sales and other taxes payable	2,403	1,239
Accrued occupancy-related expenses	3,217	3,614
Sales return reserve	2,055	943
eCommerce obligations	5,156	3,190
Other accrued liabilities	3,742	6,256

Total accrued liabilities and other current liabilities	\$ 24,871	\$ 26,426
---	-----------	-----------

NOTE 5 — Credit Facility

The Company is party to an amended and restated credit agreement (the "Credit Facility") with Wells Fargo Bank, N.A. ("Wells Fargo"), as lender. The Credit Facility was most recently amended and extended on September 8, 2014. The current expiration date is September 8, 2019.

Table of Contents

The Credit Facility provides the Company with revolving credit loans of up to \$50.0 million in the aggregate, subject to a borrowing base formula based primarily on eligible credit card receivables, inventory and real estate, as such terms are defined in the Credit Facility, and up to \$10.0 million of which may be drawn in the form of standby and documentary letters of credit.

Borrowings under the Credit Facility will generally accrue interest at a rate ranging from 1.50% to 1.75% over the London Interbank Offered Rate ("LIBOR") or 0.50% to 0.75% over the Wells Fargo Prime Rate based on the amount of Average Daily Availability for the Fiscal Quarter immediately preceding each Adjustment Date, as such terms are defined in the Credit Facility. The Company has the ability to select between the LIBOR or prime based rate at the time of the cash advance. The Credit Facility has an unused commitment fee of 0.25%.

The Credit Facility contains customary events of default and various affirmative and negative covenants. The sole financial covenant contained in the Credit Facility requires the Company to maintain Availability at least equal to the greater of (a) ten percent (10%) of the borrowing base or (b) \$3.0 million. In addition, the Credit Facility permits the payment of dividends to the Company's stockholders if certain financial conditions are met. The Company was in compliance with all covenants and other financial provisions as of October 28, 2017.

The Company's obligations under the Credit Facility are secured by the assets of the Company and its subsidiaries. The Company has pledged substantially all of its assets as collateral security for the loans, including accounts owed to the Company, bank accounts, inventory, other tangible and intangible personal property, intellectual property (including patents and trademarks), and stock or other evidences of ownership of 100% of all of the Company's subsidiaries.

The Company had no revolving credit loan borrowings under the Credit Facility during each of the thirty-nine week periods ended October 28, 2017, and October 29, 2016. The total Borrowing Base at October 28, 2017 was approximately \$48.1 million. As of October 28, 2017, the Company had open on-demand letters of credit of approximately \$2.3 million. Accordingly, after reducing the Borrowing Base for the open letters of credit and the required minimum availability of the greater of \$3.0 million, or 10.0% of the Borrowing Base, the net availability of revolving credit loans under the Credit Facility was approximately \$40.9 million at October 28, 2017.

NOTE 6 — Income Taxes

The Company's liability for unrecognized tax benefits associated with uncertain tax positions is recorded within other non-current liabilities. There has been no material change in the reserve for unrecognized tax benefits since the end of the previous year. The Company recognizes interest and penalties related to unrecognized tax benefits as components of income tax expense.

The Company and its subsidiaries are subject to U.S. federal income taxes and the income tax obligations of various state and local jurisdictions. Periods after fiscal 2013 remain subject to examination by the Internal Revenue Service. With few exceptions, the Company is not subject to state income tax examination by tax authorities for taxable years prior to fiscal 2012. As of October 28, 2017, the end of the third quarter of fiscal 2017, the Company had no other ongoing audits in various jurisdictions and does not expect the liability for unrecognized tax benefits to significantly increase or decrease in the next twelve months.

As of October 28, 2017, the possibility of future cumulative losses still exists. Accordingly, the Company has continued to maintain a valuation allowance against its net deferred tax assets. A small deferred tax asset was allowed related to certain tax benefits. The Company has federal and state net operating loss ("NOL") carryforwards which will reduce future taxable income. Approximately \$36.2 million in net federal tax benefits are available from these

federal loss carryforwards. An additional \$1.2 million is available in net tax credit carryforwards. The state loss carryforwards will result in net state tax benefits of approximately \$2.5 million.

Sections 382 and 383 of the Internal Revenue Code limit the annual utilization of certain tax attributes, including net operating loss carryforwards, incurred prior to a change in ownership. If the Company were to experience an ownership change, as defined by Sections 382 and 383, its ability to utilize its tax attributes could be substantially limited. Depending on the severity of the annual NOL limitation, the Company could permanently lose its ability to use a significant number of its accumulated NOLs.

NOTE 7 — Earnings Per Share

The following table sets forth the calculation of basic and diluted earnings per share (“EPS”) shown on the face of the accompanying consolidated statement of operations:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	October 28, 2017	October 29, 2016	October 28, 2017	October 29, 2016

Diluted	\$ (0.05)	\$ 0.09	\$(0.36)	\$(0.02)

Total stock options of approximately 2.6 million and 3.2 million were excluded from the shares used in the computation of diluted earnings per share for the thirteen week periods ended October 28, 2017 and October 29, 2016, as they were anti-dilutive. Total stock options of approximately 2.6 million and 2.8 million were excluded from the shares used in the computation of diluted earnings per share for the thirty-nine week periods ended October 28, 2017 and October 29, 2016, respectively, as they were anti-dilutive.

NOTE 8 — Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities recorded at fair value are categorized using defined hierarchical levels directly related to the amount of subjectivity associated with the inputs to fair value measurements, as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities

Level 2 – Inputs other than quoted prices included in Level 1 that are either directly or indirectly observable

Level 3 – Unobservable inputs that are significant to the fair value of the asset or liability.

Assets that are Measured at Fair Value on a Non-recurring Basis:

The following table summarizes certain information for non-financial assets for the thirty-nine weeks ended October 28, 2017 and the fiscal year ended January 28, 2017, that are measured at fair value on a non-recurring basis in periods subsequent to an initial recognition period. The Company places amounts into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date.

	Thirty-Nine Weeks Ended	Fiscal Year Ended
	October 28, 2017	January 28, 2017
Long-Lived Assets Held and Used (in thousands):		
Carrying value	\$ 163	\$ 877

Edgar Filing: CHRISTOPHER & BANKS CORP - Form 10-Q

Fair value measured using Level 3 inputs	\$ —	\$ 91
Impairment charge	\$ 163	\$ 786

All of the fair value measurements included in the table above were based on significant unobservable inputs (Level 3). The Company determines fair value for measuring assets on a non-recurring basis using a discounted cash flow approach as discussed in Note 1, Nature of Business and Significant Accounting Policies in our Form 10-K for the year ended January 28, 2017. In determining future cash flows, the Company uses its best estimate of future operating results, which requires the use of significant estimates and assumptions, including estimated sales, merchandise margin and expense levels, and the selection of an appropriate discount rate; therefore, differences in the estimates or assumptions could produce significantly different results.

Table of Contents

General economic uncertainty impacting the retail industry and the continuation of recent trends in company performance makes it reasonably possible that additional long-lived asset impairments could be identified and recorded in future periods.

The fair value measurement of the long-lived assets encompasses the following significant unobservable inputs:

	Range
Unobservable Inputs	Fiscal
	2016
Weighted Average Cost of Capital (WACC)	16%
Annual sales growth	0% to
	7%

n

NOTE 9 — Legal Proceedings

The Company is subject, from time to time, to various claims, lawsuits or actions that arise in the ordinary course of business. We accrue for loss contingencies associated with outstanding litigation or legal claims for which management has determined it is probable that a loss contingency exists and the amount of the loss can be reasonably estimated.

The ultimate resolution of legal matters can be inherently uncertain and for some matters, we are currently unable to predict the ultimate outcome, determine whether a liability has been incurred or make an estimate of the reasonably possible liability that could result from an unfavorable outcome because of these uncertainties. The Company does not, however, currently believe that the resolution of any pending matter will have a material adverse effect on its financial position, results of operations or liquidity.

In connection with a preliminary settlement of pre-litigation employment claims reached in February 2017, we established a loss contingency of \$1.475 million as of January 28, 2017. In connection therewith, on April 13, 2017, a complaint was filed in State Circuit Court in the Fifteenth Judicial Circuit in Palm Beach County, Florida (the “Florida Circuit Court”) by three named plaintiffs in a purported class action asserting claims on behalf of current and former store managers. The named plaintiffs principally alleged that they and other similarly situated store managers were improperly classified as exempt employees and thus not compensated for overtime work as required under applicable federal and state law. On May 4, 2017, the Company entered into a settlement agreement with the named plaintiffs and the proposed class. On May 8, 2017, the Florida Circuit Court issued an order approving the class settlement. As approved by the Florida Circuit Court, certain current and former store managers are eligible to receive payments in connection with time worked in prior years. The settlement of the lawsuit is not an admission by us of any wrongdoing.

As part of the settlement, the Company contributed \$1.475 million into a settlement fund in the second fiscal quarter of 2017. Following approval of the settlement, opt-in notices were sent to the members of the class. After the opt-in period concluded, settlement checks were mailed to the class members who opted in, which represented approximately 58% of the class members. On November 16, 2017, the Company received approximately \$339,000 from the settlement administrator representing the remainder of the settlement fund after payment of all submitted claims and related settlement fund costs and expenses.

NOTE 10 — Segment Reporting

In the table below, Retail Operations includes activity generated by the Company’s retail store locations (Missy Petite Women (“MPW”), Outlets, Christopher & Banks, and C.J. Banks stores) as well as the eCommerce business. Retail

Operations only includes net sales, merchandise gross margin and direct store expenses with no allocation of corporate overhead as that is the information used by the chief operating decision maker to evaluate performance and to allocate resources. The Corporate/Administrative balances include supporting administrative activity at the corporate office and distribution center facility and are included to reconcile the amounts to the condensed consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended January 28, 2017 and our unaudited Condensed Consolidated Financial Statements and related Notes included in Item 1 of this Quarterly Report on Form 10-Q. Unless otherwise noted, transactions and other factors significantly impacting our financial condition, results of operations and liquidity are discussed in order of magnitude.

Executive Overview

We are a national specialty retailer featuring exclusively-designed, privately-branded women's apparel and accessories. We offer our customer an assortment of unique, classic and versatile clothing that fits her everyday needs at a good value.

We operate an integrated, omni-channel platform that provides our customer the ability to shop when and where she wants, including online or at retail and outlet stores. This approach allows our customers to browse, purchase, return, or exchange our merchandise through the channel that is optimal for her.

As of October 28, 2017, we operated 472 stores in 45 states, including 321 Missy, Petite, Women ("MPW") stores, 79 outlet stores, 37 Christopher & Banks ("CB") stores, and 35 C.J. Banks ("CJ") stores. Our CB brand offers unique fashions and accessories featuring exclusively designed assortments of women's apparel in sizes 4 to 16 and in petite sizes 4P to 16P. Our C.J. Banks brand offers similar assortments of women's apparel in sizes 14W to 26W. Our MPW concept and outlet stores offer an assortment of both CB and CJ apparel servicing the Missy, Petite and Women-sized customer in one location.

Strategic Priorities

Our overall business strategy is to build sustainable, long-term revenue growth and consistent profitability through the following strategic initiatives:

- Offer a differentiated product assortment;
- Increase customer loyalty, acquire new customers, and recapture lapsed customers; and
- Leverage our omni-channel capabilities.

Offer a differentiated product assortment

We are committed to ensuring we consistently meet our customers' needs with a differentiated merchandise assortment that fits her lifestyle at a recognizable value. We have increased the flow of our fashion offerings to provide a more versatile assortment so customers shop more frequently and buy more when they visit. To further support the newness of our merchandise presentations, we increased inventory turnover to keep merchandise fresh and current.

Increase customer loyalty, acquire new customers, and recapture lapsed customers

We have a very loyal customer base that is highly engaged. The personalized customer service that our Associates provide is a differentiator for us and is a contributor to the loyalty our customers exhibit, with approximately 90% of our active customers participating in our loyalty rewards program.

We continue to be focused on maximizing the benefits of our customer relationship management ("CRM") database, Friendship Rewards Loyalty Program ("Friendship Rewards"), and private-label credit card program to strengthen engagement with our customers. Our Friendship Rewards program, in conjunction with our CRM system, allows us to

personalize communications and customize our offers. We continue to leverage our direct and digital marketing channels to encourage additional customer visits and increased spending per visit.

We continue to focus our attention on re-engaging former customers that stopped shopping in the recent past through targeted communications. We also have increased investments in digital paid media to gain new customers and brand awareness. We continue to use store-based grass root events to capitalize on the strong relationships between our store associates and customers.

Earlier this year, we launched a “refer a friend” program to incentivize customers to introduce their friends to our brand. To further strengthen our customer relationships, we recently implemented personalization capabilities on our eCommerce site and in our emails.

Table of Contents**Leverage Our Omni-Channel Capabilities**

Our integrated, omni-channel strategy is designed to provide customers a seamless retail experience together with the ability to shop when and where they want, including retail stores, outlet stores, online and mobile. Our investments in this strategy enable us to address multiple customer touch points to drive spend and build brand affinity by providing a comprehensive view of our customer and our merchandise assortment and depth.

We continue to grow eCommerce by leveraging our new platform launched in fiscal 2016, including improving personalization and enhanced site experiences. New omni-channel capabilities, including new fulfillment functionality, store grading and localized assortment planning, will support improved management of the receipt, allocation, and distribution of merchandise.

In the second quarter of fiscal 2017, we launched our “find in store” feature online in our effort to provide more convenience to our customers. We believe that providing more visibility into store inventory will help drive traffic to our stores where our associates can provide personalized service and outfitting recommendations, and ultimately lead to increased customer spend. We intend to test omni-channel fulfillment including both ship to and pick up in store in early 2018.

Performance Measures

Management evaluates our financial results based on the following key measures of performance:

Comparable sales

Comparable sales is a measure that highlights the performance of our store channel and eCommerce channel sales by measuring the changes in sales over the comparable, prior-year period of equivalent length.

Our comparable sales calculation includes merchandise sales for:

- Stores operating for at least 13 full months;
- Stores relocated within the same center; and
- eCommerce sales.

Our comparable sales calculation excludes:

- Stores converted to the MPW format for 13 full months post conversion.

We believe our eCommerce operations are interdependent with our brick-and-mortar store sales and, as such, we believe that reporting combined store and eCommerce comparable sales is a more appropriate presentation. Our customers are able to browse merchandise in one channel and consummate a transaction in a different channel. At the same time, our customers have the option to return merchandise to a store or our third-party distribution center, regardless of the original channel used for purchase.

As we continue to execute our MPW format conversions, we have made changes to the base store population that comprises comparable stores, as illustrated in the table below:

Stores by Format	October 28, 2017				October 29, 2016			
	Total Store Count	Comparable Sales	% of Comparable Sales	% of Comparable Sales	Total Store Count	Comparable Sales	% of Comparable Sales	% of Comparable Sales
MPW	321	301	94	%	314	293	93	%

C.J. Banks	35	35	100	%	53	53	100	%
Total Stores	472	452	96	%	504	468	93	%

Comparable sales measures vary across the retail industry. As a result, our comparable sales calculation is not necessarily comparable to similarly titled measures reported by other companies.

To supplement our comparable sales performance measure, we also monitor changes in net sales per store and net sales per gross square foot for the entire store base.

Third Quarter Fiscal 2017 Summary

Net sales decreased 7.7% compared to the same period last year primarily due to a decline in average unit retail prices and a decrease in average store count;

Comparable sales decreased 5.0% following a 4.5% increase in the same period last year;

eCommerce sales increased 8.5% following a 16.3% increase the same period last year;

Gross margin rate decreased 300 basis points compared to the same period last year mostly due to a decline in merchandise margin as we continued to move through non go-forward product and address slow sellers more quickly through markdowns, including the effects of unseasonably warm weather;

Net loss aggregated to \$1.6 million, a \$0.05 loss per share, compared to net income of \$3.5 million, or \$0.09 per share, for the same period last year;

As of October 28, 2017, we held \$17.9 million of cash and cash equivalents, compared to \$25.9 million as of October 29, 2016.

	Thirteen Weeks Ended October 28, 2017
Comparable sales	
Comparable sales	(5.0)%

Sales decreased primarily due to a 6.5% decline in average store count and a 6.4% decrease in average unit retail prices. The decrease in average unit retail is attributable to higher promotional activities in response to the effects of unseasonably warm weather and deceleration in base store traffic trends partly offset by higher conversion rates.

To supplement our comparable sales measure, we also monitor changes in other store sales metrics as illustrated in the table below:

	Thirteen Weeks Ended October 28, 2017
Store metrics	
Net sales per store % change	(3.9)%
Net sales per square foot % change	(5.4)%

Net sales per store and net sales per square foot decreased mainly due to a decline in average unit retail prices.

Table of Contents

Gross margin rate decreased 300 basis points primarily driven by increased promotions and mix shift to slow selling and clearance product partly due to the unseasonably warm weather. The gross margin rate decline marked a sequential improvement compared to the second quarter as the mix of new fashion merchandise strengthened.

Selling, General, and Administrative (“SG&A”) Expenses

Selling, general, and administrative	\$31,802	\$32,483	\$(681)
SG&A rate as a percentage of net sales	32.3 %	30.5 %	1.8 %

SG&A decreased by \$0.7 million, mainly due to lower store operating expenses of \$1.1 million, lower net employee compensation expenses of \$0.3 million, and the absence of costs related to the customer platform transition that occurred in last year's third quarter of \$0.2 million. These SG&A expense savings were partially offset by an increase in medical expenses of \$0.4 million, and an increase in professional services of \$0.5 million. As a percent of net sales, SG&A increased approximately 180 basis points.

The components of the 7.7% net sales decrease in the first thirty-nine weeks of fiscal 2017 compared to the first thirty-nine weeks of fiscal 2016 were as follows:

	Thirty-Nine Weeks Ended October 28, 2017	
Sales driver change components		
Number of transactions	0.9	%

Average unit retail	(8.0)%
Total sales driver change increase	(7.7)%

	Thirty-Nine Weeks Ended October 28, 2017
Comparable sales	
Comparable sales	(5.1)%

Sales decreased primarily due to an 8.0% decrease in average unit retail prices, a 6.7% decline in average store count, continued weakness in base store traffic, and a 0.6% decrease in units per transaction, partly offset by higher conversion rates. Our promotional pricing contributed to a decline in average unit retail prices to sell through inventory that did not reflect our go-forward strategy and partly due to the effects of unseasonably warm weather in the third quarter. The sales decrease was also correlated to lower inventory levels at the beginning of the year and lower inventory receipts in the first quarter.

To supplement our comparable sales measure, we also monitor changes in other store sales metrics as illustrated in the table below:

Gross profit	\$88,405	\$107,082	\$(18,677)
Gross margin rate as a percentage of net sales	32.3 %	36.1 %	(3.8)%

Gross margin rate decreased 380 basis points primarily driven by our efforts to sell through non go-forward product and slow sellers more quickly through markdowns, and to a lesser extent, the effects of sales leverage on occupancy expenses. The gross margin rate decline accelerated in the second quarter compared to the first quarter due to seasonal markdowns that typically occur at the end of the second quarter. The gross margin rate sequentially improved in the third quarter compared to the second quarter as the mix of new fashion merchandise strengthened.

Selling, General, and Administrative (“SG&A”) Expenses

Selling, general, and administrative	\$91,956	\$98,585	\$(6,629)
SG&A rate as a percentage of net sales	33.6 %	33.2 %	0.4 %

SG&A decreased by \$6.6 million, driven by lower store operating expenses of \$4.4 million and lower net employee compensation expenses of \$1.5 million. The SG&A expense decrease was also attributable to the absence of non-recurring charges of \$2.2 million, including advisory fees in connection with shareholder activism of \$1.5 million and eCommerce transition costs of \$0.7 million incurred in the first thirty-nine weeks of fiscal 2016. These SG&A expense savings were partially offset by an increase in eCommerce operating expenses of \$1.4 million to support higher eCommerce sales and higher medical expenses of \$0.6 million. As a percent of net sales, SG&A increased approximately 40 basis points to 33.6%.

Net loss rate as a percentage of net sales	(4.8)%	(0.2)%	(4.6)%

Table of Contents

Our net loss decrease in the first thirty-nine weeks of fiscal 2017 compared to our net loss in the thirty-nine weeks half of 2016 was primarily due to a gross margin rate decline, a net sales decrease, and the absence of company-owned life insurance proceeds partly offset by lower SG&A.

Fiscal 2017 Outlook

We have implemented a number of strategic initiatives addressing merchandising, marketing, eCommerce and store operations designed to stabilize the business and drive more consistent financial performance going forward. Given the number of changes and time required to rebalance the merchandise assortment, we will not be providing sales and EPS guidance for the near term.

During the remainder of fiscal 2017, we plan to close 1 CJ store, 1 Outlet store, and 4 MPW stores. Average square footage for the year is expected to be down approximately 5.0% as compared to fiscal 2016 and down 4.4% in the fourth quarter.

We expect capital expenditures for the year to range between \$6.5 million and \$7.5 million representing investments in store relocations, merchandising technology applications, and the development of omni-channel capabilities.

We expect our taxes for the year to be nominal and to represent minimum fees and taxes.

We expect the 53rd week in fiscal 2017 to add approximately \$4.2 million in sales and to reduce operating income by approximately \$1.6 million.

Liquidity and Capital Resources

Cash flow and liquidity

Summary

We expect to operate our business and execute our strategic initiatives principally with funds generated from operations and, if necessary, from our amended and restated credit agreement (the “Credit Facility”) with Wells Fargo Bank N.A (“Wells Fargo”), subject to compliance with all covenants and other financial provisions of the Credit Facility. Cash flow from operations has historically been sufficient to provide for our uses of cash.

The following table summarizes our cash and cash equivalents as of the end of the third quarter of fiscal 2017 and the end of fiscal 2016:

(in thousands)	October 28, January 28,	
	2017	2017
Cash and cash equivalents	\$ 17,867	\$ 35,006

The \$17.1 million decrease in cash and cash equivalents is primarily attributable the net loss for the first thirty-nine weeks of fiscal 2017, investments in MPW store conversions and omni-channel capabilities, and changes in working capital. The working capital fluctuations are largely a reflection of seasonal patterns.

Cash Flows

The following table summarizes our cash flows from operating, investing, and financing activities for the first thirty-nine weeks of fiscal 2017 compared to the first thirty-nine weeks of 2016:

(in thousands)	Thirty-Nine Weeks	
	Ended	
	October 28, 2017	October 29, 2016
Net cash used in operating activities	\$(12,667)	\$ (764)
Net cash used in investing activities	(4,447)	(4,854)
Net cash used in financing activities	(25)	(6)
Net decrease in cash and cash equivalents	\$(17,139)	\$ (5,624)

Table of Contents

Operating Activities

The decrease in cash used in operating activities in the first thirty-nine weeks of fiscal 2017 compared to the first thirty-nine weeks of fiscal 2016 was primarily due to an increase in the net loss for the thirty-nine week period. Changes in working capital were relatively flat for the comparable periods as an increase in inventories, attributable to lower inventory levels at the beginning of the year and a decrease in accrued liabilities, partly offset an increase in accounts payable due to the timing of payments, including fashion merchandise receipts.

Investing Activities

The decrease in cash used in investing activities in the first thirty-nine weeks of fiscal 2017 compared to the first thirty-nine weeks of fiscal 2016 was mainly attributable to a decrease in capital expenditures as well as the absence of available-for-sale investment maturities and the absence of proceeds from company-owned life insurance. Capital expenditures for the first thirty-nine weeks of fiscal 2017 were approximately \$4.4 million, which primarily reflected investments in MPW store conversions and technology associated with our omni-channel capabilities.

Financing Activities

Financing activities in the first thirty-nine weeks of fiscal 2017 and 2016 were limited to a small number of shares redeemed by employees to satisfy payroll tax obligations.

We did not pay any dividends in the first thirty-nine weeks of fiscal 2017. We have not paid any dividends in the last three fiscal years.

Sources of Liquidity

Funds generated by operating activities, available cash and cash equivalents, investments and our Credit Facility are our most significant sources of liquidity. We believe that our sources of liquidity will be sufficient to sustain operations and to finance anticipated capital investments and strategic initiatives over the next twelve months. However, in the event our liquidity is not sufficient to meet our operating needs, we may be required to limit our spending. There can be no assurance that we will continue to generate cash flows at or above current levels or that we will be able to maintain our ability to borrow under our existing facilities or obtain additional financing, if necessary, on favorable terms.

The Credit Facility with Wells Fargo was amended and extended on September 8, 2014. The current expiration date is September 8, 2019. The Credit Facility provides the Company with revolving credit loans of up to \$50.0 million in the aggregate, subject to a borrowing base formula based primarily on eligible credit card receivables, inventory and real estate, as such terms are defined in the Credit Facility, and up to \$10.0 million of which may be drawn in the form of standby and documentary letters of credit.

The Company had no revolving credit loan borrowings under the Credit Facility during each of the thirty-nine week periods ended October 28, 2017, and October 29, 2016. The total Borrowing Base at October 28, 2017 was approximately \$48.1 million. As of October 28, 2017, the Company had open on-demand letters of credit of approximately \$2.3 million. Accordingly, after reducing the Borrowing Base for the open letters of credit and the required minimum availability of the greater of \$3.0 million, or 10.0% of the Borrowing Base, the net availability of revolving credit loans under the Credit Facility was approximately \$40.9 million at October 28, 2017.

See Note 5 - Credit Facility for additional details regarding our Credit Facility, including a description of the sole financial covenant, with which we were in compliance as of October 28, 2017.

In the fourth quarter of fiscal 2017, the Company also announced that it has engaged a leading commercial real estate company to solicit interest in a sale and leaseback of the Company's corporate facility in Plymouth, MN which if consummated would unlock additional capital and enhance the Company's overall liquidity position.

Sourcing

There have been no material changes to our ratio of imports to total merchandise purchases or concentration of supplier purchases in the thirty-nine weeks ended October 28, 2017 compared to the fiscal 2016 year ended January 28, 2017.

Quarterly Results and Seasonality

Our quarterly results may fluctuate significantly depending on a number of factors, including general economic conditions, consumer confidence, customer response to our seasonal merchandise mix, timing of new store openings, adverse weather conditions, and shifts in the timing of certain holidays and shifts in the timing of promotional events.

Inflation

We do not believe that inflation had a material effect on our results of operations for the thirteen week and thirty-nine week periods ended October 28, 2017.

Forward-Looking Statements

We may make forward-looking statements reflecting our current views with respect to future events and financial performance. These forward-looking statements, which may be included in reports filed under the Exchange Act, in press releases and in other documents and materials as well as in written or oral statements made by or on behalf of the Company, are subject to certain risks and uncertainties, including those discussed in Item 1A - Risk Factors of our Annual Report on Form

10-K for the fiscal year ended January 28, 2017, which could cause actual results to differ materially from historical results or those anticipated.

The words or phrases “will likely result,” “are expected to,” “estimate,” “project,” “believe,” “expect,” “should,” “anticipate,” “intend” and similar expressions are intended to identify forward-looking statements within the meaning of Section 21e of the Exchange Act and Section 27A of the Securities Act of 1933, as amended, as enacted by the Private Securities Litigation Reform Act of 1995 (“PSLRA”). In particular, we desire to take advantage of the protections of the PSLRA in connection with the forward-looking statements made in this Quarterly Report on Form 10-Q.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date such statements are made. In addition, we wish to advise readers that the factors listed in Item 1A of our Annual Report on Form

10-K for the fiscal year ended January 28, 2017, as well as other factors, could affect our performance and could cause our actual results for future periods to differ materially from any opinions or statements expressed in the quarterly report on Form 10-Q. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of our exposure to, and management of our market risks, see Item 7A, Quantitative and Qualitative Disclosures about Market Risk, in our Annual Report on Form 10-K for the fiscal year ended January 28, 2017. There have been no material changes to our exposure to, and management of our market risks in the thirteen weeks ended October 28, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in the reports that the Company files or submits under the Securities and Exchange Act of 1934, as amended (the “Exchange Act”) is recorded, processed, summarized and reported within the

time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Interim Chief Executive Officer and Interim Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

The Company carried out an evaluation as of the end of the period covered by this report (the "Evaluation Date"), under the supervision and with the participation of its management, including its Interim Chief Executive Officer and Interim Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rules 13(a)-15(e) and 15(d)-15(e) of the Exchange Act. Based on that evaluation, the Interim Chief Executive Officer and Interim Chief Financial Officer concluded that as of October 28, 2017 the Company's disclosure controls and procedures are effective at the reasonable assurance level.

Table of Contents

Changes in Internal Controls

There were no significant changes in our internal controls that could materially affect our disclosure controls and procedures subsequent to the Evaluation Date. Furthermore, there was no change in our internal control over financial reporting during the quarter ended October 28, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

The Company is subject, from time to time, to various claims, lawsuits or actions that arise in the ordinary course of business. We accrue for loss contingencies associated with outstanding litigation or legal claims for which management has determined it is probable that a loss contingency exists and the amount of the loss can be reasonably estimated.

The ultimate resolution of legal matters can be inherently uncertain and for some matters, we are currently unable to predict the ultimate outcome, determine whether a liability has been incurred or make an estimate of the reasonably possible liability that could result from an unfavorable outcome because of these uncertainties. The Company does not, however, currently believe that the resolution of any pending matter will have a material adverse effect on its financial position, results of operations or liquidity.

In connection with a preliminary settlement of pre-litigation employment claims reached in February 2017, we established a loss contingency of \$1.475 million as of January 28, 2017. In connection therewith, on April 13, 2017, a complaint was filed in State Circuit Court in the Fifteenth Judicial Circuit in Palm Beach County, Florida (the “Florida Circuit Court”) by three named plaintiffs in a purported class action asserting claims on behalf of current and former store managers. The named plaintiffs principally alleged that they and other similarly situated store managers were improperly classified as exempt employees and thus not compensated for overtime work as required under applicable federal and state law. On May 4, 2017, the Company entered into a settlement agreement with the named plaintiffs and the proposed class. On May 8, 2017, the Florida Circuit Court issued an order approving the class settlement. As approved by the Florida Circuit Court, certain current and former store managers are eligible to receive payments in connection with time worked in prior years. The settlement of the lawsuit is not an admission by us of any wrongdoing.

As part of the settlement, the Company contributed \$1.475 million into a settlement fund in the second fiscal quarter of 2017. Following approval of the settlement, opt-in notices were sent to the members of the class. After the opt-in period concluded, settlement checks were mailed to the class members who opted in, which represented approximately 58% of the class members. On November 16, 2017, the Company received approximately \$339,000 from the settlement administrator representing the remainder of the settlement fund after payment of all submitted claims and related settlement fund costs and expenses.

ITEM 1A. RISK FACTORS

In addition to the other information discussed in this report, the risk factors described in Part I, Item 1A, Risk Factors, in our 2016 Annual Report on Form 10-K for the fiscal period ended January 28, 2017, should be considered as they could materially affect our business, financial condition or future results. There have not been any material changes with respect to the risks described in our 2016 Form 10-K, but these are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also adversely affect our business, financial condition or operating results.
